At 306 is a new directive on Partisans in Northern Italy. Economic and Civil Affairs Sections have copies. Most of it is well known to us, but para. 2 (f) to (n) regarding the stand-down parade for disarming patriots is something we should circulate to all Regions. Also, you may consider we should circulate para. 3 (page 305).

I would draw your attention to para. 11 (reverse of 306) regarding collection of Partisans.

Col. Grippes tells me that the CC wishes to see this document at an early date.

Dear Admiral Stone,

The Trevise C.L.N. sent two of his representatives to Rome to obtain from the Royal Government that a certain sum be unblocked in favour of the Prefecture in this town, sum destined to pay and give subsidies to the partisans of the Trevise province, to help them to go back to civilian life. The Government approves and will intervene with A.G. to obtain what is being asked.

To enable you to know with precision the terms of the problem, I want to introduce to you one of the above mentioned representatives, Lt. Colonel Dr. Gesio Pegoraro (P.A.S.) whom you might send to the competent Financial sub-Commission; he will hand over to you the memorandum drafted by the Trevise C.L.N. on this matter.

Thanking you for whatever you may be able to do, I remain, my dear Admiral,

SUBJECT: Payments to GLADI.

TO : Civil Affairs Section,  
Finance Sub-Commission.

Reference previous correspondence on this subject. Below please find a further extract from the Minutes of GLADI's 14th Meeting (Political) of 7th June at which this matter again came up for discussion:

MINUTE NO. 1.

1. PAYMENTS TO GLADI.

(Previous reference SAC (P) (AS) 13th Meeting, Minute 2).

REAR ADMIRAL STONE reported that on examination of the statement submitted by Signor Longhi revealed that one further payment of 150,000,000 lire should be made to the GLADI. Signor Longhi accepted that this payment would cover all outstanding obligations. Rear Admiral Stone had accordingly approached the Italian Prime Minister to request that these funds be made available and the latter had agreed.

THE DEPUTY CHIEF ALLIED COMMISSION:

- a. Directed that one final payment of 150,000,000 lire should be made from Allied funds to the GLADI to discharge existing obligations.
- b. Instructed the Chief Commissioner, Allied Commission, to ensure the reimbursement of the Allies, to this amount, by the Italian Government.

6 June 1945

SUBJECT: Longhi's Contentions re GINAI Financing.

TO : Joint Directors,  
 Finance Sub-Commission  
 (Attn. Colonel R. R. Manspeck).

1. Reference is made to the main arguments of Longhi in his interview with Brigadier Graffey-Smith and Lieutenant-Colonel Tubb, as these were reported to us in Milan on 4 June 1945. They are presented herewith separately for the possible additional light they may shed on the Brigadier's letter of 3 June, but will be incorporated in a detailed report of the mission later.
2. Longhi stated that there was no question of duplication as regards the November financing. The expenditures concerned had actually been incurred and they have not hitherto been reimbursed by any means or from any source, including Special Force accounts. This contention could be supported by other interested organizations, including O.S.S. and while it was undoubtedly impossible to act up the Credito Italiano account earlier than December, present acceptance of the responsibility for November financing could be regarded as in the spirit of the SACRED undertaking.
3. Longhi admitted that this undertaking was limited to the period of hostilities, and accordingly expired in a technical sense when the Armistice was signed. From a practical point of view he doubted the possibility of dealing with the problem of employing partisan operatives on the basis of any such given date hitherto unannounced. He was inclined to regard the May credit, not as an overpayment, but as a logical final payment providing proper notice to the operatives that their mission was completed and further activities were not needed. He pointed out that many partisans were still operating and still armed, and that some spokesmen would undoubtedly contend that a token payment for June should be made. Closing the books with a final full May payment seemed to him a logical compromise which he would loyally accept as our late fulfillment of SACRED's undertaking.

4. Longhi agreed that an accounting of Partisan expenditures, and of the use of the Credito Italiano balances for defraying a large part of them, should certainly be made. He contended that this was a task that would require much time, and pointed to the difficulty that an Allied Commander would have if asked to submit a detailed statement of his finances. The difficulty is much greater, he added, when one is dealing with an underground movement where every effort has been made to operate with maximum secrecy. He would not be able to supply even an approximate distribution in under a month or six weeks, and it would have a bad effect on the morale of the operatives if reimbursement of these payments was deferred until SACRED could receive such evidence. Meanwhile, on the basis of rough data which he submitted, he was prepared to guarantee that actual payments had exceeded the requested amount.

RECEIVED

CC 6716

CHIEF ASSISTANT SECRETARY,

CANADIAN ARMY.

3rd June, 1945.

TO: The Chief Commissioner.

SUBJECT: Funds to G.I.N.A.I.

My original signal asking Lt.-Colonel Tubb to ask Longhi for a statement showing his estimate of the Allies' unfulfilled obligations to G.I.N.A.I., arrived in Milan late and badly mutilated. The S.F.O., did not see the comprehensive text until some days later when S.F.O., 5th Army, showed him an unmutilated copy. Longhi was then approached and promised to obtain from the leaders of the various bands the amounts still owed by their members to those who had advanced them money.

