HEADQUARTERS ALLIED COMMISSION
APO 394
CIVIL AFFAIRS SECTION

Ref. AC/53.3/LG 1 June 1946

SUBJECT : Mine Detectors.

TO : M.M.I.A.

Some time ago when the scheme for mine clearance in Italy was being organised 1000 Mine Detectors were obtained from American and British sources for the Ministry of War for their mine clearnce squads. The detectors were paid for or the charge for same debited to the Ministry of War.

The Ministry of War are desirous of obtaining more detectors. As however the channels through which the detectors were obtained formerly are now closed would you consider submitting indents through your channels on behalf of the Ministry of War.

Attached for your perusal is copy of a letter received from the Ministry of War (with translation).

FOR THE CHIEF COMMISSIONER

M. CARR, Brig.
VP CA Section.

Subject : American and British Mine Detectors

To : A.C. - CIVIL AFFAIRS SECTION
for attention to Major J.S. REAKES

Reference verbal communications on the subject, we should be glad to know if there is still the possibility to buy American and British Mine detectors with the formalities under which on September 1945 the Italian Administration was supplied with the 950 ones, to-day in distribution to the zones B.C.M.

In this case we should like to know the procedure to follow as to obtain the supply.

The General I/C

Col Cril..

Demands have constantly been made to AFHQ for transport Mine detectors &c since as far back as last July. This file shows that the first issue of Mine Detectors was made in November 1944.

Mine Detectors.

Folio 66. Over a long period 94 Mine Detectors were issued to A.C.. 7 were returned to Ordnance and not re-issued by them. These Detectors were distributed to the Companies and the civilian squads. At long last I have managed to get receipts from the Ministry of War for all detectors issued and the Italian Ministry of War will be debited with their cost. My records are now clear. See folio 66.

Mine Detectors and other equipment.

Folio 43 and 54. After many demands had been made on AFHQ I eventually got the Requisitioning Branch to lodge a requisition for equipment. See folios 43 and 54. Folio 54 shows the requisition lodged with AFHQ on 9th June 45.

Transport.

Folios 41 and 61. Transport has been the subject of constant demands on AFHQ over a long period. On 25th May I wrote Transport: :ation Sub Commission setting out my demands and asking them to lodge a Requisition. After considerable discussion I eventually persuaded them to put in a requisition. See Folio 61. This I have followed up verbally and am assured progress is being made and that a demand has been made on AFHQ.

Prodders.

Folio 59. On a visit to EMILIA Region I discovered that the Zone were making their own prodders. They were a good type and I succ: :ceeded in persuading the Ministry of War to order 1000. Folio 59.

9th August 45.

MINISTRY OF WAR

N. 136176/RCM

TO : M.M.I.A.

for info to : Maj. J.S. MEAKES
Civil Affairs Section

SUBJECT : Antimine Tank

The Regional Committee of the National Mine Clearance Association for Emilia Region has suggested to this Ministry to test a new method of Mine Clearance by means of "SCORPION" tanks used by the British Army during the war.

Said Committee inform us to have taken the matter up with Col. SUTHERLAND of Agriculture Sub-Commission who told them that such tanks are on sale but can be obtained only by the Ministry of War and not by private persons.

Therefore, for the purpose of encouraging an important experiment for mine clearance, we wish to request your Sub-Commission to allow the temporary transfer of a "SCORPION" tank to Bologna Area Mine Clearance Command. This would enable us to see whether such a tank could be adapted to the Italian terrain and mine clearance methods.

Would you be so kind as to inform us accordingly as soon as possibly.

A. P. O. 394

OGGETTO: Carro armato antimina.-

e, per conoscenza:

All'A.C.H.Q. - Civil Affairs
(per il Magg.JS.REAKES)

A. P. O. 394

Il Comitato Regionale Emiliano dell'Associazione Nazionale delle Bonifiche ha proposto a questo Ministero un esperimento di bonifica mine a mezzo di carro armato SCORPION, in uso durante la guerra presso l'Esercito brittannico.

Il citato Comitato comunica altresì di aver interpellato in proposito il Col.SUTHERLAND del Comando Alleato dell'Agricoltura, il quale avrebbe informato che è ammessa la vendita di tali mezzi, ma non a privati, bensì unicamente al Ministero della Guerra.

Ciò posto, nell'intendimento di favorire un esperimento importante per la bonifica mine, si chiede se codesta L.F.S.C. potrebbe consentire alla cessione temporanea di un carro armato SCORPION al Comando Zona B.C.M. di Bologna, per controllare l'utilità pratica di detto carro in relazione alle modalità di bonifica mine ed ai terreni agricoli italiani.

Si gradirà conoscere con cortese sollecitudine le

(per il Magg.JS.REAKES)

A. P. O. 394

Il Comitato Regionale Emiliano dell'Associazione Nazionale delle Bonifiche ha proposto a questo Ministero un esperimento di bonifica mine a mezzo di carro armato SCORPION, in uso durante la guerra presso l'Esercito brittannico.

