MINUTES OF

ACTING PRESIDENT'S CONFERENCE

held on 8-9 March 1945.

The Executive Commissioner presided.

ACTION

PART I

1. Acting President's Opening Address.

The Right Hon. Mr. Harold Macmillan opened the meeting by welcoming all those present and expressed his regret at the absence of the Chief Commissioner owing to illness.

He said that the New Deal for Italy was not a new policy but merely a development of the policy which had been followed since the moment the Armistice was signed. Briefly this policy was to foster the development of Italian responsibility until the Italian Government was able fully to take over the government of the country itself. Recent developments were merely a logical conclusion to the policy adopted and followed since those early days.

Mr. Macmillan said that it was clear to him that there could be no possible distinction between the work of AMG and AO. There were differences in their functions but their work must be treated as a whole in order to make for effective planning and in order to obtain continuity from the first impact of AMG until the final taking over of the territory by the Italian Government. The functions of AMG were three-fold. Firstly, to take from the military the burden of civil administration; secondly, to assist so far as possible in the rehabilitation of the country and the suffering of the civilian population; and thirdly, to prepare the ground for the transfer of that territory to the Italian Government and the teaching of the Italians to take over this work themselves. These were very heavy tasks and he had every sympathy with those in the Regions who had to undertake them.

The Acting President then expressed his appreciation to those who had been working for the past months in Italian Government Territory. There had been a difficult and delicate task, handing over the government to the Italians and at the same time well knowing that they could do the job much better themselves.

He then referred to those officers who had had the rather tiresome task of waiting to go into the Northern Regions. They had been engaged either in planning or on attachment to Regions already in operation. This delay in going forward was regrettable but was entirely due to operations.

Mr. Macmillan went on to say that it was fashionable to believe that there was going to be a great deal of political trouble and even revolution in the North. However, he was of the opinion that we

Briefly this policy was to foster the development of Italian responsibility until the Italian Government was able fully to take over the government of the country itself. Recent developments were merely a logical conclusion to the policy adopted and followed since those early days.

Mr. Macmillan said that it was clear to him that there could be no possible distinction between the work of AMG and AG. There were differences in their functions but their work must be treated as a whole in order to make for effective planning and in order to obtain continuity from the first impact of AMG until the final taking over of the territory by the Italian Government. The functions of AMG were three-fold. Firstly, to take from the military the burden of civil administration; secondly, to assist so far as possible in the rehabilitation of the country and the suffering of the civilian population; and thirdly, to prepare the ground for the transfer of that territory to the Italian Government and the teaching of the Italians to take over this work themselves. These were very heavy tasks and he had every sympathy with those in the Regions who had to undertake them.

The Acting President then expressed his appreciation to those who had been working for the past months in Italian Government Territory. Theirs had been a difficult and delicate task, handing over the Government to the Italians and at the same time well knowing that they could do the job much better themselves.

He then referred to those officers who had had the rather tiresome task of waiting to go into the Northern Regions. They had been engaged either in planning or on attachment to Regions already in operation. This delay in going forward was regrettable but was entirely due to operations.

Mr. Macmillan went on to say that it was fashionable to believe that there was going to be a great deal of political trouble and even revolution in the North. However, he was of the opinion that we should find a great deal of invigorating and beneficial aspects of Italian life in that territory and that the people would be more active and powerful than any we had yet come across in Italy. **6303**

He stressed the importance of the great need for coordination between Regions, between Regions and HQ, and between Sections and Sub-Commissions. He was confident that the questions we had been studying would be successfully overcome and we could have confidence in the knowledge that we have so many officers going into the Northern Regions with experience in dealing with similar problems. Moreover, it was more than likely that the conditions of a slow retreat would not necessarily come about and that the destruction of the Italian

production potential would not be so serious as hitherto. He said that he thought that we should find better conditions than was at one time thought possible.

2. Withdrawal of officers from Italian Government Territory.

Brigadier M.S. Lush, Executive Commissioner, said that the Chief Commissioner had asked him to express his sincere regrets at being unable to attend the meeting and to extend to those present his gratitude for the abundant help and assistance given to him during the nine months he had been the Chief Commissioner. He also wished to extend a welcome to those who were present at a Regional Commissioners' Conference for the first time.

The Executive Commissioner then turned to the problem of the withdrawal of AC officers from Italian Government territory which was in implementation of the directive recently received from the Combined Chiefs of Staff. He said that there were two points which the Chief Commissioner wished to emphasize. One was that if we were to carry out the policy of the directive, it should be implemented to the maximum, and particularly the withdrawal of officers. Orders had therefore been issued that, subject to the approval of AFHQ, the withdrawal of officers would be carried out by 1 April to the maximum possible number. Unfortunately a cable had just been received from AFHQ saying that no withdrawal was to take place until the Staff Sections at AFHQ had considered the effect of the withdrawal on the military services.

The Executive Commissioner then went on to refer to a directive on the subject issued that day by HQ A.C. The Chief Commissioner wished it to be stressed that the total withdrawal of officers from Italian Government territory was a policy which he intended to fulfill so far as AFHQ would allow.

Executive Commissioner next referred to that part of the directive which related to the consultation by AC officers with Italian authorities. He said that such consultation would be restricted to discussions at a high level and Heads of Sections and Sub-Commissions should strictly adhere to this policy. Contact with the Italian Government should be preserved but only at the highest level.

Referring to the question of the distribution of AC officers, the Executive Commissioner said that he would only deal with this matter briefly as VP Establishment Section would go into it in detail later. He said that the distribution of officers had been studied at great length, that emphasis had been given to the number required for Northern Regions not yet occupied, second priority being given to the Regions now under AF. It was necessary also to find over 200 officers for AUSTRIA.

He stated that the policy for the North would be for a close follow-up of the Army spearheads by Provincial teams. It had been accepted by everyone concerned that the principle of a close and rapid follow-up of the Army A.G.s by provincial teams was the most efficient form of effecting the initial act of military government. A great deal of planning had been done for NW and NE Italy and, as had already been pointed out by the Acting President, it was probable that we should find circumstances very different from those we had envisaged, which brought

tude for the abundant help and assistance given to him during the first months he had been the Chief Commissioner. He also wished to extend a welcome to those who were present at a Regional Commissioners' Conference for the first time.

A great deal of planning had been done for NW and NE Italy and, as had already been pointed out by the Acting President, it was probable that we should find circumstances very different from those we had envisaged, which brought out the necessity for elasticity in our planning.

