MEMORANDUM:

1. In order that the present static phase of operations shall not obstruct the development of long term administration in the Arno Valley it is proposed that Administrative Control of the Provinces of Florence, Lucca and Pistoia be taken over forthwith by Toscana Region, subject to the conditions set out below, since the Regional Organisation is better adapted for this work than Army A.M.G.
 2. Although it is not possible for this Headquarters to divest itself of responsibility for any part of Fifth Army Territory in favour of any other organisation, Toscana Region will nevertheless exercise control over the routine business of Administration of the three Provinces without reference to this Headquarters except in matters of policy which may affect the interests of the Fifth Army. For this purpose Toscana Region will correspond with and report to H.Q. Allied Commission direct. Similarly Provincial Commissioners will correspond with and report to Regional Headquarters direct. Copies for information will be sent to this Headquarters of any reports that are thought to be of interest.
 3. Those parts of the three Provinces which are at present in Corps Area will continue to be administered direct by this Headquarters. In the case of long term problems, Provincial Commissioners may extend their operations into Corps Area by mutual agreement with the Corps S.C.A.C. concerned, on the same basis as is being done at present.
- In the case of XIII Corps the present system will continue whereby Administration in all but a small part of the area is carried on by the Provincial Commissioner (who will in future report to the Regional Commissioner), while operational control will be retained by the Corps I.C. under direct command of this Headquarters.
4. Questions affecting relations between the Army and civilian interests which cannot be settled by local action will be referred direct to this Headquarters by Provincial Commissioners and vice versa, with a copy of all correspondence to the Region for information.
- Similarly this Headquarters reserves the right to issue direct to the Provincial Commissioners such orders as may at any time be necessary to implement the wishes of the Army Commander within the Fifth Army area sending a copy of such orders to the Regional Commissioner for information.
5. Personnel and transport will in general remain for the time being in their present locations, subject to such modifications as may be decided upon by mutual agreement between this Headquarters and the Regional Commissioner.

-2-

26

6. This Headquarters will continue to operate directly the handling of partisans and refugees and for that purpose will establish and maintain such camps and transit centres anywhere within the Army Area as may be necessary.

This Headquarters will also maintain its direct interest in the forces of CC.RR destined for Northern Regions which are now located in the three Provinces.

7. In the event of the Regional Commissioner wishing to move his Headquarters to the Florence Area, the Senior Civil Affairs Officer will recommend this project to the Chief of Staff Fifth Army.

SUBJECT: Regional Staff Organization.

TO : Chief of Staff, Hq. AG.

1. The situation with regard to regional staff officers for general supply, food, industry, and commerce is confused and needs clarification.
2. By Executive Memorandum No. 21, 15 Feb 44, one regional staff officer was designated Regional Supply Officer. In Regions, this officer administered and co-ordinated general supply, food, industry and commerce. From the regional standpoint this was a very satisfactory arrangement when, under the Regional Supply Officer, there were officers for food, industry and commerce.
3. Later, instructions were given to separate Food from Industry and Commerce; and finally to separate Industry from Commerce. It would appear, first, that at the regional level, activities so inter-related as general supply, food, industry, and commerce should be combined in one division of separate sub-sections. At present, as a Regional Commissioner, I am in doubt as to which of my staff officers I should look for advice and action with respect to the important subject of POL. I was unable to obtain a definite answer to this question at the last Regional Commissioners' meeting. Second, I can see no good reason why AG Hq. should concern itself with the detailed internal organization of a regional headquarters. By doing so, confusion has been created.
4. If it is a matter of reports, there is no reason why the reports should not be submitted in three separate sections - one section each for Food, Industry and Commerce.
5. Under the present organization no one of the divisions is large enough to handle any situation that is out of the ordinary. If they were combined into a Regional Supply Division, that division with its counterpart in the provinces could handle all supply functions.
6. Recommend that Regions be authorized to organize general supply, food, industry and commerce into one Supply Division with the senior officer, selected with the concurrence of the Economics Section, as Regional Supply Officer.
