Please see folio 68. General breeding takes place with the Committee on the extent of the responsibilities which should be placed upon Land Forces. Subcommissioner with respect to the Garrisoner, while Article 210 Paragraph 2 (c) is administratively the right answer, it poses a rather serious political problem in that it might well have, ultimately, a considerable effect on the institutional question. Division of responsibility in the past has acted as a check, perhaps you would wish to discuss this question informally with the Argentine Minister before we commit ourselves to an aide memoire.

Chief Comptroller.

Last January 45.

I discussed this with Brigadier Upjohn and Colonel Chapman. We did not get very far forward. As Colonel Chapman said we ought to have thought of it some months ago, for to organise such a scheme now would tend to disrupt the C.C.B. Yes; as we need them for the north. I am still convinced, however, that we must endeavour to do more for the S.D. and they have gone away to think the matter over.

Tel: 470427

20 June 1945
JUL 2 1945

AC/14634/PS

SUBJECT: Reorganisation of the CO.RR. and other Police Forces.

TO : Allied Forces Headquarters, ATO 512,
(Attention: G-5 Section.)1. Reference is made to your G-5 C14.12 of 11 May, 1945,
and to my 3626/EC of 19 May, 1945.2. Since writing my letter of 19 May, I have had occasion
to make further study of AFHQ letter AG 091.711/169 OCT-O of
16 November 1944, and I am now firmly convinced that under the
provisions of that letter the responsibilities of Land Forces
Sub-Commission (NOMIA) in regard to the CO.RR. do parallel the
responsibilities of the Italian Ministry of War insofar as
control, supervision, administration and supply are concerned.
I, therefore, request that a critical study be made in order to
clarify the situation which has developed over the past several
months in regard to responsibility for training, feeding, cloth-
ing, and equipping the CO.RR.3. In your letter G-5 C14.12 of 11 May, 1945, it stated
that "NOMIA responsibility for their (the CO.RR.) administration
is specifically limited to seeing they are supplied with rations
similar to the Italian Army." In this connection I invite your
attention, first, to the fact that NOMIA admit their responsibility
for the feeding, clothing and equipping of the CO.RR., (letter A.018
of 11 April, 1945, copy sent to you as enclosure to our letter
3626/EC of 14 April, 1945), and, second, to para. 4b of AFHQ letter
AG 091.711/169 OCT-O of 16 November, 1944, wherein it is stated
that NOMIA will be responsible for supervision of administration

and supply of the Italian Army. At this point may I say that there is no question about the CC.RR. being Italian Army units, inasmuch as they were specifically included under the CCS authority to re-establish the Italian Army and are specifically included in the list of Italian Army units maintained internationally as set out in the AFHQ letter above referred to.

4. Also in your letter of 11 May, 1945, it is stated that "MIA are not charged with responsibility for their (CC.RR.) organization, supervision or use". May I invite your attention to several paragraphs of AFHQ letter AF 091, 711/169 AGT-3 of 16 November, 1944, which would seem to be not in accord with the statement just quoted. Para. 3 of the letter provides that "Control of the Italian Army is exercised by the Supreme Allied Commander through the Land Forces Sub-Commission." Para. 4 specifically places a number of responsibilities on MIA including supervision of administration and supply, supervision of appointments, promotions, dismissals, discipline, and liaison between the employing Allied formations and the MIA and Ministry of War. Para. 8a provides that "in principle the Italian Military Authorities are responsible through MIA for the administration of all categories". Para. 9b provides that "the general administration of the Italian Army is vested in the Ministry for War." Para. 24, in part, provides that "The Carabinieri (CC.RR.) are under the command of the Commanding General of the Garibaldi". The Commanding General is a general of the Italian Army who is responsible to the Ministry for War. Thus is developed the chain of command, supervision, administration and control all exercised through the Land Forces Sub-Commission (MIA). The only mention of any other responsibility is also in para. 24, wherein it is stated "The Carabinieri are a civil police organization directed by Public Safety Sub-Commission.". Thus the responsibility of Public Safety Sub-Commission is specifically limited to directing the operational use of the Carabinieri as police.

5. The failure to recognize and clarify the full responsibilities of MIA in regard to Carabinieri within the existing provisions of the AFHQ letter has resulted in an unsatisfactory

785017

level of supply of all kinds of equipment as compared with line troops of the Italian Army. Also this has caused the development of a fallacious opinion that, because Carabinieri are used as police, Public Safety Sub-Commission, which controls nothing in the way of supplies and equipment, is responsible for everything relating to Carabinieri. This situation has contributed materially to the ineffectiveness of the Carabinieri and the reports I am now receiving from my Public Safety officers in the north all testify to the very poor impression created in the minds of the public in all parts of the territory recently liberated by reason of the poor turn out of the Carabinieri sent North.

6. The internal security situation in Italy is far from satisfactory and threatens to become worse due in part to taking Carabinieri from the south to assist in the policing of the north. Now that combat operations have ceased, I feel that every aid and assistance possible should be given to strengthen, not only the Carabinieri, but also other Italian Police agencies. I see no reasons why Land Forces Sub-Commission (MFIA) should not perform the same functions for Carabinieri that have been performed for other Italian Army units under the provisions of the AFHQ letter herein referred to.

7. For the reasons herein expressed and as a matter of urgency, I request that serious and prompt consideration be given to this matter.

Ellery W. Stone

ELLERY W. STONE

Tel : 489081-365

8 June, 1945.

AC/14191/PS

WFO NMF 6 I
19 JUN 1945

SUBJECT : Public Security in N. Italy.

TO : Executive Commissioner

(91)

1. Reference 3626/EC dated 14 [REDACTED] 1945.

EC para 1(b)

2. (a) The primary responsibility for clothing and equipping CC.RR is one for MFA (Land Forces Sub Commission) and Public Safety Sub Commission is in constant touch with them on it. The present directive is not satisfactory. MFA's responsibility has, naturally, been primarily to the combat units and Public Safety Sub-Commission has not got the powers, organisation or personnel to look after their supplies. A letter on this is now approved and going forward to AFHQ over the Chief Commissioner's signature. The following items have been allotted to northern regions during the past few weeks

2500	Boots
700	Tanics
200	Pairs Trousers
400	Caps
700	Ties
700	Puttees

In addition the Ministry of War is manufacturing 4000 pairs of trousers for issue to CC.RR. Further clothing will be manufactured as more cloth becomes available.

