OGGETTO Epuration - fortnightly returns.

TO TN AND SHIPPING SUB COMMISSION

ROME

Ref. is to your AC/90/Tn 4 dated Nov.26 1945

1) No remarkable changes at column C; as the numbers there shown are equal to those on column B covering the personnel of all the ranks within the Provinces handed over to the Italian Government Administration.

2) Refering to para 2, we point out that 3 of the 8 instances (that would result as pending through a comparison between the returns as of July 30, and Nov.15 -1945) are shown as settled on the return of Nov.30. The other 5 instances have been adjourned because of complications arisen during the inquiries. Therefore hard investigations have been carried out, even out of residence. The delay was caused because of the difficulties of the communications . We can assure that the settlement of said instances will be speeded up.

3) As it was already stated, this Ministry have no power to intervene on the Appeal Commissions. We point out, however, that the new L. Legislative Decree n.702 dated Nov.9 1945, has substituded the Central

./.

Commission in order to speed up the epuration proceedings -by a Special Commission of the State Council that judge in Advise Bureau. 4) We Have already carried out what requested by para 4) by returns dated Nov.30 -1945

SUBJECT : Epuration Returns - 30 Oct 45.

TO : Transportation S/O

1 Please draw the attention of those concerned to the fact that it is now 6 weeks since there has been any or any substantial change in col (c).

2 The attention of the Epuration Commissions concerned should be drawn to the comparison between the present col (e) as compared with col (d) as at 31 Jul. The time limit for proceedings is three months; it follows therefore that every case in col (d) three months ago should be completed now, and as all cases do not take so long as three months, the total of col (e) should be still larger by the number of cases which have taken less than three months. You will ask for an explanation of why col (e) is so far short of its proper figure.

3 Appeals lodged on or about 15 Feb are still in process of being heard. If col (g) is markedly less than col (f) of 15 Feb please ask the Ministry to ascertain when the appeals may be expected to be heard.

4 You will please instruct all concerned that in view of DL 702 having come into operation, returns from 30 Nov inclusive will contain only figures relating to grades I to VII and the comparable grades of civilians epuratable under that Decree and that the column lesser punishments will no longer be used. Below the form and not included in the total will be a line "other grades" as to which only cols d, e, f, g, h, i will be completed.

5 You will realise that the explanations for which you are asking may lie in the fact that grades 8 and 9 are no longer liable normally to Epuration and that in anticipation of this becoming law these grades have deliberately been allowed to drop behind. Your enquiries cannot be phrased forcefully. The return for 30 Nov on the new lines will show this.

1. Col (e). The rate of progress is still considered to be low.

2. All Sub-Commissions should compare col (e) of 30 Sep with col (d) of 30 June. All cases have to be completed within 3 months of their initiation. All cases shown as initiated on the 30 June should by now be completed. As this is an outer limit and many cases are no doubt completed in less than the maximum time it follows that col (e) now should be substantially greater than col (d) at 30 June. Where it is less an explanation should be asked for. If the difference is large and the explanation is not considered satisfactory, but not otherwise, the facts will be reported to this Section.

1. The handing over of the Tuscany and Emilia to Italian Administration does not appear to have had much effect on col 5.

Unless you are satisfied that the additional personnel has been fully included, you will please take the matter up further with the Ministry or other Employer.

2. The number of cases heard (col 6) is deplorably low. You will please explain to the Hearing Commissions that priority must be given to the senior grades and convey tactfully to those who are too inactive that you have been informed that this question proposes to report insufficiently active Commissions to the High Commissioner as obstructive and that you hope it will not be necessary to include them in any such report.

3. Appeals have now reached the stage of about 30 Jan (1 months from filing). All cases not done by that date should by now be heard. Sub-Commissions should compare the appeals heard col with the appeals lodged col of 30 Jan to see whether their cases are in arrears.

