UNCLASSIFIED.

Public Health requirements Venezia Giulia/ Udine.
This is LAC 1351. Reference CAL 1511 and LAC Airgram 135.
Justification for total requirements for Venezia Giulia as requested in LAC AIRGRAM 139 are submitted for your consideration.

(A) Geographical conditions peculiar to zone B particularly in Trieste, Pola and Gorizia makes that part of Venezia Giulia dependent on zone A for medical treatment and supplies.

(B) In order to prevent disease and unrest in zone A and because of the absence of adequate medical centres and supplies in zone B it will be necessary for zone A to continue the medical services heretofore provided under both Italian and Austrian administration.

(C) Unless the requirements requested are forthcoming the medical supplies for Venezia Giulia and Udine province will be prematurely exhausted.

2. The question of preplacement of supplies expended in zone A for treatment of Jugoslav personnel by UNRRA is the subject of discussion at this Headquarters.

3. In case request in LAC AIRGRAM on 39 cannot be granted then will you please reduce the requirements for Venezia Giulia by 27hs for the period January through June 1946, but in agreeing to such reduction temporarily, must emphasise that it may still be necessary ask for the original total.

4791

4. Agreed UNRRA.

OUTGOING MESSAGE
HEADQUARTERS ALLIED COMMISSION

FROM : H. ALCOM 27 January 1946

TO : AGWAR FOR CCS FOR CCAC FOR CLAC WAROF (LONDON)
FOR SLAC SECRETARIAT AFHQ FCEC

Ref.No.: 626 UNCLASSIFIED

This is MOC 489.

MOC 403 and FAT 197 refer.

Subject is resumption private trading with Italy.

1. The following is translation of press release prepared by Italian Ministry Foreign Trade, agreed by United States and United Kingdom Embassies and ALCOM, for publication here 5th February.

2. "Effective February 15 1946 private trade between Italy on the one hand and the US, Great Britain and countries of the British Empire on the other will be resumed. As a consequence, the National Institute for Foreign Trade (ICE) will no longer be an obligatory channel for trade with those countries, private firms being able to trade direct. The US Government has stated that, simultaneously, the United States Commercial Company ceases to be an obligatory channel for trade with that country. As a result of the present action, private trade is reestablished with all countries except Germany, Japan, Manchuria, Korea, and Formosa. For the private trade so resumed there still remain in effect the restrictions and controls exercised by the Ministry of Foreign Trade and required by the General Foreign Exchange position, the supply situation of our country and by the terms of commercial and payments agreements. As a result of international agreements, the movement of goods included in the Reserved Commodity Lists must be authorized in advance by the appropriate Economic Agencies of the United Nations. The regulations to which private firms must conform in foreign trade operations will be set forth in publication distributed by the Ministry of Foreign Trade." a/

4789

3. It is expected that the publication referred to will be ready for distribution February 15. It will contain statement of Italian commercial policy objectives, details of licensing procedures, regulations governing import transactions not requiring foreign exchange, those for manufacture on commission and reexport, private compensations, etc. details of system

Sforff 30/1/46

seen on file 4003/EC FA 29/1.

of allocation of export import quotas to individual firms where necessary, list of exportable commodities subject to foreign exchange control but exempt from export control requiring Ministry license, copy of Reserved Commodity Lists, regulations governing commercial correspondence and procedure for obtaining shipping space.

4. Ministry expects to issue periodic bulletins thereafter announcing additional information of interest to private traders .

5. United States and United Kingdom Governments may wish to make simultaneous release 5 February, 1600 hours Rome time. Note that above quoted release will be issued by Italian Government, though its Italian text has been agreed by ACC, United States and British Embassies.

FROM : A. ALCOM 24 JANUARY 1946

TO : ...FOR OCS FOR CCAC FOR CLAC AND AMAF (LONDON)
FOR CLAC SECRETARIAT ...FH, FHGLG

JAN 25 1946

Ref.No. : 534

SECRET

This is ALCC 485.

