RESTRICTED.

1. When agreement for freight handling charges in port is approved as recommended by Air Commodore BENSON the working of port should be assured with labour and facilities supplied MACCARINI GENERALI.

2. No labour unrest in port for wages reasons.

3. General labour in town quiet on surface at moment.

4. For political reasons trouble may be expected owing to legacies left behind by Yugoslavs. Exaggerated wages 500 or 600 lire per day promised by Yugoslav authorities on clearance work. Supplementary ration card issued in number exceeding capacity to supply.

5. Uncertainty and feeling of insecurity prevail with suspicion that political agitation will work upon labouring classes.

6. ABC working under extreme difficulties with absence of experienced staff.

7. Recommend assignment of selected labour officer namely MajorAINSWORTH as Regional Labour Officer ex EMILIA ROMEA. Colonel BOWMAN will object but Brigadier LUSH should persuade him to replace AINSWORTH. Captain MATTHEW ADAMS British as Labour Officer at FOGLA. 1 other as Labour Officer at GORIZIA and 1 other to deal with local labour problems at TRIESTE below Regional level.

8. In view of non availability of experienced labour officer recommend British Directorate of Labour at AFHQ release selected officers with at least 6 months

experience under DAIL with CIU. This should help to meet immediate problem of VENEZIA.GIULIA and also other requirements in NORTHERN ITALY.

9. Social insurance system at TRIESTE must be put on sound basis considering that it is cut off from ROME but will have to deal with large numbers requiring assistance in absence of paid employment. Finance officer strength requires addition which Regional Finance Officer Wing Commander [illegible] JONES has already requested.

10. Obviously unrest and unemployment possibilities will be reduced if industries can be kept going or reactivated. Special concessions of coal and material urged. Also permission to continue unfinished shipbuilding at MONFALCONE.

11. Armed force employment possibilities not considerable and because of local situation labour can be found at 8 ARMY scale which is basic rate plus 15 Lire per day. But cost of living now as always higher in TRIESTE than adjoining provinces and V the ADL British recommend increase general bonus to 30 lire per day which brings unskilled labour to 115 Lire per day same as 5 ARMY rate NORTHERN ITALY. Also a differential of 10 Lire per day over basic minimum for skilled workers in addition to general bonus. From study of local wages structure I support both recommendations and advise that AFHQ for AFHQ and 8 ARMY AREA authorize accordingly.

12. Labour problems in VENEZIA GIULIA include as for NORTHERN ITALY potential unemployment with necessity for relief and public assistance and relief feeding. Also continued payment of wages although full employment is not available is a feature. Also workers participation in management. Other problems smouldering. International aspect and necessity of working out self contained solutions without ROSE Government or Italian experts make essential to supply Allied staff in quantity and quality.

Italian cereal production.

Reference MAP 191.

A. Estimated wheat 10733709 acres.

B. Estimated wheat yield 2052 north, 2379 south and islands, total 1427.

C. Estimated assessing target 1500.

D. All estimates concurred in by Ministry of Agriculture.

E. Legal retentions are estimated at 2865, the same as in 1942-43.

F. Actual retentions in 1942-43 were 3695.

G. Actual retentions in 1943 expected to be 3286.

H. Net available after legal retentions 1017 north, 545 south and islands, total 1562.

I. All figures in thousand metric tons unless otherwise indicated.

2. 8% acreage reduction since last season due largely to retirement from production of mountainous marginal and interplanted grove areas and accumulated fertilizer shortage. Also reduced by flooding in PO VALLEY area and general shortage of farming equipment.

3. Estimated yield per acre sharply reduced because of widespread drought conditions prevailing which are worst since 1942 and largely without relief since March. Aggravated by fertilizer deficiencies which delayed maturing.

Declassified E.O. 12356 Section 3.3/NND No. 785015

4. Damage to high producing plains area is generally less than that to small holding especially in mountainous areas. Hence assessable total is affected only in part with proportionately greater reduction to the amount available small farmers who normally contribute little or nothing to the assessing.

5. 1945-46 crop production program not published. Detailed report current wheat crop estimate being forwarded. Data other cereals subject supplemental cable.

(D). Contractors be given first opportunity to purchase if, as and when vehicles are sold.

(E). No discrimination against small firms; ability to operate rehabilitated vehicles to be prime consideration.

3. It is suggested that vehicles be disposed of to private business rather than to Italian Government in order to provide employment for private initiative and eliminate possibility of placing economic power in hands of politicians.

4. Recommend usage present ALCOM contract which covers above.

5. Suggest disposal unusable War Department vehicles be reviewed in same light.

ACTION AMIO CITE PROBL, INFO 5 ARMY, 15 ARMY GRP, 8TH ARMY, 13 CORPS FOR SMITH, REC FOR BRITISH EMBASSY AND US EMBASSY, DISTWO, (8TH ARMY RELEASE PARAS TO 13 CORPS).

SECRET.

Following is North West ITALY item number 2 by G-2 IV CORPS and Intelligence DISTWO.