(b) It is agreed that equipment supplied to CC.RR. generally has been of inferior quality. The grey green type of uniform being made of shoddy soon wears out, and in many cases second hand repaired clothing has been the supply resulting in a very poor turn out of the men. Until cloth of a proper type is obtained and made up it would appear that the unsatisfactory dress will continue. Some good uniforms have been uncovered in the north and a supply of cloth has also been located near Como. It is expected this will soon be unblocked by MFA.

See M 96
M 30/6

(94)

- 2 -

The shoes issued are 2nd hand repaired goods and as such require changing at frequent intervals.

Firearms have been in short supply and in many cases rifles have been issued instead of muskets. The procedure is to secure a supply of muskets from dumps of surrendered arms in the north. This however is unsatisfactory as evidence goes to show that inferior arms are being turned in; the assumption being that the good ones are being concealed for nefarious use at a later stage.

CC para 1(b)
3. Reference Para 1(b). CC.RR. in the initial stages, as was expected from information received before the occupation, had a bad time as the C.I.N. would not recognise them. The situation is gradually changing for the better. The law abiding public are now weary of the banditry of so-called partisans and look to the CC.RR. to right matters. P.S. Officers are gradually getting the police accepted in their proper role and with increasing apprehensions of law breakers it is hoped that the interior rural districts will be on a par with the towns.

This can only be tackled by the P.P.S.O. and it is a slow but steady business.

CC para 1(c)
4. Questores for the most part have been appointees of C.I.N. Happily the demand for career officials is now increasing and a blend has been made of career assistants to guide the better of the C.I.N. Questores. The transient stage has been sticky and the uncertain political situation has militated against successful local government, but improvement is now apparent.

CC para 2
5. Transport has been a difficult matter. To date 48 3 ton trucks and 48 armoured cars have been allotted by AFHQ for CC.RR. mobile battalions (12 trucks and 12 armoured vehicles to each of the 4 Northern regions). 40 armoured cars proceeded to the North at the beginning of this week and are now in situation. These will be available to go to troubled spots. A further eight are undergoing repair. The 48 trucks were all Class 5 vehicles. ~~4~~ only were runners and these have been sent north. The other ~~44~~ are undergoing repair and will be sent north in small convoys as they are completed.

6. On 17 February the Executive Commissioner suggested to V.P. C.A. Sec. that extra vehicles for CC.RR. should be allotted from the 1700 vehicles being made available for the carrying of supplies. CC.RR. needs were made known to the Executive Commissioner on March 45, but it was then stated that the allotment of a number of trucks from the 1700 available would be wrong in principle.

S.J.J.

93

- 3 -

A request for additional transport for carabinieri was then made to MMIA on 21 March 1945. A complete statement of the vehicle position throughout the entire force was supplied and on 26 April 1945 MMIA replied that no additional vehicles could be allotted.

The matter was then referred to AFHQ by C-4 (B) who were preparing a consolidated statement of the needs of all A.C. transport requirements. The bid was made for 50 trucks on 14 May 1945. AFHQ replied that the general shortage of load carrying vehicles in this theatre made it impossible to release additional vehicles to CC.PP.

7. 50 Italian Army Recce cars have been released to Carabinieri by MMIA. These carry 2 men each and at the present time Carabinieri are being taught to drive this rather unusual vehicle in the Italian Army driving school. These vehicles are only of use for short patrol in towns to show the flag and cannot be considered as any real assistance from a transportation point of view.

8. CC.PP. General Taddei has been in the north reorganising the force and his return and report should soon be available. In the light of his investigations coupled with the reports of R.P.S.C's much improvement should be effected.

9. Finally it must be reiterated that a general programme of refitting CC.PP. - a force of 65,000 - plus the acquisition of more transport must be faced by Higher Authority.

Ref: 3626/SC.

14 June 1945.

SUBJECT: Public Security in N.ITALY.

TO : Vice President,
Civil Affairs Section.

1. Public security in Northern Italy is being affected adversely by the following facts.

- (a) The CC.RR are not properly equipped. Uniforms and shoes are lacking and in one instance I heard of an absence of firearms.
- (b) The CC.RR are performing their duties comparatively satisfactorily in the towns but when faced with a strong partisan feeling in rural districts are diffident and ineffectual.
- (c) The garrisons, particularly those of Communist leaders, are very apt to obey the orders of the CLN and partisans and to effect the most illegal arrests. This has been reported both from GENOA and VIRELLI.

2. May I know what is being done about this and whether you are satisfied that the CC.RR and other police agencies have sufficient transport to make them mobile.

(88)

Ref: 3626/RG

19 May 1945

SUBJECT: Reorganization of the CG.RI and other Police Forces of Italy

TO : Allied Force Headquarters, AFHQ 512
(Attention: G-5 Section)

(75)

1. Reference is made to your G-5 CL4.12 of 11 May 1945.

2. The point which you raise in your para 2 is noted--usually that MIA responsibility for the administration of the CG.RI is specifically limited to the supply of rations.

It is essential, however, to bear in mind that the CG.RI are Italian Army personnel more than historically; they are actually an integral part of the Italian Army, depending from the Ministry of War for their organization, supply, training, and discipline.

It was with the knowledge of this fact and with understanding of the Italian organization that the Committee which met to consider the reorganization of the CG.RI made their report.

(70)

3. This Headquarters' letter 3626/RG of 14 April sought assurance that "placing corresponding responsibilities (i.e., corresponding to those of the Italian Ministry of War whose counterpart in this Commission MIA is) on the Public Safety Sub-Commission and Land Forces Sub-Commission (MIA) would not be inconsistent with any directives that have been issued to Land Forces Sub-Commission (MIA) and, in particular, AFHQ letter AG-001.711/169 (CT-0 of 16 November 1944.)"

4. It is now my recommendation, should these proposed new responsibilities not be governed by existing directives to Land Forces Sub-Commission (MIA) or be in conflict with them, that it be considered whether these directives should not be changed.

MAY 6 REC'D

TO: Ministry of Finance.
(Attn: General Cillis.)

- 1 Very careful consideration has been given to your letter of 20 Apr 45 which was addressed to Major General Browning.
- 2 This Commission is sympathetic to many of the statements which you put forward. It is felt, however, that the whole question is one which cannot usefully be discussed any further. The problem of the future organisation of all Italian Police Agencies has very recently been referred to the Prime Minister for the consideration of the Italian Government, and the future status and organisation of the Royal Finance Guards is a matter which should, it is thought, be included in any consequent deliberations.
- 3 This Commission has no doubt that any approach to AFHQ for an alteration of the present ruling can only meet with a refusal at this stage of the war and a recommendation on the same lines as that made above.

