101. MINUTES OF TWENTY-FIFTH MEETING.

The minutes of the meeting held on 20 June 45 were approved.

102. EXCHANGE OF FRESH VEGETABLES FOR PULSES.

It was reported that CG, ATOUSA was at present unable to deliver pulses on the exchange basis against releases of fresh vegetables made during the months of MAY and JUNE. Negotiations were still in hand for the delivery of pulses on CG, ATOUSA account from U.S.A. stocks, but that on account of an alleged shortage in U.S.A. it was feared that these negotiations would be unsuccessful. In view of the exchange agreement made, the Italian Government was now asking for delivery of the pulses claimed to be due against fresh vegetable releases in MAY and JUNE. The Committee considered that a ruling should be given by the Board as to whether CG ATOUSA should continue to obtain supplies of fresh vegetables on the exchange basis in view of the nebulous prospect of pulses being delivered to the Italian Government in exchange.

1466

ST, AFHQ representative reported that the MAY replacement due from ST, AFHQ would be made available during JULY and the JUNE replacement should be available during AUGUST.

105. ALLOCATION OF FOODSTUFFS.

A report was received from HQ AIOCM on the availabilities of foodstuffs for the month of August, and the allocations set out in Appendix "A" were made against the requirements submitted by Services.

104. MALT.

HQ AIOCM representative stated that subject to an agreement being reached on the rates of exchange of flour for barley, 4000 tons malting barley could be made available to E.C.I. during the next three months.

The E.C.I. representative said he was prepared to negotiate with ST to obtain the flour required for the exchange.

E.C.I. undertook to investigate the suitability of malt made from rice, and to report the result of their investigation to AMZAS APHQ.

103. FISH.

HQ AIOCM representative reported that at present there was no availability of white sea fish for general issue, the catch being predominantly blue fish (sardines and anchovies). AIOCM were agreeable to pursuing the negotiations for a general issue of fish if services would agree to take the catch in the proportions of blue and white fish as landed, but, if not, it was feared that the supplies of white fish would be sufficient to meet hospital requirements only.

106. ONIONS.

The committee approved the export of 750 tons of onions to NORWAY against replacement by imports of other foodstuffs from NORWAY. It was agreed that no surpluses of vegetables should be made available for export unless service requirements of the particular vegetables in the area concerned were being met in full without replacement.

107. NEXT MEETING.

The next meeting will be held at 0930 hours on Wednesday 22 Aug 45, in the AMZAS (APHQ) Conference Room, ROME.

In view of the possible reduction in numbers of troops based in ITALY, [illegible] agreed to re-examine their estimated monthly requirements of yeast for the remainder of 1945 and to submit such estimates to AFHQ by 15 June 45.

87. ALLOCATION OF FOODSTUFFS

A report was received from MG ALCOM on the availabilities of foodstuffs for the month of JUNE, and the allocations set out at Appendix 'A' were made against the requirements submitted by Services.

88. [illegible]

It was recommended to the Board that the Commander of French Forces in ITALY be elected to membership of the Committee.

89. REPLACEMENT OF FRESH VEGETABLES BY PRESERVED VEGETABLES

Services expressed the opinion that, in view of the very reports of large quantities of fresh vegetables now available in ITALY, there is now no necessity for the replacement of these vegetables by preserved vegetables as called for in para 2 (d) Sub III of Administrative Memorandum No 44, 1944. The Chairman referred to his recent tour of the North and stated that no overall surpluses existed. After discussion the Committee agreed that this matter should be placed before the ANAB (Italian) Board at its meeting of 2 JUNE 45 and AFHQ undertook to place this on the Agenda for the Board's meeting.

