LUMBER SUB-COMMITTEE OF THE MATERIALS COMMITTEE - MINUTES

1. A Sub-Committee constituted as shown in para 10 of the minutes of the first meeting of the Materials Committee met at 1415 hours on 20 AUG 45 at AFLRS offices, ROME.

PRESENT:

Chiefs of Section, AFLRS, AFHQ

Representatives of:

DES, AFHQ
CE, MEDUSA
HQ, ALCOM

2. CONTROL OF LUMBER IN NORTHERN ITALY:

HQ ALCOM, at the request of PBS, have blocked all lumber in the Provinces of BELLUNO, TRENTO and UDINE. CE MEDUSA representative stated that U. requirements of timber in these areas would be satisfied from stocks of fell lumber under PBS control and that the blocking order referred to above could be removed. The sawmills at present under PBS requisition will be released as soon as possible.

DES AFHQ submitted a request for the following area to be controlled:-

That part of the Provin[illegible] of UDINE lying to the North of UDINE plus the area bound by map references : 2230
B.8460 - B.7360 - B.9060 - C.0360 (Sheet 3 Italy Road Map 1:250,000)

The present controlled area in Calabria is only sufficient to meet approximately 50% of British requirements of timber and the above area is needed

Declassified E.O. 12356 Section 3.3/NND No. 785017

1. A Sub-Committee constituted as shown in para 12 of the minutes of the first meeting of the Materials Committee met at 1415 hours on 20 AUG 43 at APLRS offices, ROME.

PRESENT:

Chiefs of Section, APLRS, APHQ

Representatives of:

DES, APHQ
CE, 8TOUSA
HQ, AUCC

2. CONTROL OF LUMBER IN NORTHERN ITALY:

HQ AUCCA, at the request of [illegible] have blocked all lumber in the Provinces of BELLUNO, TRENTO and [illegible] UDINE. CE 8TOUSA representative stated that U[illegible] requirements of timber in these areas would be satisfied from stocks of felled lumber under PBS control and that the blocking order referred to above could be removed. The sawmills at present under PBS requisition will be released as soon as possible.

DES APHQ submitted a request for the following area to be controlled:-

That part of the Provinc[illegible] of UDINE lying to the North of UDINE plus the area bounded by map references : B.3460 - B.7360 - B.8080 - B.0380 (Sheet 5 Italy Road Map 1:200,000)

2230

The present controlled area in Calabria is only sufficient to meet approximately 50% of British requirements of timber and the above area is needed to satisfy British Engineering Service commitments.

In view of the Provinces of BELLUNO, TRENTO and BOLZANO being available to meet civilian requirements the Sub-Committee unanimously recommended that, subject to local industry being maintained, the request submitted by DES APHQ be approved, and that prompt effect be given to it by interim action to permit of DES needs being satisfied.

Both U.S. and British Engineer Services stated that in the event of their estimated timber requirements being reduced every effort would be made to release part of those areas at present under their control or recommended to be placed under their control.

3. PLYWOOD:

Services reported that they were chiefly interested in plywood of 6 mm thickness or more.

/In view.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

In view of this the Sub-Committee recommended to the Materials Committee that :-

(a) the term plywood as at present on the controlled list be defined as all plywood of a thickness of six mm or more exclusive of plywood specifically produced for aircraft construction;

(b) plywood of less than 6 mm thickness and plywood for aircraft production cease to be a controlled material.

AFLNS in conjunction with AL/CS will survey the situation regarding stocks and production of plywood in the light of the above recommendations in order that the availability of plywood suitable for military needs could be ascertained.

HQ ALCOM undertook to instruct plywood manufacturers to concentrate on the production of plywood of 6 mm thickness or more and services agreed to submit to AFLNS (AFMQ) their anticipated requirements of plywood for the three months September, October and November.

Services agreed that in future demands for plywood would be submitted in square metres stating millimetre thickness required, in order to insure uniformity.

Pending the above availability being ascertained HQ ALCOM representative stated that ALCOM could not agree to any imports of plywood.

Plywood. It was agreed that the availability should be divided equally between DBS, AFHQ and CE, HTCUSA, these two services to cover the needs of all British and American services respectively.

138. PLYWOOD:

A request was submitted by CE, HTCUSA for permission to export plywood to USFET. The Chairman pointed out that such a matter came under the jurisdiction of the Supreme Allied Commander's Economic Sub-Committee and should be referred to such Sub-Committee through staff channels.

139. CONTROLLED MATERIALS:

In view of the availabilities of tin, solder and white metal being considerably in excess of requirements, the Committee recommended to the Board that these items be deleted from the controlled list.

140. AMALGAMATION WITH MISCELLANEOUS PURPOSES COMMITTEE:

Due to the diminution of the list of materials controlled by the Engineering Materials Committee, it was recommended to the Board that this Committee be amalgamated with the Miscellaneous Purposes Committee.

141. MEMBERSHIP:

The resignation of Signal Section, AFHQ from membership of the Committee was noted.

142. NEXT MEETING:

In view of the recommendation contained in minute 140, the Committee decided to adjourn sine die.

Major W.D. NEWMAN	Ord (Ar), AFHQ
Mr. V. DORKOVICH	AC (Industry Sub Commission).

3. The minutes of the Sub-Committee meeting held on 19 May 45 were read and approved.

4. Services estimates of July production of Oxygen and Acetylene by the static plants under their control, were placed before the Sub-Committee. Services July requirements were received and satisfied by allocation from the estimated production of these static plants. Details of these allocations are set out at Appendices "A" and "B".

5. Major Adams stated that C.E. MTOUSA wished to derequisition and hand over to A.C. the following 6 Gas Plants provided that A.C. could guarantee that Services requirements from these plants would still be met as before :-

PIEDI	ROME
SPAD	ROME
SOH	NAPLES
SPAD	NAPLES
SIO	FLORENCE
DEMECHELE	FLORENCE

2222

On behalf of A.C. Mr. Dorkovich guaranteed that Services requirements would be met as in the past.

SPAD	NAPLES
SIO	FLORENCE
DEBECHELE	FLORENCE

2222

On behalf of A.C. Mr. Dorkovich guaranteed that Services requirements would be met as in the past.

After considerable discussion it was decided that the best course to adopt when these plants were handed over to A.C., was for all Services to contract with the civilian contractor for the quantities of gases required and to hand over to the contractor free of charge sufficient raw materials to produce the quantities of gases required. In this manner the contractors would not include any element of raw material costs in their prices.

