TO : HQ. AC. CIVIL AFFAIR OFFICE (DEVASTATED AREA SECTION) ✓

SUBJECT : Urgent Public Works

IN REPLY QUOTE : R4/RNG/1400

Reference telephone call from Lt.Col. Bonham-Carter on 9th November.

1. Attached is a list of 43 + 36 (small) Bridges approved by this office in principal at varying dates between 5th September and 7th November believed to be reposing at office of Ministro dei Lavori.

No approval given on funds released to date.

All these bridges are essential to establish communication and only represent a very small proportion of total number.

The total Funds required for this are £. 93,000.000 ; of these I have heard verbally from you but no confirmation yet through official channels that those for LITTORIA will be financed by Ministro of Agriculture £. 54,000.000.

2. Glass. Quantity of glass required for projects already passed through this office:

	Actual	Estimate
Hospitals	2,921 square meters	12.000 mq
Schools	2,602 " "	10.000 "

Allowing for projects ahead and repairs done direct privately multiply by four. -

The glass on tables is about 1/4" thick. - It will NOT fit into the majority of Italian doors and windows as in them the glass is slid into a groove made for a standard thickness of glass. -

It can be used for windows fixed with Patty, but is of course a very expensive type.

What about getting Italian Government to pass a decree authorising up to 50% of glass in every building to be requisitioned for devastated areas.

SUBJECT : Bridges (Devastated Areas).

TO : Regional Commissioner, Lazio Umbria,
Abruzzi-Marche.

- 1 It is proposed to try and get immediate action over the repair of roads and bridges where they are vital to continued communication with any Commune.
- 2 If, therefore, there are any such bridges or roads on which the work is not already started, and on which the delay is for some reason beyond your control, please furnish the details when immediate action will be taken to pull the project through.
- 3 In order that essentials may be given first priority please do not put forward projects under this heading unless they are the one and only means of preventing a Commune from becoming isolated.
