INSTRUCTIONS FOR COMPLETING FORM CA/d4

General Instructions. - The purpose of this report form is to provide a brief weekly summary of the operational situation at each assembly center. This form is divided into three parts. Items (1) to (10) provide basic summary information required for each assembly center, regardless of whether registration has been undertaken. Items (11) to (23) provide information by sex, age, and repatriation status, covering, by nationality, all residents who have been registered at the assembly center as of 1200 Saturday on A.E.F. D.P. Registration Record cards (form DR. 2) Items (24 to (31) represent a check list of the headings under which acute problems requiring immediate action will be reported.

This form will be utilized for the first report on a newly established assembly center, as well as for subsequent weekly reports on the same center. For the first report give, under the space provided for "Report on Special Problems", a detailed general account of the situation at the center, listing your comments under the same headings (24) to (31) under which subsequently only special problems will be reported.

Detailed Instructions. - Given below are supplementary instructions seeking to clarify the answers required for specific items appearing on this form. It is assumed, in the case of those items for which no supplementary instructions are given that the required answers are self evident.

Item (3) - Indicate here the maximum number of persons who could be sheltered and fed at short notice using existing facilities.

Item (4) - Each assembly center will be assigned a number by military order. The number so assigned will be entered in this space for all subsequent reports.

Item (5) - Enter in this space the total number of non-registered residents at the assembly center as of 1200 Saturday. Omit staff who are not displaced persons or refugees.

Item (6) - Enter in this space the total number of registered residents at the assembly center as of 1200 Saturday. Omit staff who are not displaced persons or refugees.

Item (8) - Enter the total number of residents as of 1200 Saturday, who arrived during the week, including births occurring at the center or at hospitals serving the center.

Item (9) - Enter the total number of residents who departed during the week ending at 1200 Saturday, including deaths occurring at the center or at hospitals serving the center.

Item (11) - Claimed nationality to be taken from response to question (5) of each resident's A.E.F. D.P. Registration Record card (DR. 2).

Detailed Instructions. - Given below are supplementary instructions seeking to clarify the answers required for specific items appearing on this form. It is assumed, in the case of those items for which no supplementary instructions are given that the required answers are self evident.

Item (3) - Indicate here the maximum number of persons who could be sheltered and fed at short notice using existing facilities.

3. Responsibilities of Heads of Sections

Heads of sections (a) and (b) will be appointed by the Controller Record Bureau in consultation with the Director, Displaced Persons & Repatriation Sub-Commission. Such heads of sections will be responsible to the Controller for the efficient administration of their respective sections. It is imperative that capable Allied national officials be trained under Heads of sections with a view to assuming control of the section in the event of emergency withdrawal of Allied military or Allied Red Cross personnel.

4. Policy

The Controller will be responsible for the coordination and execution of the policy initiated by the Director in regard to the functions of the Record Bureau. The Controller will also ensure that the policy in regard to Red Cross messages and military communication in the Headquarters, Foreign Relations Department, London, is carried out. The Director will be kept informed of such policy.

5. Employment and Control of Civilian Staff

The Controller will use as much civilian staff as is essential for the efficient functioning of the Bureau. Final approval for employment will be obtained from Officer T/S Act, of Displaced Persons & Repatriation Sub-Commission. Finance Officer of the Headquarters will be consulted in all cases as to rates of pay.

The payment of civilian staff will be the responsibility of the Finance Officer of the Headquarters. The Controller of the Record Bureau will be responsible to ensure that all civilian staff report in and out daily to the responsible person in the Record Bureau.

The official hours of duty are as under and will be adhered to :-

0830 - 1230 hours
1400 - 1800 hours

Subject to the provisions of the aforesaid, all civilian employees will be granted one day off per week and in conformity with Headquarters, Displaced Persons & Repatriation Sub-Commission policy, this day will be taken off on Sunday. Employees shall be absent without leave will be reported by the Controller to the Chief Clerk, Headquarters Displaced Persons & Repatriation Sub-Commission.

Leave is accordance with order laid down from time to time by Headquarters Directorate Bureau 6 Registration Sub-Commission may be granted to Controller by the Controller of the Bureau Bureau.

6. Correspondence

Routing . - All routine correspondence initiated in the Record Bureau will be approved and signed by the Controller or such responsible person who may be delegated by the Controller.

Policy . - All correspondence involving policy and addressed to higher military formations will be submitted by the Controller to the Director or his deputy for approval and signature. All correspondence will be typed by the qualified and appointed typist and a proper filing system will be maintained.

7. Security

The work undertaken by the Record Bureau is strictly confidential. No unauthorized person will have access to information contained in the Record Bureau cards and files. In order to ensure steps to control and prevention of leakage of information, the Controller will establish an Inquiry and Information Department under responsible employees who will be selected and trained. Visitors to the Record Bureau will in no account be permitted to obtain information from civilian employees in the Bureau other than through the Inquiry and Information Department. Visitors will be required to prove identity and sign a visitors' register. The confidential nature of the work performed will be brought to the notice of all civilian employees and Bureau is comply with the above instructions will result in immediate dismissal.

8. General

The Controller will submit to the Director such reports as are called for and will keep the Headquarters informed on all important activities of the Bureau.

For the Director.

PROBLEMS OF DISPLACED PERSONS, STATELESS
PERSONS AND THEIR REPATRIATION AND TRANSFER
IN THE MEDITERRANEAN THEATER OF OPERATIONS

PRELIMINARY

This draft paper is an attempt to bring the problem of displaced persons in the Mediterranean Theater of Operations into focus. It is consistent with and to a certain extent based upon the plans made by Supreme Headquarters Allied Expeditionary Force and by Military Headquarters (Balkans), and incorporates information received from these Headquarters. It is intended as a statement of the problem by the Advisory Council to ensure uniformity of thought and make certain recommendations to which the attention of the Supreme Allied Commander may be invited. At this stage the status of this paper is that of an unofficial draft for discussion.

I. OBJECT

The repatriation and resettlement of displaced persons within the Mediterranean Theater of Operations as soon as possible. In order to achieve this object, control of movement, registration, collecting in assembly areas and care and maintenance therein is essential.

II. DEFINITIONS

Repatriation. The restoration of persons to the State to which they belong. Such persons are the civilian nationals of united, enemy and neutral nations who either must be, or desire to be, returned to the State to which they belong. Included are all persons other than prisoners of war and those whose status may be defined by the Supreme Allied Commander as ex-prisoners of war.

Transfer. The transfer of stateless persons to their temporary or ultimate destination.

Displaced Persons. There are three classes of displaced persons:

- a. Civilian nationals of united or enemy nations who are to be repatriated.

III. ANALYSIS OF THE PROBLEM

Estimates of the numbers of displaced persons in Europe vary considerably. The latest figures which concern the Mediterranean Theater of Operations are at their maximum very approximately as follows:

- a. Displaced persons who require to be returned from outside their country to their country within the Mediterranean Theater of Operations. These are largely Italians, Yugoslavs, and Greeks to whose numbers the following is a rough guide:

Italians, (largely in Germany, Hungary & Poland)
200,000
360,000
180,000
1,120,000

*Yugoslavs, largely in Germany, Czechoslovakia
and Austria,
**Greeks, largely in Bulgaria and Germany

*Exclusive of Yugoslavs in Mideast Camps and in Italy.
**Exclusive of Greeks in Mideast Camps.

b. Displaced persons who require to be returned from various
places within the Mediterranean Theater of Operations to their own countries
outside the Mediterranean Theater of Operations:

1. <u>In Austria</u>		
Russians	290,000	
Poles	200,000	
French	225,000	
Belgians	25,000	
Czechoslovaks	<u>75,000</u>	815,000
2. <u>In Italy</u>		
Germans	25,000	
Czechs & Poles	<u>5,000</u>	30,000
3. <u>In Yugoslavia</u>		
Germans		14,000
(There are also Austrians and Germans in annexed Slovenia There are Bulgars and Macedonians in South Serbia There are resettled Magyars in Bachka	50,000 80,000 17,000

Poles	59,500	
Bulgars	150,000	
Germans	23,000	
Mixed nationalities to go to Asia Minor, Middle East and Africa	<u>38,500</u>	271,000

1. In Greece it is estimated that up to 500,000 Greeks may have been the victims of internal displacement, of whom up to 150,000 may be totally destitute.

d. Stateless Persons. There does not seem at present to be any approximately reliable figures available.

