4. ELECTRIC POWER, CONSERVING:

The need for conserving electric power in this area is of the utmost importance. The co-operation of all officers, EN 5541 this Hq in this respect is absolutely necessary at all times. Electric lights have been observed burning in offices where they were unnecessary. Occupants of offices will ensure that lights are not switched on until they are absolutely required, and that they are switched off again when offices are vacated.

Failure on the part of anyone to conserve electricity may result in more drastic action being taken.

Sub-Commissions, Branches, etc. should refrain from requesting additional lighting, unless the existing system is considered inadequate to work with.

Effective immediately and until further notice, passengers will not descend on elevators. (Hq Comdt)

5. CIVILIAN FEEDING:

Complaints have been received that civilian office personnel partaking of the mid-day meal are taking the food away from the Mess Hall and consuming it in their offices and afterwards throwing the refuse into the wash hand basins and toilets. Such a practice is very unsanitary, and in view of the difficulty of keeping the already inadequate sanitary arrangements in the building functioning, causes great inconvenience to all concerned, and will cease forthwith. Sub-Commissions, Branches, etc. will warn their employees that food will not be taken away from the Mess Hall. (Hq Comdt)
