611. Purchases by Allied Troops

(a) Indiscriminate purchasing by officers and other ranks in Italy has resulted in inferior goods and higher prices.
(b) To overcome this situation machinery has been set up whereby shops reported profiteering are placed "out of bounds" and civil action against profiteers is taken.
(c) All troops must co-operate if success and price control is to be maintained.
(d) It is within everyone's interest to take action. If any officer or other rank suspects that he is being overcharged he should demand a receipt so that the matter may be taken up by his unit with ACC/AMG.

552. DISCIPLINE

(i) Day off

The following system for day leave will come into force immediately:-

Every NCO and man detailed for a day off will draw a pass form from the Coy. Orderly Sergeant, British Orderly Room. This will be filled in, authorized by Chief Clerks of Sub-Commissions, Departments, Divisions, etc., and handed back to the British Orderly Room by 1400 hrs the day previous to the day off.

This is essential owing to the necessity of the Orderly Room having a complete roll of men not on duty, and in future disciplinary action will be taken against any man on pass whose name does not appear on this roll.

M.T. Section will continue their present system

(ii) Hygiene

The policeman on duty will ensure that during the allotted time for meals, only the most essential of transport is allowed into the courtyard at 61 Via Medina.

This will help to cut down the amount of dust and dirt that is in the air, keep the food cleaner and help prevent disease.

The Provost Cpl. will check that policemen carry out their duty.

Saluting

General Routine Order No. 302, Serial No. 14, dated 7 Apr 44, is re-published hereunder for information and strict compliance:-

1. When two or more other ranks are walking out and pass an officer or officers, all the other ranks will salute as laid down in King's Regulations, 1940, para. 955 (a), and the Manual of Elementary Drill (All Arms), 1935, Section 74.

2. A salute made to two or more officers in a street or other public place out of doors will be returned by all the officers saluted. In camps, unit lines, clubs or on parade, the salute will be returned by the senior officer only.

3. When two or more British officers meet an Allied officer or officers, all British officers will either salute or acknowledge the salute of the Allied officers, as the case may be. The rank of the British or Allied officers is immaterial.

The badges of rank of Allied Military Forces should be studied by all ranks.

4. All ranks will salute officers of higher rank in cars which display authorized flags or stars. The latter distinguishing signs, which are uncovered when the officer is travelling, consist of red metal plates with one or more stars according to rank displayed on the front and rear of the car.

5. Saluting dates from the time of armour, the salute representing the motion of a knight raising the visor of his helmet with the open hand to the front showing that, though raised, it contained no missile.

The practice of combining "eyes right" or "eyes left" with the salute originated from the olden days, when it was the privilege of men-at-arms to look their superiors in the face, while others must pass with downcast eyes.

The salute is, therefore, a recognition of comradeship and mutual trust between men-at-arms; it is, at the same time, an acknowledgment of discipline and has become a visible indication of common allegiance which all ranks owe to the Crown, and its service

The salute is, therefore, a recognition of comradeship and mutual trust between men-at-arms; it is, at the same time, an acknowledgment of discipline and has become a visible indication of common allegiance which all ranks owe to the Crown and its service.

5738

The standard of saluting is, therefore, an indication of the esprit-de-corps of units and formations. History, and the experience of the present war, have proved that high esprit-de-corps and good discipline increase the military efficiency of units and formations.

The recognition of comradeship and mutual trust inherent in the salute must be mutual and not one-sided, e.g. both parties must look each other in the eyes, and officers receiving the salute must return it in a smart, soldierly and orthodox manner. The slovenly return of a salute cannot but breed slovenliness. The officer will, therefore, return the salute in a proper manner and will inveriably look the giver in the eyes.

6. Officers and soldiers, on detachment, will show by the standard of their saluting their determination to maintain with pride the reputation of their unit, corps and formations.

7. GRO 233/43 is cancelled.

Daily Routine Order No. 285, dated 21 Feb 44, is republished hereunder for information and strict compliance:-

To ensure that hot meals are always available for drivers on late details, it is imperative that the N.C.O. i/c Transport Section (British) informs the Cpl. Cook on duty of any such details.

The O.C. will take a serious view if, through the negligence of either the N.C.O. i/c Transport or the Cpl. Cook, late duty drivers do not receive a hot meal on their return. Where possible, any driver who has reason to believe that he will be late for meals, will inform the N.C.O. i/c Transport accordingly.

This order will also apply in the case of clerks.

It is understood that through no fault of their own clerks are not always in a position to warn anyone of late duty. Arrangements have been made with the N.C.O. i/c Cookhouse for dealing with such cases.

Any complaints of refusal for meals by O.Rs. on late duties, i.e. drivers, clerks, etc., may be made direct to the O.C. at any time.

341. ELECTRIC SUPPLY

1. Economy in the use of electricity

(a) The supply of electricity in Italy is very limited. It is essential that the very best use for the war effort is made of this small supply. As increased numbers of damaged factories, plants, etc., are being repaired and brought into production, so necessarily is the quantity of electricity available for domestic use being curtailed. Stringent measures are being taken to curtail the civilian domestic consumption.

(b) Considerable economies must be made by users of electric supply. Care should be taken that electric lights are switched off when not required and that only the minimum number of lights are used at any time. Consumption of Electric Power for domestic purposes such as hot water systems must be most stringently controlled.

