ADMINISTRATIVE INSTRUCTIONS

14 June 1945

MEMOR

Conforming to Operation General Order No. 35)

(5)

Several important questions concerning the interpretation and application of various provisions of order 35 have been presented by provincial officers and provincial operation commissions. Some of these have been covered by previous directives and instructions. In the interest of uniformity, supplemental administrative instructions will be issued from time to time, as needed for the attention of provincial commissioners and through them for the operation commissions in each province.

1. Treatment of "pre-8 September" regular civil-service employees who were forced to pledge allegiance to the Fascist Republican Government.

Article 11 (a) of General Order 35 provides that any person who has pledged allegiance to the Republican Fascist Government shall be suspended from service.

Several provincial operation commissions feel that injustices are likely to occur if this provision is applied universally to all "pre-8 Sept. 1943" employees who were forced as a condition of retaining employment to swear allegiance to the Fascist Republican Government.

Provision for taking into account extenuating circumstances in cases of this type is contained in Circular No. 1 in the booklet of instructions for operation commissions entitled "Disposizioni del Funzionari degli Impieghi Fascisti" issued by the Allied Commission February 1945.

It is recommended that operation commissions in each province, in accordance with the General Rules set forth in Circular No. 1 exempt from suspension persons who:

- were full time civil service officials or employees employed in the same type of position in North Italy prior to 8 September, 1943;
- belong to a category of officials or employees which is an entirely was forced to take the oath as a condition of retaining employment;
- do not fall within any of the other categories of Fascist activity set forth in Article 11, and
- is otherwise unobjectionable to the operation commission.

2. "Auxiliary" Agents of Operation

It is suggested from some provinces that "auxiliary" Agents of Operation appointed after 8 September are still being kept in office. This result may be rectified by the following instructions:

1591

1591

Article II (a) of General Order 35 provides that any person who has pledged allegiance to the Republican Fascist Government shall be suspended from service.

Several provincial operation commissions feel that injustices are likely to occur if this provision is applied universally to all "pre 8 Sept. 1943" employees who were offered a condition of retaining employment to swear allegiance to the Fascist Republican Government.

Provision for being into account extraordinary circumstances in cases of this type is contained in Circular No. 1 in the booklet of instructions for operation commissions entitled "Sospensioni del Funzionari e degli Impiegati Fascisti" issued by the Allied Commission February 1945.

- It is recommended that operation commissions in each province, in accordance with the general rules set forth in Circular No. 1 exempt from suspension persons who:
 - a. were full time civil service officials or employees employed in the same type of position in North Italy prior to 8 September, 1943;
 - b. belong to a category of officials or employees which as an entirety was forced to take the oath as a condition of retaining employment;
 - c. do not fall within any of the other categories of Fascist activity set forth in Article I, and
 - d. are otherwise unobjectionable to the operation commission.

2. "Auxiliary" Agents of Functions

It is reported from some provinces that "auxiliary" agents of functions appointed after 8 September are still being kept in office. This result may be partly due to the fact that until very recently operation commissions could not act with respect to the "category postponed" in which these auxiliary agents fall. Now that the "category postponed" has been made subject to all the requirements of order No 35, operation commissions should proceed to deal immediately with these agents as the nature of their work makes operation imperative.

All auxiliary agents up to 8 September 1943, should either be suspended forthwith, or, if in the category of temporary employees (eventuali) be dismissed immediately under Order No. 35. The permanent agents will be operated as are all other categories of public employees.

3. Reports from Operation Commissions

Operation Commissions in each province are henceforth required to submit in duplicate to the provincial Commissioner a monthly report showing:

- a. Total number of suspension and dismissals made during the month.

b. The names of all persons suspended or dismissed showing title of position, cause for dismissal or suspension and date of the Commission's order with respect to each.

One such copy will be retained by the Provincial Commissioner and the other will be forwarded to the Regional Purification Officer.

4. Provincial Purification Commissions appointed under General Order No. 35 have no authority to deal with cases of undue enrichment under the Fascist Regime. This subject is covered by part III of D.L.L. 159 and subsequent Decrees, the operation of which is the responsibility of the special branch of the department of the High Commissioner for Sanctions under the Italian Government, and not of A.M.G. or A.C. If in the course of their investigations into matters which are within their competence, the Provincial Purification Commissions come across facts which indicate that action under part III of D.L.L. 159 may be desirable, they should report such facts to the Intendente di Finanza as a basis for further action by the Italian Government at a later date.

ITALIAN REFUGEES

In several of the Provinces there are Italian families who came North with the Republican Fascist Government or for various other reasons.

By some it is desired to place all such persons in camps with the thought of immediately sending them South to their original home.

