SUBJECT: Planning : Reduction in Strength
Southern Region.TO : Headquarters, Allied Commission
Attn: Chief of Staff

1. I have studied the possible effects, on the work of Southern Region, of a sudden and drastic reduction in the number of Allied Officers available to staff the Region, due to the call for officers further north. I wish to submit the following points for your consideration.

2. I am aware that a policy of complete withdrawal has been studied at your Headquarters and I agree in this connection, that the Italian Governmental machinery has made considerable progress. If Southern Italy were completely emptied of Allied troops, and had no responsibility for the provision and movement of supplies to the Allies or to Northern and Central Italy, then there would be little difficulty in handing over all governmental functions to the Italian agencies concerned.

3. As a result, however, of three months experience in Southern Region, I am convinced that it is precisely in relation to the Allied Forces and to Allied supplies, that the Allied Commission performs, today, its most useful functions. The question of supply and transportation of material is one which concerns closely the various Subcommittees at Headquarters; and I propose to refer only briefly to this aspect. The question of inter relations between the Allied forces and the Italian Administration, which may be called the civil affairs aspect, appears to be most important, and I wish to submit the following considerations and plans.

4. None of the service organizations involved in Southern Region, The Royal Navy, 5 District, P.B.S., or the R.A.F., have officers who are trained or experienced in dealing with the Italian civil administration. I believe, that the function of Allied Commission as a channel of informed communication between Allied troops and the Italian people will remain, for some months to come, a valuable contribution to the regrowth of Italy.

5. It must be carefully noted that the appointment, of "Civil Affairs Officers" or a G-5 Staff, to the H.Q.s of 3 District or P.B.S. would not meet the same need, for the precise reason that District, P.B.S., Navy and Air Force questions continuously overlap, and it is part of our work to try

6. It will not be necessary to maintain in a large staff to carry out this "consular" function. There are four main points in Southern Region where Allied interests will be concerned for some time to come, Naples, Bari, Taranto and Reggio. Of these four, Naples and Bari are by far the most important. Taranto will, it is understood, be used as a repair dockyard by the Royal Navy for sometime after the end of the war. Reggio Calabria is only important in respect of its position as a railroad center and a point of contact with Sicily.

Foggia is another place of importance to the Allied interest so long as a large air force is stationed in the neighborhood. I have, however, discussed the question with Lt. Col. Orwood and Lt. Col. Bright, Zone Commissioners, Bari and Foggia respectively, and they agree that, in the circumstances envisaged, the Province of Foggia could be administered from Bari. The road communication between the two towns is exceptionally good.

7. There would therefore, be four A.C. "garrisons" in Southern Region. It would be possible to abolish the offices at Lucera (Foggia Zone) and Salerno, and to move the Calabrian office from Catanzaro to Reggio, thus saving overhead. I should propose a redistribution of provinces, the most important change being the attachment of Campobasso Province (Molise) to Naples. It is, in fact, easier to reach Campobasso by road from Naples than Bari. With the move of the Army northwards, Campobasso should have few problems affecting Allied interests, and will need only an occasional visit from the Zone Commissioner, Naples.

8. The following is a brief recapitulation of the plan showing grouping of the four Zones, and the suggested ranks of the Zone Commissioner. A more detailed layout is given in Appendix "A".

Southern Region H.Q., Naples	Regional Commissioner Brigadier or Colonel.
Naples Zone H.Q., Naples : Provinces of Naples, Benevento, Avellino, Salerno and Campobasso.	Zone Commissioner, Colonel or Lt. Colonel.
Bari Zone H.Q., Bari : Provinces of Foggia, Bari, Brindisi and Lecce.	Zone Commissioner, Lt. Colonel.
Taranto Zone H.Q., Taranto: Provinces of Taranto, Potenza and Matera.	Zone Commissioner, Major.
Calabria Zone H.Q., Reggio: Provinces of Cosenza, Reggio and Catanzaro.	Zone Commissioner, Major.

It is to be noted, that this plan differs somewhat from that already suggested in our R/1296 of 17 December.

9. Points of detail are outlined in Appendix "B". The plan envisaged, economises overhead in every way possible.

Calabria Zone H.Q., Reggio: Provinces of Cosenza, Reggio and Catanzaro.	Zone Commissioner, Major.

It is to be noted, that this plan differs somewhat from that already suggested in our R/1296 of 17 December.

9. Points of detail are outlined in Appendix "B". The plan envisaged, economises overhead in every way possible.

10. A further point in favour of maintaining these small Zone Headquarters, has developed in the last few months. It is clear that various civilian agencies such as UNRRA, the Intergovernmental Committee for Refugees, etc, will play an ever increasing part in the post war work in Italy. Until these agencies set up their own administrative network, there are, in fact, very dependent on Allied Commission help. It is suggested that, where possible, such agencies should establish their own Hqs in the Zone Headquarters building of A.C.

11. It is proposed to review briefly the possible future policy in respect of Subcommissions.

Three Subcommissions of the Civil Affairs Section :- Local Government, Monuments Fine Arts and Archives, and Displaced Persons and Repatriation, are already without representation in Southern Region. Fourth Education, is shortly to be closed down. There will then remain Legal, Public Safety and Public Health.