(c) All ranks must be made "economy-minded" over electricity so that they automatically switch off the current whenever they leave a room.

2. Misuse of electrical systems

(a) Serious misuse of electrical systems has been reported and in future the alteration of or addition to electrical installations is forbidden unless authority has been obtained and the work carried out by RE works services.

(b) Misuses reported include:-

The use of high power bulbs thus overloading the circuit.
Heating apparatus used on lighting circuits.
The use of fuses above the correct size.
Tampering with and by-passing meters.
Extensions of the wiring system.
Connecting to 150 volt systems.
Installations which are unsuitably equipped.
Military DC generating plant used through AC meters with resultant damage to the meter.

5705

(c) Unauthorized work is not only dangerous but economy in the use of electricity is essential if the supply is to be maintained.

(d) To conserve lamps which are in short supply, units will withdraw to store all but the minimum required for the particular purpose a building

341. ELECTRIC SUPPLY

1. Economy in the use of electricity

(a) The supply of electricity in Italy is very limited. It is essential that the very best use for the war effort is made of this small supply. As increased numbers of damaged factories, plants, etc., are being repaired and brought into production, so necessarily is the quantity of electricity available for domestic use being curtailed. Stringent measures are being taken to curtail the civilian domestic consumption.

(b) Considerable economies must be made by users of electric supply. Care should be taken that electric lights are switched off when not required and that only the minimum number of lights are used at any time. Consumption of Electric Power for domestic purposes such as hot water systems must be most stringently controlled.

(c) All ranks must be made "economy-minded" over electricity so that they automatically switch off the current whenever they leave a room.

2. Misuse of electrical systems

(a) Serious misuse of electrical systems has been reported and in future the alteration of or addition to electrical installations is forbidden unless authority has been obtained and the work carried out by RE works services.

(b) Misuses reported include:-

The use of high power bulbs thus overloading the circuit.
Heating apparatus used on lighting circuits.
The use of fuses above the correct size.
Tampering with and by-passing meters.
Extensions of the wiring system.
Connecting to 150 volt systems.
Installations which are unsuitably equipped.
Military DC generating plant used through AC meters with resultant damage to the meter.

5705

(c) Unauthorized work is not only dangerous but economy in the use of electricity is essential if the supply is to be maintained.

(d) To conserve lamps which are in short supply, units will withdraw to store all but the minimum required for the particular purpose a building is used for.

(e) Units will report by 15 Mar 44 to Cs RE concerned any alteration or addition to the electrical system which has been carried out without authority, in order that the work may be inspected.

290. OFFICERS' FIELD ADVANCES

(1) Recovery of Field Advances to Officers has in the past been made from subsequent issues of pay by Officer i/c Army Pay Office (Officers' Accounts), Manchester, or by the Army Agents. In cases where outstanding advances exceeded entitlement to pay, recovery was made through Officers' banking accounts in certain cases.
(2) This arrangement has not in practice proved satisfactory, and long delays have occurred in debiting Officers' accounts.
From an early date the following system will operate:-
(a) Application will be made to Officers' banks for repayment of all outstanding advances.
(b) Applications will be made periodically to Officers' banks for repayment of subsequent advances.
No application will be made during the month in which the advance is drawn.
(3) Should banks be unable to meet claims under paragraph 2 above because of insufficient funds or any other reason, recovery will be made from future issues of pay at source. In such cases it may be necessary to issue orders for an Officers' cash drawing to be restricted until the outstanding charges have been cleared.
(4) The effect of this change in procedure is that A.F.W3241 will be regarded as cheques, and officers are responsible that sufficient funds are at all times available at their banks to meet them.
Particular care must be taken by officers who operate a joint account with their wife or other person at home, to ensure that their account is sufficiently in credit to meet any field advances drawn by them.

284. RETURNS

Will all Heads of Divisions, Sub-Commissions, Departments, Messing Officers, Officer i/c Food Warehouse Guard and any other branch of this H.Q., who are employing British O.Rs. in any capacity, please render the following particulars to the British Orderly Room, 61 Via Medina, by 1600 hrs tomorrow, Tuesday, 22 Feb 44:-

It is essential to those concerned that this order is complied with.

It is pointed out that in the case of Camp Personnel the Sergeant Major is held responsible.

285. MEALS

To ensure that hot meals are always available for drivers on late details, it is imperative that the N.C.O. i/c Transport Section (British) informs the Cpl. Cook on duty of any such details.

The O.C. will take a serious view if, through the negligence of either the N.C.O. i/c Transport or the Cpl. Cook, late duty drivers do not receive a hot meal on their return. Where possible, any driver who has reason to believe that he will be late for meals, will inform the N.C.O. i/c Transport accordingly.

This order will also apply in the case of clerks.

It is understood that through no fault of their own clerks are not always in a position to warn anyone of late duty. Arrangements have been made with the N.C.O. i/c Cookhouse for dealing with such cases.

Any complaints of refusal for meals by O.Rs. on late duties, i.e. drivers, clerks, etc., may be made direct to the O.C. at any time.

The practice of officers and O.Rs. visiting the British Orderly Room between 1200 and 1900 hrs for enquiries will be avoided if possible.