There is also a movement on foot to eliminate all dependents of persons accused of being Fascist from any assistance given by the Ente Comunale di Assistenza.

The following directions are given:

1. All special government subsidies for dependent persons which originated under the Republican Fascist Government or during the interim period between that Government and AMG control will immediately cease.

2. A Provincial Welfare Office should be established in every province and an Ente Comunale di Assistenza established in each comune as authorized by Italian Law. Plans should immediately be perfected by the Prefect through the Director of the Provincial Welfare Office, (Direttore Provinciale di Ufficio di Assistenza Sociale) for E.C.A. financing and the establishment of a uniform rate of payment for persons in need.

Ente Comunale di Assistenza assistance will in all cases be given on a basis of need. Present or past political affiliations will not be considered in determining need for assistance.

As indicated in paragraph 1, special assistance to Fascist families and dependents will immediately be discontinued. However, these families will be eligible for standard E.C.A. assistance.

3. Wherever it is thought desirable to return dependent persons to their original place of residence it will be necessary to contact the Displaced Persons and Repatriation Division of this Headquarters or its nearest camp commander and make arrangements for the reception and transport

Wherever it is thought desirable to return dependent persons to their original place of residence it will be necessary to contact the Displaced Persons and Repatriation Division of this Headquarters or its nearest camp commander and make arrangement for the reception and transport of such persons to their destination.

Our camps and transport should first be used to handle the thousands of displaced persons that will be coming in from central and northern Europe and from Switzerland. We do not want our camps and transport used for Italian refugees located in northern Italy at the disadvantage of our program of Displaced Persons. If we can move Italian refugees without injuring our displaced persons program, we must and will do it.

Provincial Commissioners should explain this to the Prefects so that we do not have some order put out by a Prefect or Mayor, as has occurred, requiring all Italian refugees to vacate a province within a brief period of time.

4. The Prefect of each province should obtain a census of the Italian refugees living in his province, with pertinent data such as the province and commune of regular residence, names and ages of the members of a family group. This information can then be used by the Regional Officer who is charged with the movement of displaced persons and refugees.

TO : Provveditore agli Studi

Special Orders and Authorizations for Opening and
Functioning of Schools.

I. Italian Law.

1. All existing Italian laws and regulations relative to the educational system and the functioning of the schools shall continue in full force except where the present orders and authorizations negate, replace or supplement them. In general it is the policy of the Allied Military Government to avoid any change in the legal situation, the administrative organization, or the school program, except where changes are necessary to eliminate Fascism or to make schools function effectively.

2. The Italian Minister of Public Instruction has no jurisdiction over territory under Allied Military Government. Dispositions, circulars, orders, etc., emanating from him are not valid in Military Government territory except when specifically implemented therein by the Allied Military Government. The Allied Military Government, however, has decreed that Provveditori agli studi may correspond directly with the Minister regarding the promotions, pension rights, etc., of specific individuals, and that in such cases the Minister's decision will have validity. Those of the Minister's circulars, orders, etc., which have been implemented for Military Government territory will be furnished to you by the Provincial Commissioner, from time to time, with instructions to put them into full effect. 71

II. Administration.

1. As Provveditore agli Studi you will be responsible for the organization and administration of all elementary and secondary schools of the Province.

2. You will first put in order the Provveditorato and employ sufficient staff to operate the schools efficiently. These appointments must have the approval of the Provincial Commissioner.

SECRET

3. With the approval of the Regional Education Officer, you will be responsible for the confirmation of all Heads of secondary schools, and all Inspectors and Directors of elementary schools in the Province, who are not suspended (see IV below). To replace any such officials who may be absent or any who may not be approved, you will appoint (with the approval of the Regional Education Officer of the Allied Military Government), other qualified persons "incaricati" for terms not to exceed one year.

III. Opening of Schools

1. All schools will be opened on a date fixed and notified to you by the Provincial Commissioner.
2. Before any given school is opened you will give a copy of Administrative Instruction No. 5 to the Head of the secondary school, or the Inspector and Director of the elementary school, concerned.
3. You will be personally responsible for seeing that no Fascist doctrine is taught and no Fascist rites, ceremonies or symbols are used, and no anti-Allied propaganda is promulgated in any school under your jurisdiction.
4. All and Private Schools will also be opened at the earliest possible time. These will first have the approval of the Provincial Commissioner. They will be under the general supervision of the Provveditore agli Studi, especially in regard to the use of approved programs and textbooks and the avoidance of Fascist activities and propaganda.

