MEMO FOR OFFICE SPACE COMMITTEE:

Subject: Independent Sub-Commissions. Requirements of.

1. The following data is furnished with respect to the requirements of the independent subcommissions for office space:

COMMUNICATIONS SUBCOMMISSION

A. Rooms occupied	-	6	
B. Number required	-	8	
C. Number of officers	-	5	(Complement-6)
D. Number of ratings and Civilians	-	11	
E. Number Senior Officers	-	1	Colonel.

The present location and number of offices allocated to the Communication Sub-Commission is stated to be satisfactory.

WAR MATERIAL DISPOSAL & PRISONERS OF WAR SUBCOM.

A. Rooms occupied	-	3	
B. Number required	-	10	
C. Number of officers	-	9	
D. Number of ratings and civilians	-	24	
E. Number Senior Officers	-	1	Lt. Colonel.

The present location of the War Material Disposal & Prisoners of War Sub-Commission is stated to be satisfactory. Two (2) additional rooms are required.

AIR FORCES SUBCOMMISSION

A. Rooms occupied	-	11	
B. Number required	-	16	
C. Number of officers	-	15	
D. Number of ratings and civilians	-	13	
E. Number Senior Officers	-	1	Air Vice Marshal. 3 Colonels.

2597

MEMO. FOR OFFICE SPACE COMMITTEE. (Cont'd).

NSC/1939.

AIR FORCES SUBCOMMISSION

Office space for the Air Forces Sub-Commission must be on the 3rd floor or lower. For this reason the present location while not satisfactory, is acceptable. Five (5) additional rooms are required.

NAVY SUBCOMMISSION

A. Rooms occupied	-	11	
B. Number required	-	16	
C. Number of officers	-	12	
D. Number of ratings and civilians	-	16	
E. Number Senior Officers	-	1	Rear Admiral.
		1	Commodore.
		2	Captains (Colonels)

The present location of the Navy Sub-Commission's offices is wholly unsatisfactory. Space is required in a location commensurate with the standing of the Sub-Commission. Location on a higher floor is acceptable. Four (4) additional rooms are required.

H. J. Butler

H. J. BUTLER,
Captain, U. S. Navy.

Chief of Division 478827

Memo

To : Chief Commissioner, Allied Commission

1. The problem of allocation of office space in head quarters building is intensified by the increase in personnel of the Land Forces Subcommittee. This Sub-Commission is being increased by 23 officers and 63 ORs and General Browning has requested that additional space be allocated to him by 1 March, to provide accommodations for this personnel. For your information, I attach a table showing by Sections and Independent Subcommittees the number of officers, EM/OR and Italian civilians, together with the number of officers presently allocated. In this table, Allied civilians of officer status are listed as officers. Allied civilians not of officer status are shown simply as Allied civilians. The Italian civilians shown thereon are Italian civilians occupying office space and do not include maintenance personnel, messengers and receptionists.

2. You will note the exceedingly large number of Italian civilians occupying office space; the number which I think could and should be materially reduced. Various proposals have been made for moving certain elements of the Commission outside this building. I do not believe this is necessary or desirable. I feel, rather, that the headquarters of the Commission can in fact reduce itself to the size of the building. A fair average density on a sectional basis appears to be three persons per room. I recommend, for your consideration and decision, the following:

a. To solve the immediate needs of the Land Forces Subcommittee, the "Field Regions" now occupying offices in the building, be required to vacate them, with the exception of two rooms which will be set aside and properly equipped for visiting Regional Commissioners and their staffs. That the number of rooms allocated to the various Sections and Independent Subcommittees be determined for the present on the density of three persons per room and that the elements of the headquarters which are now occupying more than that proportionate number of rooms be required to vacate them.

b. That progressive reduction in the number of Italian civilian employees occupying office space be undertaken at once on a percentage basis, to be determined by the Manpower Committee.

NORMAN E. FIBKE,

Colonel

Deputy Executive Commissioner

Reference letter 75/Ext. dated 12 Apr 45 addressed to you by Executive Commissioner. para 2.

- 1 It is regretted that it is not understood which plan is to be developed. May this be made clear, please.
- 2 Is it to be understood that every point contained in Para 1 of 2/5.1/CA of 29 Mar 45 with the exception of 1(d) and 1(f) is definitely disapproved? Of the points there mentioned, 1(a), 1(b) and 1(e) are of importance as they involve the method of use of some 20 rooms and their allocation will gravely affect planning. It is considered that the present use of these rooms is not the best which can be made in the interest of Headquarters as a whole. If the present use is to be continued, it is requested that a definite ruling to that effect may be given.
- 3 It is suggested that the main committee should be called at once to discuss the reply which has been received.

use-the last in coming to this headquarters for it but a car has to be sent for it, involving a further loss of time, which can be avoided by the unnecessary use of a car. The answer of "overhead" is not a good one, with a, efficient system and a competent staff, it can be as well located after in one place as another.

Various Administrative Offices appear to have excessive space, in particular the message and signal sections. This point is raised separately from that of the general use of the more crowded use of space by personnel, as it involves technical decisions as to the adequacy of the space for the functions to be performed upon which this decision is not competent to express an opinion.

4) Several rooms are allotted to Northern Section and to R. N. Italy Planning. They did not appear to be in use. Are these still required? If so, it will probably be more economical in space to have a number of larger "visiting officers room" in which several officers could work and in which several phones could be installed instead of having so many separate rooms allotted. A decision is requested as to what rooms can be released.

5) There does not seem to be any reason why women and the officers concerned with the administration of the R. N. should be located in this Headquarters rather than in company offices in or near the men's billeting.

6) A number of external bodies working with us are still in this building. If accommodation is so tight as it is, there should be rigorous exclusion. If this is not equally applied not only in disconcert caused but pressure is brought for "most favored nation treatment" and matter have to be dealt with on a personal basis instead of a rule for all. May it please be ordered that all foreign bodies will go.

7) The use of exceptionally small rooms for individual officers is (with exceptions) not justifiable with the present shortage of space. Such rooms should hold a large number of clerks and three or four small rooms which are inconvenient and inefficient for clerical work.

8) A principle of efficient office distribution is that those offices to which access is required by persons who are not members of the organization, should be located in the more accessible parts of the building and that those offices which are concerned only with the internal administration of the organization should be located in the less accessible portions of the building. It is requested that the committee shall be instructed that this principle shall be followed.

2. On receipt of the decisions on the above points, the committee propose to prepare plans.

a) Three plans are under consideration:

1) One - which will, irrespective of the ideal distribution, be that which requires the minimum number of changes to constitute economic section.

2) One - which will concentrate sections and savings for reasonable accessibility according to functions at the same time making the minimum changes to effect that purpose.

- 111) One - which is probably the most efficient, by arranging the Heads of all Sections and principal Officers with their respective section staffs on the same floor as but in the other wing from the Chief Com-missioner, with the Sub-Commissions of the Sections concerned being accommodated as near to their Sectional Chief's Offices as may be, regard also being had to accessibility.
- b) The last is probably theoretically the soundest method of allocation but it is realised that it would involve the greatest number of changes and might not be very acceptable to the senior officers who loose spacious and con-siderable offices to which they have become accustomed. It would not only bring all Section Heads together but would facilitate the distribution of files and letters and other office administration; it would facilitate co-ordination and liaison and would bring all Heads on to the main landing where they are most readily accessible to important visitors.
- c) It is requested that a decision be obtained as to which of these plans shall be developed.