T R A N S L A T I O N

FROM: Finance Ministry

Ref: 2342

TO MMIA

DATE: 27 April 1945

SUBJECT: Participation of the R. Finance Guard in military operations.

The G.O.C. the R. Finance Guard has submitted to me the earnest desire and wish of the Corps to take active part at the present moment in the military operations on the Italian front by means of a representative contingent, by the side of the other State Armed Forces which are fighting heroically for the total liberation of the nation.

M.V.I.A. knows the military traditions of the R. Finance Guard which has taken praiseworthy part with the revolutionary armies for the liberation of Italy, as in all the military campaigns carried out by the nation for its independence and unity and because of which it's exclusion from the campaign against the Germans and Nazi-Fascists today places upon the Finance Guard an unmerited inferiority as compared with the other Armed Forces of the State.

In view of the foregoing I should be very pleased if MMIA would kindly take into consideration the hopes of the "Yellow Flashes" assuring you that in the event of the request meeting with the approval of the Allied Command the representative contingent would be prepared within a very few days.

I should be pleased of a kind note in reply on the matter.

A.C.A.T. REC'D

AC/14601/53/PS

SUBJECT : Appointment of CC.RR officers in the North.

TO : Executive Commissioner.

1. Reference your 3626/52/EC dated 3 April 1945.

2. Attached is Appendix "A" showing the organization of Carabinieri Legions for the North, together with the names of the officers already appointed.

3. CC.RR officers are being transferred from the South to the North, but it is hoped to recover a large number of officers in North Italy. It has always been the policy of the Commanding General CC.RR to post the best type of officer to the North, and it is thought that a large number of good officers are still functioning or have joined patriot forces in occupied territory.

4. It is thought by the Public Safety Sub-Commission that the Divisional and Brigade establishment is not an essential part of the Carabinieri organization. Sufficient control is exercised at Legion level under the direction of the Commanding General, and accordingly every effort is being made to complete Legion officer strength before setting up full Brigade and Division Staffs which appear to serve very little practical purpose.

5. The officers being sent forward have all been subjected to Epuration by the Minister of War and found satisfactory. As other officers are recovered in the North they will be screened in the same way before becoming available to the Commanding General for appointment.

6. All postings of CC.RR officers to the North are first submitted to this Headquarters by the Commanding General. The matter is then cleared with Army AMG before the appointment is

- 2 -

confirmed. Any CC.PP officer found to be unsatisfactory after actually commencing duty can be removed from office by the Regional Public Safety officer in consultation with Public Safety Sub-Commission. Transfers are arranged with the Commanding General CC.PP who is co-operative. Recently a Legion Commander in AMG territory was removed in this way.

7. As the northern Regions become liberated, the present system will continue of informing Army AMG and Regional Commissioners (for R.P.S.O's) prior to the appointment of all CC.PP officers.

Subject: Reorganization of the Carabinieri and other Police Forces of Italy

To : G-5 Section, Allied Force Headquarters

1. The matter of the reorganization of the Italian Carabinieri is before the Commission. I enclose a report on this subject matter by a committee consisting of Colonel Roletti, Colonel Rusley and Colonel Chapman, together with a letter of comment by General Browning.

2. The position of the Carabinieri in the Italian Governmental structure has been that its organization, supply, training and discipline have been a responsibility of the Ministry of War, whereas operationally they have been placed under the control of the Ministry of the Interior. Before proceeding to the discussion of this matter with the Prime Minister, I should welcome your assurance that placing corresponding responsibilities on the Public Safety Subcommission and Land Forces Subcommission (SMIA) would not be inconsistent with any directives that have been issued to Land Forces Subcommission (SMIA) and in particular, AFHQ letter AG 091711/169 GCT-O of 16 Nov 44.

Safety Sub-Commission (the counterpart of the Minister of the Interior). It however would correspond with the existing service, where public utilities' brochures, though part of the government, tell of services which are mainly concerned with the protection of both the State (G.C.) and local police forces under one head. Otherwise the two police forces cannot be fully integrated. As in England, I think the Police Force should be separate from the civil and under the Minister of the Interior. The police would make a rational break with the public utilities' brochures.

- (a) The real answer would seem to be to have the whole control transferred and administered by both the State (G.C.) and local police forces under one head. Otherwise the two police forces cannot be fully integrated. As in England, I think the Police Force should be separate from the civil and under the Minister of the Interior. The police would make a rational break with the public utilities' brochures.

(b) The committee's proposal would effect early transfer some of the existing responsibilities from Public Safety to Local Forces Sub-Commission with control of the Civil Service.

The real answer would seem to be to have the whole control transferred and administered by both the State (G.C.) and local police forces under one head. Otherwise the two police forces cannot be fully integrated. As in England, I think the Police Force should be separate from the civil and under the Minister of the Interior. The police would make a rational break with the public utilities' brochures.

SUBJECT: Report on the future position of the Central
and other Commissions of India.

feel I must take before this matter goes further: -

- (a) The remarks on "spectre recommendations" (e) are liable to be misunderstood. D.G.A is responsible only for the funding, equipping and training of the army. India is specifically provided for in para 3 of this letter AD 301.71/less 37-C of 15 Nov 44, which states, "The Garrison Sub-Commission, with headquarters at Madras, except those units within Army formations in the command of the Southern General of the Services, and directed by the Public Safety Sub-Commission, will remain under the control of the existing responsible Agent. Any alterations in this division or otherwise will have to be effected by direct alteration of the paragraph of its directive."

(b) Though having certain advantages, the committee's proposal would in fact merely transfer one of the existing responsibilities from Public Safety to Land Forces Sub-Commission with further divided control.

(c) The real answer would seem to be to have the whole concern, training and administration of both the State (S.C.I.) and local police forces under one head. Otherwise the two police forces cannot be fully integrated. As in England, I think the Police forces should be separate from the Army and under the Minister of the Interior. This of course would mean a radical break with Indian tradition, though that is not necessarily a valid argument. It however would correspond with the existing trend, where Public Safety Sub-Commission (the counterpart of the Minister of the Interior) should do the job. It merely brings the supply agent owing to the special supply conditions obtaining in this theatre for this type of war.

(d) My representative on the Committee stated before it that D.G.A has neither the men or the staff at present to take on any large extra commitment, particularly with the uncharted problems of North India before us. Nor do I think would ADP agree to such a transfer. "This is a 'no' position of ours."