TO : Sub Distribution

1 Since 10 May most of Tuscany and the whole of Emilia has been added to the territory under Italian Administration. This should be reflected in col b of the return. Only two sub-commissions show any appreciable increase one substantial the other moderate. All Sub-Commissions receiving returns in which col b has not appreciably increased will check with the reporting body that this is correct.

2 The rate at which proceedings are being heard is slightly improved but is still too slow. Sub-Commissions must bear in mind that all unheard cases now in col d MUST be concluded before 15 Nov. Sub-Commissions by checking the rate at which cases have been heard over the last four weeks can see that (in most cases) the cases will not be concluded in time unless the rate is improved and in some cases very considerably improved.

3 All Sub-Commissions will compare col d of the return of 15 May with col e of the return of 15 Aug.

The law allows 3 months for hearing. In all cases the number of proceedings concluded is smaller than the number of cases initiated on 15 May. All Sub-Commissions will ask for an explanation of the difference and forward same to this Section.

4 Appeals have at last started to move substantially. The number of appeals heard has now reached the number of appeals lodged on 15 Jun. Sub-Commissions whose appeals 'heard' are lower than the number lodged on that date hearings may be said to be in arrear. The time for a case to be reached is at present 7 months. The AHC has intimated that the number of courts is to be increased.

MINISTRY OF TRANSPORTATION
Cabinet

Rome, 14th April 1945

Ref. PM/IX/365.5/4069

SUBJECT : Fortnightly returns re Epuration Comaisaions' work.

TO : Major Fletcher,
Tn.S.C., A.C.

Reference your letter DF/6.19/C.A dated 31st March 45.

The fifteen cases of officials of the first railway grade not yet decided on the 15th March 1945, due to the long and difficult investigations to carry out to arrive at a right decision, are nearly completely examined and shall be completed within the fixed time and according to the postponement of same.

According to the instructions of D.L.L. dd. 27th July 1944 No. 159, this Ministry, though giving priority and considering with special care the cases concerning officials of senior grades, has had to investigate the position of all the staff, and refer to the Epuration Commissions all the cases which are to be tried for screening.

The figures concerning said staff are obviously higher than the figures concerning the officials of the first three grades, as the number of low grade employees is far bigger than the number of senior grade officials in the State Railways classification.

The 5.600 cases to be investigated - according to the returns in question - are also nearly completed, bearing in mind that for the staff of the Central Office the fixed time for referments to epuration judgments expires by the 15th Apr. whilst for the Branch offices it has been postponed to 15th May. The work will be completed within the fixed date.

For the decisions of the 370 cases resulting from the deduction of col e) from d), the Commissions are awaiting information and documents from Bodies and Authorities which, due to the lack of communications, cannot carry out their investigation and transmit the information requested as quickly as required.

We are anyhow urging for said information be sent, and the Commissions will decide the cases still pending as soon as same information arrive, in order to complete the proceedings at hand the soonest possible.

Besides, in order to hasten the proceeding of the epuration work new Sub-Commissions have been appointed, as already advised, c/o the various State Railways Divisions, These Divisions are to investigate on the spot the position of the local staff in order to avoid wasting of time caused by sending the papers to Rome.

We therefore assure you that this Ministry is carefully looking after the proceeding of all the epuration work so that same be completed as soon as possible and however not after the fixed date.

for the Minister
the Chief of the Cabinet

The following comments are made upon your report.

1 As to officials of grades 1 - 4

a) 15 cases remain to be decided please ascertain whether all were concluded in time or an extension of time was granted.

2 As to the four reports generally (as aggregated)

a) from the heavy reduction of numbers in all columns it would appear that the Ministry and the Commissions have been considering large numbers of low grade officials instead of getting on first only with senior officers please get them to concentrate on the higher grades, the little men is of very little importance.

b) Comparing cols b and c it appears that there are still 5,600 cases uninvestigated and only 15 days to go. Please ascertain how it is proposed to deal with this number in time.

c) A comparision of cols d and e show that 370 cases still remain to be decided.

