2. Attached please find copies of the deliberations adopted respectively by the Commissioner of the Federazione Italiana Consorzi Agrari and of the Associazione Nazionale fra gli Enti Economici dell'Agricoltura for the assimilation of their personnel to the grades of the State officials.
3. The deliberation concerning this latter agency has been submitted, for final ratification, to the Ministry of Agriculture and therefore it is not yet definite. On the contrary that relating to the Federazione Italiana Consorzi Agrari is definite, but the actual assimilation of the employees is still in process.

All the other personnel would either be not liable to epuration or, as in the case of personnel of the branch offices other than managers and assistant or deputy managers, would come under the jurisdiction of the provincial delegates of the High Commissioner.

5. As to the Associazione Nazionale fra gli Enti Economici dell'Agricoltura the principle adopted is that of discriminating the personnel on the basis of the salary received as on 8 September 1943. Employees who earned a basic salary of 2,800 lire per month are assimilated to State officials of the VII grade and those who were making more are assimilated to higher grades, although no specific distinction is made to this end in the deliberation taken.

6. According to confidential information received, if this system will be put into effect, only three classes of officials of the Association will be subject to epuration proceedings; i.e., direttore generale, capi ufficio and capi servizio or inspectors of 1st class of the Head Office; whereas only few managers of field offices will undergo epuration, owing to the fact that most of them were not earning on 8 September 1943 a salary as high as 2,800 lire monthly.

Ai soli effetti dell'epurazione il sottoscritto inquadra il personale della Federazione Italiana dei Consorzi Agrari nei seguenti termini:

- 1) Direttore Generale - Grado IV
- 2) Dirigente - categoria A e Categ. B - Grado V
- 3) Dirigente - categoria B - Grado A e Grado K - Grado VI
- 4) Funzionari di Grado A, B e C - Grado VII

Ripeto il suddetto Inquadramento è solo per i fini della epurazione.

L'altro personale rientra tutto in gradi inferiori al grado VII e come tale mi pare non soggetto ad epurazione.

Con osservanza

Deliberazione n. 3

Visto il decreto legislativo luogotenenziale 9 novembre 1945, n. 772 che reca norme sulla epurazione delle pubbliche amministrazioni, revisione degli albi delle professioni, arti e mestieri ed epurazione delle aziende private;

Visto il primo comma dell'art. 1 dell'anzidetto D.L. in base al quale sono dispensate dal servizio i dipendenti delle pubbliche amministrazioni, a qualunque categoria o gruppo appartengano, aventi grado superiore al VII o parificato della classificazione statale, anche se inamovibili, i quali per l'attività politica svolta come fascisti o per le manifestazioni di carattere fascista compiute in ufficio o fuori di ufficio o per aver dato prova di fedeltà o perché nominati all'impiego per soli titoli fascisti si trovino in condizione di incompatibilità con la permanenza in servizio.

Visto il secondo comma dello stesso art. 1 e il successivo art. 2 in base al quale i dipendenti delle pubbliche amministrazioni di grado inferiore al VII sono esenti da procedimento di dispensa, a meno che nella loro condotta si riscontrino manifestazioni di grave fedeltà fascista o l'incompatibilità alla permanenza in servizio risultanti dal fatto di avere essi, dopo l'8 settembre 1943:

- a) prestato servizio militare o civile alle dipendenze del tedesco invasore;
- b) aderito al partito fascista repubblicano;
- c) prestato servizio volontario nelle formazioni militari del Governo della sedicente Repubblica Sociale Italiana, o nel grado di ufficiale in quello del lavoro organizzato dal Governo stesso;
- d) partecipato a rastrellamenti o ad esecuzione sommaria e di condanna ordinate dai nazi-fascisti o svolto opera di delazione a favore di questi ultimi;
- e) esercitato funzioni di capo della provincia o di questore per nomina del sedicente Governo della Repubblica Sociale, ovvero di presidente, di pubblico accusatore, o di membro dei Tribunali Speciali o Straordinari istituiti dal detto Governo;
- f) abbandonato la propria sede per seguire a servire il Governo fascista;

Visto il secondo comma dello stesso art. 1 e il successivo art. 2 in base ai quali i dipendenti della pubblica amministrazione il grado inferiore al VII sono esenti da provvedimento di dispensa, a meno che nella loro condotta si riscontrino manifestazioni di grave infedeltà fascista o l'incompatibilità alla permanenza in servizio risultanti dal fatto di aver essi, dopo l'8 settembre 1943:

- a) prestato servizio militare o civile alle dipendenze del tedesco invasore;
- b) aderito al partito fascista repubblicano;
- c) prestato servizio volontario nelle formazioni militari del Governo della sedicente Repubblica Sociale Italiana, o col grado di ufficiale in quello del lavoro organizzato dal Governo stesso;

- e) esercitato funzioni di capo della provincia o di questore per nomina del sedicente Governo della Repubblica Sociale, ovvero di presidente, di pubblico accusatore, o di membro del Tribunale Speciali o Strordinari istituiti dal detto Governo;
- f) abbandonato la propria sede per seguire e servire il Governo fascista;
- g) svolto opera specifica di collaborazione coi tedeschi o con la sedicente Repubblica Sociale Italiana;

169

Considerato che ai sensi dell'ultimo comma dell'art. 1 del ricordato D.L. per le amministrazioni diverse da quelle dello Stato la parificazione dei gradi agli effetti del presente decreto, se non esiste è deliberata con provvedimento insindacabile del Capo dell'Amministrazione;

Considerato che non esiste la parificazione anzidetta tra le qualifiche rivestite dagli impiegati dell'Ass. Nat. fra gli Enti Economici dell'Agricoltura ed i gradi nell'ordinamento gerarchico delle amministrazioni dello Stato e che, pertanto, ai fini dell'applicazione del D.L. SUBJECT : Epuration

TO : HLG Lombardia

Reference LEG/5075 of 11 Dec.