He said that a forward station HQ of Allied Commission was not contemplated. He stressed the importance of coordination between Northern Regions themselves and between the Regions and HQ A.C. who must be kept fully informed. All Sub-Commission officers going to Regions would come under Regional control and Heads of Sub-Commissions should remember this when sending officers forward.

Finally, the Executive Commissioner said that the policy of AFHQ in NW Italy where the military problem might not be so important, was to give priority to the civil needs. In NW Italy, if military operations had to be undertaken, the civil requirements would of necessity have to take second priority.

3. Statement on Political Situation.

Mr. H. Hopkinson said that the British Prime Minister in his speech of 18 January 1945 foreshadowed an unhappy state of affairs when - probably at a time when the Northern Regions would be stripped bare of food by the retreating Germans - these elements would be thrown upon the "fragile structure of the Italian Government in Rome with consequences which could not be accurately foreseen and certainly not measured".

The experience of GREECE showed that the existence of organized groups of politically conscious patriots was a factor with which to reckon seriously. He suggested that during the last year forces had been coordinated in the North of Italy which after liberation would present a problem different from any which the Allied Commission had handled in the past in connection with patriots.

Intelligence reports from the North show that the various Committees of National Liberation and the military commands operating under the orders of the Committees had learnt a good deal about the art of government in the year-long struggle against the Fascist and the Germans. In many districts "shadow" Governments had been set up and the various portfolios had been distributed amongst the leaders of the different parties. In most cases the Committees represent the six parties which, up till last December, were represented in the Government in Rome. In some of the Committees however the action party was not represented and in others the Republican party formed part of the Committee. On the whole it seemed that for the time being there was a remarkable degree of unity of purpose in the Committees and party differences had been sunk in the common desire to chase the Germans from Italy and punish their Fascist collaborators. These Committees were assisted in their operations by the Allied authorities and the giving of such assistance had necessarily implied recognition of the value of those operations. Arrangements had been made between the Supreme Allied Commander and the CLNAI defining the extent to which the Allied military authorities were prepared to recognize the Committees.

Under these arrangements when the enemy withdraw from territory occupied by them the CLNAI would endeavour to maintain law and order and to continue the safeguarding of the economic resources of the country until such time as Allied Military Government was established. Immediately upon the establishment of Allied Military Government, the CLNAI would recognize Allied Military Government and would hand over to that Government all authority and powers of local government and administration previously assumed. As the enemy withdrew all components of the General Command of the Volunteers of Liberty in liberated territory would come under the direct command of the Commander-in-Chief, 15th Army Group, acting under the authority of the Supreme Allied Commander and would obey any order issued by him or by Allied Military Government issued on his behalf, including orders to disarm and surrender their

These Committees were assisted in their operations by the Allied authorities and the giving of such assistance had necessarily implied recognition of the value of those operations. Arrangements had been made between the Supreme Allied Commander and the CLNAI defining the extent to which the Allied military authorities were prepared to recognise the Committees.

Under these arrangements when the enemy withdrew from territory occupied by them the CLNAI would endeavour to maintain law and order and to continue the safeguarding of the economic resources of the country until such time as Allied Military Government was established. Immediately upon the establishment of Allied Military Government, the CLNAI would recognise Allied Military Government and would hand over to that Government all authority and powers of local Government and administration previously assumed. As the enemy withdrew all components of the General Command of the Volunteers of Liberty in liberated territory would come under the direct command of the Commander-in-Chief, 15th Army Group, acting under the authority of the Supreme Allied Commander and would obey any order issued by him or by Allied Military Government issued on his behalf, including orders to disarm and surrender their arms when required to do so.

The attitude of the Allied military authorities was therefore made quite clear. But there were other considerations which should be borne in mind when we came to implement the policy in the above arrangements. It was in the interest of the Allies that there should be stable Government in Italy and it was our policy to strengthen the legitimate Italian Government in every way possible and to prevent developments which would result in political disturbances throughout the country. The Italian Government in Rome, which it was our policy to support, might not have the entire confidence of the Committees of

Liberation in the North, or at any rate their influence there was subject to fluctuation. To begin with, the traditional scorn of the North Italian for the Southerner. There was the feeling that the population in the North had contributed more generously to the defeat of the Germans than the South had been able to do and had suffered far more heavily at their hands. There was criticism of the slow progress made by the Boneri Government in the reconstruction of the country, in the solution of the pressing economic problems of food supply and inflation and above all in the punishment of former Fascists. The Italian Government was well aware of this antipathy and in an agreement signed at the time the arrangements previously mentioned were made, they go much further than the Supreme Allied Commander in recognizing the GLML as their representatives in the struggle in the North. They have succeeded by this agreement in exacting a certain measure of recognition of their own legitimacy by the Committees in the North, but the possibility cannot be overlooked that the Committees of Liberation or the component political parties would not abide by this agreement if circumstances seemed favourable for a political upheaval, which would either bring the Committees out as the Government of Italy or would wrest from the Government in Rome a measure of autonomy which might be in effect complete independence from Rome. The Italian Government was therefore anxious to establish as much contact as possible with the Committees in the North in order to be able to explain to them what was being accomplished in liberated Italy and what the Government proposed to do in the North when the Germans have been driven out. The Allied Governments were generally in favour of the establishment of such contacts and hoped that after liberation the Rome Government would be able to absorb representatives from the North and thereby become representative and therefore stronger.

The problem facing the Allied Commission the afore was as follows: we must endeavour on the liberation of the North to reconcile the needs of Military Government with the aspirations of the political leaders of the Committees of Liberation to self-government. At the same time, we must bolster the authority of the Italian Government in Rome in order that it may be able to administer the Northern territories once Allied Military Government was withdrawn. The solution of this problem might well be found to lie in the absorption at a very early date of members of the local Committees of National Liberation into the civil administration operating under Allied Military Government. If Regional Commissioners arrived in the North and bluntly informed the Committees of National Liberation that their task was accomplished and that they might now disperse and if, after that, Prefects, Sindaci and other administrative officers were imported from the South or even from other localities in the North, the disappointment, the antagonism even, of the Committees of Liberation would be great. The danger of setting up local administrations composed of Italians who would not be acceptable to the patriot organizations who had been struggling against the Germans for so long could not be over emphasized. It was not implied that every local Committee of National Liberation should automatically be confirmed as the local administration, but it was urged that Regional Commissioners should, whenever possible, decide to make appointments in favour of the members of the Committees rather than in favour of strangers from other parts of Italy. If the local Committees of Liberation were installed at once as the local administrations,