The responsibility for dealing with the above very considerably

according to the status of the indigenous governments in the various countries within the Mediterranean Theatre of Operations.

a. In general, it will be desirable for the responsibility of Allied Force Headquarters to be similar to the responsibility of SHAEF in the areas respectively under their control.

o.g. The responsibility of SHAEF in the operational zones has been defined as follows: To prevent any hindrance to military operation or military government which might be occasioned by the massing, control, movement of displaced persons. To prevent and control outbreaks of disease among displaced persons. To relieve as far as practicable, conditions of want among Allied displaced persons and to relieve, as necessary, destitution among enemy displaced persons.

b. The responsibility of Governments in Liberated Areas has been defined by SHAEF as follows:

- 1. They will normally have full responsibility for displaced persons and refugees and for their own nationals returned to their countries by Allied Military authorities.
- 2. They should make available specialist personnel to issue repatriation visas and help as necessary in controlling their displaced nationals.
- 3. They should issue standard instructions and instruct the frontier guards to direct into assembly centers or processing centers persons attempting self repatriation. They will so far as possible ensure that a uniform theater policy is carried out for dealing with displaced persons, including registration and reciprocal acceptance of registration and medical clearance records. There should be an agreement to accept and interchange with other national authorities liaison officers to assist in the supervision and control of displaced persons of their own nationality who will be empowered to issue repatriation visas. There must be agreement to admit to their territory all their former nationals who may have been displaced by the war into other countries without discrimination on account of race, religion, or political beliefs.

c. The responsibility of UNRRA has been defined as follows:

- 1. In Allied territories, the responsibility for the care and relief of displaced persons may be delegated to UNRRA at the time and to the extent determined by the Supreme Allied Commander

2. They should make available specialist personnel to issue repatriation visas and help as necessary in controlling their displaced nationals.
3. They should issue stand fast instructions and instruct the frontier guards to direct into assembly centers or processing centers persons attempting self repatriation. They will so far as possible ensure that a uniform theater policy is carried out for dealing with displaced persons, including registration and reciprocal acceptance of registration and medical clearance records. There should be an agreement to accept and interchange with other national authorities liaison officers to assist in the supervision and control of displaced persons of their own nationality who will be empowered to issue repatriation visas. There must be agreement to admit to their territory all their former nationals who may have been displaced by the war into other countries without discrimination on account of race, religion, or political beliefs.
- c. The responsibility of UNRRA has been defined as follows:
 1. In Allied territories, the responsibility for the care and relief of displaced persons may be delegated to UNRRA at the time and to the extent determined by the Supreme Allied Commander in agreement with the respective governments. The position of UNRRA so far as relief and rehabilitation in Greece, Albania, and Yugoslavia is governed by directives issued by HQ Balkans based on an agreement dated the 3rd of April 1944, copy attached at appendix 614.
 2. In enemy territory UNRRA will assume responsibility for the care and relief of Allied displaced persons at a time and to the extent to be determined by the Supreme Allied Commander.
 - d. The responsibility of Intergovernmental Committee on Refugees has been defined as follows:

The Committee will continue its responsibility for persons who have been obliged to leave their homes for reasons of race, religion or political belief and who cannot be or do not desire to be repatriated. It is believed that UNRRA will be prepared to assist for a reasonable period in the care of such persons as cannot be repatriated until the Intergovernmental Committee is prepared to help remove them to new places of settlement.

e. The responsibility of the International Red Cross and other foreign voluntary societies has been defined as follows:

1. International Red Cross will facilitate dispatch and receipt of communications to, from and about displaced persons.
2. Foreign voluntary societies will have responsibility for relief and welfare at a time and to an extent to be determined by the Supreme Allied Commander. They will be required to work in collaboration with UNRRA whenever the latter is at work in the area concerned.

f. The responsibility of enemy governments has been defined as follows:

1. Enemy authorities should be required to carry out the following functions as directed by Military Commanders:
 - a. Be responsible for the care, shelter, maintenance and medical attention required by Allied displaced persons in the territory.
 - b. Be responsible for the care and control of enemy displaced persons.
 - c. Be responsible for ensuring that wages and benefits to Allied displaced persons who were or are workers in the territory and remittances to their family are paid when due.
 - d. Be responsible for the production when requested of full information regarding the number, location, employment and condition of Allied nationals in enemy territory and in territory occupied by the enemy at the time of surrender.
 - e. Be responsible for the production on demand of lists of workers in internment and concentration camps and lists of places of confinement of political prisoners, their location and the character and nature of accommodation.
 - f. Be responsible for the release of food, sanitary, medical and clothing stocks held in the territory.
 - g. Be responsible for setting up of assembly centers for enemy and satellite nationals displaced within the territory.
 - h. Be responsible for setting up reception centers as required

V. METHODS OF ACHIEVING OBJECT.

The various plans for the methods to be adopted in the areas inside the Mediterranean Theater of Operations will differ somewhat in each case. Some of the more important points are suggested below.

a. Traffic Control

It may be necessary to require evacuation in the whole or in part of selected frontier towns for use as Assembly Centers to which displaced persons attempting self repatriation may be directed.

Military Commanders will presumably determine the routes which may be utilized and establish traffic control machinery to keep the routes required

36C

for military traffic clear. Military commanders will presumably direct and control the movement of displaced persons within formation areas employing military police and troops until indigenous police can be organized.

It will be necessary to provide suitable signs designating or pointing the way to highway routes, information bureau and assembly centers. Military Commanders should ensure that an Information Bureau should be set up in any area in which there are large numbers of displaced persons and furnish such information Bureaus with all available intelligence.

Displaced persons should be given an opportunity to join the armed forces of their country if represented in the Theater, or to serve in labor battalions organized by the military provided their loyalties to the Allies have been determined and they qualify physically and otherwise.

Nationals of the United and Associated Nations and neutrals confined, interned, or otherwise under restraint by German authorities should be freed from confinement as a military responsibility. Displaced persons will be transferred to Assembly Centers where they will be held as may be appropriate pending other disposition under military control or in restricted residence.

b. Travel Control

Movement will be strictly controlled under direction of Allied military authorities. Frontier Guards will be used to reinforce indigenous frontier control personnel at border control stations. Displaced persons who arrive at border control stations without proper documentation will be directed back to the nearest Assembly Center.

c. Processing Centers.

Processing Centers are accommodation areas which may be either Assembly Centers, Reception Centers or Border Control Stations. For instance - an Italian Center near the Italian-Austrian border may serve as a Reception Center for displaced Italians returning from Germany. It may also serve as an Assembly Center for processing displaced Poles in Italy seeking repatriation. At the same time it might serve as a Border Control Station for displaced persons attempting to cross the frontier.

It will clearly not be desirable to accommodate enemy and allied displaced persons in the same Processing Centers and the operation of normal Processing Centers should be modified as required for enemy nationals, probably on the lines of detention camps.

