Re: Pol. /-A Letter CAS 16 Feb 46 to Ministry of Interior
Subject: Marriages with Italians (Indians)

Pol./66

Dott. Sori of the Cabinet, Ministry of Interior, informs that this matter has been handled by Dott. MIGLIORÉ (Tel. 459184 Ext. 6041) of the "Direzione Generale per la Sicurezza" (Affari Generali Riser vati).

The position is that after consultation with the Ministry of Foreign Affairs, the Ministry of Interior is in principle favorable to allow Indians who have married Italian women to return to and settle in Italy. Communication thereof will have to be given to the Italian Authorities as each case arise.

A reply to the above letter, which will be signed by the Undersecretary Spataro, will be forthcoming shortly.

Major A.J. Rossi Trieste.

Dear Major Board,

Thanks for your kind a courteous letter of July 31st with copy of that that you have addressed to AMG headquarters.

In examining carefully invoices and books I discover some irregularities every now and then, for instance, contrary to your verbal offer and confirmed as per letter (File APC.502.6-13/44, etc) addressed to Denicé on some date, that is, about the 25th discount with all this discount were given to five different buyers as was. Art. 100, Italian, Invoice 5052, Conchignano Military Inv. 5853, Avv. Pasquino Civiles inv. 5954 (only Shandkerchiefs were delivered to him at a 150 lire each and invoiced at 105, the remainder of the goods was taken by someone and undoubtedly sold at speculators prices, on a good number of the invoice Mr. Denicé has undersigned a declaration that he kept a good part of the goods that all wild-very person I want, I also presume that this has been also sold cheaply. Invoices 5055 Cap. 100000 and 5057 St. 10000 also got the concession of the discount (I wonder if they got it materially or

Mr. Denicé declares that you have authorized him to give a small amount over the sum of the invoice, I asked him if he had it in writing, of course he was the answer, but he insisted that it was given verbally.

Can you possibly tell me where I can get representative copies of all documents that may interest my firm.

Captain Denicé: I hope to get in touch with him soon and find out

Letter to the Board,

Thanks for your kind & courteous letter of July 31st with copy of that that you have addressed to AIG headquarters.

In examining carefully invoices and books I discovered some irregularities every now and then, for instance, contrary to your verbal order and confirmed as per letter of 10-6-58, I had not accounted to Dupleix on same date, it is about the 2nd discount with the 1st discount were given to five different buyers as follows: Capt. J. M. Givran, invoice 8933, Comsignano Military Inv. 5855; Av. P. B. Givran, invoice 8934 (only Comsignano Military were delivered to him at a low rate each and involved at 175, the remainder of the money was taken by someone else and undoubtably sold at speculators' prices, on a good number of the invoices Mr. Dupleix has written "no declaration that he kept a good part of the goods that all military personnel bought, also procure that this has been also sold conveniently". Invoice 8935 Cap. J. M. Givran, invoice 8936 also got the concession of the discount. I wonder if they got it materially?

Mr. Deakle decides the sum of the invoice, which will be \$10.00, is correct and agrees to pay the same. He then writes a check for \$10.00 and sends it to the bank.

Can you locate all records I am on, estimate number copies of all documents that may interest my firm.

Captain Venero: I hope to see in touch with him soon and find out something about the Hook.

transferring of property. I am very anxious to know whether I can
sell home (to the stores) what has been under construction, that is,
the amount of the first inventory when the semiconductor took over
the business.

Permit Capt. Bullback: One of my employees call my attention to this, he suspects that the matter is not yours, will you please examine it carefully. I am enclosing it herewith.

Something in June I had the pleasure of having a rare meeting with Lt. Col. L. Montague A.O. Chief Liaison Officer Sicily, after explaining my situation he advised me to write headquarters and ask that if you and Major Helmutt should be in Italy, it would be advisably to ask the commanding officer, if he would permit you both to come to

Palermo; and help me solve the embarrassing situation I am in. If you are of the opinion this can be done I would appreciate your answer advising me to whom I should address my letter.

In paragraph 5 of your letter your intuition about Daniele was right, if I was to tell you everything that I have discovered in of irregularities that I have found, I would have to write a good many pages, undoubtedly your presence here could help me a great deal, I am of the opinion that Daniele alone couldn't of done things alone, my great suspect is, that his helpers were the men around him all the time like Ray, Matroga, Boschignano etc.

As to Greco of course Major Helmutt can help me as far as I can about his things. But no one else can, I have discovered in the accounts important that Dott. Filosto was surprised to know, or I think he learned at that time, if I am not mistaken it was also he who examined the book during Daniele's administration.

Trusting to hear from you by return mail;

Your very truly

To the ALLIED CONTROL COMMISSION,

ROME.

After having written in vain to the Ministry of the Ex-Italian Colonies I am compelled to turn myself to you.

My family - my wife, my four sons and my sister, residing in Certaldo (Florence) - don't receive the quota of my wages since two years; that is the reason why they live in misery. Besides our house was in ADDIS ABEBA and all remained there. - On the 28 January 1946 my old father died, who replaced me by my children. - I, in April 1937, was permanently employed by the Governatorato of Addis Abeba, Group B, ninth grade. I remained by the Municipal Administration of the town up to the last day of evacuation helping a lot to the B.M.A. I am in sorrows because of my children and beg for your kind interest to put an end to this injustice.

Request indemnity.

I, the undersigned Ferro Francesco, son of Rosario, domiciled in Partinico (Palermo) Via delle Croci no: 17, am in very difficult financial conditions as I have my wife to support and a family of seven, two of which are returned soldiers.

Having as yet received no assistance I apply to the Allied Commission for a bonus of 3,000 lire and a gift parcel for seven persons.

Enclosed herewith I forward you a civil-status certificate of my family.

Trusting you will understand my need I thank you in anticipation.

AL PARTIGIANO MASCETTI NAZZARENO

L A T I N A

Il sig. Nazzereno Mascetti da quanto risulta dagli atti di questo Ufficio, come partigiano è stato organizzatore e primo fautore per la creazione della sede Provinciale dei Partigiani d'Italia in Latina.

Fino al 21 Ottobre 1945 egli ha retto, quella segreteria Provinciale interinalmente, dando a questa organizzazione ed impulso nella sua nobile finalità.

La sua reggenza è stata di lodevole effetto specialmente nel campo assistenziale nel quale si è distinto con elargizione che ammontano a circa lire 80.000,00

Nelle successive elezioni riconosciuto come vice segretario provinciale a declinato tale incarico, per ragioni di salute; (esaurimento nervoso) rimanendo sempre a far parte del Comitato stesso.

Tutto questo è stato scritto e si conferma la verità. / =

A CHI POSSA INTERESSARE:

Il sottoscritto Civile Italiano, il cui numero di carta di identità appare più sotto, MASCIETTI NAZZARENO, da Le Ferriere, è stato impiegato da questa Sezione dal 26 marzo al 26 maggio. Precedentemente egli fu alle dipendenze del Maggiore DONALD LONG della 3a Divisione Batteria Sezione A.M.G., il quale trovò preziosi i suoi servizi resi.

Egli è stato investigato dal G.I.C. e qualsiasi informazione al suo riguardo può essere ottenuta dal Capitano COSSELLO, Ufficiale comandante il CIC del 6o Corpo.

Durante il periodo in cui il Mascetti fu impiegato presso questa Sezione, lo stesso si dimostrò fedele, subordinato, competente e leale. Nella vita civile il sottoscritto Mascetti è impresario stradale e sa come trattare i civili italiani. Egli è un forte lavoratore e conosce la regione di Littoria e le zone al nord della stessa. Dato il nostro trasferimento in altro settore questa sezione ha promesso i servizi del Mascetti al Capitano ROBERT A. COLLIER, presentemente Governatore Militare del Comune di Littoria. C'è da aspettarsi pertanto che il Capitano COLLIER lo voglia chiamare alle proprie dipendenze quando egli sarà pronto. Ci si attende anche il Maggiore POWIDA della 36a Divisione Fanteria-Sezione A.M.G., voglia avvalersi dei servizi del Mascetti prima di passare lo stesso al Capitano COLLIER.

Qualora ne l'uno ne l'altro dei succitati ufficiali possa utilizzare i servizi del Mascetti, si prenda autorizzare il medesimo a visitare il Maggiore HOLMGREEN, Ufficiale Seniore per gli affari civili 6o Corpo A.M.G. per tale disposizione dei servizi del Mascetti come desiderato, e il consenso di recarsi a Littoria per presentarsi al Capitano COLLIER qualora lo stesso Capitano COLLIER sia impossibilitato a far chiamare il Mascetti.