in the solution of the pressing economic problems of food supply and inflation and above all in the punishment of former Fascists. The Italian Government was well aware of this antipathy and in an agreement signed at the time the arrangements previously mentioned were made, they so much further then the Supreme Allied Commander in recognizing the CMAL as their representatives in the struggle in the North. They have succeeded by this agreement in exacting a certain measure of recognition of their own legality by the Committees in the North but the possibility cannot be overlooked that the Committees of Liberation or the competent political parties would not abide by this agreement if circumstances seemed favourable for a political upheaval, which would either bring the Committees out as the Government of Italy or would wrest from the Government in Rome a measure of autonomy which might be in effect complete independence from Rome. The Italian Government was therefore anxious to establish as much contact as possible with the Committees in the North in order to be able to explain to them what was being accomplished in liberated Italy and what the Government proposed to do in the North when the Germans have been driven out. The Allied Governments were generally in favour of the establishment of such contacts and hoped that after liberation the Rome Government would be able to absorb representatives from the North and thereby become representative and therefore stronger.

The problem facing the Allied Commission the before was as follows: we must endeavour on the liberation of the North to reconcile the needs of Military Government with the aspirations of the political leaders of the Committees of Liberation to self-government. At the same time, we must bolster the authority of the Italian Government in Rome in order that it may be able to administer the Northern territories once Allied Military Government was withdrawn. The solution of this problem might well be found to lie in the absorption at a very early date of members of the local Committees of National Liberation into the civil administration operating under Allied Military Government. The danger of setting up local administrations composed of Italians who would not be acceptable to the patriot organizations who had been struggling against the Germans for so long could not be over emphasized. It was not implied that every local Committee of National Liberation should automatically be confirmed as the local administration, but it was urged that Regional Commissioners should, whenever possible, decide to make appointments in favour of the members of the Committees rather than in favour of strangers from other parts of Italy. If the local Committees of Liberation were installed at once as the local administration, many of the problems of maintaining law and order would never arise. It would be easier to collect arms from the patriots and to disarm them. It would be easier to exploit the local resources of the country in the work of reconstruction and the work of feeding the population. It would be easier to bring together the former patriot organizations and the Italian Government and it would be easier to prepare the ground against the time when the Government in Rome could take over the administration of the North.

ACTION

Mr. Hopkinson realized that the lack of precise information about personalities in the North due to the clandestine nature of their activities in recent months would make it difficult for Regional Commissioners to assess the relative claims of members of the Committees of Liberation to participate in local government. But in order in some measure to offset this disability, he hoped to be able to compile in the next few weeks a sort of "who's who" which might prove useful to Regional Commissioners in the task of selection.

In a discussion which followed Brigadier Upjohn, VP Civil Affairs Section, said a letter had been received from the Prime Minister which suggested an opposite view to the account given by Mr. Hopkinson. The letter suggested that certain named Prefects be put forward for appointment in the North. He thought this was a dangerous policy.

Col. Poletti, R.O. LAZIO-UMBRIA Region, considered that men coming up to fill appointments in the North would cause resentment and trouble in the local administrations. All must be absolutely free to decide appointments on the spot. Brig. Darlow, R.O. SOUTHERN Region, said Bonomi wanted to appoint career men as Prefects. The CLN should be asked for names.

The Executive Commissioner said that in making the initial appointments in any territory all officers should be bound by the policy enunciated by Mr. Hopkinson: the decision of the Italian Government to send to the North men of administrative experience and known to the Government, was natural and we could and probably would fall back on some of the men so selected. But we could not accept the principle of naming the Prefects before liberation. He also emphasized the necessity of any allis consulting Provincial and Regional Commissioners when making appointments in local government.

4. Personnel and Transport.

The Deputy Executive Commissioner, Col. Fiske, referred to memorandum, 7002/98/PC of 7 March, which was issued to the meeting. We now had approximately 900 British and 700 American officers which included 200 British officers for AUSTRIA. It was recently decided that Allied Commission would furnish 168 American officers for the same purpose. As a result American officers had been reduced to 532. Taking the foregoing figures as a basis, an allocation of officers in Regions had been drawn up. We should have the services of the officers earmarked for AUSTRIA until such time as they were needed. We would get approximately 60 additional American officers from combat and military formations and these officers were being trained and made available for military government. A training school would commence next week, taking 25 officers as a time and on completion of their training all these officers would be ~~reassigned to military government~~ *reassigned to military government and subsequently employed in military government duties when their services were required and when they could be released.*

The Deputy Executive Commissioner stated that our W.D. transport was below establishment. Our T/O had been increased by 750 but this meant increasing the number of requisitioned vehicles and we were endeavouring to obtain restoration of authority for hiring which would be a satisfactory solution to the problem. Vehicles from the South were being serviced and re-allocated to Northern Regions according to their needs.

Brig. Graftley-Smith, Chief Financial Adviser, said there was no financial obstacle to the Commission hiring vehicles.

The Executive Commissioner summing up stated that if officers for AUSTRIA had to be released before we went into the North officers for the central Regions would be found from Sections and Sub-Commissions at HQ. A further pruning of HQ was necessary. As to the transport problem, we were endeavouring to obtain renewal of powers of requisitioning if only for an initial period of 60 to 90 days.

5. (a) Assignment of Officers.

Col. Bowman, R.C. EMILIA Region, and Regional Commissioners of Northern Regions raised points concerning assignment of officers. After some discussion Executive Commissioner said that a period would be set aside later for a discussion between Regional Commissioners, SCIO's and Establishment Section to discuss in detail.

(b) Policy on Implementation of Italian Government's Decrees in N. Italy.

R.C. EMILIA Region, raised the question of the implementation of Italian Government decrees in AMG territory. Executive Commissioner stated that Heads of Sections advised the Chief Commissioner as to whether decrees should apply to AMG territory or not; this was a policy decision made by HQ.

VP Civil Affairs Section pointed out there was nothing automatic about implementation of this policy with respect to any particular decree. It was not feasible to have a decree implemented in one Region and not in another. If there was doubt about any decree, it need not be implemented until after consultation. The procedure for implementing decrees in FIFTH and EIGHTH Army was compared and it was agreed that the method adopted by FIFTH Army was preferable and would be adopted by EIGHTH Army.

(c) Disposition of Truck Pools.

Brig. Dunlop, R.C. SOUTHERN Region, stated there were 366 trucks in the South organised into four transport pools under Allied officers and asked that these trucks be transferred to the Italians as soon as possible. Executive Commissioner said that everything possible would be done to obtain a decision on this from AFHQ before 1 April 1945.