Reception Centers. The function of Reception Centers will be for the purpose of recovery and providing temporary care for displaced

Reception Centers. The function of Reception Centers will be for the purpose of receiving and providing temporary care for displaced nationals within the territory to which they have returned.

Assembly Centers. The function of an Assembly Center will be the temporary care of displaced persons for whom both clothing and medical facilities will have to be provided until they can be given temporary gainful employment or be repatriated. It is here that clothing and shelter will be provided, disease controlled and emergency medical attention given, security examinations facilitated, Red Cross facilities employed to permit communication with the outside world, registration performed, grouping arrangements made for accommodation and classification according to nationalities and desired destinations, the compilation of reports on presence and number of nationalities.

Border Control Stations. It is suggested that these should be established as a military responsibility on civilian traffic routes at or near international boundaries for the control of movements across these boundaries. Displaced persons who have not been registered should normally be directed from the Border Control Station to the nearest Assembly Center where they can be processed and wait orderly repatriation.

d. Registration

It will be necessary that all displaced persons should be registered in a uniform manner, employing standard registration forms. It will be desirable to follow the procedure already prepared by SHAEF. It will also be necessary to make periodical reports and returns upon the resident population in the Assembly Centers.

e. Repatriation Control

It will be of vital importance to control and coordinate transportation in all areas. In this connection, it is understood that a European Inland Transport Commission is likely to be set up, among whose tasks will be the provision and coordination of such transportation.

f. Supply.

The maximum use of local resources and organizations should be made. Where such are inadequate, the necessary provision will have to be made from military sources.

VI. PROBLEMS

It is clear from the above short summary that a number of problems will arise. Among them will be

- a. Coordination on all matters with Supreme Headquarters Allied Expeditionary Force and that part of the military organization assigned to specific tasks in connection with displaced persons (known at SHAEF as DPX). It will probably be thought desirable that liaison officers be exchanged between the Theaters as soon as possible.
- b. Coordination of transportation and movement. This is a major problem. It is not only a problem within the Theater, but also requires closest coordination with SHAEF in view of the many hundreds of thousands of transient displaced persons who will have to pass from one Theater to the other in both directions.
- c. Minimum standards of welfare and relief should be uniform in both Theaters and policy as to a definite ~~measure~~ adopted both by the military and by voluntary organizations.
- d. Preparation will have to be made for large scale but unorganized attempts at self repatriation. The ideal solution would be such rigorous control as to make individual action impossible, but experience has proved

- d. Preparation will have to be made for large scale but unorganized attempts at self repatriation. The ideal solution would be such rigorous control as to make individual action impossible, but experience has proved that no method of control can achieve that object. It must, therefore, be realized that although as strict control as possible should be imposed, yet arrangements to cater for individual wanderers running into many thousands must be made. The alternative will be vagrancy and banditry on an unprecedented scale, together with very serious medical and sanitary implications. One of the first steps to be taken might well be a coordinated "stand still" propaganda.

e. The position of all non military assistance, particularly UNRRA, should be defined as early as possible. UNRRA's relations with the military are centrally determined and the Combined Civil Affairs Committee, as the agency of the combined Chiefs of Staff, has been designated as the agency through which UNRRA's contact with the Combined Chiefs of Staff is to be maintained. As a practical matter, however, it is clearly desirable that UNRRA personnel should be infiltrated into all areas with the military at the earliest possible date, so that there may be a gradual taking over by UNRRA of military responsibilities for relief and rehabilitation rather than that the change should be sudden and abrupt.

VII. RECOMMENDATIONS

It seems feasible at this stage to recommend that certain further steps be taken and the committee make the following recommendations which it

Declassified E.O. 12356 Section 3.3/NND No. 7824

instructs the Secretariat to bring to mind through the appropriate channels.

1. That Allied Headquarters, in close liaison with the Headquarters Allied Expeditionary Force, in connection with the problem of repatriation of displaced persons concerned with the problem of repatriation of displaced persons, in the event of a European inland Transportation Commission being set up, it is recommended that there should be representation thereon competent to present the problems of transportation of displaced persons within this Theater.

2. That particular attention be paid to the problem of transportation and movement and that the Movement and Transportation Section of Allied Force Headquarters in particular be invited to study the problem with representatives of 2-5 Section. In the event of a European inland Transportation Commission being set up, it is recommended that there should be representation thereon competent to present the problems of transportation of displaced persons within this Theater.

3. That existing machinery of propaganda be utilized to give as much publicity as possible to the necessity for obeying "stand still" orders within this Theater.

4. That the definition of responsibilities of the various parties involved in Paragraph IV hereof and the outlined methods of achieving the object summarized in paragraph V hereof be adopted as a basis for standard operating procedure within the Theater.

5. That personnel of UMEPA be infiltrated into the military organization at the earliest possible stage.

6. That camps already set up within the Mediterranean Theater of Operations, e.g., Philippaville and Puchala be ~~not~~ disbanded until it is clear that all future use for them is over.

MEMORANDUM ON PROCEEDINGS
OF A MEETING HELD AT AFHQ
SATURDAY, SEPTEMBER 2 1944

1. Object. The notices convening the meeting and a copy of the Agenda are attached hereto as Appendices A1, A2, A3, respectively.

2. Present. A list of those attending the meeting is attached as Appendix B.

3. The Chief Administrative Officer, AFHQ (Lt. General J.G.W. Clark), welcomed those present and emphasized the importance of the objectives of the meeting.

4. Col. C.M. Spofford took the chair at 1130 hrs.

5. opening Remarks by Chairman:

a. Supreme Allied Commander was responsible in this Theatre for, among other things, the rescue, administration, maintenance, repatriation, or settlement of refugees and displaced persons. There were already in the Theatre a number of Agencies - some sponsored by the Allied Governments, others representing various interests. The help given by these agencies in the solutions of the problems was welcomed. It was, however, obvious that the activities of all such agencies should be co-ordinated. It had been considered that there was need for an agency to act in an advisory capacity to AFHQ, and, particularly, to advise the Allied Commander on the contributions which could be made by civilian relief and welfare organizations in the solution of the problems. No such body now existed. The question was whether such a body should be formed, but before putting the question he proposed to review the current situation and to ask representatives of the agencies present to explain briefly the scope of their activities.

6. Review of Current Situation:-

a. Interned and Displaced Persons Sub-Commission, Allied Control Commission, (Col. Pindley, Director, I & DFSC).

45,000 internees and displaced persons of about 30 Nationalities had passed through the hands of the Sub-Commission. The majority of these had been Yugoslavs. It had been directed by the Supreme Allied Commander that installations in Italy should be run on a transit basis. 28,120 Yugoslavs had been evacuated to Camps in the MID-EAST. Approximately 600 Jews had been sent to Palestine. Approximately 1,000 - mostly Jews - had been sent to United States. 4,000 Maltese had been evacuated to Tripoli and 1,200 additional Maltese would probably shortly follow. There were, at the moment, about 7,000 Yugoslavs in Camps in Italy. There was room for another 4,000 approximately. The Yugoslav authorities had expressed a wish that no further evacuation from Italy of Yugoslavs should take place, and had agreed to restrict the numbers leaving Yugoslavia.

