The Organization of the Supplies in Eighth Army Area1. GENERAL

AG supplies for the present and future area occupied by Eighth Army will be drawn from two sources:-- the ASSTAF and the AMONA port. The former is intended for provision of supplies and services to the various units and detachments.

2. ORGANIZATION ASSTAF PORT

- (a) AG supplies on the Asiatic I of C will be handled by the BASE SUPPLY SECTION AMONA. This will be subdivided into Port, Roadhead and Accounting Detachments.
- (b) ASSTAF will be responsible for port clearance and warehousing.
- (c) ROADHEAD DET will be responsible for control of AG transport allotted to the Asiatic I of C; for distribution of supplies to Provincial Supply Points; coordination of grain and flour supplies and milling facilities in MANILA (i.e. Macabebe, Macana, Portoro), and for the organization of the I of C.
- (d) ACCOUNTS DET will be responsible for supply accounting in all the area under the ASSTAF.

3. ORGANIZATION WESTERN I of C

AG supplies on the Western I of C will be handled by the ASSTAF.

4. TRANSPORT AND PERSONNEL

The civil supply ex AG Road Det will be provided by AGI or CG. In view of the acute shortage of the civil supplies in AMONA, however, it is requested that Region VIII render assistance therein to the Provincial Commissioner as soon as possible.

5. DISTRIBUTION OF SUPPLIES

- (a) Attention is drawn to that in Supply Distribution Nos. 9 and 10 in accordance with which supplies will be distributed by AG and Road Dets to Provincial Supply Points. Except in emergency all AGs will therefore channel requirements to their Provincial Supply Officers who are then responsible for the

- (a) All supplies on the Adriatic I of C will be handled by the REG SUPPLY DETACHMENT. This will be subdivided into Port, Roadhead and Accounting Detachments.
 - (b) PORT DET will be responsible for port clearance and warehousing.
 - (c) ROADHEAD DET will be responsible for control of the transport allotted to the Adriatic I of C; for distribution of supplies to Provincial Supply Points; coordination of grain and flour supplies and milling facilities in H. L. (i.e. Accurate, Income, Power), and for the organization of A.F.P.
 - (d) ACCOUNTS DET will be responsible for supply accounting in all the areas under the REG High Command.
- CHANGES TO THE SUPPLY I OF C
- All supplies on the Western I of C will be handled by the REG DET ASSOCI.
- TRANSPORT AND PERSONNEL
- The REG SUPPLY DET will be provided by 1001 ST. C. In view of the acute shortage of the REG SUPPLY DET in the REG, however, it is requested that REG SUPPLY DET render assistance therein to the Provincial Commander as soon as possible.
- DETERMINATION OF SUPPLIES
- (a) Attention is drawn to the REG SUPPLY Instruction Nos. 9 and 10 in accordance with which supplies will be distributed by the REG and REG DET to Provincial Supply Points. Except in emergency all REG will therefore channel requirements to their Provincial Supply Officers who are then responsible for the collection of Provincial Supply Points and the development of a Provincial Supply Plan. In the operational phase such requirements will be demanded and met as far as practicable on a seven day basis with the object of being incorporated into a monthly scheme as soon as possible after the Province is fully occupied.
 - (b) Release of supplies from Port, Roadhead or Railroad will only be authorized by the REG or on demand by the REG or (or in emergency by Corps L.O.) Once release is authorized it is the responsibility of the REG to arrange direct with the Supply Det concerned all details of delivery dates, places and quantities.
 - (c) The REG will also meet any deficiency in supplies by direct drawings on the REG Warehouse. Under authority of the REG, such issues will be tracked by the REG direct to the Province and accounted for finally by the REG Accountant. The REG should request prior authority by signed from the REG for all such drawings.
 - (d) As far as the supply situation permits, the REG DET will release supplies to the REG (Accurate and Accell) on demand by the Provincial Commander.

785017

(c) All requests for supplies in accordance with sub-para (b) (c) (4) above will be made direct to 4 Sup 3 with a copy to the Port and/or other Do. concerned. (All requests for 48094 will be addressed to 48094 Supply Section 48094).

6. FOUR OR FIVE

(a). The Port Bot. Board is intended to be a permanent institution which will have to be controlled by the Government. The Board will be established in 1900 and will be requested to provide the necessary information and to be for this Port as soon as possible.

(b) All bonded and accounts Debit Union, New Mobile Units which will now be set up as an Adv Base (Rtd or Bonded) for the supplies as Eighty (80) Advans.

