In acknowledging receipt of your letter of 26 October 1945, the contents of which delighted me, I enclose a copy of a letter I wrote to the State Railways Department in the Ministry of Transport.

It is a matter I have often stopped to think about in my relations with the public Departments. I am glad my point of view is identical with that of the Allied Commission.

My sincere thanks and regards.

HIGH COMMISSIONER FOR SANCTIONS AGAINST FASCISM

ROME, 21 October 1945

Subject: Expatriation proceedings

TO : THE MINISTRY OF TRANSPORT
State Railways Department
R.O.M.E.

67A

In forwarding you copy of the letter of 26 October 1945 which I received from the Allied Commission, I wish to point out to your Department the desirability of utilizing practically and wherever possible the personnel legally suspended from office.

For this purpose, it would be advisable that either the Department or the District Administrations send me proposals for the temporary re-employment of those employees which the Administrations believe not to be seriously prejudiced but against whom it is likely that no measure of discharge will be issued, providing that their service does not hinder the expatriation proceedings against them.

Those who are not suspended for expatriation proceedings could be re-employed even without authorization from this High Commissariat.

I have already sent instructions on suspension to many administrative offices with a view to minimizing the number of suspensions, for while they oblige very many employees to suffer continual moral unease, they are a particularly heavy burden on finance, since the Administrations must pay such employees compensation without a corresponding return in service.

This need of employing the largest personnel possible in the State Departments in order to make the greatest progress is particularly apparent in the State railways.

Some days ago I received many reports from Railway and Post Telegraph employees saying that a large part of the population was against employing suspended personnel. I pointed out that this objection was not at all called for if it went beyond the just limits and included factious elements; that a large number of employees, although suspended, could not be accused of any serious fascist crime, and that the proceedings would most certainly end in their favour. Moreover, I pointed out that it was undesirable to take unjustly heavy measures against personnel who do not merit them, and at the same time unduly burden the State finance. Being intelligent persons I believe they understood my point of view.

These considerations are particularly important in view of the fact that the Council of Ministers are examining a new draft of law on expatriation which will

Nell' accusare ricevuta della lettera 26 ottobre 1945, della quale ho molto apprezzato la simpatica portata, trasmetto copia di lettera che ho teso spedito alla Direzione delle Ferrovie dello Stato presso il Ministero dei Trasporti.

Trattasi di un argomento sul quale già molte volte mi sono soffermato, nei rapporti con le pubbliche amministrazioni. E sono lieto che il mio punto di vista coincida con quello di cotesto Comando.

Oggetto: procedimenti di epurazione

Nel rimettere copia della lettera 25 ottobre corr., indirizzata dalla Commissione Alleata del Quartiere Generale, faccio presente a cotesta On. Direzione la grande opportunità di accelerare, per quanto è in lei, la pratica utilizzazione del personale che trovasi in stato di sospensione, a diritto del servizio.

A tale effetto, sarebbe consigliabile che, a cotesta Direzione Generale e le Direzioni compartimentali, si proponessero, per il nulla osta per la riammissione provvisoria in servizio - in pregiudizio il corso della procedura di epurazione - i nominativi di tutti i dipendenti che, a giudizio deliberativo della Direzione, verosimilmente non si trovino in condizioni obiettive o subiettive, tali da far presumere che il provvedimento a loro carico non fosse per essere di dispensa.

Per coloro che si trovano in stato di sospensione di vero fatto, la riammissione potrebbe avvenire, da parte di cotesta Amministrazione, anche a prescindere dal nulla osta di questo Comisariato.

Nel rimettere copia della lettera 26 ottobre corr., indirizzata dalla Commissione Alleata del Quartiere Generale, faccio presente a cotesta On. Direzione la grande opportunità di accelerare, per quanto è in lei, la pratica utilizzazione del personale che trovasi in stato di sospensione, i diritti del servizio.

A tale effetto, sarebbe consigliabile che, a potestà Direzione Generale o le Direzioni compartimentali, si proponessero, per il nulla osta per la riammissione provvisoria in servizio - in pregiudizio il corso della procedura di epurazione - i nominativi di tutti i dipendenti che, a giudizio dell'Ufficio della Direzione, verosimilmente non si trovino in condizioni obbiettive o subiettive, tali da far presumere che il provvedimento a loro carico non fosse per essere di dispensa.

Per coloro che si trovano in stato di sospensione di pieno diritto, la riammissione potrebbe avvenire, da parte di cotesta Amministrazione, anche a prescindere dal nulla osta di questo Comandamento.

Questo ufficio ha già diramato a parecchie amministrazioni le proprie direttive in tema di sospensioni, nel senso di ridurre al massimo le sospensioni stesse, le quali, mentre tengono in una condizione di disagio morale moltissimi dipendenti contro i quali non sono formulabili del gravi addebiti, importano un gravissimo onere finanziario alle amministrazioni, tenuto conto delle spese cui non corrisponde l'effettiva prestazione del servizio, mentre, appunto per la mancanza di tale prestazione, esse si riflettono sfavorevolmente anche sulla economia generale del nostro Paese. E' facile che avrebbe tanto bisogno di incominciare a sollevarsi dallo stato di sospensione in cui si trova.