- 1 Bergamo's difficulty is not understood, the Epuration returns are not returns of the work done during the month but aggregate reports showing the total work achieved up to the end of the month. The fact that notices may be served in one month and the case not heard until the next is quite irrelevant; such cases will be included amongst those not completed. The only discrepancy which can exist is in respect of the 10 days during which an objection may be lodged. This implies that the number of suspensions proposed may exceed the aggregate of the number of objections and suspensions (no objection having been lodged) by the number of cases whose time has not yet expired. That is quite understandable and would give rise to no comment. What is not understandable is that in nearly all cases the aggregate of the objections and suspensions (no objection having been lodged) exceeds the total proposals which is quite impossible.
- 2 This Commission has no knowledge of any "Accordo di Roma" and in any case the Italian Government has no right to en broider or modify an AMG order. GO 46 makes certain provisions for suspension, there is no power in the Italian Government to direct that persons suspended thereunder whose suspensions have lasted 3 months shall be dismissed. The Italian Government can of course do this after AMG has ceased. It is desirable therefore that AMG should, as far as may be, tidy up its house before the handover by ensuring that the only persons left suspended under GO 46 are those whose permanent removal from office is desirable.

(a/b)

1. Explanation: Reference to your E/2375 dated 25 Nov. 45.
 I have asked our Provincial Commission of Enquiry to
 explain the reason of the difference existing in the
 figures of their monthly returns. They say that after the
 examination of the various Decisions they prepare the relative
 suspension orders. Persons who have been suspended must
 present their objection within ten days. These cases are
 examined in the following month. So that the monthly return
 do not contain only the cases tried during the month but also
 those cases which effectively belong to the preceding months,
 and it is consequently very difficult to obtain an agreement
 in the figures. They suggest a change, if possible, the form
 of that they will be able to do their best in this work.

As Appendix "A" is the usual return. Applications for revision
 are still coming in, but in a normal way. The Commission
 of Enquiry in Private Industry (C.O. 46) is always presenting
 a great number of applications and complaints
 are daily received by this office. It appears that in con-
 formity with an "Accordo di Roma" all the workers who have
 been suspended for a year or over 1 month have to be dismissed.
 The Commission is re-engage the suspended workers without a
 nulla osta of the Camera del Lavoro. I asked the Camera del
 Lavoro to explain me this fact and they informed me that this
 "Accordo di Roma" has not been ratified by a Decree Law but
 it has been accepted by all the Camere del Lavoro and the
 company have to conform with this Directive. In the A.M.C.
 territory it would be necessary to obtain the permit of the
 Allied Military Government and I submit to your attention
 this case in order to have the necessary instructions.

1. EL 702 has decreased the classes of graded officials liable to Eparation and provides as regards non graded officials that the Head of the Service shall declare which appointments are of rank equal to the first seven and consequently liable to Eparation under Art 1.
2. Will you please ascertain the views of the Heads of the Service with which you deal so that the fortnightly return for ungraded employees may be amended. It would seem that Senior Foremen should certainly be deleted from the form and quite probably Senior Technicians also. How should Assistant or Deputy Managers be dealt with?
3. It would be appreciated if a reply could be made by the 12 Dec so that instructions for the alteration of the return can be communicated to the Italian concerns before the 15 Dec.

HIGH COMMISSION FOR SANCTIONS
AGAINST FASCISM

Rome, 1 Dec 45

10001941

Dear Colonel White,

I am answering to your letter DF/6.B/CA of 27 Nov 45.

Owing to a typing mistake, the total in col b with regard to the employees of the Ministry of Communications was shown as 11,133 while it should have been 181,133.

It clearly appears, therefore, that during the period 31 October-15 Nov 45 the total of employees of the Ministry of Communications has remained unchanged.

You will also note that the figures of the following columns are right. In fact while on 31 Oct the total of persons examined was 110,919, on 15 Nov it has increased to 110,934. The total of persons deferred has increased from 7075 to 7110, the total of persons dismissed from 543 to 561 and the total of persons subject to lesser punishment has remained unchanged, i.e. 2863.

We greatly regret our involuntary mistake.

With my best regards

COMMISSARIO PER L'EDUCAZIONE

nr. 38/104

Preg.mo Sig. Colonnello WHITE,

rispondo alla Sua lettera D 7/5. E/OA del 27 novembre 1945.

Nella tabella a macchina del numero esistente nella colonna B, relative agli impiegati del Ministero delle Comunicazioni, è stato commesso per errore la cifra 7 in modo che anziché scrivere 101.133 venne scritto 11.133.

Risulta, pertanto, che il numero degli impiegati del Ministero delle Comunicazioni rimase invariato dal 31 ottobre al 15 novembre 1945.

