1. Ministry of Supply representative first communication from MADRID reports Italians are likely to negotiate in SPAIN for purchase Rosin. Belgian embassy in MADRID had previously reported these negotiations were for 8000 tons Rosin but Ministry of Supply representative cannot confirm actually figure. Rosin on CCCB reserved commodity list and therefore in accordance with JCS airgram 27(T) Italians should not negotiate for purchase of Rosin until requirements have been submitted to CCCB via AC and CAC and they have received an allocation from available world supplies.

2. Ministry of Supply have arranged with consumer Allies a scheme of coordinated purchasing in SPAIN and elsewhere in order to keep prices reasonable. Rosin being in short supply any failure so to coordinate would produce competition between buyers and force up prices.

3. Hitherto neither military nor Italian Govt have obtained from CCCB allocation of Rosin to ITALY but we note that JCS 697(T) limited to 500 tons coloprony(?) and if Italians play the game they will obtain their fair share of available supplies under CCCB allocation though that fair share will certainly not amount to anything like 8000 tons during 1945.

4. Please take this matter up urgently with Italian Govt explaining position and say as soon as CCCP has allocated a quantity of Rosin to ITALY they should be able to obtain allocated quantity from SPAIN or other European source through Ministry of Supply and that meantime Italians requested every endeavour to prevent independent Italians inquiring for Rosin in SPAIN or any other supplying country.
