O.S.O. to Executive Commissioner

The report on folio 21, etc., is one apparently compiled by the High Commissioner for Sardinia. It paints a very gloomy picture as for example on folio 20 at X wherein he states that the wheat crop has been a complete failure. This differs radically from the report made by Lt. Col. Albert dated 1 July on file 160/M where it is stated on folio 35 that "dry weather has taken some toll but estimation of the crop are 80% (upwards) of normal etc" (this about wheat). He goes on to say "we interviewed many farmers and their first reply is that there is nothing and U.S. would have to feed them. But upon further investigation we found their statements greatly exaggerated. As of the opinion that May, being a cool month and although dry, the coolness aided the growing of the grain." Lt. Col. Albert's report was made after Lt. Gernann of A.C. and he had made an inspection trip to gather information in regard to agricultural conditions in Sardinia. A more complete report was written by the Agriculture Sub-Commission after the trip to Sardinia by Major Pruneman and Lt. Gernann (see file 160.5/M). To summarize briefly: Livestock, especially sheep, - position critical because of lack of food due to drought. Famine situation - very bad. Wheat Report forecasts a 37% reduction for all of Sardinia, however, the report states that Lt. Col. Albert, who has made numerous trips around Sardinia, still believes the wheat crop yield will be 80% of normal. Locusts - Lt. Gernann believes all reports, including that of the High Commissioner, are greatly exaggerated. From the foregoing, it may be assumed that it is a natural tendency for Sardinians to paint as gloomy a picture as possible with the express purpose of interesting the extension of more aid from the Allies or the Italian Government whereas investigations made by Allied personnel show that, although conditions are far from what is desired, they nevertheless are not as bad as reported.

3. Tuesday - Wednesday: 26-27 June

a. Accompanied by Lieut German, Agriculture Section A.C., Rome, made a two day inspection trip of agriculture conditions on the island and inspected military installations at Nuoro. Went North on the Eastern road and returned by the central road. Report as follows:

(1) Grain. The greatest grain producing area is in the Southern part of the island, South of the range of mountains. There have not been any grasshoppers in this area. The dry weather has taken some toll but estimate the crop as 80% (upwards) of normal, the heads were good length and in most cases well developed kernels. In the provinces of Nuoro and Sassari where less grain is grown, the grasshoppers and drought have done more destruction, but still there is considerable amount of grain produced there this year. We interviewed many farmers and their first reply is that there is nothing and U.S. would have to feed them. But upon further investigation we found their statements greatly exaggerated. As of the opinion that May, being a cool month, and although dry, the coolness aided the growing of grain.

(2) Forage and Pasture. As of the opinion that the drought and grasshoppers have taken a great toll in both. Very little hay was produced and farmers are not selling any to the army due to the shortage. In spite of the poor pasture, cattle are in very good condition for grasshoppers and this time of year. The sheep are mostly milkers and of a very poor quality and are not in very good condition. Contrary to reports of stock dying from starvation could find no such cases when further questioning, the reports were unfounded.

see M36

PA

(Not Needed)

34/

(3) Fruits, Nuts and Grapes. Fruit crop is normal production this year. The grapes and nuts look healthy and promise a normal crop.

(4) Grasshoppers. In various trips up the island have observed the great number of grasshoppers, more plentiful in the vicinity of Macover and farther north. In early May we authorized the loan of 2000 salvage army tents to the High Commissioner to combat them in the crawling stage, in all my travels throughout the island the past 2 months only saw four civilians destroying grasshoppers. In certain areas when in the crawling stage millions could have been collected and destroyed with a little effort. We authorized the transfer of 150 tons, with authority to draw 300 tons more if required, of sulphur chloride from Army Depots on sale to the High Commissioner's Office, only 50 tons were collected.

b. Inspected 5th Company, 68th Regt at Nuoro, satisfactory except kitchen dirty and many flies (See S & T Report).

c. The Carabinieri Depot at Nuoro has been closed and equipment moved to Cagliari.

d. Inspected Nuoro Artillery Repair Shop and Depot. All carts and harness for mainland had been shipped to Cagliari. They have 150 civilian employees in addition to artillery repair work they are doing metal and wood repair work on vehicles for Abbenante Repair Shop. They were preparing for shipment to mainland for 20 R2 1800 machine guns, 3000 rifles and 1500 pistols. They also were dismantling 155 mm artillery guns.

e. Capt De Stefano conferred with Automobiles Directorate CMS re unauthorized vehicles and windshield labels.

f. Sgt Gentile arrived from week pass to home.

4. Thursday, 25 June

a. Lt Colonel Cocco, new Chief of Staff, CMS, made courtesy call.

b. Conferred with Major Palma, Commissary Section, re (1) issue of ration to Italian Air Force. (2) Status of excess clothing from recalls and recruits. Told him to have the final report expedited and the clothing turned back and placed in the Clothing Sub Depot at Cagliari and taken up on stock records. **4602**

c. Conferred with Colonel Parenti, High Commissioner's Office, re loan of 100,000 jute sacks to bag imported grain at Cagliari Port. As they need them at once authorized loan of 5,000, rest pending authority from Main Home (See our signal Y 611 of 28 May).

d. S.S. Joseph G. Cannon arrived with cargo of barley. When barley is discharged we will load with Italian cargo for mainland.

a Inspected Buero Artillery Repair Shop and Depot. All parts and harness for mainland had been shipped to Cagliari. SUBJECT: Granai del Popolo Figures

TO: Headquarters, Allied Commission

APR 2 1945

1. In Sitrep No. 61 dated 20 March 1945 the figure for wheat collected was shown as 279,603 quintals. This figure was not the exact figure because the Federazione Italiana dei Consorzi Agrari had added some grain transferred from one comune to another and had classed it as fresh amassed grain. The correct figure should have been 279,639 quintals.
2. The Sitrep No. 62 dated 27 March 1945 figure has been checked and is correct.
3. For the Sitrep, Allied Commission, Sardegna Region, has to rely on the correctness of Federazione dei Consorzi Agrari's figures.
