SECRET & PERSONAL

To: Chief of Staff.

D.O. letter from Brig. GARR dated 20 Jan 45.

Summary of letter.

Para 1. Reference is made to an OSS report dated 28 Dec 44 (folios 1 - 4). The Regional Commissioner having heard of the existence of this report interviewed the originator of it and secured a copy which he believes is an expurgated version. The report deals with alleged irregularities in the handling of cargoes for coastal shipping and makes references to officers of the Commission on folios 3 - 2. The comment made is unsupported by evidence and is extremely slanderous.

The Regional Commissioner goes on to speak of the attention he has been giving recently to the elimination of racketeering and the instructions he has given to his staff on the transaction of business with trading firms in the island. He is confident that there has been no irregularity on the part of his officers.

Para 2. Deals at some length with the handling of cargoes for shipment and the Regional Commissioner states that he has not received the support of this HQ in dealing with the type of racketeering which is known to exist. Two of his letters are referred to which were forwarded to Economic Section for attention.

Para 3. Expresses the hope that favourable consideration will be given to proposals which have been made, presumably in the letters referred to above, with a view to eliminating racketeering which he is certain is going on. He presumes that a copy of the OSS report will in due course come to the attention of this HQ, and comments that it will be interesting to see which edition (if there are two) will be received. Whilst we receive a number of OSS reports at this HQ through channels this one has not come to hand.

Comment.

I suggest this letter will need examination and comment by the Economic Section before replying.

It will be noted that the OSS report carries no indication of its distribution. It is apparent that the R.C's name has been typed in on the copy because he asked for one.

I do not know what terms of reference enables OSS to make a report of this kind unsupported by evidence. It may, however, have some value to Public Safety Sub-Commission on the COGENRA Enquiry.

Submitted in interim reply to Brig. GARR.

My dear Rush,

With reference to my Secret and personal letter HC/801/5 of 20 JAN 45 as regards the final sub-paragraphs or para 3 of that letter, I have come to the conclusion that it is time that the officer in charge of my Economics & Supply Division was changed. Major Dring, who is in charge of that division, has not been so very long at its head but he has been in Sicily since the early days.

I am writing to your Headquarters officially about this today but I should be glad if you would take any steps which may be necessary to insure that another qualified officer is assigned as early as possible to take over the Economics & Supply Division of this Headquarters.

*Yours sincerely
M. Clark*

(for attn. Public Safety B/C).

7. Situation in Sicily. CCS had received a letter from JC Sicilia Region enclosing a report from an OSS agency in the Island which made sweeping allegations of graft mainly in respect of export permits for wine. The report made accusations against oil and sundry, including AC officers. RC did not know the distribution of this report and CCS would find out. Meanwhile the report and RC's letter would be circulated to Sections. RC had stated he was satisfied there were no irregularities on the part of his officers but criticised the fact that many doubtful characters came to the Island armed with AC credentials and authorisations. 3601 said Rorn Seca should take up this matter at once with their Sub-Commissions, get a restrictive plan laid down and send it out to RAs.

STL:RC/SJL:5

my dear husband,

I am enclosing a copy of a report which has been obtained by me from an organization on this Island about the activities of which I can find out little or nothing. I was not included in the original distribution of this report, but got to know that some report of this nature was in circulation and I asked the originator of the report to come and see me. Previously I had seen him once in my office due to my time here. The writer of the report agreed to send me a copy which is enclosed. I informed him that I felt that, in a case of this nature in which grave insinuations were made against members of the staff and possibly against myself, I should have been included in the distribution of the report.

I have good reasons for believing that the enclosed copy is an exaggerated allegation and there is no reason to be suspicious of it. I should imagine the enclosed report was being compiled, owing to a recurrence of similar incidents in other countries in this vicinity and I wish you to believe certain steps we had taken soon after my arrival were fully effective.

During my time here I have devoted considerable attention to this matter of eliminating recrgetting. Recently, during the time I should imagine the enclosed report was being prepared by agents in this vicinity and before I had done so I had written to the concerned officers on the staff of this Head-quarters.

After I returned the communication caused by the presence of secret civilian staff in our offices, I have no doubt that they are substantially unchanged at times with a view to keeping letters, etc., placed in the night quarter.

785017

4
Subject 42-5 (Part 4c)

In this connection let me say that our frequent protests have to be arranged.