Il citato Comitato comunica altresì di aver interpellato in proposito il Col.SUTHERLAND del Comando Alleato dell'Agricoltura, il quale avrebbe informato che è ammessa la vendita di tali mezzi, ma non a privati, bensì unicamente al Ministero della Guerra.

Ciò posto, nell'intendimento di favorire un esperimento importante per la bonifica mine, si chiede se codesta L.F.S.C. potrebbe consentire alla cessione temporanea di un carro armato SCORPION al Comando Zona B.C.M. di Bologna, per controllare l'utibità pratica di detto carro in relazione alle modalità di bonifica mine ed ai terreni agricoli italiani.

Si gradirà conoscere con cortese sollecitudine le decisioni di codesta Sottocommissione.-

SUBJECT: Mine Clearance - Equipment

TO : OC 1 Sub Depot
557 E.O.D., CMF

Reference is made to your letter 1/3/1 of 1 Oct and to signal received from 1 Sub Depot (reference PS/5301) of 19 Oct.

1. The small type batteries Mark II are unfortunately entirely unsuited for the purpose for which they are intended, i.e. Mine Detectors.

2. These batteries should fit into a fixed frame on the set and to enable this to be done the terminals must be in certain positions. The only battery which conforms to this is the WD Cell Dry X Mark II.WB 0200 G.S.C. The batteries which have been sent are No.X-278 "Eveready".

3. On the WD battery the terminals are one in the centre and one in the corner whereas on the Eveready type both terminals are in the centre. A diagram is attached for your information.

4. An officer has examined the batteries to see if adjustments could be made to make them fit but this cannot be done. If the leads to the batteries had been flexible there would have been no trouble.

5. The packing cases have been marked Cells dry, Mark II WB 0200 OTJ 20 but contain the "Eveready" type of batteries.

Declassified E.O. 12356 Section 3.3/NND No. 780016

DIREZIONE GENERALE DEL GENIO MILITARE

Egregio Maggiore I. St. Reakes

Civil d'Affairs Seet

A. P. O. - 394

Come d'accordo le invio due esemplari di pile catodiche per cercamine da cui si può rilevare come esse differiscono fra loro per la diversa posizione dei morsetti rispetto al perimetro.

La pila W 9 corrisponde a quella prescritta per il cercamine polacco;

la pila X - 278 invece non è impiegabile.

Cordiali saluti

Aldo Dentice

Generale Supino

Allegato copia foglio 6878 del 25/10/ca. del 21° Stabilimento

5 0 3

Stabilimento Militare del Genio — Roma 25 Oct 45

N. 6878 — TO: Ministry of War

Subject: Cathodic batteries for polish mine detectors

Reference signal N.393 of 20 inst it is pointed out that the 9 boxes containing 1.800 cathodic batteries contain batteries of the type X 278 and not as written on the boxes Cells Dry X M K II WB 0200.

The above batteries are identic as regards dimensions but the position of the morsetti is different; the type W B 0200 has the in the centre and the other on one corner, while type X 278 act them in the centre

The mine detector has no ~~rigid~~ stiff forks of various length and therefore the battery type W B 02CC cannot be inserted into the circuit. Therefore the batteries X 278 are not useful unless the forks are modified.

It is pointed out that such system has been built up in order to avoid the change of polarity which could not be carried out with the batteries X 278 having no mechanic devices.

Please therefore ask the Allied Authorities to change these batteries.

There is enclosed a drawing which shows the fixing basis of cathodic batteries pointing out that the mine detectors have no instructions enclosed.

Colonel, Director
F. Gatta

Declassified E.O. 12356 Section 3.3/NND No. 760216

unless the forks are modified.

It is pointed out that such system has been built up in order to avoid the change of polarity which could not be carried out with the batteries A 276 having no mechanic devices.

Please therefore ask the Amlied Authorities to change these batteries.

There is enclosed a drawing which shows the fixing basis of cathodic batteries pointing out that the mine detectors have no instructions enclosed.

Colonel, Director
F. Gatta

COPIA

21° STABILIMENTO MILITARE DEL GENIO
(già Ufficio Stralcio C.M.T.e I.M.S.T.)

Roma, li 25/IO/1945

Prot. n°6878

Allegati n°1 (uno)

AL MINISTERO DELLA GUERRA
Direzione Generale del Genio
Divisione Materiali
= R O M A =

O G G E T T O:- Pile catodiche per cercamine polacchi.-

A seguito del fono n°398 del 20 corr.si precisa che le 9 casse contenenti le I.800 catodiche pur portando la dicitura esterna CELLS DRY X M K II WB 0200, contengono pile del tipo X 278.-

I due suddetti tipi di pile sono perfettamente identici come dimensioni, ma si diversificano per la posizione dei morsetti; il tipo W B 0200 ha un morsetto al centro e l'altro su di un angolo, mentre il tipo X 278 ha i morsetti sulla mediana.-

Il cercamine è provvisto di basette con forchette rigide di diversa lunghezza onde consentire l'inserzione delle pile tipo W B 0200 in circuito. Pertanto le pile X 278 non sono utilizzabili, se non si vuole modificare le forchette.-

Inoltre si fa presente che tale sistema è stato realizzato per evitare lo scambio delle polarità; scambio che non potrebbe essere facilmente evitato con le pile X 278, non essendo assicurato da accorgimento meccanico.

