MEMORANDA
JUNE 1943 - SEPT. 1944

HEADQUARTERS
ALLIED CONTROL COMMISSION
(Adjutant's Department)
APO 394

4 September 1944

MEMORANDUM:

TO : Executive Officer (American)

1. The night of 3 September, in order to check up on irregularities of various sorts which had been reported in connection with the use of the duty car, the undersigned personally acted as Staff Duty Officer.

2. The points which arose in connection with use of the duty car were two:

a. Italian civilian employees working after hours, requested, on their own authority, the use of the duty car to take them to their homes. Due to the lack of commercial transportation facilities, it is considered that this is not unreasonable. However, the following points arise in this matter:

(1) If no restriction is placed on this particular use being made of the duty car, it is quite possible that excessive use will be made of it.

(2) The undersigned is of the opinion that this use of the duty car should be allowed, if at all, only on the request of an officer, and not solely on the authority of the employee. It might be well to require the officer's request to be made in writing.

b. A request was received from the Staff Duty Officer at Hq Region IV for the use of Hq AOC duty car on the plea that the Region IV duty car could not be reached. While cooperation between the two headquarters is to be expected, the fact that this has occurred several times in recent weeks might well be made the basis of representations to Region IV. It is considered that that unit should take steps to provide sufficient transportation for the use of their Staff Duty Officers, rather than to form the habit of calling on this Hq for assistance.

3. The tendency to regard the night duty cars as available for any purpose for which an officer sees fit to request them appears still to be prevalent. If use of this transportation is to be confined to operational needs, such as the transport to their quarters of officers who have been working late, or the picking up or delivery to the airport of officers travelling, it will be necessary to take stronger steps to enforce compliance with the current directives on the subject

b. A request was received from the Staff Duty Officer at Hq Region IV for the use of Hq AGC duty car on the plea that the Region IV duty car could not be reached. While cooperation between the two headquarters is to be expected, the fact that this has occurred several times in recent weeks might well be made the basis of representations to Region IV. a. It is recommended that the night duty cars not be sent to any point away from Hq AGC to pick up passengers, except in cases that are obviously operational, or which have been authorized prior to 1800 by the Hq Transportation Officer.

b. It is suggested that on all trips the officer employing the night duty car be required, at the beginning of the trip, to fill out and sign a form of the general nature of the attached.

TO : Hq Commandant

1. The current practice of leaving open the door leading back to the kitchens in the via molise wing of the 1st Floor, Ministero delle Corporazioni Building, results in the entire wing, for a good part of the day, being filled either with smoke, the odours of cooking, or both. This is most unpleasant, both for those whose offices are located in this wing, and for the many visitors using the stairs and lift in this wing.

2. May orders be given, please, that this door is to remain closed.

MEMORANDUM:

TO : Executive Officers (Attn: Col Slough)

1. Two factors are now serving to make more difficult the work of this department in connection with the preparation of outgoing cables and the reproduction of incoming cables. These factors are as follows:

a. The steady increase in the volume of Italian Government traffic. The Italian Government is now submitting for transmission a daily minimum average of 15 outgoing messages. On frequent occasions the number of their outgoing messages has run as high as 25 or 30. These outgoing messages for the Italian Government are required to be serviced in the same manner as messages originating within this Headquarters.

b. There has been a steady increase in the volume of traffic received for Sub-Commissions such as Land Forces and Air Forces of which the Director is located at a point remote from this Headquarters. The work of paraphrasing these messages is being passed on to this department by the Sub-Commission concerned.

2. Unless measures can be taken to effect:

a. A change in the method of handling Italian Government traffic and a transfer to the Sub-Commissions involved of the responsibility for preparing paraphrases for onward transmission of cables and radios addressed to them, or.

b. An immediate increase in the personnel of the Cable Section of this department.

the work of the section and the efficiency with which the traffic of this Headquarters is handled, will suffer.

3. Supplementing the provisions of 2b, above, it is pointed out that the Cable Section, with a total personnel of 4, is operating from 0700 to 1930 daily, and from 0800 to 1930, Sundays. Account must also be taken of days off, illness, etc.

1. In accordance with your request, inquiries were made about courier service between Salerno and Matera, with the following results:

- a. 57 Sub-Area (Naples) has no such service.
- b. 94 Sub-Area (Salerno) has no regularly arranged courier service - they do have a "DRLS" service, which means that a special run is made whenever a particularly important document is to go to anywhere on the mainland. If destined for a comparatively nearby locality - they send it by motorcycle messenger - otherwise by air.
- c. Neither these units, nor PBS, nor our Hq, Salerno, know of any regular run made from Salerno to Matera.

MEMORANDUM

TO : ALL CONCERNED

1. Effective on a date to be announced, probably in the near future, the Allied Military Government will turn over to the Italian Government certain portions of the territory now occupied by the Allied Forces. At that time Allied Military Government will cease and the Italian administration will assume full responsibility for civil government in such territory.