CONFIDENTIAL

CONFIDENTIAL

b. Situation in the MID-EAST, UNRRA/MERRA, (Maj. S.A. Goldsmith). The camps in MID-EAST of direct interest were those taken over from MERRA by UNRRA, namely, KHATATBA, TOULIMBAT, EL SHATT and MOSSES WELLS in Egypt, NUSEIRAT (South of Gaza) in Palestine and ALEPPO in Syria. The last was a transit camp for reception principally of Greeks, who had found their way in and through Turkey and whose evacuation from that country had been guaranteed by MERRA. KHATATBA and EL SHATT were Yugoslav camps, MOSSES WELLS and NUSEIRAT were Greek camps, and TOULIMBAT was used, primarily, as a convalescent center for Yugoslav children. (A camp was also being prepared at EL AMISH, near the Egyptian-Palestine border, at which up to 500 "Royal" Yugoslavs could be accommodated.) MERRA, as distinguished from UNRRA, still had responsibility for camps in India, Persia, East Africa, and elsewhere, where Poles and some Greeks were under care. MID-EAST command had recognized a "permanent responsibility" for supplying to the present UNRRA camps administrative personnel (present ceiling of 315 officers and men), and furnishing supplies, the latter on a reimbursable basis. The Yugoslavs involved had come from the Transit camps in Italy. They had made a radical adjustment in living in the desert. KHATATBA and EL SHATT were desert camps, and camp administrators as well as camp doctors agreed that sick children, TB patients and the more feeble adults do not do well in the desert. The Yugoslav Central and Subordinate Committees showed considerable energy, initiative and desire to assist in and even supervised the camp activities in contrast to the Greeks who were generally satisfied to let their camp administrators do the thinking and the work. (MOSSES WELLS was on the Gulf of Suez, and NUSEIRAT on the Mediterranean). In general, the aim was to return these people to their homelands in better physical condition than that which obtained when they were received and to this end consideration was being given to more careful routing of young children, sick adults and the possibility of transfer of some Yugoslavs from MID-EAST to PHILIPPSVILLE camp.

c. Italian Refugee Branch, Allied Control Commission, (Colonel Hulls). This Branch was formed to handle refugees in the military zone. 200,000 people had been moved from the North to the South of Italy. Outside the military zones this movement, and the return to their homes of the persons moved, was the responsibility of the Italian Government, but the Government had not yet been able to assume the full responsibility and the work would, therefore, have to be continued by the Branch.

d. Policy. The Chairman explained briefly the present policies of the responsible authority. A tentative agreement had been reached with the Yugoslav authorities that no further evacuations from Italy of Yugoslavs should be effected, subject to the in-take from Yugoslavia not exceeding a further 2,000 and the ceiling for Yugoslavia of 9,000 not being exceeded. A camp at PHILIPPSVILLE, French North Africa, was in readiness to receive 10,000 displaced persons. This was equipped with a 600-bed hospital, and the capacity of the camp could be increased to 40,000, if necessary. The camp would eventually be taken over by UNRRA. MID-EAST camps could accommodate a further 13,000. It had been decided that if further evacuations were necessary, PHILIPPSVILLE should first be used. It was also under consideration whether 2,500 persons in "indifferent health", now in MID-EAST camps, should be transferred to PHILIPPSVILLE.

7. Activities of Agencies.

a. Intergovernmental Committee on Refugees, (Sir Clifford Heathcote-Smith). This body worked in close conjunction with the American Joint Distribution Committee, the American Friends Service Committee, the British

Ambulance Unit. It looked after refugees and displaced persons not cared for by other organizations, with particular attention to Stateless persons. Investigation and planning for individual cases was done by AFSC. Representatives of AFSC had now been nominated for France and North Africa.

b. Joint Distribution Committee, (Mr. Arthur Greenleigh). Problem existed in Italy since 1934 when Italian Jews founded committee to assist Jewish people from Hitler persecution. By 1938, the load became too great and the American Joint Distribution Committee was asked to assist in financing the program. Funds from the JDC were sent into Italy without interruption until the Nazi occupation. After that, the committee in Italy was financed by borrowings authorized by the JDC, such assistance being transmitted through the Vatican. In France a similar program had been carried on by borrowings authorized by AJDC by means of which many Jews otherwise in danger of their lives were saved. The program in France had been directed particularly to the saving of children by paying for their care and hiding in monasteries, in other institutions, and in the homes of non-Jewish families. There were two representatives in Italy, one in the North and one in the South. There were also two representatives in Istanbul, one in Switzerland, one in Spain, two in Portugal, one in London, and one in Palestine. Programs were also carried on through authorized borrowings in the occupied countries of Roumania, Bulgaria, Hungary, Poland and Belgium. Programs of assistance to displaced persons were carried on through local committees by JDC in the neutral countries of Sweden, Switzerland, Spain, Portugal and Turkey.

c. American Friends Service Committee, (Mr. Kistlerland). In limited fashion acted in the same relation to certain non-Jewish groups as the JDC acted towards Jewish groups. The cases of refugees not otherwise cared for were brought to the attention of the authorities.

d. The Refugee Board, (Mr. Ackermann). WRB was set up by executive order of President of United States. Its function was to help persons escape from German occupied territories and to assist those who had succeeded in escaping. These activities would cease with the cessation of hostilities. One of its activities had been the arrangement for evacuation of persecuted persons from Spain; these persons had been cared for in the Marshal Lyantry Camp, Dunkirk. The camp itself was conducted by UNRRA. It also had responsibility in connection with the recent evacuation of Stateless persons to the U.S.

e. British Red Cross, (Lt. Gen. Sir Kenneth McLeod). The functions of this body were governed by the Geneva Convention and were normally confined to services in connection with troops. During the military phase of operations assistance had been given to AGC in dealing with refugees and displaced persons and would continue. Personnel were also in readiness for similar activities in the Balkans.

f. American Red Cross, (Mr. Dobson) - said that his organization's activities paralleled those of B.R.C. in relation to American Troops. About 50 officers had been assisting AGC in the 5th Army area and plans were in hand to assist in Southern France.

6610

Note: Both Red Cross representatives requested that a ruling be sought regarding the activities of other Red Cross organizations in the Theatre, the ruling now in force technically limiting all Red Cross activities to those of British and American organizations.

CONFIDENTIAL**3. Future Problems.**

a. Southern France. Chairman said that to date there had not been much interest reported. No large groups had been found whilst the French authorities were coping adequately with their own Nationals. The function of AFHQ was to assist the French authorities and Civil Affairs Officers were available to give this assistance. That the help of civilian agencies would be required and welcomed was almost certain.

b. Balkans. (Lt. Col. Jackling). Planning had been going on and special consideration had been given to relief and rehabilitation problems. Plans would fit in with the work of existing organization (Swiss-Swedish delegation of IRC) in Greece, and UNRRA would take over responsibility as soon as possible. For Yugoslavia and Albania the position was not quite so clear; there might have to be limitations on agency activities in relation to relief programs. Further details would be given at a later meeting.

c. Austria. (Lt. Col. Jackling). The study of plans for Austria in respect of displaced persons had made provision for approximately 2 million persons falling into various categories. This study would be circulated; it would be enough to say at the moment that transportation would be the chief problem and in connection with this, camps for homeless or persons enroute to their homes would tax the resources of all agencies.

d. UNRRA. (Governor R.L. Cochran). The UNRRA Charter was specific on many points, but was at the moment indefinite regarding Italy. Recommendations had been made for consideration at the next meeting of the UNRRA Council (to be held in Montreal in mid-September). Generally speaking, UNRRA was to be the agent for distribution of relief supplies which are furnished by some other agency during the military phase, and would undertake medical care and welfare work at the invitation of the military authorities. In a subsequent period, UNRRA would take over complete responsibility in concurrence with the military authorities and the government of the country concerned. The Director General of UNRRA was very anxious that maximum use be made of the services and resources of private and governmental agencies, within the framework and plans of UNRRA.

9. It was agreed by all agency representatives present that:

- a) The establishment of an Advisory Committee was desirable;
- b) That information and reports of common interest should be collected and circulated;
- c) That details of resources in personnel and materials should be furnished for use of the Committee in future welfare and relief planning;
- d) That one of the first considerations of the Committee should be planning for repatriation.

