GUIDE FOR AMG OFFICERS
APR. 1945

V.

Acting Executive Commissioner.

The Vice President, Civil Affairs Section, instructs me to say that he is not in favour of the general distribution of this book, although some of the later paragraphs are useful as references. His objections are based on the fact that it is out of date on matters of policy, which renders it useless as a directive; and, secondly, it is very questionable whether other Regional Commissioners would accept the method of working.

This book, prepared by Piemonte Region, contains a great deal of very useful information which should be of great assistance to Provincial Commissioners and Provincial Officers. I think it is worth consideration as to whether it would not be a good thing to publish it (eliminating the references to Piemonte Region) for the benefit of all AMG officers. You may feel it is a bit too late in the day, but I think, however, that it is worth considering.

The paragraphs setting out the organisation of the Provincial and Communal Administrations and the Provincial and Communal Italian Agencies are first-class. Were I an AMG officer, I know that I should find it an excellent reference book.

C.S.O.

C.S.O. I agree that it might well be issued to all AMG officers, especially valuable for the officers of combat units who will join AMG later.

X Please submit to C.A. Sec for any comment on the form. Could more copies be printed in present form? There is no objection to use of Piemonte name.

C.A. Sec also interested. Any comments?

Y.B. As this was written from the 8th Brigade's experience of 1944 it is out of date in matters of policy. There is undoubtedly some very useful information in it. It is my personal opinion that most of the implied matter will not work. I suggest that if extra copies can be easily printed & C.A. Sec asked if they would like it as a useful reference but not as a document. Attendance Book 18 April
