A.C.C. A.P.O. 394.

1. Reference your 164/2/CA of 20 Feb. and letter of 3 March enquiries were at once instituted in an endeavour to locate an epidiascope.

2. Consiglio Provinciale dell'Economia have contacted the University, hospitals etc. without success and they hold out little hope of being able to find such an instrument in Naples.

3. It is suggested that an advertisement in the leading local Italian paper might bring about results if such equipment is available here.

1. B.C.S. Eighth Army is anxious to secure for technical purposes an epidiascope. This equipment is wanted on loan and the B.C.S. has given his assurance that it will be returned to whatever institute lent it, when no longer required for operational purposes.
2. No such type of equipment can be traced in Eighth Army area, and possibly an epidiascope might be available in a seat of learning, the size of Naples.
3. Would you be so kind as to direct enquiries to this effect, and notify this H.Q. in order that we may notify B.C.S. of the results.