This will involve the withdrawal of a part of the Allied Military Government personnel from the territory. The balance will continue as representatives of the Allied Control Commission.

This memorandum is to outline certain general principles which will guide A.C.C. personnel in the territories administered by the Italian Government.

Present Status - Co-Belligerency

2. Effective September 3, 1943 the Italian Government concluded an Armistice with the Governments of the United States and Great Britain acting in the interests of the United Nations. Subsequently the Italian Government signed an instrument of surrender governing the relations between the United Nations and Italy, which instrument contained various provisions designed to protect the interests of the Allies and to promote the war effort, and called for the appointment of a Control Commission to enforce and implement those provisions.

3. Following the declaration of war on Germany, Italy was accorded the status of co-belligerent. According to the tripartite statement of 13 October 1943 announcing this new status,

"The relationship of co-belligerency between the Government of Italy and the United Nations' Governments cannot of itself affect the terms (of the Instrument of Surrender) recently signed, which retain their full force and can only be adjusted by agreement between the Allied Governments in the light of the assistance which the Italian Government may be able to afford to the United Nations' cause."

The situation of a co-belligerent does not mean that Italy is recognized as one of the United Nations or is admitted as an ally. It means that the Italian Government is fighting the same enemy and in this respect has the support of the United Nations.

General Functions Allied Control Commission

4. The general functions of the Allied Control Commission, as laid down in the directive of the Combined Chiefs of Staff, are as follows:

- (a) To enforce and execute the instrument of surrender under the orders and general directives of the Allied Commander-in-Chief.
- (b) To insure that the conduct of the Italian Government conforms to the requirements of an Allied Base of Operations, especially transportation and communications.
- (c) To be the organ through which the policy of the United Nations towards the Italian Government is conducted and the relations between the United Nations and the Italian Government are handled.

RESTRICTED

Organization of the A.C.C. Control Commission

5. The Allied Control Commission will be ex officio President of the Commission. The General Officer Commanding-in-Chief, Allied Central Mediterranean Forces, will be President. The acting senior officer of the Commission will be Chief Commissioner who will serve as Deputy President of the Commission.

6. The Commission will be divided into five Sections: Economic, Administrative, Military, Political, and Communications. Sections will be in charge of Vice Presidents or Directors and, in each case, will comprise one or more Subcommissions. The tentative organization of the Commission into its various Sections and Subcommissions is set forth in Appendix A hereto.

7. Each Section or Subcommission will maintain a headquarters staff. Some will also have representatives in the field. The existing regional organizations will be continued initially to correspond to such regional authority as may be set up by the Italian Government, or otherwise as administrative convenience may dictate.

8. A.C.C. personnel in the field will be known as Control Commissioners with designation of their particular specialist category where appropriate. For example, Control Commissioner (Legal), Control Commissioner (Public Health). The Chief Control Officer in the Region will be known as the Regional Control Commissioner (RCC).

Functions and General Duties of A.C.C. Officers in the Field

9. Particulars as to the nature of the duties of A.C.C. field officers will be specified by the Subcommissions to which they are assigned. However, the following guides are applicable to all:

- (a) The primary function of A.C.C. officers in the field will be to give assistance and guidance to and to supervise the local Italian officials and to convey such instructions to them as may be authorized either in specific instances or generally under this and further directives.
- (b) Each A.C.C. officer will also carefully observe the operation of the Italian Government in the area or administrative field of his responsibility in order to determine whether the terms of the surrender are being vigorously and effectively enforced. The results of such observations will be the subject of periodic or special reports to higher headquarters.
- (c) A.C.C. field personnel will have no power to command or direct Italian officials in connection with the performance of their duties. In this respect their powers and duties are to be contrasted with those of officers of AMG.
- (d) Particularly during the transition stage and until the authority of the Italian Government is fully established and the administrative machine is functioning smoothly, the Italian officials will probably require considerable advice, information and assistance from A.C.C. officers. It is entirely proper in this way to support the authority of the Italian officials. Care should be taken, however, not to interfere directly or to give the appearance of interfering directly in or with the local administration except in real emergency.
- (e) A.C.C. personnel must also take great care to avoid becoming involved in political disputes or conflicts. A.C.C. officers will deal only with the officials selected by the Italian Government. The competency of these officials and the quality of their administration will be the responsibility of the Italian Government. However, when officials behave in a manner likely to prejudice the position of the Allied Forces by violation of the terms of surrender or otherwise, A.C.C. personnel will take any action that may be authorized and promptly submit a report with recommendations to higher headquarters.