1 The following is noticed on comparison of your defascising return for Feb with that for Jan.

2 That during the month (col c) the papers of about 500 employees were scrutinised. At this rate it will require about 20 months to complete the scrutiny of the remaining employees shewn in col b. This rate of progress cannot be considered satisfactory. Will you please ascertain why so little progress was made and obtain assurances that considerable greater expedition will be shewn.

3 That during the month 369 cases were concluded before the Exemption Commissions (col e). The rate shows a satisfactory increase but even so it will at this rate take 7½ months to complete the cases now in col d. Without allowing for the further cases which will be referred as the scrutining of the remaining employees is completed. An increase of the rate will obviously be necessary.

SUBJECT : Defunciam - Fortnightly return.

TO : Transportation Sub-Commission.

1 Reference your Tel/AC/Tn/0/90/123 of 18 Dec and the 12 forms attached thereto. Your attention is drawn to paras 4 and 6 of VF/6.19/AS of 5 Sep. The only returns required by this Section are two aggregated returns. It is your responsibility to watch the various departments; ours only to watch the Ministry and its dependant organisations as a whole.

2 Some of the returns made by the Ministries are not understood. Column b should show the total number of employees. If the returns are to be taken as true, it would indicate that in some case every single employee is suspended. Another point which is to some extent surprising is that the cases of suspensions so frequently exceed those whose preliminary investigations are completed. In many cases those suspended are many times as great as the cases investigated. This of course is possible, but one would have thought the logical and fair way of dealing with cases was to investigate them and, if investigation showed that there was a prima facie case to go to trial, to suspend the person pending trial. Not to suspend him without even investigating his case.

3 It is considered that wherever the number of persons suspended exceeds those investigated, pressure should be brought on the investigating body to complete those investigations quickly so that the cases of suspended persons get to trial quickly and their cases are decided. It is not right to keep persons suspended for a long time.

General Inspectorate for Civil Motorization and for transports in concession.

Commission B - Purge of the personnel belonging to Enterprises operating transports in concession and public services of transport.

Ref. n. 165

SUBJECT: Prospect showing how the defascistization proceeds: 1st fortnight of October.

To: The Cabinet of the Minister

Also for the first fortnight of October this Commission is not yet in a position to forward above prospect because, as already pointed out, most of the Enterprises whose personnel must be examinated are located far from Rome.

For instance, we are not yet in a position to establish the total number of the persons liable to be purged, whereof column "b" of above prospect, because we did not receive yet the informations requested to the various offices of this Inspectorate, concerning the officials of the Enterprises located in Southern Italy and in Sardinia (belonging to this Commission), whose position can be compared with that of the State's officials having a rank included between 1st and 5th category. Nor did we receive from above offices the informations concerning inferious employees for whom such elements have already been accertained that they can be considered as liable of purge.

As already informed, this Commission, although not entitled to start any procedure and to carry-out necessary investigations (as this Commission's powers are limited to the integrative and auxiliary inquiry, according to art. 18 of D.L.L. 27.7.1944 n. 159), in order to save time and to predispose some material enabling it to start working, already examinated managers and internal factory-committees of all enterprises having their main offices either in Rome or in Naples. The undersigned and General Inspectorate's representative Commissioner Dott. DI CARLO personally went to Naples last week in order to prepare a first list of the personnel liable of purge; the inquiries against some hundred managers and employees of above mentioned Enterprises have already been initiated.

[illegible] yet, and some time

For instance, we are not yet in a position to establish the total number of the persons liable to be purged, whereof column "b" of above prospect, because we did not receive yet the informations requested to the various offices of this Inspectorate, concerning the officials of the Enterprises located in Southern Italy and in Sardinia (belonging to this Commission), whose position can be compared with that of the State's officials having a rank included between 1st and 5th category. Nor did we receive from above offices the informations concerning inferious employees for whom such elements have already been ascertained that they can be considered as liable of purge.