Chiarito il suddetto errore, Lei si accorgerà che tutte le successive cifre sono esatte. Infatti il numero degli esaminati, che al 31 ottobre era di 110.919, è salito, al 15 novembre, a 110.934. Il numero dei deferiti è salito da 7075 a 7110, quello delle dispense da 543 a 561 e infine quello delle sanzioni minori è rimasto invariato a 1833.

La prego, signor Colonnello, di voler scusare l'involontario errore.

Con ogni osservanza.

SUBJECT : Return for the Central Administrations.

Dear Sir,

Reference the Expiration return for period ending 15 Nov enclosed with your letter dated 23 Nov.

It is noted in col b (number of employees) the total for the Ministry of Communications is shown as 11,133 as against 181,133 for the previous period ending 30 Oct.

Col c (number investigated) for period ending 15 Nov for said Ministry is 110,934 and for period ending 30 Oct 110,919. It is thought that this latter figure (and all the following columns) have not been rendered in consequence of the reduction of col b.

Will you please say what the figure should be.

Reference your AG 000.5 WHI-0 of 1 Nov 45.

- 1 The following are the figures extracted from the returns of the High Commission for Liquidation of the Italian Government for the period ending 31 Oct 45:-
- | | | |
|---|---------|-----|
| Number of employees liable to liquidation in Italian Administered territory | 629,037 | |
| Number of employees' records examined to date | 377,512 | 60% |
| Number of employees referred to liquidation to date | 44,322 | 12% |
| Number of cases concluded | 23,852 | 54% |
| Number of persons dismissed or retired | 3,599 | 15% |

In each case the percentage mentioned is of the preceding line.

- 2 It will be noted that these figures greatly exceed the figures which are included in AG's previous returns but it must be borne in mind that the statistics previously given by AG refer only to officials and employees of the 9th Grade and upwards or civilian employees equivalent to such grades whereas your request relates to the total number of persons.
- 3 The above figures relate to liquidation which term is used solely in connection with the cleansing of the services by removal of fascists. The second part of para 1 B of your letter suggests that there may be some confusion between liquidation and the punishment of fascist crimes. In general the only possible result of liquidation proceedings is dismissal. Minor punishment which at one time could be awarded have been abolished.
- 4 It is not clear whether your enquiry as to the number of cases pending refers to the records still to be examined or to the termination of proceedings commenced. You will see from the above table that some 20,000 records are still unexamined. If the same proportion continued, a further 30,000 cases might be expected in addition to the 20,000 cases still untried.
- 5 These figures relate solely to Italian administered territory and will be increased when liquidation comes into effect in the North. A recent decree, however, abolishing liquidation below the 7th Grade will cause an enormous reduction and the above figures are of very little use in assessing the amount of work which remains to be done.

*Forwarded with Paul [unclear]

Dear Sir,

In the last month the 100 or so Eparation Commissions which deal with the Central Administration have heard only 327 cases of Grade I-IX officers or of civilians of comparable grades. On the average only about three each per month! When enquiry is made of them why they have achieved so little, the answer is that they have dealt with a larger number of persons of lower grade.

It has been agreed that the little man is not nearly so important as the man in a position of authority. It is believed that you have under consideration a plan for abolishing the present eparation procedure so far as the lower grade officials are concerned.

If this is so, cannot the Commissions be given instructions at once to give priority to officials of grades I-IX; this would have the double effect of expediting the hearing of cases of senior personnel and of postponing the cases of the lowest grade officials so that they would then be dealt with under the new law. It is most unfair to dismiss these now if their brothers are to escape entirely and if they are excused later the hearing of their cases is a complete waste of time.

The same applies in lesser degree to the Central Commission. In the last four weeks the four Sections have dealt with only 49 cases of Senior officials, 3 per week.

This Commission considers the revision of the present eparation procedure with a view to its expedition to be most pressing and hopes that this will be pressed through quickly and that it may soon receive a draft of your proposals. Meanwhile it is considered that the administrative directive which is suggested above is a practical step towards your goal.

It is hoped that you will agree and issue the appropriate directive of which this Commission would be glad to receive a copy.

Dear Sir,

With regard to the fortnightly returns of Provincial Defascism for the period ending 15 July there were included in the return 28 Provinces, in the next two returns there are only 8 or 9.

These returns are of no value to enable this Commission to watch progress of Defascism in the Provinces unless the figures consistently relate to the same units.

Further, this Commission has no desire for returns as to Provinces - it was agreed that the return should be made by Compartimenti.

If it is not yet possible to ensure the regular rendition of provincial returns to you, it is suggested that you may find the following procedure a possible solution, to obtain the present figures for a Compartimento and to make additions thereto as provincial figures change. It would then still be possible to submit the Compartimenti total even if one or more provinces has failed to make a return.

I enclose a copy of the headings which this Commission has now found most convenient perhaps it would be possible for you to use the same headings when reporting by Compartimenti.

Subject: Expiration returns.

With reference to the letter to which we are replying, we wish to note that the expiration return dated 15 July concerning the personnel of the Ministry of Communications gave a figure which was 112,000 less than that given in the return of 30 June. The reason for this is that in the June return were included 132,499 employees residing in the North, while in the subsequent return this figure was omitted.

This was pointed out in the note (with the asterick) on the return presented to the Allied Commission.

I hope that by drawing your attention to points as to which epuration has not been satisfactory I have not distorted the general picture.