RESTRICTED

(f) Close coordination will be necessary between A.C.C. and tactical and administrative forces in the area. Certain committees have already been established (i.e. Local Resources Boards). Information as to these committees and other inter-service agencies will be communicated to field personnel where necessary. It is essential in order that confusion be avoided that the channels of communication with the Italian authorities remain as few and as simple as possible.

10. The disposition of A.C.C. personnel and their operations will be communicated by Regional Commissioners or by A.C.C. HQ. The following general rules will, however, apply:

- (a) Generally there will be no A.C.C. field officers in the communes or in a position comparable to that of the C.A.O. or C.A.P.O. under AMG. General administration will, therefore, be subject to A.C.C. control at the provincial level. Such local inspection as may be required will be worked out from A.C.C. regional or provincial HQ.
- (b) In the transition stage and until the Italian administration is functioning satisfactorily A.C.C. personnel will, subject to subparagraph (a) above, be disposed on a basis approaching that of AMG. An effort will be made to reduce numbers as quickly as conditions permit.

Regional Organization

11. It is understood that the Italian Government intends to appoint Italian Regional Commissioners in certain areas to function until the Italian Government can effectively communicate with and maintain control of the provinces. In other areas to be turned over, the Italian Government may communicate directly with the provincial officials. In either case, A.C.C. will initially appoint a Regional Control Commissioner. In regions in which there is an Italian Regional Commissioner the R.C.C. will, under directives of A.C.C. headquarters, establish control at the regional level and work with his Italian counterpart. In regions where there is no Italian commissioner the R.C.C. will serve as channel for communication with A.C.C. personnel in the field and as a regional representative of A.C.C. HQ.

Attitude toward Italian Officials

12. The members of the Commission, whether acting officially or otherwise, should maintain a correct attitude toward members of the Italian Government, neither autocratic on the one hand nor familiar on the other.

It must be emphasized that the Allied Control Commission occupies a position in relation to the Italian Government which is quite different from that of Allied Military Government. The Commission advises and supervises; it does not govern. This fundamental difference must be thoroughly understood by all officials and must be adjusted accordingly their attitude toward

It must be emphasized that the Allied Control Commission occupies a position in relation to the Italian Government which is quite different from that of Allied Military Government. The Commission advises and supervises; it does not govern. This fundamental difference must be thoroughly understood by all officers who will adjust accordingly their attitude toward Italian officials and agencies, allowing them to develop their functions without undue interference.

If basic differences arise between officers of this Commission and the corresponding representatives of the Italian Government, the matter at issue will be submitted to the Chief Commissioner for adjustment with the Head of the Italian Government.

MEMORANDUM:

TO : ALL Officers, HQ. AMG.

1. Officers of a superior headquarters who visit a subordinate headquarters should remember that their first task is to help the subordinate headquarters. It is particularly important that subordinate headquarters should welcome visits for the help given and should not receive unexpected criticism from a higher headquarters as the result of such a visit. Therefore when a visiting officer finds anything which appears to merit criticism he must, if it is at all possible, discuss the matter on the spot with the responsible officer and also with that officer's immediate superior, before he reports it to higher Headquarters. In this way, it is often possible to put matters right quickly and smoothly. If that cannot be done, at any rate the visiting officer will be able to return to his headquarters with a clear idea of what should be done to put matters right, and will leave behind him a feeling that higher Headquarters are trying to help and not just criticize.

2. In the case of visiting officers who are junior or whose duties do not normally touch such a matter under criticism, it is particularly important to conform to the above procedure.

MEMORANDUM

TO : All Chiefs of Sections and Commanding Officers of
all Units.

1. There have been brought to my attention several instances of an improper attitude on the part of individuals of the Allied forces toward the Italian civilian population, Civil Police and military units. The following cases are examples:

a. On November 24 American soldiers removed by force the hat of an Italian officer and drove away in a truck.

b. On November 26 a similar incident occurred.

c. On November 23 Allied soldiers fired pistol shots at an Italian officer in the vicinity of the Naples Railway Station.

d. On November 29 four American soldiers took by force money and official papers from an Italian corporal.

e. On November 26 an American officer illegally "Requisitioned" a vehicle belonging to the 10th Automotive Regiment.

f. On numerous occasions individuals have illegally taken arms and equipment from the Civil Police and from Italian military personnel.

g. On numerous occasions individuals have illegally taken away and converted to their own use items displayed for sale in stores.

h. On numerous occasions drivers of Allied trucks have failed to obey the legal orders of the Civil Police in directing traffic.

2. These incidents are indicative of a lawless attitude on the part of military personnel which must cease. They bring discredit on the Allied cause and retard the Allied effort.

MEMORANDUM (continued)

3. The Commander-in-Chief has stated that the Italians will be treated as co-belligerents. They are fighting for the same cause as the Allies, and their troops and the Civil Police are affording considerable help to the Allied forces in the maintenance of law and order. The command of Italian troops rests with their local commanders. General Antonio Basso has been designated to command all Italian troops in Campania. Operational control is vested in the Allied Headquarters to which the Italian troops are attached.