1. The following telegram was transmitted by ALCOM to...FH today:

"Reference your FX 58491 of 12 January 1946 and T.M 690 and T.M 728.

"1. ALCOM does not agree with the reasoning in T.M 728, paras 5 and 6, and your reference cable, subject: "Cancellation of Payment for Loans of Italian Civil Supplies to Venezia Giulia". Reasons follow.

(a) CCS apparently proposes to go back on an agreement reached in Washington before the beginning of the CL.C program, whereby supplies from the CL.C program would be authorized to be diverted from Italy civil supply program to Venezia Giulia upon repayment in kind from the Military supply line, which was to be set up for Venezia Giulia. Thus T.M 726 constitutes an abrogation of an agreement with the Combined Liberated Areas Committee, which does not depend from CCS.

(b) T.M 726 reasons that "after repayment Italian government should have four months supplies for a population equivalent to that of Venezia Giulia and Udine surplus to needs September-Dece... This is a somewhat academic argument, in view of the fact that the original program has been reduced very considerably as a result of nonparticipation by Canada, small participation from UK and considerable delays in arrivals of commodities under both UK and US (FEA) portions of the CL.C program. Far from having four months supplies for

SECRET

This is ACC 465.

1. The following telegram was transmitted by ALCOM to AFHQ today:

"Reference your FX 58491 of 18 January 1946 and TAM 690 and TAM 728.

"1. ALCOM does not agree with the reasoning in TAM 728, paras 5 and 6, and your reference cable, subject: "Cancellation of Payment for Loans of Italian Civil Supplies to Venezia Giulia". Reasons follow.

(a) CCS apparently proposes to go back on an agreement reached in Washington before the beginning of the CLAC program, whereby supplies from the CLAC program would be authorized to be diverted from Italy civil supply program to Venezia Giulia upon repayment in kind from the Military supply line, which was to be set up for Venezia Giulia. Thus TAM 728 constitutes an abrogation of an agreement with the Combined Liberated Areas Committee, which does not depend from CCS.

(b) TAM 728 reasons that "after repayment Italian Government should have four months supplies for a population equivalent to that of Venezia Giulia and Udine surplus to needs September-Dece[illegible] This is a somewhat academic argument, in view of the fact that the original program has been reduced very considerably as a result of nonparticipation by Canada, small participation from UK and considerable delays in arrivals of commodities under both UK and US (Fem) portions of the CLAC program. Far from having four months supplies for a population equivalent to Venezia Giulia "surplus to needs", the Italian civil program since September has been characterized by shortfalls and inability of US and UK to meet the agreed program; the pasta ration has recently been postponed and many industries are idle because of these shortfalls. Therefore, every ton of wheat and coal which has been loaned to Venezia Giulia during this period has been at the expense of food, employment and needed production in Italy proper.

4766

Declassified E.O. 12356 Section 3.3/NND No. 785017

Declassified E.O. 12356 Section 3.3/NND No. 785017

(C) Some of the commodities loaned to Venezia Giulia have been loaned by the Italian Government from its own stocks, on an Allied promise to repay from Military shipment. Similarly, Italian Government participates in the day to day decisions which result in the diversion of ships from the Italian civil import program to Venezia Giulia. To attempt now to argue ourselves out of this commitment would do considerable harm to the relationship between the Allies and Italian Government, particularly at a time when we are attempting to secure indigenous Italian supplies for Venezia Giulia on the same basis as such supplies are made available to other parts of Italy. Continued cooperation of the Italian Government, necessary to the Venezia Giulia operation, would be placed in serious jeopardy by any cancellation of repayments of loans. Venezia Giulia is an [illegible] deficit area and must import almost everything it uses. Any interruption in the flow of indigenous supplies into Venezia Giulia will mean CCS must provide on a military basis a thousand and one little items which are required for the life of the Venezia Giulia community.