I saw Longhi yesterday who agreed that the collation of accurate statistics would take many weeks. In these circumstances I promised that I would forward to you for onward transmission to A.F.N.G., his views on the unfulfilled obligations and a suggested modus operandi.

Longhi admitted that within the strict terms of the agreement the amount credited in Rome for the month of May should not have been necessary. In fact, however, the Partisans have not handed in their arms and are still being maintained out of these funds. Some Brigades are being retained with the objective of being eventually transferred to the armed forces or the Carabinieri. Their continued maintenance is, therefore, essential. In retrospect he stated that the figure of 30,000 Partisans was a considerable under estimate but even on this basis at a L.100 per day per head, the amount required had been in the neighbourhood of 270 million lire a month. He claims that funds for the month of November had not been made available either from Special Force funds or under Lamped's agreement is, I think, entirely true, and is substantiated by G.I.N.I. and G.I.N.G. He therefore asks for the amount of 150 million lire for the month of November to be authorized by A.F.N.G., through the normal channels. This will be regarded as a full and final settlement of the obligation incurred by Lamped towards the G.I.N.A.I. It does not include, of course, amounts due by the Special Force to their agents, which is a matter of separate negotiations between Finance Sub-Commission and the Minister of Treasury. Any further financing will be a matter to be arranged between G.I.N.A.I. through Longhi, and the Italian Government.

It is my opinion that the suggested proposal should be accepted, unless it be considered that it will result in the continued existence of armed bands. Longhi's record, however, of transferring

funds to authorized branches of the G.L.N.A.I. is good and it should not be thought, therefore, that this further grant-in-aid will result in an increase of hoodlums. There is no doubt that Loughi compared with many high officials of the G.L.N.A.I. is a strong moderating influence; and the fact that he is non-party which resulted in his leaving the G.L.N.A.I., supports this statement.

I therefore recommend that General should instruct Finance Sub-Commission to make a final payment of £.160 million; and that it should be made clear in all correspondence both to the Bank and to the G.L.N.A.I. that no further finance will be made available at the instigation of General.

7. PAYMENTS TO CLIMAI.

(Previous reference SAC (P) (45) 12th Meeting - Minute 2).

REAR ADMIRAL STONE said that though he understood that Sigmar Loughi had submitted a statement to the representative of the Allied Commission in MILAN listing all payments purported to have been made by the CLIMAI, this statement had not yet been received in MOBE for investigation, although it was reported to have been despatched from MILAN.

Reference is made to message 5784 no authority granted by AMG in IV CORPS AREA for payment of 5,000 lire to Patriots. It is reported that payments of this amount have been made throughout LIGURIA and PIEMONTE by CVL and CIRAI but not through AMG.

It is claimed by General GARDONNA Hq that General GARDONNA received authority while in HQS to increase payment to 5,000 lire but no documentary proof offered except copy of minutes of conference held between GARDONNA and Govt which would seem to indicate that payment in this amount was contemplated.

Apparently the CVL/CIRAI have borrowed the sums paid out from private sources on the promise it would be made good by the Italian Govt.

First knowledge this Hq of such payment, 30 May 1945 when LONGHI and representative of GARDONNA came to Hq IV CORPS requesting that some 500 million lire be secured from a Colonel KING AFHQ to pay off Patriots. Knowing that funds had been advanced by AFHQ in past to LONGHI questioned to determine basis of this request which developed that it was to pay the estimated 100,000 Patriots in NORTH ITALY at the rate of 5,000 lire each. Further investigation before receipt of signal on 31 May developed information regarding LIGURIA and PIEMONTE.

The following extract from a report by R.O. Liguria Region is forwarded for your information and appropriate action :

" As regards Patriots, all current directives which I possess clearly lay down that the feeding of them, their movement and the setting up and maintenance of Patriot Centres is a military responsibility. It is only with the greatest difficulty that we can get any assistance from the military. The fault does not lie with the local organisations who are frequently only too willing to help - the trouble lies higher up. "

Reference your FA 70793.

Based on reports received from both Armies this Headquarters recommends that time limit for feeding partisans on scale your FA 60055 be extended until political situation on both fronts clarified. Each Army is presently feeding about 1000 and each Army estimates that there are approximately 20,000 whom they have not yet contacted. These will be to be processed and fed when contact made which depends entirely on solution political problem. Entire partisan program which has been working extremely well to date is based on privilege, largely extra rations, and it is strongly recommended that present policy be continued. Civilian food problem in NORTH ITALY is not acute and if military rations for partisans not available suggest ALGER institute satisfactory system of feeding from civilian supplies. Present policy to be continued until new arrangements made.