Since A.C. could not supply all the necessary raw materials required to produce Industrial Gases for civilian use and that Services could not issue raw materials to A.C. for this purpose under present Directives, A.C. undertook to request AFHQ for the necessary authority for the supply of raw materials in bulk to A.C. by Services for the production of gases for civilians. By this method, civilian needs would be satisfied from the surplus production capacity and the raw materials supplied by A.C. from their bulk receipts from Services.

/Para 6.....

6. It was unanimously agreed that the Sub-Committee meetings should continue to safeguard Service requirements and as a means of fairly and satisfactorily allocating the productive capacity of the various Gas Plants to all interested Services.

7. Capt. Chiswell stated that he had handed over to Ordnance (British) those Gas Plants under his control.

The Sub-Committee expressed their warmest thanks for the many services which he had so ably rendered and also their good wishes for his future.

8. The next meeting was fixed at 1430 hours, 17 July 1945.

9. There being no further business, the meeting was closed.

DIRECTRIA	FLORENCE

On behalf of A.C. Mr. Dorkovich Guaranteed that Services requirements would be met as in the past.

After considerable discussion it was decided that the best course to adopt when these plants were handed over to A.C., was for all Services to contract with the civilian contractor for the quantities of gases required and to hand over to the contractor free of charge sufficient raw materials to produce the quantities of gases required. In this manner the contractors would not include any element of raw materialscosts in their prices.

Since A.C. could not supply all the necessary raw materials required to produce Industrial Gases for civilian use and that Services could not issue raw materials to A.C. for this purpose under present Directives, A.C. undertook to request AFHQ for the necessary authority for the supply of raw materials in bulk to A.C. by Services for the production of gases for civilians. By this method, civilian needs would be satisfied from the surplus production capacity and the raw materials supplied by A.C. from their bulk receipts from Services.

/Para 6.....

(Carl Hensley)

Declassified E.O. 12356 Section 3.3/NND No. 785017

6. It was unanimously agreed that the Sub-Committee meetings should continue to safeguard Service requirements and as a means of fairly and satisfactorily allocating the productive capacity of the various Gas Plants to all interested Services.

7. Capt. Shimwell stated that he had handed over to Ordnance (British) those Gas Plants under his control.

The Sub-Committee expressed their warmest thanks for the many services which he had so ably rendered and also their good wishes for his future.

8. The next meeting was fixed at 1430 hours, 17 July 1945.

9. There being no further business, the meeting was closed.

SUBJECT: Steel Production July.

TO : A.F.L.H.Q., M.A.A.C., C.M.F.

Ref. your LFS/212B/161 of 31 May.

1. At discussion held between interested service after the May meting of the Engineering Materials Committee it was agreed that, as the steel industry was in process of being handed back to civilian control, services would accept bulk allocation on the actual works where the steel was to be produced and would make their own arrangements direct with the works as to detail requirements.

2. In view of the above July production should be treated as any normal declaration to you and bid for by each service from the works where their requirement is produced.

3. In order to assist services in making their bid the ENAAI catalogue reference numbers which can be produced at each works are given with production figures.

4. As Terni are the only Company with large production shops which are now being used for railway and electric power habilitation it is hoped that services will bid as far as possible for sections from Ilva Torre Annunziata and Giovinazzo.

5. After deduction of sections required for bolt, nail and screw production the July production figures are as follows:

(a) ILVA TORRE ANNUNZIATA

Sections	B/1 to B/4	)	
	C/1 to C/6 except C/3	)	
	A/1 to A/11	)

ALLIED FORCE LOCAL RESOURCES (ITALIAN) BOARD

ENGINEERING MATERIALS COMMITTEE

INDUSTRIAL GASES SUB-COMMITTEE - MINUTES

IRS/2125 19 May 1945

1. A meeting of this Sub-Committee was held in the Allied Force Local Resources Section (AFHQ) Conference Room, ROME, at 1430 hrs on Saturday, 19 May 1945.

2. PRESENT:- REPRESENTING:

Captain J.HUSTON McCLANE (Chairman)	C.E., PBS
Major E.H.ADAMS	C.E., MTOUSA
Major A.C.KEMPLINGER	AAFSC/MTO
Lieut. S.G.S.MORRELL, RNVR	C-in-C Med.
Major W.D.NEWMAN	Ord (Br) AFHQ
Major L.LEWIS	ADOS (CP & P) ITALY.
Capt.F.SHIMWELL	94 C.S.D.
F/Lt.J.LUNN	214 Gp. RAF
Mr.V.DORKOVICH	AC (Industry Sub-Commission).

3. The minutes of the Sub-Committee meeting held on 17 Mar 45 were read and approved.

4. Dealing with item 5 on the Agenda before the allocation of the production of gases it was recommended that the Engineering Materials Committee should ask AFHQ to obtain the following information for this Sub-Committee:-

(i) Full details of Industrial Gas Plants existing in N. ITALY.

and (ii) What plants 5th and 8th Armies will release for the allocation of production by this Sub-Committee.

5. Services estimates of June production of Oxygen and Acetylene by the static plants under their control, were placed before the Sub-Committee. Services June requirements were received and satisfied by allocations from the estimated production of these static plants. Details of these allocations are set out at Appendices 'A' & 'B'.

6. In view of the reduced requirements of AAFSC/MTO, Major KEMPLINGER stated that AAFSC/MTO no longer required S.1 & 2 and ILVA Oxygen plants. CE PBS agreed to refer the matter of derequisitioning these two Oxygen plants to CE MTOUSA for action. If AC wished to take over these plants they were to contact CE MTOUSA direct.

6. In view of the reduced requirements of AAFSC/MTO, Major KEPPLINGER stated that AAFSC/MTO no longer required S.1.D.2 and ILVA Oxygen Plants. CE PBS agreed to refer the matter of derequisitioning these two Oxygen plants to CE MTOUSA for action. If AC wished to take over these plants they were to contact CE MTOUSA direct. 2205

7. The Sub-Committee recommended to the Engineering Materials Committee that in view of the present Services Directives no Industrial Gases be made available to civilians whilst the Services were supplying the raw materials free of charge. There is surplus production capacity available which civilians may take with the exception of those plants operated by 94 COD providing AC furnishes the raw materials.

8. The report on Carbide production was received from Mr DORKOVICH and the Sub-Committee recommended that the Engineering Materials Committee should make allocations from the Carbide availabilities in accordance with Services requirements which would be bid at the next meeting by the Services concerned.

4. NAILS

(a) It was stated that bids for June amounted to approx. 1000 tons and that production was estimated at approx. 400 tons.

(b) It was suggested that the programme as arranged for May should be continued. This was agreed.