SUBJECT: Grain Movements

TO : Rear AME Light Army
(Attn. Supply Office)

10 AUG Recd

Ref. your AME Rear VIII Army 08/00 of 31 July 44
and your signal 2/1206 of August 7th.

1. Movements AAI have been approached on the question of moving 6500 tons of sacked grain from Ancon to local ports. You will be advised as soon as their decision is received.

2. Sacks will be sent from Bari as soon as confirmation received from AAI that movement by sea is possible.

3. The point raised in Par. 2 (iii) of your letter of 31st July has already been answered by this HQ letter 2. 28/42 of 29 July.

4. Economic Section advise us that no additional road transport can be made available to AME VIII Army at the present time.

RECAP.

First. On instructions from HQ AMG retail prison bread and pasta will be fixed at five and seven lire per kilo respectively.

Second. Basic bread ration two hundred grams daily equals 160 grams flour. All supplements abolished except those authorized by this HQ.

Third. This will be implemented by orders of provincial ~~Commissioners~~ ^{governors}. CACs will not take individual action.

Fourth. In fixing price breakdown grain, flour and bread, provincial commissioners will be guided by preoccupation rates allowed to miller etc, subject to the following:

(a) Remuneration of Consorzio may not exceed eight per cent of net cost of grain to Consorzio. Out of this turnover tax must be paid.

(b) Miller's margin not to exceed 20 lire per quintal of grain milled for electric milling or 25 for milling by petrol or shaft.

(c) Baker's remuneration not to exceed 150 lire per quintal of flour baked.

Fifth. Arrangements to be reported this HQ for covering approval.

7862

1. PC MACERATA advises that 3,000 tons of grain are now available for export from that province.

2. In this connection the following points arise:-

(i) Sacks are required before the grain can be lifted. Can you arrange for these to be supplied through ANCONA?

(ii) Export should presumably be attempted through the port of ANCONA to heel ports. Although it will probably be possible to take advantage of backloads to ANCONA in existing AMR tpt, this is quite inadequate to cope with the grain surplus of the MARCHES as a whole, and it is important that immediate steps be taken to build up an organisation and vms for this purpose.

(iii) In consequence of the directions given by your HQ, the cereal ration in the province of MACERATA has been reduced to 200 gr of bread daily, notwithstanding the existence of an export surplus of grain. It is clearly most undesirable that grain should be exported from the province to the South, where a 300 gr ration is enjoyed without first raising the basic ration in the province of MACERATA to the same level. Your attention to this matter was invited by my letter CA/55 of 26 Jul 44, to which no reply has so far been received.

(iv) It is therefore requested that you arrange for the immediate provision of sacks and tpt assistance for this area. AUG 2 polcorps will maintain contact with the port authorities at ANCONA and will take any opportunity of shipping grain to heel ports for your account. As very large quantities are going to be involved, it is requested that you also take up this aspect of the matter with DOTO and MGW AAI.

Rear.

29th July: 1944.

REPORTS - AMG/8 ARMY.

1) Reference is made to the undated communication addressed to you by the Officer Commanding AMG/8th Army - OA/41.

2) The subject of the communication is an instruction issued by the Economics & Supply Division of this Regional Headquarters to the Provincial Supply Officer/Siena to draw flour and miscellaneous commodities from the Siena Central Food Depot (operated by A.C.C. Food Sub-Commission) against Allocation Note No. ACC.40-12. The instruction was sent to Siena on 16 July 1944, at a time when that Province still was under the jurisdiction of AMG/5 Army. Later, on 21 July (still prior to the effective hand-over of the Province to 8 Army), the Regional Economics & Supply Division notified the Provincial Supply Officer that the 728 tons of flour covered by the allocation would not be drawn. This left less than 300 tons of miscellaneous commodities which it was the intention of the Division to store within the Province against the time when Region will assume full supply responsibility from Army. This action had not been cleared with AMG/8 Army, since, as already mentioned, the arrangements had been made entirely during the time when Siena was under AMG/5 Army, and similar provision made for Grosseto Province had already had the approval of Chief Supply Officer with AMG/5 Army.

3) The matter was later verbally explained to the Chief Supply Officer, AMG/8 Army, in these terms, and it is the understanding of the Economics & Supply Division of this Region that, in the event that your Headquarters should decide that the requirements of AMG/8 Army make it impossible at the present time to provide from Siena Depot for forward requirements, the directions given to the Provincial Supply Officer under the circumstances

29th July, 1944.

