Italian Government

1. With a view to securing the greatest freedom of movement between North and South, restrictions on travel, as you know, were recently removed (except in respect of the areas set out in my letter 6/4B/CA dated 27 May 1945).

2. You will, of course, appreciate that during the existence of Military Government in LIGURIA, PIEMONTE, LOMBARDIA and VENETIE the Regional Commissioners have the duty of coordinating activity in these areas. This task is rendered more difficult unless the Regional Commissioners can be made aware of the visits of Italian Government officials and the purpose of their mission.

3. I should be glad therefore if you would inform all concerned that it would be considered a courtesy, if not a duty, that officials intending to visit the North should give due warning to the appropriate Sub-Commission of this Headquarters and pay a call on the regional Commissioner concerned on arrival.

My dear Mr. Prime Minister,

I am glad to be able to say that the restrictions on civilian movement will be eased considerably as from 23 May 1945.

On that date the Economic Line will be lifted and, at the same time, movement throughout Italy will be free with the following exceptions:

- a) A pass, signed by an AME officer, will be necessary to cross the Security Control Line. This line now runs from the mouth of the PIAVE up the river to the point where it is crossed by Route 13 - to CONDELIANO - along Route 51 to PIAVE DI CAPORE - to SAN SIMEONE DI CAPORE - and then due North to the AUSTRIAN FRONTIER.
- b) A pass, signed by an AME officer, will be necessary to cross a line running parallel to the Northern and North-Western Italian Frontier at a distance of 25 kilometres from it.

I have given orders for a copy of the full instructions to be sent to you and for the information to be released to the Press at once.

It gives me great pleasure, my dear Mr. Prime Minister, to be able to do this as I believe that the fullest possible freedom of movement is essential to the rehabilitation of Italy.

Yours very truly,

ELMER W. STONE

Dear Marchese Lucifero,

(87A) Thank you for your letter No. 5250 dated 22 May 1945, which I am returning to you herewith, together with the enclosures mentioned therein.

There has been a delay in dealing with this as Sig. Pinocchi did not give the number of his Identity Card and my Staff have been trying to obtain this detail so that the permit could be issued.

I am glad to be able to say that there is now no need for a permit as civilian movement between Rome and Milan will be free on and after 28 May 45.

Dear Desmond,

Here is the pass required for Motta. Will you please hand it to him and get him to sign it. I have made it a return journey but he should be clearly told that this does not permit him to transport goods or materials from the North to the South.

I understand that arrangements are being made for such passes to be issued in future at the point of departure without reference to 5 Army or Region, but so far I have had no such instruction in writing.

Your letter of the 5th only reached me yesterday - hence the delay.

We are just getting into our stride and are fairly busy. Should you decide at any time to come up North let me know and I will arrange accommodation etc.

All the best,

Yours

Charles T. Francis.

1. Consider that civilian movement control in Northern ITALY could now be substantially relaxed with negligible loss of security. Further factor to be taken into consideration is fact that civilian transport services in Northern ITALY already in full operation and that civilian population has been accustomed to considerable freedom of movement during German occupation.

2. Recommended that system of control of movement in Northern ITALY be adjusted forthwith on the lines indicated in succeeding paragraphs.

3. Rear Army security control line to be moved to following line. River PIAVE from mouth to road - river crossing 66494 thence road VITTORIO VENETO B 6712 - FIVRE DI CADORE B 7562 - S. 5. Free movement to be permitted throughout Italian territory north of the restricted line excluding the Army zone and the prohibited frontier zone. The president of the Council of the Order of the Advocates and Prosecutors of Naples, applied to the President of the Council of Ministers to obtain a pass for Prof. Arturo Cristofano, of the late Paolo, to go to Salerno by his own means, to collect and escort to Naples Prof. Av. Arnaldo Biondi, of the late Paolo, born in Palermo and domiciled in Naples, Via dei Mille, 42 and his wife, Donna Aida Biondi, of the late Alessandro, born in Palermo, who both remained blocked there, in Viale Sordani, 124.