As already informed, this Commission, although not entitled to start any procedure and to carry-out necessary investigations (as this Commission's powers are limited to the integrative and auxiliary inquiry, according to art. 16 of D. L. L. 27.7.944 n. 159), in order to save time and to predispose some material enabling it to start working, already examinated managers and internal factory-committees of all enterprises having their main offices either in Rome or in Naples. The undersigned and General Inspectorate's representative Commissioner Dott. DI NAURO personally went to Naples last week in order to prepare a first list of the personnel liable of purge; the inquiries against some hundred managers and employees of above mentioned Enterprises have already been initiated.

But above inquiries are not completed, yet, and some time will still be required, as many elements must be collected in localities far from Rome.

We are not therefore yet in a position to give any date for columns c) and d) of above mentioned prospect and even less, a consequently, for following columns.

The President
Sgd VITALI

Commission B - Purge of the personnel belonging to Enterprises operating transports in concession and public services of transport.

Ref. n. 165

SUBJECT: Prospect showing how the defascistization proceeds; 1st fortnight of October.

To: The Cabinet of the Minister

Also for the first fortnight of October this Commission is not yet in a position to forward above prospect because, as already pointed out, most of the Enterprises whose personnel must be examinated are located far from Rome.

For instance, we are not yet in a position to establish the total number of the persons liable to be purged, whereof column "b" of above prospect, because we did not receive yet the informations requested to the various offices of this Inspectorate, concerning the officials of the Enterprises located in Southern Italy and in Sardinia (belonging to this Commission), whose position can be compared with that of the State's officials having a rank included between 1st and 6th cathegory. Nor did we receive from above offices the informations concerning inferious employees for whom such elements have already been accertained that they can be considered as liable of purge.

As already informed, this Commission, although not entitled to start any procedure and to carry-out necessary investigations (as this Commission's powers are limited to the integrative and auxiliary inquiry, according to art. 18 of D.L.L. 27.7.1944 n. 159), in order to save time and to predispose some material enabling it to start working, already examinated managers and internal factory-committees of all enterprises having their main offices either in Rome or in Naples. The undersigned and General Inspectorate's representative Commissioner Dott. DI MAURO personally went to Naples last week in order to prepare a first list of the personnel liable of purge; the inquiries against some hundred managers and employees of above mentioned Enterprises have already been initiated.

But above inquiries are not completed yet, and some time

Declassified E.O. 12356 Section 3.3/NND No. 785016

are located far from Rome.

For instance, we are not yet in a position to establish the total number of the persons liable to be purged, whereof column "b" of above prospect, because we did not receive yet the informations requested to the various offices of this Inspectorate, concerning the officials of the Enterprises located in Southern Italy and in Sardinia (belonging to this Commission), whose position can be compared with that of the State's officials having a rank included between 1st and 6th category. Nor did we receive from above offices the informations concerning inferious employees for whom such elements have already been ascertained that they can be considered as liable of purge.

As already informed, this Commission, although not entitled to start any procedure and to carry-out necessary investigations (as this Commission's powers are limited to the integrative and auxiliary inquiry, according to art. 18 of D.L.L. 27.7.1944 n. 159), in order to save time and to predispose some material enabling it to start working, already examinated managers and internal factory-committees of all enterprises having their main offices either in Rome or in Naples. The undersigned and General Inspectorate's representative Commissioner Dott. DI MAURO personally went to Naples last week in order to prepare a first list of the personnel liable of purge; the inquiries against some hundred managers and employees of above mentioned Enterprises have already been initiated.

But above inquiries are not completed, yet, and some time will still be required, as many elements must be collected in localities far from Rome.

We are not therefore yet in a position to give any date for columns c) and d) of above mentioned prospect and even less, x consequently, for following columns.