(c) It was agreed that allocation of production would be made on a percentage basis according to the procedure decided upon for May at the previous meeting.

(d) On this basis allocation was agreed as follows for release by AFLRS :-

CE, MTOUSA	190 tons	Tn (Br)	12 tons
Ord (Br)	130 "	214 Gp, RAF.	8 "
DES	50 "		
RN	10 "		

(e) In order to simplify accounting, CE, MTOUSA and Ord (Br) only will draw from ILVA, TORRE ANNUNZIATA, and Ord (Br) agreed to release to 214 Group, RAF and to Tn (Br).

(f) (i) A list of stocks on hand was submitted to the meeting. The only size in demand was 21 x 100 of which it was agreed 5 tons should be released to CE, MTOUSA and 5 tons to Ord (Br), these to be released immediately from DES pending a covering release from AFLRS.

(ii) CE, MTOUSA requested a sample be obtained of Nails Clout CSK head 2" of which a stock of 14 tons was reported to be on hand.

6. SCREWS

(a) Bids amounting to approx. 35,000 gross were received, and production was estimated at 7,000 gross. Bids were scaled down proportionately and allocations agreed as follows :-

CE, MTOUSA	3,500
ORD (BR)	2,830
TN (BR)	60
214 GROUP, RAF	190
RN	60
DES	360
	7,000

(b) At the request of Ord (Br), it was agreed that releases to Tn (Br) and 214 Group, RAF, will be made by Ord (Br).

(c) It was agreed that with regard to Screws, all production would be for stock and that releases would be made monthly against stock.

(d) CE, MTOUSA and Ord (Br) submitted a list of the sizes which they most urgently require, and it was agreed that DES would try and adjust the production accordingly in July.

(e) Further allocations against stock were made as follows :-

CE, MTOUSA	3,500 gross
ORD (BR)	1.880
TN (BR)	120
214 Gp, RAF.	380
RN	120
DES	500

(f) DES were asked to investigate the possibility of production of machine thread screws.

(g) CE, MTOUSA submitted a sample of a lag screw and asked that the possibility of manufacture be investigated.

7. ANY OTHER BUSINESS

(a) A letter from HQ. Allied Commission was read to the meeting in which it was asked whether 60,000 copper screws could be made available from Redaelli Works for the currency printing programme of the Italian Treasury. It was agreed that these should be supplied over a period of 2 months if A.C. provide the material.

(b) Advance reports indicate an unlimited capacity for production of Nails, Nuts, Bolts and Screws in Northern Italy, and in view of this AFLRS should be requested to arrange for a part of this capacity to be made available to Services as soon as possible. It was the view of the meeting that when this had been arranged Nails, Bolts, Nuts and Screws should cease to be controlled.

LMS/2120. 7 June 1945

A G E N D A

A meeting of the Industrial Gases Sub-Committee will be held at 1430 hours on TUESDAY, 19 June 1945 in the Allied Force Local Resources Section (AFHQ) Conference Room, 2nd Floor, 68 Piazza dell'Esedra, ROME, to consider the following Agenda :-

1. To receive reports from all Services on the present production of Oxygen and Acetylene from static and mobile plants in Italy.

2. To receive monthly requirements of all Services for Oxygen and Acetylene.

3. To prepare recommendations for the allocation of production to meet Service requirements.

4. Any other business.

5. To set a date for the next meeting.

W. D. NEWMAN, Major,
Secretary, for Chairman,

INDUSTRIAL GASES SUB-COMMITTEE - MINUTES

MAY 22 REC'D

IMS/212C

19 May 1945

1. A meeting of this Sub-Committee was held in the Allied Force Local Resources Section (AFHQ) Conference Room, ROME, at 1430 hrs on Saturday, 19 May 1945.

2. PRESENT:-

	REPRESENTING:
Captain J.HUSTON McCLAINE (Chairman)	C.E., PBS
Major E.H.ADAMS	C.E., MTOUSA
Major A.C.KEPPLINGER	AAFSC/MTO
Lieut. S.G.S.MORRELL, RNVR	C-in-C Med.
Major W.D.NEWMAN	Ord (Br) AFHQ
Major L.LEWIS	ADOS (CP & P) ITALY.
Capt.P.SHINWELL	94 C.S.D.
F/Lt.J.LIEN	214 Gp. RAF
Mr.V.DORKOVICH	AC (Industry Sub-Commission).

HEADQUARTERS 21 MAY 1945 A. C.

3. The minutes of the Sub-Committee meeting held on 17 Mar 45 were read and approved.

4. Dealing with item 5 on the Agenda before the allocation of the production of gases it was recommended that the Engineering Materials Committee should ask AFLRS to obtain the following information for this Sub-Committee:-

(i) Full details of Industrial Gas Plants existing in N. ITALY.

and (ii) What plants 5th and 8th Armies will release for the allocation of production by this Sub-Committee.

(150) (149)

5. Services estimates of June production of Oxygen and Acetylene by the static plants under their control, were placed before the Sub-Committee. Services June requirements were received and satisfied by allocations from the estimated production of these static plants. Details of these allocations are set out at Appendices 'A' & 'B'.

6. In view of the reduced requirements of AAFSC/MTO, Major KEPPLINGER stated that AAFSC/MTO no longer required S.P.O.2and ILVA Oxygen Plants. CE PBS agreed to refer the matter of dereguisitioning these two Oxygen plants to CE MTOUSA for action. If AC wished to take over these plants they were to contact CE

CE PBS agreed to refer the matter of derequisitioning these two Oxygen plants to CE MTOUSA for action. If AC wished to take over these plants they were to contact CE MTOUSA direct.

7. The Sub-Committee recommended to the Engineering Materials Committee that in view of the present Services Directives no Industrial Gases be made available to civilians whilst the Services were supplying the raw materials free of charge. There is surplus production capacity available which civilians may take with the exception of those plants operated by 94 CSD providing AC furnishes the raw materials.

8. The report on Carbide production was received from Mr DORKOVICH and the Sub-Committee recommended that the Engineering Materials Committee should make allocations from the Carbide availabilities in accordance with Services requirements which would be bid at the next meeting by the Services concerned.

108. MINUTES OF PREVIOUS MEETING:

The minutes of the twenty-first meeting were received and approved.

109. MINUTES OF BOARD MEETING:

The Committee noted the instructions of the Board and received the Engineering Materials Committee list of Controlled and Restricted Items. It was recommended to the Board that the following items cease to be controlled:-

Item No.	Commodity.
15	Paint (except where produced in military controlled paint factories).
16	Pigments for Paint.
17	Varnish.
18	Linseed and Lincoln Oil.
29	Gas Bottles and Containers.
30	Ammonia.

