(through Umbria-Marche Region)

- 1 Receipt is acknowledged with thanks of your letter HU/A/151 of 30 March 1945.
- 2 It is noted that apart from an acute housing problem in certain areas and some unemployment the situation in general gives no cause for anxiety.
- 3 In regard to housing there is every likelihood that impending developments in the military situation in Northern Italy will result in many residential buildings now in military occupation becoming again available for their former civilian occupants.
- 4 It is regretted that no assistance in the clearance of mines can be given by this branch. There are, however, two Italian mine clearing coys at Chieti which are shortly due to move northwards; and it is suggested that application by you for the loan of two squads might result in your obtaining the help you require.

1. The letter dated 11 Nov. 44 was not received at this HQ.
2. E.C.A. is now functioning normally. A.R.C. has made issues of clothing to needy persons in 59 Communes.
3. There is an acute housing problem in certain areas, notably Fano, due partly to war damage and partly to Mil. occupation and there is some unemployment due to destruction of factories and sulphur mines.
4. Food situation is generally good.
5. Mines still require lifting in certain areas particularly in Foglia valley and it would be useful if additional trained personnel could be sent to assist in this work. Apart from this I do not consider that any special relief measures are required.

TO : THE ALLIED COMMISSION

ROME

We have received reports on the extremely needy conditions of the population of the Pesaro Province as the result of the systematic devastation done by the German troops in retreat, who have destroyed every local resource, including this year's crop.

Since among the measures of an urgent character there is particularly that of distributing financial aid to the families who have been hit hardest, and since this Ministry cannot adopt any measure in behalf of that city which has not been restored to the Italian administration, we are reporting the matter to the Commission so that it refers it to the competent A.M.G. offices in order that they may allocate funds to be put at the disposal of the Prefect of Pesaro for a prompt and efficient assistance to those in need.