10. The draft of an Administrative Order constituting the Advisory Committee (APPENDIX C) was considered and the following amendments accepted by the Chairman:

- a) Para 2. After "and" insert "and repatriation or resettlement."
- b) Para 4. Last line to read "American Friends Service Committee."

ADMINISTRATIVE ORDER :

AC

1. An Advisory Committee on Refugees and Displaced Persons is hereby established at A. F. H. Q.

2. The object of the Committee shall be to assist in the development of methods and plans for care of Refugees and Displaced Persons in the Mediterranean Theatre of Operations.

3. This object shall be accomplished through:

- (a) Joint consideration of the resources and programs of the various organizations - (i) civil governmental, (ii) military and (iii) private civilian - engaged in that work; and
- (b) subsequent planning and directives emanating from the respective appropriate authorities.

4. The initial composition of the Committee shall be as follows:

Chairman

Vice Chairman

Joint Secretaries

Members

- The Chief Administrative Officer, A.F.H.Q.
- The Assistant Chief of Staff, G-5, A.F.H.Q.
- The Liaison Officer for C.N.A.A.A. at A.F.H.Q.
- One of the liaison officers and a representative of G-5.
- A representative of:
 - United States Political Advisor
 - British Resident Minister
 - U.S. Civil Control Commission
 - United Nations Relief & Rehabilitation Administration
 - American Red Cross
 - British Red Cross
 - Inter Refugee Board
 - Intergovernmental Committee on Refugees

SUBJECT: Regionalisation of D.P.R.S.C. Personnel.

10 MAR 1945

TO: DISTRIBUTION.

1. In view of the decision taken at Yesterday's Regional Commissioners Meeting "that D.P.R.S.C. Personnel and Camps in the Regions would not only be under the general direction of the Regional Commissioner, but would be directly under his command", I wish to draw your attention to the final paragraph of my Plan for Northern Italy (DFR/1-8/ADM dated 23 February, 1945) Viz:-

"In view of their limited numbers D.P.R.S.C. personnel are normally only responsible for inmates, or those refugees moving to and from D.P.R.S.C. Centres. Refugees and Displaced Persons in Provinces and Communes will continue to be the responsibility of the Italian authorities, supervised by Regional and Provincial Welfare Officers or such other persons as the Regional Commissioner may direct."

I have only allowed in my estimate for sufficient Allied Officers to carry out the above defined duties. Group Commanders would undoubtedly be able to help Regional Headquarters on the general refugee question, but Group and Camp Commanders will be unable to deal with refugees other than those in their Camps, or moving to and from these camps. If it is required by Regional Commissioners that personnel of this Sub-Commission should deal with refugees in the Provinces and Communes, etc., a much larger establishment of officers will be essential. Possibly the Regional Commissioners concerned have spare officers who can undertake these duties.

2. I shall be glad to know early from the Regions, so that I can make the necessary application to the Manpower Committee for the numbers required by each.

The Political Section of the Allied Commission presents its compliments to the Italian Ministry of Foreign Affairs and, with reference to their memorandum no. 6/571/14 of the 9th February and previous correspondence regarding the return of Italian subjects to Libya, has the honor to state that the appropriate military authorities cannot for the present agree to the Italian Government's proposal that approximately 12,000 Italian subjects should be permitted to return to North Africa.

It has, however, been agreed in principle by the appropriate Allied authorities that those dependents in Italy, such as children of "breadwinners" in Tripolitania, may be allowed to return to that territory in cases where it can be shown that they are living in circumstances of hardship in Italy and that the "breadwinner" in Tripolitania will be able to maintain them. The Political Section says, however, emphasize that this scheme is limited to specific cases and cannot be extended to cover the large-scale migration apparently visualized in the Ministry's memorandum under reference.

RELATIONS D.P.R.S.C. WITH REGION

1. It is recognised that if necessary the Regional Commissioner must be supreme in his own Region, and therefore D.P.R. in provinces. The job of D.P.R.S.C. is to help the Regional Commissioner in every way possible.
2. We consider that the best way we can help him is by taking details of camps etc. off his hands.
3. In the present situation, a Group of Camps is often in two or three Regions - e.g. my Adriatic Group is strung over two Regions and an A.M.G. Area. To have each Camp Commander responsible for details in every respect to a Region under these conditions would be in my opinion a nonsense. The present status would appear to be the most suitable method. In our opinion Regional Commissioners and Provincial Commissioners are always more than welcome in our Camps, as by that means good liaison can be effected and vice versa Camp Group Commanders keep in constant touch with Regional Commissioners and Provincial Commissioners when reasonably near.
4. Another aspect. In Southern Italy, we tried some time ago to induce Region II to gradually take over our camps. That would be the result now! It is true that M.R.S.C. has been over the camps, but we are still responsible for them. (see above thing v.l.) happens again.
5. Finally, in Northern Italy the removal of D.P.R.S.C. will be primarily repatriation from outside the structures of Italy and does not go with other refugee problems. We are therefore not in a position to do so. I hope that Camp Group Commanders should be in Region Headquarters and we hope that liaison will be excellent with a minimum amount of work to be done on the Regional Commissioner's already full plate. Further, we believe the Regional Commissioner may discuss the D.P.R. with some other can be given immediate effect.

6 March 1945.

4. Another aspect. In Southern Italy, we tried some time ago to induce Region II to gradually take over our camps. What would be the result now? It is true that U.S.A.I.C. has taken over the camps, but we are still responsible for them. The same thing will happen again.

5. Finally, in Southern Italy the work of U.S.A.I.C. will be primarily repatriation from outside the frontiers of Italy and thus to do with other refugee problems than at present. In all, recognizing that in for some Italy Group Council Committee is about to be a Region II situation and we hope that liaison will be established and a permanent agency of work to be set up. The Regional Commissioner's already full position. Therefore we wish the Regional Commissioner may choose to be the Group Council can be given immediate effect.

Dear

We are getting a little unhappy about the progress of plans for wholesale repatriation of refugees, ex-internees, soldiers and POWs at the end of hostilities.

I believe we are all agreed that the matter must be dealt with on a European basis and that there must be a Central Committee to direct and co-ordinate repatriation sitting at some convenient spot such as Vienna.

I understand that there was a meeting at SHAFF in January to set the ball rolling, which was attended by an AFHQ representative but the results have not been communicated to us.

Our planning for the initial stage is practically complete and we are very anxious to get into the bigger picture so as to relate our plans for the initial stages thereto.

As AC is the body charged with responsibility for repatriation in this country and as (with all respect to your staff officers) D P & R Sub-Commission are the only persons with practical experience of repatriation problems in this country, I should like to make two suggestions:

- 1) That a representative of AC should be invited to attend, with your representative, all meetings on the European level, and
- 2) That we send a high level representative (Findlay or Fothergill) to SHAFF and London to see how things stand and if necessary, to urge on plans and procedures.

If you agree I should like to send our emissary at once and before practical problems on the ground render the absence of Findlay or Fothergill extremely inconvenient.

Dear *Gerald*

19 JAN 1945

Many thanks for your D/O 9/3.1A/CA of 15 January on the subject of the decentralisation of the Displaced Persons and Repatriation work. I feel that I cannot give you quite such a definite reply as you should desire, because I do not know very much about the work of this Commission and I do not know what Charles Findlay's objections are. I have, of course, seen the work done by the Refugee Sub-Commission in the old days when I was advancing through Lazio - Umbria. I can see certain advantages at a time of rapid movement in having a fairly centralised control. At present, however, and especially in the back areas, I do not see why the Displaced Persons and Repatriation Sub-Commission should work in any other way than the normal Regional organisation. It certainly cannot be argued that their work is more technical than that of the other Sub-Commissions and it is a fact that in very many ways, Public Safety, Public Health and Transportation, they link in very closely with other Sub-Commissions which operate through this H.Q.