La Vostra lettera é stata ricevuta da me e voglio farti sapere quanto é stato grande il piacere di sentire di te.

Mi ricordo la vera e belle assistenza che mi hai dato quando sbarcai ad Anzio in Italia.

Io tornei dagli Stati della Germania nell'agosto di questo anno e adesso mi trovo al mio servizio di Giudice essendo congedato dal servizio militare.

Non so il Dipartimento di Stato o l'immigrazione regolare che hanno assegnato alla quota italiana per gli Stati Uniti. Il tuo Ufficiale dovrebbe sapere ad indirizzarti e abilitarti su questa mia.

Tu ricorderai il mio interprete Giovanni Mattei la quale é stato un grande aiuto per te.

Giovanni fu ammazzato a Cori dopo che noi abbiamo respinto alla spiaggia ed egli adesso é stato cremato o bruciato nel Cimitero di Nettuno.

Ricordami ai miei molti amici che erano nella spiaggia.

Con i miei più risentiti saluti personali a te e alla tua famiglia.

Dear Col. Reid.

Many thanks for your letter of 15 July (in reply to mine of 31st May) concerning the Outline of Italian Education.

It is clear from your letter that the objections to English publication of the Outline rest on certain misunderstandings, evidently due to the absence at present of a functioning Education Sub-Commission. I am happy to be able to clear up these misunderstandings, as follows.

Your para 2 states that the document was originally intended as a short memorandum for the use of Regional Commissioners and Regional Education Officers in the field, and as a report for the Italian Government. While this is correct as far as it goes, it must be added that two causes extended the scope and purpose of the document after its commencement: (a) the delay in moving north made it possible for the work to be handled in greater detail, and (b) it was soon found that no such document had ever previously been compiled, and it was decided therefore by the Subcommission to make the work as comprehensive as conditions allowed. The second factor raised inevitably the question of general publication, and I can confirm that this (i.e. publication in England and America as well as Italy) was in the intentions of the Subcommission from the end of 1944.

As to your para. 3, the facts are not exactly as stated. The documents used in the preparation of the treatise were without exception (or almost without exception) open publications, to be viewed on request in any big Italian library by any person desirous of using them. If therefore the phrase 'Italian Government documents' is taken to imply any degree of privacy or secrecy, I can assure you that this is not the case at all. The matter may be very easily checked by reference to the detailed bibliography which I have made out.

Further -- still with reference to your para. 3 -- the statement 'it is felt that if a wider publication is of value, it should be done by the Italian Government and not by an individual' is very evidently based on a misunderstanding; to authorise public-

to clear up these misunderstandings, as follows.

Your para 2 states that the document was originally intended as a short memorandum for the use of Regional Commissioners and Regional Education Officers in the field, and as a report for the Italian Government. While this is correct as far as it goes, it must be added that two causes extended the scope and purpose of the document after its commencement: (a) the delay in moving north made it possible for the work to be handled in greater detail, and (b) it was seen found that no such document had ever previously been compiled, and it was decided therefore by the Subcommittee to make the work as comprehensive as conditions allowed. Further -- still with reference to your para. 3 -- the statement 'it is felt that if a wider publication is of value, it should be done by the Italian Government and not by an individual' is very evidently based on a misunderstanding: since the Italian Government has no power to authorise publication except in Italy and in the Italian language. This will be quite clear from the covering note to the Outline, a copy of which I enclose. It will be seen that Lt. Col. Washburne explicitly limited the powers of the Italian Government to the matter of Italian publication; and I may add that it was his full intention all the while that the work should be published in England and U.S.A. as soon as possible.

The implied query regarding the value of publication in English is, I feel fully answered by the comments of the Royal Institute of International Affairs (Chatham House), who, you will remember, strongly recommended publication.

My statements may easily be confirmed by reference to any of the Directors of the Education Subcommittee during its existence -- particularly Lt. Col. T.V. Smith of Chicago University, and Lt. Col. Carleton Washburne, who, I understand has already written to Brigadier Lush on the matter, asking that permission be granted for the work to be published.

I feel sure that the above explanation will alter the view taken by the Allied Commission, and should therefore be most grateful if you would be so good as to communicate it to them. I await a reply.

Yours sincerely,

When the firm was first taken under control by Major WELLMUTH, R.P.C.O. in 1943, he was not satisfied with the accounts submitted by Senatore DRAGO who had been appointed sequesterator by the Italian Government and he ordered him to supply further details. Senatore DRAGO engaged Dott. PILOSTO to help him in this work. Sir,

I am directed to inform you that an application has been made by Major G. A. Whitaker of Whitwell House, Watlington, Oxon, on behalf of his brother who is in Switzerland regarding the latter's villa.

Yours faithfully,
The Under-Secretary of State,
The War Office.

which is understood is at present unopposed.

Major Whitaker's brother has owned the villa for some 25 years, and is anxious to be permitted to return there at the earliest opportunity. Major Whitaker's brother fought valiantly in Switzerland during the war, but since a prolonged stay there is causing him financial embarrassment. His son has recently been discharged and together with his sister's family Major Whitaker's brother wishes to take up residence at his villa as soon as possible, as they have no other home.

Yours faithfully,
The Under-Secretary of State,
The War Office.

Trieste, 10 July 1946

TO: Allied Supreme Military Commander of CASERTA

2488

I, the undersigned, Giovanni PIAT, son of the late Giovanni, residing at Trieste, on Via Bonadoni 27, take the liberty to inform you of the following:

The Territorial Commission of Appeals for the Furze in Trieste with decision dated 17 November 1945 rejected the appeal I filed against the sentence ruling that I be dismissed from employment, giving confirmation of my dismissal from the Trieste Savings Bank.

Without speculating in detail the reasons for such a decision, I am pointing out to you that the provision is a subjective one as it is in contrast with my well-known moral integrity, honesty, disinterestedness and lack of any spirit of factional sectarianism. I further point out to you that the modest position I held in the Savings Bank did not have a public character nor could they exercise any influence of a political nature.

This is not the justification of a man who intends to defend himself: in fact the majority of employees of every rank of my employer had disclosed to the Commission of Appeals their wish to have me reinstated in my office. No doubt this wish would have been satisfied by the Commission of Appeals, had my case not been examined and judged among the first ones, when political resentments against the party in which I unfortunately served, were still alive and effective.

4350

Since November 1945, when my dismissal from the Savings Bank was enacted which had been imposed on me in May 1945 I have been seeking for a job which might enable me to provide with means of livelihood my family composed with my wife and two children one 13 year-old, and the other 6 year-old. My efforts have been frustrated though I have not failed to be the object of as many persons as have been my colleagues or mates in the several positions I held.

If due consideration is given to the fact that, in compliance with dispositions in force in other provinces of Italy, my sentence would have been cancelled, with respects to the rank I held in the hierarchy of the Savings Bank, I think it to be advisable to ask you that a decision of grace may rectify a sentence whose revision is not allowed by AMS laws.

Declassified E.O. 12356 Section 3.3/NND No. 785016

I am appealing to you, Sir as you are vested with all government and jurisdictional powers in Venezia Giulia.

Therefore, after having questioned, if you will deem to do so, the Territorial Commission of Appeals or its President or after having examined the deeds, you may through provision of grace give back to me the employment which may enable me to maintain my innocent family.

Yours very truly

Upon my return to Italy, I have started an auditing of the accounts of my Firm, which as known by your Commission first was placed under sequestration by the Italian Government, and subsequently at the moment of Allied occupation came under the administration of the Allies themselves.

Since in the course of the aforesaid checking up I found out that some bookkeeping records such as the customers ledger and the warehouse accounting books are missing, will your Commission please let me know whether such books are held by you inquiring of Capt. W.G. Board, who was the Firm's Administrator concerning this matter.

I also would like to know whether the paying out of the fees allowed to Dott. Umberto Filoato, who made an auditing of the Firm on behalf of third parties, was authorized by your Commission.

15 July 1946.

With reference to your undated letter on the subject of the publication in English by Major Vessalo of the survey which he made of Italian education as a book, great pressure is being brought on this HQ by Vessalo through the Civil Affairs Directorate of the War Office in London to obtain permission to publish this document. A decision was taken by this Headquarters on 24th May that Vessalo should not be granted permission to publish. Since that date further letters have been received from Vessalo through the War Office, but this Headquarters has not changed its decision.

The decision was based mainly on the following grounds:

The report was compiled almost wholly from Italian documents and records by Vessalo in his working time as a staff officer in your late Sub-Commission and, moreover, although we have not so far brought in this aspect, it is understood that civilian staff were engaged by this Headquarters to assist in the production of the report. When work on this document first started, it was never the intention that it should be a work for general publication but later because of circumstances, individuals found themselves engaged on a work which had or might have commercial or other value to them.