Per quanto sopta si prega di voler chiede alle autorità Alleate la sostituzione delle pile inviate con altre del tipo W B 0200.-

Declassified E.O. 12356 Section 3.3/NND No. 782016

Ref:RB-400/161 — 29 October 1945

SUBJECT: Mine Clearance Equipment -MCE- 331 -Eng.

TO : AFHQ, G-5 Section, Economics & Supply Division
Attn: Captain Lathrope.

1. Reference is to your letter M-18 of 8 October regarding outstanding items on requisition MCE-331-ENG.

2. Local Government Sub-Commission has informed this office that the Italian Government has stated that they have no further need for these supplies at the present time. Should a future requirement arise they will deal directly with local sources.

3. Therefore, we are cancelling the remaining 50% of items 2,3 and 5 and 100% of items 6 and 7 of this requisition.

SUBJECT: Wine Clearance

TO : Commerce Sub Commission
(Materials Division)

Reference is made to your letters AC/5134/Commerce of 28 June and to telephone conversation (Squadn.Ldr.MacKenzie-Major REAKES).

1. In March of this year this Section informed the Ministry of War that a certain amount of clothing was available in Naples for the Ministry of War. The Ministry required the clothing for the civilian Mine Cleaning workers. The cost was 929080 Lire.

2. The clothing was ultimately collected by the Ministry of War and they appointed a Commission to examine the commercial value of the clothing. Their valutation of the clothing received by them was 506, 60 Lire being a difference of 222,920 Lire.

3. The matter was raised at the time and this section was informed that the prices had been fixed on the overall cost of running the repair factory &c.

4. The Ministry of War consider that there has been some mistake and judging from the prices fixed by them which are not unreasonable it would appear that a mistake has been made. A copy of their report is attached

MEMO

Telephone conversation (Gen.SUFFINO-Maj.REARES through Mrs. Ramsey), on 24th September 45 at 12.30 hrs.

Major REARES informed Gen.SUFFINO that the Wire Detectors will be handed over to the Depots in Viale Angelico during the week. Gen.SUFFINO declared to be glad that the Ministry could get these Detectors and stated that he will give instructions to the Depot to be ready to receive the Detectors(1000 in all).

The Ministry asked if it was possible to put in Lt. Comm in Bologna. Maj. Reares stated that Emilia being Italian Government territory no officer will remain there.

General SUFFINO asked if it was possible to get a car for Emilia Command. Maj. REARES answered that this was not possible.

Gen. SUFFINO asked that the Maps be handed over to the Ministry because he is anxious to get the detailed news copied and sent out to the zones. Maj. Reares held that if the Ministry can warrant that they will carry out the copies for Army he will hand over the whole lot to the Ministry. The General said that he in in a position to do so.

On 25 Sep 45.
General Suffino phoned to say he makes all the equipment he can'd get.

SUBJECT: Lanyards for use in Mine Clearance

TO : Headquarters, Allied Commission, APO 394
(Attn: Local Govt Sub-Commission)

1. CAL 1488 approved the issue of Item 7 of MCS-331-ENG, Mine Clearance Equipment, from US/UK theater stocks as available. There is no availability of this item ex UK stocks.

2. There are certain quantities of used cable in US Salvage yards throughout Italy that could be used for this purpose. It is, therefore, requested that persons familiar with the types of cable required visit QM Salvage metal yards located at Naples, Leghorn and Bari to select and earmark such types of cables suitable as lanyards in the removal of land mines.

3. It is further requested that this section be advised of such selections so that proper release action can be made.

M-18 2 Sept. 1945.

SUBJECT: Mine Clearance Equipment - MGS-331-Eng.

TO : Headquarters, Allied Commission, APO 394.
(Attn: Local Government Sub-Commission)

1. Please refer to Allied Commission letter AC/53.1/LG of 22 August 1945.

2. Requisition MGS-331-Eng was forwarded by IAC Airgram 134, dated 10 August to Combined Chiefs of Staff for approval. MGS-331-Eng is based on AC requisition CRD-177-45, which we understand, originated in Local Government Sub-Commission and which covers requirements for 10,000 persons in mine clearance work.

3. Pending a decision by Combined Chiefs of Staff on Requisition MGS-331-Eng, it is not considered appropriate to take any further action on the request for supplies contained in your letters AC/53/LG of 2 June and 10 July. Nor should a revised requirement as requested in para 5 of our letter G-5: 383.6-28 of 12 August be submitted pending further advice.