90. PROCUREMENT OF SPOT SURPLUSES OF FRESH FRUIT AND VEGETABLES.

The Committee agreed that the procedure outlined in AFHQ letter ACC/306/A.1 of 19 April 1945, Subject: "Procurement of Spot Surpluses of Fresh Fruit and Vegetables" had proven cumbersome and also to operate. The representative of ALCOM stated that instructions have now been issued whereby the directors of [illegible] in Italian Government territory and the Regional Supply Officers in AMG/AC territory will not declare spot surpluses of vegetables until they have ascertained, through their own channels, that the vegetables are not required for civilian consumption in their areas. It was therefore agreed that the local procurement officers of services could purchase such spot surpluses without reference to AFHQ or ALCOM and that Services would issue the necessary instructions to their officers to ensure that the interests of all services were considered before purchases were made.

91. PURCHASING FACILITIES

The Chairman drew the attention of services to the facilities offered by the C.N.A.I.P.O., 16 via Sant' AGATA, BOLOGNA (telephone BOLOGNA 22189), which is a co-operative association of fruit and vegetable wholesalers with representatives throughout Northern ITALY.

45. MINUTES OF FOURTEENTH (SPECIAL) MEETING

The minutes of the fourteenth (special) meeting held on 9 July 43 were approved, the representative of BBC requesting that the fact that he was not in agreement with the fourth sub-paragraph of para 40 be placed on record.

46. AUGMENTATION OF ITALY'S VEGETABLES

The Chairman stated that further efforts were being made to increase the imports of dry pulses by AC into Italy from U.S.A. with a view to increasing correspondingly the availability of fresh vegetables.

see Minute 36
11/26/43

Declassified E.O. 12356 Section 3.3/NND No. 785017

The AC representative stated that after careful consideration AC was unable to agree to the ECE unrestricted purchase as stated at the last meeting.

The Committee is of the opinion that the following new conditions are necessary in order to ensure that a reasonable amount of fresh vegetables produced can be made available to the Allied Armed Forces.

(i) That the importation of dried pulses for civilian consumption should be facilitated to compensate for the purchases of fresh vegetables by the Allied Armed Forces.

(ii) That all in the area under Italian Government control, Italian Departmental and Provincial organizations should be established in the producing areas to furnish more accurate and reliable information both with regard to availability and distribution.

(iii) That adequate means of transportation must be placed at the disposal of AC to permit of an economical distribution.

47. RE-ARMING AND EQUIPMENT OF ITALIAN ARMY.

The Chairman reported that the question of the increase of the calorific content of the mid-shift meal was still under consideration at CCS AC.

The study of the possibility of extending the issue of the mid-shift meal was delayed pending the submission by Anglo-US services of the numbers of employees involved in each step.

48. ALLOCATION OF FOODSTUFFS.

A report was received from AC on the availabilities of foodstuffs for the month of February and the allocations set out at Appendix 'A' were made against requirements submitted by Services.

49. TRADE.

In view of the considerably increased military demand for goods amounting to 190 tons in all plus the minimum civilian need (estimated at 75 tons), the total availability of 190 tons was inadequate. Representatives of BE,ACSB., US,ACSB., and UK AC agreed to reconsider the demands as submitted and to survey existing goods positions with a view to reducing their demands for February to a level at which requirements could be satisfied by the availability.

50. EXPORT TO AUSTRIA.

A demand for support from Italy to AUSTRIA was received and considered. The following allocations were approved, the final ratification and detailed arrangements to be dealt with by the Exports Division, Caserma Sub-Commission, AC.

47. EXPANSION AND INCREASE OF THE 100-OCTANE NEED.

The Chairman reported that the question of the increase of the calorific content of the 100-Octane need was still under consideration at HQ AC.

The study of the possibility of extending the issue of the 100-Octane need was delayed pending the curtailment by employing services of the numbers of employees involved in such a step.

48. ALLOCATION OF PROCEDURE.

A report was received from AC on the availabilities of foodstuffs for the month of February and the allocations set out at Appendix 'A' were made against requirements submitted by Services.

