That I have the same. Look at the file of cables containing
the information I ever had and I have nothing to add.
You will find a cable from Tamato giving the details
about the LOCKER. In view of your latest information,
is there any possibility that Locke is a cabled error
for Lockhead (Aircraft)?

Short of going down to Tamato (it always seemed to
me that their replies were unsatisfactory) it would seem
difficult to get at what actually happened.

To the Lord Standgate.

Dear Sir:

I thank you heartily for your immediate interest in the question concerning the appointments and transfers among the staff of the Ministry of Agriculture. Minister Gullo has told me that he will speak to Lt. Col. Hartman again on the matter; I am sure a satisfactory solution will be found.

A Lord Stansgate,

La ringrazio vivamente del Suo sollecito interessamento per la questione relativa alle nomine e ai trasferimenti nel personale del Ministero dell'Agricoltura. Il Ministro Gullo mi ha detto che parlerà nuovamente col Ten.Col.Hartmann in proposito, e sono certo che potrà venire trovata una felice soluzione.

Brigadier M. Carr
RC, Region VI

I read with greatest interest your letters of the 15th and 16th of June describing the problems of which I had some knowledge when I had that enjoyable visit to the Island. I am delighted to hear of the progress made in clearing the prisons and also about the excellent Tunny catch.

I am sorry Col Spicer arrived too early. I don't know how the mistake occurred but as far as I know, it was not the fault of Col Cripps. However, I am sufficiently familiar with your hospitable Island to know that our guest would receive a warm welcome. If I get a chance I should like to come back but I have a longing now to pay a visit to Elba.

Ever yours sincerely,

STANSGATE