Prof. Biondi is an important member of the Naples Tribunal, and though he was away, he was elected by a large majority member of the Council of the Order, in the first elections which took place for the reconstitution of the free representation of the class.

I shall be most grateful if you will examine whether it is possible to grant the request of the Council of the Order of Naples, and let me know the answer.

Dear,

This application comes from a man for whom I can vouch personally. He was employed by Region IV (old) and Region XII as a Professional worker and, for a long time, lived with Venezia at Chiavari and Pesaro waiting to go forward. He only left them when the days of waiting became weeks and then months. He also did much work for our POW. He was of enormous help to me when I was a P.C.

He wants to get up to Milan as soon as it is permissible in order to trace what remains of his equipment. This is an honest reason.

It would be a personal favour to me if you would allow him up as soon as possible - presumably directly Army control is removed.

Good luck to you all - I wish I were still with you

MEMO

TO: Executive Commissioner,

Reference Executive Memo No. 77/45 (Control of Movement).

1. It is requested that the authority to issue passes given under para 8 (h) to the M.R.S. be extended to this Sub-Commission for the specific purpose of postal messengers movement.
2. The military authorities have in the past agreed to the establishment of civil postal services well into Army territory, for the exact purpose of preventing movement of civilians in order to obtain news.
3. The services themselves however require a limited amount of movement of mail escort personnel. Great difficulty is encountered in getting departmental employees the necessary passes in time to keep regular scheduled journeys, generally by M.R.S. train.
4. It is therefore requested that the following amendment should receive favourable consideration:

"Communications Services"

Personnel of the Department of Posts and Telegraphs may be issued passes by the Communications Sub-Commission for the purpose of conveyance of civil mails where these have been duly authorised into the "Army Zone".

MINISTER FOR OCCUPIED ITALY
The Minister.

Rome, 27 April 1945.

A/S - 153 Prot.

To : The Allied Commission, Rome.

The torrential advance of the Allied troops and the splendid heroism of the Italian Patriots are now making possible the liberation of the territories of Northern Italy.

Consequent upon this liberation the complex tasks and duties of my position as Minister, a position in which are inherent the closest collaboration and cooperation with the Allied authorities for the solution of all problems involving the resumption of civilian life and the position of the Patriots, place me face to face with the absolute necessity of having the most ample freedom of movement in all the territory recently liberated and which is placed under the jurisdiction of the Allied 15th Army Group.

I therefore ask the Commission to be kind enough to take the necessary measures designed to give me this indispensable freedom of movement.

I further take the liberty of calling the attention of the Commission to the fact that this request of mine is not to be considered in the same light as other analogous requests which might be forwarded by other members of the Government. This relates to the special work with which I am charged, so that it is to be considered that a refusal would make it impossible for me to discharge the tasks involved in the very job in which I am responsible to the Allied authorities and to my country, as well as to the Government of which I am a member.

Certain that the Allied Commission will be kind enough to consider the above with most careful attention, I await the decisions which the Commission will be good enough to make known to me.

THE MINISTER.

1. It is anticipated that considerable pressure will be exerted by Italian Ministers, Government officials and other civilians to obtain permission to go to newly liberated territory in the North. - 1 Heads of Sub-Commissions are warned to expect strong pressure from Ministers and other Italian civilians for permission to enter the North, directly it is liberated.

Movement of civilians is entirely a military matter and, until such time as the usual restriction are lifted, all travel into Army Area is controlled by the responsible SCAG or Regional Commissioner who alone can issue the necessary pass.

Dear

I have a very pressing application from Count SALAZAR to be permitted to go North; in fact I believe to collect cash from his agent as he is ~~moving~~ ^{running} out here!

The matter is one entirely for you, of course, but my reasons for pressing it are:

1. Dickie Sharples, a very old friend of mine, who until recently was commanding a company in the 3rd Bn. Welsh Guards out here, said that he received a great deal of help from him in the progress of the Battalion northwards. He went to England about a month ago and I have just received a letter from him, about him, asking me to help.
2. Theodoli backs him. As Secretary General of the Italian Red Cross he is extremely helpful and I would like to reciprocate.