"2. We, therefore, ask that this decision be reviewed urgently by the CCS."

2. You may wish to raise this matter with the CCS in view of the fact that the original arrangement (FAM 690) resulted from an agreement between representatives of FBA on behalf of CCAC and the Combined Civil Affairs Committee.

3. Please advise urgently further action taken or agreement reached.

O U T G O I N G M E S S A G E
HEADQUARTERS ALLIED COMMISSION

16 JANUARY 1946

FROM : H. ALCOM

TO : AGWAR FOR CCS FOR CCAC FOR CLAC RPTD MAROF (LONDON) JAN 17 1946
FOR CABINET SECRETARIAT RPTD AFHQ FHGEG

CONFIDENTIAL

Ref.No.: 226

This is MOC 459.

Subject is wheat and flour programs. Refer MOC 451.

1. In the light of latest information regarding programmed shipments to Italy, which formed the basis of UNRRA cable 1297 dispatched to Washington on 9 January, it is necessary to amend the estimated stock figures shown in MOC cable 451 of 9 January.

2. Therefore, in para 7 MOC 451, figure shown for estimated stock on hand as at 31 January 1946 should now read 86,000 metric tons only and that for stock on hand as at 28 Febr. 1946 should now read 212,000 metric tons. In last sentence para 7 "January" should now be substituted for "February".

3. Para 7 of MOC 451 this should now read as follows:
"The estimated cereal stock on hand in Italy as at 31 December 1945 is 208,224 metric tons. On the basis of the information as to January and February loadings shown in COM 355, and latest telephone information regarding UNRRA loadings for January, it is estimated that stock on hand as at 31 January 1946 will be 86,000 metric tons, and stock on hand as at 28 February 1946 will be only 212,000 metric tons. From this it will be seen that the stock position will progressively deteriorate to such a level that the maintenance of the 200 grams per head per day bread ration throughout Italy will have become impossible by the end of January, owing to the fact that practically all remaining indigenous stocks of wheat will be concentrated in two parts of the country, other (including the most inaccessible) parts, having to depend entirely on imported supplies."

This is MOC 459.

Subject is wheat and flour programs. Refer MOC 451.

1. In the light of latest information regarding programmed shipments to Italy, which formed the basis of UNRRA cable 1297 dispatched to Washington on 9 January, it is necessary to amend the estimated stock figures shown in MOC cable 451 of 9 January.

2. Therefore, in para 7 MOC 451, figure shown for estimated stock on hand as at 31 January 1946 should now read 86,000 metric tons only and that for stock on hand as at 28 Febr. 1946 should now read 212,000 metric tons. In last sentence para 7 "January" should now be substituted for "February".

3. Para 7 of MOC 451 this should now read as follows:

"The estimated cereal stock on hand in Italy as at 31 December 1945 is 206,224 metric tons. On the basis of the information as to January and February loadings shown in COM 355, and latest telephone information regarding UNRRA loadings for January, it is estimated that stock on hand as at 31 January 1946 will be 86,000 metric tons, and stock on hand as at 28 February 1946 will be only 212,000 metric tons. From this it will be seen that the stock position will progressively deteriorate to such a level that the maintenance of the 200 grams per head per day bread ration throughout Italy will have become imposible by the end of January, owing to the fact that practically all remaining indigenous stocks of wheat will be concentrated in two parts of the country, other (including the most inaccessible) parts, having to depend entirely on imported supplies."

This is F.P 169.

Subject is Rosin.

1. Reference FAT 164 and AOC AIRGRAM 113.

2. Reason for increase in Italys requirements for fourth quarter 1945 is that the first estimate was inaccurate. Also North Italys requirements were not included in the first import program.

3. The increased quantity of 7,500 tons is based on annual consumption rate of 25,000 tons.

4. 7,500 tons cover September through December 1945 minus 900 tons which had already been on September import program.