In this connection I refer to my Letter DAS 829/12 of 27 Sept 44 and of 20 Oct 44. Despite these letters and our frequent protestants a constant stream of individuals came all the way down to see us. We have pointed out the greatest difficulty we face in getting a Commissar authorized to take up the Island. Most of these individuals were took upon us and will be held responsible.

The sub-sellling of tonnage requirements is a most difficult thing to undertake with. It will be impossible to fit it to almost impossible to select what is taking place.

At present we have already put up to your Headquarters proposals for procedures under which we export olive and tangerine fruits from both Latin America to Europe.

I trust that your Headquarters are also taken up with his Government to the Italian authorities. I trust that your Headquarters are also taken up with the selling of tonnage requirements. I trust that your Headquarters are also taken up with his Government to the Italian authorities. I trust that your Headquarters are also taken up with his Government to the Italian authorities.

With the situation as it stands, the only long-distance shipping available here in connection with this import trade are most certainly unprofitable to our own country. Some people seem to imagine that one can have a large supply of fruit ready stocked out there is only long-distance shipping available. A ship entitled the "Ousey" of approximately 3,000 tons has been sent over short notice and is now in port, to load citrus fruit. The conditions under which the ship is loaded will depend entirely upon the docking of fruit and the short loading time available.

We shall have to send away the "house" only, moreover packing materials particularly suitable for fruit, on the docks for loading, this of course is impossible, but that one can have a large supply of fruit ready stocked out there is only long-distance shipping available.

A ship entitled the "Ousey" of approximately 3,000 tons has been sent over short notice and is now in port, to load citrus fruit. Some people seem to imagine that one can have a large supply of fruit ready stocked out there is only long-distance shipping available.

The enclosure report we received a copy of direct from the manufacturer. As regards the ship "Ousey" mentioned in the enclosure report we received a copy of direct from the manufacturer. The enclosure report we received a copy of direct from the manufacturer.

51

I still have in mind recommending one or two further changes of personnel on the grounds that they have been long enough in this Island. Actually practically the whole of my Economics and Supply staff is a fresh staff. In any case I do not feel like being driven into taking action by a report of the nature of the enclosed nor like being blackmailed into taking steps owing to the scandal talk of the rival factions in the Black Market ring.
The enclosed report on page 3 refers to honest exporters. I do not believe they exist here.

*Yours sincerely
m Carr*

4
SECRET

28 December 1944

TO : Brigadier-General CARR, A.C. Administrator, Sicilian Region.
FROM : JOSEPH P. RUSSO (CIV) IC, OSS-Sicily
SUBJECT : EXPORT PERMIT BACKED

Date of Report : 26 Dec. 1944

Report No. JP-1309

Date Received : 26 Dec. 1944

Evaluation : B - 3

Information secured from various reliable sources has confirmed that Allied Commission has made tonnage assignments on the Italian steamship "Gusta", based on standards of partiality. The ship's route is Palermo - Torre Annunziata - Civitavecchia and its cargo is 1000 tons of wine.

It is reliably reported that at least 50 per cent of the tonnage was obtained by the intervention of women, 250 tons of this went to Giuseppe CAUDULLO who sold it at from 15 - 30 lire per kg. The bulk was sold at about 25 lire, however.

Out of the 250 tons assigned to Caudullo, he utilized only 15 for his own merchandise. The rest was sold at the above prices which brought a profit of 6,000,000 lire for Caudullo and Countess MAIORGA, his partner. A share of the profit was given to one CASSARINO, a partner of Caudullo, who receives only a small part of the returns, however.

Caudullo is a citrus fruit exporter of Catania who has never been trusted in his native town due to his bad commercial reputation. He has never concluded any important negotiations and has debts amounting to 600,000 lire. In fact, he himself has stated that he had to come to Palermo to go into business, because he could not continue in Catania.

Mrs. Rosetta CARONIA also obtained an assignment of 200 tons from A.C. officers realizing a profit of 1,000,000 lire.

It has not been possible to ascertain who has benefited from the assignments procured by Mrs. Caronia, and it is more than probable that she received assignments greater than 200 tons.

Other individuals have received assignments in the same way, it is reported.

- 2 -

3

SECRET

Thus : 250 tons for Mrs. Maiorca
 " " " " Geronia
 450 " Total

Other small assignments added to the above total will certainly result in 500 tons at least, which is half of the total tonnage.