12. The Public Health Subcommission is already inadequately staffed to deal with the heavy work of maintaining Allied standards of health and hygiene in these Italian towns which are occupied by troops. It may, however, be argued, that no question of important principle would be involved in their withdrawal.

13. In the case of the Legal and the Public Safety Subcommissions, however, important questions of principle do arise. The Legal Division at present, operates A.M.G. Courts, at Bari and Naples. So long as these Courts are to continue, the absolute minimum of Legal Officers for Southern Region is seven; (H.Q. three, Naples two, and Bari two). If it be decided that all cases affecting Allied interests including murder of Allied personnel, may be left to the Italian Courts, then it would be possible to reduce to one Legal officer at Regional H.Q.

The Public Safety Division is, at present, so much concerned with special investigation, that it would not be practicable to give a suggestion as to the possible time of withdrawal.

14. In the case of the various Subcommissions comprised within the Economic Section, the question of reduction of staff within Southern Region must depend to a very great extent upon decisions taken by H.Q. Allied Commission, Rome. Such specialist branches such as Heap Control, Industry, Commerce etc, carry on their work in Naples under technical instructions which are dictated by circumstances outside Southern Region.

15. In the case of the Agriculture Subdivision, it should be possible to reduce staff considerably after the present olive oil campaign.

16. The Transportation Subcommission has an extensive programme of coordination of rail, road, and sea transport which would seem to call for expansion rather than reduction of staff. It would certainly appear desirable to complete the transfer of motor vehicles to Italian agencies before the reduction takes place.

(3)

17. In the case of P.W. & U., Labour and Food Sub-Commissions, slight reductions might be possible, and in these three Commissions, the replacement of officers by civilians appears specially suitable.

18. There is one final point which I should like to bring to your notice. A good deal of correspondence reaches this Headquarters from time to time calling for reports on matters, which though, perhaps important in a particular way, are not important to the general recovery of Italy. In the conditions of considerably reduced staff which I have envisaged, Sub-Commissions will please realise that it will not be possible to carry out detailed reports and execute detailed reconnaissance.

19. Considerable progress has already been made in getting ready for moves and it should be possible to put into operation the outline plan set out in paragraph 8 in a very short space of time, after receipt of your orders.

Brigadier, Regional Commissioner.

VARIOUS ADMINISTRATIVE DETAILS ARISING OUT OF
PLANNING: REDUCTION IN STRENGTH

1. BUILDINGS

- (a) Naples - Propose that Regional Headquarters and Naples Zone should both be accommodated in the Provincia building.
- (b) Bari - Present accommodation satisfactory and to be maintained.
- (c) Taranto - Present accommodation satisfactory and to be maintained.
- (d) Lucera - Present accommodation to be surrendered.
- (e) Campobasso - Present accommodation held in Campobasso to be released.
- (f) Salerno - Present accommodation to be surrendered. Would be available for Prefect and his Staff.
- (g) Catanzaro - Present accommodation to be surrendered. This would release the Prefettura for use by the Prefect.
- (h) Cosenza - Present office accommodation still obtained in Cosenza to be released.
- (i) Reggio - Sufficient office and mess accommodation exists at Reggio to provide for Zone Headquarters as well as transportation.

Note:-

In view of the closing down of offices in Cosenza and Catanzaro, it will be necessary to arrange with 3 District, accommodation for those officers who journey to Reggio, as the journey from Naples to Reggio is too long to be driven in one day. In fact, however, plans are, at present, in hand, to use the train service for both courier and passenger traffic. Telephone communication between Naples and Reggio is good.

2. TRANSPORTATION

All T.D. transport, British and American, should be earmarked for moves North, Southern Region should, in the future, depend only on civilian requisitioned vehicles. A possible exception might be made in the case of one or two load carrying vehicles. It is, however, proposed to utilise the train service between Naples-Rome, Naples-Bari and Naples-Reggio as much as possible. It will be the responsibility of Regional H.Q. to clear with H.Q. A.C. any cases where officers propose to take civilian vehicles North with them upon posting to other Regions.

3. PERSONNEL IN/OP.

In order to reduce administrative detail work, it is suggested that British CRS only, be used in the cutlying Zones of Bari, Taranto and Reggio.

4. CIVILIAN EMPLOYEES

Officers posted to other Regions, will not be permitted to take civilian employees with them, without prior clearance from the Region to which they are posted.

- (b) Bari - Present accommodation satisfactory and to be maintained.
- (c) Taranto - Present accommodation satisfactory and to be maintained.
- (d) Lucera - Present accommodation to be surrendered.
- (e) Campobasso - Present accommodation held in Campobasso to be released.

(f) Salerno - Present accommodation to be surrendered. Would be available for Prefect and his Staff.

(g) Catanzaro - Present accommodation to be surrendered. This would release the Prefecture for use by the Prefect.

(h) Cosenza - Present office accommodation still obtained in Cosenza to be released.