4. Looting and the unauthorized conversion of private property to the personal use of any individual are violations of the Articles of War and are punishable by the most severe sentences. Such acts are likewise contemptible and beneath the dignity of an Allied soldier.

5. I look to Unit Commanders to take the necessary steps to prevent reoccurrences of incidents such as those cited above and to insure that members of their commands conduct themselves in a manner to bring credit rather than discredit to the Allied cause.

MEMORANDUM
 DATED: 11/11/41
 FOR: SAC

11 December 1941

Subject: Port Officers

TO: SAC - Regions I & II

1. As the result of a conference with movements representatives of A.P.C., it is directed that an A.M. Port Officer be appointed in each Port City listed below. In most cases these assignments will be made from the Civilian Supply Officers in the Region. It is not contemplated that the duties of a Port Officer in the smaller ports will in all cases require his full time and, therefore, the assignment in such cases can be treated as an additional duty for the officers selected.

2. The duties of the A.M. Port Officer will be as follows:

a. To maintain close liaison with all port agencies, military, naval and civilian.

b. To follow the movement of all ships with civilian cargoes to and from his port. He will be supplied with information concerning the expected arrival of ships carrying civilian cargoes in each Port City. If such a ship enters his port which is destined for some other port, he must make arrangements for the onward movement of the A.M. supplies which are in it.

c. To report all movements of civilian supplies in and out of the port which are not in accordance with the port instructions received by him.

d. To supervise the loading and unloading of civilian goods at his port, maintaining accurate accounts of the goods shipped and received.

e. To arrange for the warehousing and proper disposition of civilian goods awaiting shipment and of goods unloaded.

f. Upon request, to prepare and send through channels the necessary information to enable higher A.M. authority to ascertain where cargoes are at any given moment.

g. To assist in the separation of delayed cargoes intended for military or naval use from those intended for civilian use.

3. The Port Officer will be a representative of the Industry and Commerce Subcommission and will be responsible through the R.C.A.C. in the normal manner. However, he will, upon request, assist the Shipping Subcommission in the performance of duties in and around the port.

7703

4. The primary duty of the Port Officer is concerned at present with imports of civilian goods directly from the Allied Governments. However, as far as possible, Port Officers should also keep in touch with civilian cargoes arriving between two or more Italian ports and civilian cargoes imported from nations other than Allied Nations.

5. Each of the following cities is designated as a "Port City."

Region I

Palermo
Catania
Siracusa
Messina
Licata
Porto Empedocle

Region II

Salerno
Reggio
Crotone

6. If additional personnel is required by any E.S.A.D. in order to comply with this directive, requests for the personnel needed should be forwarded to these headquarters.

MEMORANDUM:

SUBJECT : Position in AMG-ACC regarding Discipline and MI matters
(British Officers)

TO : Deputy Chief of Staff (Admin)

GENERAL

1. AMG 15 Army Group

This is to be a separate W.E. both under existing conditions and under the proposed over-all British W.E. for all other AMG and ACC in Italy. Not known whether the W.E. has yet been approved. This unit will therefore function quite separately, channel being from senior British officer in AMG 15 Army Group to GOC-in-C, 15 Army Group.

2. Present Position, remaining AMG and ACC.

- (a) It is not necessary to consider War Establishments.
- (b) The channel for Regions 3, 4 and (when they come under command) 5 will be through 15 Army Group.
- (c) The channel for Regions 1 and 2 will generally be to HQ, AMG. (This is further elaborated under discipline and "MI.")
- (d) The channel from HQ, ACC (Brindisi) should be from Senior British officer there direct to authority employed to convene and confirm Courts-Martial or in MI matters to AFHQ as the case may be with a copy for information to HQ, AMG.
- (e) The channel from Region 6 can only be direct to AFHQ until the region is taken over by ACC, but if this period is likely to be lengthy, consideration should be given to empowering the Regional Commander to convene Courts-Martial - confirmation by the Chief Administrative Officer, AFHQ. In MI matters, to AFHQ through HQ, AMG. (This is necessary in order to keep vacancies straight).

3. Future position when over-all W.E. has been approved, and rear AMG Territory transferred to Italian Government.

- (a) AMG 15 Army Group quite separate - see para. 1.
- (b) Channel for Regions under ACC control - to HQ, 7099 elaborated in paras 6 (b) and 9 (b) below.
- (c) (1) Regions under command 15 Army Group. This position is somewhat difficult. It is analogous to a Brigade of one division being placed for operations only under command of another, in which case discipline and MI matters, would be retained by the

705015

the parent division. But as a matter of practical convenience, I consider that applications for trial by Courts-Martial or for Summary trial under Section 47 A.A. should go to HQ, 15 Army Group. Copy to AGC. There would be no difficulty about this if 15 Army Group agree.

