To : Deputy Executive Commissioner.

Reference your 52/CA dated 26th September, 1944.

1. As agreed with you verbally, it is not thought that it would be any use asking A.E.H.Q. for radio detachments for this service.
2. Detachments have already been requested for Piedmonte Region; if these are supplied soon, we can use them temporarily at their staging locations.
3. A report is being obtained on the communications facilities likely to be available to MONTECATINI, proposed as a Regional HQs staging site, and will be rendered to your office in due course.

MEMORANDUM:

TO : All Sub-Commissions, Sections, Branches, etc., this Head-
quarters

1. Normal telephone service will be interrupted in this head-
quarters from 1800 hours, today, 18 September 1944, until 0600 hours,
tomorrow, 19 September 1944, due to a technical change over in telephone
facilities.

2. Internal calls in the ACC building may continue to be made during
these hours. However, external calls to be made from unrestricted tele-
phones cannot be made by dialing zero. Subscribers must dial nine, and
the switchboard will connect calls to the outside.

3. External dial numbers will not be interrupted.

4. Normal telephone service will be resumed at approximately 0600
hours, 19 September 1944.

SUBJECT: Signals.

TO : Adjutant, HQ. ACC.

1. Referring to telephone conversation (Capt. Morden - Assistant Adjutant) Regions are not uniform in their method of addressing this HQ in their signals. "ACC MAIN", "ACC MAIN FOR LUSH" and other variations are to be observed and the inclusion of the name of a personality in the address is particularly dangerous as often it bears no relation to the Section or person responsible for taking action.

2. Although the attention of Regional Commissioners has been drawn to this matter it is felt that once again the matter should be clarified and with this end in view the attached draft has been prepared. It will be appreciated if you will issue something on these lines as early as possible and think it should take the form of a letter rather than insertion in the Daily Bulletin.

TO : Region IV

1. Considerable difficulty has been encountered when telephoning your HQ. on several occasions recently. The main trouble seems to be that Italian girls who speak little English answer telephone and either do not understand or give incorrect information. One evening recently at about 10.10 hrs. your main switchboard was served by a girl who spoke no English at all and after delay/call had to be abandoned.
2. This is brought to your attention in a spirit of constructive criticism as it might not reach you from other quarters.

SUBJECT: Transmittal of Messages to and from representatives in Algiers.

TO : North Africa District.
Headquarters, Allied Control Commission, APO 394.

1. When AFHQ was at Algiers the Greek and Yugoslav representatives there, having no signal communications of their own, were allowed to make use of AFHQ signal services to send their messages to the Greek and Yugoslav members on the Advisory Council for Italy and similar facilities were afforded from Italy where by the representatives there could communicate with their representatives in Algiers. Consequent on the move of AFHQ it is necessary to substitute another system whereby the same facilities may be afforded to the Greek and Yugoslav representatives.

2. It is requested you will ensure that the following procedure is implemented:

a. The Greek and Yugoslav representatives in Algiers have been instructed through Mr. Duff Cooper's office (acting as Agents in Algiers for the British Resident Minister here) that messages intended for their members on the Advisory Council for Italy should be handed to Mr. Duff Cooper's office. There they will be perused and will be passed on to you for transmission. Should you get any messages direct from the representatives in Algiers they should first be passed to Mr. Duff Cooper's office for perusal.

b. On receipt of a message from Mr. Duff Cooper's office it should be sent by cable to ACC Main repeated AFHQ, the text of the message (which may be in code) being prefaced by a short explanatory phrase such as the following: "Request the following message from-----be transmitted to the-----representative on the Advisory Council for Italy."

c. In the reverse direction ACC are requested to send messages from the Greek and Yugoslav members on the Advisory Council for Italy and intended for the Greek and Yugoslav representatives in Algiers or elsewhere in cable form addressed to North Africa District. On receipt of such messages North Africa District will refer them to Mr. Duff Cooper's office for delivery to the addressee or onward transmission as necessary.

3. You may receive requests from representatives of other nations in Algiers for facilities for onward transmission of messages and these should be referred to Mr. Duff Cooper's office as they arrive.

1. I have to refer to your signal No. 1000 of 27 July 44 and to say that Agricultural Memo. No. 82020 has not been received at this H.Q.; but that signal No. 211 of yesterday's date was sent on the assumption that 32020 was meant.

2. Attention is invited to the three different instructions received here for collecting mail sent from Headquarters, Allied Control Commission and despatching mail thereto. According to these, this H.Q. must arrange to send to Bari, Taranto and Crotone: the latter for air mail, the orders sent in A.P.O. 394 letter Adj: 311.4 dated 9 June 44 not having been cancelled so far as is known.

3. A courier leaves this H.Q. every Monday and Thursday for H.Q. Region III by whose courtesy the onward despatch is undertaken. In a similar way letters for this H.Q. are received by H.Q. Region III and given to the courier returning here. Lack of reliable transport and shortage of drivers makes it out of the question to run a service to more than one place. It is requested, therefore, that communications be sent c/o H.Q. Region III, and not to Bari or Taranto as is being done at present. It might be added that some letters sent to Taranto before any notification had been received here that this was being done, were sent on by train and took five days to get here.

4. With regard to the last sentence of your ^{a/m} signal, reports, of course, can be sent on specified days. To be of any value, however, a report must attain some degree of accuracy, and this cannot be guaranteed if it must be rendered on fixed days owing to the extremely poor internal communications in Calabria. The telephone system is not good to say the least, and telegrams often take two or three days.

5. While everything is done to supply all information for which requests are made, it is essential to any appreciation of the position in Region VII to realise that there are no Provincial Commissioners and only one Provincial Officer: in other words that we have been cut to the bone in the matter of staff.