The Committee decided to review again the Controlled and Restricted List at its next meeting and AFLRS, AFHQ undertook to endeavour to ascertain future policy regarding military requirements of Ferrous and Non-Ferrous metals in Italy.

No other matters arose for discussion from the meeting of the Board held on 5 May 1945.

(BRIG ANDERSON)

IBS, AFHQ was requested to submit to AFURB, AFHQ details giving full justification for the unallocated balance of hi bid amounting to 1400 tons section and 160 tons of plate.

111. ALLOCATION OF CONTROLLED MATERIALS:

The Committee agreed on the allocations of those controlled materials not allocated at the previous meeting and of the controlled materials presented for allocation at this meeting, with the exception of those sitting at the Soc. Agric. Industriale del Lino, Somegallia. Allocation of stocks at this firm was deferred until next meeting in order that AFURB, AFHQ could obtain more information regarding the status of the factory.

AFURB, AFHQ will issue the necessary release orders.

CE, PBS	30 tons.
Ord (Ar), APWC	8 tons.

116. CALCIUM CARBIDE:

In view of a report on the reserves of Calcium Carbide held by Services and on the shortage of this commodity due to reduced production consequent upon the lack of coke, the Committee decided to defer allocation of stocks in hand until the next meeting. APLES (APWC) undertook to obtain a ruling on the reserves to be held by Services and it was agreed that any interim allocations necessary could be made by the Chairman.

117. CEMENT:

The estimated production of cement for June 1945 is 43,000 tons.

The Committee agreed to the following allocations:-

CE, PBS	8,300 tons
Tn (Br)	10,000 tons
NG (For Italian Navy	3,700 tons
ALPBC/ITO	1,600 tons
DES, APWC	13,000 tons
	36,600 tons.

A bid for 1000 tons for export to North Africa, submitted by CE, ATOUSA was referred to APLES (APWC) for a policy decision. It was agreed that the balance of the production after all the above requirements had been satisfied should be made available to NG ALSOA.

Services were requested to submit to APLES, (APWC) details of the quantities allocated stating locations as soon as possible.

118. NUTS, BOLTS NAILS AND SCREWS SUB-COMMITTEE:

A copy of the minutes of the meeting of this Sub-Committee held on 25 Apr 1945 was presented to the Committee.

The minutes

a ruling on the reserves to be held by Services and if this agreed some by interim allocations necessary could be made by the Chairman.

117. CEMENT:

The estimated production of cement for June 1945 is 43,000 tons.

The Committee agreed to the following allocations:-

CB, PBS	8,300 tons
Tn (Re)	10,000 tons
MS (For Italian Navy	3,700 tons
AMGOT/ACC	1,600 tons
USA, AFHQ	13,000 tons
	36,600 tons.

A bid for 1000 tons for export to North Africa, submitted by CB, MTOUSA was referred to AFLRS (AFHQ) for a policy decision. It was agreed that the balance of the production after all the above requirements had been satisfied should be made available to MS AFHQ.

Services were requested to submit to AFLRS, (AFHQ) details of the quantities allocated stating locations as soon as possible.

118. NUTS, BOLTS NAILS AND SCREWS SUB-COMMITTEE:

A copy of the minutes of the meeting of this Sub-Committee held on 25 Apr 1945 was presented to the Committee.

As members had not had an opportunity of studying the minutes acceptance was not possible. It was decided that allocations made by the Sub-Committee were to stand subject to no protest being received by AFLRS (AFHQ) The Sub-Committee was instructed to ensure that, in future, minutes of its meetings are forwarded to AFLRS (AFHQ) in time for circulation with the Agenda for meetings of the Engineering Materials Committee.

119. RAW MATERIALS FOR STEEL MAKING:

It was agreed by the Committee that all raw materials for steel making at the Ilva Steelworks, PIOMBINO should be allocated to MS AFHQ for use in the Italian Steel Industry.

120. DISPOSAL OF UNALLOCATED BALANCES:

A proposal submitted by MS AFHQ that unallocated balances of controlled materials should be automatically released to AFHQ was not accepted by the Committee, it being agreed that existing procedure would continue.

ENGINEERING MATERIALS COMMITTEE

INDUSTRIAL GASES SUB-COMMITTEE - MINUTES

LRS/2120.

14 April 1945

1. A meeting of this Sub-Committee was held in the Allied Force Local Resources Section (AFHQ) Conference Room, ROME, at 1430 hours on Saturday, 14 April 45.

2. Present:- Representing:-

Captain	J. HUSTON McCLANE	C.E., P.B.S.
Major	E. H. ADAMS	C.E., MTOUSA
Major	A. C. KEPPLINGER	AAFSC/MTO
Major	HARRY C. DOWSON	AAFSC/MTO
Lieut.	S. G. S. MORRELL, RNVR	C-in-C Med.
Major	W. D. NEWMAN	Ord (Br), AFHQ
Captain	F. SHIMWELL	94th C.G.D., SASC
Lieut.	S. G. MAINE	94th C.G.D., SASC
F/Lt.	J. LUNN	214 Group, RAF
Mr	V. DOBROVICH	AC (Industry B/Commission)

3. In the absence of Major MacDONALD, Captain J. HUSTON McCLANE took the chair.

4. On the proposal of Lieut.MORRELL, Major NEWMAN was appointed Secretary of this Committee to fill the vacancy occasioned by S/Ldr.ASPDEN's departure.

5. The Minutes of the Sub-Committee meeting held on 17 March 45 were read and approved.

6. Captain SHIMWELL reported that the ASA Oxygen Plant at CASTELLAMMARE had been repaired and was undergoing tests. He considered that the Sub-Committee could rely upon a production of 200,000 cubic feet of Oxygen during MAY.

7. Services' estimates of MAY production of Oxygen and Acetylene by the static plants under their control were placed before the Sub-Committee. Services' MAY requirements were received and satisfied by allocations from the estimated productions of the static plants. Details of these allocations are set out at Appendix "A".

8. As a result of Minute 10 of the Sub-Committee meeting held on 17 March 45 it was decided to make available to AC the surplus production of Oxygen detailed at Appendix "A", on the understanding that should this surplus production or any part thereof be required by the military for unforseen needs this allocation, or part thereof, as appropriate, would be withdrawn.

Mr.	V. DORMOVICH	AC (Industry S/Commission)

3. In the absence of Major MacDONALD, Captain J. MURTON McCLANE took the chair.

4. On the proposal of Lieut.MORRELL, Major NEWMAN was appointed Secretary of this Committee to fill the vacancy occasioned by S/Ldr.ASHTON's departure.