(d) Turnover of Food Distribution to Italian Agencies.

Col. Kirkwood, R.C. TOSCANA Region, referred to the intention to hand over food warehouses to Italian control. He did not like accepting responsibility for food distribution in his Region under these conditions. He considered this should not be put into effect until the Italians had had proper instruction in our methods. Food Sub-Commission, Transportation Sub-Commission and the Regions were all concerned in such a hand-over.

Col. Bowen, R.C. EMILIA Region, and Regional Commissioners of Northern Regions raised points concerning assignment of officers. After some discussion Executive Commissioner said that a period would be set aside later for a discussion between Regional Commissioners, SCMO's and Establishment Section to discuss in detail.

(b) Policy on Implementation of Italian Government's Decrees in N. Italy.

R.C. EMILIA Region, raised the question of the implementation of Italian Government decrees in AMG territory. Executive Commissioner stated that Heads of Sections advised the Chief Commissioner as to whether decrees should apply to AMG territory or not; this was a policy decision made by HQ.

VP Civil Affairs Section pointed out there was nothing automatic about implementation of this policy with respect to any particular decree. It was not feasible to have a decree implemented in one Region and not in another. If there was doubt about any decree, it need not be implemented until after consultation. The procedure for implementing decrees in FIFTH and EIGHTH Army was compared and it was agreed that the method adopted by FIFTH Army was preferable and would be adopted by EIGHTH Army.

(i) 300 gram ration and price of bread and pasta.

Col. Legg, Food Sub-Commission, reported that an Administrative Memorandum had been prepared setting out the basic formula on which the economic price of bread had been established. The 300 gram ration became effective throughout all Italian Government territory on 1 March and in AMG territory on 12 March. It comprised 200 grams bread and 80 grams pasta per man issued weekly or bi-monthly. All cereals to be milled for human consumption would be controlled by the Consorzio Agrario through the medium of the local Consorzio. All expenses relative to the milling, transportation etc. of the grain would be borne by the Consorzio. The price for milling had been established at between 60-70 lire per quintal. The price of flour ex-mill was 1396.50 lire per quintal. In AMG territory the Provincial Commissioner would approve the price of bread as submitted to him by the Consorzio. The Administrative Memorandum referred to would be sent out that day.

It was stated that the price would vary with local economic conditions, in LECCE the economic price found its level at 45.5 lire per kilo, BARI 46.5, NAPLES 47.00. There would be price fixing committees in Provinces which would arrive at the cost of transport etc.

Chief Financial Adviser asked Regional Commissioners if the Government bonus of about 95 lire was sufficient to fix the cost at 46 lire per kilo. He thought the price would go up to 48.00. Brig. Dunlop said it would take some little time before they could work out the costs.

Col. Legg said that the 'impact' ration in Northern Provinces would depend on the transportation available to move forward the stockpiles. It was hoped to establish an 'impact' ration of 100 grams from imported supplies plus whatever supplies were found on the ground, and to establish a 200 gram ration in LIGURIA. Also to strike a medium between the lowest and highest price of bread not higher than 48. Regional Commissioners should establish a price for bread immediately on entering the North and for their guidance further study would be given to the subject.

It was thought that the reaction of the population to an immediate rise in price, even to 46 lire per kilo would be severe. A/VP Economic Section asked if we could subsidise the price from AMG funds. The first was for full amassing as for last year. The alternative was partial amassing which would consist of setting an amassing figure of so many quintals per hectare according to the Province.

After views had been expressed by Regional Commissioners the Executive Commissioner announced that this could be discussed at the Economic Section meeting. See 6(a)(1) above.

(iii) Inter-provincial movement of foodstuffs.

Col. Legg, Food Sub-Commission, said this question was raised because in recent months there has been a growing tendency for some Provinces to export foodstuffs to other areas on a barter basis. The practice was contrary to established policy for inter-provincial movement of goods and adversely affected urban and populous centres. It was harmful to the national economy and should be abolished. A new directive on inter-regional trade had been prepared and would be issued forthwith.

A large number of unpaid requisitions had accumulated particularly on the American side, although a recent order issued by AFHQ allowed for a much more liberal policy of payment. 6. (b) Civil Affairs Section.

(i) Holding of local elections in AMG territory.

Brig. Upjohn, VP Civil Affairs Section, stated that Combined Chiefs of Staff had directed that holding of local elections be encouraged in territory returned to the Italian Government. Was it desirable to implement the decree in AMG territory and hold local elections there? Some considerations to be borne in mind were the possibilities of strife and disorder, difficulties of transportation to the polling stations, etc. He considered that it would be desirable to hold elections in AMG (not Army) territory as it would increase the prestige of Allied Commission and might be invaluable in the industrial North to announce that elections would be held.

MINUTES OF ACTING PRESIDENT'S CONFERENCE - 20 NOVEMBER 1944.

The following Memoranda were submitted in support of the points outlined in the Agenda: -

Memorandum "A" - Functions of the Sub-Commissions of the Civil Affairs Section in Italian Government Territory (By CA Sec).

Memorandum "B" - Future of the Commission (By Chief of Staff).

Memorandum "C" - Approval of Appointments of Italian Officials by the Allied Commission (By CA Section).

Memorandum "D" - Approval of Decrees passed by the Italian Government (By CA Section).

1. Future of the Allied Commission.

A/President asked the meeting to give special consideration as to what the implications were in connection with the removal of "Control" from the title of the Commission. He invited Brigadier Upjohn to read his Memorandum on the functions of the Sub-Commissions of the Civil Affairs Section in Italian Government Territory (Memorandum "A").

There were no comments on the introduction.

PART I.

Para 4(a) - Legal Sub-Com. No comments.

Para 4(b) - Local Government Sub-Com. This Sub-Com is represented in the field by Civil Affairs Officers.

Para 4(c) - Public Safety Sub-Com. A/President asked whether in the event of Allied Public Safety Officers being withdrawn the Public Safety Sub-Com could be incorporated in the Land Forces Sub-Com for purposes of control. The answer was in the negative.

Para 4(d) - Public Health Sub-Com. Chief of Staff mentioned that the arrival of UNRRA would be of some assistance in the event of the withdrawal of Public Health officers.

Para 4(e) and (f) were the subject of detailed discussion.

MINUTES OF ACTING PRESIDENT'S CONFERENCE - 20 NOVEMBER 1944.

