1 I agree that the attached letter (R/3219 of 21 Jul) is not as clearly worded as might be . Region III as you know issued a decree on defascising and appointed an Italian Commission to carry it out.

2 The letter is an instruction to that commission
a that their functions are finished so far as territory restored to the Italian Government is concerned;
b that they will not touch head offices of nation wide concerns;
c that they may defascise branch offices of such concerns as are located in the commune of Naples.

3 I had however prior to the receipt of this letter asked the Executive Commissioner to instruct Region III to cease action under their Regional Order.

Thank you for your letter of 6 June 1944.

I have carefully considered your suggestion regarding the possibility of a uniform system for carrying into effect defascistization in Italy and have come to the conclusion that the best solution will be to make effective the Italian Government decree dealing with this matter into the provinces of Naples, Benevento, Avellino, Foggia and Caserta so that the need for a special system in Naples will disappear.

At the same time this will not of course prejudice the right of our officers in the provinces in individual cases to dismiss fascists from their posts without going through the procedure contained in the decree and I have no doubt that in the territory we are now invading this right will have to be exercised in the interests of a fair and proper administration of liberated territory.

The President of the Council of Ministers

Salerno, 6 June 1944

My dear General Mac Farlane:

As you know the Italian Government, by successive decrees, has provided for the integration of regulations issued under R.D.L. 28 Dec 1943, No. 29/B, on the defascistization of public administrations.

The legislation now in effect, supplemented by another measure now in preparation, is inspired by criteria of particular severity in regard to personnel who appear compromised with respect to the defunct fascist regime, such as demanded by the entire Italian people, in unity of purpose with the United Nations, and in conformity with the interest of the Public Administration anxious to free itself from any fascist taint whatsoever.

You, dear General, have certainly learned from the daily press that the various Ministries have already adopted concrete provisions for the elimination of fascist employees, on my side I can assure you that the expurgative action will be carried out quickly and eternly.

Nevertheless, your high sense of justice will not overlook the necessity to have the individual provisions conform to criteria which will render them uniform for all Italians, for whatever administration and in all the regions of Italy, keeping in mind that possible variations of judgment in analogous cases, in addition to impairing the right of all citizens to an identical treatment, would risk to compromise the effectiveness of the expurgation.

I am led to these considerations by the knowledge gained of the regulations issued by the Regional A.C.C. for carrying into effect of the defascistization in that territory, regulations which differ in many points from those elaborated by the Italian Government after careful study of the situation.

In the higher interests of justice, I, therefore, believe it my duty to call your attention to these circumstances and to beg of you, dear General, to kindly examine, with that sense of equity which distinguishes your every action, the necessity to render uniform the provisions on defascistization adopted in the territories still subject to the Allied Military Government with the legislation issued on the subject by the Italian Government.

I thank you in advance and extend to you my cordial greetings.

/s/ BADOGLIO

General Sir Noel Mason MacFarlane
President of the Allied Control Commission