4. If any Italian Military Forces are used in mine clearance, their organizational equipment should be provided in the normal maintenance manner through Land Forces Sub-Commission.

5. LAC Airgram 134, copies of which are available at your headquarters, included certain quantities of fuse and detonators. Tracing tape and batteries are considered to be available from local Italian sources and the appropriate Sub-Commission of the Economic Section should be consulted.

6. Our letter M-18 of today's date in reply to your letter AC/53.3/LG of 23 August also refers.

Rome, 28Aug.1945

Ref.11/26654/7

To : AC Local Govt 3/C

Subject: Mine detectors for B.C.M

We wish to thank for the communications given by Maj. Reakes under date of the 21 inst. about the placing at the disposal of this Ministry of 1000 (thousand) Allied Mine Detectors. This Direzione Generale accepts in principle the offer; but would like to know as a preliminary the following particulars:

1) Type and status of their conditions of the apparatuses;

2) Possibility of getting supplies(valves, batteries and possibly spare parts) at least for an adequate period of time: and this for the purpose of finding out other possibilities of supply from national sources. - To this end it would be highly desirable to look at one specimen of the mine detectors in question;

3) Approximate amount of cost in order to establish what liability we shall have to take in in our budget.

The Director General
Gen, O Crivaro

OGGETTO Cercamine per B.C.M.

Si ringrazia delle comunicazioni presentate dal Magg.Hoskes in data 21/c.m circa la messa a disposizione di questo Ministero di 1000 (mille) cercamine illesati. Questa Direzione Generale accetta di massima l'offerta; chiede peraltro di conoscere in via preliminare i seguenti dati:

1) - tipo e stato d'uso degli apparati;
2) - Possibilità di avere i rifornimenti (valvole, pile ed eventualmente parti di ricambio) almeno per un congruo periodo di tempo; e ciò per avere modo di stabilire le ulteriori possibilità di rifornimento da fonti nazionali.- All'uopo sarebbe sommamente desiderabile poter avere in visione un esemplare dei cercamine di che trattasi;
3) - Importo approssimativo di spesa per poter definire gli impegni da assumere in bilancio.

Declassified E.O. 12356 Section 3.3/NND No. 787016

2. Items on this requisition are required to equip up to a maximum of 10,000 personnel for mine clearance. Full information is not available as to the number of land mines laid by the enemy in Italy but it is estimated that there are four million mines still uncleared in Italy.

3. These mines have been laid throughout Italy and there are large mine belts at the following places: Cassino, Anzio, Sangro river, Pescara, Chieti, Viterbo, Pisa, Florence, Rimini, Forli and Bologna. These areas are densely mined and so long as they are uncleared they are a potential danger to the civil population. Many civilians have been killed and wounded on these mine belts. In addition to this, much agricultural land remains uncultivated through non-clearance of mines. There are many roads, railways and beaches still to be cleared.

4. The problem is a national one and is being handled by the Italian Government with the full cooperation of the Allied Commission. This headquarters strongly recommends early approval and requests authority to transfer the items listed on this requisition to the extent they are available from US/UK theatre stocks at the time CCAC approval is received here. It is not contemplated that a requisition will be placed on ZI for any of this material.

SUBJECT: Mine Clearance - Equipment

TO : Headquarters, Allied Commission,
APO 394.

1. Reference is made to your AC/53.3/LG of 11 Aug.

2. You will note from this Headquarters letter M-18 of 12 August, addressed to your Economic Section, which crossed your last letter, that a requisition has been forwarded to the Combined Civil Affairs Committee for the bulk of the mine lifting equipment required by the Italian Government. Our letter at the same time gave the reasons why certain items had not been included in the requisition to CCAC.

3. The position in regard to transport is set out in this Headquarters letter No. T-11 of 6 August which explains that further releases cannot be considered until the 4000 vehicles offered to the Italian Government in our letters of 28 June and 18 July have been taken up.

For the Asst. Chief of Staff, G-5:

SUBJECT: Mine Clearance Equipment. MCS-331-ENG.

TO : Headquarters, Allied Commission, APO 394
(Attn: Economic Section)

1. Allied Commission requisition No. AC-ORD-177-45 has been assigned No. MCS-331-ENG and forwarded to CCAC for approval in LAC Airgram 134 dated 10 August.

2. Certain modifications were made to the requisition as originally submitted. This was largely due to the fact that certain items or suitable substitutes should be available from local Italian resources. Prodders, tracing tape, pegs and batteries are considered to be available locally.

3. Some dry cell batteries have also been declared surplus to US Army needs and Allied Commission in conjunction with FEA should be able to meet this need through Army Navy Liquidation Commission, now located in Rome.

4. Some of the items listed in MCS-331-ENG may also be procured locally and AFLRS Local Availability Reports should be consulted.

5. You attention is invited in particular to AFLRS Availability Report No. 11 dated 11 April 1945 which indicates that the Societa Generale di Esplosivi Minizioni (Nobel) Orbetello Grosseto Province has considerable amounts of detonaters in stock.