(ii) MS matters should and must go to AGC, but in order to obtain the opinion of these on the spot, recommendations should go through AMF 15 Army Group, the C.C.A.C. adding his remarks in a covering letter.

- (d) Channels from component parts of HQ, AGC are a matter of detail and present no difficulty.

DISCIPLINE

4. Courts-Martial, General

- (a) In the event of an officer having to be court-martialled, application would have to be made to the nearest British General Officer holding the necessary warrant to convene and confirm, for trial by General Court-Martial. This General Officer will normally be the District Commander.
- (b) There is no reason why the Court should not consist in part or in whole of British officers of AMF-AGC provided they are duly eligible and qualified under the Army Act.

5. Courts-Martial-Channels-Present Position

- (a) Regions under command 15 Army Group:-to HQ, AMF, 15 Army Group, unless they choose to empower Regions to apply direct to convening authority. Copy for information to HQ, AMF.
- (b) Regions under command HQ, AMF:- as General McHenry and yourself will doubtless wish to be informed of any cases of trial of officers by Courts-Martial, the channel of application should be as follows:
- (i) If the Senior British Officer in a Region (whether at Regional HQ or not) is Senior to the Senior British officer at HQ, AMF: By the Senior Officer of the Region direct to the convening authority, with a copy to HQ, AMF. As a matter of courtesy, if the Regional Commander were American, his prior approval should be sought, or at least he should be informed. He should NOT, however, have the ultimate power to veto the application. Such power is obviously non-existent.
- (ii) If the Senior British officer in a Region is Junior to the Senior British officer at HQ, AMF: From Senior Regional British officer, through Regional HQ, to HQ, AMF, thence from Senior British officer at HQ, AMF to convening authority.
- (c) HQ, AGC and HQ, AMF: Directing nearest authority empowered to convene. Copies for information to HQ, AMF or AGC as the case may be.

6. Courts-Martial-Channels-Future Position

- (a) Regions under Command 15 Army Group: From the Senior British officer direct to HQ, AMB, 15 Army Group if this procedure as suggested in 3 (c) (1) is approved otherwise to HQ, AOC. In the former case, copy or notice of the application to AOC for information. If such Senior British officer is Junior in rank to an American officer, the approval of the latter should first be sought or he should be notified as in 5 (b) (1).
- (b) Regions under AOC: If the Senior British officer of a Region is Senior to the Senior British officer at AOC, from the first mentioned to the convening authority with copy as in (a) above. If he is Junior, to HQ, AOC and thence to the convening authority.
- (c) HQ, AOC: From the Senior British officer direct to the convening authority.

7. Summary Trial under Section 47 of the Army Act - Present and Future position.

Same channels as in paras 5 and 6 to the nearest officer empowered to deal with such cases summarily. (This will ordinarily be the same officer as in para 4 (a) i.e. the nearest officer empowered to convene and confirm Courts-Martial.)

MS MATTERS

8. AMB 15 Army Group

Entirely separate - see para. 1.

9. Channels - Present Position.

- (a) Regions under command 15 Army Group: Until the over-all S.E. is approved, activated Regions have their own separate S.E. No objection, therefore, to filling vacancies by advancement of officers within the Region. Channel should be from Senior British officer in the Region (with concurring covering letter from Regional command if American) to AMB 15 Army Group, thence to GOCIN 15 Army Group, then to the War Office, and to AFHQ for information for publication in GMRs in the case of promotions. 15 Army Group should forward a copy of MS list to the HQ, AMB.
- (b) Regions under command HQ, AMB.
 - (i) If Senior British officer in Region is Senior to Senior British officer at HQ, AMB - to AFHQ through HQ, AMB.
 - (ii) If not Senior, to HQ, AMB thence to AFHQ.
 - (iii) In both cases, concurring covering letter from Senior American Regional Officer if Senior to initiating officer.
- (c) HQ, AOC and HQ, AMB - direct from Senior British officer to AFHQ. Concurring covering letter from Senior American officer if Senior to initiating officer.

10. Channels - Future Position.

- (a) Regions under command 15 Army Group. (See para 3 (c) (1).)
 - (i) If Senior British Regional Officer is senior British officer at HQ, AOC. From Senior British Regional Officer

If from H.Q. AOC through HQ AOC to HQ AMB 15 Army Group if not Senior to Senior British officer at HQ, AOC. If Senior to Senior British officer at HQ, AOC direct to HQ, AOC.

(with concurring covering letter from Senior American officer if Senior) to HQ 15 Army Group through HQ, AOC for transmission to AFHQ. (This is essential for information and record purposes.)
(ii) If not Senior, as above to HQ, AOC, thence to HQ 15 Army Group for transmission to AFHQ.