Subject Patriots UDINE Area. Patriots are demanding payment. As previously stated impossible disarm either OSOFPPO or GARIBALDI Groups whilst present situation prevails. Neither group is operational, therefore not paid as members of Armed Forces, both groups are cooperating in helping Military Govt and the Allies. This applies to OSOFPPO in practically their entirety and to GARIBALDI to a lesser degree. Impossible to state numbers, OSOFPPO believed to be about 6,000, GARIBALDI claim larger numbers. Total combined Patriots reputed to be round 20,000 though this is doubtful, the amount payments asked for by Patriots is 10,000,000 lire a month. Emphasise this request is from them and the figures have not and cannot be checked accurately nor have any discussions taken place with Patriots regarding rates or any other subject. Request policy of ROME Govt and AG on this matter. Question of feeding Patriots also arises. At present they are feeding on a considerably higher ration scale than civilians, and consider to abruptly cut off supply and bring them down to ordinary civilian level would be impolitic if not impracticable at this stage. Request guidance on this matter also. All the

UNION Province patriot position as follows. Keeping patriots armed because of border position, OROPEZO partisans first class and cooperating, CARIBALDI Brigade not so good but situation in hand. Have hopes that will turn both OROPEZO and CARIBALDI to good use as regards transport and police. Political position all friendly and committee of liberation reasonably cooperative but do not understand the position.

Extract from Minutes of SACED Conference  
(Political) 10th Meeting held on 10th May 1945.

MINUTE No. 2.

2. PAYMENTS TO CLNAI.

(Previous reference SAC (P) (AS) 9th Meeting, Minute 6).

MAJOR GENERAL LEWITTEN, in reply to a question by the British Resident Minister, said that instructions had been given to the Allied Commission to approach the Italian government to obtain payment of ~~100~~ 160,000,000 lire to the CLNAI for the purpose of recovering expenditures in the month of November last. Before these instructions were given, the matter had been investigated and he understood that this amount had been raised by supporters of the CLNAI and the latter should therefore, as a matter of honour, be reimbursed.

THE SUPREME ALLIED COMMANDER said that if a genuine debt existed, it must be paid. Otherwise, no fresh reimbursements should be made to the CLNAI.

REAR ADMIRAL STONE stated that he had not yet received the further direction referred to by the Deputy Chief of Staff, and consequently thought that he was not to approach the Italian government in regard to providing further funds to CLNAI unless the Italian government themselves desired to open the question. 160,000,000 lire had, in fact, been paid to the CLNAI on 2nd May, for disbursements planned during the current month. Since the German surrender in Northern ITALY had taken place on that date, he considered that this payment should cover the necessary reimbursement to CLNAI for the month of November last.

THE SUPREME ALLIED COMMANDER:

Directed that the Chief of Staff, in conjunction with Allied Commission, investigate the matter so as to obtain proof whether a genuine debt to the CLNAI in respect of the month of November existed, and if so, whether the payment made on 2 May could be considered to cover such a debt, and report to him accordingly.

Subject is funds CLMAY. This HQ letter AG 376.64/021 GUT-0, 1 May 45, and statement by Chief Commissioner at BOMBED Conference, 3 May, refers.

1. Liberation of ITALY being now substantially complete no further contribution under para 5 of BOMBED-CLMAY agreement will be made. Inform CLMAY accordingly.

2. Retrospective payment of 160 million lire for month November, however, is required to be made in order to refund supporters of CLMAY for money raised by LOMBARDI from them against expectation of Allied payment for this month. Consider Allies are in honor bound to ensure reimbursement to CLMAY of this amount. Consequently you should press ROYAL Government to refund November contribution amount as directed in para 3 this HQ letter under reference.

6. PAYMENTS TO GLNAI  
(Previous reference SAC (P) (45) 8th Meeting, Minute 11)

MR. AIRCRAFT STONE said that his revised instructions on the subject of payments to the GLNAI required him to approach the Italian Government in regard to a payment for November last. As Signor Longhi was no longer head of the GLNAI and the Italian Government had not raised the matter, he doubted if it was desirable, under present circumstances, to hand over 160,000,000 lire to the new organization.

MR. AIRCRAFT STONE said that this was a claim which had been made by Signor Longhi for a bank payment to him by the Italian Government in respect of the month of November. It was considered that an undertaking had been given to him that the money for this month would be paid, though, owing to a misunderstanding, this had not yet taken place. He therefore had a responsibility to approach the Italian Government to ensure that his claim was met. This was quite a separate matter from payment for current or future services. Arrangements for the drastic reduction of such payments had been made separately.

THE SECRETARY ALLIED COMMANDER :

Entrusted the Chief of Staff to re-examine the question of payments to the GLNAI and take action accordingly.

2. In view of recent developments it has now been decided that the proposed increase of the monthly CLNAI allocation to 300 million lire is unnecessary; no representations to the ITALIAN government for their agreement to this increase need therefore now be pursued. The whole 160 million lire has been authorized for the month of MAY; amounts for subsequent months, if applicable, will be reduced in respect of liberated compartments.

3. You still are requested, however, to obtain the support of the ITALIAN government for the retrospective payment of 160 million lire for the month of NOVEMBER as indicated in paragraph 2 of this headquarters letter under reference.