These assignments are detrimental to the legal businessmen and to the consumer who eventually carries the weight of the speculation.

* * * *

Tonnage assignments for export shipping are obtained through the recommendations of Allied Commission officers' lady friends, Countess Luisa Maiorca, and Mrs. Donetta Geronia. Telephone communications made by A.C. officers to COGENA, which administrates all available shipping, are sufficient to secure desired reservations (export permits).

Thus, through the intervention of their "partners," Countess Maiorca and Mrs. Geronia, Caudullo of Catania, and one PALUMBO have succeeded in obtaining 200 or 300 ton assignments for each trip. This tonnage, which is sold at a profit to other firms, which in turn sell it at 20 - 26 lire per kg. determines a return of 5 - 6 million lire for the above-mentioned women for each shipment from Sicily.

Mrs. Geronia also deals in truck and automobile permits.

The following information has been obtained :

SHIPS :

M.V. ASSUNTA MARIA - 60 tons were assigned to Palumbo which were sold at a profit of one million lire, with a 50 per cent cut for Mrs. Geronia.

GARIBOLDI - 250 tons assigned to Caudullo through the Countess Maiorca, were sold to MARINO SCORDATO, BRUGGIO and others with a profit of 6 million lire, which sum was divided in two and then deposited in the Commercial Bank under the name of VENTURIOLI Clementina. Since it was rumored that an investigation was being conducted on Caudullo's activity, difficulties promptly settled by an A.C. Major, arose between him and the ship's captain.

It is believed that an 80,000 lire watch was offered to an A.C. officer during a recent banquet to A.C. personnel.

GARIBOLDI - Contrary to the custom of assigning the tonnage to PALUMBO, 200 tons were assigned directly to Mrs. Geronia on one occasion. Legally, Mrs. Geronia is not authorized to receive such assignments because she is not registered in the Chamber of Commerce.

- 3 -

SECRET

as an exporter. The tonnage permit was sold to the AMOROSO firm at a profit of 5 million lire. Mrs. Caronia also obtained a truck permit for the AMOROSO firm.

GAETA - 100 tons were obtained by the S.I.E.P.A.S. firm through an officer of the U.S. Navy, friend of Atty. CAMALO'. The firm which had not requested the tonnage in turn sold it to Rag. BOZZA and others. The profits were divided between Atty. CAMALO' and the firm.

The above negotiations have aroused high discontent among all honest exporters who realize that they will not be able to work unless they wish to entrust themselves to the protection and exploitation of these ladies and the A.C. officers who obtain assignments from COGENA in Rome and Palermo. The names of Mrs. Caronia and Countess MAIORCA have never been mentioned in the lists of those who received assignments, but those of their partners PALUMBO and GAUDULLO are.

Although the latter method appears to relieve the officers of any responsibility in the matter, the A.C. officers and the Allied Government have been compromised in the eyes of the civilian population and as a consequence, the prestige of Allied Authorities and military personnel has suffered seriously.

* * * *

GARIBOLDI CARGO

The Italian steamship "Gaeta," which was scheduled to leave Palermo for Torre Annunziata and Civitavecchia on Dec. 28, carried a cargo of 1000 tons of wine.

This tonnage was assigned chiefly to speculators who profited on the sale of their assignments (export permits).

According to Nino LA DUGA, Maritime Exportation Agent of Catania, the situation on Dec. 19th was as follows :

Cargo Utilized No. 600 tons
Non-Utilized cargo due to lack of merchandise No. 400 tons
Consequently, 400 tons of cargo were left to speculate upon.

* * * *

It is reported that Countess Luisa MAIORCA confided the following to Giuseppe GAUDULLO, of Catania, in the Impero Restaurant at Marsala. Gaudullo is her friend and partner in business.

"Don't worry, because you will receive the assignment. I guarantee you this. The "Gaeta" will not leave without your cargo."

SECRET ④

- 4 -

Mrs. Maiorca referred to the cargo on the "Gaeta" which was then in port of Palermo. Gaudullo did obtain a tonnage assignment on the "Gaeta" and went to Marsala to sell his permit at 8 lire per kg.

These statements were made by Calcedonia INGRASSIA, of Castelvetrano, an exporter of wines, who has made business deals with Gaudullo.

Gaudullo also sold to one GHASSO, Dr. ZERILLI, wine producer, and Reg. RIGANO, dealer in wines, salted-products, etc.

* * * * *
