1. AFHQ letter, file AG 312.4-1 SIG-0, dated 22 April 1944, subject: "Use of Abbreviations and Short Title Unit Designations", and amendments thereto dated 6 July 1944 and 7 September 1944 are rescinded. The use of non-secret short title unit designations has been discontinued. Either the full designation or an authorized abbreviation, as listed below, will be used in the heading and texts of messages to be transmitted by electrical means as well as in correspondence.

2. Reference is made to AFHQ Signal Instructions, Item 2, Section V, subject: "Submarine Cable Communications", for listing of authorized telegraphic addresses. A telegraphic address is a short meaningless word assigned currently to a civil, diplomatic, or political agency only, for use in routing traffic via commercial communication channels; whereas an authorized abbreviation is used by a military organization in lieu of the full official designation, in the text of a message or in the heading when routing is in plain language by secure signal channels.

3. The list of authorized abbreviations below is not intended to include all headquarters and units in the theater. It has been restricted to those to which traffic is particularly heavy and whose designation lends itself to an intelligible abbreviation. The list must be kept short enough to permit complete familiarity by all personnel who must use it. Therefore, additions to the list will be kept to the minimum.

4. The list of abbreviations authorized to date is as follows:

These short titles are not secret code words for units, but are merely to be used for brevity in messages in place of the full name of the unit. Subordinate commands will submit additional proposed non-secret short titles for elements of their command to this headquarters for approval and announcement.

3. For uniformity and to avoid confusion, no other non-secret abbreviations or non-secret short titles should be used for these units. The purpose of these short titles is brevity in the preparation of messages and to facilitate the transmission of messages by electrical means. The short title is to be used in the text of the message in place of the whole name of a unit or installation. They are not to be used in addressing official correspondence. All new short title names or changes in non-secret short titles will be approved and announced by this headquarters.

4. For convenience, the list of Short Title Unit Designations is in two parts; Part I being the units or organizations listed alphabetically and Part II being the Short Title Unit Designations listed alphabetically.