5. New requirements were prepared by the Oil and Fat Comitato in Milan. Interministerial Committee in Rome concurred.

6. Prewar Italian Rosin consumption was as follows:

Year	Quantity
1933	25,000 tons
1934	22,000 "
1935	28,000 "
1936	16,000 "
1937	24,000 "
1938	18,000 "

Billing for program.

Recommendation MOC 375, November 21, re weights to be used in billing for program approved. Assume that recommend procedure is most expeditious in view special nature of program. Maintain intact whatever records of other weight information available in order that it may be used for later negotiations with Italian Government and adjustment of bills if such proves necessary.

New subject: MOC number requested on 9731 dated 29 [illegible]ber. MOC 435 not received here. Please forward. MOC Programs 117 and 121 not received. Please transmit.

OUTGOING MESSAGE

HEADQUARTERS ALLIED COMMISSION

FROM : HQ ALCOM 9 January 1946

TO : AGWAR FOR CCS FOR CCAC FOR CLAC RPTD WAROF (LONDON) FOR CABINET SECRETARIAT RPTD AFHQ FHGEG

JAN 10 1946

Ref. No. 9996

CONFIDENTIAL

This is MOC 451.

1. Subject is Wheat and Flour Programs. Refer COM 355.

2. Photostats show that YB Program calls for 500,000 long tons of wheat. Original Program involved 411,000 metric tons. Additional requests were made for 125,000 metric tons for November loading and 209,000 metric tons for December loading, bringing the total programmed and requested to 745,000 metric tons. We were informed, informally, that the 125,000 supplementary request for November had been cut to 72,000 metric tons, but have received no formal notice of action taken on either request.

3. YT-188 indicates that 133,000 metric tons of wheat were to be purchased from the Italian Troop Pay Dollar Account. According to COM Airgram 106, this was reduced by 26,045 metric tons to 106,955 metric tons.

4. We are unable to reconcile the above figures with the 641,000 tons stated over the telephone to Mr. Cleveland and confirmed in COM 355.

5. Original YB Program called for 37,612 metric tons of flour. In above mentioned telephone conversation it was stated that 106,000 tons were scheduled for delivery on YT funds. Above mentioned photostats indicate that YB Program now calls for 104,420 metric tons of flour. These figures not reconcilable.

6. Lack of firm information on Programs renders reliable estimates on short falls impossible.

7. The estimated cereal stock on hand in Italy as at 31 December 1945 4690
is 208,224 metric tons. On the basis of the information as to January and February loadings shown in COM 355, and latest telephone information regarding UNRRA loadings for January, it is estimated that stock on hand as at 31 January, 1946, will be 172,402 metric tons, and stock on hand as at 28 February 1946 will be only 104,228 metric tons. From this it will be seen that the stock position will progressively deteriorate to such a level that the maintenance of the 200 gram per head per day bread ration throughout Italy will have become impossible by the end of February, owing to the fact that practically all remaining indigenous stocks

Declassified E.O. 12356 Section 3.3/NND No. 785017

This is MOC 451.

Above mentioned photostats indicate that YB Program now calls for 104,420 metric tons of flour. These figures not reconcilable.

6. Lack of firm information on Programs renders reliable estimates on short falls impossible.

7. The estimated cereal stock on hand in Italy as at 31 December 1945 is 208,224 metric tons. On the basis of the information as to January and February loadings shown in COM 355, and latest telephone information regarding UNRRA loadings for January, it is estimated that stock on hand as at 31 January, 1946, will be 172,403 metric tons, and stock on hand as at 28 February 1946 will be only 104,228 metric tons. From this it will be seen that the stock position will progressively deteriorate to such a level that the maintenance of the 200 gram per head per day bread ration throughout Italy will have become impossible by the end of February, owing to the fact that practically all remaining indigenous stocks of wheat will be concentrated in two parts of the country, other (including the most inaccessible) parts, having to depend entirely on imported supplies.

