one

1-

The last one is within 6 or 8 days of the first payment, but it does not really affect the statistical figures and is not an "error" as far as they are concerned. The 12 days the figures are included, it includes the area of the station when papers were forwarded to the ministry. It is included only the papers which have been written. These which are under investigation as well as the 12 days on the return of all and against a new system for doing others in the military code book as in the operation communication code book.

SUBJECT: Expiration Returns - 30 Oct 45.

TO: Public Safety S/C

- 1 The attention of the Expiration Commission concerned should be drawn to the comparison between the present col (e) as compared with col (d) as at 31 Jul. The time limit for proceedings is three months; it follows therefore that every case in col (d) three months ago should be completed now, and as all cases do not take so long as three months, the total of col (e) should be still larger by the number of cases which have taken less than three months. You will ask for an explanation of why col (e) is so far short of its proper figure.
- 2 You will please instruct all concerned that in view of DL 702 having come into operation, returns from 30 Nov inclusive will contain only figures relating to grades I to VII and the comparable grades of civilians expirable under that Decree and that the column lesser punishments will no longer be used.
Below the form and not included in the total will be a line "other grades" as to which only cols d, e, f, g, h, i, will be completed.
- 3 You will realise that the explanations for which you are asking may lie in the fact that grades 8 and 9 are no longer liable normally to expiration and that in anticipation of this becoming law these grades have deliberately been allowed to drop behind. Your enquiries cannot be phrased forcefully. The return for 30 Nov on the new line will show this. *the field was to this*

- 1 Col (e). The rate of progress is still considered to be low. It is appreciated that a large number of cases have to be decided provincially but even allowing for these and the extra time which they are allowed the rate of progress is too low.
- 2 All Sub-Commissions should compare col (e) of 30 Sep with col (d) of 30 June. All cases have to be completed within 3 months of their initiation. All cases given as initiated on the 30 June should by now be completed. As this is an outer limit and many cases are no doubt completed in less than the maximum time it follows that col (e) now should be substantially greater than col (d) at 30 June. Where it is less an explanation should be asked for. If the difference is large and the explanation is not considered satisfactory, but no otherwise, the facts will be reported to this Section.

SUBJECT : Expiration Returns

TO : 1. Geo Distribution

1. Since 15 May most of the cases and the whole of Emilia has been added to the territory under Italian Administration. This should be reflected in col 5 of the return. Only two sub-commissions show any appreciable increase one substantiated the other moderate. All sub-commissions receiving returns in which col 6 has not appreciably increased will check with the reporting body that this is correct.

2. The rate at which proceedings are being heard is slightly improved but is still too slow. Sub-Commissions must bear in mind that all unheard cases not in col 3 must be concluded before 15 Nov. Sub-Commissions by checking the rate at which cases have been heard over the last four weeks can see that (in most cases) the cases will not be concluded in time unless the rate is improved and in some cases very considerably improved.

3. All Sub-Commissions will compare col 4 of the return of 15 May with col 4 of the return of 15 Aug.

The law allows 3 months for hearing. In all cases the number of proceedings concluded is smaller than the number of cases initiated on 15 May. All Sub-Commissions will ask for an explanation of the difference and forward same to this Section.

4. Appeals have at last started to move substantially. The number of appeals heard has not reached the number of appeals lodged on 15 Jan. Sub-Commissions whose appeals 'heard' are lower than the number lodged on that date hearings may be said to be in arrears. The time for a case to be returned is at present 7 months. The AMC has intimated that the number of months is to be increased.

2. The rate at which proceedings are being heard is slightly improved but is still too slow. Sub-Commissioners must bear in mind that all unknown cases now in col d MUST be concluded before 15 Nov. Sub-Commissioners by checking the rate at which cases have been heard over the last four weeks can see that (in most cases) the rates will not be concluded in time unless the rate is improved and in some cases very considerably improved.
3. All Sub-Commissioners will compare col d of the return of 15 May with col e of the return of 15 Aug.

- 2 The general date for the initiation of proceedings for all other personnel in territory under Italian Administration on 15 Feb is 15 Aug.
- 3 As regards the former please obtain from all your Commissions confirmation that all cases which should have been finished have in fact concluded and that the difference between Cols d and e includes only cases of personnel not within para 1.
- 4 As regards the latter please obtain from the personnel branch of the Ministry, Department or concern an assurance that the difference between Cols b and c refers only to personnel in territory which was NOT under Italian Administration on 15 Feb and that all other cases have been considered.
- 5 As to your expiration return. The number of cases heard in the last fortnight was 14, the number remaining to be heard is 335. At this rate the proceedings are not likely to be concluded until Sep 46. The progress is considered to be most unsatisfactory.
- 6 Your attention has frequently been drawn to the unsatisfactory progress which is being achieved. Will you please report the reasons why your commissions fail to improve, so that the matter can be taken up on a higher level.

with Mrs. Bellei of the PS S/C as interpreter.

2. The Italian representatives were told that epuration proceedings in their divisions were far behind schedule and improvements must be made if matters were to be completed by 15 August 45.

