TO : ALUM BONE : INFO: FREEDOM : WASHINGTON FOR CCAC : NOV 5 1985

COMPLETES IT ALL.

This is PAT 174. Refrence PAT 154 16th October.

1. We have no objections to Italians obtaining 1600 tons resin from GREECE. Italians must however obtain formal permission from GREECE through AG.
2. We have seen 711 ARRES from MARITIME. view shortage resin we could not agree to Italians negotiating in SPAIN for present time as it would on-
danger our present negotiations. In any case Italians have been allocated 760 tons from MEXICO and are about to be allocated 1600 tons from GREECE for fourth quarter which should satisfy their immediate requirements.
3. There is in LONDON a resin working group under the aegis of the Ministry of supply of the principal European resin consuming countries which allocates available supplies. We have not hitherto suggested that the Italians should be represented on the resin working group for the same reasons that we could not agree to their being represented on the timber working group (see abstract 31 to HOME). Since however no objections have been raised to membership of FINLAND on the resin group we now see no reason why ITALY should not become a member too. Will you explain to Italians that we are prepared to suggest their membership and ask them whether they would like to be represented. No-
and signor SICHIOPELLI would be a member. Advantage to the Italians is considered.

auto signor SINGHILLI would be a member. Advantage to the Italians in connection.

This is PAT 174. Reference PAT 154 16th October.

1. We have no objections to Italians obtaining 1600 tons resin from GREECE. Italians must however obtain formal permission from COMECON through AG.

2. We have seen 711 APPEAL from MADRID. Vice shortage resin we could not agree to Italians negotiating in SPAIN for present time as it would endanger our present negotiations. In any case Italians have been allocated 760 tons from MEXICO and are about to be allocated 1600 tons from GREECE for fourth quarter which should satisfy their immediate requirements.

3. There is in LONDON a resin working group under the ASBURY of the Ministry of Supply of the principal European resin consuming countries which allocates available supplies. We have not hitherto suggested that the Italians should be represented on the resin working group for the same reasons that we could not agree to their being represented on the timber working group (see about 31 to ROME). Since however no objections have been raised to membership of FINLAND on the resin group we now see no reason why ITALY should not become a member too. Will you explain to Italians that we are prepared to suggest their membership and ask them whether they would like to be represented. If so, and SIGNOR STEMPRELLI would be a member. Advantage to the Italians is considerable as they would be able to see that they were getting fair treatment in line with other European countries

This is COM 248.

Refer LOC 332 and WAR DEPARTMENT cable 6681.

Description and proximate analysis coal shipments to ITALY under
Civilian Supply Program.

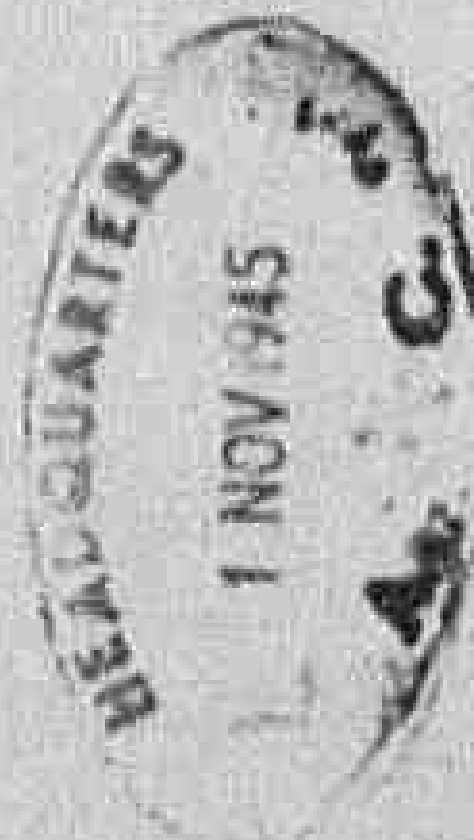

1. Information as to specific analysis each coal cargo un-
available. However, general description is available based to some
degree on ports of loading and general analysis of type coal now
available for export of which approximately 90% of UNITED STATES
exports to EUROPE will be strip coal, straight run of mine of 4-inch
resultant.
2. Shipments from PHILADELPHIA should be approximately 17 to 25
volatile strongly coking and swelling, 9 to 14% ash, 1 to 3% sulphur,
2300 and above AST. BALTIMORE and CHARLESTON shipments should be
coking and also BALTIMORE shipments should provide some medium quality
gas coal.
3. CHARLESTON and GULF Ports should analyze about 33 to 39%
volatile, 6 to 14% ash, sulphur up to 3% and approximately 2100 AST.
4. High quality gas, low volatile coking and sized coals not
currently available. Suggest maximum use be made of strip coal which
is available and that any stocks of high grade coal in ITALY be

conserved for specific and users requiring quality coal.

Refer AOC 332 and WAR DEPARTMENT cable 6661.

RECEIVED
29 OCT 1945

UNCLASSIFIED.

This is COM 271. Refer WOC 209. Payment to Briarwood Corporation of proceeds of sale of 519 bales Briarwood.

1. Reference is made to WOC airmgram 79 inquiring whether it is in order to credit proceeds of the sale of 519 bales of Briarwood to the Italian Government account. AC reported to COMAC January 24, 1944, (refer E-111) that the 519 bales of Briarwood were taken over by the controller of property, ACC. In September, 1944, AC consigned and shipped the Briarwood to the American Briarwood Import Corporation as the owner. The American Briarwood Import Corporation has made claim to the net proceeds based upon the fact that it paid for this Briarwood before the war and is the owner. ALLIED COMMISSION's consent to the American concern indicates that it regards the American concern as the owner. The available facts appear to substantiate this ownership. USOC, before coming to a decision in the matter, request confirmation that ACC took over and shipped this Briarwood as the property of the American Briarwood Import Corporation and the consent of AC to the payment of the net proceeds to the American firm. Please cable ALLIED COMMISSION's consent, also cable views regarding INSTITUTO COMERCIO ESTEROS interest in the matter and obtain INSTITUTO COMERCIO ESTEROS consent if it has an interest.

2. With COM 159 you were advised of inability of USOC to keep 2 consignments

4201

1. Reference is made to WOC airgram 79 inquiring whether it is in order to credit proceeds of the sale of 519 bales of briarwood to the Italian Government account. AC reported to CCAC January 24, 1944, (refer E-111) that the 519 bales of briarwood were taken over by the controller of property, ACC. In September, 1944, AC consigned and shipped the briarwood to the American Briarwood Import Corporation as the owner. The American Briarwood Import Corporation has made claim to the net proceeds based upon the fact that it paid for this briarwood before the war and is the owner. ALLIED COMMISSION's consignment to the American concern indicates that it regards the American concern as the owner. The available facts appear to substantiate this ownership. WOC, before coming to a decision in the matter, request confirmation that ACC took over and shipped this briarwood as the property of the American Briarwood Import Corporation and the consent of AC to the payment of the net proceeds to the American firm. Please cable ALLIED COMMISSION's consent, also cable views regarding INSTITUTO COMERCIO EXTERIOS interest in the matter and obtain INSTITUTO COMERCIO EXTERIOS consent if it has an interest.

4201

consent if it has an interest.

2. With CCM 159 you were advised of inability of USCC to keep 2 consignments received on SS & STEELNS separated and therefore accounting could be rendered only on a pro rata basis. The share of proceeds of 519 bales of total of 5773 were reported with CCM 159 as amounting to a gross of 20915 dollars 70 cents and to a net of 19737 dollars 57 cents based on overall returns for all briarwood consigned and sold ex SS & STEELNS as of July 18, 1945. These figures are now slightly revised by more recent returns to read gross 21258 dollars 24 cents and 19415 dollars 79 cents. JM HILLING Maj Gen Dir Civil Affairs Divn.

This is COM 270. Cotton shipments to ITALY.

Numerous unjustified complaints have been received here from Italian sources with respect to American cotton so far sent to ITALY. These consignments were 14300 bales in August and 16793 bales on 53 NEWICH VICTORY in September.

Complaints are twofold:

1. Low quality.
2. Bales lack proper marking to identify grades and length of staple.

As to number 1 AC has been advised with COM air 50 and COM air 61 on all selection of grades and staples as requisitioned ex UNITED STATES with the intention that such distribution be discussed with proper Italian authorities and unfavorable comments, if any, promptly forwarded to WASHINGTON.

You may advise the Italian Government that it is believed here that the quality of cotton now shipped to ITALY is superior to what ITALY needs now for domestic purposes and to some extent even for export as disclosed by recent special investigation by Mister TAYLOR, UNITED STATES DEPARTMENT OF AGRICULTURE expert.

It has been pointed out by Italians that cotton shipped in August is not usable to make fine materials for export. The cotton sent under basic supply program is not for manufacturing textiles for export but for covering basic Italian relief needs. Justification for requisition AC-QM-110, which was shipped with COM air 50 and shipped ex UNITED STATES.

Declassified E.O. 12356 Section 3.3/NND No.

Complaints are twofold:

1. Low quality.
2. Bales lack proper marking to identify grades and length of staple.

You may advise the Italian Government that it is believed here that the quality of cotton now shipped to Italy is superior to what Italy needs now for domestic purposes and to some extent even for export as disclosed by recent special investigation by Minister Taylor, UNITED STATES DEPARTMENT OF AGRICULTURE expert.

It has been pointed out by Italians that cotton shipped in August is not useable to make fine materials for export. The cotton sent under basic supply program is not for manufacturing textiles for export but for covering basic Italian relief needs. Justification for requisition AC-QM-110, which was approved as military responsibility with CAL air 39 and shipped ex UNITED STATES, is wholly based on Italian domestic requirements. In the circumstances it is believed that the cotton shipped against AC-QM-110 is adequate for the purposes for which it was procured.

As to complaint number 2, you are informed that all cotton procured by the UNITED STATES DEPARTMENT OF AGRICULTURE is properly marked and such marks appear

on all bales as well as bills of lading. (See CDM 268) HILDRING.

RESTRICTED

PAG 2/110

Subject is Italian National state requirements.

Item 1. MCC 238 stated estimated Italian monthly civil requirements as of July 45 only and made no provision for necessity to provide working stocks to cover distribution of offtake for an independent national programme plus additional commitments now being transferred from military such as state railways, Italian Navy and Airforce and other public utilities. It must therefore be considered obsolete.

Item 2. In order to meet actual total Italian consumption and bring Italian stocks of fuels and lubricants up to a working level of 45 days supply fuels and 60 days lubricants by December 31st it is necessary to withdraw from present military holdings and or from military funds in the following quantities of fuels and lubricants over and above Italian case in as shown on STAT 22. Fuels. All quantities in thousands of barrels. October. 20 AVIATION. 74 MOTOR, 17 kerosene, 103 Diesel, total white 214. Navy special fuel 240. November same quantities except no AVIATION. December same as November. Lubricants September. 41- ready delivered approx 11139 barrels of lubes and 7975 barrels of asphaltum. October already authorized to meet cost 4191 barrels of lubes 10 Tons of wax and 43863 barrels asphaltum. November and December to meet consumption and build up of stocks as well as absorb surplus grades in military depots 59604 barrels of lubes, 1000 tons wax and 53,000 barrels of asphaltum.

Item 3. Above planned programme under Item 2 is urgently necessary in order to place Italian level of supply on working basis. Italian economy especially in Northern Italy being seriously jeopardized due to lack of sufficient working stocks. Withdracals

785017

Item 4. Practically all of inventories being turned over but excepting all asphaltum will be taken from August 31 stocks and are no less than 90 days supply. Of the fuels approx 984,000 barrels will be from August 31 stocks on a 117% basis (less than 60 days supply) and remainder of 335,000 barrels plus oil due in on a collar replacement basis.

Item 5. In addition to excess Navy symbol 4055 as mentioned our TX 49163 now estimate following additional excesses on hand (excepting small miscellaneous items). 3800 barrels Navy symbol 5190. 1200 barrels Navy symbol 5170. 1,000 barrels Navy symbol 2190. 2200 barrels superheated steam cylinder. 1180 barrels superheated cylinder. Suggest all these excesses with exception 8,000 barrels 4055 which cannot be used by civilians turned over to CIP for Italian National future programme.

Item 6. Above has been agreed with G-5 and JC; JC confirmed to CCS in COM MOC series.

This is COM 261.

1. There has been grave concern here over coal shipment situation as 6 out of 42 cargoes originally scheduled for September loadings failed to move due to lack of coal. Out of 48 scheduled for October loadings we have info to date that only 2 have sailed due to coal shortage as result of strike.

2. However strike settled October 17th and miners returned to work October 22nd. Solid fuels administration stated it cannot expect any pickup in shipments until November 1st since will take approx 2 weeks after miner return to work to realize any appreciable increase in production. They have made assurances, however, that coal shipments will be resumed as soon as possible and continued at maximum rate possible. Your second para MOC 335 answered COM cable 243.

UNCLASSIFIED

This is COM 255.

Refer MOC 310; Exchange of unfinished rayon crepe for cellulose.

1. No allocation is necessary for rayon since no longer RCL item.

2. However question has been raised whether exports will take place out of existing stocks or will the cellulose be imported on a credit basis. Should this be exported now out of existing stocks could ITALYS current supply position suffer considerably.

between Italian exports to that Allied Military and Civilian Supply program for Italy would not be impaired by conflicting export activities. It is generally believed here that the general operational functions of the A.C. should not be limited to items on HOS but should be of a wider scope and cover items which are not on the HOS do not have to be cleared with the combined boards.

2. Your statement in paragraph 2 (A) of 10/29/49 that the Italian exports provided by the HOS are a serious hindrance to the free operation of Italy on exports is realized, but since complete restrictions are still necessary because of world shortages there is no reason why this should be abolished or suspended only because they affect the negotiating power of the Italian Government.

3. Regarding your interpretation of the HOS (refer paragraph 2 (A), HOS 199) and of what is consequently in Category 4 of Italian exports, you are advised that (A) only certain essential oils are on the HOS, (B) certain items have been del. vol. (C) certain items are del. vol. since March 1, 1949, in per HOS (3) 4175, and (D) certain items are del. vol. since March 1, 1949, in per HOS (3) 4175. You are further advised that certain items are on the HOS of the combined board of H1 (see HOS 100-100) and are del. vol. on the HOS of the combined board are in production which will result in additional deletions. HOS has already revised its HOS which is sent to you with HOS 100-100 58.

4. Your request that the HOS be granted authority to approve exports without reference to HOS 100-100 or HOS 100-100 is not approved. The materials which are in HOS 100-100 are acquired under temporary export of items in conformity to the very principle which is the basis of the creation of the HOS and cannot be changed. However, the question of exemption from HOS the products manufactured from the HOS (Action Code 100-100 100-100) is not.

785017

THIS IS MOM 252. PAGE 11.

5. To help secure a quick solution Italian Government should present as overall item of the agenda of these transactions only insofar as the above items still on them. See COM AIRGREN with THIS list attached. The list should contain all pertinent information regarding current or past position of each one of these commodities so that Italian needs can be properly integrated with the needs of other countries and other countries requirements for these commodities to the combined boards, can be properly integrated with their current requirements from sources other than ITALY.

6. You may advise the Italian Government that it is known to the great interest has been shown by the COM AIRGREN and COM AIRGREN commercial firms in expansion to ITALY on a permanent basis but no further action has been possible because of lack of proper government machinery in ITALY to provide information pertinent to such transactions. Moreover, it is only too obvious that transactions of this kind should be integrated with the overall Italian import program so that no unnecessary expenditure is incurred which involves Allied relief funds. All the above mentioned should be given to the Italian Government in accordance with its own import procedures and increasing the volume of its foreign trade.

6. You may advise the Italian Government that it is known that a great interest has been shown by the ISG and the UNICOM in the UNICOM in Italy as to Italy as a subject basis but as far as the UNICOM has been possible because of lack of proper government machinery in Italy to provide government information to such transactions. Moreover, it is also obvious that transactions of this kind should be integrated with the overall Italian import program so that the unnecessary expenditure is incurred which involves Allied relief funds. All possible assistance should be given to the Italian Government in coordinating its export import procedures and increasing the volume of its foreign trade.

OCT 17 1945

FROM: AIR FROM COM THE CLAC FOR CLAC

TO : ALLIED COMMISSION INFO AND FOR PWED AND IN BASE EDITION
 FOR CLACED INFORMATION

ROUTINE

This is COM 245. Core for Commission matters.

1. Your msg 304 4000 (re: understood A B form?) appears that it has not been coordinated with other parts of AC.

2. Before (reference) para 2, procurement of core for lease smelting known to AC reference COM 50, REC 131, COM 103 USA MC 157 PB moreover VI-35 which covers this procurement was sent to you with COM AIR 45 August 2.

3. Refer para 2, requisition MGS-144, now CLAC I-2, is in action procurement in UNITED STATES and UNITED KINGDOM for mining supplies. Supplies in UNITED STATES are provided with T-1 through 11 and are being shipped October-November 1945. You should contact UNITED KINGDOM for status on their procurement which is being often discussed in 44P-PAT series. MOC 137 requested more SW eval for operation of matters.

4. Further ref para 2 and para 4, do not understand statement lead demand does not carry out requisition less via base number PE COMB has recommended since 1540 requisition COMB 4154 to meet Italian and Japanese requirements. Lead to still in supply and on 201 of 1545 and certainly balance in 1545. Numerous cables to COM-LAC and COM-MOC series discuss request.

4154

785017

ROUTINE

This is COM 261. Code for Sanitation matters.

1. Your MC 324 MCCC has not understood 3 D (and?) appears that it has not been coordinated with other parts of AC.

2. Before (re-joining) para 1, procurement of coke for 1940 smelting known to AC reference COM 90, MC 134, COM 103 and MC 157 PE moreover TT-35 which covers this procurement was sent to you with COM 114 45 August 5.

3. Refer para 2, requisition MC3-124, now COM I-2, to in active procurement in UNITED STATES and UNITED KINGDOM for mining supplies. Supplies ex UNITED STATES are procured with 7 T-1 through 12 and are being shipped October-November 1940. You should connect UNITED KINGDOM for status on their procurement which is being often discussed in TAP-PAT series. MC 137 requested coke and coal for operation of smelters.

4. Further ref para 2 and para 4, do not understand statement. Lead demand does not warrant reactivation 1940 and also mine PE 6433 has recommended since 1943 reactivation. **4154** Lead is still in shape to meet Italian and European requirements. Lead is still in shape supply and on RCL of COMB and certainly needed in ITALY. Numerous cables in COM-IAC and COM-MCC series discuss subject.

5. Refer para 3, your figures MC 324 are stocks and coke requirements do not agree with data filed by AC starting with report on subject mine dated October 13, 1940 prepared by Col. AGENT. Since coke requirements are indicated to be 1450 tons at maximum capacity of mines, shipment has on way sufficient for 5 to 6 months operation under current circumstances.

6. AS JOHN WILLIAM GATES, 76 W 13 (COM telegram 52 reports) losing October 5. Selling orders not yet received. Will forward subject.

THIS IS C.O.M. 226. Provision of essential supplies to ITALY.

1. Reference following messages: MOC 226, MOC 281, MOC 292, MOC 289,

MOC 295, LAC 1275, LAC 1300, LAC 1302,

2. Will send shortly by COM airgram third revision of program of basic supplies, ~~which can be regarded as latest adjusted program~~ which can be regarded as latest adjusted program of supplies scheduled for shipment to ITALY from UNITED STATES and UNITED KINGDOM during remaining months of 1945. There are not repeat not many changes in quantities from revision roman numeral two, which was sent to ALCON through YRA channels. Please study carefully the notes to each table in revision roman numeral three when it reaches you, as these notes indicate clearly action taken on each item.

3. Supplies which UNITED KINGDOM has agreed to supply are limited to 570 tons of raw rubber and 5,000 tons of wool. It is understood that the U.K. are prepared to ship these items. CANADA is not repeat not at present committed to supplying anything against present program.

4. Accounting. In reply to LAC 1275 and LAC 1300, for U.S. shipments procedure outlined in para 2 of LAC 1275 as modified by para 3 of same message is satisfactory, with the understanding that reference in para 3B of LAC 1275 is to civilian agencies having supply responsibility, and that appropriate United States civilian agencies will cost quantitative records and bill recipient government unilaterally. The accounts for supplies from United States under this interim program will be kept on a United States, not repeat not a combined, basis. The United Kingdom

See M.G. 9.

INFO

SECRET TWO.

HEADQUARTERS
79 SEP 1945
A. C.

have proposed that goods ex United Kingdom be delivered to Italian Government FOB British port (see PAT 160) under this arrangement cost of shipment to ITALY will still be financed initially by procedure.

5. Shipping procedure for basic program. For shipments from United States sources under basic program procedure is as follows:

- (A) Ocean bills of lading will show " War Shipping Administrator as principal for account of FEA," as consignor, and " WSA as agent for United States Army" as consignee.
- (B) Bills of lading will bear following clause: " transfer of property to United States Army will take place at end of ships destination."
- (C) One of the original bills of lading will be signed at destination (Italian port) by WSA as agent for United States Army as receipt for transfer of property from FEA to United States Army. This transfer must take place in order to legalize use of FEA funds for this purpose. Receipt is returned to FEA for record.
- (D) War Department instructing MTOUSA to work out with WSA and ALCON in field the procedures for turning supplies over to Italian Government. This procedure should include transmittal of Italian Government receipt to ALCON
- (E) Consignments under I B program are being marked " ITALY " with no port indication, on assumption that they can be routed from GIBRALTAR under existing theater procedures.
- (F) Schedules of loadings each month will be sent to AG in a form similar

INFO

SHEET THREE.

HEADQUARTERS

29 SEP 1945

A.

C.

to COM airgram 52, which is shipping program for September loading; beginning October loadings these schedules will include information as to specific cargo on each ship to extent possible.

6. Shipping allocations from United States cover not repeat not only basic program but also include space for shipment of miscellaneous items being sent to ITALY under other programs - that is, category B program (trepp pay account - YT requisitions) UNRRA program, VATICAN and other relief shipments. In future they will also include any Italian Government purchases through commercial channels.

7. For shipments from United States, administrative procedure does not repeat not require any calling forward by AG. Once a requirement is accepted all details of allocation, procurement and shipment are managed in WASHINGTON by FEA. Requisition is made up in FEA and bears symbol Y B. Under present arrangements ~~the~~ the one hundred million dollar FEA appropriation is to used only for purchase of supplies and it is expected that shipping costs will come out of other appropriated funds.

8. Coal. (reference MOC 292 para 3) Source of supply for all civilian coal for ITALY is United States for October and November loadings, no allocations having yet been made for December loadings. Quantity is 420,000 tons for October loading, 450,000 tons for November loadings. Quantities being procured are those detailed in MOC 261. Somewhat different figures in a cable numbered FX 38206 of 25 August 1945 from AFHQ to GCAC, are not repeat not being used here insofar ⁴¹³⁵ as they refer to needs for civilian use, since the cable did not repeat not come to GCAC from AG in MOC series. United States War Department is meeting from United States sources its direct Military requirements including locomotive coal for railroads.

INFO

SECRET FOUR

British Military coal needs, which are still under discussion here are not repeat not at present being met from United States supplies, but are being supplied to extent possible from South Africa.

9. POL in monthly quantities and products as set out in MOC 258 of 30 July 1945 has been approved here as a requirement. United States have agreed to include in basic program 50% of the value of this program from United States sources. It had been previously agreed that POL supply for ITALY would be shared equally by United States and United Kingdom Governments under basic program, but now repeat now the United Kingdom have given notice of their inability to provide a share. If United Kingdom does not repeat not provide 50% of POL that share will have to be financed from Y 7 funds available to the Italian Government. Detailed administrative supply arrangements will continue for time being to be handled through PETROS. This arrangement does not repeat not affect termination of combined United States/United Kingdom military responsibility for provision of civilian petroleum supplies which is effective 1 October 1945. PETROS will transfer petroleum products to OIP (Comitato Italiano Petrolio) acting for Italian government. After 1 October please report currently to GLAC in MOC series actual deliveries of petroleum to OIP on behalf of the Italian Government as compared with approved requirements which are agreed between ALCOM and PETROS should be notified immediately by ALCOM to GLAC in MOC series.

10. Wheat. Approved monthly requirements is now repeat now 150,000 tons. 142,000 tons wheat plus 8,000 tons flour are being requested by FEA from United

ALLIED COMMISSION FOR ACTION REPEATED INFO AFHQ FOR RHOSS AND US HAVE SENT HIM
FOR CABINET SECRETARIAT

UNCLASSIFIED.

This is SUB 229. Refer SUB 206.

Rayon and cellulose.

1. Considered undesirable to export rayon thread to SWITZERLAND while rayon thread is at the same time included in import program for manufacture of tire cords. Has Italian Government no Swiss Francs to pay these warehousing charges?
2. Proposed import of 750 tons cellulose belonging to Italian Government is authorized since previous allocation to Italian Government for cellulose for September and October shipment is about 9000 tons. From September 1 cellulose is no longer an RIL item.
3. Please advise action.