49. IRAQ.

In view of the continuously increased military demand for petrol amounting to 130 tons in all plus the minimum civilian need (estimated at 75 tons), the total availability of 150 tons was inadequate. Representatives of RAF,ACSEA., AI,AVIA., and HQ AC agreed to reconsider the demands as submitted and to survey existing stock positions with a view to reducing their demands for February to a level at which requirements could be satisfied by the availability.

50. SUPPLY TO ADEN.

A demand for support from Aden to ACSEA was received and considered. The following allocations were approved, the final notification and detailed arrangements to be dealt with by the Imports Division, Somerset House-Extension, AC.

For the month of February

ALLIED FORCES HEADQUARTERS (ITALIAN) BOARD

FOOD SUPPLY COMMITTEE

CHAIRMAN'S NOTES

JAN 19 1945

1. Pursuant to the directives of the Board a special meeting of the Food Supply Committee was held on Wednesday, 3 January 1945, to consider what new conditions are necessary in order to ensure that a reasonable amount of fresh Vegetables can be made available to the Allied Armed Forces. The proceedings are reflected in the Minutes of the meeting, but briefly:

(a) The Allied Commission put forward two proposals which were rejected;

(b) The U. S. & T. and the U.K. quartermaster proposed that the Services should be free to purchase fresh vegetables up to the minimum requirements and that the Allied Commission should requisition for increased imports of flour and pulses. Alternatively that the Services should be allowed to purchase 60% of their requirements and anything in excess of this amount should be on a replacement basis of one to four of dried Pulses.

2. The Allied Commission had discussions with AFHQ which elicited that the adoption of any plan involving exchanges from US Army stocks would involve financial complications.

3. It was resolved, therefore, that AC should prepare a case for submission to the Board setting out such conditions as would warrant a reopening with C.C.S. of the case for dried pulses for the civilian population. The following summarises the facts and shows the conditions at present extant which in the opinion of A.C. would warrant such demand on C.C.S.

4. In early August 1944 A.C. submitted demands for dried pulses based on A.C. appreciation of the needs of the civilian population. These demands were rejected on the grounds that local resources should be adequate. Experience has shown this premise to be fallacious for the reasons following:

(a) A decrease in production of 57%;

(b) Increased consumption to compensate deficiencies of cereals and other basic foodstuffs, i.e. meat, cheese;

1389

(c) Breakdown in local Government administration and machinery for controlling production and collection. Lack of Allied Officers to bolster up Government authority;

see M 30

Declassified E.O. 12356 Section 3.3/NND No. 785017

(d) The acute shortage of road transportation for the collection of such surpluses as may be available in producing areas, i.e. Sicily, Foggia, Naples;

(e) The requirements of special consumer classes and the additional needs in connection with the emergency feeding of Rome and the war devastated areas, in particular, Tuscany, Abruzzi-Umbria and Lazio regions;

(f) The purchases by the Armed Forces.

5. To meet these needs a minimum of 2520 tons of pulses are required monthly.

40. ALLOCATION OF FRESH VEGETABLES

The Committee considered what new conditions are necessary in order to ensure that a reasonable share of the fresh vegetables produced on the Mainland can be made available to the Allied Armed Forces.

The Chairman stated that the import demands of foodstuffs made by HQ AC on AFHQ for onward transmission to the Combined Chiefs of Staff had been considerably cut down resulting in higher consumption of vegetables by the civilian population with an ensuing reduction in availability to the Purchasing Agents of the Allied Armed Forces. In consequence of this, HQ AC found itself unable to continue to offer vegetables to meet the full demands of the Allied Armed Forces without some degree of replacement. It was strongly recommended to the Board that the only means of obtaining an adequate supply of vegetables for the Allied Armed Forces appeared to be the avoidance of reduction of the civilian import demands for foods-

AD. ADMINISTRATION OF FRESH VEGETABLES

The Committee considered what new conditions are necessary in order to ensure that a reasonable share of the fresh vegetables produced on the Mainland may be made available to the Allied Armed Forces.