The following Memoranda were submitted in support of the points outlined in the Agenda:-

- Memorandum "A" - Functions of the Sub-Commissions of the Civil Affairs Section in Italian Government Territory (By CA Sec).
- Memorandum "B" - Future of the Commission (By Chief of Staff).
- Memorandum "C" - Approval of Appointments of Italian Officials by the Allied Commission (By CA Section).

He invited Brigadier Upjohn to read his Memorandum on the functions of the Sub-Commissions of the Civil Affairs Section in Italian Government Territory (Memorandum "A").

There were no comments on the introduction.

PART I.

Para 4(c) - Local Sub-Com. No comments.

Para 4(b) - Local Government Sub-Com. This Sub-Com is represented in the field by Civil Affairs Officers.

Para 4(c) - Public Safety Sub-Com. A/President asked whether in the event of Allied Public Safety Officers being withdrawn the Public Safety Sub-Com could be incorporated in the Local Forces Sub-Com for purposes of control. The answer was in the negative.

Para 4(d) - Public Health Sub-Com. Chief of Staff mentioned that the arrival of U.S.A. would be of some assistance in the event of the withdrawal of Public Health officers. **6303**

Para 4(e) and (f) were the subject of detailed discussion later in the meeting under Point 2(b) of the Agenda.

The general feeling of the meeting on this point was that many important functions performed by Allied officers in Italian Government territory could not be dispensed with.

1675

2. Concessions which might be made by Allied Commission in implementation of the Change of Title.

Chief of Staff read out Memorandum "B". Chief Commissioner queried the second sentence in para 2 regarding the exercise of control. He thought that up till recently a good degree of control had in fact existed, as for example, when the price of wheat was decided in May. Later, however, when the Italian Government announced the change in wage rates our control was very nominal. A/President compared the situation to the control exercised by the House of Lords. The discussion then turned to:-

- (a) Removal of Officers in the Field from the Islands and Southern Region.
- Chief of Staff said that even if we withdrew Provincial Commissioners retention of specialist officers of Economic Section would be necessary. Economic Section were prepared to give up field control and would exercise control from HQ. Finance Sub-Com were in agreement but thought that OCS would need to authorise certain arrangements. Political Section thought that it would be helpful for the overall political position if such officers could be converted to Liaison Officers. A/President said that the functions of our officers were:

- (i) to protect our direct military and Allied Commission interests;
- (ii) to protect our good name, if, for example, a school or hospital was requisitioned.

Major-General Lewis said that if AG officers were withdrawn it might throw extra functions on to Areas and Districts who would have to be consulted. A/President said that we should have to go sometime, the point was, when, and how little damage need be done. A good instance was the withdrawal of transportation and public utility officers of whom there were 26 in Southern Region. Major-General Lewis said that their withdrawal might be damaging to military interests.

The consensus of the meeting was that officers could be withdrawn from their appointments under the Allied Commission but in several instances would have to be replaced or returned under another name, e.g., as Liaison Officers attached to military formations (District, Area HQ).

- (b) Abandonment of certain functions at HQ and in the Field.
- Economic section were prepared to withdraw certain officers in the field, for example, Supply Officers, but not from HQ. In G. Section, Brigadier Upjohn said that monuments & pine Arts Sub-Com could be withdrawn from Italian Government territory and the Chief Commissioner approved. Education officers were definitely required in AG territory. The decision as to whether they could be withdrawn from Italian Government territory depended on whether our policy was to abandon our control of education in Italy. The withdrawal of other Sub-Commissions officers would depend on the decision taken on Point 2(e) in the Agenda.

Chief of Staff thought that control of labour was necessary because of its relation with the armed forces. A/President thought that OCS would insist on some control as long as they were sending us supplies for distribution in Italy. Chief Commissioner said he thought the two most vexatious points of control were the control of appointment of officials and submission of Italian decrees for approval by Allied Commission (See Para 2(e)).

The consensus of the meeting was that all Sub-Commissions must remain in order to carry on the functions of Allied Commission in their territories.

A/President said that we should have to go sometime, the point was, when, and how little damage need be done. A good instance was the withdrawal of transportation and public utility officers of whom there were 28 in Southern Region. Major-General Lewis said that their withdrawal might be damaging to military interests.

The consensus of the meeting was that officers could be withdrawn from their appointments under the Allied Commission but in several instances would have to be replaced or returned under another name, e.g., as Liaison Officers attached to military formations (District, Area HQ).

(b) Abandonment of certain functions at HQ and in the Field.
Economic section were prepared to withdraw certain officers in the field, for example, Supply Officers, but not from HQ. In CA Section, Brigadier Upjohn said that Monuments & Fine Arts Sub-Com could be withdrawn from Italian Government territory and the Chief Commissioner approved. Education officers were definitely required in AMG territory. The decision as to whether they could be withdrawn from Italian Government territory depended on whether our policy was to abandon our control of education in Italy. The withdrawal of other Sub-Commissions officers would depend on the decision taken on Point 2(e) in the Agenda.

Chief of Staff thought that control of labour was necessary because of its relation with the armed forces. Chief Commissioner said he thought the two most vexatious points of control were the control of appointment of officials and submission of Italian decrees for approval by Allied Commission (See Para 2(e)).

The consensus of the meeting was that all Sub-Commissions must remain in order to carry on the functions of Allied Commission in AMG territory and to plan for Kesselring's Italy: but that in respect of some Sub-Commissions (Education, Monuments & Fine Arts) all functions, and in respect of others, some functions, could be dispensed with in dealing with Italian Government Italy unless the Italian Government asked for assistance.

-3-

(c) Demilitarisation.

Colonel Riske was doubtful whether this proposal had been fully considered in WASHINGTON. A/President referred to three divisions of Italy in two of which uniform was essential, i.e., Kesselring's Italy and AMG territory. Economic Section raised the point of the competency of civilians selected as replacements. A/President asked whether there should be a balance between British and American as regards civilian and military personnel. Chief Commissioner said he wished a proper balance. Chief of Staff mentioned the question of exchange of officers. The general opinion of the meeting was that it was impossible for officers in AMG territory to perform their duties unless they were in uniform, and difficult in AS territory. A/President said he thought that there should be a balance maintained between British and American and, as regards interchangeability, that it might be possible to make certain appointments of civilians to posts at HQ, when each case should be decided on its merits.

The consensus of the meeting was that at this stage the appointment of civilians to posts in the field, either in AMG or Italian Government territory, was impracticable and that demilitarisation of the Allied Commission should be confined to certain posts at HQ, the holders of which would clearly remain at HQ, maintaining as far as possible a balance between American and British.