1. POLITICAL. Little reaction expressed on new government as felt that any programme must eventually depend on as yet unpublished armistice terms. Following the Basile (Prefect of GENOA) epuration sentence of 20 years on 15 June a demonstration several thousand strong and clearly Communist instigated despite denials of LUIGI LONGO in personal interview, was already being held in MILAN by 1000 hours on 16th. Death sentence was demanded but after announcement of new trial the crowd dispersed without incidents. Similar demonstrations held in TURIN, MONZA (X37) and SESTO (X2971). Left press continues demands for rise in wages and decrease in prices without reference to neccessary effect on Italian economy or world shortages blaming the capitalists. Infact press, censored mail and personal contacts show complete lack of understanding of world shortages and present Allied efforts to mitigate them and suggest Allies could right ITALYS threatened economic crisis by stroke of the pen. Recommended that overall propaganda effort be made to counter this illusion. Following posters now appearing in MILAN. "The people starve while the criminals are acquitted" and "Justice for the guilty, increases of wages, bread for the workers". Despite these activities censored MILAN mail for first half June shows falling off of communist adherents due to attitude over TRIESTE and TITOS methods while favour for action party appears increasing. Fear of leftish disorders is widespread and expressed in some 50%

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785015

intercepted mail and by many contacts. This reflected by desire of all who wish for return of order that Allies remain as insurance against such disorders. Further cases of Partisans assaulting CCRR and RCF personnel reported. Owing to their representing monarchy this branch of police very unpopular and incidents gernerally involve removal of royal insignia.

2. ECONOMIC. Deadlock continues in relations between Industrialists and workers each mistrusting the other. The demands of the workers based on rising prices and feeling that owners made too great pre-war profits show according to owners the complete lack of understanding for National economy owing to political immaturity. Owners say they are already doing all possible by paying non-working labour E. G. In ALESSANDRIA only 10000 of 27000 on pay-roll were working end May. An employers industrial association is now being formed to meet demands of government and workers associations employers and industrialists believed mainly working through liberal party. Though raising of wages of full- time workers blocked by AMG all part-time workers are being made up to full time. One effect of this payment for non working is that despite MILAN Provinces 150000 unemployed, labour for Public Works is not forthcoming. Food situation in LOMBARDY reported by AMG to be in part good and improving though prices continue to rise. However shortage of fats and sugar make balanced diet impossible. Food stands have been rushed by women in TURIN and BERGAMO owing to prices. One factor in overall rise of prices is buying up by speculators from the south resulting in removal of North/South trade ban. A number of small strikes have occurred all for increased wages. In case of factories this represents mere gesture as no work exists to be interrupted. Camera Del Lavoro has at invitation of AMG intervened and settled these.

3. PARTISANS. 2 bands of elements of former Partisans groups reported active BRESCIA Area. Leader of 1 arrested. Number of reports suggest confirmation that large but unspecified numbers of arms have not been handed in. Cases of bands extorting money continue to be reported. This would enable maintenance during summer months apart from any party backing and may in fact indicate resumption of brigand activities dear to Italian heart. Further indication of this is large amount of enemy equipment suggested as captured by Partisans in April report on 1 Special Force activities.

4. FRONTIER SITUATION. Greater numbers of CLANDESTINE crossers being picked up. These mainly Italian refugees returning home and no real security danger from these exists to date.

5. COUNTER INTELLIGENCE. 1 CIS official and 25 agents arrested during week.

6. CONCLUSION. Inability (estimated by FEA to be in 2 months time) of currency to meet continued payments with production idle, apparent unlikelihood of introducing raw materials into ITALY coupled with lessening of will to work due to payment for idleness, political disillusionment after excitement of liberation and rise in cost of living is creating situation which is good field for communist propaganda and future unrest.

Reur 191 of 20 June.

There are about 1000 Greek refugees in this area. 600 of these have been approved for repatriation to GREECE by the Greek Govt representative in ROME. Crowded conditions here make it necessary to take advantage of all possible shipping space. There is now in prospect an air lift from BARI to ATHENS which would take 100 per day, starting approx 26 PCPE (June?) and continuing for 6 days. You should be ready to accept 1000 by and available transport.

AFHQ letters AG323/061 GDS-O dated 18 March 1945 and AG323/061 GDS-O dated 25 January 1945 places responsibility of AMG which includes refugee and Displaced Persons problems on 15 ARMY GROUP during phase I and on ALCOM and DISTRICTS thereafter. Consider it inadviseble to delegate operational control within army areas of army units to ALCOM. Suggest that ALCOM be asked to rescind the above cable and that Representative for Displaced Persons ALCOM discuss with HQ 5TH ARMY any proposals or requests that will be of help in solving the overall problems. Within the scope of their responsibility believe the target figure of 5000 daily movement into and out of ITALY can be met and believe ALCOM'S problem lies largely in routing these people out of and into army areas and the care and housing in other than army areas. It is also requested by 5 ARMY and this Hq if any AFHQ Directive is forthcoming re BOLSANO conference on refugees and Displaced Persons it be forwarded as soon as possible.

AFIBB INFO AIOOM, 5 ARMY,

RESTRICTED

1. 5 ARMY has requested authority to increase wages up to 30 lire per day over maximum now authorized in AFHQ basic wage scale. 5 ARMY has been paying wages in sliding scale set forth in AFHQ basic wage scale for Southern ITALY and claim that presently authorized increase not to exceed 75 lire over minimum wage scale does not give sufficient increase for many who have been receiving maximum or near maximum and that present authority does not give sufficient differential between lowest and highest skill in same trade. The 5 ARMY proposal would authorize up to 75 lire per day over AFHQ minimum and up to 30 lire per day over AFHQ maximum. In cases where differential was such that 75 lire per day over minimum resulted in more than 30 lire per day over the maximum the full 75 lire would be authorized.

2. Request you consult interested parties and present agreed views as soon as practicable.