The report cannot, therefore, be described as a personal professional study as suggested in your letter.

So far as is known it was never the intention that this Allied Commission document should be published as a book in Great Britain and America. If such an intention ever existed, and were your late Sub-Commission still in being, publication might be under consideration, but not as a work by Vessalo.

It is understood that the Italian Government have some intention of publishing the work in Italian, but from a recent visit to the Italian Ministry concerned it transpired that no one could be found who knew anything about or took any interest in this matter. Here again, publication if it ever takes place will not be as a work by Vessalo.

You state in your letter that the report would have great value as a text book in comparative education in the United States and Great Britain. So far as Great Britain is concerned this opinion is confirmed in a letter addressed to the War Office by the Royal Institute of International Affairs in London.

While the reactions of those who remain here to these opinions are somewhat sceptical, we are prepared to accept them fully, but they do not provide a reason for allowing Vessalo to publish the report under his own name.

24 June 1946

In great confidence that you will give consideration to my pressing necessity, I take the liberty of sending you the present request, conscious that this might not have been imposed on me by the tragic situation in which I find myself as a war refugee. I am an old functionary of the Ministry of Transport, who after 20 years of service was put on the retired list for having reached the age limit, on the 1st Jan 1939, with the grade of Principal Inspector and a monthly pension of 1116 Lire.

After great sorrow and privation, with my meagre salary, I succeeded in building a country cottage in the district of Marine Isola which should have been a last quiet refuge for me and my poor wife in our old age. The war however broke out and with my wife seriously ill with cancer, we found ourselves at the mercy of the German troops who were camping near my house. In Nov 1943 in the midst of the tragic bombardments which assailed our life, my wife had to go to Rome for a medical examination and this absence, which sufficed for the Germans to requisition violently our villa. This made a return to Marine impossible and in the meanwhile my wife's health rapidly deteriorated and she died here in Rome in March 1944 far from her loved home which had been the centre of all my hopes and aspirations and the only aim of her life and mine.

But things became even more complicated: the villa became the seat of a German command operating on the hills of the Castello Guard and which was taking active part in military operations that had as their epilogue the forced retreat to the north of their troops beyond Rome.

The military occupation of my villa caused the loss and complete destruction of all the furnishings of the villa itself and of all the agricultural implements pertaining to a small place with a cellar and gratto for wine. Finding myself thus alone and in great sadness for the death of my wife and the destruction of everything which I possessed, furniture, furnishings, linen, etc. 4318
in fact everything, desperation gave me courage and I approached the authorities of that time with a view to recovering that which was necessary for me in order to live.

Consequently, I attached an inventory of what existed in my villa and which was taken away from me.

I will not enumerate the number of requests and petitions which I made to the Prefecture of Rome, to the Ministry of Finance and to the Treasury: after producing staged documents, I was able to present, together with a notary act, a regular petition for war damages to the Intendenza di Finanza of Rome who accepted it and gave me a receipt No. 4143 dated 2 July 1945.

Always urged by financial need I put pressure to bear and received an official negative reply for a definite settlement of my claim until a decision should be taken at some unknown time by a hypothetical commission which was to assemble at some future date and was to function via board when. All this is due to an obscure circular No. 6064, issued on the 30 Oct 48 by the Treasury and which deals particularly with cases of looting, rape, forced labor, dealt with in an article (I think art. 2) of a law on war refugees published I believe in 1940 when the end consequences of the war were not even remotely thought of. Thus my case was only and notwithstanding that the Nucleus of the Treasury which had clearly stated with proved facts, that my case could certainly be included in the actions of war and thus could benefit from a considerable sum. With regard to this it should be known that before the above mentioned circular was published and without any explanation, advance payment was given on a large scale also to people who had suffered looting in general. As can be seen, two weights and two measures. On being repeatedly demanded, the Nucleus of the Treasury finally agreed up March 1950 that the military occupation was carried into looting, and thus my case, considered among the actions of war the action having been carried out in Germany, Italy and in combination with military operations (art. 2 of the aforesaid law on war refugees). It therefore gives the right to have a final sum in arrears followed later by a yearly settlement.

But to speak frankly, such juggling on the interpretation and meaning of words is being used against the poor widowed, war invalid with all the force of Segregation's financial aid which will permit him to replace part of his furniture, his clothing and items of absolute necessity which are indispensable for an old age aided only by a pension of 40. To take such a rigid attitude over a circular in front of the drama of life, seems to me to be not very human. When one has passed a life of seventy years in struggling and in recent times in an atmosphere of high cost of living, one can invoke a little pity and also expect to receive it.

This is why I have taken the liberty of addressing you, so that with the high position you hold at the end of this unhappy catastrophe of the war which has taken so many victims and created so much distress, you will be able to find a way of assisting my sad case which, as I have explained, has not been included amongst those cases of war refugees receiving immediate help from the Italian Government, owing to quibbling on the interpretation, but which in human substance is the stark reality and necessitates an immediate assistance.

With a generous gesture add my case to the many which you have helped in this country which is under your patronage, and give orders that will lead to an early year of waiting.

If this should unfortunately be impossible, I would beg you to use your authority with the Ministry of Finance in order that my case, which has been in abeyance for four years, may be re-examined, and settled according to human principles and real justice.

Please pardon the annoyance I am causing you: the great faith I have in you has been the cause of my writing you and lets me hope in your kind and generous interest in my case.

Very gratefully yours,

(Signed) Armin Stenstrom

Always urged by financial need I put pressure to bear and received an official negative reply for a definite settlement of my claim until a decision should be taken at some unknown time by a hypothetical commission which was to assemble at some future date and was to function when known. All this is due to an obscure circular No. 60045 issued on the 30 Oct 45 by the Treasury and which deals particularly with cases of looting, ravage, negligence, dealt with in an article (I think art. 2) of a law on war refugees published I believe in 1943 when the sad consequences of the war were not even remotely thought of. Thus my case was postponed notwithstanding that the Bureau of the Treasury Police had already shared with my office, that my case would certainly be included in the actions of war and that I would benefit from a considerable sum. With regard to this it would be known that before the 4/4 restricted circular was published and without any conditions, advance payment was given on a large scale also to people who had suffered looting in general. As can be seen, two weights and two measures. In being repeatedly denied, the Bureau of the Treasury Police fully approved by them i.e., that the military occupation degenerated into looting, and thus may be considered among the actions of war; the action having been carried out in preparation and in co-ordination with military operations (art. 2 of the aforesaid law governing war refugees). It therefore gives the right to have a fair sum in my case followed later by a speedy settlement.

But to speak frankly, such quibbling as the interpretation and meaning of words is being used against the poor misfortunate, who invokes with all the force of desperation a President and which will permit him to replace part of his furniture, his clothing and items of household necessity which are indispensable for an old age aided only by a pension. To take such a rigid attitude over a circular in front of the drama of life, seems to me to be not very human. When one has passed a life of seventy years in struggling and in recent times in an atmosphere of high cost of living, one can invoke a little pity and also expect to receive it.

This is why I have taken the liberty of addressing you, so that with the high position you hold at the end of this message, whatever be of the war which has taken so many victims and created so much distress, you will be able to find a way of assisting my sad case which, as I have explained, can not be included amongst those cases of war-ravaged receiving immediate help from the Italian Government, owing to quibbling on the interpretation, but which in human substance is the stark reality and necessitates an immediate assistance.

With a generous gesture add my case to the many which you have helped in this country which is under your patronage, and give orders that will put an end to so many years of waiting.

If this should unfortunately be impossible, I would beg you to use your authority with the Ministry of Finance in order that my case, which has been in abeyance for four years, may be re-examined, and settled according to humane principles and real justice.

Please pardon the annoyance I am causing you; the great faith I have in you has been the cause of my writing you and lets us hope in your kind and generous interest in my case.

Very gratefully yours,

(Signed) Arminio Steffensen

Ref. Vescolo's letter.

Without going into the merit of the manuscript which I am unable to examine now, I still think that permission should not be given for the publication in English by Mr. Vescolo because:

a) The manuscript is an official document of AG, Hq. In fact the duties performed by Major Vescolo in this Hq. were to prepare an outline of Education in Italy for the benefit of the Italian Government and the Regional Education Officers. Three civilian employees were hired and paid out of ~~AG~~ funds to help Vescolo in this job.

b) It is the policy of this Headquarters not to allow any individual or private organization to publish any official document concerning the activities of the Allied Commission in Italy.

SUBJECT : Outline of Education in Italy

TO : The War Office,
Hotel Victoria,
Northumberland Avenue,
London, W.C.2.