The Chairman stated that the import demands of foodstuffs made by HQ AC on AFHQ for onward transmission to the Combined Chiefs of Staff had been considerably cut down resulting in higher consumption of vegetables by the civilian population with an ensuing reduction in availability to the Purchasing Agents of the Allied Armed Forces. In consequence of this, HQ AC found itself unable to continue to offer vegetables to meet the full demands of the Allied Armed Forces without some degree of replacement. It was strongly recommended to the Board that the only means of obtaining an adequate supply of vegetables for the Allied Armed Forces appeared to be the avoidance of reduction of the civilian import demands for foodstuffs submitted by HQ AC.

1382

A proposal made by HQ AC that purchases of vegetables by the official Purchasing Agents of the Allied Armed Forces should be unrestricted, and that a 100% replacement on an agreed scale of dried vegetables would be made for quantities so purchased, was considered. This was not acceptable to the representatives of the Purchasing Agents of the Allied Armed Forces. A proposal for a compromise to the effect that the exchange clause should only apply to purchases which exceeded the average purchases over the past 3/6 months was rejected.

As no acceptable solution could be found, members of the Committee agreed to consult higher authority as to whether Official Purchasing Agents should be permitted to place direct contracts by zones for 60% of their requirements (based on strength and ration scales) without restriction, on the understanding that any supplies so obtained over this percentage would be replaced by agreed quantities of dried, tinned or de-hydrated vegetables from Allied Armed Forces' stocks. The Chairman undertook to consult the Chief Commissioner on this counter-proposition and to refer the matter at the next meeting of the Board.

ADMINISTRATIVE MEMORANDUM)

NUMBER 44)

21 September 1944.

TITLE - ALLOCATION OF LOCALLY PRODUCED FOODSTUFFS

1. It is anticipated that the problem of feeding the Italian civil population will become increasingly difficult as the large centers in the North fall into our hands.

2. To meet this situation the following principles will govern allocations of locally produced foodstuffs by the Food Supply Committee of the Allied Force Local Resources (Italian) Board:

(a) In principle, locally produced foods which are readily stored or transportable will not be made available for allocation to the Armed Forces from 1 October 1944. Specifically, the following are not so available:

Dried Vegetables
Dried Fruits.

(b) The local military and ACC authorities shall consult together as to local surpluses, having regard to the possibility of moving the surpluses to another area as directed by the ACC. That portion of the surpluses which cannot be moved so as to arrive in good condition will be available to the Armed Forces under local arrangements. Specifically, the following fall in this category:

Green Vegetables
Root Vegetables
Hard Fruits

(c) Certain relatively small quantities are required for the victualling of ships. These will be made available as a second priority after meeting the needs of hospitals (see paragraph 4 below).

(d) Where green or root vegetables are bid for by the Armed Services at the Food Supply Committee, but of which there is no declared surplus, the Armed Services will offer at the same time the equivalent, or some other proportion, of preserved vegetables to the ACC for use as directed by the ACC in substitution of the green and root vegetables made available for the Armed Forces.

3. The ACC will not withhold from declared surpluses (as condition for use outside the area in which they are produced unless it has been established that they can be delivered in good condition in the areas in which they are required.

3. The ACC will not withhold from declared surpluses any consignment for use outside the area in which they are produced unless it has been established that they can be delivered in good condition in the areas in which they are required.

4. Potatoes: Owing to a failure of crop it will not be possible to meet the full estimated offtake which the Armed Forces should receive from the seed area. The Chief Quartermaster, AFHQ and the Director of Supplies and Transport respectively, in consultation with AMGOT, AFHQ, will make an agreed final bid for locally produced potatoes. Therefore, paragraph 2 (b) above will apply.

5. Citrous fruits, soft fruits and nuts will continue to be made available under existing procedures.

29 September 1944

My dear Mr. Prime Minister:

In replying to your letter N. 13992/8/1 of 25 September 1944, I think I should point out that the facts on which you base your letter are correct only to a certain point.