Major General
D.G.A.

S E C R E T

REPORT ON REORGANIZATION OF THE CARABINIERI
AND OTHER POLICE FORCES OF ITALY

R/0010

7 April 1945

APR 10 1945

INTRODUCTION

The Committee is sensitive to the realization that the most basic need for the achievement and maintenance of a sound democracy in Italy is law and order. During these months, even with the presence of thousands of Allied military personnel, law and order has been weak. Progress has been made in the moral and physical rehabilitation of the police forces, but the progress has been slow. Certainly, the progress has not kept pace with the economic and social forces which foment crises of violence and political disorders.

The Committee believes that the United States and Great Britain are genuinely interested in helping Italy to establish itself as a sound democracy. Hence, our two nations must be vitally concerned with the improvement of the Carabinieri and other police forces in Italy. Only if our two nations are not interested in the internal peace of Italy at the cessation of military operations can the following recommendations be ignored.

SPECIFIC RECOMMENDATIONS

- a. "Is it desirable and feasible, in the light of the "New Deal for Italy" and of the existing situation, for the Carabinieri to be reorganized at this time?"

The Committee answers that it is desirable and feasible. There is no explicit inhibition in the directive from the Combined Chiefs of Staff (FAW 187). There is ample latitude in the directive to permit the Allied Commission to assume a live interest and to undertake concrete steps to assist in the reorganization of the Carabinieri and the other police forces. In paragraph one of the directive, a specific reservation of the powers contained in the Armistice and surrender instrument is made for any case in which military needs are involved. Inasmuch as the Carabinieri are inextricably linked with the Italian War Ministry, sound basis can be found for any action on the part of the Allied Commission. Paragraph 3(a) of the directive does not prevent the effectuation of any of the recommendations made by the Committee. The directive contemplates that law and order is fundamental that the police forces of Italy, both in Italian Government territory and A&O territory, are entrained and that accordingly the Public Safety Sub-Commission has a wide scope of authority and responsibility. There is nothing in the directive which parves the authority and responsibility of the Land Forces Sub-Commission.

The Committee realizes that a heavy strain will be placed on all police forces as soon as Northern Italy is liberated. However, it is the judgment of the Committee that a substantial program of reorganization can be instituted and carried out even in the face of the situation that will develop in the North. The Committee feels that it is not too late for the Allied Commission to undertake the steps proposed in this report.

- b. "If such reorganization is made, what procedure should be adopted with respect to the Italian Government in bringing this about?"

The Committee recommends that the Chief Commissioner confer with the Prime Minister

with the purpose of presenting to the Prime Minister the Allied Commission's appraisal of the weakness of the Carabinieri and of the other police forces and the great need of their revitalization. The Chief Commissioner should ask the Prime Minister to have the Italian Government, and not merely the Minister of War or the Minister of the Interior or the Head of the Carabinieri, prepare and submit to the Allied Commission a concrete plan for the reorganization of the Italian police forces. The concrete plan should be discussed, formulated, and approved by the entire cabinet, and be submitted to the Allied Commission as a cabinet paper. One reason for this is to obtain in advance the agreement of the various ministers representing different political attitudes. Once the cabinet plan is submitted, the Allied Commission can take appropriate action.

The Public Safety Sub-Commission has, of course, been having conferences with General Brunetti, the Commanding General of the Carabinieri, and he is at the moment engaged in the preparation of a plan for the reorganization of the Carabinieri. The General intends to submit his plan to the Public Safety Sub-Commission. The Committee feels that, as indicated above, any plan submitted should come to the Allied Commission as a cabinet paper.

The Chief Commissioner should also point out to the Prime Minister that the cabinet paper ought to set forth not merely proposals of structural changes of the police forces, which may well be the temptation since it is the simplest task, but the paper should contain definite recommendations for the recruiting of new personnel, replacement of ineffective personnel, training, administration and discipline, and also moral strengthening of the police. The cabinet paper should likewise contain definite recommendations on the demarcation of responsibility between the Ministry of War and the Ministry of Interior with respect to training, administration and discipline, and particularly operational direction of the police forces. The Committee believes that the basic weakness of practical police operation in Italy is the divided responsibility. Technically, the Questura has authority operationally over the Carabinieri, but practically it is most difficult to achieve. The Italian Cabinet ought to focus its attention on this basic weakness of Italian law enforcement.

, both as regards personnel and equipment,

The cabinet paper should also set forth specifically to what extent the Italian Government desires the assistance of the Allied Commission and, also, whether it believes that a special commission of allied experts - Allied Police Mission - would be desired by the Italian Government.

- c. "If such reorganization is effected, should the organization, training, administration and discipline of the Carabinieri be made the responsibility of this Commission of the Land Forces Sub-Commission or the Public Safety Sub-Commission?"

The Committee believes that the respective responsibilities of the Land Forces Sub-Commission and the Public Safety Sub-Commission should correspond exactly with those of the War Ministry and Ministry of the Interior of the Italian Government. In the performance of the functions of these two Commissions, this line has not been followed in the past. As a result, any tasks which should have been performed have been totally ignored through no fault of either sub-commission.

The Chief Commissioner should issue a directive defining the responsibilities of the two sub-commissions in accordance with the recommendations made above. In other words, this directive would make the organization, training, administration and discipline of the Carabinieri a responsibility of the Land Forces Sub-Commission. The Public Safety Sub-Commission would be concerned only with the operational performance of the Carabinieri as a law enforcement agency. For instance, up to the present time there has not really been an effective job done by either sub-commission in following through and inspecting what occurs in the clothing, ~~Arms~~, arming, and feeding of the Carabinieri. The Land Forces Sub-Commission has not undertaken the task as it does with regular units of the Army. On the other hand, the

Public Safety Sub-Commission has not assumed the task because it lacks the authority inasmuch as those matters come under the authority of the Italian Ministry of War. And with this Ministry, the Public Safety Sub-Commission does not deal.

Once the Italian Government submits its concrete plan for the reorganization of the Carabinieri and other police forces, and a new line of demarcation is proposed by the Italian Government between its Ministry of War and its Ministry of the Interior, the Allied Commission in its work can make corresponding changes with respect to the duties of the Land Forces Sub-Commission and the Public Sub-Commission.