11. FINANCES FOR THE CIMA

MR. MACMILLAN said that until recently the CIMA had, under agreement, been provided with 160,000,000 lire monthly. Signor Longhi had recently, for various reasons, asked for this amount to be increased to 300,000,000. This had been agreed and the Allied Commission had been instructed to approach the Italian government accordingly. Meanwhile, however, the rapid advance of the armies had already involved the liberation of substantial areas of the north of ITALY and it therefore appeared inappropriate to increase the sum paid to the CIMA at this time. It appeared more proper to consider whether the amounts paid could not now be reduced. The Chief Commissioner, Allied Commission, had therefore refrained from requesting the Italian government to increase the payments, pending further direction from the Supreme Allied Commander.

THE SUPREME ALLIED COMMANDER:

Instructed the Chief of Staff to examine the matter of CIMA finances, so as to determine whether, in view of the liberation of substantial areas of northern ITALY, the amounts paid should not be substantially reduced instead of increased, as had been previously proposed.

SUBJECT: Conditions of National Liberation.

APR 28 REC'D

TO : All Officers, Bullis, Liguria, Lombardy,  
Piemonte and Veneto Regions.  
SSAO's A and B Army.  
HQ IV Corps

1. This directive lays down the policy which will govern the actions of all officers of Allied Military Government in their relations with the Committee of National Liberation (CNA) - "Comitato di Liberazione Nazionale" in Northern Italy.

2. CNA have been organized on a regional, provincial and regional basis throughout German occupied territory. Their activities are co-ordinated by a central staff for the whole of the area, known as the CNAI - "Comitato di Liberazione Nazionale dell'Alta Italia". Intelligence reports from the North show that the various Committees of National Liberation have learned a good deal about the art of government in the year-long struggle against the Fascist, and the German, in many districts. "shadow" governments have been set up, and the various political groups have distributed among the leaders of the different parties. In the light of these facts for the time being there is a remarkable degree of unity of purpose in the CNA, and party differences have been made to the point of unity in the German front Italy and to punish their fascist collaborators. These demands have been assisted in their military operations by the Allied Air Forces and the giving of such assistance necessarily implies a degree of recognition of their position.

3. Relations with CNA. - The Supreme Allied Commander has made the military arrangements with the CNAI. He has not given political recognition to the CNA, but under these military arrangements, the CNA will endeavor to maintain law and order and continue to assist in the recovery of the area. It is established. Therefore CNAI has agreed that the CNA will recognize the CNAI and over to it all authority previously assumed.

4. Likewise all components of the General Command of the Italian Army (CNA) will now under the direct command of the CNAI, and will obey any order issued by the CNAI or by the CNAI in its capacity as a military command.

National Liberation have taken a poor year-long struggle against the Fascist, and the German. In many "shadow" governments have been set up, and the various political parties have distributed amongst the leaders of the different parties. In the main, it seems that for the time being there is a remarkable degree of unity of purpose in the anti-Fascist, and party differences have been kept to the minimum. These German-Germans from Italy and to punish their fascist collaboration. These German-Germans have been assisted in their military operations by the Allies, and the giving of such assistance necessarily implies a degree of recognition of their position.

3. Relations with the Axis. - The Supreme Allied Commander has made the military arrangements with the Axis. He has not given political recognition to the Axis, but under these military arrangements, the Axis will continue to maintain law and order and continue to administer civilian government. This is established. The Supreme Allied Commander has agreed that the Axis will recognize the authority previously assumed.

Likewise all components of the General Command of the Voluntary of Liberty (V.L.) will come under the direct control of the C-in-C. 15th Army Group. The V.L. they are ordered to be by him (or by him on his behalf) in the future and to be subject to his order. The Italian Government in Rome may not have the same confidence in the Axis in the North and, at best, their influence there may be subject to fluctuation. This may be based on several factors. There is the feeling that the North has contributed more generously to the defeat of the German army, and has suffered far more heavily for Italy. There is criticism of the Axis Government and by the Allied Government in the recognition of the Axis Government in the solution of the pressing economic problems of food supply and inflation. Above all in the judgment of former fascists. The Italian Government in Rome may of this antipathy and has an agreement which goes further than that of the Supreme Allied Commander in recognizing the Axis in the various matters in the struggle in the North. The Government has succeeded in making a certain measure of recognition from the Axis in the North, but the possibility cannot be overlooked that they, or their opponents, will take advantage of this agreement in circumstances and circumstances for a political agreement. It is hoped that after liberation the Axis Government will be able to show additional support from the North and thereby become more representative.

4. Not there are other considerations which should be borne in mind in implementing the policy indicated in the above paragraph. It is to the interest of the Axis that there should be a stable government in Italy. The Allied policy is to strengthen the legitimate Italian government in every way possible. The Italian Government in Rome may not have the same confidence in the Axis in the North and, at best, their influence there may be subject to fluctuation. This may be based on several factors. There is the feeling that the North has contributed more generously to the defeat of the German army, and has suffered far more heavily for Italy. There is criticism of the Axis Government and by the Allied Government in the recognition of the Axis Government in the solution of the pressing economic problems of food supply and inflation. Above all in the judgment of former fascists. The Italian Government in Rome may of this antipathy and has an agreement which goes further than that of the Supreme Allied Commander in recognizing the Axis in the various matters in the struggle in the North. The Government has succeeded in making a certain measure of recognition from the Axis in the North, but the possibility cannot be overlooked that they, or their opponents, will take advantage of this agreement in circumstances and circumstances for a political agreement. It is hoped that after liberation the Axis Government will be able to show additional support from the North and thereby become more representative.

see M 314

(Mrs. M. L. L.)