5. The Minutes of the Sub-Committee meeting held on 17 March 45 were read and approved.

6. Captain SHINWELL reported that the ASA Oxygen Plant at CASTELLAMARE had been repaired and was undergoing tests. He considered that the Sub-Committee could rely upon a production of 200,000 cubic feet of Oxygen during MAY.

7. Services' estimates of MAY production of Oxygen and Acetylene by the static plants under their control were placed before the Sub-Committee. Services' MAY requirements were received and satisfied by allocations from the estimated productions of the static plants. Details of these allocations are set out at Appendix "A".

8. As a result of Minute 10 of the Sub-Committee meeting held on 17 March 45 it was decided to make available to AC the surplus production of Oxygen detailed at Appendix "A", on the understanding that should this surplus production or any part thereof be required by the military for unforseen needs this allocation, or part thereof, as appropriate, would be withdrawn.

9. The following procedure of obtaining supplies of Oxygen from this surplus was agreed :-

(a) Mr.DORMOVICH would advise each UPIC or AMG officer, as appropriate, of the surplus production available in his area.

(b) Each UPIC or AMG officer would co-ordinate and screen all civilian bids in his area and submit a bulk bid to the appropriate Service for release.

(c) Payment by civilians would be effected at Army contract prices in the following manner :-

i. For Industrial Gases obtained from static plants controlled by US Forces - direct purchase from the civilian firm operating the static plant concerned.

ii. For Industrial Gases obtained from static plants controlled by British Army - where plants are staffed entirely by

/civilians

civilians, payment will be made by the civilian purchasing the gas direct to the civilian firm operating the plants. Army contract prices will be used in all cases; these will vary from month to month and can be obtained from AIOS, C.P. & P.(ITALY) Ordnance. Where plants are operated by 94 CCD personnel, it will be the responsibility of the local ALCOM representative to collect and account to the proper authority for all payments due from civilian purchasers. Ord(Br) will not effect any financial adjustment whatsoever. Prices will be obtained from OC, 94 C.C.D.

10. Mr.DONKOVICH promised to place before the Engineering Materials Committee at their meeting on 16 May 45 a complete appreciation of the Calcium Carbide production.

11. The Chairman stated that the decision of the parent Committee on the fixing of a ceiling price per cubic metre of commercial gas was that it was impracticable to assess any such fixed price in view of the varied wage rates at present in force in ITALY.

It was decided, therefore, that PBS and Ordnance British together would review at the end of each month the production costs of every static plant operated by a civilian contractor, and pay such civilian contractor a mutually agreed price which would be based on these costings figures.

It was unanimously agreed that the practice of assessing profit as a percentage of production costs would not be followed, but that a fair and reasonable margin of profit would be allowed; this margin to be mutually agreed upon by PBS and Ordnance British at the time of investigating the production costs. In this manner, it was considered that Services would pay a uniform price to any one contractor and yet pay different prices in the various areas according to the wage rates and electric power costs in force in those areas.

12. The date for the next Sub-Committee meeting was fixed for 1430 hours on Saturday, 19 May 1945.

13. There being no further business, the meeting was declared closed.

88. MINUTES OF PREVIOUS MEETING.

The Committee agreed that the stock of controlled materials held at the S.A.C.F.E.M. Works, Arezzo and belonging to the Italian State Railways, should remain at the works. (Minute No. 84 Twentieth Meeting).

AFLRS reported that the matter of Italian State Railway stock being subject to allocation by the AFLR (Italian) Board was still under consideration at AFHQ. (Minute No. 85 Twentieth Meeting).

The Minutes of the Twentieth Meeting were approved.

89. MINUTES OF BOARD MEETING:

2165

No matters arose for discussion from the meeting of the Board held on 7 April 1945.

90. STEEL PRODUCTION AND ALLOCATION:

The following bids for the month of May as submitted by Services, were received against the production of the steel mills operating under the control of the Director of Engineer Production & Stores, AFHQ:

Service	Sections	Plates	Sheets
Ord, PBS	187 Tons	70 Tons	121 Tons
AAFSC/ATC	-	120 Tons	-
RAF	-	1 Ton	.5 Ton
CE, PBS	479 Tons	370 Tons	500 Tons
RN	590 Tons	995 Tons	34 Tons
DEPS	2486 Tons	273 Tons	1077 Tons
Tn. Br	186 Tons	527 Tons	840 Tons
TOTAL	3928 Tons	2386 Tons	2572.5 Tons

RELEASED
1 SEP 1945

Declassified E.O. 12356 Section 3.3/NND No. 785017

together with a bid from Ord. RE. for 100 tons of special steel sections.

Estimated Production:	Sections	Plates	Sheets
	4500 Tons	1000 Tons	1100 Tons

As the estimated production of steel section exceeded the bids submitted (including the 100 tons of special steel required by Ord. RE.) this item was allocated in full.

It was decided that requirements for plates and sheets would be scaled down in proportion to the estimated production with the exception of those of 21A Group, R.F which would be met in full.

91. ALLOCATION OF CONTROLLED MATERIALS:

The Committee agreed on the allocation of those controlled materials not allocated at the previous meeting and of the controlled materials presented for allocation at this meeting. FLRS, AFHQ will issue the necessary release orders.

92. INDUSTRIAL GASES SUB COMMITTEE:

The Committee received the minutes of the Industrial Gases Sub-Committee meeting held on 17 March 1945.

The Committee considered it unnecessary for any action to be taken in the question of the Florence Oxygen plant output.

Due to local variation in wage rates and in the price of electric power it was considered impracticable to endeavor to set a ceiling price for gases throughout Italy. The Committee agreed that prices should be fixed based on the cost of operation at each plant and that they should be reviewed each month by the operating U.S. and British services.

With the exception of the above, the Committee accepted and approved the report of the Sub-Committee.

93. NAILS.

The Committee decided that a Sub-Committee consisting of representatives of Ord (Br), AFHQ, DEMS, AFHQ and CE, MTOUSA, should be formed to agree programmes of production and the allocation between service bidders of nails produced at ILVA, STD S.A., RED HILL Works. The production from other plants, their output being dependent on the amount of steel wire allocated them, was released to AC.

94. BOLTS AND NUTS:

The complexity of bolt and nut programs of production being similar

for allocation at this meeting. FIRS, AFHQ will issue the necessary release orders.

92. INDUSTRIAL GASES SUB COMMITTEE:

The Committee received the minutes of the Industrial Gases Sub-Committee meeting held on 17 March 1945.