- d. "What steps, if any, should be taken to coordinate the reorganization of other police forces, specifically the Metropolitan and Public Security Guard, with the reorganization of the Carabinieri." ^{5/14}

The Committee is of the opinion that the reorganization of the members of the Guardia Nazionale, formerly the Agents of Public Security, is more urgent and vital even than that of the Carabinieri. The Guardia Nazionale has proven in practical operation to be a weak and ineffective force. The Committee recommends that the Chief Commissioner ask the Italian Government to include in a cabinet paper a plan for the reorganization of the Guardia Nazionale. The Committee sees no reason why a reorganization of both the Carabinieri and Guardia Nazionale cannot proceed simultaneously. The Committee makes no recommendation in respect to the Royal Guardia di Finanza or the Guardia Forestale.

Subject: Appointment of Heads of Carabinieri in the North
To : Vice President, Civil Affairs Section

At a recent meeting of the Prime Minister with the Regional Commissioners of Northern Regions, the question was raised as to the appointment of Heads of the Carabinieri in the North. It is presumed that the organization of the Carabinieri in the North will follow the former Italian pattern of territorial legions. Will you let me know what this territorial organization is and how it is proposed that the leaders be selected and appointed. Also, to what extent individuals have already been designated.

Reur 79195 GA 2B of 23 March.

Noted with satisfaction you agree to receive Italian Police experts but request that visit be not delayed until June and that it be authorized for earliest possible date before then.

Reasons are:

(A) Some 8000 sets fingerprints already collected and numbers likely to increase rapidly. The longer the visit to ENGLAND is delayed the greater will be numbers of prints which will have to be reclassified if "HENRY" system is ultimately adopted and process of transition will become progressively more difficult.

(B) Formation of modern criminal record system much easier if undertaken immediately rather than when large number of files have been accumulated. Moreover plans for general reorganisation Italian Central Criminal Record Office and provincial offices must remain in suspense pending the result of visit.

Request in light of above you state soonest date on which you can receive the mission

ref: 3626/48/HC

30 March 1948

Memorandum:

1. A committee is appointed consisting of the following officers, to meet at the call of the Chairman thereof, for the purpose of examining the question of reorganization of the Carabinieri and other police forces.

Colonel Charles Joletti - Chairman
Colonel John W. Chapman
Colonel W. G. Ridsley

2. The committee, in reporting its recommendations, will consider the following:

a. Is it desirable and feasible, in the light of the "New Deal for Italy" and of the existing situation, for the Carabinieri to be reorganized at this time?

b. If such reorganization is made, what procedure should be adopted with respect to the Italian Government in bringing this about.

c. If such reorganization is effected, should the organization, training, administration and discipline of the Carabinieri be made the responsibility in this Commission of the Land Forces subcommission or the Public Safety subcommission.

d. What steps, if any, should be taken to coordinate the reorganization of other police forces, specifically the Metropolitan and Public Security Guard, with the reorganization of the Carabinieri.

3. The committee will consider this matter as highly confidential and urgent. A report by 5 April is desired.

By command of Rear Admiral STURGEON

NICHOLAS E. FLAKE

MEMO TO: Civil Affairs Section, HQ A.C.
(Attention: Col. Cripps)

51

1. A letter from Sig. Bonomi to the Chief Commissioner, No. 258 (Presidency of the Council of Ministers) of 26 March 1945, on the subject of improvements in the Police Force, was passed for action to Civil Affairs Section on the 27th of March.

2. This letter begins "In accordance with your kind request," and it should be explained that these words refer to a personal conversation between the Prime Minister and Admiral Stone.

3. The Chief Commissioner suggests that if the Poletti Committee on CO.RR. has been appointed then Bonomi's letter and its attachment might be included for consideration by the Committee under its terms of reference.

R&E COMM R

(51)

The President of the Council of Ministers
2/8

Rome, 20 March 1945

MAR 28 1945

18-50

Dear Admiral,

In accordance with your kind request, I enclose a note showing the action and means required to reinforce without delay the police force; this is more than ever urgent nowadays, since the allied forces left the greater part of the administration of the liberated provinces to the responsibility of the Italian Government, and also because public order will be faced with difficult times when North Italy will be liberated.

Promising in the kind interest of the Allied Commission, I thank you and remain,

Yours truly,

A. L. Bonomi

Admiral Sir Harry W. Stone
Chief of the Allied Commission
R. O. R. C.

SANITARY SUPPLY AND MEDICAL

The fact of treating differently the P.C. Corps and the P.G. Guards Corps (and the Royal Guards de France) is a cause of trouble and dissatisfaction which is prejudicial to the collaboration between the police forces.

In fact, because of the regulation putting these last forces on civilian missions, P.C. (and the Garde de l'État) is a good nation which is really inferior in quantity as well as in quality to that which is allotted to the P.G. Corps.

The same rule established that the P.S. Guards are not admitted (in opposition to the missions supplied by the military authorities) in military hospitals nor are they entitled to go to certain hospitals which do not always have free beds, and which, as far as the military hospitals of very few means; civilian patients and those of the Garde des Sceaux will then from their families, but the Garde des Sceaux themselves, find themselves in a state of incertitude, as for the hospitalities, they have to buy them on the market, where they are expensive.

It is clear that all that this difference of treatment has an influence on the moral of the Garde, and hurts their pride for they know that they are exposed to the same dangers and to the same responsibilities, it was necessary to take special action to prevent tragic loss.

ANSWER

It is indispensable that the P.C. units should be attacked, this for disease, but especially, this for disloyalty, which are also responsible for the departure of the Garde des Sceaux, should be given back; they are indispensable for the re-occupation by the Garde des Sceaux, let present occupied by the Garde des Sceaux, for not committed officers for whom we have no premises. 5025

they have to buy them at the market, where they are expensive, and the goods, especially arms, are inferiority. As for themselves,

the main difference between them and us is that they are expensive to buy, and we are expensive to sell. This is because we have to pay more for our products than we do for ours. We also have to pay more for our products than we do for ours.

It is important that the U.S. under official action to prevent imports from China, so that we can't import them. This is because we have to pay more for our products than we do for ours. This is because we have to pay more for our products than we do for ours.