11 August 1945.

SUBJECT: Mine Clearance - Equipment.

TO : A.F.H.Q. (G-5).

Reference is made to conversation (Brigadier UPJOHN - Colonel PARSONS) concerning release of equipment to the Italian Government for Mine Clearance.

1. The Appendix to this letter shows the essential equipment which is required by the Italian Government for carrying out Mine Clearance whether it be by using Surrendered Personnel or other labour.

2. The equipment shown in the Appendix is necessary to equip 10,000 men the minimum number required to clear Mines in Italy. The British Ordnance Vocabulary has been used but it is not essential that the equipment should be of British type, other equivalent material will suffice.

3. Demands have been made to your HQ on several occasions for this equipment and it is hoped that an allocation may now be made to the Italian Government. The equipment asked for is not obtainable from Italian sources.

4. Transport is also urgently required and an allotment of captured enemy transport, particularly light vehicles (30 Cwt) is desired. 400 to 500 of such vehicles are required.

Declassified E.O. 12356 Section 3.3/NND No. 780102

AC/53.3/LG

3 August 45

SUBJECT: Mine Clearance.

TO : G-4 (Br)
(Attn.: Capt. Rowlands).

Reference is made to this Sub Commission's letter AC/53/LG of 24 May and to your letter G4/102/31 of 31 July 45.

1. In the letter of 24 May it was shown that AC had received 94 Mine Detectors of which 7 were returned to Ordnance leaving 87 to be accounted for by this Commission.

2. Of the 87 you already hold receipts from the Ministry of War for 40 and they have been charged with the cost of these. There has now been obtained from the Ministry of War receipts (AF G 1033) for the remaining 47 mine detectors. These receopts have been signed in quadruplicate. Three signed copies AFG 1033 are therefore forwarded to you for completion of the transactions. One signed copy is being retained on the files of this Sub-Commission but if you desire it will be forwarded to you.

3. Please arrange for the cost of these Detectors being charged against the Italian Government.

16 June 1945

Major Reakes: b See a his return.

AFHQ called on the telephone requesting to know whether the requisition made by the Requisitioning Department of this HQ (Col. Quartier) dated 8 June was in fact the same requisition as they required for the employment of German Prisoners of War.

I have looked into the matter and come to the conclusion that this is not the case and have so advised Major Byles on the telephone this date.

That is to say, I have told Major Byles that the requisition dated June 8 is for Italian civilian and military use, whereas the requirements for German Prisoners of War will be quite separate.

LAST ITEM

1791.

Declassified E.O. 12356 Section 3.3/NND No. 735016

DELIVERY: Rose, Viale Angelico 23, Ministry of War Engineer Depot. Consign Hq, AAOCM, Local Government Subcommission.

JUSTIFICATION:

Items on this requisition is required to equip up to a maximum of 10,000 personnel for mine clearance. Full information is not available as to the number of mines laid by the enemy in Italy, but it is considered by this Headquarters that there must be still four million mines uncleared in Italy.

These mines have been laid throughout Italy and there are large mine belts at the following places: Cassino, Anzio, Sangro river, Pescara, Chieti, Viterbo, Pisa, Florence, Rimini, Forli, Bologna etc. These areas are densely mined and so long as they are uncleared they are a potential danger to the civil population. Many civilians have been killed and wounded on these mine belts. In addition to this, much agricultural land remains uncultivated through non clearance of mines. There are many roads, railways and beaches still to be cleared.

The problem is a national one and is being handled by the Italian Ministry of War under the guidance of this Hqs. In view of the above it is suggested that all items on this requisition be procured from theatre stocks.

1. Reference is made to Major BEAKES' call on Lt.Col. QUARTIER on the 24th May. In the Appendix to this letter there is set out a list of equipment which is required to develop the mine clearance scheme in Italy. Please have the requisition prepared and forwarded to AFHQ so that release of this material may be made in Italy.

2. In justification of this requisition the following points are brought to your attention:

a. Full information is not available as to the number of mines laid by the enemy in Italy, but it is considered by this Sub Commission that there must be still four million mines uncleared in Italy.

b. These mines have been laid throughout Italy and there are large mine belts at the following places: Cassino, Anzio, Sangro river, Pescara, Chieti, Viterbo, Pisa, Florence, Rimini, Forli, Bologna etc. These areas are densely mined and so long as they are uncleared they are a potential danger to the civil population. Many civilians have been killed and wounded on these mine belts. In addition to this, much agricultural land remains uncultivated through non clearance of mines. There are many roads, railways and beaches still to be cleared.

requisition prepared and forwarded to AFHQ so that release of this material may be made in Italy.

