"19. REFUGEES.

Many officials are dealing with Refugees of all Nations, and I think it must be confusing to the movement staffs when sea or rail transport is demanded from so many sources.

A co-ordinating head appears necessary and I spoke of this to Lt.Col. SMITH of the Displaced Persons Sub-Commission who will be prepared to discuss it on his return to ROME should the Executive Commissioner so wish."

1. Reference (a) from the Transportation Sub-Commission, Hq. AC presented to Allied Force Headquarters, the requirements for sea transport for the movement of Italian refugees and displaced persons.

2. Reference (b) in reply to reference (a) notified Headquarters, Allied Commission that the Italian cruiser GARIBALDI would be made available to make two trips from PIOMBINO to MESSINA and that after the completion of other duties she would be made available again for the ferry of refugees from PIOMBINO.

3. In addition, as a result of communications originated by the Navy Sub-Commission, Commander-in-Chief, Mediterranean has approved the use of small Italian Naval vessels from the TARANTO/LEGHORN Ferry for the movement of refugees from PIOMBINO to MESSINA.

4. As supplementary to the arrangements mentioned above, the Navy Sub-Commission, acting on verbal information from the Transportation Sub-Commission, completed arrangements for sailings of Italian Naval vessels on two different occasions which subsequently had to be cancelled as a result of later advice received from the Transportation Sub-Commission.

5. In view of the action taken in reference (b) by Allied Force Headquarters, the Navy Sub-Commission cannot accept further requests for the supply of Italian Naval vessels for purposes of transporting refugees. It is submitted that all further requirements for the sea transport of refugees should be forwarded by the Transportation Sub-Commission to Allied Force Headquarters as an implementation of references (a) and (b). It is felt that the total requirements for the movement of refugees and displaced persons should be presented to Allied Force Headquarters when available, in order that an over-all program for their transportation can be drawn up and activated.

2. The over-all movement problem has again been discussed with A.F.H.Q. who have been advised of your latest estimate that you will shortly have 50,000 persons per week for movement to destinations South of Forli - Bologna - Florence - Lucca - Leghorn, against AFHQ estimated available lift by all transportation means of approximately 17,000 per week.

3. A.F.H.Q. were advised you are developing Route 2 as the Walking Route South to Rome. Strong recommendation is made that you organise a walking route which will continue to Naples.

4. We are already experiencing difficulty in arranging sufficient trains to maintain regular clearance from the forward camps, and A.F.H.Q. state there is at present little possibility of early relief owing to heavy demands being made on Transportation.

5. Railway lines 89/90, Naples to Rome, are now handling traffic up to maximum capacity. It is considered that movement by rail from camps in Naples Area to destinations in Southern Italy will be sufficient to handle all Refugees arriving at Naples on foot.

SUBJECT: Transportation of refugees, etc.

27 May 1945

TO: G-3, AFHQ

1. Arrangements are already in hand with G-4 (MOV & TN), AFHQ to establish a flexible program for the movement of refugees from the North to Rome, Southern Italy, and Sicily.

2. Accurate information of the numbers of refugees, escaped PWs, etc. is not yet available, but a program is being worked out. This will be based on the latest available information, so that any emergency due to excess movement of refugees in the Bologna-Florence-Forli area is avoided and at the same time demands for movement are made so that the minimum wastage of capacity results.

3. Satisfactory arrangements have been made for the movement by rail of 1,000 refugees per day from the Bologna-Forli area to Rome and the South. An over-all program is being prepared and will be submitted to you so that utilization of available shipping for movement of refugees to Sicily, Reggio-Calabria, etc. can be effected, if you prefer to make this movement by sea instead of rail.

4. A copy of the northeast rail program is attached for your information and copies of any further programs set up will be forwarded to you immediately.

Our Ref :- AC/612/49/Tn.3. 22 May 1945

SUBJECT :- Movement of Refugees from Civitavecchia.