It is also necessary that we at least of the Chinese building, which are built for non-commissioned officers for whom we have no preference. (C) (2) (i)

It is also necessary that we at least of the Chinese building, which are built for non-commissioned officers for whom we have no preference. (C) (2) (i)

It is also necessary that we at least of the Chinese building, which are built for non-commissioned officers for whom we have no preference. (C) (2) (i)

SOURCE OF INFORMATION

The construction of Camp Beta presents great difficulties, and requires about 20,000 men to build the present structure and those who will be employed in the

military police which is being formed, to obtain an equipment which will enable to employ all the units, to sure a way that they would all be armed at the same time, the following items are required:

Gung, mod. 31, with bayonet, cal. 6.5	11,000 -
Automatic Service Gun, cal. 9	5,000 -
Hand Grenade	11,000 -
Cartridges for Mod. 31 gun, cal. 6.5	200,000 -

785017

hp

Cartridges for Beretta pistol cal. 9	n.	200,000
Cartridges for Strela automatic gun n. 37, cal. 8	"	100,000
" " "	"	200,000
" " "	"	6,000

Also indispensable:

Lapshins	10,000 -
Jackets	15,000 -

The current problem is urgent for nothing is more demanding for
military agents than knowing that the citizens are better armed than they are.

CLOTHING

To dress in uniform 12 thousand Guards only, the clothing requirement
would be the following:

Cloth uniforms (material, lining, sewing material, buttons) n.	12,000
Costs (with material, etc)	6,000
Waterproofs	10,000
Short waterproof coats (material, etc) for cyclists	200
Waterproof uniforms for motorcyclists drivers	600
Leather jackets for drivers and motorcyclists	6,000
Waterproof (material)	500
Coats for riding agents (material, etc.)	300
Cloth caps	8,000
Cloth belts	8,000
Linen hats	10,000
Pairs of shoes (plus top boots and leggings in the proportion of 1/3)	15,000
Leggings (bands)	8,000
Grey-green shirts	20,000
Linen shirts	25,000
Woolen sweaters	25,000
Sweaters and shorts for girls	25,000
Belts	25,000
Stockings	30,000
Bandages	20,000
Taick sweatshirts for cyclists and motorcyclists drivers	700
Black leather belts	10,000
Trousers belts	10,000
Sheets (pairs)	20,000

The material, lining, buttons, sewing material, leather, etc. required
to make the above mentioned pieces of clothing should therefore be supplied

C.C. 2

To supply vehicles and accessories, tyres especially, in as soon manageable proportions as necessary to suit demands made by units of forces, and to facilitate rapid movement of forces.

It is obviously necessary to give priority to units engaged in active operations. A hundred motorcycles and a thousand bicycles are therefore required daily. As an average number of tyres required per motorcycle or bicycle is 2.5, 250,000 - 500,000 - 750,000 - 1,000,000 - 1,250,000 - 1,500,000 - 1,750,000 - 2,000,000 - 2,250,000 - 2,500,000 - 2,750,000 - 3,000,000 - 3,250,000 - 3,500,000 - 3,750,000 - 4,000,000 - 4,250,000 - 4,500,000 - 4,750,000 - 5,000,000 - 5,250,000 - 5,500,000 - 5,750,000 - 6,000,000 - 6,250,000 - 6,500,000 - 6,750,000 - 7,000,000 - 7,250,000 - 7,500,000 - 7,750,000 - 8,000,000 - 8,250,000 - 8,500,000 - 8,750,000 - 9,000,000 - 9,250,000 - 9,500,000 - 9,750,000 - 10,000,000 - 10,250,000 - 10,500,000 - 10,750,000 - 11,000,000 - 11,250,000 - 11,500,000 - 11,750,000 - 12,000,000 - 12,250,000 - 12,500,000 - 12,750,000 - 13,000,000 - 13,250,000 - 13,500,000 - 13,750,000 - 14,000,000 - 14,250,000 - 14,500,000 - 14,750,000 - 15,000,000 - 15,250,000 - 15,500,000 - In 1936, it was also necessary to build a new Allard aircraft factory at Croydon, which had been established in 1933 to manufacture the early Spitfire. This plant was to become the main production base for the Spitfire, and the Allard aircraft factory was moved to Farnham. The Allard aircraft factory was to find on the site, the original building of the Allard aircraft factory, which had been demolished in 1933.

HEADQUARTERS ALLIED COMMISSION

APO 394

Office of the Executive Commissioner

Ref: 3626/1/50.

Chief Commissioners:

1. Some weeks ago I addressed you on the subject of the
instructions of the COAG and gave in my opinion that we, the Allies,
ought perhaps have helped more in the past and might yet do so in the
future in the way of extending the COAG and other political functions in
wartime duties. Discussions with TB, CO, Section and the Director of
the Public Safety Sub-Commission had in some measure and the matter dropped.
(The various political factors are not relevant at present in the English
Safety Standard Commission).

2. The sentence of the whole of this file (SDAG) caused
me to bring the matter to your notice again. As far as CO, CO, Section
concerns on the report on the Italian President. The President may in
a position, COAG has been proved repeatedly and in my opinion the
time has come when, at the expense of going outside the terms of the
Directive, we must take action.

3. In this first place the COAG need much improvement (it is
true they were not concerned in the Thirteenth case). The Italian Army
has consolidated itself, and to a certain extent reduced itself by
eliminating many in the other forces and making conduct in battles, there
are very weaknesses but the force is a going concern.

4. The COAG, part of the Army, have not achieved the great
success. True their last has been more difficult; their priority
in recovering prisoners, etc., lower; their morale less complex,
but we should, I think, set ourselves whether our treatment of the force
has been successful; whether we have taken at all the degree of
efficiency and enthusiasm which is inherent in the Italian Army. If we
find that our treatment has been at fault we should find a new method.

5. I believe we have been at fault; that we have failed between
two parallel that we have not handled the COAG vigorously enough in
AGC and have dropped the reins too hastily. Some of these considerations
may be laid at the door of Allied policy, but the result is what we
find in such cases as the ROMED case.

6. I suggest two alternative policies

(u)

Government as well as AMI territory, insofar as the organization and functions of the Police Forces were concerned. (A Police Mission has recently been set up in GREECE, we might well follow the same lines).

7. Without complacency I am satisfied with much of our work in AC but I feel that we must share with the Italian Government the sense of the existing inefficiency of the Police Forces and it is our duty to remedy the situation without fail.

8. I suggest a sub-committee under the chairmanship of Brigadier GARD with members from Public Safety and Land Forces sub-Committees should be set up to review the matter and make recommendations.

HEADQUARTERS ALLIED COMMISSION

APO 394

Office of the Chief of Staff

cc 14

33

Ref: 3626/COS.

27 January 1945.

Chief Commissioner.

1. I have been concerned for some time as to the relations of the Public Safety Sub-Com and the Public Safety officers with the CC.RR. The CC.RR have a pretty bad name in this country, sometimes deservedly, as I think in Sicily, sometimes quite undeservedly. But whatever their ceremonial and parade ground training may be like, they are obviously woefully lacking in the more general police training particularly in dealing with disturbances, etc.