My own feeling is certain that I would like to have a decentralised Regional Officer deal with Displaced Persons and Repatriation in all its subjects throughout Southern Region.

Having said this, it is, of course, only fair to add that such an arrangement might not have a very long duration.

Thank you for letting me know the position of UNRRA. I shall probably be writing you later, asking for some further information as to the part played by UNRRA in relation to our Commission.

Yours faithfully

Dear

Thank you very much for your very valuable contribution to the problem of the Regionalisation of the Displaced Persons Sub-Commission.

As you point out in paragraph 8 of your letter, there can be no question of dissolution of the Sub-Commission and the real question now under consideration is as to the sphere of operation and control which, assisted by an adequate staff, should be undertaken by Regional Commissioners.

2 FEB 1945

TO: Brigadier Gerald B. Upjohn.

1. I have carefully considered your remarks concerning the proposed reorganization of the work of the Displaced Persons and Repatriation Sub-Commission.

2. It is difficult to discuss intelligently this extremely complex subject without a more exact and detailed proposal at which to direct my remarks, and they must therefore necessarily share in a measure the same vice of being indefinite and provisional.

3. I think that it is true that the handling of the problem of refugees, and of displaced and stateless persons, has suffered from lack of sufficient integration and collaboration between the Sub-Commission and Regions. This opinion is, however, not based on any direct experience, since Region Emilia is not yet de jure operational and has had no official contact as a region with the Displaced Persons and Repatriation Sub-Commission. The matter of refugees and displaced persons was, under the administrative plan under which my headquarters has for certain purposes amalgamated with Headquarters AMG 8th Army, one of those specifically retained for the exclusive action and control of the latter.

4. It is apparent that the Displaced Persons and Repatriation Sub-Commission and its predecessor organizations have done a monumental and historic job in Italy. Their work represents really the first intelligent and comprehensive effort to attack this tremendous problem as a military matter throughout substantially an entire theater of operations. I insist that nothing I say be deemed to detract in any way from this unique accomplishment.

5. Much of this work has, however, been done under comparatively static conditions and, until the advances of last summer, in a relatively small area. The liberated portion of Italy may now, it seems to me, have reached the maximum size which can satisfactorily and efficiently be entirely supervised and operated

Declassified E.O. 12356 Section 3.3/NND No. 735016

by a single organization of no greater strength than that of the present Sub-Commission.

6. With a further and perhaps rapid advance into heavily populated industrial territory where it may be expected that there may be found large numbers of "wrong guessers" (residents of southern Italy and elsewhere who have preferred to stay behind the lines which they were behind when the invasion commenced) it seems apparent that either the present Sub-Commission will have to be granted a greatly enlarged corps of personnel or certain of its more localized functions be assumed by the local military government units, the regions and provinces.

7. It seems to me that the change should, in general, be directed along the latter lines. In the nature of things, the ordinary day-to-day location and operation of refugee camps are matters which the local military government official, with all of his special knowledge of local factors and conditions must be better equipped to handle than an officer whose responsibilities for movement and control extend throughout the Italian peninsula and in some cases beyond. All in all, I feel that regional and local facilities have not been exploited to the greatest extent possible for the efficient performance of the displaced persons mission.

8. On the other hand there are certain aspects of the refugee problem which are undoubtedly not local but national--in some instances even global--in character, which seem to require treatment on a geographically much broader base. It is clear that the Displaced Persons and Repatriation Sub-Commission cannot under any circumstances be entirely dissolved nor in any substantial degree be deprived of its general powers with regard to the movement, handling and ultimate disposition of its "clients".

9. I do not feel, nor, I imagine, do other regional commissioners, that it would be advisable simply to call upon each region to do within its respective geographical area all of the things now done within those areas by the Sub-Commission. The result would inevitably be a "balkanization" of operations which would be much less efficient than the present scheme.

10. The ideal solution probably (as usual) lies somewhere between, and for my own needs (basing this on my long acquaintance with the Director of the Sub-Commission and my confidence in

6592

the potentialities of our co-operation) I feel that the problem could probably be solved through mere liaison carried on through no more than one officer assigned to the Region for the purpose. In other regions, special conditions might require a different arrangement, and if it should be deemed desirable as a matter of Italy-wide policy to confer upon regions an even greater share of operational responsibility and control, Emilia Region would of course stand ready to sustain its share of this responsibility, which, however, it does not seek.

11. I am afraid that I have given you nothing very tangible or helpful, and in defense can only plead again the intangible nature of the question propounded. When and if your plans proceed further I shall try to respond promptly to any concrete proposal presented.

OUTLINE OF DISAPPEARANCE AND RELOCATION OPERATIONS IN
NORTHWEST ITALY.

Outline.

1. Definition of area covered.

For the purpose of this plan Northern Italy is defined as the five Regions of Liguria, Piemonte, Lombardia, Veneto and Emilia. This area has a total population of approximately 14,700,000, and it is assumed that in this area there will be 50,000 Allied Nationals and 200,000 Italian refugees to be dealt with. Included in the area are some of the largest cities in Italy:-

GENOVA.	(Pop. 1,000,000)
TORINO	(Pop. 1,250,000)
MILANO	(Pop. 2,250,000)

2. Plan of Outline.

This outline is divided into the operational phases. The first phase deals with the operational phase when the Germans work in the area and redistribution of war refugees so that they do not present military operations. The second phase deals with the population and movement of displaced persons and refugees. It should be borne in mind that these two phases may have to function conjointly to a certain degree, if North Italy is liberated before North West Italy.

Phase I.

Outline of operational phases in Northern Italy.

Refugees handled as at present in the area and will arrive, based up by Western, Central and Atlantic Refugee Groups, or existing and controlling refugee transit camps. Other Allied Nations will be dealt with by Forward Groups and in some large towns by Forward Groups at large.

Due to difficulty of control, H.Q. Sub-Commission will move from WME to Padua, or other convenient center, leaving a small H.Q. at Allied Commission H.Q.

It is assumed to deal with the refugee problem in Northern Italy a maximum of 10 camps each with a capacity of 6,000 with 90 added hospital to each camp will be required. In addition a hospital is with 300 beds will be set up.

with the population and resettlement of displaced persons and refugees. It should be borne in mind that these two phases may have to function concurrently in a certain degree, if NORTH WEST ITALY is liberated before NORTH EAST ITALY.

Phase I.

While operations continue in NORTH EAST ITALY.

Refugees handled as at present in the first six divisions, backed up by Western Centre and Air-Lift Groups, including and controlling refugees to their camps. Other Allied Nations is will be dealt with by Forward Groups and in certain large towns by Forward Groups at times.

Due to difficulty of control, H.Q. Sub-Commission will move from JMF to Pavia, or other convenient centre, giving a central H.Q. at Allied Commission H.Q.

It is envisaged to deal with the refugee problem in Northern Italy a maximum of 10 camps each with a capacity of 6,000 with 50 bedded hospitals in each camp will be required. In addition, hospital is with 250 beds will be set up.

When liberated, to suit, accommodation or dispersal centres will be set up in Bologna, Ferrara, Reggio, Modena, Parma, Mantova, Verona, Vicenza, and Trieste. The further these camps will be sited and put into operation and when the situation develops, as these centres will also be required in Parma II, it is essential that large barracks or ex-POW camp be allotted.

Application for equipment and supplies for these camps and hospital is being made.

6580

Phase II.

Rehabilitation centres in Italy.