TO :- Navy Sub-Commission

1. Reference conversation of yesterday (Capt. Blackburn - Maj. McClure), it is confirmed that the movement of 2000 refugees for South of Rome from the Rome Area has been carried out by rail, thereby obviating the need for Naval Craft to operate from Civitavecchia for this move. There will however be a number of refugees continually moving into the Rome Area for the South & Sicily from the North, and although the immediate problem of movement by sea from Civitavecchia has been solved, ships will be required for that port from time to time, until regular movement by sea can be arranged from Piombino or further North.

2. It is therefore requested that as many vessels as possible of those referred to in C-in-C Med Signal to FONAM No. 131246B be allocated to supplement the scheme outlined in our Signal No. 8027 dated 19 May.

SUBJECT: Transportation of Repatriates

TO : AFHQ. G-4 (Mov & Tn)

1. It is estimated that 1,000,000 repatriates will move from outside the northern frontiers of Italy into Italy. The bulk of these will come from East of Como. Some 330,000 of these will probably be for destinations south of Rome.

2. It is proposed, in agreement with AFHQ and SHAEF, to see that the movement of repatriates ex SHAEF is controlled in accordance with the capacity of the camps in Northern Italy and the capacity of means of transportation to move these refugees south. It is hoped to send a number of the Displaced Persons and Repatriation Sub-Commission and the Transportation Sub-Commission on a liaison visit to SHAEF and 12th Army Group shortly.

3. It is anticipated that repatriates for destinations south of Rome, who might be moved by sea, will arrive in the Venice-Treviso area at the rate of 2,000 per day, and in the Genoa area at the rate of 250 per day.

4. At the present minute there is little difficulty in moving repatriates to the Forli-Modena area, to which region they are brought by returning empty transport. It is anticipated that the bulk of the movement forward from this region will be by rail; at the same time any shipping that can be made available will prove most useful (AG Signal 3627, dated 19 May, refers).

5. Walking routes are already being organised in the north for displaced persons, who only have a relatively short distance to reach their final destination. In addition, it is proposed to examine the establishment of walking routes over longer distances, establishing food points some 15 miles apart.

6. In the light of the figures given in the above paragraph 1, can some estimate be given of the numbers it is anticipated can be moved by rail, sea and possibly MD motor transport daily from the north to the south.

INTER OFFICE MEMORANDUM

Tele : 478704

18 May 1945

297/47/Tn.3.

SUBJECT : Movement of Refugees

TO : Displaced Persons & Repatriation Sub-Commission
War Materials Disposal & Italian P.W. Sub-Commission

1. The question of Movement of Refugees and Displaced Persons was raised and discussed at the Meeting of Allied Railway Board Italy, held at Headquarters M.R.S. on 17 May '45.

2. DQMG (Mov & Tn) made it quite clear it could not be expected that the Railways would be able to cope with entire problem. Road and Sea will be used when transportation by these means is available, but even so it is doubtful whether these three means will be able to lift the number of people it is estimated may have to move.

3. DQMG (Mov & Tn), who has recently returned from SHAEF, spoke of the problem in Northern Europe where it is already known they have 7/8,000,000 displaced persons for movement. Camps are being established 10/15 miles apart and displaced persons are to be marched in organised bodies from Camp to Camp daily.

4. Allied Forces continue to make heavy demands on transportation capacity in Italy and the movement of displaced persons can only be considered in conjunction with the over-all Military programme. It is of urgent necessity that an estimate be given of the total number of displaced persons there will be for movement. Camps in the forward areas must be sufficiently large to cope with the influx from the North and movement from these Camps must be strictly controlled. Consideration should also be given to the question of roadside camps and organised marches.

5. In order that this Sub-Commission may study the problem and agree an over-all programme with A.F.H.Q., it is requested earliest possible information be given of estimated total number for movement, showing main areas from which the moves will commence and main areas to which the moves will be made.

6. It is requested that one set of figures be submitted for both Refugees and Italian P.W. personnel.