Thus, although he is not normally within the category allowed by Executive Memorandum 77, would you like to treat him as the exception which proves the rule?

To:- HQ., Allied Commission ✓
(For Civil Affairs Section)

1. For security reasons it is essential that civilian movement into Army Area be kept down to the minimum. The number of applications for permission for civilians to enter Army area is however rapidly increasing and reaching undesirable proportions.

2. The number of enemy agents known to be at large is considerable and at the present time security agencies are fully extended in suppressing illegal entry into the area. There is also a large amount of civilian mail being brought in by illicit means and there is good reason to believe that a great deal of this is carried by civilians who have received permission to enter.

3. It is therefore requested that Sub-Commissions desiring to send representatives into this area should, as far as possible, confine their requests to Allied Officers and Allied civilians. Only in exceptional circumstances should application be made for Italian employees, or for representatives of Italian Ministries.

SUBJECT: Change in Movement Control.

1. December 1944.

TO : Division Head listed.

1. By direction of Colonel Poletti this division ceases active operation in the field of Movement Control and becomes an advisory unit as of this date.
2. In the organization of Ente Nazionale Autotrasporti di Cose (E.N.A.C.) a Control Office is provided which will function as a counterpart of this Division. Eng. Saul Greco is the head of that Control Office with offices in the Ministry of Communications Building, located in Piazza Croce Rossa. Telephone installation is not completed at present.
3. From this date all application for civilian road transport should be made directly to Ufficio Trasporti di Roma (U.T.R.) by the person, organization or Division using the transport and paying for it. Time is lost rather than saved if a Division submits a request for transport on behalf of a civilian organization. When the request is unusual or out of the ordinary it would be well for the Division concerned to endorse the request and explain the need or urgency of it.
4. A certain amount of paper work and record keeping is necessary for the Control Office to properly function. Therefore, emergency requests should be restricted to honest emergencies and not include lack of foresight in getting application filed in reasonable time.

1. The importance of exercising a strict control over the movement of civilians, especially in the Army Zone, needs no emphasis.
2. Recent reports, however, indicate that:
 - (a) standard passes are being issued to places north of the Rear Army Control Line without reference to the S.C.A.C/RC concerned;
 - (b) passes are not completed correctly before issue;
 - (c) members of the Italian and United Nations Armed Forces and Members of the CC.RR. and C.G.F., are attempting to enter the Army Zone with spurious Army passes and otherwise in contravention with the regulations relating to movement;
 - (d) civilians in possession of letters of "Authority" and "Recommendation" from Military Units, Embassies, Legations, Vatican, etc., attempt to enter the Army Zone without standard Movement of Civilian Passes.

3. In future the issue of passes to places north of the Rear Army Control Line without reference to the S.C.A.C/RC concerned will be regarded as a grave breach of security. This instruction will be given to the attention of all concerned.

4. With regard to the issue of passes :-

- (a) a separate pass must be issued in respect of each person;
- (b) applicants full name, address, and identity card number must be shown on the pass;
- (c) the holder will not be authorised to be out of doors after curfew except for valid reasons;
- (d) each pass must be signed by the applicant before issue;
- (e) no alterations or additions will be made to a pass except by way of endorsement on the back;
- (f) facsimile signature stamp will not be used.

5. Regional Commissioners and Quasitori will refuse all applications for passes to places north of the Rear Army Control Line unless the journeys will directly benefit the war effort.
6. Applications for passes which are referred to S.C.A.C/RC's for approval will contain full particulars of itinerary, reasons for travel, and dates involved, as well as other details necessary to complete passes in full.
7. Documents in Italian will be transmitted before they are transmitted to the S.C.A.C/RC's concerned.

8. Passes to places in the vicinity of the Rear Army Control Line will not be issued unless the issuing office is satisfied that the reasons for the journey are good and sufficient. Many cases are occurring of persons traveling to such places with regular passes and on arrival making application for additional passes into the Army Zone.