As to legislation - it is true that there has been delay unfortunately AG has been the cause of some of the delay and the changes of Government has been the cause of others; where the two have coincided, as they recently have, the resulting delay has unfortunately been inordinate. I do not think that that should be taken as evidence of any desire on the part of the Italian Government to delay or avoid epuration.

The intent and policy as disclosed by legislation still seems to be sound and to be actuated by proper motives. The only decree for which we are still waiting is that on Managers of Companies, the text has been received it contains all the points which we desired covered, there seems every prospect of its being passed quickly and I have no adverse criticism to put forward on the text.

With regard to the criticism of the complexity of past legislation. As from time to time it was found impossible to complete various processes within the then prescribed time limits a number of varying extensions of time were granted these amendments became extremely difficult to follow - but by the lapse of time they are all expiring. To all intents only one still survives and that expires on the 15 Aug. So legislation is no longer nearly so complex as it was.

Now as to progress LX 257 worked quite smoothly and one can take it that all officials of grade IV and upwards having fascist pasts have been removed. As to the other grades down to grade IX (exclusive of the services) out of over 47,000 employees in Italian Government Territory, the files of 42,000 have been examined and of those unexamined over 4,000 are employees of concerns dependant from the Ministry of Finance. You will see therefore that of all the other Ministries together, there are only 1,000 files uninvestigated and 500 of those are in Education.

There has therefore been a very complete and thorough examination of the whole of the administration.

Now as to the number of cases initiated these total 7,400 or 18% of the files investigated. With four exceptions Epuration Commissions have completed the hearings of over 75% of the cases before them. Of the 7,400 cases initiated 2,100 have been heard. These four Sub-Commissions alone account for 1,800 (Finance 900) out of the 2,300 outstanding cases all the other Ministries are therefore complete except for only 500 cases.

Though Finance is apparently so far behind in both its preliminary investigation and in its hearings this is due to the fact that it has a larger proportion of non state employees the time for whose examination is longer. They are therefore not so near their completion dates.

Now as to the results of the hearings, out of the 5,100 cases concluded,

with regard to the criticism of the complexity of past legislation. As from time to time it was found impossible to complete various processes within the then prescribed time limits a number of varying extensions of time were granted these amendments became extremely difficult to follow - but by the lapse of time they are all expiring. To all intents only one still survives and that expires on the 15 Aug. So legislation is no longer nearly so complex as it was.

Now as to progress Dr. 257 worked quite smoothly and one can take it that all officials of grade IV and upwards having fascist pasts have been removed. There has therefore been a very complete and thorough examination of the whole of the Administration.

Now as to the number of cases initiated these total 7,400 or 10% of the files investigated. With four exceptions Epuration Commissions have completed the hearings of over 75% of the cases before them. Of the 7,400 cases initiated 3,100 have been heard. These four Sub-Commissions alone account for 1,800 (Finance 900) out of the 2,300 outstanding cases all the other Ministries are therefore complete except for only 500 cases.

Though Finance is apparently so far behind in both its preliminary investigations and in its hearings this is due to the fact that it has a larger proportion of non state employees the time for whose examination is longer. They are therefore not so near their completion dates.

Now as to the results of the hearings, out of the 5,100 cases concluded, nearly 1,200 persons, not far short of one quarter have been dismissed or retired and 1,150 have received some lesser form of punishment. Extending these rates to the total number of employees it would appear that the number of state employees dismissed will exceed 4% or one out of every 25.

If the accepted policy is to remove only the ardent fascist in a position of authority and to regard the average civil servant as of necessity a fascist (as in many trades a skilled worker even though a conservation is of necessity a member of a trade union) then the proportion of persons dismissed 4% is consistent with a reasonable purge.

I think it may therefore be claimed that a fairly good job has in fact been made of epuration. It has at times been slow but that is not surprising if one

considers the fact that the machine had to be created, the death of experienced administrators after 20 years of fascism, the fact that legislation has been piece meal - ad hoc to the various situations as they arose - (with more time and greater experience more comprehensive and more satisfactory legislation might have been devised). Lastly there has been the political necessity of satisfying six contending parties all jealous of each other coupled with three changes of Government and the resulting delays and negotiations.

If you add to lack of experience the native capacity for putting off until tomorrow what you can do today, the amount which has been achieved is more a matter for congratulation than discontent.

The Epuration of South Italy is now nearly complete. As to the North - the legislation exists - the organization exists there is no reason why epuration in the North should not be able to be completed within the time limits. The prolongation required in the South was because either the machinery was not ready or because further legislation was required the experience gained in the South has removed the difficulties. One can anticipate therefore reasonably quick epuration in the North but the time does not commence to run until the territory is handed back to Italian Administration.

With regard to businesses. All the powers which we have advocated are now available (with the one exception which it is said will be passed shortly).

There is no reason to expect that Epuration of businesses will proceed on any less satisfactory lines than for state employees. It is largely carried out by the same class of bodies.

It is not possible to say now that it has been carried out to the same degree in the South as in the case of state employees because the time limits expire 3 months after those of state employees. The latter have naturally received some priority.

Epuration may have been slow but that is partially because it has been careful the spirit in which it has been carried out has been excellent; on the whole it has been effective and the operation has not left a feeling of resentment. There is no reason to fear that it will not be concluded in the same manner or to fear that AC will not be able to congratulate itself upon a difficult job - well done.