HQ Allied Control Commission, Rome,
Executive Commissioner's Branch.Copy to Economic Section, ACC
" " RC AMG Region VIII

I forward herewith copy of RVIII/97/5/5 of 16 Jul 44 to the PC SIENA.

1. It is understood from the PC FLORENCE that he has also received a similar communication.
2. The purpose of these allocations is not understood at this HQ. It was agreed at our conference at HQ AAI that the food depot at SIENA previously divided between Fifth and Eighth Armies would, with the movement of the Army boundary be placed at the entire disposal of AMG Eighth Army. The allocations now made by Region VIII to the provinces of SIENA and FLORENCE amount to a quantity in excess of that actually in the SIENA warehouse. You will note that Region VIII lay emphasis upon two points:
 - (a) That the PCs should draw such supplies immediately from SIENA.
 - (b) That such drawings are not for current consumption, but are to provide a reserve for some future date when Region VIII is responsible for ADM.
3. As you are aware, the provinces of SIENA and FLORENCE are at present under ADM of this HQ. It is clearly necessary that such tpt as is available should be devoted to the distribution of the requirements of immediate consumption in those areas rather than the build-up of reserves of this nature.
4. We have therefore instructed the PCs to take no action on the letters in question.
5. You are also requested to confirm that the SIENA Depot is for the time being at the entire disposal of this HQ and that the above allocations are suspended.
6. The desirability of building up reasonable reserves of food within a province is fully recognised at this HQ. It is natural for a region to be concerned that it should not take over a province without the wherewithal to supply it. In actual practice, however, the restricting factor is tpt facilities. If the total tpt available to AMG/ACC in the fwd areas (i.e. from port to depot and depot to consuming centres) is more than sufficient for maintenance requirements of those areas, then the Region may rest assured that it will be used for the build up of reserves. This, in fact, was done in the provinces of CARRARASSO, FROSINONE, CHIETI and to a lesser extent in TERNI. In other provinces

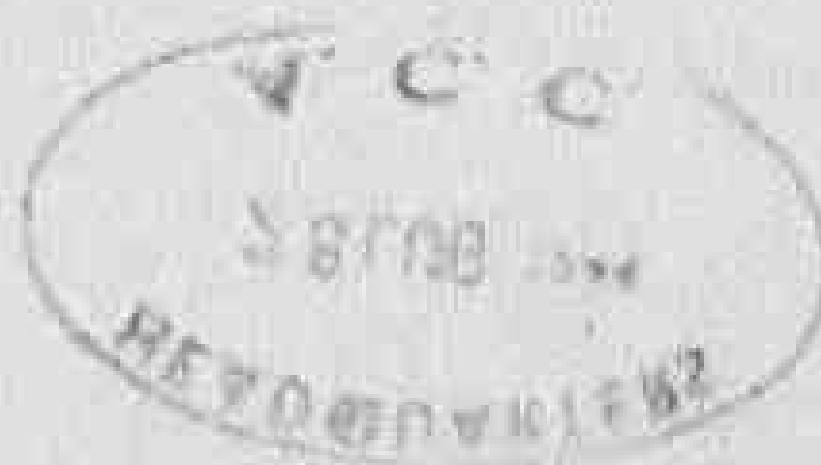

No further action
by HQ & orders have been cancelled
1945, Myself & Ford S/C in place of the
1306

COPY

HEADQUARTERS
ALLIED MILITARY GOVERNMENT
REGION VIII

RVIII/91/5/5

16th July 1944

To Provincial Supply Officer, SIENA
(through Provincial Commissioner)

Subject: Food Allocation (Imports)

1. The following represents one month's allocation for your province, made by Food Sub-Commission ex ACC Warehouse N.168, Civitavecchia, ref:ACC 40-12/food Allocation Note dated 10th July 1944

<u>Supplies</u>	<u>Metric Tons.</u>
flour	728
bagged wheat }	
soup dehydrated	57
milk evaporated	46
Meat	54
Sugar	65
Soap	4
M & V	54
Salt	12

2. This letter is authority to draw the above supplies ex field Dump, SIENA immediately
3. Will you, in consultation with Sepsal, select and store in Consorzio Agrario warehouses.
4. You are still being supplied by AMG 5th and 8th Grades, but when the time comes for your province or part of your Province to be supplied by Region, you should have the supplies spotted in the most convenient places, and release to Sepsal to meet the ration as required.
5. I cannot stress enough the importance of obtaining these supplies as soon as possible; it is essential that a recce be made to ascertain the availability of supplies before sending off the trucks, as the Dump has only just been opened.
6. Transportation from ACC Base Warehouse to Consorzio Agrario bonded store will be carried out with means to be supplied by Sepsal. Region Civil supply trucks can be used where this is unavoidable and when available. The initial haul is made at the Government's expense. If privately owned trucks are hired by Sepsal, the expenditure must be met from Italian Provincial Government funds.