1. With reference to your C.A.2(b)/BW/214 of the 4th June 1946, the outline of the reasons why it is considered that permission should not be given to Major Vesselo to publish as a book the Allied Commission Report on Education in Italy was given in this Headquarters letter 3/7.3/CA of 17th May 1946.

2. More detailed views on this matter are given as requested below:

(a) The document was originally intended to be a short memorandum for the use of Regional Commissioners and Regional Education Officers in the field and as a Report to the Italian Government.

The document grew into a comprehensive treatise which was not completed in time to be of any service to the Commission. The document was never in fact used by the Commission.

(b) The document was prepared by Major Vesselo in his working time as a Staff Officer of the Education Sub-Commission. The question of the publication is raised after the Education Sub-Commission at this Headquarters has ceased to exist owing to release of personnel. So far as is known, had the Education Sub-Commission still been in existence, it was never the intention that this Allied Commission document should be published in Great Britain and America.

(c) Italian Government documents were extensively used in the preparation of the treatise. This Headquarters has raised no objection to publication by the Italian Government either in English or in Italian. It is understood that the Italian Government may be publishing the work in Italian, and it is felt that if a wider publication is of value it should be done by the Italian Government themselves and not by individuals who, because of circumstances, found themselves engaged on work which had or might have a commercial or other value to them.

3. If permission is given, Major Vesuelo should not be permitted to obtain royalties from publication. It is to be noted from Major Vesuelo's letter of 11st May 1946 that he links the question of publication in U.S. with that of publication in America. It is not clear how the question of royalties or of the commercial value of the work in America can be controlled if the work is published there.
4. While this Headquarters does not wish to deprive the Educational field of a work, which, according to the letter from Chatham House of 22nd April 1946, would be of considerable interest for general readers as well as for specialists in Education, this Headquarters in the light of the above considerations adheres to the original view that Major Vesuelo should not be permitted to publish the report.

Granted from fund copy MC

It is considered that if permission to publish is granted it must be a matter for decision by the War Office.

Mr. Tolson, C. C. Bell,
 Col. J. S. ...
 The War Office
 Hotel Victoria,
 North Melbourne, Victoria,
 V.C. 2.

Dear Colonel Bell,

Further to your letter (C.A. 915) (24/24) of 29 May, and to our telephone conversation of yesterday, concerning the British of Italian question.

I should be most grateful, as I said yesterday, if you could possibly find out anything further about why the Allied Commission does not wish the report to be published at the present.

The Foreign Office expressed themselves as being pleased with the report; and Chamber House, as you know, strongly recommended its publication. The fact that these bodies were approached officially by the War Office, and not in any way through my investigation, gives additional force to their views.

I have no wish to make any personal profits out of the publication, and should be quite content for it to appear without my name and without any payment, though the final preparation of the report for the English press could involve work on the text which only I could do satisfactorily. I should welcome and that the report has a torrid value at the moment which might be seriously increased by delay in publication.

My request, repeat also (I enclose 2/2nd) to send a letter about it) than Lt. Col. W. H. Burns a few weeks back forwarded to me a request from an ex-colleague in America for permission to be allowed to handle the publication there. I have now replied, with regret, that this is not for the moment possible, as A.C. will not at present permit the publication.

I do not know if you would think it worth while sending a copy of the Chamber House letter to A.C. This would at least give a quite detached (and an expert) viewpoint, which A.C. might be prepared to take into consideration.

The Bureau Office expressed themselves as being pleased with the persons; and Chatham House, as you know, strongly recommended its publication. The fact that these ladies were approached officially by the War Office, and not in any way through my institution, gives additional force to both views.

I have no wish to make any reason I recollect out of the publication, and should be quite content for it to appear without my name and without my comment. Which the final preparation of the report for the British press would involve. On the text which only I could do satisfactorily. I should be very glad that the report had a logical value at the moment which might be extremely necessary for delay in publication.

My report's report also (I suppose I must state a letter about it) that it is. In House a few weeks back forwarded to me a request from an ex-colleague in America for permission to be allowed to handle the publication there. I have now replied, with regret, that this is not for the moment possible, as I.C. will not at present reveal the publication.

I do not know if you would think it worth while sending a copy of the Chatham House letter to I.C. This would at least give a quite detached (and an exact) viewpoint, which I.C. might be prepared to take into consideration.

With very thanks,

Yours sincerely,

Dear Student,

S.S.

20 April, 1946

At Major J. Vassello's request I am returning to you herewith the manuscript of his book on Italian education, which was sent to Chatham House from the Foreign Office in the hope that we might be able to publish it under Chatham House auspices.

I have been through the book with very great interest, and am only too sorry that Chatham House cannot see it way to publishing it. It is, of course, already in the near future, bringing out a book on education in Fascist Italy, and could not therefore undertake to sponsor either so short a piece or one two weeks away from some extent similar ground. I should like to make it clear however that, having seen the MS of both books, I do not think this forthcoming Chatham House book need in any way prejudice the eventual publication of Major Vassello's book, and I very much hope a publisher may be found for it. Major Vassello's book covers a much wider field than the Chatham House work, in that it presents a complete history of education in Italy from the earliest times to the present day, whereas the Chatham House book deals merely with the Fascist period. As far as I am aware, no English publication has attempted to trace the development of Italian education in detail in Major Vassello has done, and the book is moreover so readable and "humanely" written that I feel it should have an immensely interesting and useful readership as well as an acerbity in education.

it, as we are already, in the near future, beginning and a book on education in Black Italy, and could not therefore undertake to sponsor within an short a space of time two books covering to some extent similar ground. I should like to make it clear however that, having seen the MS of both books, I do not think the forthcoming Southern House book need in any way prejudice the eventual publication of Major Vassile's book, and I very much hope a publisher may be found for it. Major Vassile's book covers a much wider field than the Southern House work, in that it presents a complete history of education in Italy even the earliest times in the present day, whereas the Southern House book deals merely with the English period. As far as I am aware, no English publication has attempted to trace the development of Italian education in detail as Major Vassile's does, and the book is moreover so readable and unimpaired written that I feel it should have considerable interest for universal readers as well as for specialists in education.

Yours very truly, 4300

SUBJECT: Broadcasting by Political Parties.

TO: Executive Commissioner.

4th May, 1946

The attached letter and signals requesting that Giannini be permitted to broadcast before Monday, 13th May appears to be an organised attempt to induce the Chief Commissioner to interest himself in a matter which is purely an Italian affair.

The original signals complained that Giannini was not being allowed to broadcast, but enquiries revealed that he had broadcast on 30th April and would broadcast again on 13th May. After the broadcast on 30th April the signals and letters now demand that he be permitted to broadcast before 13th May.

The true channel for such requests is to the Italian Government who, if satisfied that a public demand is strong enough, would surely acquiesce to its requests. This is a political matter and it must be left to the Italian Government to allocate Radio time to the different political parties. One must assume they will act with all fairness to all parties.

A committee of three allocate time on the Italian radio which is finally approved of by the Presidency of the Council.

It is pointed out that this Headquarters is flooded out with letters from the UOMO Qualunque, and beyond noting them, no action is called for by this Headquarters otherwise it savours of favoritism.

The worst feature of these signals is that the whole matter has been engineered and organised. They do not even attempt to hide this by writing the Italian Government and sending a copy to this Headquarters for information or vice versa.

We cannot find out the reasons for the action of the Italian Government in allotting time on the radio without asking a direct question of the authority responsible and even if we found out the reason, the matter is one in which this Headquarters should not interfere.

MC

P.S. I feel the most we should do would be to mention the matter to D. Bonfante. Even then we must give the party which has adopted irregular methods some advantage.

With reference to War Office telegram 58356 CA2(b) which is copied to you for action, the War office letter referred to was received in this Section about the 15th May and a reply sent on 17th May, copies of correspondence are attached.

I do not think that on any account we should be involved in giving Major Vesselo permission to publish the document as a work of his own.

Major Vesselo, I gather, was an officer who was rather difficult to employ. He was at some time or other given the task of preparing an outline of education in Italy with a view to this being circulated to Regional Commissioners for their information. This document was never issued as such, but grew into a full size treatise on the subject. Major Vesselo compiled this document in his working time at this Headquarters and civilian employees were also engaged on the work - there is one civilian still here working on statistics whose work I am trying to terminate at the earliest possible moment.

Major Vesselo, in his letter to the War Office, stated he had taken the work to Chatham House, but they were not interested in it as they already had a work of a similar nature in hand.

So far as this country is concerned, the arrangements made by Colonel Washburn were that if it was published at all, it would not appear in Major Vesselo's name and there would be no question of royalties. The document has been passed to the Italian Government by Colonel Washburn and they have been told that they can translate it and publish it if they wish.