Dear Sir,

You will remember that at our meeting on the 5 July I promised to let you have particulars of Ministries in which Epuration did not appear to be proceeding with sufficient speed. There may of course be satisfactory reasons for the lack of progress but that is not for this Commission to investigate directly.

I have not written you earlier as the returns for the period ending 30 June were not then complete. Delay can occur in one of three places.

1 At the Ministry itself, in deciding whose papers should be submitted to the High Commission for consideration. At this stage we have only two complaints:-
a) the Ministry of Education shows on its return to us that it has only considered the cases of 7,500 employees out of a total of 15,100 - 57.

b) The Ministry of Finance and the various anti dependent therefrom show that they have only examined the papers of 6,800 employees out of a total of 10,800 - 63.

These are the only two ministries whose figures are less than 90%.

2 At the High Commission, in considering the cases submitted by the Ministries. Here it seems that there is sometimes delay - that time is sometimes spent on quite low grade and unimportant officials with the result that more important cases are delayed and that on occasions charges are awarded after the time limit for initiation of proceedings had expired.

3 At the Commissions of First Instance. At this stage there are several matters which it is felt are deserving of comment particularly having in view the fact that for a large number of employees of the state central administration the time for the conclusion of proceedings expires on 15 Aug.

a) Education with 5 Sub-Commissions has only heard 60 cases in 8 weeks less than 2 each per week and have still 426 cases to hear and the 5,500 uninvestigated files (see 1-a above) may yield a further 600 cases.

b) Public Safety with 3 Sub-Commissions are hearing cases at the rate of less than 3 each per week and have 361 still to hear.

c) Agriculture with 3 Sub-Commissions are hearing cases at the rate of just over 3 each per week and have still 170 cases to hear.

d) Commerce with 27 Sub-Commissions are hearing cases at the rate of less than one each in 2 weeks and have nearly 200 cases to hear.

e) Finance with 27 Sub-Commissions are hearing cases at the rate of less than 3

may occur in one of three places.

- 1 At the Ministry itself, in deciding whose papers should be submitted to the High Commission for consideration. At this stage we have only two complaints:-
 - a) the Ministry of Education shown on its return to us that it has only considered the cases of 7,300 employees out of a total of 13,400 - 57.
 - b) The Ministry of Finance and the various other departments show that they have only examined the papers of 6,600 employees out of a total of 10,900 - 63.
 These are the only two ministries whose figures are less than 90%.
- 2 At the High Commission, in considering the cases submitted by the ministries. Here it seems that there is sometimes delay - that time is sometimes spent on quite low grade and unimportant officials with the result that more important cases are delayed and that on occasions charges are dropped after the time limit for initiation of proceedings had expired.

 - b) Public Safety with 3 Sub-Commissions are hearing cases at the rate of less than 3 each per week and have 361 still to hear.
 - c) Agriculture with 3 Sub-Commissions are hearing cases at the rate of just over 1 each per week and have still 170 cases to hear.

 - e) Finance with 25 Sub-Commissions are hearing cases at the rate of less than 3 each per week and have 900 cases still to hear and the 4,000 uninvestigated files (see 1-b above) may yield a further 1,300 cases.
 - f) Communications with 15 Sub-Commissions are hearing cases at the rate of only 1 case per Sub-Commission in 10 weeks have 68 cases still to hear.
 - g) Public Relations have only 2 cases outstanding but this has been so, for over 6 weeks, one wonders why these cases are not brought to an end.

The following Ministries are the bad ones from the operation progress (or want of) point of view.

Education The preliminary investigation in the Ministry itself has made no appreciable progress for 10 weeks and stands at under 6% of the staff and nearly 5,000 more to do.

The hearing of cases is also bad. It has 5 Sub-Commissions; in 8 weeks the 5 Sub-Commissions have heard 60 cases, an average of 1 1/2 each per week, whereas they should each do at least 25 a week. To have disposed of all their cases by now they had only to average 12 each a week over the last eight weeks = 2 per day.

Public Safety Have three Sub-Commissions and have done 69 cases in 8 weeks = less than 3 per week. If they had averaged 18 per week, 3 a day, they would have been clear.

Agriculture Their Sub-Commissions have only done 14 cases in the last four weeks. They have a further 170 to do. Once they achieved 35 in a week, ten times their present rate.

Commerce With quite a number of Sub-Commissions have only heard 74 cases in six weeks; in the previous month alone they did 107. The comparative rates per week are 12 against 27.

Finance The many Ministerial and Companies Personnel departments are making very little progress. They have only completed 330 preliminary investigations in four weeks. Two months ago they completed 1000 in the same time. They still have 4,000 to complete.

Their 25 hearing commissions have heard 205 cases in 4 weeks = a less than 3 each per week. They have 900 cases yet to hear plus what ever matures out of the 4,000 uninvestigated cases. Their percentage so far is 22% of cases investigated which looks like an additional 900 more cases to come.

Communications Have 18 Sub-Commissions. Have only done 7 cases in a month. There are only 68 cases outstanding. 18 Commissions should be able to do this on their heads before 15 Aug but not at this rate.

Public Relations Have only 2 cases outstanding but this has been so for over a month. Are these two being spun out deliberately.

Their 25 hearing commissions have heard 265 cases in 4 weeks - a less than 3 each per week. They have 900 cases yet to hear plus what ever returns out of the 4,000 uninvestigated cases. Their percentage so far is 62% of cases investigated which looks like an additional 900 more cases to come.