2. In justification of this requisition the following points are brought to your attention:

a. Full information is not available as to the number of mines laid by the enemy in Italy, but it is considered by this Sub Commission that there must be still four million mines uncleared in Italy.

b. These mines have been laid throughout Italy and there are large mine belts at the following places: Cassino, Anzio, Sangro river, Pescara, Chieti, Viterbo, Iesi, Florence, Rimini, Forli, Bologna etc. These areas are densely mined and so long as they are uncleared they are a potential danger to the civil population. Many civilians have been killed and wounded on these mine belts. In addition to this, much agricultural land remains uncultivated through non clearance of mines. There are many roads, railways and beaches still to be cleared.

3. The problem is a national one and is being handled by the Italian Ministry of War under the guidance of this Commission. It is essential that every assistance be given to them to get the job completed as soon as possible. To this end the equipment shown in the appendix is urgently required.

4. The equipment asked for is required to equip up to a maximum of 10,000 personnel for mine clearance.

5. Please say if any further information is required in addition to the above.

28 May 45.

SUBJECT: Mine Clearance.

TO : Transportation Sub Commission
Attention Mr. Gross.

1. Reference is made to Major REAKES' call upon Mr. GROSS on the 24th May, when he stated there was an urgent need for transport for the mine clearance service in Italy.

2. At present there are 2000 people engaged on mine clearing in Italy, but they are seriously handicapped by having no transport.

3. The scheme is being run by the Italian Ministry of War and covers the whole of Italy and without transport the scheme cannot be extended. Difficulties are being ex:perienced even now in keeping the scheme operating through lack of transport. It is considered that the scheme should be extended to cover 10,000 persons and for this number of persons it is estimated that 400 vehicles are required. It is suggested that they should be of the following types:

| | | | |
|---|---|---|---|
| 300 | 1 1/2 | tons | 400 Motor Cycles |
| 50 | 3 | " | 300 Bycycles |
| 50 | 15 | cwt | |

4. In justification of this requisition it is pointed out that there have been many civilian casualties on mine fields and many have been injured. In addition much agricult:-ural ground is laying unfurrowed owing to the mine fields. Many roads, railways and beaches are still mined and without transport it is impossible to do as much as it should be done during the coming six months. Schools are set up in new areas and recruits are being enrolled but when it is realized that clearing parties should not consist of more than 20/30 personnel on any one mine field, it is realized that a considerable amount of transport is necessary.

Declassified E.O. 12356 Section 3.3/NND No. 785016

5. Please forward the requisition through your channels to AFHQ. If Allied transport cannot be diverted for this purpose, it is suggested that German transport might be made available.

6. The immediate need is for 150 vehicles.

N° 1 Advanced Workshops REME

SUBJECT: Mine Detectors

In Reply Quote: R4/ENG/25.4

1. Following our letter R4/ENG/25.4 dated March 5th 1945, attached is a statement on the disposal of mine detectors assigned to the 561st Mine Sweeping Company under date of 4th March; attached is also copy of letter of the Italian Ministry of War N°304/S dated Feb. 2nd 1945 with which orders were given to the a/m unit to hand over its mine detectors to the 563rd Mine Sweeping Company under formation at Santa Maria Capua Vetere.

2. The above is brought to your attention in order that necessary instructions can be issued by you as regards the disposal of the 2 Mine detectors which have been taken by the Company to Leghorn.

3. The OC 561 reported verbally to Lt. Col. Caruso that he had handed in the 9 detectors as stated on detail, but in his written report dated 4/3/45 he stated in company store.

This requires verification.

As the orders were given direct for the whole of this move the responsibility rests on those who issued the orders.

1. May this Commission be informed when the 564 Italian Mine Clearance Company is formed and equipped so that arrangements can be made for its move to PESCARA for training. It is considered that an officer should be sent to CAPUA to supervise the equiping of this Company before it is moved. May this be done ?

2. Of the 50 Mine Detectors allotted to you 10 of them are being sent to Captain Short at BOLOGNA for the use of the civilians squads working there. Of the remaining 30 detectors please arrange for 10 being allotted to Zone 5 at PISA who are short of Detectors and 10 being forwarded to Zone HQ at FORLI'. Efforts are being made to obtain further supplies and spare batteries.

3. There would appear to be a shortage of materials at BOLOGNA especially demolition material. Please arrange for supplies at Zone HQ being augmented.

4. With reference to this Headquarter's letter AG/35/1G dated 17th May 45 addressed to Captain Short copy to General SUPINO please arrange for the HQ Zone at FORLI' being put in funds to meet the wages due to the squads enrolled by Captain SHORT.

SUBJECT: Mine Clearance.

TO : Headquarters, Allied Commission, APO 394

1. Reference your 9/8A/CA of 30 March.

2. Inclosed is release note from Q(AE) Branch this Headquarters for 50 mine detectors 5/5A, dated 3 May.

3. These are the only mine detectors which this Headquarters is in a position to supply you at present.

4. There are no motor vehicles available for assignment to you.

5. The official position here is that a further supply of mine detectors and trucks can only be had upon a formal requisition to Combined Civil Affairs Committee, Washington, originated in the regular way by Allied Commission. It is the opinion of the undersigned, however, that recent developments may relax the control of mine detectors, if not of trucks. You will be informed should such prove to be the case, and in the meantime please inform as to how many mine detectors over and above the 50 now ready for delivery you would like to have.

