REMARKS ON COMMUNES IN AQUILA PROVINCEAVIZZANO

Has one ambulance, cannot be used owing to lack of tyres. There are 4 private brick factories which need fuel; there is a stock of coal at the local Sugar Beet factory but it is "Frozen"; There are 40 unexploded bombs in the town.

BARREA

The children and some of the adults are very badly off for shoes. Grain mills in working order but no supply of grain.

CAMPO DI GIOVE

Medicines are required; road have been temporarily repaired, but heavy rain will counteract them and isolate the Commune.

CAVIANO

The school is in urgent need of stoves; aqueduct requires repairing; medicines required.

MASSA D'ALBE

Temporary repairs are being carried out on the water conduit; mills can only function when electricity is at its best, normally every other day.

MACINTRO

Shoes, soap and salt are urgently wanted. Driving belt required to enable electricity to be supplied.

PESCOLOSTANZO

Medicines are urgently required. All the milling is done in adjacent communes.

SCUTRONI

There are no roofless, they are living with their friends; 50% of commune is damaged. 2 small bridges urgent priority.

CAPISTELLO

Enough wheat in commune to last 6 or 7 months, difficulty in collecting it. There are no rationed food stuff with the exception of 200 gms of bread daily with an occasional issue of beans.

CANISTRO

Is not greatly damaged, homeless are living in school, therefore school not operating.

MORINA

4 houses previously used as schools require repairing, at the moment no school. Normally men about 600 are employed in the timber industry and in connection with the electricity plant, thus at present there is much unemployment.

SAN VINCENZO VALLE ROVETO

Practically no work in hand. Local men refuse to work at normal rates, throughout this area this problem exists. Plenty of fuel is available if men would work.

SANTE MARIE

No roofless people, they are doubling up; sufficient timber, building stone and sand available for building.

CARSONI

Aqueduct has been temporarily repaired, but needs piping so that it can continue to be of use. Electrical equipment required; work has commenced in temporary repair of houses.

CASPEL DI SANGRO

There are a number of mortar bombs and a large amount of ammunition, it is requested that it be moved. Large supplies of sand, limestone and timber. Houses are being repaired under regional direction.

RAVIGNANO

Fuel may become acute in winter months, it may be impossible to transport it from the mountains. Hafta is required for mills. No work in hand owing to lack of money.