9. It is emphasized that the only regular pass is the standard Yellow Movement of Civilian Pass. All irregular passes found in use will be confiscated and forwarded to this Headquarters with a covering report. After investigation a proper pass may in suitable cases be issued in place of a confiscated pass.

10. Passes or permits which purport to enable persons to use motorcars or perform special duties in the Army Zone will not be issued unless in conjunction with regular Movement of Civilian passes approved by the S.C.A.C.R. is concerned.

11. The provisions of Executive Memorandum No. 77 will be complied with by all concerned on all occasions.

Regions I, Southern, IV, V, VI, VIII, IX, X, XI, XII.
S.C.A.O.'s 5th and 8th Army.

1. A complete set of instructions (Executive Memorandum No. 77) dealing with restrictions on civilian movement is forwarded for the guidance of all concerned.
2. As the instructions are lengthy and involved, the following brief sketch may be of assistance in determining the broad outlines of the control, but officers issuing passes must refer to the detailed instructions which alone are authoritative.

3. Zones and Boundaries.

Three zones and two boundary lines affect civilian travel in Italy:

- (i) The Army Zone (north of the Rear Army Control Line)
- (ii) Rear Army Control Line.
- (iii) The Restricted Zone (between Rear Army Control Line and Restricted Line)
- (iv) The Restricted Line.
- (v) The Free Zone (South of the Restricted Line)

(See diagram Appendix "A")

The boundary lines are liable to change.

4. A civilian cannot cross either of the boundary lines without a pass. As to movement within the zones, see part 5.

5. Restrictions within the Zones.

(a) Army Zone.

No civilian may travel more than 10 km. or enter or leave the zone without a pass approved by A.M.G. Fifth or Eighth Army. When, however, a province within the Army Zone has been handed over to Regional Control, the competent authority to issue a pass is the Provincial Commissioner of the Province concerned, and not S.C.A.O. 5th or 8th Army.

Requests for passes to enter the Army Zone will not be considered unless the journey is in the direct interest of the war effort.

It will be noted that the Restricted Zone is partly under the control of A.M.G. and partly under the control of the Italian Government. The same restrictions apply in both portions of the Zone.

(a) Free Zone. Movement is unrestricted except between the islands of Elba, Sardinia, Sicily and the mainland. Passes will be issued at the point of departure. A pass is also required to move from the Free Zone to either the Restricted or Army Zone.

6. Passes.

(a) Passes will be issued sparingly and with due regard for travel facilities available. They will under no circumstances be issued to parties of refugees, except with the prior approval of Refugee Branch, HQ. ACC.

(b) The only pass recognised by the police is the standard yellow "Movement of Civilians" Pass.

7. The whole scheme for controlling civilian movement will be jeopardised unless uniformity is preserved by complying with the detailed instructions issued.

CONTROL OF CIVILIAN MOVEMENT

Minutes of Meeting, 17 July 1944

13 July 1944
20 JUL 1944

ACTION

- 1. Movement into Army Areas, i.e. North of the Army Control Line.

It was agreed that the following procedure, which was in most points already in operation, should be followed:

(a) AOC Officers: Permission must be obtained from the SCAG of the Army before the journey is made, if possible. In cases of emergency it is permissible to proceed to HQ Army AGC and there report.

(b) Italian Civilians: Normal procedure to be followed as laid down in General Order No. 24 (this General Order is fully explained in 516/75/CA of 26 April 1944).

(c) Italian Government Officials: Important officials of the Italian Government may be granted passes at the point of departure which will in most cases be Rome. The SCAG may also be consulted, if possible. In cases of emergency it is permissible for Italian Government officials to proceed to HQ Army AGC, without such consultation, and there report, but a pass must be first obtained from HQ AGC.

AOC wished for the Army Control Line to be clearly marked, which was not the case at present. If this was done it would assist Italian civilians and Allied officers who did not realise when they were on the wrong side of the line. AAI promised to consider this.

HQ. AAI

- 2. Movement between Rome and Naples.