(d) Appointment of Civilian Advisers.

Chief of Staff proposed the appointment of certain civilian advisers to be appointed to Ministries of the Italian Government as servants of the Italian Government, with residual responsibility to the Allied Commission. The General opinion of the meeting was that the adoption of such a measure now would be premature although it might be suitable after hostilities had ceased. Political Section said the Italian Government wanted the reverse procedure - Italian advisers appointed to the Allied Commission. A/President said that if his conception of Allied control was correct, the performance of the Sub-Commissions was to act as advisers. He would prefer the roles to be reversed and for the Italian Government, after the withdrawal of the Allied Commission (at end of hostilities) to come forward with a request for advisers.

(e) Surrender of Control by Allied Commission of Legislation and Appointment of Italian Officials.(i) Appointment of Italian Officials.

Brigadier Upjohn produced Memorandum "C" on the question of appointment of Italian officials. A/President read this out. Chief Commissioner said that this surrender was the most important contribution AS could make in the elimination of "control" in the eyes of the Italian Government. In Appendix "C" to Memorandum "C" were the appointments which the Italian Government suggested should still be submitted to AS for approval. A/President asked whether we had any right to veto Ministers. Chief Commissioner said that we had by virtue of the secret agreement between General MacFarlane and Marshal Badoglio, which had been recognised by the present Government. A/President asked about diplomatic representatives. Political Section said that the Italian Government now submitted names for heads of missions but not for junior officials. The latter, however, could be controlled if necessary by the withholding of military authorisations.

A/President expressed doubt as to the competency of Allied

6363

balance. Chief of Staff mentioned the question of exchange of officers. The general opinion of the meeting was that it was impossible for officers in IAG territory to perform their duties unless they were in uniform, and difficult in IAG territory. A/President said he thought that there should be a balance maintained between British and American and, as regards interchangeability, that it might be possible to make certain appointments of civilians to posts at HQ, when each case should be decided on its merits.

(a) Appointment of Civilian Advisers.

He would prefer the roles to be reversed and for the Italian Government, after the withdrawal of the Allied Commission (at end of hostilities) to come forward with a request for advisers.

(b) Surrender of Control by Allied Commission of Legislation and Appointment of Italian Officials.

(i) Appointment of Italian Officials.

Brigadier Upjohn produced Memorandum "C" on the question of appointment of Italian officials. A/President read this out. Chief Commissioner said that this surrender was the most important contribution IAG could make in the elimination of "control" in the eyes of the Italian Government. In Appendix "C" to Memorandum "C" were the appointments which the Italian Government suggested should still be submitted to IAG for approval. A/President asked whether we had any right to veto Ministers. A/President asked about diplomatic representatives. Political Section said that the Italian Government now submitted names for heads of missions but not for junior officials. The latter, however, should be controlled if necessary by the withholding of military authorisations.

A/President expressed doubt as to the propriety of Allied Commission exercising control over appointment of Ministers, but said that this was a matter for the Allied Governments to decide. It was decided to accept List "C" as it stood with a very few additions to be made by Civil Affairs and Economic Section.

(ii) Approval of Decrees.

Brigadier Upjohn produced Memorandum "D" which the A/President read out. After discussion as to our legal rights over the approval of decrees, it was generally agreed that though IAG had no specific right to be consulted on all decrees, the Italian Government usually

-4-

submitted the more important decrees for approval, if not before discussion by Council of Ministers, at least before publication. Exceptions to this were the labour wage decree and the decrees on the distribution of uncultivated land to the peasants. A/President said that we could not demand to see decrees as a right but it would be useful if we were consulted.

It was agreed that the AG had no legal right and should not attempt to obtain the right to scrutinise decrees, but that the necessary atmosphere of mutual confidence should be built up (sometimes perhaps by exercise of pressure), so that the Italian Government spontaneously submitted draft decrees on important subjects for discussion before they became law.

3. Organisation of the Economic Section.

DCOS, Economic Section, Mr. Antelini, read his paper on the subject of the set-up of his Section, and explained the functions of each Division and Sub-Commission. (Copy of this paper is with the A/President).

(a) Committee of Industrial Reconstruction.

He referred to this Committee as the central authority to which the various Ministries should refer.

(b) Labour Sub-Commission.

The Chief of Staff gave news of a cable just received from TROOPERS cancelling Mr. Brayne's appointment, on the authority of the Ministry of Labour. Amalgamation of this Sub-Commission with the Finance Sub-Commission was discussed but rejected.

(c) Transportation Sub-Commission.

DCOS, Economic Section described this Sub-Commission as having the function of implementing the planning made by the Priorities & Movement Division of his Section Staff.

4. Implementation of General Wilson's M.F. 810.

(a) Road Position of Italy.

DCOS, Economic Section submitted a paper showing the wheat assets and liabilities and the balance for the North which included all Northern Italy as well as the North-East portion. The A/President asked Mr. Antelini to give him the references of the various letters and signals on which Mr. Antelini based his probable import figure of 788,000 tons from 1 November 1944 through June 1945, as mentioned in Para 24 of the paper. In regard to the amounts of wheat that we might find available in the North when we went in, Mr. Antelini mentioned a figure of 860,000 tons. The A/President asked him for a note on this. Mr. Antelini stressed the importance of obtaining a decision to raise the ration to 300 grams. He mentioned that if it were decided to raise the ration North of the GANIG-LIANO it would not be possible to give effect to this before 15 December. The Chief Commissioner endorsed the importance of raising the ration if disorders were to be avoided.

(b) Miscellaneous Foods.

DCOS, Economic Section produced a paper on this, copy of which is with the A/President:-

(i) Milk.

The A/President asked what was the fresh milk available in the

3. Organisation of the Economic Section.
 DCOS, Economic Section, Mr. Antolini, read his paper on the subject of the set-up of his Section, and explained the functions of each Division and Sub-Commission. (Copy of this paper is with the A/President).

(a) Committee of Industrial Reconstruction.

He referred to this Committee as the central authority to which the various Ministries should refer.

(b) Labour Sub-Commission.

The Chief of Staff gave news of a cable just received from TROOPERS cancelling Mr. Brayne's appointment, on the authority of the Ministry of Labour. Implementation of this Sub-Commission with the Finance Sub-Commission was discussed but rejected.

(c) Transportation Sub-Commission.

DCOS, Economic Section described this Sub-Commission as having the function of implementing the planning made by the Priorities & Movement Division of his Section Staff.

4. Implementation of General Wilson's W.F. 810.

(a) Food Position of Italy.