This is a copy of an internal instruction issued 20/1/45, regarding the knowledge of G.O. that they cannot complete operations within the time limits.

It points out that for many of the offences under the Act which would qualify individuals as also officers under the normal disciplinary code, it would not justify removal from the service.

When operations proceeding have been taken and limited disciplinary action will not be taken.

Thus where operations have been taken of failure to comply with the time limits or of disorganization of the time limits of new limits - disciplinary action will not be taken.

This keeps the mind of the commandants clear. Undoubtedly, however, our knowledge that we are statistically a lot better than we are, with the help of the operations, is a very necessary thing.

TRANSLATION NO. 515

PRESIDENCY OF THE COUNCIL OF MINISTERS

No. 33313/10124.6.22/1.7

9 May 1945

SUBJECT: Epuration proceedings, disciplinary proceedings and administrative proceedings for dismissal from service.

TO : THEIR EXCELLENCIES THE MINISTERS

R.E. THE UNDERSECRETARY OF STATE FOR THE PRESS, STAGE AND TOURISM
and for information

THE HIGH COMMISSIONER FOR SANCTIONS AGAINST ESCION

Many of the factors which, under the present legislation, require reference to epuration proceedings, could serve as grounds for a normal disciplinary proceedings. For example, the concept of bad practice contemplated by art 13, first para, of the D.L. 159 of 27 July 1944, covers many of the factors contemplated by the law for the purpose of disciplinary measures. The same may be said of the 'illegal conduct' (art 36, letter e, RD 2960 of 30 December 1923) of violations showing 'a reprehensible conduct, lack of rectitude, or tolerance of serious abuse', of 'detriment caused to the interests of the State or of private persons', of 'offence to the dignity of the administration', of 'the use of one's position for personal gain' (art. 62, letters c, e, f, g and h of the same decree). A similar connection may be found between art 17 of Bill 159 of 27 July 1944, which prescribes the dismissal from service for those who adhered to the fascist government after 6 September, and art 64, letter f, of the juridical status, which prescribes the removal from office for breaking the oath either by one or more violations of regulations or by holding an attitude fundamentally in contrast with the oath.

Under other circumstances the same facts punishable under the epuration law, could justify an administrative order of removal from service in accordance with arts 51 and 52 of the RD No 2960 of 30 December 1923.

Clearly, ^{when} a case has been referred to epuration proceedings, a separate disciplinary proceeding cannot be taken. Nor can proceedings be taken through administrative channels for dismissal from service.

But, if the facts which could call for epuration proceedings and which at the same time constitute violations of regulations or reasons for removal from service through administrative channels, occur after the expiry of the time limits for reference to epuration proceedings, the department concerned must examine the situation of the personnel to whom the facts refer, for the purpose of taking the above-mentioned disciplinary or administrative measures.

Many of the factors which, under the present legislation, require reference to epuration proceedings, could serve as grounds for a normal disciplinary proceedings. For example, the concept of bad practice contemplated by art 13, first para. of the D.L. 259 of 21 July 1944, covers many of the factors contemplated by the law for the purpose of disciplinary measures. The same may be said of the illegal conduct (art 18, letter e, RD 2960 of 30 December 1923) of violations showing a reprehensible conduct, lack of rectitude, or tolerance of serious abuse, of detriment caused to the interests of the State or of private persons, of offence to the dignity of the Administration, of the use of one's position for personal gain (art. 62, letters c, v, f, g and h of the same decree). A similar connection may be found between art 17 of D.L. 159 of 27 July 1944, which prescribes the dismissal from service for those who adhered to the fascist government after 8 September, and art 64, letter f, of the juridical status, which prescribes the removal from office for breaking the oath either by one or more violations of regulations or by holding an attitude fundamentally in contrast with the oath.

Under other circumstances the same facts punishable under the epuration law, could justify an administrative order of removal from service in accordance with arts 51 and 52 of the RD No 2960 of 30 December 1923.

Clearly, ^{when} ~~one~~ a case has been referred to epuration proceedings, a separate disciplinary proceeding cannot be taken. Nor can proceedings be taken through administrative channels for dismissal from service.

But, if the facts which could call for epuration proceedings and which at the same time constitute violations of regulations or reasons for removal from service through administrative channels, occur after the expiry of the time limits for reference to epuration proceedings, the department concerned must examine the situation of the personnel to whom the facts refer, for the purpose of taking the above-mentioned disciplinary or administrative measures.

The same applies to epuration proceedings which are prevented from being concluded with a decision as a result of inobservance of time limits or form. In such cases, and especially when a decision of first instance against the employees has been given (and later revoked by the Central Commission because of error in the procedure), the Departments are required to examine all evidence issued during the epuration proceedings or in their possession for the purpose of taking disciplinary proceedings or proceedings for the removal from service, according to the case.

It is, in fact, absolutely necessary that a final decision be given on the employees' position, or otherwise the decision that he is guilty would remain, even if not a final decision.

You are therefore asked kindly to give the necessary instructions to the dependant offices and also to the bodies and concerns subject to epuration under the present regulations.

Altre volte i medesimi fatti punibili, in base al re mo-

te sull'epurazione, potrebbero giustificare un provvedimento amministrativo di dispensa dal servizio ai sensi dell'art. 51 e 52 del R.D. 30 dicembre 1923, n. 2960.