It is understood that the Italian Government are considering publishing it, but it will not be as an Allied Commission document, or as one written by Major Vesselo. 4232

Writer is heir to Dr. Giuseppe Rodaro Faranda,
who cooperated with French troops in Italy, through espionage
activity in Northern Italy while that area was still
in German and Fascist hands: he was promised a reward by
French R., but he never had it. Writer claims now that re-

MEMORANDUM FOR THE ALLIED COMMISSION

- 9 MAG 1946

SUBJECT: expulsions from Italy - Dr. Ferdinand DURCANSKY, Dr. Sta-
nislav MARSIAH and Dr. Joseph POLAKOVIC, Czech subjects.

1. Reference is made to the Allied Commission's note CC2602 dated 20 March 1946 and to the Ministry for Foreign Affairs' Memorandum n. 6/1052/464 dated 5 March 1946.
2. The Legation of Czechoslovakia has renewed the request of arrest and deportation to Czechoslovakia of the a/n Czech subjects, indicating one or the other of the following procedures as a means to dispose of them:
 - a) recognition of the a/n as war criminals and inclusion in the United Nations War Criminal list;
 - b) extradition.
3. The Ministry for Foreign Affairs wishes to inform that a request for extradition from the Czechoslovakian Government to the Italian Government could not be accepted because the Italo-Czechoslovakian Extradition Agreement of 6 April 1922 does not embrace cases of political crimes or facts related with them.
4. The Ministry for Foreign Affairs would therefore be grateful to the Allied Commission if they could inform whether the a/n have actually been included in the United Nations criminals list in order to apply the suggested procedure under para a) above.
5. In the meantime the competent Italian authorities have been required to trace the a/n Czech subjects.

Subject : Premises of the E.N.A.L. at Madera

The recently derequisitioned premises at Madera, Via IX Settembre, Penizza's property but allocated to E.N.A.L., have been reoccupied by soldiers of the Polish Command.

Owing to the urgency for the Provincial Office of Madera of using these premises, it would be better for the soldiers to move to another billet, allocated to E.N.A.L. as well, at Madera - Via Montegrini, 10 - more suitable than the former one for accommodation use, therefore we kindly ask the A.C. to inform this National Presidency if "nulla osta" will be granted for the above mentioned transfer.

1. Enquiries have been made through Questura Naples respecting the requisitioning of this radio set. Translation of his report is attached.
2. As the two remaining Officers in this Liaison Group have, like myself, only been here for a brief period, I could obtain no information respecting Capt. LUMUS from that source. From enquiries amongst civilian employees who have been here since the commencement of occupation, I find that Capt. John N. LUMUS (A) 0521456 was attached here on 24.12.43 and on 24.6.44 was appointed adjutant, Province of Naples. When he was released, I cannot say.
It now appears that he has returned to the U.S. on discharge.
3. It would also appear that he took possession of this radio set and gave it to A.A.F. who were at that time, I believe, occupying Capri. Copy receipt attached.
4. The present whereabouts of this radio set is unknown, and owing to lapse of time it appears useless to pursue the enquiry further.

R. QUESTURA di NAPOLI

File n. 10405530 Div.Gab.

Naples, 24.4.1946

Hereunder information supplied by the P.S. Capri Office concerning what was stated to your Office by LEISEDER Jacobina:

"In reply to the a/m letter I communicate that as shown in the enclosed copy signed by Capt. John N. LUMMUS, at that time Military Governor of the island, a radio set was requisitioned by his order from the a/m German subject, and it was withdrawn personally by the a/m Governor.

By order of the same Governor all the radios in possession of the German subjects residing in Capri were requisitioned, see my letter n. 86 dated 22 January 1944 addressed to the P.S. Ufficio Stranieri (Foreign Office), subject as follows: "Withdrawal of radio sets from all the German subjects residing here".

It is not known where at present the a/m radio set is, and it appears that only a few radios were returned to the Germans by the Allied HQ.

Captain LUMMUS has been demobilized with the rank of Major and at present is in U.S.A., Miami.

LEISEDER Jacobina was interned by order of the Naples C.I.G. in the "Padula (Salerno) concentration camp from 19.4.44 to 27.7.44."

I enclose copy of the requisitioning order issued by Captain LUMMUS.

Writer, of Sicilian origin, has been dealing in fruit and vegetables at Fiume since the 2nd of February 1935.

He had asked and obtained from the Yugoslav authorities a leave to come into the "A" zone to visit his old parents as well as to transfer to Trieste two trucks of his needing repair.

While being at Trieste he was informed that all his property at Fiume has been requisitioned and seized, to an amount of 7,150,000 lire as per attached list.

He asks for protection from the Allied Commission, the Italian and Yugoslav governments, and the Allied Tribunal.

2. Investigations at this HQ. show that no ban or censorship of Scientific Periodicals or Publications exists on the use of normal international postal services for the transmission of such matter from Italy to the United Kingdom.

3. It may be that non delivery is brought about by lack of means to pay for the periodicals in Lire but it is thought that the publishing houses in Italy would have reciprocal arrangements with publishing houses in London for exchange of such literature.

 To : Allied Commission H.Q., R O M E

1. In September 1945, upon advice received, I addressed a letter to those H.Q., regarding the damages suffered by myself in consequence of the racial laws in Italy. Not having received any answer, I herewith remit you a copy of that letter for your kind perusal.

2. The Italian Government has issued a decree cancelling all forced sales and confiscations of property caused by the racial laws. As far as I know, no dispositions have been issued regarding other damages, such as those suffered by myself, my activities having been completely paralyzed during five years.

3. I would be extremely grateful to you if you would give me some information on regard and eventually your precious advice as to the procedure to follow.

Subject: Damages to be paid by Italy.
To : The Chief Officer for Civilian Affairs
Allied Commission H.Q., ROME,
for kind transmission to the
competent Authorities of the United Nations.

Sir,

I hereby take liberty to submit the following case of mine, believing that I am entitled to get compensation from Italy for the moral and material damages suffered.

I am of Jewish abstract, born March 12th, 1913 in Palermo, son of the late Otto Sternheim from Hanover (Germany) and the late Kae-
the Lazarus from Hamburg (Germany). My father was a successful fruit
exporter and after his death (1932) I continued the same activity
under my own firm "Hans Sternheim" regularly registered at the lo-
cal Chamber of Commerce.

When Mussolini issued racial laws in September 1938, the local
banks got orders from Italian Authorities to discontinue discount-
ing documentary drafts submitted by Jewish business-men (as Jewish
were considered all those of Jewish blood, independently of their
religion). Still I struggled until February 1942 to maintain export-
ation to my old customers abroad, but of course my activities had
to be limited and my customers had to pass their orders to my compet-
itors. For discounting my drafts I had to depend upon interposed
persons and firms, which of course rendered my work very difficult
and cut my profits down to practically nil, while at the same time
all my fellow-exporters made fortunes in those years, business being
excellent in our trade. In February 1942 my firm was definitely
cancelled from the list of exporters (Albo degli Esportatori).

Through the antisemitic propaganda all commercial and professio-
nal activities were rendered impossible for me and my personal sit-
uation and moral credit became so precarious, that until July 1943
when the Allies entered Palermo, very few courageous persons ventur-
ed to be friendly with me in public.

Having consumed in all these years the fortune my father and
I had built up, now I find myself in the impossibility to start
again my old business or any new one, as considerable capital is
required for such a purpose. As the responsibility for what happen-
ed falls upon Italy, I herewith ask you kindly to provide the
competent Italian Authorities make up for the damage suffered, which
I assess roughly to the amount of U.S.A. \$ 30,000.00

I am a married man and have responsibility for my wife and three
little daughters ranging from two to seven years.

Since July 1943 I have been cooperating with Allied Forces here
and the following Officers should be able to grant information i/e

The applicant is asking for legal advice as regards his position under the racial laws, and asking that the A.C. will arrange for the Italian Government to pay him \$30,000 compensation for losses he alleges he has suffered in consequence of such laws.

I would suggest that the applicant be informed that it is entirely outside the province of A.C. to give legal advice to private persons, and further, that, if he considers he has a right to be compensated for losses he has suffered as a result of the racial laws, the matter is one for the Italian or the Italian Courts.

LONDON, W.1.

Reference your C.A.2 (b)/Misc. of 26 March and this HQ. letter 3/7.3/CA of 6 April, the following information received from HQ. 54 Area is forwarded to you:

1. The property in question was requisitioned on 10 November 1943 and until February 1945 was used for the housing of Brits after which, owing to increased amounts of S.A.A. being received by 504 B.A.D. which is adjacent to the property, it was, and continues to be, used as storage space.