(b) Regions under command AOC: As in (a) above.

(c) HQ, AOC: Through channels to be arranged to AFHQ. See para 3 (d).

11. Powers of Regions and AOC - Future Position.

Note: Present position is not discussed, since owing to the WE position, all recommendations must go to AFHQ.

- (a) Since there will be an over-all WE and since all officers are Staff officers, it will not be possible to delegate any powers to Regions - all matters must be dealt with at HQ, AOC.
- (b) In any case, such matters are, except in the case of officers under command 15 Army Group, reserved by AFHQ, where they are dealt with by the Chief Administrative Officer. All recommendations will, therefore, have to be forwarded to AFHQ except those under para 14 below.

12. Advancement of officers (AFB194D)

AFB194D should not be submitted "as and when required." As advancement depends entirely on vacancies, this only results in the accumulation of forms (of which every intermediate HQ will desire to retain a copy.) A system of quarterly returns should be instituted, giving name, rank, present appointment, appointment and rank for which recommended, and whether or not AFB194D has been rendered. AFB194D should then be called for (if the recommendation is approved) when there is a vacancy to which the officer can be promoted.

13. Adverse Reports (AFB194E)

These should be submitted immediately, as soon as the initiating officer has come to a decision in the matter.

14. Change of Employment

- (a) AFB194F should be used only when the initiating officer recommends transfer to employment outside AMG or AOC, Italy. It may be submitted at any time.
- (b) If transfer to another appointment in the same rank within AMG or AOC is recommended, the procedure should be for the initiating officer to submit a recommendation in letter form, stating:
 - (i) Appointment or type of appointment for which recommended.
 - (ii) In the case of an officer in a Region, whether the proposed transfer is within the Region or to an appointment outside the Region.

7687

(iii) Whether the officer consents to the transfer.

(iv) Full reasons for the recommendation.

Since there will be an overall W.E. such transfers can be carried out easily by HQ, ACC except transfers as between ACC and AMC 15 Army Group, which would have to be referred to AFHQ. This procedure should only be used when neither AFHQ94D nor E is applicable. In the case of transfer to and from Regions under command 15th Army Group, HQ, ACC would seek the prior consent of AMC 15th Army Group. AFHQ to be informed.

Colonel,
Executive Officer.

MEMORANDUM TO: Colonel Roberts, AGD, 15 Army Group

1. I received your memorandum with regard to classification of orders and I must admit that I really missed the boat on that one.

2. For the past two months I have been working overtime trying to issue travel orders with only the Restricted classification to teach some of these "jockeys" around here that it was possible to type something on a piece of paper without classifying it as Most Secret. It was so bad that even toilet paper was classified as Confidential.

3. I warned all of my clerks that they were to be very careful and not get anything out such as was in this order picked up by G-2, your Hq. Actually, it was my fault for signing the thing and permitting it to go out. You may rest assured that I will be more careful in the future.

OFFICE OF THE ACTING FIELD OFFICERRECOMMENDATIONSDIVISION OF RESPONSIBILITYCOORDINATING FUNDS AND LIAISONS, BETWEEN NATIONAL HEADQUARTERSAND REGIONAL HEADQUARTERS AND

1. GENERAL REMARKS. These recommendations are made in the light of limited knowledge of the present operating and administrative responsibilities of this headquarters as the National Headquarters AMG. When an Italian Government is set up, say at Rome, and this headquarters functions as an Allied Control Commission thru that Italian Government, the recommendations here submitted would be applicable only in part.

2. POLICY, OPERATIONAL PLANNING AND CONTROL. Matters concerning funds and liaisons should be handled locally in the regions by the R.C.A.O.s within the bounds of policy announced by the Commanding General, National Hdqrs. A.M.C. By means of (1) announcements of policy, (2) a system of operating stock reports, (3) reports on local production, (4) allotments of reports to R.C.A.O.s, (5) control of transfers of products between regions, (6) field visits and inspections, and (7) such other means as are necessary and practicable from time to time, the Commanding General National Hdqrs. A.M.C. may promulgate and enforce policy on the national level and may coordinate the actual operations of the various regions, each R.C.A.O. being the responsible operating head in his region.

3. COORDINATION. All correspondence originating within a region and directed to the Commanding General, National Hdqrs. A.M.C. must be signed by or forwarded by an officer of the R.C.A.O. or such other persons as he may designate to sign "for the R.C.A.O." and must be addressed to the Commanding General, National Hdqrs. A.M.C. "Attention" the appropriate staff division and/or officer and should never be addressed to an individual. Similar procedure should be in effect with correspondence from the Commanding General, National Hdqrs. A.M.C. to the various R.C.A.O.s, all being signed by the Commanding General, or "for the Commanding General" by such persons as he shall designate. It is suggested that power of signature on correspondence dealing with matters already covered by existing policy be delegated by the Commanding General, and that signature on any correspondence dealing with any new policy or important new interpretations of existing policy, be not delegated to sub-commission Chiefs but rather confined to the Chief of Staff.