DCOS, Economic Section submitted a paper showing the wheat assets and liabilities and the balance for the North which included all Northern Italy as well as the North-East portion. The A/President asked Mr. Antolini to give him the references of the various letters and signals on which Mr. Antolini based his probable import figure of 788,000 tons from 1 November 1944 through June 1945, as mentioned in Para 14 of the paper. In regard to the amounts of wheat that we might find available in the North when we went in, Mr. Antolini mentioned a figure of 860,000 tons. The A/President asked him for a note on this. Mr. Antolini stressed the importance of obtaining a decision to raise the ration to 300 grams. He mentioned that if it were decided to raise the ration North of the GARIG-LIANO it would not be possible to give effect to this before 15 December. The Chief Commissioner endorsed the importance of raising the ration if disorders were to be avoided.

(b) Miscellaneous Facts.

DCOS, Economic Section produced a paper on this, copy of which is with the A/President:-

(i) Milk.

The A/President asked what was the fresh milk supply in Italy, to which he received the answer - negligible. Mr. Antolini was instructed to give the A/President a note on this.

(ii) Olive Oil.

DCOS Economic Section thought that with successful annexing the oil situation would not be bad.

2283

785016

(c) Price of Bread.

Mr. Antelini submitted a paper on this, copy of which is with the A/President. After discussion it was agreed that the price release announcing the increase of the price of bread from 5 lire to 8 lire a kilo should be withheld until 1 December. General Spofford hoped that within this period of grace he would receive the approval of the CCS to raise the basic ration to 300 grams. In summing up the A/President stated that the price of bread should not be raised in any territory unless a 300 gram ration had been approved therein and that the Italian Government should be strongly urged to follow the same procedure in the territory for which they were responsible.

(d) Proposed plan for Italy under Secretariat of Food.

DCOS Economic Section presented a paper on this, copy of which is with the A/President, who read it through and agreed in principle. Mr. Antelini pointed out that the plan required good administrative personnel. He must, he said, be careful not to hand back territory too soon.

(e) Essential Civilian Requirements.

DCOS Economic Section submitted a paper on this, copy of which is with the A/President. The A/President said that the vital points at issue were, were these requirements to be supplied as a military commitment for all Italy, including the Italian Government portion, or was there to be a distinction between the requirements for Italian Government territory and Allied Military Government territory. The A/President also stressed that there were four important points in regard to this matter:

- (i) Finance.
- (ii) Availability.
- (iii) Shipping.
- (iv) Port Clearance.

The first three were the responsibility of the CCS and port clearance was the problem of AFHQ and Allied Commission.

5. UNRRA.

After a short discussion it was agreed that Allied Commission could only accept UNRRA's proposals provided they were self-supporting in respect of:-

- (a) Supplies;
- (b) Ships;
- (c) Transport;

and that adequate facilities existed at the ports for their supplies. Until these were provided, the proposals of UNRRA were not practicable, except in respect of taking over Refugee Camps in the South.

6. Channels of Communication.

General Spofford read a paper, a copy of which he gave to the A/President setting out the personnel and functions of G-5, AFHQ. The A/President said that there were some matters which could be handled direct with CCS or the CCAC without even a copy to AFHQ, other matters which could be handled direct but with a copy to AFHQ, and that there were, of course, matters of a more technical nature (for instance, G-4 matters) which should continue to be handled by G-5 Section. He directed that General Spofford's paper should be considered by the Allied Commission and specific proposals submitted in due course.

... 300 given nation had been approved... that the... Government should be strongly urged to follow the same procedure in the territory for which they were responsible.

- (a) Proposed plan for Italy under Secretariat of Food.
 DCOG Economic Section presented a paper on this, copy of which is with the A/President, who read it through and agreed in principle. Mr. Antelind pointed out that the plan required good administrative personnel. He must, he said, be careful not to hand back territory too soon.
- (a) Essential Civilian Requirements.
 DCOG Economic Section submitted a paper on this, copy of which is with the A/President. The A/President said that the vital points at issue were, were these requirements to be supplied as a military commitment for all Italy, including the Italian Government portion, or was there to be a distinction between the requirements for Italian Government territory and Allied Military Government territory. The A/President also stressed that there were four important points in regard to this matter:

- (i) Finance.
- (ii) Availability.
- (iii) Shipping.
- (iv) Port Clearance.

The first three were the responsibility of the CCS and port clearance was the problem of AFHQ and Allied Commission.

- 5. UNRRA.
 After a short discussion it was agreed that Allied Commission could only accept UNRRA's proposals provided they were self-supporting in respect of:-
 - (a) Supplies;
 - (b) Ships;
 - (c) Transport;
 and that adequate facilities existed at the ports for their supplies. Until these were provided, the proposals of UNRRA were not practicable, except in respect of taking over 'Refugee Camps in the South.

- 6. Channels of Communication.
 General Spofford read a paper, a copy of which he gave to the A/President setting out the personnel and functions of G-5, AFHQ. The A/President said that there were some matters which could be handled direct with CCS or the COMLOG with-out even a copy to AFHQ, other matters which could be handled direct but a copy to AFHQ, and that there were, of course, matters of a more technical nature (for instance, G-4 matters) which should continue to be handled by G-5 Section. He directed that General Spofford's paper should be considered by the Allied Commission and specific proposals submitted in due course.

- 7. Relations between Allied Commission with the Political Section and the Allied Presses.
 The A/President read a paper he had himself prepared on this subject. Reference was made to a letter written by the Chief Commissioner on 5th November, Ref: A/CC 201, on the subject of relations between the Italian Government and the United Nations. The A/President said that as he saw it there were two problems:

-6-

(a) Can the Italian Government communicate with other Governments without their communications being scrutinized?

(b) If so, can they use ciphers?

It was agreed that to allow communications but to forbid ciphers really implied prohibition of communications of a secret nature. Mr. Hopkinson said that all outgoing communications of the Italian Government were, at present, real, except in the case of the Russians. Mr. Hopkinson also said there was a technical matter in regard to ciphers to which he would like the President to give consideration and on which he promised to submit a note.

SECRET

DRAFT

Ref:- 9/1 A/CA

SUBJECT:- Approval of the appointment of Italian officials by A.C.

TO:- Acting President, Allied Commission. 16 Nov '44.