The Committee considered it unnecessary for any action to be taken in the question of the Florence Oxygen plant output.

Due to local variation in wage rates and in the price of electric power it was considered impracticable to endeavor to set a ceiling price for gases throughout Italy. The Committee agreed that prices should be fixed based on the cost of operation at each plant and that they should be reviewed each month by the operating U.S. and British services.

With the exception of the above, the Committee accepted and approved the report of the Sub-Committee.

93. NAILS.

The Committee decided that a Sub-Committee consisting of representatives of Ord (Br), AFHQ, DEPS, AFHQ and CE, MTOUSA, should be formed to agree programmes of production and the allocation between service bidders of nails produced at ILVA AND S... REAR HILL Works. The production from other plants, their output being dependent on the amount of steel wire allocated them, was released to .C.

94. BOLTS AND NUTS:

The complexity of bolt and nut programs of production being similar to those of nails, the Sub-Committee established by Minute 93 above was instructed to make allocations against the estimated production of Bolts and Nuts for May 1945, and to draw up a production programme.

Figures of allocations agreed by the Sub-Committee will be forwarded to AFHQ, AFHQ for preparation of necessary release orders.

95. CEMENT - MAY:

The estimated production of cement for May 1945 is:

Civitvecchia	(CE, [illegible])	10,000 Tons
Salerno	(CE, [illegible])	6,500 Tons
Fodugno	(DEPS, AFHQ)	6,500 Tons
Spoletto	(DEPS, AFHQ)	3,500 Tons
Barletta	(DEPS, AFHQ)	3,000 Tons
Colleferro	(RC, AC)	6,000 Tons
Guidonia	(RC, AC)	6,000 Tons
Monopoli	(RC, AC)	3,000 Tons
Taranto	(RC, AC)	1,400 Tons
	TOTAL	45,900 Tons

Declassified E.O. 12356 Section 3.3/NND No. 785017

131

The Committee agreed to the following allocations against the May production:

DEMS, AFHQ	13,000 Tons
CE, PBS	10,100 Tons
Tn. (Br).	10,000 Tons
ALFSC/ATC	1,600 Tons
HQ, AC	11,200 Tons
	45,900 Tons

In order that Services may draw cement from plants located nearest the point of consumption, AFHQ undertook to consult all bidders prior to issuance of release orders. In this connection it was agreed that HQ, AC, should be permitted to take collection of portions of its allocation from each of the nine producing plants listed above.

96. CEMENT - APRIL:

Tn. (Br) reported that the quality of cement being produced at Bagnoli was unsuitable for their needs and the allocation of 2,000 Tons granted them from these works was transferred to the Colleferro Works.

97. CALCIUM CARBIDE:

The estimated availability of calcium carbide during May 1945 is:

TERNI	187 Tons
ASCOLI PICENO	162 Tons
TOTAL	349 Tons

The following allocations were agreed:

CE, PBS	110 Tons
RM	60 Tons
TOTAL	170 Tons

As insufficient information was available regarding stocks of calcium carbide for use in lignite mines, the balance of 179 Tons was reserved for interim allocation by the Chairman as necessary.

98. AMMONIA GAS:

The 100 tons estimated production of Ammonia Gas for May 1945 at TERNI, Nera Montera plant was allocated as follows:

HQ, AC	82.5 Tons
CE, PBS	15.0 Tons
RM	2.0 Tons
Ord (Br), AFHQ	0.5 Tons

Declassified E.O. 12356 Section 3.3/NND No. 785017

96. CEMENT - APRIL:

Tr. (Br) reported that the quality of cement being produced at Bagnoli was unsuitable for their needs and the allocation of 2,000 Tons granted them from these works was transferred to the Colleferro Works.

97. CALCIUM CARBIDE:

The estimated availability of calcium carbide during May 1945 is:

TERNI		187 Tons
ASCOLI PICENO		162 Tons
	TOTAL	349 Tons

The following allocations were agreed:

CE, MRS		110 Tons
RM		60 Tons
	TOTAL	170 Tons

As insufficient information was available regarding stocks of calcium carbide for use in lignite mines, the balance of 179 Tons was reserved for interim allocation by the Chairman as necessary.

98. AMMONIA GAS:

The 100 tons estimated production of Ammonia Gas for May 1945 at TERNI, Narni Montero plant was allocated as follows:

HQ, AC		82.5 Tons
CE, MRS		15.0 Tons
RM		2.0 Tons
Ord (Br), MTOUSA		0.5 Tons
	TOTAL	100.0 Tons

100. SCREWS:

The estimated production of Screws for May 1945 at REDAELLI operating under control of DEPS, AFHQ is 17,25? gross.

Allocations were agreed as follows:

Ord (Br), AFHQ		13,293 Gross
CE, PBS		3.475 Gross
RC, AC		250 Gross
RN		190 Gross
DEPS, AFHQ		42 Gross
	TOTAL	17.25? Gross

Services were requested to forward details of the breakdown of the quantities allocated to them to DEPS, AFHQ. In future, such details will be presented to representative DEPS, AFHQ at the Committee meeting.

101. CANTIERI NAVALI RIUNITI, ANCONA:

Allocations made against controlled stocks at this works were reconsidered and the Secretariat was instructed to issue release orders accordingly.

102. POPLAR WOOD:

It was recommended to the Board that "Poplar Wood", be placed on the list of restricted items.

103. LITHARGE:

Approval was given for the removal by RC, AC of twenty tons of Litharge from the Montevecchio Works, Sardinia.

104. FOUNDRY PIG:

A quantity of 200 tons of Foundry Pig located at Gallipoli in the Province of Lecce was allocated to DEPS, AFHQ for use in conjunction with the steel rolling programme.

105. METHANE GAS CYLINDERS:

The Committee recommended to the Board that serial 29 of AFHQ Administrative Memorandum No. 52 of 1944 should be amended to read:

"29. Gas Bottles and Containers - other than those specifically designed for the storage of Methane Gas."

ENGINEERING MATERIALS COMMITTEE - AGENDA

The twenty-first meeting of the Engineering Materials Committee will be held at 0930 hrs. on Wednesday, 11 April 1945, in the AFLRS Conference Room, 2nd Floor, 68 Piazza dell'Esedra, ROME, to consider the following Agenda:

1. Minutes of the twentieth meeting held on 14 March 1945.

2. To consider any matters arising out of the meeting of the Board held on 7 April 1945.

3. To receive from the Director Engineer Production & Stores AFHQ the estimated production for the month of May 1945 in tons of plate, sections and sheet from steel mills operating under his control.