L'avvenuto deferimento al giudizio di epurazione impedisce, come è ovvio, la istituzione di distinto procedimento disciplinare; né consente di promuovere il procedimento per la dispensa dal servizio in via amministrativa.

Quora però i fatti che potrebbero dar luogo al giudizio di epurazione e che contemporaneamente costituiscono infrazioni disciplinari o potivo di dispensa amministrativa dal servizio avvengono dopo la scadenza dei termini per il deferimento al giudizio di epurazione, la amministrazione interessata, dovranno prendere in esame la situazione del personale a cui i fatti si riferiscono, ai fini dell'eventuale adozione dei provvedimenti disciplinari o amministrativi sopra menzionati.

Lo stesso è a dirsi quando il procedimento di epurazione già iniziato non si è concluso con un giudizio di merito, per la prescrizione derivante da inosservanza di termini o di forma. In tali casi, e soprattutto quando nei giudizi stessi già intervenuta una decisione di primo grado contraria all'impiegato (poi annullata dalla Commissione Centrale per vizio di procedura), le Amministrazioni hanno l'obbligo di esaminare senz'altro tutti gli elementi emessi nel corso del giudizio di epurazione o in loro possesso ai fini di promuovere, a seconda dei casi, il procedimento disciplinare e quello per la dispensa dal servizio. Costituisce, infatti, un'imperiosa esigenza la definizione della posizione dell'impiegato, a cui carico altrimenti resterebbe l'onere di colpevolizzarlo, sia pure non definitivo.

SUBJECT: Expiration Returns.

TO: See Distribution.

1 Please prepare Cols (a) and (b) of the returns for the period ending 30 May and (when received) 15 Aug and calculate therefrom how long it will take before all hearings will have been completed.

2 The time limits for completion of hearings as far part of the personnel 15 Jul and for the remainder 15 Aug.

3 If you are not satisfied that all hearings will be completed by 15 Aug, you will please arrange for a conference with those concerned and obtain their proposals for ensuring that all cases are completed in time.

4 You will bear in mind that Col and Aug are regarded as vacation periods in which you must ensure that Commissioners do not take vacation until their work is completed.

5 You will bear in mind also that under the Articles Terms the IAC on Government have undertaken to remove fascists from office and that this is a matter on which the Allies have a right to insist.

6 Where you have reason to believe that hearings will not be completed in time you will report the reasons to this Section.

My Dear Poland.

I throw up both hands. My Statute lawyer assures me that if you issue your amendment to note 2 you will get precisely what you got last time and didn't want.

The decision of the first Commission as adjusted by Appeals, or, bearing in mind the adjustments by Appeals, will be much as the results of Appeals, largely, because columns (h) (i) & (k) follow Appeals-Lodged & Heard.

I propose to tell them what is wanted — any further amendments and they would operate me.

Yours,

Dear General Zislenko,

I am enclosing herewith a Progress Report on Defection showing total work performed by Defection Commissions up to 28 Feb/69.

The figures shown in the report represent the number of officers and men referred to Defection Commissions by Military Enquiry Boards who are examining the behaviour of All ranks of the Italian Army before and after the Armistice.

With regard to names of officers implicated under Defection Act I am afraid that the only information available is that Marshall BASTICO and Gen. BAISTROCHI have both been temporarily suspended from office pending the hearing of an appeal lodged by them.

No other data is yet available as no appeals lodged by either accused or by High Commissioner for Expiration have yet been heard.

For your information, Defection Progress Reports are submitted fortnightly to Civil Affairs Sect. M.Q. A.C. showing situation as at 15 and 30 of each month.

Civil Affairs Sect. M.Q. A.C. receive and collate all Progress Reports from other Ministries through the various Sub Commissions. It also has direct contact with the High Commissioner for Expiration and would undoubtedly be in a position to furnish you with any further details you may require.

Yours sincerely

A. B. Manning

TO: Major General L. BROWNING
Land Forces Sub-commission / M.M.I.A./, AC.

Dear General Browning,

Being interested in the progress of Defascism in the ranks of the Italian Army, I would greatly appreciate if I could get acquainted with the Defascism Reports, which have been received by the Land Forces Sub-commission from the Italian Ministry of War on the 4th and 19th of January.

I would also appreciate it if accordance with a conversation of Major Byatt with Major Leonidov, the promised data on the epuration, which had already taken place among the different ranks of the Italian Army would be sent to me.

Thanking you in anticipation

I remain,

Sincerely Yours

ALEXEI KISLENKO

REF: See Distribution

1 Every effort will be made to ensure that the fortnightly reports reach this Section by the 5th and 10th of every month at the latest. This allows Ministries five days to compile their report and Sub-Commissions three days to forward the reports they receive.

2 This Section has to compile its monthly report by the 15th and unless the returns are complete by the 8th this Section cannot compile its return.

3 Further, these reports are of very little value unless they are promptly received. The law as it stands at present is that the last day for initiation proceedings for offences of the General Administration is the 15th Mar and as at 31 Jan only 28 % had been investigated (all returns not yet in) it is obvious that an extension of time is necessary.

4 It is probable that the present time limit will be extended by another month - but that is only two fortnightly periods. If progress over such a short time is to be watched information must reach this Section quickly. No effective action is possible either with Ministries by Sub-Comm or with the Government by this Section if we are not in possession of up-to-date information.