(a) An attempt had been made to persuade HQ. AAI to relax movement south of Rome, but the request was turned down. Free movement, therefore, in the Provinces south of the Army Control Line but north of Italian Government territory and all Provinces of Region III was now confined to Provinces. Movement from one Province into another required the usual permit. Since this was an order by AAI, AOC would do their utmost to assist the Military Police in the enforcement of this control. AAI were specifically required to produce as many M.P. Patrols as could be made available and to ensure that such Patrols were fully instructed as to their liaison duties with the Carabinieri. H.Q.'s would give as much assistance as possible to the Military Police in this task.

HQ. AAI

(b) The chief difficulty was experienced in connection with civilian trucks sent from Rome to collect foodstuffs for the city from the Naples area. This was being dealt with by Rome Region III, Region IV, and the Food Sub-Commission. It was considered that in addition to the normal movement pass for each civilian a special pass was required for each truck that left Rome and this was being done. Rome Region also undertook to exercise a strict control of trucks coming into Rome from outside. Region III expressed themselves satisfied provided the above precautions were strictly carried out.

Rome Reg.

It was agreed that the following procedure, which was in most points already in operation, should be followed:

(a) ACC Officers: Permission must be obtained from the SCMO of the Army before the journey is made, if possible. In cases of emergency it is permissible to proceed to the Army AMB and there report.

(b) Italian Civilians: Normal procedure to be followed as laid down in General Order No. 24 (this General Order is fully explained in 316/76/CA of 28 April 1944).

(c) Italian Government Officials: Important officials of the Italian Government may be granted passes at the point of departure which will in most cases be Rome. The SCMO Army will be consulted, if possible. In cases of emergency it is permissible for Italian Government officials to proceed to the Army AMB, without such consultation, and there report, but a pass must be first obtained from the ACC.

ACC wished for the Army Control Line to be clearly marked, which was not the case at present. If this was done it would assist Italian civilians and Allied officers who did not realize when they were on the wrong side of the line. ACC promised to consider this.

2. Movement between Rome and Naples.

(a) An attempt had been made to persuade HQ. AMI to relax movement south of Rome, but the request was turned down. Free movement, therefore, in the Provinces south of the Army Control Line but north of Italian Government territory and all Provinces of Region III was now confined to Provinces. Movement from one Province into another required the usual permit. Since this was an order by AMI, ACC would do their utmost to assist the Military Police in the enforcement of this control. AMI were specifically required to produce as many M.P. Patrols as could be made available and to ensure that such Patrols were fully instructed as to their liaison duties with the Carabinieri. R.O's would give as much assistance as possible to the Military Police in this task.

(b) The chief difficulty was experienced in connection with civilian trucks sent from Rome to collect foodstuffs for the city from the Naples area. This was being dealt with by Rome Region III, Region IV, and the Food Sub-Commission. It was considered that in addition to the normal movement pass for each civilian a special pass was required for each truck that left Rome and this was being done. Rome Region also undertook to exercise a strict control of trucks coming into Rome from outside. Region III expressed themselves satisfied provided the above precautions were strictly carried out.

(c) There was considerable movement reported from Region III into Region III. Two parties containing 475 refugees without passes arrived by train in Naples. It was agreed that this should be taken up by the Section with the Italian Government, and also by the Refuge Branch with SIG. Landmont.

(d) Col. Chapman raised the question of supplying petrol for the return journey from Naples to trucks arriving from Rome. He was so short of petrol that he had none to issue. P.O.'s noted this point and it was suggested that Col. Chapman should take up the matter with Economic Section direct.

(e) The notice published in poster form in Rome saying that there was free movement south of Rome would have to be withdrawn and countered by a press campaign of equal publicity. Civil Affairs Branch, P.R.O., Region IV and Rome Region were to arrange.

3. Italian Government Officials. (This does not include local Government officials).

The method of issuing passes to Italian Government officials would in future be as follows: The official would apply to the corresponding Sub-Commission or Section concerned for approval of his pass. If approved, Sub-Commissions, branches of the Adm., Econ., and P.O. & M.G. Sections to channel these passes through their Sections to the Secretary General who would sign the passes. In the case of Political Section, Independent Sub-Commissions and P.R.O., approved passes to go direct to the Secretary General for signature. It was decided that instructions will be issued to all concerned. It was decided that more publicity was needed to the effect that the only official A.C.C. pass issued is the yellow pass (attached as a specimen).