4. FIELD DIVISIONS--VISITS AND INSPECTIONS. It is recommended that the Commanding General set up as a main subdivision of his staff, operating directly under his Chief of Staff, a Field Division, with the function of making periodic visits of several days duration to the various R.C.A.O.s and of returning written inspection reports of such visits to the Commanding General. Such reports, or applicable portions, should be circulated to the sub-commission Chiefs concerned and the Chiefs should be invited from time to time to offer suggestions to the Field Division as to matters to be covered in such reports.

In addition to visits by officers of the Field Division, Chiefs of sub-commissions or members of their staffs recommended by them should, controlled

2. POLICY, OPERATIONAL EFFICIENCY AND CONTROL. Matters concerning internal and external relations should be handled locally in the regions by the R.O.A.O.s within the bounds of policy announced by the Commanding General, National Headquarters. By means of (1) announcements of policy, (2) a system of operating stock reports, (3) reports on local production, (4) allotments of imports to R.O.A.O.s, (5) control of transfers of products between regions, (6) field visits and inspections, and (7) such other means as are necessary and practicable from time to time, the Commanding General National Headquarters A.M.G. may promulgate and enforce policy on the national level and may coordinate the actual operations of the various regions, each R.O.A.O. being the responsible operating head in his region.

3. COMMUNICATIONS. All correspondence originating within a region and directed to the Commanding General, National Headquarters A.M.G. must be signed by or forwarded by inhouse mail of the R.O.A.O. or such other persons as he may delegate to sign "for the R.O.A.O." and must be addressed to the Commanding General, National Headquarters A.M.G., "Attention" the appropriate staff division and/or officer and should never be addressed to an individual. Similar procedure should be in effect with correspondence from the Commanding General, National Headquarters A.M.G. to the various R.O.A.O.s, all being signed by the Commanding General, or "for the Commanding General" by such persons as he shall designate. It is suggested that power of signature on correspondence dealing with matters already covered by existing policy be delegated by the Commanding General, and that signature on any correspondence dealing with any new policy or important new interpretations of existing policy, be not delegated to sub-division Chiefs but rather confined to the Chief of Staff.

4. FIELD DIVISION--VISITS AND INSPECTIONS. It is recommended that the Commanding General set up as a main subdivision of his staff, operating directly under his Chief of Staff, a Field Division, with the function of making periodic visits of several days duration to the various R.O.A.O.s and to rendering written inspection reports of such visits to the Commanding General. Such reports, or applicable portions, should be circulated to the sub-division Chiefs concerned and the Chiefs should be invited from time to time to offer suggestions to the Field Division as to matters to be covered in such reports.

In addition to visits by officers of the Field Division, Chiefs of Sub-Divisions or members of their staffs recommended by them should, controlled by Travel Orders issued in National Headquarters A.M.G. visit the R.O.A.O.s and their Regions from time to time as is necessary to proper functioning.

All visitors from National Headquarters A.M.G. to a Regional Headquarters should advise the R.O.A.O. of the intended visit, stating briefly the date of arrival, purpose and probable duration of the visit, should seek the R.O.A.O. immediately on arrival at his headquarters, and should clear with him, if practicable, prior to departure from the Region.

5. NOTE. These recommendations should be considered in connection with those made in "Proposed Mission, Staff Functions, Operations and Organization" which were transmitted to the Commanding General, National Headquarters A.M.G. as an inclosure to memorandum dated 30 Oct. 43 from the Acting Chief Fuel Officer.

1. Attached herewith list of vacancies for Region IV, AMGOT 15 Army Group and AMGOT 8th Army on which you wanted us to indicate what we could fill. You will note from the attached list of surplus officers here in Sicily that there are very few of them in the higher grades who could be utilized to fill these position vacancies.

2. We have no information on what is available at Tizi Ouzou, so General McSherry has indicated efficiency ratings on surplus officers and he would like to have the people at Tizi consider these names along with individuals available there and make their recommendations for posting to the vacancies listed.

MEMORANDUM TO: Brigadier General Julius C. Holmes.