SUBJECT : Mine detectors

IN REPLY QUOTE : R4/ENG/25.4

1. Following our letter R4/ENG/25.4 dated March 5th 1945, attached is a statement on the disposal of mine detectors assigned to the 561st Mine Sweeping Company under date of 4th March; attached is also copy of letter of the Italian Ministry of War N°3C4/S dated Feb. 2nd 1945 with which orders were given to the a/m unit to hand over its mine detectors to the 563rd Mine Sweeping Company under formation at Santa Maria Capua Vetere.

2. The above is brought to your attention in order that necessary instructions can be issued by you as regards the disposal of the 2 Mine detectors which have been taken by the Company to Leghorn.

3. The OC 561 reported verbally to Lt.Col. Caruso that he had handed in the 9 detectors as stated on detail, but in his written report dated 4/3/45 he stated in company store.

This requires verification.

As the orders were given direct for the whole of this move the responsibility rests on those who issued the orders. -

COMANDO TERRITORIALE DI NAPOLI
COMANDO GENIO TERRITORIALE - NAPOLI -
COMANDO 227^ DIVISIONE P.M.186

The C.A.Section AC. has authorised the issuance of the following advance notice of orders of movement:

1) The 561^ Mine Sweeping Company will keep itself in readiness to move from Gaeta by railway in accordance with orders which will be given by the Ministry of War in agreement with the Allied Commission.
The date of such movement is not yet fixed but the Company will have to be prepared to move from 15 days from date.

2) The object of the transfer is to employ this unit on similar duties in another area of italian territory.

3) Owing to the fact that the 561^ Coy will be equipped with new mine detectors, those being held by it at present will be handed over to the 563^ Coy under formation at S.M.C.Vetere.

Said transfer will be effected after the Coy has received official movement orders and not prior to 48 hours from departure, under the responsibility of the 561^ Coy.

SUBJECT : Mine Detectors under repair.

IN REPLY QUOTE : RA/EMO/25.4

1) 561 Company Italian Mine Unit is leaving this area. - Instructions have been received from HQ.A.C. Civil Affairs Section, on whose charge the Mine Detectors are, that on completion of repairs they require them handed back to them.

2) Please therefore notify HQ.A.C. Civil Affairs Section, Corporazione Building Via Veneto, Rome (Attention Col. Cripps) Tel. 478000, when repaired and he will arrange collection.

The repair of Detectors was authorised under AFO 1045 RACC Serial No IW/349 and for reference the identification numbers are given below:

Type of Detector: Signal Corps USA Army SCR 625 (C order No 27031)PHILO 43
Serial No 4348
" " 5113
" " 6700
" " 6830
" " 6744

They were handed in (by Lt.Col. Caruso to Capt. Crowshaw) on March 1st.

3) Many thanks for your help.

SUBJECT : 561 Company Mines Mines Equipment for.

IN REPLY QUOTE : R4/ENG/25.4

1) This company has now being brought up to establishment and most have arrived, also there are now 9 officers including C.C. and Doctor of of them 7 are recent arrivals including C.C.

The company are organised in 6 platoons of 4 Squads each making 24 Squads each squad should have one Detector fit for use.

2) The company has now on charge 16 detectors of which 9 are not available (5 having been notified as repaired yesterday by REME and 4 on way to REME for Repair).

Therefore 8 additional Detectors are necessary to bring to 24 and I recommend a further 4 Spare as work has been greatly delayed as a few weeks ago only 3 out of 12 were fit for use.

3) An approved procedure must be laid down for replacement of batteries and repairs.

Batteries to replace worn out ones were demanded under following letters:

(a) R4/ENG/25.4 dated 1-11-44 to HQ. Lazio Umbria Region
(b) R4/ENG/25.4 dated 18-11-44 to HQ. Lazio Umbria Region
(c) R4/ENG/25.4 dated 28-12-44 to D.A.D.M.E.-R.A.A.C.(20B30, 10N38)
(d) R4/ENG/25.4 dated 6-2-45 to D.A.D.M.E. - R.A.A.C.

307

Result NIL.

Replacements for batteries for 5 Detectors have been obtained unofficially and the late Company Commander has bought some on the blackmarket in Naples and Rome.

This is a disgraceful position to be in.

4. Repairs. After considerable delays the 9 Detectors were accepted by REME for repairs the channel and source of repairs should be officially laid down as for all administration matters. -

Lt.Col.R.E.

Ref: G/CA/CA 15 Feb.45.

SUBJECT : Mine Clearance.

TO : HQ Abruzzi Marche Region.

Reference your R5/501 of 2 Feb.45.

1. The Mine Detectors were handed to the OC,562 Mine Clearance Company as he had transport available to take them through to Chieti.