IV. Defascization.

1. Within 10 days you will submit to the Provincial Commissioner, for the Regional Education Officer, Schede Personali for all Heads of secondary schools and all Inspectors and Directors of elementary schools in the Province along with recommendations concerning their retention or suspension. For those who are unable, through absence or other cause, to submit Schede you will submit a list of such persons who should be suspended or confirmed and give reasons for your recommendation in each case.

1370

2. For all teachers about whose retention you may have some doubt, you will submit Schede Personali to the Public Instruction section of the Provincial Commission for Defascism. You will be responsible as to absence of active fascist background or fascist tendencies among all teachers for whom no Schede are submitted.

3. You will be notified in writing by the Provincial Commissioner of those whom he has suspended. Following such notice you will transmit this information to the individuals concerned notifying them of their right to appeal before a Provincial Commission. Personnel suspended or dismissed by the Provincial Commission for Defascism, will be dealt with in accordance with General Order No. 35 or DLL 159.

Dec

4. Such persons as are suspended must be replaced, "incaricati", by persons whom the Provveditore agli Studi considers to be trustworthy, non-fascist and competent. The names and positions of such persons must be submitted at once to the Provincial Commissioner for the Regional Education Officer. Within ten days, a completely filled out Scheda Personale for each of these officials must be submitted to the Provincial Commissioner for transmission to the Regional Education Officer and approval by him. Until such approval is obtained, all appointments shall be regarded as provisional.

5. All newly-appointed Heads of secondary schools and all newly-appointed Inspectors or Directors of elementary schools shall be "incaricati" subject to the disposition of the Minister of Public Instruction at the close of the current school year.

6. In complying with the foregoing your attention is called to General Order No. 35 of the Allied Military Government on the basis of which the following persons are suspended from service:

- a. Any person, particularly one in high office, who has participated actively in the political life of fascism or, by showing himself as a consistent apologist of fascism, has shown that he is unworthy of serving the State.

2. Request for transfer may be made by the teacher or other person concerned to the Provveditore agli Studi in the Province in which the person in question is residing at the time.

3. Any Provveditore, convinced of the need for a transfer, may, either on his own initiative or on request of the person concerned, make appropriate application to the Provincial Commissioner, for transmission to the Regional Education Officer.

VIII. Textbooks.

1. Anti-fascist materials:

a) You will be personally responsible for seeing that no textbooks containing fascist or anti-fascist propaganda are used in any schools under your jurisdiction. Appendix B, in the "Elenco Ufficiale", which accompanies this Administrative Instruction, lists certain books which contain such propaganda and which must be immediately confiscated. Appendix C lists books which may be temporarily used after the removal of the pages indicated. Appendix D is a list of books approved to date for use.

b) An order is being sent to the Prefect of each Province requiring him to confiscate from schools and bookstores all books listed in Appendix B. You will receive later instructions as to the ultimate disposition of these books. You will order Heads of secondary schools and Directors of elementary schools to segregate and store in a locked room, or turn over to the Sindaco, all books containing Fascist propaganda, including those in Appendix B as shown in the abbreviated pamphlet "Defascistizzazione dei Libri di Testo", a copy of which you will send to each school-head, Inspector and Director (sufficient copies are enclosed herewith). 12

2. Elementary School Textbooks:

The Provveditore agli Studi will recommend to the Provincial Commissioner, for reference to the RMO, a list of persons to form a Committee on elementary school text books. The Committee will, at the earliest possible moment, recommend for use for the balance of the school year 1944-45 (including the Summer of 1945) any existing text books which are free from Fascist propaganda and are otherwise suitable in content and price for use in the elementary schools. The Provveditore will immediately submit these recommendations to the Provincial Commissioner for the Regional Education Officer. Only such books as are approved by the Regional Education Officer will be sold or bought, or used in the schools.

3. Secondary School Textbooks:

In all secondary schools, public and private, only textbooks authorized by the Education Subcommission in consultation with the Minister of Public Instruction shall be used. Appendices B, C, D, in the accompanying "Elenco Ufficiale" list textbooks that are condemned and those that are approved. Books not included in these lists or supplementary literature are to be treated under two categories as follows:

- a) Textbooks in Greek, Latin, Mathematics, and Physical Sciences, and purely technical books in the applied sciences and arts, may be approved by the Provveditore agli Studi, subject to the approval of the Provincial Commissioner, provided that a list of such approved books must be sent by the Provveditore agli Studi, through the Provincial Commissioner, to the Regional Education Officer with title, author, publisher and price of each.
- b) The Provveditore agli Studi shall send to the Provincial Commissioner, for the Regional Education Officer, a sample of each other book which he wishes to have approved for use in schools under his jurisdiction. c) No other increase will be made on these new prices. The booksellers will receive a discount of 30% on secondary school textbooks, 20% on elementary school text books. The general tax rate remains in force.

d) Any book may be sold at a price lower than that fixed above; but no book shall be bought or sold at a higher price.