On completion of the rehabilitation the problem of returning Allied Nationals and Italians to their homes will be of paramount importance. The following will have to be handled:-

- (a) ITALIANS TO BE RETURNED TO ITALY (Estimated).

GRANLEY, HURLEY & POLARD
P.L. 1962, 1963 & 1964

360,000
200,000
160,000

(Does not include former Italian Lascars, which accounts for a further 600,000 persons)

PLATE II (Contd)

(5) DISPLACED PERSONS IN ITALY WHO ASKING TO BE RETURNED TO THEIR OWN COUNTRIES (Estimated)

CARDS & POLDS	5,000
GRANDS	25,000
OTHER NATIONALITIES	7,000
	37,000

(c) STATELESS PERSONS IN ITALY (Estimated)

8,000

In control the movement to and from ITALY it is intended to set up the necessary machinery as follows:-

The organization for those entering ITALY is being in some 30 British Control Stations. In so Stations will ensure that individuals are in possession of official authorization for entry. From these Border Control Stations, reports will be taken to a central assembly, processing of accommodation centres and eventually to some 5 main North and South and Disposal Centres. Individuals being repatriated from ITALY will be brought to processing or accommodation centres and finally sent to Transit Centres.

All allied personnel with Sub-Commission are attached Italian military personnel, reinforced by additional allied and Italian military personnel will be needed initially to deal with the emergency commitments.

Further it will be necessary for S.P. & R. Sub-Commission to work in close conjunction with the High Commissioner for Italian Refugees, and it is hoped will eventually be responsible for this task.

The co-ordination of Processing and assembly Centres outside the borders of ITALY with those in ITALY will be essential.

C. J. 1077

will be taken to use 12 assembly. Processing in accommodation Centers and eventually to send them in Western Transit and Departure Centers. Initially, they may be transferred from Italy will be brought to Processing or accommodation Centers and finally sent to Transit Centers.

All allied personnel with Sub-Commission are assigned Italian Military personnel, re-informed by additional Italian and Italian Military personnel will be needed initially to deal with these many commitments.

Further it will be necessary for U.S. & R. Sub-Commission to work in close conjunction with the High Commission for Italian Refugees, who it is hoped will eventually be responsible for this task.