1. In order that Hq Allied Military Government may function in a more efficient manner, it is essential that administration and control of personnel be centralized. All administrative instructions, assignment and reassignment of personnel must emanate from one point if we are to have an organization that is at all times controlled by the Chief, Hq Allied Military Government. Reports and returns covering personnel, supplies and all other activities of military government must be directed to one central Hq so that that Hq is always cognizant of, not only the activities in its own Hq but also is familiar with the situation in even the remotest regions.
2. Centralization of control must be achieved in order for the Commanding General, Hq Allied Military Government to make intelligent decisions; his staff must be completely informed if they are expected to serve efficiently in an advisory capacity. Therefore, the Commander and his staff must not be separated.
3. Your attention is invited to attached letter published by this Hq at time of redesignation of Amgot. It is intended that similar instructions will be issued covering the submission of strength returns and reports on British personnel. These reports will be consolidated here and forwarded to higher Hq. You will note that promotions of officers and enlisted men is to be controlled from this level. The posting of British officers to the War Establishment should also be controlled at this Hq.
4. It is strongly recommended that this Hq be given complete authority over all administrative activities and personnel connected with military government in Italy, Sardinia and Sicily, ~~excepting~~ personnel assigned to Amgot, 15 Army Group. The School for Military Government and Holding Center, presently located at Tizi Ouzou, would then come under our control and closer coordination between the planning staff at the School and the operating staff serving with this Hq would result.

2. The 2675 Hq Co AMG, as such, will become Administrative Detachment #3 of the Regiment. There will be no lettered companies in the Regiment, but a number of administrative detachments, as it is felt this will provide more elasticity. It will be necessary for you to have your Adjutant make up a final roster for the 2675 Hq Co AMG, and an initial roster of Administrative Detachment #3, 2675 Regiment, Allied Commission and forward them to this Headquarters with the least practicable delay.
3. It is expected that the orders completing the redesignation will reach you within a few days. These orders will contain instructions covering submission of reports to this Headquarters, however, after you have submitted your final roster, all Morning Reports, C-1 Reports, and Rosters should be forwarded direct to this Headquarters for consolidation into Regimental reports.

MEMORANDUM TO: Capt RICHARDSON, MGS, AFHQ, APO 512, U. S.
Army.

1. This is just to let you know that I haven't forgotten your request for T/4 Eugene W. Walterick, 13074526 and T/4 Leroy F. Wood, 13069535. However, before anything can be done about transferring them to AFHQ, it will be necessary for you to provide suitable replacements from your present office force or the school. We are very short of enlisted men here in view of recent demands made by Regions 2 and 3 and by the Economics and Supply Division to take care of their increasing activities.

2. Recommendations have been received in this office from officers who have had to work with personnel coming out of the school at Tizi with regard to censorship and security instructions. I'll pass this along for whatever action you think is necessary and I would recommend that the people at the school responsible for these matters be informed so that corrective action may be taken.

a. Our Security Officer has recommended, very strongly, that instructions be given covering such topics as the danger of loose talk, security of installations, and the handling and safeguarding of classified documents.

b. The censorship question is rather hard to get at, owing to differences of opinion between American and British higher Hq as to what is permissible in private correspondence. NATOUSA Circular 86 governs for American personnel and, undoubtedly, the British have issued some instructions on this subject. General McSherry has had to impose punishment under the 104th Article of War on several American officers because they were careless and disclosed vital information. This punishment has resulted in the payment of several fines exceeding \$100 and the handing out of administrative reprimands to officers who have been picked up. In view of this, I believe that all personnel ⁷⁶²⁴²¹ should be told what they can expect if they are careless in their correspondence.

Declassified 8.3.1986 Source 1.1/1986

Memo to Capt Richardson, dtd 14 October 1943, cont'd.

3. In the past two or three weeks there have been several shining examples of overclassification of cables and letters emanating from AFHQ. Because this practice of overclassifying everything, regardless of its contents, results, eventually, in carelessness and failure to observe proper security on the part of clerks who handle these documents also involves additional work in securing receipts in passing them from hand to hand, it would be very much appreciated if the personnel in your office and at Tizi would make a real effort to eliminate some of the "secret" and "confidential" letters and cables that are sent out.

1. Your attention is invited to inclosed copy of War Department Movement Orders on nine officers from the United States to Algiers, reporting to you for duty on arrival thereto. Eight of these officers reported at this Hq yesterday (Major Jones apparently missed the boat). The ship they came over on did not stop at any port in North Africa and was not scheduled to stop in North Africa after leaving here.

2. Information is requested as to what disposition you desire to have made of these officers. If necessary, I believe that we could make arrangements to get them back to Algiers on short notice. Pending instructions from you, we are assigning them to Provincial Hq, nearby, in order that they may pick up a little experience on just what might be expected of them in later operations. Public Health people here are of the opinion that the type training they would receive in the provinces would be of more value to them than a short course at Tizi Ouzou. In view of this, it is requested that these officers be assigned to Amgot by NATOUSA order.

3. With reference to your cable No. 369 dated 28 September 1943, cite CIMGS, directing that Major Max Matthews, Inf, proceed to Cagliari, Sardinia or return to Algiers, this is to inform you that he will depart by plane from Palermo to Cagliari, Sardinia at 1600 hours this date.