4. Passes to Rome.

Reference Letters No. 751/7/CA of 7 June 1944 and 751/22/CA of 6 July 1944, these letters are now cancelled. No special passes to Rome are required in future. The only pass now required to enter Rome is the ordinary yellow pass, which will be required by anyone coming from outside Rome Province.

5. Special Passes for Ministers.

It was decided that a special pass renewable after three months should be made out for Ministers of the Italian Government and other important officials including certain journalists. This would consist of an endorsement on the back of the official yellow pass with the following wording:

" S....., (designation of office) is hereby authorised to proceed to any part of Italy south of the Army Control Line. He should be given every facility and courtesy."

The pass should be issued to cover movement anywhere south of the Army Control Line. When the pass is made out it should be signed at HQ. ACC by the Secretary General, as in para. 5 above, and then sent to HQ. AMI for counter signature. Instructions will be issued.

6. Rome Province - Issue of Passes by the Questore.

In Military Government and Italian Government territory power has been delegated to the Questore to issue movement passes, (see

5. Special Passes for Ministers.

It was decided that a special pass renewable after three months should be made out for Ministers of the Italian Government and other important officials including certain journalists. This would consist of an endorsement on the back of the official yellow pass with the following wording:

"S....., (designation of office) is hereby authorised to proceed to any part of Italy south of the Army Control Line. He should be given every facility and courtesy."

The pass should be issued to cover movement anywhere south of the Army Control Line. When the pass is made out it should be signed at HQ. ACC by the Secretary General, as in para. 3 above, and then sent to HQ. AAI for counter signature. Instructions will be issued.

6. Rome Province - Issue of Passes by the Questore.

In Military Government and Italian Government territory power has been delegated to the Questore to issue movement passes, (see para. 4 (b) of 316/76/CA of 26 April 1944). Rome Province however was expressly excluded from this permission. With the forthcoming transfer of Rome Province to the Italian Government there would be a considerable reduction in ACC personnel. F.C. Foggia Province said that he would not be able physically to deal with the issue of passes. He therefore requested that permission be granted to delegate this power to the Questore. AAI promised to consider and let us have a reply.

7. Passes to enter or leave Sicily via Messina.

(a) AMI had no knowledge of any special passes required to cross the Straits of Messina by Ferry. Difficulty was however encountered and people issued with passes for movement across the ferry either into Sicily or the Italian mainland were turned back at Messina or Reggio. It was decided that C.A. Branch write to the Navy to enquire what was the procedure.

3. Check Points.

(a) In Restricted Areas.

In Italy (and Corps) areas and in territory administered by Allied Military Government areas, effort will be made to enforce the above restrictions by means of a widespread system of "check" points, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with M.S.S. or C.I.C. units.

The object of these check posts will be (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant violations of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of "map" check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation, and investigation, and (2) installing a cordon of security in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, ^{1st} Army and Base Section Headquarters and HQs by AMG/ACC, both AMG and ACC, ^{1st} Army and territories.

These check posts will normally be manned by appropriate combinations, as ordered to circumstances of P.S.R./S.I.C., S.I.L. (U.S.), OC, RR and Guardia di Finanza.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

The procedure described in para (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCAD or PC of the area of destination.

of 'trap' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further investigation, and (2) assisting a non-co of irregularity in the plans of agents or other undesirable individuals so that they may hesitate or move about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, ³ Army and Base Section Headquarters and NOT by AMG/AGC, both AMG and AGC territories.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/AGC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

(d) Passes for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Puglia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show need and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission Officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by the Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioners to authorize specified and approved officers of the Quarters or C.O.M. to issue passes for inter provincial travel. It is emphasized, however, that passes permitting persons to enter the Army areas or Puglia Province must be issued by AUC/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Puglia Province is received in AUC/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAG/PC of the destination for approval, signature and return.