2. The CC.RR are part of the Italian Army. The Allied authorities, in their wisdom, have attached to Italian formations Allied training officers who help considerably with the training of personnel and are present in the combat groups and are very much part of the Italian Army units themselves. Is it not our duty through our Public Safety Sub-Commission to take the same role ~~and~~ rather than that Public Safety officers should be advisers to the Regional and Provincial Commissioners they should be definitely part of the CC.RR units, acting as training officers to the legions and the smaller formations of the CC.RR. The presence of such officers in such a capacity could in no wise be taken as re-assuming control but would, in my opinion, do much to help the CC.RR and fill a gap for which I for one feel a certain responsibility. In other words, I think our Public Safety Sub-Commission both at HQ and in the field want to concentrate far more on the training as well as the equipment of the CC.RR and so by this means effect a better security organisation throughout the country.

3. I think this might be discussed with CA Section and Public Safety Sub-Commission.

I agree. Please do
this
MSL/JG.

1. AFHQ has authorized the formation of a mobile CARABINIERI Bn for use in SARDINIA on the same lines as the two bns now operating in SICILY (LCC/L.12/051 OCT-45 of 19 Jan).

2. The unit is to be formed within the existing CC.RR. coding, and authority has been given for the issue of 12 A.P.T.'s, and of 12 ~~2~~ ton vehicles or loan from Italian Army resources in the Island, until such time as CC.RR. obtain their own vehicles. A provisional time limit of one month is hereby agreed.

3. It is requested that A.C. Commissioner SARDINIA contact the MILIA LO in Island to arrange the transfer of suitable vehicles.

Land Forces
Sub Commission, AC (MMIA)
Rome
SD/28

17 January 1945

My dear: Lush

JAN 15 1945

Your 3626/26/COS of 15 Jan 45.

1. I'm afraid I don't agree.
2. You decided to have a mobile CG.RR unit in SARDINIA.

Your Public Safety Sub Commission wanted certain equipment. MMIA (not Land Forces Sub Commission) is the channel for provision of equipment, so your P.S.S.C. came to us and said, "Can we have it?" We said, "Yes - provided that AFHQ agree. We'll ask AFHQ" - which we did.

When we get the reply, we'll go ~~about~~ direct to your P.S.S.C. and arrange details.

3. Coordination is thus fully effective this end.

As MMIA is the supply executive directly under AFHQ, by MMIA going direct (as we did) direct to the appropriate section of AFHQ, we all save TIME.

Otherwise, if MMIA did not write, your P.S.S.C. would have to go to G-5, who would have to go to another section of AFHQ to authorize supply, i.e. the coordination would be done at AFHQ instead of, as it has been, here.

4. I honestly think that MMIA SD/28 of 11 Jan showed that we had coordinated this end, and that MMIA was merely asking for a supply authorization so that the whole thing could be tied up swiftly this end.

Yours, etc

Lancelot Browne

~~CONFIDENTIAL~~

(26)

Ref: 3625/26/300.

15th January 1945.

You will have received my memorandum on the necessity of coordination between sub-commissions on various subjects which are cognate with two or more sub-commissions.

My attention has been drawn to your letter SD/28 of 11th January regarding mobile Carabinieri.

In this case it would, I think, have helped APD if the letter had gone from the Chief Commissioner on the lines that:

- (a) it had been decided to form a mobile Carabinieri battalion (para 1);
- (b) the total constituents would be as stated;
- (c) if agreement was given to the proposal, Land forces sub-commission could make the necessary arrangements (para 3);
- (d) asking for approval.

I think we are in danger of giving APD the impression that coordination here is lacking and thereby giving them the responsibility of deciding priorities which should be done here in the Commission.

Do you agree?

SECRET

SUBJECT: Mobile Guard Bns in SICILY.

LAND FORCES SUB-COM. A.C.
(U.S.T.A.)

2 SD/28
3 JAN 44
JAN - 4 1945

To : Public Safety Sub-Com. A.C.

Copy to: AFHQ
DE Sec A.C.

1. AFHQ has approved the formation of two mobile GRS Bns in SICILY as presented in NYA letter SD/28 of 19 Dec 43.

2. The units will be formed within the existing CRR authorized ceiling and equipped with Italian transport.

3. Twenty-four Italian Army three ton trucks are now being made ready in NAPLES for transfer, on a loan basis for a period of one month, by HQ RQ CAMPAGNA to HQ CRR, NAPLES. Trucks are to be requisitioned from civilian sources in SICILY for the mobile Bns. The Italian Army has bid for transportation for

12 light tanks from NAPLES - SICILY
6 arm'd cars NAPLES - SICILY
12 light tanks ex SARDINIA

*on loan pending arrival lt tanks ex SARDINIA. Loan by rail subject special authority being granted.

4. Please inform this RQ when civilian transportation has been requisitioned in SICILY to replace the twenty-four trucks on loan to CRR from Italian Army.

31 Dec 44

My dear Sir Prime Minister,

I am writing to you in your capacity of Minister of the Interior to bring to your notice complaints which have been made about the inefficiency of the Italian police during recent disturbances which have taken place in Italy, and in particular in regard to those at Catania.

So far as these last disorders are concerned, it has been alleged, inter alia, that the police allowed the situation to get completely out of hand and took no measures whatever to deal with the comparatively small number of persons who were causing the trouble. For example, it is said that, during the disturbances, no policemen were to be seen in the streets; indeed, in at least one barracks, the Carabinieri had locked themselves in; the Lieutenant in charge explaining to an Allied Officer that because he had been ordered not to fire on the crowd he was unable to take any action. The Municipio was fired by not more than six persons, and the resulting conflagrations were not attended by the Fire Services, who were apparently afraid to venture from their stations.

These complaints, serious in themselves, are also indicative of the general criticisms which have been levelled against the police in recent months. They have been brought to the attention of your Ministry and of the General Commanding Carabinieri, by my Public Safety Sub-Commission, who have called for a full investigation to be made and for measures to be taken to prevent such complaints in future.

I am of opinion, however, that your various police commands are in need of the support of your Government in dealing with this problem, and I would suggest that consideration is given to the publication of an official announcement, made by you, on behalf of the Italian Government, as to the need for the preservation of law and order and of your Government's firm intention to insist on this being enforced by every means in your power and by force if necessary.