RE: JMWAVE Report
1. See Distribution

1. The JMWAVE Report Form has been slightly altered. Copies of the revised forms (in Italian and English) can be obtained from the JMWAVE Form Library Section.
2. With the exception of the introduction of columns (1 & 2) the alterations are in detail with the number of classification points of difficulty and the instructions of the rest of the form have been rewritten for the same purpose.
3. Paragraph 1 & 2 will be entered only the content of the Court of Appeal which EXCLUDES the previous findings of the Court of Appeal. The object of this is so that the total number of divisions may be obtained by subtracting Col (1) from (2) and adding (3).
4. The new form will be taken into use forthwith. Returns already received on the old form will be accepted, but on return for the new will be made on the old form either by hand or by machine.

Dear Mr. Hopkinson,

Herewith Expiration Statistics to the 30th November - a copy of which Brig. Upjohn took with him to London which will give you the information you desire. In addition at a recent meeting with HOOGLANDER he informed Brig. Upjohn that action under HLL 257 providing for the Rapid Expiration of Senior Officials (down to grade IV) had been completed and officers for trial had been suspended in 8 out of the 13 Ministries. In the other five proceedings had all been initiated, but all officers for trial had not actually been suspended though this was expected to take place shortly, the delay had been due to transport difficulties in collecting information, etc.

I trust that this provides all the information you require.

Mr. H. L. A. HOPKINSON,
Vice President,
Political Section.

MEMORANDUM
FOR THE RECORD
SUBJECT: DEFENSIBLE
ADMINISTRATIVE SECTION

12/10/43

26 Dec 44

SUBJECT: DEFENSIBLE

TO: ALL DEFENSE AND SECURITY

Reference is made to 313/172/24 of 15 Aug and the reforms outlined therein.

1. Endeavour has been made to obtain from the Italian Government a statement of the clauses of bodies which will be defended locally and those which will be defendable centrally.
2. Appended below is a summary showing the type of bodies defendable provincially. At present, however, is a list showing types of concerns which are defendable centrally. It is necessary therefore before finally deciding that a body is defendable centrally in fact to defendable to consult the Appendix.

With regard to the reforms, the corresponding clauses will be completed.

L.G. (Local Government)
Health (Health Dept. Welf. Activities).
Edu.

Agrie.
Works.

The sixth space will be left blank at present.

3. No returns can be made until Commission commences to function. Pressure is being brought on the Italian Government to complete the Commission. Until Commission commences to function regions will in lieu of the present report "the Commission functioning".

3. appended below is a summary showing the type of bodies defendable provincially. At present, the summary is a list showing types of committees which are nevertheless defendable centrally. It is necessary therefore before finally deciding that a body, apparently indefensible locally is in fact so defendable to consult the Appendix.

4. With regard to the reforms, the corresponding changes will be completed.

1.1. (Local Government)
Health (Municipal Health, Well, Sanitation),
Edu.,
Agric.
Works.

The state power will be left alone at present.

5. No return can be made until Commissions commence to function. Pressure is being brought on the Italian Government to complete the Commissions. Until Commissions commence to function regions will in lieu of the reform about the Commission functioning.

Dear Col Ames,

- 1 The enclosed papers dealing with the progress of defascising, have reached this office through HQAD.
- 2 The desired procedure does not seem to be understood clearly. I agree that it is very difficult to understand from the desired ^{the} is defascisable by the Ministerial Commission and who by the Provincial Commission but paras 5 to 6 of 313/167 CA of 4 Aug endeavoured to make this plainer.
- 3 The criterion is the body or service to which the man belongs. If he is a Government servant it does not matter in how lowly a capacity or where he is serving he is defascisable centrally by the Ministerial Commission and Regional officers are not concerned except as mentioned in para 6 of 313/167 CA. No returns whatever are required but your Divisional officers must keep the appropriate Sub-Commission in the picture.
- 4 Exactly the same applies in the case of all concerns (para 10 of 313/167 CA which are of National importance. No returns are required but Divisional officers must keep Sub-Commissions in the picture.
- 5 The only persons who are defascisable provincially are those who belong to bodies which are themselves purely local and not part of a larger service the Ufficio Sanitario; and E.C.A. are examples.
- 6 With these bodies which are dealt with by paras 7 and 8 of 313/167 CA. Regional officers have definite concern. The instruction as to the returns required which is referred to in para 8 was sent out under 313/172 CA of 18 Aug. All that this HQ requires is one proforma for the whole region aggregating your Provincial returns.
- 7 The heading to be entered against the word classes will be Ufficio Sanitario, E.C.A. and such other bodies as are controlled provincially or locally; against number will be the total numbers of such bodies in the region (or province in the case of a return to you) against cleared will be the number of such bodies that have been cleared. No names or other particulars of persons defascisable provincially are required to be forwarded to Sub-Commission. The whole responsibility for seeing that Provincial defascising works is the Regional Commissioners.

8 Summarising.

a As regards central defascising HQ requires no returns from Regions at all. As regards Sub-Commissions in the picture.

- 2 -

- b As regards Provincial defascising HQ (Administrative Section) requires one single form only and Sub-Commissions are not interested.
- 9 Perhaps you would like to reconsider the papers you submitted in the light of this explanation and they are returned for that purpose.

Yours sincerely,