5342

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by the Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorize specified and approved officers of the Questore or CC.RR. to issue passes for inter provincial travel. It is emphasized, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMC/AOC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AMC/AOC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAC/EC of the destination for approval; signature and return.

5. It will be seen that in future, Provincial Commissioners will be authorized under certain circumstances to issue passes for entry into Army areas or Foggia Province without prior permission from the point of destination (vide 4 (c) and further that the movement of members of Italian Military Forces is unrestricted, (vide 4 (f)).

CONTROL OF CIVILIAN MOVEMENT

20 JUL 1944

Minutes of Meeting, 17 July 1944

ACTION

1. Movement into Army Areas, i.e. North of the Army Control Line.

It was agreed that the following procedure, which was in most points already in operation, should be followed:

(a) ACC Officers: Permission must be obtained from the SCAG of the Army before the journey is made, if possible. In cases of emergency it is permissible to proceed to HQ Army AMG and there report.

(b) Italian Civilians: Normal procedure to be followed as laid down in General Order No. 24 (this General Order is fully explained in 316/76/CA of 26 April 1944).

(c) Italian Government Officials: Important officials of the Italian Government may be granted passes at the point of departure which will in most cases be Rome. The SCAG Army will be consulted, if possible. In cases of emergency it is permissible for Italian Government officials to proceed to HQ Army AMG, without such consultation, and there report, but a pass must be first obtained from HQ ACC.

ACC wished for the Army Control Line to be clearly marked, which was not the case at present. If this was done it would assist Italian civilians and Allied officers who did not realize when they were on the wrong side of the line. AAI promised to consider this.

HQ. AAI

2. Movement between Rome and Naples.

(a) An attempt had been made to persuade HQ. AAI to relax movement south of Rome, but the request was turned down. Free movement, therefore, in the Provinces south of the Army Control-Line but north of Italian Government territory and all Provinces of Region III was now confined to Provinces. Movement from one Province into another required the usual permit. Since this was an order by AAI, ACC would do their utmost to assist the Military Police in the enforcement of this control. All were specifically required to produce as many M.F. Patrols as could be made available and to ensure that such Patrols were fully instructed as to their liaison duties with the Carabinieri. S.G. would give as much assistance as possible to the Military Police in this task.

HQ. AAI

(b) The chief difficulty was experienced in connection with civilian trucks sent from Rome to collect foodstuffs for the city from the Naples area. This was being dealt with by Rome Region, Region III, Region IV, and the Food Sub-Commission. It was considered that in addition to the normal movement pass for each civilian a special pass was required for each truck that left Rome and this was being done. Rome Region also undertook to exercise a strict control of trucks coming into Rome from outside. Region III expressed themselves satisfied

"S....., (designation of office) is hereby authorised to proceed to any part of Italy south of the Army Control Line. He should be given every facility and courtesy."

In Military Government and Italian Government territory power has been delegated to the Questore to issue movement passes, (see para. 4 (ii) of 516/76/CA of 26 April 1944). 1. A proposal was recently put up to AAI to allow freedom of civilian movement south of Rome. This has been turned down and the position is now as it was before, i.e.

(a) Freedom of movement in Italian Government territory (with the exception of movement between Sicily, Sardinia and the mainland).

(b) Free movement within ^{individual} Provinces but a pass required for inter-provincial movement north of Italian Government territory and south of the Army Control Line.

(c) The 10 kilometre rule in Army Areas.

2. There has been some difficulty over the control of movement with reference to para.1 (b) above and it is considered that a conference is required to clear up the matter. Will addressees please send a representative to attend a conference at this HQ (in Col. Fiske's Room, 3rd floor) at 1100 hrs, Monday 17 July 1944.

3. Will addressees please inform me of the main points which they wish to discuss at this meeting in order that an agenda may be drawn up.

4. A representative of AAI (GSI(b)) will be asked to attend.

SUBJECT: Control of Civilian Movement - Entry into City of Rome and Fifth Army Area.