5. Relations with the Italian Government. The recognition of the title as the representative of the Government in the struggle against the enemy does not affect the Allies, who are not parties to the arrangement. Moreover, the Italian Government has no authority of any kind in military Government territory. Its activities with the GPRC are not restrictive in military Government territory and do not affect the relations between AMG and the GPRC.

6. The problem facing AMG, therefore, is to reconcile the military arrangements of the Supreme Allied Command with the restrictions of the political leaders of the GPRC to self-government, at the same time supporting the authority of the military Government in Rome in order that it may be able to administer the northern part of the country at a very early date. The solution of this problem may well be found in the administration of AMG. AMG's arrival in the North and timely inform the GPRC of its being consolidated, the self-government will be great and may well be disastrous. Acceptable in the Patriot organizations composed of Italians who are not interested in the first suggestions of the GPRC, who can always be used, many of the problems of maintaining law and order will never arise. It will be easier to adjust the local resources of the country in the work of reconstruction together the former Patriot organizations and the Italian Government, and it will be easier to prepare the ground against the time when the Government in Rome can take over the administration.

7. This the foregoing paragraph lays down a principle which is unqualified to reconcile the military arrangements of the Supreme Allied Command with the restrictions of the GPRC, there are special considerations in regard to the office of AMG and the GPRC. AMG, as the official representative of the Government, are normally represented by the Government from official officials. Even in the present situation this practice has generally been followed. Similarly the Government have normally appointed from public safety personnel by the Central Government. Other appointments, such as the judges, etc., are usually local officials. The obvious reason for the Italian Government wishes to continue the existing practice in regard to AMG and the GPRC, and have instead it would be very recently. It is the policy of the Allied Commission to support the Government and it would be useless to expect, entirely, from the normal practice. The Italian Government has, therefore, been advised that any specific action when they put forward for appointment to the post of Prefect or Governor by AMG will receive consideration. At the same time it has been pointed out that it would be quite useless to say that any action that is not acceptable to the locality.

Declassified E.O. 12958 Section 3.3/NND No.

While the foregoing paragraph lays down a principle which is limited to controlling the military armaments of the Russian Allied Commander at the disposition of the CICA, there are special considerations in regard to the effect of this act and question.

representatives in the Government, are usually expected by the Government to exercise a veto. Even in the present situation this method has generally been followed. Still, the Quibell has usually been expected from public safety personnel by the Central Government. Other appointments, such as the judges, etc., are normally local appointments.

For obvious reasons the Italian Government wishes to continue the customary practice in regard to Venetian and Venetians, and have wished it again very recently. It is the policy of the Allied Commission to support the Government and is would be unable to depart, entirely, from the normal position. The Italian Government has, therefore, been advised that any specific situation where they put forward for appointment to the post of President or Ministers by AMI will require consideration. At the same time it has been pointed out that it would be quite unlikely to say that any decision was to not acceptable to the locality.

On the other hand, by his arrangement, some say of the power delegated to the American Government, he is discounting the policy of this Commission, to the effect that it will be able to obtain more acceptance for the Government position, especially in regard to the view of the U.S. with those of the Italian Government. This may be desirable although the question still always arises which side is the stronger in the end.

The action is, therefore, as follows: On arrival in a Province is some agent certain that a Prof. and Quarters appointed by CIB will be found in office. This will be fully in accord with the agreement between the Supreme Allied Commander and CIB. These operations should not be continued until the individual is actually allowed to travel in order to bring back the acting Quarters - respectively solely for the purpose of carrying on routine business pending the final commitment by AGO. Pending this should then be invited from the CIB, to show it will be organized that all alone have the right to make the commitment that when agreed by the latter Government, the and other source. Pending this may also be sought from other source, i.e. the local authorities. The type of Government organization for these two points will be furnished by this Department as soon as they are available, and local Quarters should then be sought as to the possible acceptance of the Government's proposal. The agreement should not be hurried and it is much better to allow time for the matter to be fully decided to help. In appointing a Quarters must be intended in to be checked to the Government's practices of the

It is suggested that these special circumstances apply only to the area between the coast and Canton. The Indian Government will negotiate these values. Articles are probably local chemicals and are officers will negotiate them with the people to the extent.

The Cliff must be treated with the courtesy due to their political position and their past labors. They should be received regularly by the IC and given the opportunity of expressing their views. They are at liberty to make recommendations to the IC in the present, both of whom should echo the advice not given at the Cliff whenever they think it up or true. It is however entirely a matter for the IC to consider whether, in any particular case, the advice of the Cliff is to be followed or not. It would of course be in keeping with this directive to maintain an open policy of contact with the Cliff on all matters.