1. Provveditori Agli Studi are authorized to permit transfer of students at any time from any school to another of the same level.

2. Fees for the Scuole Medie Inferiori shall be the same as those charged for the Scuole Medie Unice formerly.

3. Other tuition fees will remain the same as those charged during the school year 1942-43.

4. With the approval of the Provincial Commissioner the Provveditori Agli Studi may provide for examinations of students in secondary schools at other than the regularly specified times and places.

(10)

X. Buildings and Equipment.

1. The Provveditore agli Studi will consult with sindaco and the Prefect concerning necessary building locations, temporary repairs of buildings, and the requisition of other buildings for school purposes when buildings have been damaged or destroyed.

2. Where necessary the Provveditore agli Studi will assist in finding locations for school purposes. He may, when necessary, require teachers to hold classes in their own houses.

3. He will advise sindaco and other officials of the supplies necessary for the efficient functioning of the schools.

4. Within thirty days from receipt of these orders, the Provveditore agli Studi will report on the condition of all school buildings of the Province to the Provincial Commissioner, naming those damaged or destroyed, and those occupied by troops, refugees, and other personnel, with the address of each and an exact description of any civilian occupying group.

XI. Financing Schools.

1. Budgets.

a) For the payment of elementary teachers' salaries and for other expenses of the Provveditorato, the Provveditore agli Studi will prepare and file with the Intendenza di Finanza Forms S.B.1 to 7 furnished by the Provincial Finance Officer. He will inform the Intendenza di Finanza before the fifteenth of each month as to the names of personnel to be paid.

b) The Provveditore agli Studi will see that each Head of a secondary school prepares and files with the Intendenza di Finanza the necessary budgets and furnishes a roll of teachers to be paid before the fifteenth of each month.

c) Heads of schools formerly dependent directly upon the Ministry of Education will also proceed as in 1 (b) above.

2. Payment of Teachers' Salaries.

Subject to the approval of the Regional Commissioner, the following policies will govern the payment of teachers' salaries:

a) All school personnel "di ruolo" will be paid from the first day of 1944 month in which the Province comes under the jurisdiction of the Allied Military Government.

b) School personnel "incontrati" will be paid as from the first day of the month in which they begin service.

c) School personnel "supplenti" will be paid for the actual days of service.

d) Only basic salary will be paid to a suspended person until such time as he may be reinstated. All sums received by him or his dependents during the period of his suspension from his employing agency as relief or other assistance will be deducted from any amounts due as arrears.

e) In accordance with Executive Decree No. 73, A.C., claims for all back salaries will be filed with the Prefect. If allowed, unpaid salaries will be paid in bi-monthly installments, each to include not more than two months salary in arrears.

f) Increases in travelling allowances to authorized personnel will be paid as authorized by the Intendenza di Finanza.

XII. G.I.L.

1. Activities and properties of GIL.

a) All activities carried on by ex-GIL are suspended.

b) The Provveditore will as soon as possible arrange to take over from the Intendenza di Finanza all ex-GIL property which is necessary or desirable for the training, recreation or welfare of children or youths.

c) He will give the Intendenza di Finanza a receipt for such property and from the personnel dependent from his office he will appoint a custodian or custodians to take care of such property.

d) He will transmit copies of the receipted inventory to the Provincial Commissioner for the Regional Education Officer.

e) Temporary concession for use of movable and immovable property belonging to ex-GIL may be accorded - with such precautions for its safety as in each case may appear appropriate - only by the Provveditore agli Studi concerned, and solely for school purposes or to youth organizations of a cultural, recreative, sportive, or charitable character.

f) Subject to proof of their right to continued employment under the laws on defascism, teachers of physical education previously employed by the ex-GIL will be temporarily assigned, under the jurisdiction of the Provveditore agli Studi, to the secondary schools of the Province.

2. Payment of Salaries of Physical Education Teachers.

a) Payment of salaries will begin from the first day of the month in 1943 the Province in question came under the jurisdiction of the Allied Military Government. Salaries will be paid by the National Commission for G.I. as the relevant provinces pass over to the Italian Government.

b) Payment is to consist of either basic salary only or salary plus allowances, according as teachers are suspended or are employed in full and active service.