3. They offered many reasons why proceedings had been delayed most of which were operational but brought out the significant fact that certain categories in their total list were not to be epurated by orders from higher authority, in that they were temporary and would be later retired as many of their kind already had been.

4. They pointed out that delays were frequent in epurating their list as all personnel, frequently far distant from Rome, were handled through Rome committees and any discrepancies in papers, on investigations required by the committees, necessitated great delays in transmittal from sources. Also that their office personnel was not sufficient to speed up the proceedings.

5. Each of them promised to revise their lists

16 MAR....

TO : Civil Affairs Section

1. With reference to DF/6B/CA dated 9 March, 1945.

2. Enquiries have been made of the Examining and Epuration Committees of the Ministry of Interior, Fire Service - Agents of Public Security, and Ministry of War, CO.RR., and the following observation are forwarded for your information.

3. (a) Fire Service: Examining Committee

The work of this Committee for the month of February shows approximately 10% of cases examined. (This shows the best results of the Committees under review). Up to the beginning of this year, the work of the Committee was not so well organized as now, and although there have been two whole months in which improved results could have been shown, difficulties of transport and communications have been experienced, and preliminary enquiries take longer. An assurance has been given that the work will progress quicker from now onward.

(b) Epuration Committee

This Committee meets twice weekly and disposes of all cases presented to them. They comment that their work is delayed by waiting for the papers of referred cases, after they have been dealt with by the Examining Committee. The papers have to go from the Examining Committee through the High Commission for Epuration, then to the Fire Service Epuration Committee. Three cases were shown where it took one month for the papers to reach the Fire Epuration Committee after being dealt with by the Examining Committee.

-2-

4. (a) Agents of Public Security - Examining Committee.

The progress of work of this Committee shows only 2%, but it is dealing with a larger number of cases, which naturally involves more correspondence and clerical work. They state that now, that a substantial amount of preliminary detail has been completed, the progress will improve.

(b) Euration Committee

The President of this Committee is very concerned with his lack of work! When told that at the present rate, his work would not be completed for about 2 years, he replied that 4 years would be nearer the mark. He states that he has discussed this matter with the Officials of the High Commission for Euration, and represented that there is too much delay in his receipt of cases to work on, after they have been referred by the Examining Committee to the High Commission. The only excuse offered by the High Commission is that they have a total of some 12,000 cases, of all branches of the administration, to deal with.

5. (a) CC. RR. - Examining Committee

Although the compilation of the returns has been carefully explained, it was found that this Committee were not doing themselves justice on the Returns, and that in some instances cases had been examined and completed, but were not being included on the fortnightly returns. These are cases in which, after examination, there was no evidence to justify the cases being referred to the Euration Committee. The papers were being held in abeyance until the end of April, in case a denunciation was received up to that date. The figures in Col. C should therefore show an appreciable increase in future.

488

(b) Euration Committee

The President of this Committee was very voluble on the delay he is experiencing in his work. His chief complaint was on lack of transport and communications. He particularly wanted to be provided with transport and permission to enter Army areas to make enquiries on the spot, interviewing witnesses, etc, but when told that this was impracticable, and that enquiries could be made

-3-

by local officers, he replied that such correspondence is the cause of the delay being experienced.

Observations

6. (a) It would appear that there is too much delay, perhaps not necessarily deliberate obstruction having regard to the number (12,000 is quoted) of cases to be dealt with, in the office of the High Commission for Epuration, (ie) between the Examining Committees and the Epuration Committees.

(b) Each case normally involves considerable enquiries being made, which results in correspondence between the various Committees with Prefects, through AMG channels in some cases, and enquiries by CC.RR. and Questori agents. This is further hampered by current transfers of officials, loss or destruction of records, slowness of communications, and perhaps in some measure by the inherent "domani" complex of the Italian character. The desire to show complete judicial correctness and to avoid any miscarriage of justice was particularly noticeable in the CC.RR. Epuration Committee. This is understandable when it is remembered that an official's career is at stake, and in a country where denouncing is so easy and frequent, but perhaps not always actuated by the best motives.

(c) All the Officials interviewed appear keen and anxious to get on with their work, but each was as anxious that the difficulties they are experiencing should be brought to the notice of AG, HQ., and they gave the assurance that they are working as fast as possible.

(d) It is felt that in spite of the excuses put forward, a little better progress will be made in future, as the result of the recent interviews. This S/C keeps in constant contact with the various Committees with which it is concerned, and gives whatever assistance, and advice possible. 87

- 1 The following is noticed on comparison of your defacing return for Feb with that for Jan.
- 2 That during the month (col a) the scrutiny of the papers of only 56 was completed, an average of only two per day. At this rate of progress it would take a further 10 months to complete the scrutiny of personnel shown in col b. This rate of progress is not considered satisfactory. Will you please ascertain why so little progress was made and obtain an assurance that considerably greater expedition will be shown in future.
- 3 That during the month (col a) only 13 cases were heard by the Separation Commissions. This also is considered quite unsatisfactory. At this rate it would take over 3 years to dispose of the cases. Will you please obtain an assurance that the rate will be considerably speeded up.