[illegible]

It must be only with to the President and to other officials that they are the servants of God and can claim a higher law than this. On the other hand, the President gives his full support to the President and the official administration. If he no longer has confidence in his officials, the President should see them to remove them. The President must not exercise executive functions or usurp the authority of the President, but by making official appointments or making an endorsement or inquiry. If, after they have been fully informed as to the matter to be decided, the President is attempting to be obstructive or otherwise violate the rights of the Supreme Allied Commander as Military Governor, then, and as a last resort, the President may remove them completely. Such an attitude is to be adopted only in case of absolute necessity, even all of these circumstances have called for consideration to be a condition.

[illegible]

11 It must be said plain to the President and to other officials that they are the servants of the people and not the masters. In the other hand, the IC must give his full support to the President and the official administration. If he no longer has confidence in his chief, he should take steps to remove them. The IC must not exercise executive functions or usurp the authority of the President, or by taking official communications or putting up examinations of inquiry. If, after they have been duly named and ordered to resign, the IC persists in attempting to be executive or otherwise violate the orders of the Supreme Allied Commander as Military Governor, then, as a last resort, the IC may ignore them completely. Such a attitude is to be adopted only in case of absolute necessity, when all efforts of conciliation have failed and administration is at a standstill.

12 There is one problem that in parts of German Occupied territory, where the situation is slight, the ICs have set up governing bodies in each country, almost as a general system of universal suffrage. Such popularly elected bodies are to be set up in other levels. These bodies will not be given off the strength of the national local authorities prescribed by former directives will be established as soon as possible. But every effort will be made to absorb into membership of the national authorities the members of such an elected body at the same level. If in very special circumstances in German areas, the national body is allowed to continue for a short time, it must be understood that it survives its authority from the IC and not from any popular mandate.

Appendix to  
15 Army Group Operations  
Instruction No. 5 dated  
12 April 1945.

## DISARMING OF PARTISANS IN NORTHERN ITALY

### 1. Introductory.

a. On their entry into Northern Italy Allied Forces will make contact with Partisans in numbers considerably larger than any hitherto encountered. These Partisans have in large measure loyally obeyed the orders of the Allies and have caused very concrete losses and embarrassment to the enemy; they have thus earned as good treatment as one reasonably be afforded them. In addition, in the absence of fair yet firm treatment and, in the absence of positive and constructive employment, they might form a disillusioned and dangerous element under the disorganized conditions likely to exist during the period immediately following the withdrawal of the Germans and the arrival of the Allies.

It is therefore necessary to direct in what manner the various problems connected with Partisans in Northern Italy shall be solved.

### 2. Disarmament of Partisans.

a. It will be the responsibility of Headquarters Fifth and Eighth Armies tactically and appropriately be accomplished.

b. The local responsibility for making the necessary arrangements for disarmament will normally rest with AGO, which when local military conditions will be required to cooperate, their respective functions being defined by Headquarters Fifth and Eighth Armies and/or IX Corps in the light of circumstances prevailing in their area.

c. It is not considered that the standard AGO proclamation governing disarmament of enemy by the civilian population should apply to the Partisans in the initial phase.

organized conditions likely to exist during the period immediately following the withdrawal of the Germans and the arrival of the Allies.

It is therefore necessary to direct in that manner the various problems connected with Partisans in Northern ITALY shall be solved.

## 2. Disarmament of Partisans.

a. It will be the responsibility of Headquarters Fifth and Eighth Armies and/or IV Corps to carry out the disarmament of Partisans as soon as this can satisfactorily and appropriately be accomplished.

b. The local responsibility for making the necessary arrangements for disarmament will normally rest with AGO, which when local military commanders will be required to co-operate, their respective functions being defined by Headquarters Fifth and Eighth Armies and/or IV Corps in the light of circumstances prevailing in their areas.

c. It is not considered that the standard AGO proclamation governing collection of arms by the civilian population should apply to the Partisans in the Italian zones. Every effort will be made to secure the confidence of the Partisans everywhere and conduct disarmament through them. Action will be taken by 15 Army Group prior to Allied occupation of a given area to notify the Partisan leaders in that area of Allied intentions as to their treatment, and by means of Allied Missions, FFI etc to win the co-operation of the CHAI and GUM and the subordinate local parties.

d. There exists in Northern ITALY a considerable number of Allied Missions, British, U.S., and Italian, working in close liaison with the larger Partisan bands. Upon the withdrawal of the enemy forces and the arrival of the Allies these missions should be able to provide valuable assistance to local AGO officers and Military Commissioners. The leaders of these missions will be able to provide considerable information about local conditions, numbers of Partisans, numbers of arms etc. Their assistance in establishing relations with Partisans should be sought by local commanders and AGO officers. In the near future they will be instructed to reconnoiter for suitable accommodations for the establishment of the local Partisan centers. At the proper time they will be instructed by 15 Army Group to present themselves to AGO and Military Commissioners upon the arrival of those latter in their areas of activity. AGO Fifth and Eighth Armies and/or IV Corps will be informed of the locations of these missions and names of leaders.

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy of maintaining the status quo in the Middle East. This is due to the fact that the Government has been unable to secure the necessary funds to carry out its policy of maintaining the status quo in the Middle East.