2. As MESSINI re-occupied the premises without authority, while they were still requisitioned, he was informed that he must vacate them.

3. The oil press and wine press to which MESSINI refers remain in situ and no instructions have been issued to him to dismantle them. Such machinery as may have been removed was so removed voluntarily by MESSINI.

4. MESSINI himself did not live at the farmhouse, but at his SARI residence. As the farm almost entirely comprises olive plantations, to which he has free access at all times, his statement that it is a farm of importance is not substantially correct. 4221

5. It is considered that MESSINI has exaggerated the minor inconvenience to which he may have been subjected and that no real hardship to him has been occasioned.

3690/SSUBJECT: Requisition of Farm - Emanuele MESSENIH.Q. A.C. A.P.C. 394 (Civil Affairs Section)

Reference your 3/7.3/CA dated 6 April 1946.

1. The property in question was requisitioned on 10 November 1943 and until February 1946 was used for the housing of Units after which, owing to increased amounts of S.A.A. being received by 501 S.A.D. which is adjacent to the property, it was, and continues to be, used as storage space.
2. As MESSENI re-occupied the premises without authority, while they were still requisitioned, he was informed that he must vacate them.
3. The oil press and wine press to which MESSENI refers remain in situ and no instructions have been issued to him to dismantle them. Such machinery as may have been removed was so removed voluntarily by MESSENI.
4. MESSENI himself did not live at the farmhouse, but at his HARI residence. As the farm almost entirely comprises olive plantations, to which he has free access at all times, his statement that it is a farm of importance is not substantially correct.
5. It is considered that MESSENI has exaggerated the minor inconvenience to which he may have been subjected and that no real hardship to him has been occasioned.

29 APR 1946

Dear Admiral,

I am sending you an appeal addressed to H.R.H. the Luogotenente Generale by Signora Assunta Cipollone of Chieti (Piazza Garibaldi, 5) who is asking for the release of her son Armando Giulio, age 16, who running from home in April 1945, is still working as a driver with an Officer of the Polish Police Force in Bologna.

Signora Cipollone wants her son to return home immediately.

I have been requested by the Luogotenente to submit the appeal to you.

I am very grateful for what you will be able to do for this poor mother.

Will you please inform me of any progress made on the matter.

With my best regards

Yours sincerely

The undersigned Assunta CIPOLLONE of Chieti,
5 Piazza Garibaldi, makes the following statement:
On April 3rd, 1945, my son Armando Giulio, aged 16,
disappeared from home, and no news of him could be
had.

After many investigations, conducted by his
father, who is a Maresciallo of the CC.RR. now serv-
ing in Chieti, (he was in Africa for 8 years) we have
heard that the boy is the driver of an Officer of the
Polish Police in Bologna.

We asked the Polish Command to send the boy
home immediately as he was under age and was working
without the consent of his parents, who wanted him
to study.

The Polish Command has not given a satisfactory
answer, though it was not denied that the boy is work-
ing for them. The boy himself told one of my married sisters
he is working with an officer as driver and interpreter.
He also said that according to the orders of Polish Police
Force, he is forbidden to write home.

It is impossible to think that in the XX Century
a boy, under age, should be abusively detained by any
Unit, against the will of his parents. I therefore beg
your R.H. to contact the Allied Headquarters and the
Ministry of War for the release of my son.

With many thanks

Subject: VITALI Libero.

1. Please refer to your letter of 12 Mar 46 (3/7.3/CA).
2. VITALI was, on 24 Dec 45, ordered on behalf of the Provincial Commissioner, to leave the Province of Udine and not to return during the period of A.M.G. administration. This action was taken with the specific concurrence of the Regional Commissioner, and with the full agreement of the Prefect, the Provincial C.L.N., the C.A.O. *the* Commissario of Tarvisio, and the C.C.N.R.

3. The following considerations led to the decision to exclude VITALI from the Province:

(a) According to the advices of the C.A.O. of TARVISIO, an experienced Senior Officer, of the C.C.N.R. at Tarvisio, of the Communal Administration, the Prefettura, and the Provincial C.L.N., VITALI was for some months the moving spirit behind the C.L.N. of Tarvisio. He also for some time acted as its President. This Committee was self-constituted, the Provincial C.L.N. disclaiming all responsibility for or connection with it. It was necessary, in agreement with the Prefettura and the Provincial C.L.N., and upon the recommendation of the C.A.O. and the Commissario Prefettizio, to dissolve the particular Committee of which VITALI was member and President, because of its obstructionist attitude toward A.M.G. and the Communal Administration, and because of its refusal to be controlled or in any way guided by the Provincial C.L.N. The responsibility for the actions and attitude of the Committee was attributed largely to VITALI. In particular, this Committee:

(1) Supported the appointment as Vice-Sindaco and Acting Sindaco of VITALI's father-in-law, an ex-waiter who proved to be not only incompetent, but also entirely self-interested, and whom it was necessary to dismiss;

(2) Advised the Commissario Prefettizio subsequently appointed that, in effect, he would not appoint or dismiss employees of the Comune without the Committee's prior approval;

(3) Advised the *the* ~~the~~ Commissario directly that the

This action was taken with the specific concurrence of the Regional Commissioner, and with the full agreement of the Prefect, the Provincial C.L.M., the C.A.O. the Commissario of Tarvisio, and the C.M.R.

(a) According to the advice of the C.A.O. of TARVISIO, an experienced Senior Officer, of the C.M.R. at Tarvisio, of the Communal Administration, the Prefettura, and the Provincial C.L.M., VITALI was for some months the moving spirit behind the C.L.M. of Tarvisio. (2) Advised the Commissario Prefettizio subsequently appointed that, in effect, he would not appoint or dismiss employees of the Comune without the Committee's prior approval,

(3) Advised the C.A.O. and the Commissario directly that the Committee had determined to adopt an attitude in opposition to the Commissario;

(4) Undertook the unauthorized collection of funds and upon being instructed to assist, informed the Commissario that they were in agreement with the American Police and intended to disregard his instructions. In general this Committee, and VITALI as its

/representative,

representative, adopted a menacing and obstinational attitude toward the Communal Administration appointed under the authority of A.M.G., as a result of which the Commissario requested to be relieved.

In view of the difficulty in administering such a Commune, I declined to accept the resignation of the Commissario, a most experienced retired General of the Italian Army, in whom I and all responsible officials in the Province have complete confidence.

(b) It was established that VITALI individually had on various occasions opposed himself to A.M.G. and the Communal Administration. Specifically, he:

(1) Made various false allegations to C.L.N. concerning the A.M.G. officers and the Administration;

(2) Himself told the Commissario that the C.L.N. intended to disregard instructions to desist from the unauthorized collection of funds;

(3) When told (in connection with these instructions to desist from making unauthorized collections) that the Province was administered by the English, stated to the Commissario in the presence of various other persons: "We have fought against the Germans, we can fight again".

(c) By reputation among the more stable elements in the Commune, VITALI is believed to be an ex-officer of the Republican Army, who associated himself with the Partisan movement and with the C.L.N. solely for motives of personal advantage. He is believed to have utilized his position for financial profit for himself and his father-in-law. It is also believed that his opposition toward A.M.G. and the Commissario Prefettizio was motivated by resentment over the fact that the father-in-law was removed from the Communal Administration and by the hope that the Commissario would be compelled to resign, in which event VITALI could again control the Commune. While there is no confirmed evidence at present available to A.M.G. that all this is true, the very fact that VITALI has this reputation, coupled with his political activity, makes him an undesirable element in a Commune like Fervasio, which because of its proximity to the frontier and the diverse racial character of its inhabitants, is a potentially troublesome Commune.

(d) While it would have been possible to prosecute, and probably convict, VITALI before an A.M.G. court under Section 31 of Article V of Proclamation I, for the statement quoted in para 3 (b)(3) above, it was believed that the offence was not sufficiently serious to warrant a heavy sentence, and that therefore such a course would not have accomplished the object of removing VITALI from the scene, where his activities were so troublesome. Further, it was believed to be inadvisable to give VITALI an opportunity to air in open court all his fancied or manufactured grievances against A.M.G. and the Communal Administration. He was, therefore, released from arrest and was requested to sign a document undertaking to leave the Province and remain out of it during the tenure of A.M.G. This document was signed by him.