20 Perugia Province

20 Terni Province

1001 (Italian) G.I. Coy.

1. At present is this HQ TM Programme for period 31 Jul - 3 Aug 1944.
2. Bid for intake as programmed into ASSISI has been accepted at Q Eighth Army conference.
3. It is regretted that bid made for WENT could not be accepted owing to operational requirements.
4. Intake at RAI CIVITA CASTELLANA will therefore occur with completion of shipments previously programmed.
5. Intake at RAI ASSISI will be allocated on arrival by this HQ.
6. In view of the time now taken in transit between here and Fwd Rhds it is requested that bookings at RAI for CIVITA CASTELLANA cease as of 27 Jul 44 (inclusive) and continue on the same date for ASSISI according to this programme.

| Civil Affairs Branch | |
| Refugee Branch | |
| Patrols Branch | |
| Displaced Persons S/C. | |
| and Liaison Officer at HQ. AACI. | |

ACTION

1. Supply Officers.

Armies and Regions were asked to accept the present ceiling of officers with the possible addition of 200 further British Officers. This was discussed and it was stated that there were no difficulties generally with the exception of Supply Officers. It was thought that there might be a surplus in other Sub-Commissions, (possibly Public Safety?). It was suggested that Establishment Branch take up with Admin. and Econ. Sections to find 20 - 30 officers and then run a short course of about two weeks for their instruction.

Est. Br.
Adm. Sec.
Econ. Sec.

2. Organization of Region IX.

With the military operational organization it might be necessary to follow suit in Region IX by splitting it into two. The right flank on the Adriatic coast would consist of individual provinces with POLICERS but could, if necessary, be temporarily looked after by Region V, from a Headquarters point of view.

R.C. & M.G.
Section

3. Regions North of the Apennines.

Region IV stated they wanted a strong team of Economic experts at Regional Headquarters in the early stages. Armies felt the same need but to a slightly lesser extent. This was likely to be

ACTION1. Supply Officers.

Armies and Regions were asked to accept the present ceiling of officers with the possible addition of 200 further British Officers. This was discussed and it was stated that there were no difficulties generally with the exception of Supply Officers. It was thought that there might be a surplus in other Sub-Commissions, (possibly Public Safety?). It was suggested that Establishment Branch take up with Adm. and Econ. Sections to find 20 - 30 officers and then run a short course of about two weeks for their instruction.

2. Organization of Region IX.

With the military operational organization it might be necessary to follow suit in Region IX by splitting it into two. The right flank on the Adriatic coast would consist of individual Provinces with FOURCORPS but could, if necessary, be temporarily looked after by Region V, from a Headquarters point of view.

3. Regions North of the Apennines.

Region IV stated they wanted a strong team of Economic experts at Regional Headquarters in the early stages. Armies felt the same need but to a slightly lesser extent. This was likely to be felt more keenly the nearer we got to the industrial Regions in the north. After discussion it was thought better to send Italian civilians up as soon as possible in order to make a survey of vital plants and industries. SMO Army had no objections provided their permission was asked and the Italians were screened. This is the normal procedure and could easily be followed. Economic Section to obtain the views of their Sub-Commissions on this point.

4. Political Section.

1300
They asked for every support to be shown by CMO's in forward areas and Provinces to the present Italian Government. Need was felt for bigger and stronger teams of Italian officials. After discussion it was thought that certain suitable Italians might be found in the towns when they were captured who could be employed and that therefore it would be more suitable to have a pool of officials rather than a team. Admin Section listed the officials required, and would take action.

ACTION5. Patriots.

(a) Col. McCarthy handed out copies of the new Memorandum giving a general directive on Patriots and the terms of reference of the Patriots Branch. He explained briefly this document to Amies and Rogers, who had no comments. 2,000 of the new Patriot Certificates were also distributed to each Army. This would be enough for immediate needs and further supplies were being printed.