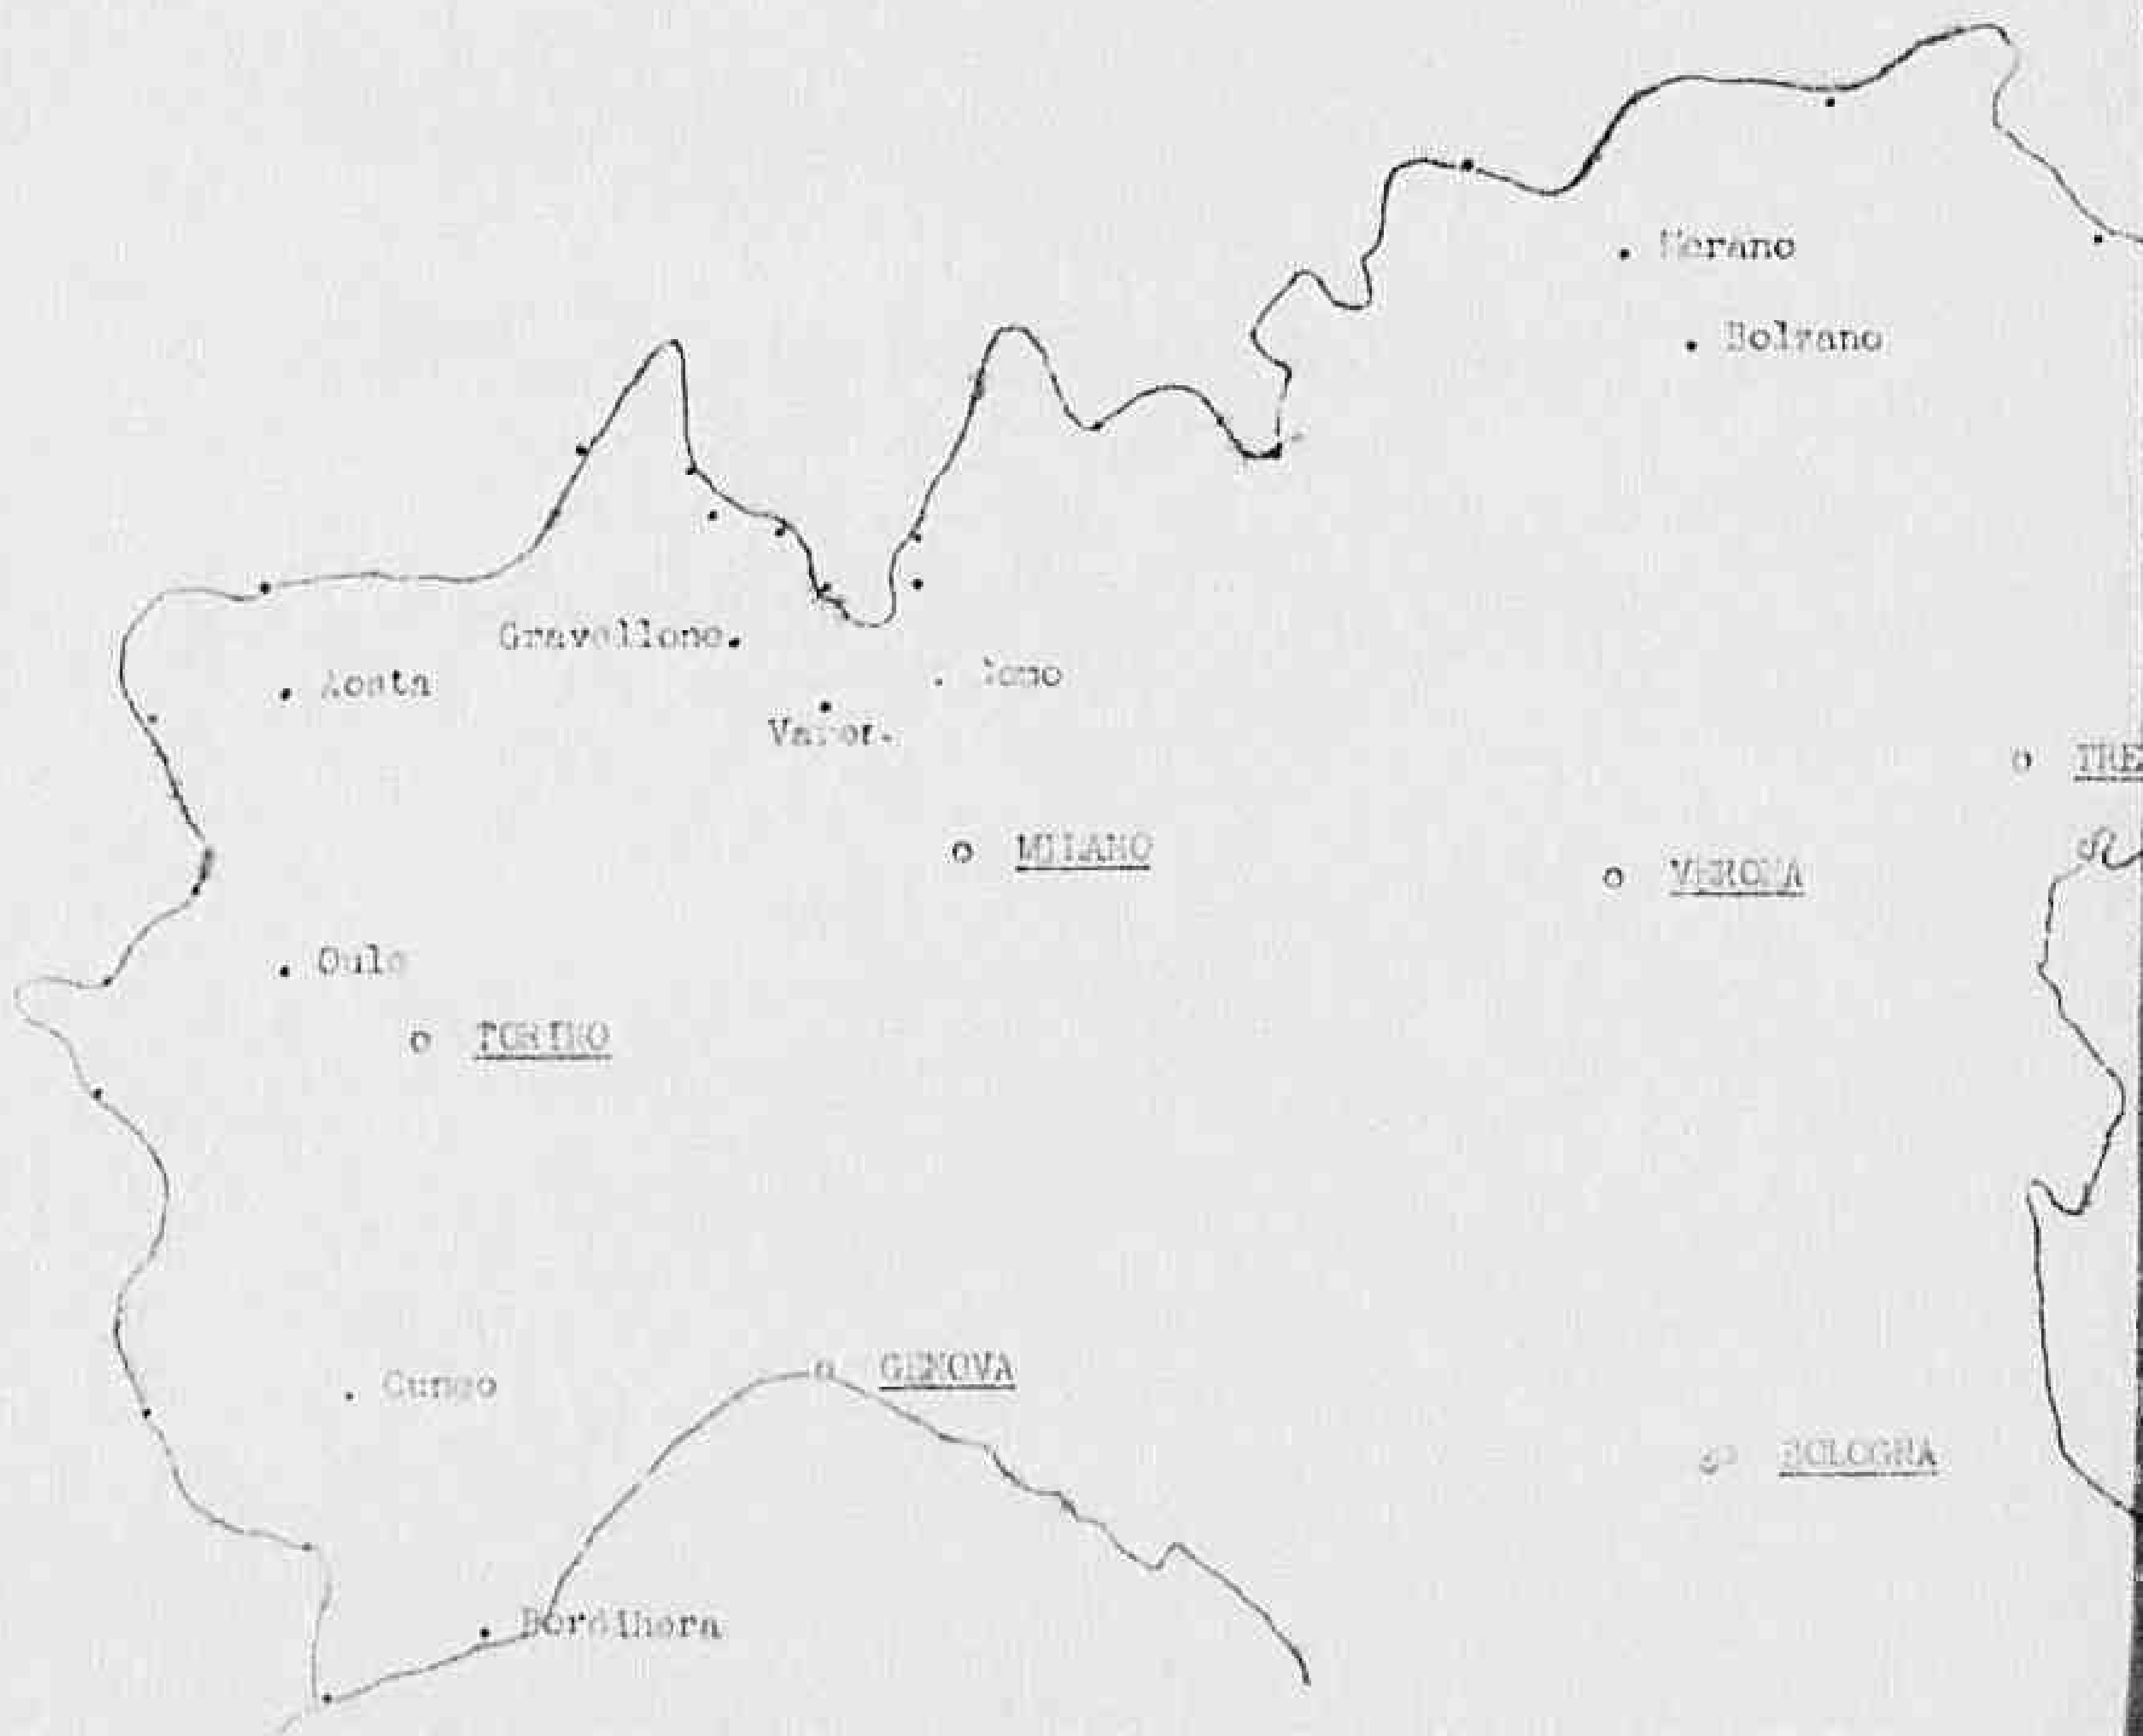

The coordination of Processing and assembly Centers outside the borders of Italy with those in Italy will be essential.

SUBJECT: Advisory Committee on Displaced Persons and Refugees
TO : Chief of Staff.

1. At the meeting of the Advisory Committee on Refugees and Displaced Persons Mediterranean Theatre of Operations held on 1 Dec 44 a statement was made on the reception of repatriates to Italy. So as to avoid numerous organisations dealing with reception and the difficulties of deciding which organisation is the appropriate one, Colonel Findlay suggested that one agency should be nominated in each country to handle the reception and departure of displaced persons.

Their dispersal can be handled by any number of agencies, but the problem would be easier by having in existence a nominated body to deal with them in the first instance.

2. The Chairman has asked that a suggestion in writing be submitted to AFHQ for consideration.

3. The following proposal for submission to Advisory Committee is forwarded. Would you kindly state if you have any objection to it being submitted.

"Proposed that one organisation in each country in Mediterranean Theatre be responsible for dealing with all incoming and outgoing displaced persons of all Nationalities (with the exception of Allied Prisoners of War and Enemy P.W.) acting as the receiving and despatching agency for such Nationals. Disposal can be handled by any number of agencies working with this central organisation after the initial reception and grouping of Nationals has been accomplished by the central agency. It is considered that Displaced Persons and Repatriation organisations already established in countries are the appropriate organisations to be designated."