(b) It was established that VITALI individually had on various occasions opposed himself to A.M.G. and the Communal Administration. Specifically, he:

- (1) Made various false allegations to C.I.G. concerning the A.M.G. officers and the Administration;
- (2) Himself told the Commissario that the C.I.G. intended to disregard instructions to desist from the unauthorized collection of funds;

He is believed to have utilized his position for financial profit for himself and his father-in-law. It is also believed that his opposition toward A.M.G. and the Commissario Prefettizio was motivated by resentment over the fact that the father-in-law was removed from the Communal Administration and by the hope that the Commissario would be compelled to resign, in which event VITALI could again control the Comune. While there is no confirmed evidence at present available to A.M.G. that all this is true, the very fact that VITALI has this reputation, coupled with his political activity, makes him an undesirable element in a Comune like Larvisio, which because of its proximity to the frontier and the diverse racial character of its inhabitants, is a potentially troublesome Comune.

(d) While it would have been possible to prosecute, and probably convict, VITALI before an A.M.G. court under Section 31 of article V of Proclamation I, for the statement quoted in para 3 (b)(3) above, it was believed that the offense was not sufficiently serious to warrant a heavy sentence, and that therefore such a course would not have accomplished the object of removing VITALI from the scene, where his activities were so troublesome. He was, therefore, released from arrest and was requested to sign a document undertaking to leave the Province and remain out of it during the tenure of A.M.G. This document was signed by him.

4. It is strongly recommended that VITALI should not be permitted to re-enter the Province during the administration of A.M.G. It is believed that any representation he might make as to his willingness to co-operate with A.M.G. or to refrain from political activity would be insincere; that his real motive for desiring to return is to be present during the forthcoming

/elections;

Teatri Albino of Dino and N.W. born at Padova 25/1/1928, residing in Vicenza, went to his uncle, Pinato Emidio at Pisa, in June 1944, to avoid eventual coming.

From informations had from the latter, Teatri left Pisa for Leghorn after the anglo-american occupation, alleging that he should have enlisted in the Allied Army.

The applicant Dino Marchetti, Vicenza, had, since then, received no news, excepting a post card in June 1944, which did not mention any precise address., and the post card was doubtful to have been written by him. 4198

We beg to ask you to verify where he has been dislocated, or, had it be impossible, to, at least, inform what happened to the Italian soldier enlisted in above locality, and, therefore, what happened also to him.

Il giovane Teari Albino di Dino e di NN. nato a Padova il 25/1/1928 residente a Vicenza era partito per Pisa presso lo zio Pinato Erminio nel Giugno 1944 per sfuggire eventuali rastrellamenti.

Secondo informazioni avute dallo stesso Sig. Pinato Erminio, il nominato in oggetto partiva da Pisa per Livorno dopo l'occupazione angloamericana adducendo che si sarebbe arruolato nell'esercito alleato.

Sembra sia stato visto difatti qualche tempo dopo a Livorno fra le truppe della V^a armata americana.

Da allora il richiedente Dino Mazzotti - Vicenza - non ebbe alcuna notizia tranne una cartolina nel Giugno 44, che non forniva alcun indirizzo preciso e lasciava dubbio fosse stata scritta da lui.

Si chiede di verificare dove sia stata dislocata, o almeno se ciò non potesse essere effettuabile, d'informare quale sorte sia toccata ai soldati Italiani arruolati in detta località, e quindi anche la sua.

Subject: Proposed recruitment of Italian workers
for Austria.

1. Reference is made to A.M.G. Udine telegram BA/110 of 18th March, indicating that A.M.G. Austria have requested permission for Major Uina, Labour Section, to visit Udine to arrange importation to Austria of Italian building trade workers.

2. The proposal is attractive at first sight in that it would relieve unemployment in Udine. But there are many difficulties to be resolved at higher level before Italian civilians can be recruited for voluntary transfer to Austria. There is the question of the relationship between Italy, or A.M.G. controlled Udine, and the Austrian State, or the British A.M.G. controlled zone; the safeguarding of interests of Italian civilians in the latter zone, the arrangements for housing and rationing circulation; the question of the employer, i.e. whether British A.M.G. or Austrian civil local authorities, or private enterprises; the question of rates of pay and remittances at the appropriate rates of exchange; the safeguarding of social insurance rights in Italy and the provision against accidents or other liabilities in Austria.

3. In connection with the transfer of Italian workers to France and Belgium, all these points have been covered in treaties or agreements made between the Italian Government and the respective importing governments; and it does not seem that Major Uina and A.M.G. Udine have sufficient authority between themselves to arrange such questions. 4136

4. Accordingly it is suggested that British A.M.G. Austria be requested to send a formal written request to Allied Commission, Rome, indicating in general terms their proposals.

The undersigned, Gregorio GIACOMETTI, is permanently disabled and unfit for work as a result of the service he carried out in 1936 in the Air Force.

In January 1945 he applied to the Italian Air Ministry for a subsidy and, the Allied Headquarters having supported his request, he received a subsidy of 1500 Lire. In November 1945 he was given another 1000 Lire.

Recently he has applied again to the Air Ministry for another subsidy but they wouldn't comply with his request saying they cannot give him any more money since he has already been helped. (Copy of Air Ministry's letter is enclosed).

Therefore the person in question is asking ~~xxxxxx~~ the Allied Commission to support his request once more since he is unable to work and has'nt any means of livelihood.

Dear Mrs. Warner,

I was so glad to get your letter some little time ago. I am sorry not to have been able to answer sooner, but I have had my hands almost paralysed with arthritis and also I have not been well, the after effects I suppose of my four and half months imprisonment. I was directed by the German S.S. and condemned to be shot as a spy but fortunately I was released by the Red Cross on the 29th April. I was so sorry to hear about the death of your sister in America. Miss Freida used to talk about her so much. I received the power of attorney six months after Miss Freida's death. I was able to arrange things to the best of my ability under the circumstances, we were at the time of the heavy bombardments. I sold the furniture and some clothes, so as to be able to pay off the debts. I have kept the pictures, silver and many personal effects and photographs about the car rings, I am sorry to say they have been stolen by the police, I was not present when Signora Cavallieri handed them and the other jewellery to the police to be kept until the power of attorney arrived as she would not take the responsibility of keeping them, when the envelope containing the jewellery was opened by the lawyers it contained two very false diamond earrings. An enquiry has been going on for over two years, but I am afraid that we shall never see the earrings again. About the silver spoons, Miss Freida gave them to a friend who lives in the country to take care of during the bombardments. This lady has not yet replied to my letter, so perhaps it will be better if you write. I will send on the address as soon as I have an opportunity. I will send you all the things, for the moment it is not possible. I must thank you for the lovely tea cups. I am really glad to have them as a souvenir. I miss Miss Freida so much, but Frau Albrecht and I often say that she was saved much suffering. We have been through such dreadful times during the terror of the German Republican Occupation. No one who has not been through it can imagine what it was or the horrors of a concentration camp. The further I get away from it the more I think of the tortures and suffering I have seen and heard. Signora Cavallieri's address is - Corso Siccardi 11 Torino. I hope that your son and daughter are well. Miss Freida used to talk about them so much. My mother is in England she is at Kingswood in Surrey. It is rather late to wish you a very happy...

Dear Mrs. Carter,

I deeply regret having to tell you of the sudden death of your sister Miss Freda Whately. She was a very great and intimate friend of ours and her death has been a great shock to us. The last few days we had not been able to go and see her, as our house has been burnt, but we telephoned each day. She had had bronchitis and asthma and died very suddenly. I advised the authorities at once, being a British subject I had to, and with them we searched for any will or written last wishes but we found nothing. So the authorities have sealed up the flat and are awaiting your written authority, I think it is a power of attorney for me to be able to dispose of the flat and pay off the few accounts that were due at the end of the month. The best thing to us would be to sell the furniture to be able to do this, there is a pair of ear rings that your sister always said she wished to be given to you, but that is all she ever said, any money left over I would keep and have sent over to you after the war. I am sorry to have to talk about these things, but the sooner you can send me the authority to act the better, as the rent for the flat will have to be paid as long as it is closed.

I wrote to my solicitor in London Mr. Frederic Bengis to advise your brother. I would have written sooner to you, but we are so upset. I have time to do very little a Red Cross message came for Miss Freda from her sister in America, I answered it and announced her death. The funeral expenses were paid by friends, it was simple but very nice. I feel I know you having talked about you so much, we saw such a lot of your sister and we miss her dreadfully, please accept our very deepest sympathy.

Yours sincerely,

(Signed) Percy Macq.

Dear Sir,

I should be most grateful if you could possibly help me in a rather difficult matter. I am enclosing two letters from a great friend of my sister who died in Turin in December, 1942. I replied to the first one and sent the Power of Attorney, but heard nothing more until a letter from Mrs. Peas arrived this morning which was in answer to one I wrote to her about 2 months ago - I am wondering if the Resident British Military Authorities in Turin could perhaps trace some of the Italian Police who were in charge at that time, and the lawyer who opened the envelope containing the jewellery. The earrings are very fine diamond ones of great sentimental value apart from their intrinsic value, also 2 diamond rings. It would be wonderful to recover them but seems hopeless, however if you could possibly help me I should be most grateful.