C. Many comparisons will be given to the battle of Copenhagen and the battle of Port Arthur. It is probable that these should not appear as but be killed rather but rather as the expression of the 'Partisan' movement. It is probable that a number of comparisons to the 'Partisan' movement will be given but comparisons for the 'Partisan' movement.

There is a difference between the two. The first is a difference of degree, the second a difference of kind. The first is a difference of degree, the second a difference of kind.

2. The Executive Officer of the nearest State unit or association should be asked to the extent to take the salute and to supervise the collection of arms. The members should participate in making the arrangements and at the conclusion of the parade should march, preferably by subunits, to an assigned parking place where their arms will be parked there. At the same time attention should be made for the collection at convenient points of all ammunition, or weapons and accessories.

[illegible]

7. The Co member of the Allied unit referred to in sub para 2 above will not be the 'Sole', immediately after the capture, but the collection of the arms and of the base of operations etc also referred to in sub para 2, is intended at once to be taken into effect. C.A. 2.3. will not have been in any way collected.

4. If in any case the attendance at periods should be so low as to substantially negate the attending Fall to Spring sessions, the Allied Officers concerned will judge whether there is an important consideration in whether there is a likelihood of that of evasion of the order.

At this time, the periods will be allowed to continue but before it is discussed in an official meeting will

1. The handling in of arms may prove a convenient device for the a bulk house distribution of Patriot Certificates or the bulk of weapons; the certificates to each Patriot surrendering his personal weapons. Provisions must be made of all those who are certified by a recognized Patriotic Commander as being armed as genuine Patriots in an armed capacity, as a boy of the company, a heavy weapon or for other reasonable cause. If for any reason it is not possible for Patriot Certificates to be issued at the time of the parade, receipt should be given for weapons handed in, certification subsequently being issued as evidence of the receipt.

2. The Commander of the Allied unit referred to in sub para 1 above will be responsible, immediately after the parade, for the collection of the arms and of the large of munitions etc also referred to in sub para 1, disposing of them under Army and/or Corps arrangements. G.C. B.C. will not take part in any and collection.

3. If in any area the attendance at parades should be high or a substantial number of those attending fail to bring their weapons, the Allied Officer concerned will judge whether there is an imminent possibility or whether there is a likelihood of attack at evening of the order. If the latter, the parade will be allowed to continue but before it is dispersed the Allied Officer will inform the Patriotic Leader and through him those who failed to attend that all those who fail to hand in their arms at an appointed time before the end of the following day will be subject to severe punishment.

4. It is likely that a certain number of armed Patriots will be admitted to the Patriotic Reception Camps which are to be established in appropriate localities. In the case of individuals the Army Commander will have authority to exempt surrender of arms in exchange for a Patriot Certificate. If large numbers are involved arrangements will be made for all arms to be placed in the (usually) custody of the Patriotic Patriots in the camp pending their return handing over at the time of the parade. Similarly if any Patriots hand in their arms to an Allied unit they will be given a receipt justifying the subsequent issue of a Patriot Certificate.

5. If for any reason the system of disarmament following a standard parade is not adopted in a particular area, and if no satisfactory alternative

method is not favored by Action Commanders. An AGC investigation will be based on the fact that the Partisans for their services and pointing out that the initial rules governing the possession of arms by civilians are apply also to Partisans. A specimen of such a proclamation, used in FRANCE, is attached as Annexure 'A'. Thereafter any Partisan found in possession of arms, acquisition or possession without an AGC permit will be brought to trial before an Allied Military Court. A similar proclamation will also be posted after the conclusion of a successful stand-down parade, or of such other method of assessment of a successful local circumstances, in order to leave no room for doubt in the minds of those Partisans not present at the parade.

Finally it is stressed that disarmament of Partisans is an urgent matter. Experience has shown that the initial enthusiasm on liberation gradually gives way to a disillusionment born of the non-realization of organizations which the Allies cannot hope to satisfy. As such disillusionment grows, discontent becomes proportionately more difficult. While, therefore, it is undesirable to encourage field force limits as they are Partisan leaders often cooperation and assistance, it should be possible to effect disarmament in circumstances where they are not in a given area.

2.4.2. Action by Partisans.

It is certain that the Allies will find, on first arriving in an area, that the Partisans have already taken action against individuals, actions which may take the form of killing, beating-up, imprisonment or occasional fire. These Allied actions will be as follows:-

a. No action will be taken by the Allies in respect of cases involving death, beating-up or dismissal from office carried out by Partisans before their arrival.

b. Persons previously imprisoned by the Partisans or who collaborated with them, even in exceptional circumstances, be released or treated by the Allies as prisoners on arrival, but will remain at the disposal of the local authorities for such action as they may desire to take in pursuance of their duties or provisions. If there is undue delay on the part of the local authorities in dealing with such cases their will be reviewed and the prisoners released or by AGC in consultation with CAC and the Allied Security authorities.

c. After the arrival of the Allies in further independent action by Partisans will be permitted, except as ordered by proper authority. This will not, of course, apply to espionage activities on the part of British security constituted under the auspices of AGC.