The actual position regarding the requisitioning of sheep and goats for the French is as follows: The French Command were allocated 50,000 head in June last. They obtained 10,000 head and requested approval to export overseas the balance of 40,000. This request was denied by AFHQ and so far as the French are concerned all export of cattle is blocked. Their total purchases or requisitions in Italy is therefore 10,000.

On the other hand the requirements for British Indian troops for the next three months will have to be met; these total 48,000. This demand will come up at the next meeting of the Food Supply Committee of the Armed Forces Local Resources Board, the proposal being that it is met by the above mentioned 40,000 head saved from the French and with 8,000 head originally allocated to the British but not yet taken up. This would obviate any increase over the original allocation of cattle for all Allied troops agreed to last June.

I beg Your Excellency to rest assured that your point of view is appreciated and that it will be fully expressed at that meeting. In its decisions the Local Resources Board endeavors to strike a just balance between military demands and the needs of the sorely-tried Italian national economy, and we will therefore certainly oppose any effort to obtain fresh allocations of sheep and goats, at the same time representing strongly that, under the circumstances of the existing food situation, even the 48,000 might now be considerably reduced.

Yours very truly,

ELLERY W. STONE

At a meeting at AMG on 18th to determine policy and procedure in the allocation of local produce, surplus to civilian requirements, it was agreed as follows:

1. POLICY:

a. Locally produced foods which can easily be stored, or transported within reasonable time should not be considered as available surpluses for the Armed Forces. Specifically, dried fruits, dried vegetables, and potatoes will always be in this category.

b. The first claim of the Allied Forces shall be for hospital requirements. Certified minimum requirements for hospitals, British and American will be met and nothing in this directive is to be read as limiting the necessary minimum supply for hospitals.

c. That portion of a locally declared surplus which cannot be transported for civilian requirements in good condition within reasonable time to be determined by the Allied Control Commission, shall become available to the Armed Forces under local arrangements. (e.g. if in area 'A', say 800 tons of any cabbage or cauliflower is declared surplus and only 200 tons can be transported for civilian consumption, the remaining 600 tons will become available for the Armed Forces). Root vegetables, green vegetables and fresh fruits are in this category.

d. Certain small quantities of local produce are required for victualling ships. These will be made available as a second priority after meeting the requirements of hospitals.

e. Where green or root vegetables of which there is not a surplus are bid for by the Armed Services at the Food Supply Committee, the Armed Forces will offer at the time of bidding the equivalent, or some other proportion, ofpreserved vegetables to the Allied Control Commission for use as directed by the Allied Control Commission in substitution of the green and root vegetables that may be made available for the Armed Forces.

2. PROCEDURE:

a. Regional Supply Officers will report monthly as at present the surpluses in their Regions.

1. It is anticipated that the problem of feeding the Italian civil population will become increasingly difficult as the large centres in the North fall into our hands.

2. To meet this situation the following principles will govern allocations of locally produced foodstuffs by the Food Committee of the Allied Force Local Resources (Italian) Board:-

(i) In principle, locally produced foods which are readily stored or transportable will not be made available for allocation to the Armed Forces from 1st. October 1944. Specifically, the following are not so available:-

Dried Vegetables
Dried Fruits

(ii) The local military and Allied Control Commission authorities shall consult together as to local surpluses, having regard to the possibility of moving the surpluses to another area as directed by the AAI. That portion of the surpluses which cannot be moved so as to arrive in good condition will be available to the Armed Forces under local arrangements. Specifically, the following fall in this category:-

Root Vegetables
Green Vegetables
Hard Fruits

(iii) Certain relatively small quantities are required for the victualling of ships. These will be made available as a second priority after meeting the needs of hospitals (see below).

(iv) Where green or root vegetables are bid for by the Armed Services on the Food Supply Committee, of which there is no surplus, the Armed Services will offer at the same time the equivalent, or some other proportion, of preserved vegetables to the ACC for use as directed by the [illegible] of the green and root vegetables made available for