2. It was intended that two of the detectors should be made available to civilian squads. Enquiries were made re. detectors on a recent visit to the civilian school at Chieti. The School stated that if they could have the six Italian Mine Detectors in hands of the Company they would be content. Three detectors had been handed to the School and arrangements were made for the remaining three to be repaired and handed over as soon as possible.

TRANSLATION NO. 523

561ST PIONEER COMPANY
FOR MINE CLEARANCE

P.M. 3400 9/2/45

SUBJECT: Request for Mine-detectors

TO : ENGINEERING DIVISION LAZIO UMBRIA REGION
and for information
C... SECTION
ALLIED COMMISSION

561 Cy

Ref. 317

The new T.O. of the 561st Company calls for 4 platoons of mine-clearers; each platoon is divided into 6 squads. Thus the Company has a total of 24 squads of mine-clearers, and therefore needs as assignment of 24 mine-detectors.

The Company has 11 mine-detectors at present, 2 of which are inactive as they are without batteries and 5 for various other reasons which must be handed in by order of your Headquarters. The Company has only 4 mine-detectors ready for use.

As there are training courses already begun and it seems that others will follow, we suggest that the 6 at present held by the Company ( 4 in working order and 2 inactive for lack of batteries) may be used both for training and for replacing any which may become out of order during use. This request is most urgent, for 10 squads of mine-clearers are without apperatus and within a few days when the training course is ended other squads will find themselves in the same conditions.

THE COMPANY COMMANDANT
Capt. De Marchi Natale

C.A.2.
Brigadier Upjohn.

Separate minutes.

1. The following is an extract from a liaison report of a visit to France by Lieut-Colonel Horner, C.A.5:-

"In addition several technicians are coming to this country with a view to learning how to make and assemble certain parts for mine detectors. These detectors are required in order to clear the fields which are mined and which cannot be ploughed until they are clear. A great deal of delay is taking place and it is suspected that some Frenchmen wish to make a "rake off" on the orders. Meanwhile ploughing cannot go ahead. These experts will come under the invitation of the Ministry of Supply. Arrangements are being made by Commandant deSibour who is a French Officer attached to the Ministry of Agriculture. deSibour is responsible for bomb disposal in country districts while Commandant Seznart is responsible for towns. All the teams are civilians. deSibour hopes to get the men working in the Communes by January, 1945."

2. C.A.2. will take immediate steps to obtain Mine Detectors for Italy and for other C.A.2. areas where they may be required.

Colonel C.A.

6 Jan 45

SUBJECT : Mine Clearance

TO : HQ Lazio-Umbria Region

1 The indents AF C. 994 are returned to you.

2 The authority for holding the 24 Mine Detectors is HQ AAI letter 3407/7/2 (AI) of 1 Aug 44 and the release note is No 2 (A6) 663 of the same date.

3 The number held was originally 24 but seven of them have been handed into Ordnance for replacement.

4 Suggestions have been made that these mine detectors were only on loan. This HQ has been unable to find any record of the period of loan and had always assumed that so long as the Companies were working for AC the equipment would be left with them.

5 To strengthen your case you could point out that release of a further 20 mine detectors has now been made by AFHQ to AC. This section is writing you separately on this matter.

Via XX Settembre
ROME

1. Col Cripps recently made a trip to the Centre of Instruction at Pisa and was impressed with the work done by the school there and by the squads working in and around Pisa.

2. The Squads here are working with Italian Mine Detectors but are being handicaped by shortage of batteries (Italian type ) . The batteries required are :

a) 63/2 Italian type - Minimum voltage 46.2
( normal voltage 63 )

b) No 45 C-1 Italian type .

3. The Centre also requires for instructional purposes two of each of the Italian type Mines, V-3, B-1 and B-2 and R.

4. This Headquarters will be obliged if you will take the matter up now if the batteries and mines are available have them forwarded to the Centre of Instruction at Pisa .

HEADQUARTERS ALLIED COMMISSION
APO 394
CIVIL AFFAIRS SECTION

Ref: 9/SA/CA 22 Nov 44.

SUBJECT: Mine Detectors.

TO: AFHQ, G-5 ~~Section~~.

FX 53129
Reference your Signal ~~117/15~~ of 15 Nov 44.

1 These Mine Detectors were originally issued to 13 and 16 ARTIFICI di ARRESTO Mine Clearing Companies. When these Companies were withdrawn they were replaced by the 561 and 562 Rastrellamento Mine Companies who took over all the equipment including Mine Detectors. These Companies are still operating and doing an excellent job. Without Mine Detectors they will lose of great deal of their value.

2 This Section was not aware that these Mine Detectors would be withdrawn and was under the impression that they would be left with the Companies taking over.

3 Mine Clearing throughout Italy is being undertaken by the Italian Government and at present the only mine detectors available are those loaned by you.

4 In view of this, it is desired that a release of 7 detectors be made available to replace those returned to you. May this be arranged?

FOR THE CHIEF COMMISSIONER.