4690

8. As pasta issues have been suspended in all Regions except Marche and Umbria, and in all Provinces except Grosseto, Siena, Viterbo, Rieti, and Teramo, with effect from 1 January 1946, there will be a further saving each month of 45,373 metric tons. It is, however, at present envisaged that these suspended issues will be made in arrears. At least, it has so far been thus put to the population by the Italian Government.

(Continued)

(MAJ A)

Declassified E.O. 12356 Section 3.3/NND No. 785017

Declassified E.O. 12356 Section 3.3/NND No. 785017

9. We have already agreed to the suspension of pasta issue throughout most of Italy in order to conserve grain supplies to maintain existing bread ration as long as possible. It now appears that there is little likelihood of ever being able to make good these suspended pasta issues. When this knowledge becomes public, most unfortunate public reaction is expected.

10. With reference to your final paragraph, it is our opinion that, unless shipments can be considerably stepped up in January and February, at least to make good the total shortfall as calculated here and to provide for UNRRA loadings as originally programmed, the bread ration will have to be drastically reduced on 1 February. Please advise as soon as possible whether these possibilities are quite out of the question, in order that arrangements, including the preparation of public opinion for the ultimate announcement of a ration cut, may be put in hand immediately.

11. Text of above cable also being sent through UNRRA channels. 7894

TO : AGWAR FOR CCS FOR CCAC FOR CLAC RPTD WARDF (LONDON)
FOR CABINET SECRETARIAT RPTD UNITED STATES
DEPT OF AGRICULTURE WASHINGTON D.C. RPTD AFHQ FHGEG

Ref No.: 71 UNCLASSIFIED

This is MOC FOUR FIVE ZERO PD

1. In work on Italian Forestry law it would be helpful to have copies of basic United States Forestry laws including original act establishing United States Forest Service, Weeks Act of 1911, Clarke McNarey of 1924 and McNarey McSweeney of 1928.
Request dispatch these publications as soon as possible.

BT Numb.	Name	Cargo	Weight	Port	Sailing date
319	Ezra Cornell	wheat	6750	Baltimore	12/15
320	Luis Arguello	wheat	7810	Baltimore	12/15
321	W Tilghem	wheat	7901	Baltimore	12/22
325	John Hawthorne	wheat	6919	Boston	12/22
326	Mary Mike Dodge	wheat	7570	Boston	12/21
329	Felipe Deneve	wheat	6900	New York	12/13
330	G Hanley	wheat	6702	New York	12/16
331	W D.Moseley	wheat	8892	New York	12/26
332	Thomas Sumter	wheat	6857	New York	12/18

Para 2. From about you will note wheat shipments amount to 142.000 tons and coal 210.000 tons approximately. Cables have been sent notifying additional sailings, howeverthis information was based upon completed loadings and not on sailings. In Hampton Roads as of January 33 were 13 coal boats loaded for Italy but had not sailed due to lack of crews. You were notified of these loaded cargoes in various COM cables; please disregard and consider data in para 1 above as being latest complete sailings.

Para 3. Impossible to give sailing based upon completed loading as has been done in past. Crew position still unstable. Suggest WSA sailing data be used exclusively and that Naples WSA office be consulted for accurate sailings. Will continue to give you completed loadings if you desire, but discrepancies between loading and sailing dates are certain to occur. Request this information not be realised to Italian press at present time Hilldring.

Fats	3,908	8	8 Dec
Eggs Dried	-	-	-
Coffee	-	-	-

3. Please add footnote 3 to Appendix A as follows : "(3) Cereals Stock Report for Oct (MCC 121) gave estimated issues to mills, wholesalers etc.. as 309,663 metric tons. Cereals Stock Report for Nov shows 290,247 metric tons. Difference is accounted for by the fact that in October Report estimated quantity of rice to be issued was included, whereas in November rice stock was excluded completely from the Report, in view of present uncertainty as to actual stock figures."