4. To receive from AFLRS (AFHQ) the consolidated requirements of all Services and AC for steel production from the above plants for the month of May. (The attention of demanding Services is drawn to minute 59 of the nineteenth meeting).

5. To make allocations of controlled materials against the unallocated balance of items carried forward from the last meeting (Appendix "A") and to release any remaining balances to AC.

6. To make allocations against reported availabilities of controlled items (Appendix "B").

7. To receive the minutes of the Industrial Gases Sub-Committee meeting of the 17th March 1945 (Appendix "C").

8. To receive from AFLRS (AFHQ) the details of production of the following items as submitted by controlling services (Appendix "D"):-

Paint
Nails
Ammonia Gas
Calcium Carbide

Declassified E.O. 12356 Section 3.3/NND No. 785017

2. To consider any matters arising out of the meeting of the Board held on 7 April 1945.

INDUSTRIAL GASES SUB-COMMITTEE - MINUTES

LRS/212C

17 March 1945

1. A meeting of this Sub-Committee was held in the Allied Force Local Resources Section Conference Room at 1430 hours on Saturday, 17th March 1945.

2.

Present:	Representing:
Captain J. HUSTON McCLANE	C.E., P.B.S.

F/Lieut J. LUNN	214 Group, R.A.F.

3. Captain J. HUSTON McCLANE took the Chair in the absence of Major MacDONALD.

4. The Minutes of the meeting of 17 FEB 45 were read and approved.

5. Arising out of Minute 7 of the last meeting, Captain HUSTON McCLANE reported that the San Donnino Plant at FLORENCE had now been put under military control, and Captain SHILSHELL stated that as from April 1st there would be military personnel at the plant and Services would have no difficulty in obtaining Oxygen released to them.

6. Arising out of Minute 9 of the last meeting, Captain HUSTON McCLANE stated that this question of the FLORENCE plant output had not been settled and Fifth Army still insisted that the division of output from this plant was 70% American and 30% British. The Sub-Committee requested that the parent Committee take up this question with AFH with a view to obtaining a definite ruling.

7. Arising out of Minute 6 of the last meeting, Major ADAMS (ATO SA) and Major PARSONS (Ord. Br) reported that the question of supplies of raw materials was being covered by them with a view to ensuring, as far as pos-

3. Captain J. HUSTON McCLURE took the Chair in the absence of Major MacDONALD.

4. The Minutes of the meeting of 17 FEB 45 were read and approved.

5. Arising out of Minute 7 of the last meeting, Captain HUSTON McCLURE reported that the San Domino Plant at FLORENCE had now been put under military control, and Captain SHILSTELL stated that as from April 1st there would be military personnel at the plant and Services would have no difficulty in obtaining Oxygen released to them.

6. Arising out of Minute 9 of the last meeting, Captain HUSTON McCLURE stated that this question of the FLORENCE plant output had not been settled and Fifth Army still insisted that the division of output from this plant was 70% American and 30% British. The Sub-Committee requested that the parent Committee take up this question with AFHQ with a view to obtaining a definite ruling.

7. Arising out of Minute 6 of the last meeting, Major ADAMS (ATOUSA) and Major PARSONS (Ord. Br) reported that the question of supplies of raw materials was being covered by them with a view to ensuring, as far as possible, continuous supply for all plants.

8. The secretary tabled a letter received from the Allied Force Local Resources Section, concerning an enquiry by D.O.S., AFHQ about the S.I.R.I. Plant at TERNI, which was stated to be producing 3,000 cubic metres of Oxygen per month, and enquiring if the plant was under military control.

Captain SHILSTELL reported that this plant was under military control and was being used for the production of Hydrogen. The Oxygen was a by-product and was blown to waste in view of the ample supplies of Oxygen available at TERNI. If the need for Oxygen justified it, then this production could be bottled.

9. Services requirements of Oxygen and Acetylene together with production reports were then answered (Appendix "A").

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. Captain HUSTON McCLANE brought to the notice of the meeting that civilians in the ROME and FLORENCE areas have drawn a total of 1,435,800 cubic feet of Oxygen during FEBRUARY. Captain SHILVOCK reported that civilian cylinders were only filled when there were no military cylinders waiting filling. After discussion, the Committee recommended that all issues to civilians be controlled through Allied Commission and issues made only against their authority.

11. Major DOWSON asked the meeting to consider the prices being charged to the Services for Industrial Gases, pointing out that constant increases were being asked, and some effort should be made to control prices. The Sub-Committee agreed, and recommended that the parent Committee be asked to approach the Allied Commission with a view to an investigation being made, and, if possible, a report rendered regarding the reason for the increases and suggested method of fixing a ceiling price per cubic metre.

12. Captain SHILVOCK reported that ample quantities of Hydrogen were available at TARANTO.

13. Major PARSONS reported that owing to an accident at the ANSA Plant, CASTELLAMARE, there would be no production during APRIL. Captain SHILVOCK put the time for repairs as approximately six weeks.

14. There being no further business, the date of the next meeting was fixed for Saturday, 14 April 1945 at 1430 hours.

70. MINUTES OF BOARD MEETING:

No matters arose for discussion from the meeting of the Board held on 3 MARCH 1945.

The Committee noted the instruction of the Board regarding the consideration of demands made in respect of the Italian Government Monopoly Industries.

71. STEEL PRODUCTION AND ALLOCATION:

The following bids for the month of APRIL, as submitted by Services, were received against the production of the steel mills operating under the control of the Director of Engineer Production & Stores, AFHQ:-

Service	Sections	Plates	Sheets
R.N.	270 Tons	357 Tons	265 Tons
R.A.F.	28 Tons	10 Tons	10 Tons
Tn. (Br).	275 Tons	562 Tons	867 Tons
CE, PBS.	358 Tons	47 Tons	30 Tons
Ord. PBS.	180 Tons	133 Tons	86 Tons
A.C.	1,215 Tons	310 Tons	478 Tons
D.E.P.S.	4,950 Tons	510 Tons	800 Tons
TOTAL BIDS	7,274 Tons	1,929 Tons	2,536 Tons

 (Copy No 4 passed to CC)

Declassified E.O. 12356 Section 3.3/NND No. 785017

together with a bid from Ord. PBS for 100 Tons of special steel sections.

Estimated Production:	Sections	Plates	Sheets
	6,000 Tons	1,200 Tons	700 Tons

D.E.P.S., AFHQ undertook to notify demanding services of the date on which the breakdown of the above bids would be available and the location of the factory at which production would be effected. As the demands exceeded the availability, a reduction of allocation against bids would have to be made after consideration of the rolling program and services would be informed of the quantities which could be made available.

