Index of Legal Sub Branch

MC

In daily operations, the Legal Division deals with three concerns, to wit, the operation of Allied Military Government courts; the operation of Italian courts; and the rendition of opinions on a wide variety of questions growing out of Allied occupation. These questions involve issues on Italian as well as occupational law, and frequently are bottomed on acts done in the past.

Liquidation activities are supplementary to daily operations. The major task in this behalf relates to persons detained and imprisoned in Italian penal institutions on Allied authority. The objective is the elimination of persons not undergoing lawful sentence of Allied Military Government courts or detention for security reasons.

ALLIED COMMISSION
APO 794

OCT 25 1946

17 October, 1946

SUBJECT: Internal Security.

TO : All Occupants of the Allied Commission Building.

1. During the past month there have been numerous incidents of thefts and unwarranted entrance in the Allied Commission offices at night and on Wednesday and Saturday afternoon and Sundays. On the night of 5-6 October entrance was made into a room on the ground floor and the thief was apprehended on Via Veneto with one typewriter, and investigation showed that he had two more typewriters on the window sill ready for his return trip. His statement in part was: "I saw the window open and it gave me the idea to enter the building and see what I could steal."

2. The present system of internal security is definitely unsatisfactory. There are no Military Police, either British or American, available to assist in this duty, hence the following measures will be instituted effective at 0800 hours, 21 October 1946.

a. All outside doors of Allied Commission building except the main door (glass) will be locked at 1815 hours each evening, Monday through Friday; at 1300 hours on Saturday and all day Sunday and will remain locked until 0800 hours the following morning.

b. The main door (glass) will be locked at 1900 hours each evening; at 1400 hours Saturday and will remain locked on Sunday. It will be necessary for any officer who has essential business to enter the building the time the main door is locked, to contact the Duty Officer, (Phone No. 433) or by bell on main door to admit him at the main door. The key to the main door will be retained in the possession of the Duty Officer, who will personally admit visitors to the building. This responsibility will NOT be delegated. No civilians and no EM or CR's will be permitted to enter the building during the hours the main door is locked unless accompanied by a British or American Officer, except those assigned to definite duty in the building such as Message Center, telephone switchboard, etc. They will have a written pass signed by the Director of the Division for which they work, and will be checked in and out by the Duty Officer.

c. No person will be permitted to remove any article from the building without a signed authority therefor from the Camp Commandant (B), or the Adjutant, 7106th Regiment. (The custom of taking Government typewriters from this building for night work at billets, is hereby discontinued).

d. The old fire regulations requiring that offices be left unlocked are herewith rescinded. Each Division may lock the doors of their offices. However all windows will be closed and locked at the end of the day. Desks will be kept locked during non-duty hours. This is the responsibility of the personnel concerned. When doors are locked necessary arrangements will be made for admitting of cleaning personnel to clean offices by divisions.

c. The post of the Duty Officer will be in the vicinity of the main door during his duty hours and it will be his responsibility to see that the Italian Carabinieri understand and thoroughly carry out these instructions. He will, also, during his hour of duty, by personal inspection, insure that the GCR who patrol the different floors in the building, are performing their duties properly.

WRITTEN ENDORSEMENT

1. Reference is made to your letter of 28 March, 639/EC, directing, among other things:

- (a) That CEM Officers come under command of Chief Liaison Officers;
- (b) That they occupy the same group of offices and live in the same mess;
- (c) That they take technical instructions from the Economic Section;
- (d) That the Officers work in closer liaison with other Officers in the Liaison Group;
- (e) That the CEM Branch be reduced by 40%.

2. (a) It is understood that CEM Officers come under command of the Chief Liaison Officers.

(b) In Milan CEM occupies offices in the same building as the Chief Liaison Officer. In Bolzano it is proposed that the RUK files be moved which movement will, it is believed, meet your requirement. It will require two weeks to properly tabulate, box and secure the contents of the files. After the movement of the files there will be no need for a separate CEM office in Bolzano. In case any CEM personnel remain they will be moved to the building occupied by the CLO.

(c) The Director CEM Branch has been instructed to continue issuing technical directions to CEM Officers.

(d) Instructions have been issued to CEM Officers to maintain contact with CLOs and other Officers of the Liaison Groups.

(e) The Milan office has been reduced from 25 civilian employees to 12.

Economic Section.

1. I found on my recent tour of the North that the officers of the C.E.M. Branch tend to regard themselves as a group apart from the rest of the Liaison Groups. This is not the case. The officers of C.E.M., like any other officer of your Section, comes for general purposes under the command of the Chief Liaison Officer. They should occupy the same group of offices and live in the same mess. They may, like other technical representatives, take their technical instructions from you, but they are NOT to regard themselves as a race apart.

2. I should be glad if you would see that this is carried out and, in particular, that the BOLEANO Group is removed at once, with the files, to the offices now occupied by the Chief Liaison Officer, and that the C.E.M. officers join the Chief Liaison Officer's mess. You should also instruct the C.E.M. representative at MILAN to work in far closer cooperation both with the Chief Liaison Officer and the other officers in the Liaison Group. I found an instance of gross lack of coordination in this respect.

3. I should also be glad if you would see that my instructions to the Chief Liaison Officer that the civilian staff of the C.E.M. Branch be reduced by 40 per cent, is carried out immediately.