May I take this opportunity to remind you that I have not yet had a

(12)

reply to my letter to you on the subject of the possible reorganisation of the Italian police, dated 26th November, 1944, since I believe that any measures contemplated to deal with the present difficulty ought to be regarded as part of a larger plan to effect an improvement in Italian Public Security Services as a whole.

Yours very truly,

Hilary W. Stone

1. Public Safety Sub Cor. A.C. has recommended that mobile bns of Carabinieri be formed, from within the present CC.FF. existing and with personnel now serving in the CC.FF., in order effectively to suppress riots. It is felt that the very presence of such a column would serve as a deterrent to aggression. It is desired to form two bns in SICILY as a start. Column HQ would be at PALEMO with one Mobile Bn at PALERMO and one at MESSINA. Details are at Appendix "A".

2. It will be soon that the total request for the two bns in SICILY amounts to 24 Italian armored vehicles or light tanks and 16 Italian 3 ton trucks (excl two cars). *5*
TANKS - 24 - 16 - 12 - 2 - 2

3. The above is thoroughly supported by this HQ and it is requested

(a) that you agree in principle,

(b) that you authorize this HQ to lease Italian Armoured vehicles mentioned in para 2 above as and when available. Majority of vehicles are still in SARDINIA.

4. If it is conclusively shown that it is not possible to requisition 3 ton trucks, or for those to be supplied from A.C. sources, it is recommended that up to a total of 12 vehicles be issued from Army sources.

27 NOV Recd

My dear Prime Minister,

I know that in recent months your Government has given some attention to the question of the desirability for some reorganisation of the Italian Police. In my view the time has now arrived when this matter ought to be most carefully considered on the basis of both a long and short term policy.

Any constitutional change, which should be the subject of long term reform, will of course, be for you to consider, but nevertheless, even on a short term basis, which would more directly concern this Commission, I feel that there is a great deal which could be accomplished.

For your present consideration let me bring to your attention two points affecting the Italian Police Services, which I suggest should be the subject of careful review.

Firstly, the existing ambiguity of police command and responsibility, both on the administrative and executive levels. In the first instance, not only the Ministry of the Interior, but also the Ministries of War, Finance, Justice, Agriculture and Communications are all concerned with public safety matters, and in the second, the Royal Commissari, the National Police-Guard, the Finance Guards, the Forest Guards and the Railway police have by no means clearly defined spheres of responsibility, which are, in addition, superimposed one upon another.

Secondly, I believe there is much opportunity for the display of greater leadership by the officers of the various police services. I feel that this could be much improved by training the right type of officer in a much fuller and more comprehensive technical sense than has hitherto been the practice.

I am sure you will agree with me that any constitutional change of the Italian Police system will be a complicated matter, requiring a great deal of thought and a tension from all the authorities who would be concerned, thus it is by no means easy, or indeed prudent, to suggest in advance exactly what ought to be done. I would like to make the

5507

(continued)

785017

- 2 -

(3)

suggestion therefore, that an advisory committee of administrative and executive Police officials be constituted to give this matter full consideration and report to you their conclusions and recommendations.

I have in mind that your Government might wish to set up a full Committee, representative of the Ministries concerned and presided over by a Minister without portfolio, and that they would examine this subject by means of sub-committees upon which your technical experts could serve.

As I think you will agree the matter is urgent and the setting up of some such Committee as I have suggested is not only an expeditious and efficient way of handling the problems I have outlined above but will go far to restore much needed public confidence in the Police forces of the country.

If you decide to initiate such a step, I would, of course, be very happy to provide one or more technical advisers from this Commission to assist your Committee in its work.

Yours very truly,

EDWARD S. STONE,
Commodore, USNR
Chief Commissioner

His Excellency Ivano DOMENI

Ref. 10/16/1943/20/16

25 November 1943

2- NOV Recd

Dear Colonel Munro:

I shall be obliged if you will communicate the gist of the following to the editors of the Italian Press at one of your weekly meetings:

"The Supreme Allied Commander has noticed with grave concern the continued vicious and unfair criticism of the Italian Police Forces, and in particular the Carabinieri, which appears in a section of the Press. Such criticism has in some case extended so far as to incite the Police Forces to disobey orders.

The Supreme Allied Commander does not for one moment desire to curb or stifle fair and just comments and criticism on the actions of the Police Forces, but it is considered that the criticism to which reference has been made goes far beyond any such fair or just criticism.

The Allied Forces rely on the Italian Police Forces to maintain law and order in the rear of the fighting line. The continuance of these criticisms will, in the opinion of the Supreme Allied Commander, severely prejudice our military security in Italy by encouraging the populace to believe that the Carabinieri and other police agents are incapable of carrying out their duties. Such is emphatically not the case, and the Supreme Allied Commander will have no hesitation in taking repressive measures against the newspapers concerned and their editors, in the interests solely of the military security of the Allied Forces, if such criticisms continue.

Attention is also drawn to the deplorable effect on public opinion, both in the United States and in England, that these criticisms will have just at the time when Italy desires to resume to the greatest possible extent friendly relationships with those nations."

Thanking you for your co-operation in this matter.

Yours sincerely,

W. A. Dow

WILLIAM A. DOW

~~The Legal Sub-Commission has considered the possibility~~

(1)

ref: 100/14601/20/18

18 November 1960

Q1 100 Read

SUBJECT:

Press comments and criticism of the Royal Carabinieri.

P:

Acting President.

1. There are now certain instances if the Press have been carrying on a campaign of adverse criticism of the Police agencies in this country, in particular of the Carabinieri. Much of this criticism is probably unfair and, at times, unfounded. There is no doubt it is having its effect upon public opinion, and has affected the morale of the Carabinieri and other police forces which this Commission is at pains to build up.

2. Steps have been taken with various Ministers concerned, and with the Press in particular, to cause this criticism to cease; in fact Colonel A. N. Young of the Public Safety Sub-Commission recently addressed the editors of the Italian Press on the question of this particular adverse publicity. Within a very short period after this address two articles appeared in the papers "Testa" and "Avanti" which deliberately went out of their way to undermine the authority and prestige of the Carabinieri, and to invite them to disobedience.

3. The Legal Sub-Commission has considered the possibility of prosecution of both these papers but, in the opinion of the Chief Legal Advisor, as the Queen will have to be heard in Italian courts, not only may there well be some difficulty, but also the possibilities of success are somewhat meagre.

4. I therefore submit for your approval the draft of a letter which I propose to address to the Prime Minister, and as you will see from the last paragraph I also propose to have its contents communicated to the Press editors.