D.E.P.S., AFHQ reported that the supply of furnace pig would be exhausted towards the end of July or early in August, and it was agreed that D.E.P.S. and CE, MTOUSA would mutually arrange the submission of requisitions on UK or US for this material.

72. NAIL PRODUCTION:

CE, PBS representative requested that a record be made in the minutes of his objection to the control of nail production.

The Committee decided that as the information now available was insufficient to permit of a detailed allocation of nails for the month of April, all services, including A.C., operating nail factories would forward the estimated availabilities of their production for the month of May to reach AFLRS fourteen days prior to the date of the next meeting.

D.E.P.S., AFHQ undertook to circulate a catalogue of the sizes and types of nails produced in factories operating under his control.

As an interim measure and as the only bidding services for nails were American and British, it was agreed that the March/April production should be divided by mutual agreement between D.E.P.S., AFHQ and CE, MTOUSA.

73. SCREWS AND BOLTS:

It was recommended to the Board that the production of screws and bolts becomes controlled. All services, including A.C., were requested to submit details of their production of these items to AFLRS fourteen days before the date of the next meeting in order that the availabilities could be circulated to all members.

74. PAINT:

In view of a protest submitted by DCS, AFHQ, the Committee decided that it was inadvisable to make an allocation of the paint production pending a further consideration of this matter by AFHQ. It was agreed that Ord. (Br), AFHQ and CE, MTOUSA would, in consultation with the Chairman, mutually decide the allocation to be made for April and that their May allocation would be decided at the next meeting of the Committee.

74. PAINT:

In view of a protest submitted by DOS, AFHQ, the Committee decided that it was inadvisable to make an allocation of the paint production pending a further consideration of this matter by AFHQ. It was agreed that Ord. (Br), AFHQ and CE, MTOUSA would, in consultation with the Chairman, mutually decide the allocation to be made for April and that their May allocation would be decided at the next meeting of the Committee.

75. AMMONIA GAS:

The following allocations of ammonia gas against production of the NEPA MONTERO Plant for the month of April were agreed:-

CE, PBS	15 Tons
Ord. (Br), AFHQ.	2 Tons
HQ, AC.	Balance of production.

76. ALLOCATION OF CONTROLLED MATERIALS:

The Committee agreed on the allocation of the balance of controlled materials not allocated at the last meeting and of those controlled materials circularized for allocation at this meeting. AFLRS, AFHQ was requested to issue the necessary release orders.

77. INDUSTRIAL GASES SUB-COMMITTEE:

The Committee received the report of the meeting of the Industrial Gases Sub-Committee held on 17 FEBRUARY 1945. It was agreed that the SAN DONNINO Plant at Florence should be requisitioned by the military. D.E.P.S., AFHQ undertook to take such steps as were necessary to effect this requisition.

78. DRY BATTERIES:

The Committee recommended to the Board that dry batteries (cells) be removed from the list of controlled materials.

79. MEMBERSHIP - INDUSTRIAL GASES SUB-COMMITTEE:

The Committee approved the application by HQ, AC for membership on the Industrial Gases Sub-Committee.

80. CEMENT:

It was recommended to the Board that cement should become a controlled material for a period of three months commencing 1 April 1945.

Production figures for April are estimated as follows:-

BARLETTA	3,000 Tons	(DEPS, AFHQ)
MODUGNO	6,000 Tons	(DEPS, AFHQ)
SPOLETTO	3,000 Tons	(DEPS, AFHQ)
CIVITAVECCHIA	10,000 Tons	(CE, PBS)

TARANTO	1,500 Tons	(HQ, AC)
MONOPOLI	4,500 Tons	(HQ, AC)
GUIDONIA	5,000 Tons	(HQ, AC)
COLLEFERRO	3,000 Tons	(HQ, AC)
TOTAL	42,000 Tons	

with the possibility of an additional production as follows:-

VIBO VALENTIA	3,000 Tons
BAGNOLI	2,000 Tons
	5,000 Tons

All members agreed to the following allocations against the April production:-

Tn. (Br)	12,850 Tons	(to cover the needs of DMTS & Tn. Sub-Comm. AC)
CE, PBS	11,000 Tons	

It was recommended to the Board that cement should become a controlled material for a period of three months commencing 1 April 1945.

Production figures for April are estimated as follows:-

BARLETTA	3,000 Tons	(DEPS, AFHQ)
MODUGNO	6,000 Tons	(DEPS, AFHQ)

DEPS	16,000 Tons	
HQ, AC	2,150 Tons +	
	42,000 Tons	

2138

+ Plus any additional production achieved at VIBO VALENTIA & BAGNOLI.

It was agreed that details of the estimated production for May would be submitted by operating services to AFLRS, AFHQ fourteen days before the date of the next meeting.

Tn. (Br) representative agreed that bids from his service would cover the needs of both US and British railway operating services, together with that portion of the work being performed by Tn. Sub-Commission, AC which was of military significance.

All US requirements for cement are included in the CE, PBS bid and all British requirements, including the R.N. and RAF, are included in the DEPS Bid.

81. METHANE GAS CYLINDERS:

The availability of 3000/4000 methane gas cylinders was reported and it was considered by the Committee that the question of the allocation of these cylinders should be referred to AFHQ for a Staff decision.

82. LEAD:

A report on the availability of 200 Tons of lead in Sardinia was received and it was decided to consider this item for allocation at the next meeting.

83. CALCIUM CARBIDE:

The following allocations against the production at Terni for March and April were agreed:

CE, PBS	100 Tons
Ord. (Mr), AFHQ	200 Tons
HQ, AC	248 Tons

84. S.A.C.F.E.M. WORKS, AREZZO:

In view of the protest lodged by Tn. (Mr) against the allocation of materials from the above works and of the recommendation made by the Industrial Co-ordination Committee on materials, etc. belonging to the Italian State Railways, the Committee agreed that the stocks of controlled materials held at the above works should be re-considered for allocation at the next meeting.

85. LINSEED:

A report was received that a quantity of linseed oil in 5 Army Area had been taken by the military railway services under the assumption that, as it was Italian State Railway stock, it was not subject to allocation by the AFLR (ITALIAN) BOARD. The Committee requested AFLRS, AFHQ to draw this question to the attention of the staff at AFHQ.

86. NEXT MEETING:

The twenty-first meeting of the Committee will be held at 0930 hours, Wednesday, 11 April 1945 in the AFLRS (AFHQ) Conference Room, Rome.