2.4.3. Care of Partisans.

d. Administration of Partisans used operationally will be as follows:- the responsibility of the Allied units which receive them operationally.

also the type of killing, bedding, clothing, or placement of the body in the area. The Allied position will be as follows:

a. No action will be taken by the Allies in respect of cases involving death, disappearance or dismissal from office carried out by Partisans before their arrival.

b. Persons previously captured by the Partisans as a result of collaboration with the Germans, have in exceptional circumstances, be released or released by the Allied authorities on arrival, but will remain at the disposal of the British authorities for such action as they may desire to take in connection with their prosecution. If there is under delay on the part of the Italian authorities in dealing with such cases these will be reviewed and the prisoner released only after consultation with CHAIR and the Allied Security authorities.

c. After the arrival of the Allies no further independent action by Partisans will be permitted, except as ordered by proper authority. This will not, of course, apply to partisan activities on the part of bodies properly constituted under the auspices of SIG.

#### d. Care of Partisans.

a. Administration of Partisans used operationally will be, as 1321st, the responsibility of the Allied unit which retains that operational responsibility in all operations.

b. Basically the treatment of Partisans (other than those mentioned in (a) above) as regards their funding, housing, clothing, payment, hospitalization and rehabilitation in general, will be the responsibility of Headquarters Fifth Army, Seventh Army and/or IV Corps within their respective areas (zones). As such as control of any part of North Italy is assumed by AFHQ the responsibility for administration and rehabilitation of Partisans in that area is longer under control of Headquarters Fifth Army, Seventh Army and/or IV Corps will pass to the 1st District, No. 2 District and PMS (as the case may be) in conjunction with Headquarters Allied Command. The staffs of Regional Commissioners attached to Headquarters Fifth Army, Seventh Army and/or IV Corps will include Partisan teams consisting of one

GOVERNMENT ALLIATO

Al Patriottico e Partigiani di Firenze

Con i vostri sogni sfurati avete affrettato la liberazione del vostro Paese. La Patria Alliata vi ha visto e vi ha visto nella dura battaglia e apprezzano il coraggio e l'obbedienza dei combattenti che avete dimostrato.

Adesso dovete lavorare per la rinascita dell'Italia, il Paese vostro per il quale avete dovuto combattere così duramente per liberarla.

Idem lo amato/obbedienti viene il Governo Militare Alliato, per aiutare il Paese attraverso il primo aiuto di rinascita. Il nostro esempio del Governo Militare Alliato e' costituito la vita alle sue esaltazioni morali; all'essere in sofferenza, aiutato con tutta la nostra sollecitudine, con tutta la nostra "bravura" dei suoi e famigliari; e, soprattutto, con tutto l'ordine e la legge. Comprendete che la legge e l'ordine sono la responsabilità della pace della polizia regolare e che e' impossibile di parteciper, ad altro paese che loro, l'essere in possesso di armi, senza speciale permesso permesso.

Il Governo Militare Alliato ha guidato duramente in ordine e valore di voi non erano più combattendo in prima linea di conseguenza la crisi. Questo non potremo a loro volta essere esaltati ai Patriotti del Nord. Il Governo Militare Alliato quindi ha piena fiducia che i Patriotti di Firenze, che hanno dato un così brillante esempio di esaltazione in armi e nobiliti esaltamenti contro il paese nostro, sapranno la necessità, per rendere questo loro, e non solo, esaltamento in questo primo esempio di rinascita, presentando come hanno fatto i loro combattenti nel Nord.

SUBJECT: Finance LMLI

TO: President  
Allied Commission  
JO 384

1. Under the terms of the agreement signed in December 1944, between the SAC and representatives of the CLMIL visiting AFHQ, it was agreed to contribute a monthly sum of 160,000,000 lire to the CLMIL. Signor LONGHI, President of the CLMIL, has recently returned from North ITALY and has reported that he has been able to distribute these funds throughout the enemy-occupied territory. He asked, however, that consideration be given to increase this monthly contribution to 300,000,000 lire. His reasons are numerous, such as the increased cost of living, the enemy forcing inflation, and the increase in numbers of the partisan force, which since the agreement was signed has grown from 65,000 to 90,000.
2. He also pointed out that as the agreement was signed in December, in his detailed arrangement with the SAC the first installment was to be paid on 1 December, no thought being given to any contribution for the month of November. His previous source of supply ceased at the end of September. He therefore urged that the agreement should be made retrospective to 1 November.
3. This Headquarters views both the above proposals made by Signor LONGHI with approval, but as the Italian Government has agreed to reimburse the contributions of 160,000,000 lire monthly, it is felt that they should be asked to consider in these new proposals and to accept the added financial responsibility. It is and always has been the wish of the CLMIL that the Italian Government should bear the responsibility for their (CLMIL) financial support.
4. You are therefore requested to approach the Italian Government with a view to obtaining their support to these new proposals put forward by the CLMIL. Further the Italian Government should be requested to repay this additional contribution monthly as is their present arrangement, and to pass immediately a credit of 160,000,000 lire for the month of November 1944.