Dec

c) For the determination of amount of salary to be paid it is necessary for Provveditori agli Studi of the Provinces under Military control to send to the C.I. Central Commission, through the Allied Government, a list of teachers "di ruolo", specifying which are suspended and which retained (together with an extract from the findings of the Expiration Committee, if possible).

d) The Commission will thereupon supply details of the amount of salary to be paid monthly in each case, the respective persons being listed by name.

e) Meanwhile Provveditori agli Studi will make such payments as they think dug, reserving rights of adjustment later. It is considered advisable that such allowance only be paid as is provided for a Professor "incaricato" with a maximum of 26 hours of teaching.

3. Dismissals of former G.I.L. employees.

a) The Provveditori will dismiss all personnel "di ruolo" of ex-GIL who have not been previously dismissed by order of the Allied Military Government (other than physical education teachers, who will be dealt with as in paras 1 and 2 above). They will be paid whatever indemnities are due to them under the existing law by the Commissariato G.I. when the Province passes under the administration of the Italian Government.

b) Temporary employees of ex-GIL will also be dismissed by the Provveditori who will pay them an allowance of half a month's pay for every year of service.

I. Confiscation of Textbooks.

Confiscation of textbooks, School Buildings.
Schools Dependant on Communes. School Lunches.

1. The possession and circulation of any book containing Fascist propaganda is punishable under military law (Proclamation No. 1, Article 5, paragraph 4).

2. All former State elementary school textbooks and a number of others contain such Fascist propaganda. All book-stores and publishers in every Comune must therefore be notified immediately by the Sindaco that they shall, within the next 48 hours, take the following actions, and report back through him to the Prefect that they have done so:

a) Turn over immediately to the Sindaco all books declared confiscated in Appendix B of "Defascistizzazione dei Libri di Testo", which have been sent to the Prefect for transmission to him. In lieu of turning such books over to the Sindaco, however, the bookstores or publishers may, with his consent, store said books in a locked place, notifying him as to the number of books so stored and the exact location thereof.

b) Cut out pages, as indicated, from books listed in Appendix C of "Defascistizzazione dei Libri di Testo" and turn over the excised pages to the Sindaco.

3. Books and pages delivered to the Sindaco by bookstores or publishers in accord with paragraph 1 above will be safely stored by him subject to later orders of the Provveditore agli Studi. Similar dispositions will be made of Fascist books turned over to the Sindaco by Heads of secondary schools or by Directors of elementary schools on order of the Provveditore.

4. The Sindaco will have suitable investigations made to see that no unauthorized books are being displayed or sold, and report violations to the Questura.

II. School Buildings.

1. Immediate steps will be taken by the Sindaco to find suitable locations for the elementary and secondary schools of his comune. Should the school buildings be so badly damaged as to be unusable; should they be occupied by troops; or should they be occupied by refugees for whom it is impossible to find any other accommodation - in all such cases the Sindaco will find other suitable rooms for school purposes, or, if no other means can be found, he may arrange that teachers take the children, in turns, into their homes for instruction.

2. It will be the Sindaco's responsibility, where necessary, to have school premises cleaned, repaired, and otherwise put in proper order. School benches and other equipment necessary will be placed by him in the locations selected.

3. The Sindaco will select personnel for the operation and maintenance of buildings, subject to the approval of the Provveditore agli Studi.

4. Upon the advice of the Provveditore agli Studi the Sindaco will find and purchase for resale to students such school supplies as are necessary.

5. The Sindaco will report immediately to the Provveditore agli Studi that these orders have been followed.

III. Schools Dependent on Communes.

1. The Sindaco will make arrangements for the opening of all schools which were formerly dependent on the Comune, subject to the approval of the Regional Education Officer of the Allied Military Government.

2. The Sindaco will arrange for such payment of teachers and other expenses as is normally made by the Comune.

3. The Sindaco will report to the Provveditore agli Studi when the above arrangements have been made.

IV. School Lunches.

1. The Allied Military Government will, as far as possible, make available to the Sindaco for the children in "asili" and elementary schools 23 grams of dried soup and 28 grams of dried vegetables per child per school-day. The price to be paid by the Comune will be fixed by arrangement between the Sindaco and the Consorzio Agrario, but will not exceed 30 lire per kilo, unless otherwise authorized by the Allied Military Government.

2. The Sindaco will make every effort to see that each school and "asilo" in his Comune has facilities for preparing and serving this food. The teachers and Direttori Didattici will be glad to cooperate with him in making these arrangements. He may also enlist the help of parents.

3. As soon as arrangements have been made for serving the lunches the Sindaco will fill out the enclosed form and send it to the Prefect for the Provincial Commissioner.

4. The allotments for school lunches will be included in the regular supplies of food to each Comune through SEPRAL and the Consorzio Agrario. The Sindaco will collect and pay for the supplies just as he does for all other food supplies from this source.