Yours truly,

(Signed) (Mrs) Muriel Carter.

P.S. Will you please return the letters.

Cito suavia / 5 Dicembre 1945

Almo Signor Clement Richard Attlee
Primo Ministro del Governo Britannico

London

Per questo messaggio alla Vostra magnanimità per essere
e questa giustizia.

In data 8 Marzo 1944, con ordine di requisizione ed ordini im-
itati dal Maggiore Inglese Picolo, tramite il Capitano della Croce Rossa
Inglese, Signor Harding T.B. mi fu recapitata la mia macchina Fiat
508 Balilla 1450 cc. per urgente necessità della Croce Rossa Bri-
tannica, per la distribuzione degli indumenti ai Popoli di
Guerra ed ai prigionieri della Zona del Sud-est.
Cominciata la distribuzione di tali indumenti nella Zona del
Sud-est, quando che il Capitano Harding T.B. mi disse che
la mia macchina, trovandosi che lo stato me l'avrebbe re-
stituita, la mia macchina = fu ospite della mia casa, per essere
colta a brando, e mi assunse che certamente me l'avrebbe re-
stituita, appena finito la distribuzione nel Sud-est.
Se non fosse, il Capitano Harding T.B. sarà dalla Germania e
porto seco la macchina ad Amburgo e poi a Berlino.
Il 10 Novembre 1944, scrissi implorandolo al Primo Ministro
Winston Churchill, a Londra, che mi avesse fatto restituire
la macchina, ed infatti me la restituirono in seguito al che in-
terpassamento =

Per questo messaggio alla Sua maestà, per essere
concedere giustizia.
In data 18 Marzo 1944, con ordine di Requisitione ed ordini imper-
iali del Maggiore Joseph Nichols tramite il Capitano della Croce Rossa
Inglese, Signor Hardin T.B. mi fu consegnata la mia macchina Fiat
503 Balilla 1145 P.I. - per ordine necessitati della Croce Rossa di
Tannica, per la distribuzione di indumenti ai Popoli di
quercia ed ai poveri nella Zona del Lago neocese.
Terminata la distribuzione di tali indumenti nella Zona del
Lago neocese che era con il Capitano Hardin T.B. mi venne re-
stituita la mia macchina. Tantopiù che lo stesso mi promise che
me l'avrebbe restituita = Fu ospite nella mia casa parecchie
volte a pranzo, e mi assicurò che certamente me l'avrebbe re-
stituita appena finita la distribuzione nel Lago neocese.
Se non così, il Capitano Hardin T.B. parlò alla Lucania e
portò seco la macchina ad Arcena e poi a Tora...
- Il 10 Novembre 1944, dissi imbroglia al Primo Ministro
Winston Churchill a Londra, che mi aveva fatto restituire
la macchina, ed infatti me la restituirono in seguito al quale

Ora, la Sublime Health - Sub-Commission, Via Veneto, Roma
mi consegnò la macchina in data 2 Dicembre 1945, in uno stato
molto deteriorato avendo percorso la mia macchina con il Capitano
Hardin T.B. oltre 40.000 Chilmetri, e me la consegnò al Capitano

The British Embassy is at present in no position to assist in the matter of the repatriation of Captain Tagliani since it has no channel of communication with the Albanian authorities.

2. If it is desired to pursue this matter, I can only suggest that A.P.H.C. be asked to instruct the Military Mission at Tirana to take action. For your information, a detachment of the Military Mission is still in the Albanian capital, but it may not be there much longer. There is as yet no British diplomatic mission in Albania.

In a letter to the Prime Minister dated November 1945 Lt. Col. (Reserve) Eirano Valtieri (Via Domenico di Gravina 13, Naples) says that on returning to Naples after the liberation he found that his house had been requisitioned and occupied by British troops and that part of the furniture, all the linen, a sewing machine, silver and clothes had been taken away. The pre-war value of the articles was 150,000 lire. In July 25, 1944 he made a claim to 48 Claims and Airings, Naples (Via del Chiostro 9) but repeated reminders have had no result.

Asks for assistance in obtaining restitution of the goods or compensation according to present (not pre-war) value.

Dear Captain Oddi:

The Secretariat of State of His Holiness takes the liberty to refer to your kind attention for the consideration of the competent Allied Authorities the request of Tagliani Guglielmo, Via Mortara 99 f, Ferrara, for the liberation of his son, Capitano di RR.CC. Tagliani Nino, a prisoner at Valona.

In his request Tagliani Guglielmo states that his son was taken prisoner by the Germans September 10, 1943, at Valona. Five days later he escaped into the mountains, joined the partisans and after many adventures, returned to Valona, January 5, 1945. As he was embarking at Durazzo, he, two other captains and four civilians were ended, instead of liberation they were informed that their cases would be tried before the Tribunale del Popolo.

Enclosures:

Two telegrams.

Report is being sent forward to Department today by
airgram which was prepared by G-2 AFHQ giving location and
details of Yugoslav concentration camps where it is reported
Italians are being detained in inupportable circumstances.

(Telegram received from the U.S. Political Adviser, Caserta,
sent to Washington in answer to the attached telegram from
the Department of State).

41..

Consultations have been had by the Department with the British regarding a possible concerted request to the Yugoslavs for permission for the International Red Cross to visit Yugoslav concentration camps, where it is known that large numbers of people, especially Italians, are being detained and where conditions are unbearable. Department is inclined to go ahead with action but before giving definite instructions in matter is asking Patterson, in concert with his British colleague (who is receiving similar instructions) to prepare list of names and addresses which might be included when approach is made to the Yugoslavs.

Reference is made to your 56024/19.10 of 11 Jan 46.

- 1 The explosion which took place at Aversa in January 1946 was of gelignite which was for Italian use, awaiting transfer to various places in Italy. The removal from Aversa of that part of this consignment which remained after the explosion was completed on 8 Jan 46.
- 2 All necessary safety precautions as to storage and handling of explosives in this depot have been instituted and are being observed. It is however impossible to give an assurance of safety owing to the damage recklessly done by thieves.
- 3 Most of the fires and explosions which have occurred have been definitely traced to damage done by thieves. It is not uncommon after a theft to see comparatively large areas strewn with explosives from the endeavour of the thieves to procure brass cartridge cases, cloth ammunition belts, bandoliers and silk explosive-charge bags. This creates a very serious addition to the risk of fire or explosions.
- 4 It is requested that all possible steps should be taken to reduce the thieving which occurs and so reduce the risk of explosions. It is considered that the danger caused by this thieving should be brought clearly to the notice of the local civilian population from which the thieves come, with a view to creating public opinion which might act as a deterrent. Further it is felt that if more stringent punishment were awarded to the delinquents it might also act as a deterrent.

GHQ India feels that the trying Indian climate, the considerably lower standard of living in India and the entirely different social and religious customs will make life in India extremely difficult for the Italian wife of an Indian ex-soldier.

1. You will please found your reply to the Under Secretary of State on the subject of Explosions in Allied Ammunition Depots upon the following.
2. The belief currently held in Averna that it is intended to increase the quantity of explosives stored in Averna is not true; on the contrary it is the intention to decrease the quantities stored there as rapidly as circumstances allow. The gelignite which exploded at Averna in January belonged to the Allied Commission for Italian use and was awaiting transfer to various parts of Italy. The removal of that remaining after the explosion was completed on 8 January 1946.
3. All necessary safety precautions as to storage and handling of explosives in this depot have been instituted and are being observed. It is however impossible to give an assurance of safety owing to the damage recklessly done by thieves.

This creates a very serious addition to the risk of fire or explosion.
5. If more stringent punishment was awarded to those caught it might be a deterrent to others and reduce the risk. If the civilian population from whom these pillagers come were informed of the cause to which this pilfering supports them, the pillagers be brought to realize the danger they cause, and if public opinion can be created it might act deterrent.

12 February 1946

SUBJECT: Marriages - with Italians (Indians).

TO : Headquarters, Allied Commission,
APO 394.

1. There have been a few marriages between Indians and Italian women and GHO India is enquiring whether the Italian Government will allow Indians who have married Italian women to return to and settle in Italy. GHO India feels that the trying Indian climate, the considerably lower standard of living in India and the entirely different social and religious customs will make life in India extremely difficult for the Italian wife of an Indian ex-soldier.

2. Will you please ascertain the Italian Government's view on the matter. It is understood that the numbers involved are small.

BY COMMAND OF LIEUTENANT GENERAL MORGAN:
