This is loc 1322. Upon the authority and recommendation of paragraph 4 of signal tem 310 dated 6 October 1944 Italian utilities are debited with percentage of pol considered for civil economy. Amounts considered chargeable to the Italian state railway.

Para 2. It is considered that effective from 1 September 1945 it should be debited with 100 percent of pol supplies. Is place claim against Italian Government for that portion of pol used in work performed for each of the Allied military.

Para 3. Reasons for the above opinion as follows:

A) With termination of lend lease as at 31 August 1945 impossible to accurately assess amounts of pol consumed by railways for accounts of each of the Allied military.

B) Existing system is inoperative due to detailed accounting procedures necessitated by termination of lend lease.

Para 4. Percentage of pol consumed by power houses for civil use in 100 percent.

Para 5. Request approval of proposed procedure and concurrence that paragraph 4 of tem 310 dated 6 October 1945 may be revised in accordance with paragraph 2 above.

This is Com 242. Refer 6681 (7 October 1945) and 2096550 of 20 September 1945. Shipping advices on civilian supplies for ITALY.

1. Please use COM MOC series for action pertaining to civilian supplies for ITALY.

2. You were advised in COM Airgram 52 of 8 September of September loading program ex UNITED STATES for civilian supplies. Subsequently, daily cables have been dispatched giving name of vessel, TB number (number of ship corresponding to one given in shipping program of COM Airgram 52), port from which ship sailed, type cargo and, when available, weight. Eta GIBRALTER and maximum draft should be obtained from local WSA offices ITALY.

3. FEA uses code letters YP to designate 100 million dollar basic program consigned to UNITED STATES Army (See COM 226) and YT to designate troop pay procurement for account Italian Government which is consigned to ICR. Shipments might get mixed for 2 programs but markings and papers accordingly carry symbol YP or YT.

4. Paragraph 4 of COM 226 details YP program pricing procedure; AC will keep commodity accounts under existing procedure and landed cost figures on YP shipments will be furnished by FEA, WASHINGTON. For landed costs on YT program, Italian government should direct its inquiries to Italian Delegation in WASHINGTON which has copies all necessary papers.

5. Specifications on coal shipments to meet your type designations MOC 261 will follow.

RESUBMITTED.

Subject: coal for ITALY and further to PX 50977 and PX 51066 of 30 OCTOBER.

1. Most grateful for your offer by telephons of 5 cargoes of US originally destined for BELGIAN ports in exchange for 2000 railway wagons for temporary service between RUHR and BELGIUM. Much regret however that owing to circumstances unforeseen when our PX 51066 was dispatched unable now undertake to provide rolling stock and locomotives for use outside ITALY.
2. Unforeseen circumstances envisaged in first above include (A) programme of coal now scheduled for November loadings and December arrivals make grand total of 707000 tons. Requirements for clearing this large tonnage do not permit of diversion of wagons from ITALY for longer haul from RUHR. (B) Further conditions in north ITALY now being experienced will make wagon distribution increasingly difficult and make it inadvisable to divert wagons out of ITALY.

Subject coal for ITALY and further to PX 50977 and PX 51066 of 30 OCTOBER.

1. Most grateful for your offer by telephone of 5 cargoes ex US originally destined for BRITISH ports in exchange for 2000 railway wagons for temporary service between RUHR and BELGIUM. Much regret however that owing to circumstances unforeseen when our PX 51066 was dispatched unable now undertake to provide rolling stock and locomotives for use outside ITALY.

2. Unforeseen circumstances envisaged in first above include (A) programme of coal now scheduled for November loadings and December arrivals make grand total of 707000 tons. (B) Weather conditions in North ITALY now being experienced will make wagon distribution increasingly difficult and make it inadvisable to divert wagons out of ITALY.

3. Alcom have requested VCB that 5 cargoes already discussed and now enroute for northwest EUROPE be diverted to north Italian ports to partially fill gap arising from November short fall and that repayment be made by diversion from December allocations to ITALY unless additional loading can be arranged to repay such diversions. Most grateful if you can give your concurrence.

4. Understand investigations already being discussed re carrying supply of coal for ITALY ex RUHR at EOC conference in LONDON

Subject is Italian Government proposed import and export financial policy.

Surrounding imports and granting exchange premium on exports. (1) Italian

Government desire to retain present lira/foreign currency exchange rates. (2)

To encourage exports they propose to adopt 1 increased coefficient for all goods in all

and all countries. (3) Coefficient to be fixed presently at 100% thus paying

exporter 200 lire for every dollars worth of export. (4) Extra coefficient would

be applied to all imports to bring prices of imported goods nearer level of

existing home market prices. (5) Percentage and disbursements arising from

application of coefficient to be accounted for in "Foreign trade fund" (6)

Favourable balance in "Foreign trade fund" to be used for (a) subsidizing essential

imported goods sold in open market if deemed necessary. (B) partial re-absorption

into circulation with a view to lowering home market prices nearer foreign market

levels. (7) Coefficient to be reduced if and when home market prices approach

foreign market prices. (8) Have you any objections