TO : Distribution below.

1. It is anticipated that numerous applications will be made by civilians as well as by Italian officials for permission to enter the City of Rome and Fifth Army area.
2. The granting of such permission will depend upon the military operations in progress and upon the expediency of allowing additional civilians into Rome which is already seriously overpopulated.
3. Such permission will be given subject only to the following conditions which must be strictly observed.
4. For this purpose the control of movement will operate in three phases:

Phase I in which all movement into the City of Rome as well as into the Fifth Army and Corps areas will be prohibited without the prior approval of C.G.S., HQ. A.A.I. This phase is already in operation and applies equally to Allied personnel as well as to civilians. Special instructions as to members of A.C.G. are contained in 750/2/CA of 5 June 1944.

Phase II in which for purposes which are essential and which will assist the prosecution of the war, and for the only, permission may be given by A.M.G. Rome or Fifth Army for entry into the City of Rome or into those Provinces which are still part of Fifth Army or Corps areas. Where members of the Italian Government or essential Italian officials are concerned, or in other exceptional circumstances, application may also be made to this Headquarters. In cases of Italian Government officials applications will be made to the Secretary General's Office in accordance with the existing practices. The Secretary General will pass these applications to R.C. & M.G. Section. All other such applications for travel which satisfy the AME/ACC Officer to whom they are presented, must be forwarded to Security Branch of the R.C. & M.G. Section where the matter will either be dealt with or referred to the AME of destination.

The date on which Phase II will operate will be notified as soon as possible.

Phase III in which in addition to purposes authorized during Phase II, civilians will be permitted to travel for urgent business or domestic reasons. Such permission depends upon the position of the Army Control Line and will be dealt with in the same way as travel into A.M.G. Provinces is controlled at the present time. The date of Phase III will also be notified and will commence at the conclusion of Phase II.

6. This order should be read as an addendum to Control of Movement Order, reference 316/76/CA of 26 April 1944, and all such passes issued will be in strict conformity with this previous directive.

SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V and VI.
S.C.A.O.'s Fifth and Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralize as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMG pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMG authority of the area into which they intend to travel.

(b) Territory under AMG.

In territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e. civilians in this area will be forbidden to travel from one province to another without an AMG pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. In Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

In Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

3. Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'snap' check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with P.S.S. or C.I.C. units.

-2-

The object of these check posts will be: (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'snap' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by ABE/AOC, both in AMG and AOC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of T.S.F./C.I.C., S.I.M. (G.S.), CO.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/AOC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMC Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/AOC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the Provincial Commissioner considers it necessary.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'snaps' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both in AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of F.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

Passes.(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Riviera Bifero and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCAG or PC of the area of destination.

1562

(d) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Romagna Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General. Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g., when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questore or CC.RR. to issue passes for inter-provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Romagna Province must be issued by AM/100 officers.

(i) Semi-Permanent Passes.

5328
In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

are urgent compassionate grounds, or in exceptional cases, where there are limitations on official matters, business or family grounds.

Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AM/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAG/PO of the destination for approval; signature and return.

SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V and VI.
S.C.A.O.'s Fifth and Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralize as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMG pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMG authority of the area into which they intend to travel.

(b) Territory under AMG.

In territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e. civilians in this area will be forbidden to travel from one province to another without an AMG pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and for all movement from AMG territory into King's Italy and vice versa.

Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restriction.

3. Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'snap' check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with F.S.S. or C.I.C. units.

-2-

The object of these check posts will be: (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'anap' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both in AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.P./C.I.C., S.I.M. (C.S.), CC.PR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable or

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Fiferio and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCIO or PC of the area of destination.

(A) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Reggio Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(B) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(C) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(D) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(E) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questore or CC.RR. to issue passes for inter-provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Reggio Province must be issued by ALE/ICC officers.

(F) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, an adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(J) It is suggested that when an application for travel into an Army area

limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Quastore or CC.PP to issue passes for inter-provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Reggio Province must be issued by AAT/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Reggio Province is received in AAT/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCMO/PC of the destination for approval; signature and return.