5/10/53

La grande opportunità di acquisire convenientemente alle amministrazioni il maggior numero possibile di dipendenti, al fine di proseguire con la massima sfericità, l'attività delle amministrazioni stesse, si appalesa particolarmente intensificata nel caso delle Ferrovie, di fronte alla segnalazione fatta dalla Commissione Alvesta.

Giorni addietro, ebbi a ricevere una numerosa delegazione di ferrovieri e di postelegrafonici, i quali si erano resi interpreti della ostilità, di principio, delle masse, di fronte alla riammissione in servizio dei sospesi. Osservai loro che tale ostilità, non era affatto approvabile se andava oltre i limiti del giusto per raggiungere quelli della lealtà: che una grandissima quantità di sospesi si trovava in condizioni di non doverci rimproverare gravi peccati sostanziali fascisti: che per essi certamente il giudizio di epurazione si sarebbe concluso favorevolmente, che non era desiderabile mantenere una ostilità - che troppo ricordava il defunto spirito fascista - contro tali dipendenti, aggravando, nel tempo il danno economico sociale e morale del Paese. Letti delegati, che si presentarono quali persone intelligenti e ragionevoli, mi apparvero arrendersi alle mie argomentazioni e mi sono indotto a sperare che l'animo delle masse si inclini verso una maggior serenità.

Ritengo opportuno poi far presente che i quesposti rilevati hanno tanto maggior ragione di essere presi in considerazione, di fronte al fatto che è in esame al Consiglio dei Ministri un nuovo progetto di legge sull'epurazione che ridurrebbe notevolmente la massa epurabile, attraverso la attenuazione dei criteri, e attraverso la riduzione delle sanzioni punitive alla sola dispenza.

Non dubito che la massa dei ferrovieri, che al suo attivo un vero spirito di eroismo in tanti fraganti del testè decorato periodo di oppressione Nazi-fascista vorrà ispirarsi a quell'orientamento di pacificazione l'Alto Commissario V. Presidente Reini informando le direttive della nuova legge, direttive che io ritengo di ritenere siano per essere condivise dal Consiglio dei Ministri.

- 1 The Italian State Railways are expecting under the Rehabilitation Program a vast import from the United States of many essential materials needed under their plans for reconstruction of the railways.
- 2 An AFSA directive has just been published which makes the Minister of Transport entirely responsible for the checking, listing and disposal of all captured enemy material, and in the North this material reaches vast proportions. It is most important that the Stores Department of the Italian State Railways works efficiently and quickly in ensuring that the material in the North, so essential to the reconstruction of Italian industry, be made available at the earliest possible date.
- 3 Unfortunately, the Stores Department of the Italian State Railways is extremely weak in personnel. Many of the experienced men belonging to this Department are under suspension pending hearings of Expiration Committees, with the result that those officials with all the knowledge of stores work and distribution are unemployed.
- 4 Attached hereto is a list showing the names of the various officials and underlined in red are the names of key personnel, whose early release is essential, if the State Railways are to fulfill the very difficult and arduous task that has now been placed on their shoulders.
- 5 It is asked therefore, that immediate steps be taken for the hearing of cases against the key personnel at the earliest possible moment. Please say what can be done to assist in this matter. It is of such importance, that the Allied Railways Board spent some time in discussing the question of distribution of stores at the last meeting, and the Director of Military Railway Service is intensely interested in ensuring that an efficient organization is created in the very near future.

of judgments of appeals, neither by Decree 27.7.44 R.154 nor by the following ones.

We for the purposes of employ as belonging to Bologna, Genoa, Trieste, Venice, Verona, Milan and Torino Comptines- ti, located north of the former Doria line, the terms for expiration proceeding have not yet been fixed, and we are awaiting for dispositions that will be issued accordingly by the High Commissioner for Sanctions against fascists.

Therefore we say give the related assurance concerning the completion of expiration judgments within 15 August 1945, only for those judgments pending at the expiration Commission working at this Ministry and concerning employees belonging to the I.S.R. General Direction.

However, this Ministry will ~~arrange~~ also the remaining expiration proceedings be completed at the earliest date, anyway no later than the terms fixed by the law.

All Commissions, both at this General Direction and at the various Comptines- ti, have been pressed a call to speed up the expiration work.

The interpretation placed upon Art 10 by the enclosure to your AC/90/Tn 4 of 30 Jun is somewhat misleading. The Article specifies certain classes of employees as to whom the present time limits remain unaltered and then proceeds to say that as regards all other employees the time within which proceedings must be commenced is extended to 15 Aug (which means 15 Nov for completion).

Broadly speaking cases against staff of the central administration must be finished on 15 Aug and the remaining staff by 15 Nov, but you must refer to the decrees properly to understand how these dates apply.
