INSTRUCTIONS FOR OFFICERS ACTING AS MILITARYCOMMANDERS IN CHARGE OF TROOPS EMPLOYED INAID OF THE CIVIL POWER IN ITALIAN GOVERNMENTTERRITORY

1. It may happen that cases will occur when the local Italian authorities may ask for the assistance of Allied Troops to quell civil disturbances.
2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied Military interests. He will point this out to whoever takes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives such assistance the territory in question will forthwith become an Allied Military Zone.
3. After receiving such a request the local commander will, if time permits, consult the local AC Officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.
4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is the Rome Area Allied Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.
5. Within Rome Area Allied Command but outside the City limits, any officer who receives such a request for assistance will, if time and circumstances permit, similarly refer the request to this Headquarters. In the event of emergency, however, when in the judgment of the Officer concerned circumstances do not admit of the delay involved in referring the matter to this Headquarters, he will act on his own initiative but will invariably report action taken at the earliest possible moment.
6. Firearms will only be employed when the Military Commander is of the opinion that loss of Allied lives or the destruction of valuable installations will result unless drastic measures are taken.
7. If firearms are used the following procedure will be adopted except in the case of the gravest emergency:
 - a. The intention that firing is about to take place will if possible be made clear to the rioters. A line of levelled rifles is the clearest possible indication. If possible some announcement should be made that unless the crowd disperses within a stated period they will be fired on.
 - b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.
 - c. A limited number of rounds will be fired from each rifle and the number clearly stated before the order to fire is given.
 - d. The soldiers detailed to fire will if possible concentrate their aim on the rifle-lead-ers or apparent rifle-lead-ers and will not fire indiscriminately.

may ask for the assistance of Allied Troops to quell civil disturbances.

2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied Military interests. He will point this out to whomsoever makes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives such assistance the territory in question will forthwith become an Allied Military Zone.

3. After receiving such a request the local commander will, if time permits, consult the local AG Officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.

4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is the Rome Area Allied Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.

e. Shots will not be fired over the heads of the crowd, and blank rounds will not be fired.

f. Automatic weapons will not be used.

g. All precautions will be taken to prevent the shooting of women and children.

h. Firing will cease as soon as it becomes effective.

APPENDIX 'P' to Operations Memorandum No. 6.

INSTRUCTIONS FOR OFFICERS ACTING AS MILITARYCOMMANDERS IN CHARGE OF TROOPS EMPLOYED INAID OF THE CIVIL POWER IN ITALIAN GOVERNMENTTERRITORY

1. It may happen that cases will occur when the local Italian authorities may ask for the assistance of Allied Troops to quell civil disturbances.
2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied military interests. He will point this out to whomsoever makes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives such assistance the territory in question will forthwith become an Allied Military Zone.
3. After receiving such a request the local commander will, if time permits, consult the local ACC officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.
4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is the Rome Allied Area Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.
5. Within Rome Allied Area Command but outside the City limits, any officer who receives such a request for assistance will, if time and circumstances permit, similarly refer the request to this Headquarters. In the event of Emergency, however, when in the judgment of the Officer concerned circumstances do not admit of the delay involved in referring the matter to this Headquarters, he will act on his own initiative but will invariably report action taken at the earliest possible moment.
6. Firearms will only be employed when the Military Commander is of the opinion that loss of Allied lives or the destruction of valuable installations will result unless drastic measures are taken.
7. If firearms are used the following procedure will be adopted except in the case of the gravest emergency:
 - a. The intention that firing is about to take place will if possible be made clear to the rioters. A line of levelled rifles is the clearest possible indication. If possible some announcement should be made that unless the crowd disperse within a stated period they will be fired on.
 - b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.
 - c. A limited number of rounds will be fired from each rifle and that number clearly stated before the order to fire is given.
 - d. The soldiers detailed to fire will if possible concentrate their aim

2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied military interests. He will point this out to whomever makes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives such assistance the territory in question will forthwith become an Allied Military Zone.

3. After receiving such a request the local commander will, if time permits, consult the local AOC officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.

4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is HQ Rome Allied Area Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.

c. A limited number of rounds will be fired from each rifle and that number clearly stated before the order to fire is given. **578**

d. The soldiers detailed to fire will if possible concentrate their aim on the ringleaders or apparent ringleaders and will not fire indiscriminately into the crowd.

e. Shots will not be fired over the heads of the crowd, and blank rounds will not be fired.

f. Automatic weapons will not be used.

g. All precautions will be taken to prevent the shooting of women and children.

h. Firing will cease as soon as it becomes effective.