1. It is requested that clarification may be obtained as to the policy which should be adopted by the Allied Commission in the approval of appointments made by the Italian Government in Italian Government territory, i.e. territory which has been handed back to the administration of the Italian Government and is no longer administered by Allied Military Government. For your information the following is a brief history of the policy hitherto adopted by the Allied Commission, and a statement of the present position.
2. Shortly after the first handover of territory to the Italian Government which took place on the 11th February '44, there was an exchange of letters between the then Chief Commissioner, Lt.Gen. Sir Noel Mason MacFarlane and the then Prime Minister Marshal Badoglio. (Copies of these letters are at App. "A"). In effect by these letters it was agreed that all senior Government appointments would be subject to the prior approval of the Commission.
3. Details were worked out between the Sub-Commissions and the Ministries concerned as to the level down to which appointments made by the Italian Government would be subject to the Commission's approval. Appendix "B" Part I gives a list of offices as finally agreed between the Commission and the Government which were to be subject to the Commission's approval.
With regard to Sub-Commissions in the Economic Section, no detailed arrangements were made, but the practice grew up whereby the Ministries concerned did in fact submit for approval, to the appropriate Sub-Commission, appointments down to the level set out in App. "B" Pt II.
4. The arrangements so made have worked quite smoothly in practice. It is fair to say that in the vast majority of cases no difficulty has arisen and appointments have been approved almost as a matter of course, but the right of approval has proved useful in practice, and occasionally approval for good reason has been withheld and the Italian Government has been required to submit another appointee for the office.
5. Recently, and in view of the change of name of the Commission, the Italian Government has requested that the practice be revised and they have submitted a very short list of offices which they suggest should be submitted to the Commission for approval. (App. "C").
6. It appears to be a matter of overall policy as to whether or not the Commission should agree to the revised list. It is the opinion of the Civil Affairs Section that the list is too short, and that at any rate the names of directors of personnel in each Ministry

It is requested that clarification may be obtained as to the policy which should be adopted by the Allied Commission in the approval of appointments made by the Italian Government in Italian Government territory, i.e. territory which has been handed back to the administration of the Italian Government and is no longer administered by Allied Military Government. For your information the following is a brief history of the policy hitherto adopted by the Allied Commission, and a statement of the present position.

2. Shortly after the first handover of territory to the Italian Government which took place on the 11th February '44, there was an exchange of letters between the then Chief Commissioner, Lt. Gen. Sir Noel Mason MacFarlane and the then Prime Minister Marshal Badoglio. (Copies of these letters are at App. "A"). In effect by these letters it was agreed that all senior Government appointments would be subject to the prior approval of the Commission.

3. Details were worked out between the Sub-Commissions and the Ministries concerned as to the level down to which appointments made by the Italian Government would be subject to the Commission's approval. Appendix "B" Part I gives a list of offices as finally agreed between the Commission and the Government which were to be subject to the Commission's approval.

With regard to Sub-Commissions in the Economic Section, no detailed arrangements were made, but the practice grew up whereby the Ministries concerned did in fact submit for approval, to the appropriate Sub-Commission, appointments down to the level set out in App. "B" Pt II.

4. The arrangements so made have worked quite smoothly in practice. It is fair to say that in the vast majority of cases no difficulty has arisen and appointments have been approved almost as a matter of course, but the right of approval has proved useful in practice, and occasionally approval for good reason has been withheld and the Italian Government has been required to submit another appointee for the office.

5. Recently, and in view of the change of name of the Commission, the Italian Government has requested that the practice be revised and they have submitted a very short list of offices which they suggest should be submitted to the Commission for approval. (App. "C").

6303

6. It appears to be a matter of overall policy as to whether or not the Commission should agree to the revised list. It is the opinion of the Civil Affairs Section that the list is too short, and that at any rate the names of directors of personnel in each Ministry should be submitted to the Commission for approval. The main reason for this is that appointments in Allied Military Government territory are always made by the Allied Commission, but in practice the Italian Government is normally consulted over such appointments, and it seems desirable that the Director of personnel should be the person approved by the Commission.

7. In view also of the importance of the C.O.P.R. in Military Government territory, and the important negotiations now in train with

496

2290

regard to the reorganization of that body, it is suggested that the senior staff officers of the Commanding General CC.IR. should be subject to approval, and also appointments to the Court of Cassation, the supreme judicial body of the country.

8. In this connection it must be remembered that in the secret terms agreed between the Commission and the Italian Government on each successive restoration of territory to the administration of the Government, it is always provided that no person appointed by the Allied Military Government may be removed, except with the consent of the Commission. If policy demands that the Italian Government is to have greater latitude in future, then it would seem necessary to modify or abandon this term, because so many appointments involve removal or transfer which requires the consent of the Commission, and thus indirectly the Commission controls appointments in many cases on a far lower level than those indicated in App. "B". Except as a matter of "amour propre" there does not seem to be any objection to abandoning this provision.

APPENDIX "A" TO 9/11/CA dated 18 Nov 44.

Ref: CC/P/134/000.1

10 March 44.

Recent events over certain appointments have shown that it is clearly desirable for us to have a mutually satisfactory arrangement to prevent misunderstandings and subsequent difficulties which it is in all our interests to avoid. I would suggest, therefore, that it should be agreed that you will let me know before any appointment to the Government is actually announced. Equally, I should be glad if you will impress upon all the members of your Government that they should, in turn, consult the appropriate authorities in the Allied Control Commission before making any senior appointments in their own departments either at the seat of the Italian Government or in those provinces under Italian jurisdiction. As they already enjoy close and friendly relations with the Sub-Commission with whom they work, this should be an easy matter to arrange. It is clear that each minister must be strictly accountable for all appointments in his department and the arrangement which I propose should be to their interests in carrying out the work which we are doing together.

I should be glad if you will let me know whether you are in full agreement with the proposals made in this letter. If so, I will give the necessary instructions to the various heads of Sections and Sub-Commissions of the Allied Control Commission as soon as you confirm that members of your government have been notified of our agreement.

H E Marshal Pietro Badoglio
Capo del Governo.

NOEL WILSON MACFARLANE,
Lieutenant General
Chief Commissioner.

Salerno, 13 March, 1944.

Dear General,

After having worked with me for quite some time, you know that it is my absolute decision to proceed in any matter in full accord with the Allied Control Commission over which you preside.

With regard to this, at next Thursday's Council of Ministers, I shall give definite orders to the effect that no government appointment be made without previous agreement with the Commission

I hope that the same feelings prevail with the Control Commission toward us, so that it might be possible to come, in common agreement, to a revision of certain positions given to certain persons in the provinces recently turned over to the Italian Government, and which render nearly impossible a normal functioning of government.

With cordial greetings,