(b) Policy. The policy is laid down in the memorandum which had been agreed by all concerned and was quite clear except for the rehabilitation of those young Patriots who wished to continue fighting as Patriots and not join the Italian Army. The Executive Commissioner said that there was only one Italian Army. The Patriots must be absorbed into civilian life. (It might however be possible to train some of those young men for mine clearance duties, see later part.6 (c)).

(c) Regions and Amies were asked if they wanted more Patriot Representatives. The ones initially sent up had all arrived and though it was early to say how satisfactory their work was it appeared to be doing well. Patriot Regs were not to engage in local government or political activities. Widespread publicity should be given to the ACC organisation for Patriots and the duties of all concerned therein.

P.R.O.

(d) Military re-employment. Recruiting by MIA has generally not begun. All agreed that recruiting agents must be right forward. Many Patriots are reluctant to put on uniform and be sent to rear areas to drill on a barrack square, but if they wanted to fight this would be essential. The Executive Commissioner would take this up with General Browning.

R.C. & M.G.
Sec.

(e) Patriot Committee for ROME. Col. Poletti is starting a Committee for ROME. Names must be given to R.C. & M.G. Section and Political Section to approve before the Committee is finally set up.

C.A.Br.

(f) It was emphasised at the end of this discussion by the Executive Commissioner that ACC's main job with Patriots was civil rehabilitation.

6. (a) Displaced Persons. Col. Finlay asked if there would be any quid pro quo for Italians who held our P.W. in the shape of the release of their relatives in P.W. Camps in England.

R.C. & M.G.
Sec.

(b) Refugee Branch. Col. Hulls stated briefly the general

(c) Regions and Armies were asked if they wanted more Patriot Representatives. The ones initially sent up had all arrived and though it was early to say how satisfactory their work was it appeared to be doing well. Patriot Rops were not to engage in local government or political activities. Widespread publicity should be given to the ACC organization for Patriots and the duties of all concerned therein.

P.R.O.

(d) Military re-employment. Recruiting by MELA has generally not begun. All agreed that recruiting agents must be right forward. Many Patriots are reluctant to put on uniform and be sent to rear areas to drill on a barrack square, but if they wanted to fight this would be essential. The Executive Commissioner would take this up with General Browning.

R.O. & M.G.
Sec.

(e) Patriot Committee for ROME. Col. Poletti is starting a Committee for ROME. Names must be given to R.O. & M.G. Section and Political Section to approve before the Committee is finally set up.

C.A.Br.

(f) It was emphasized at the end of this discussion by the Executive Commissioner that ACC's main job with Patriots was civil rehabilitation.

6. (a) Displaced persons. Col. Finlay asked if there would be any quid pro quo for Italians who held our P.W. in the shape of the release of their relatives in P.W. Camps in England.

R.O. & M.G.
Sec.

(b) Refugee Branch. Col. Hulle stated briefly the general policy. This was that there would be no evacuation further than was necessary and in any case none South of the line ROME - CHIANI. He was planning for up to 50,000 refugees. Both Refugee Branch and Displaced Persons Sub-Commission praised the work and organization of the American and British Red Cross Units and Friends Ambulance Units. This was heartily endorsed by Armies.

(c) Mine Clearance. The Allied Armies will not accept the responsibility for mine clearance in any areas except for operational requirements in the forward areas. This is roughly a 20 ft. strip each side of main roads. This is now becoming a major problem in the liberated areas of Regions IV, V and VIII. It is getting worse and not better. Many Italians are killed every day, and it retards development. Some organization is required to be set up to deal with this problem but it must be composed of Italians.

-3-

ACTION

Measures taken at present consist in the employment of two mine lifting Coys of the Italian Army, one in Region IV and one in Region V. There is none at present for Region VIII. These Coys are training two Italian Army Inf Coys who will eventually replace them. It was suggested that a school to train young volunteer Partisans in these duties was started. It was hoped that the Army might loan instructors and equipment. Executive Commissioner said he would talk to General Browning on this point.

R.C. & M.G.
Sec.7. Admin. Section.

(a) Col. Upjohn took up Political Section's point of having a pool of Italian officials ready for the early phases of the occupation of Italian towns.

(b) He mentioned the general policy of defascistization and stressed the importance of clearing out the leading Fascists at the earliest opportunity possible. He warned Armies and Regions against being side-tracked by the pushing forward of the smaller fry as a sacrifice.

(c) The general question of Carabinieri was discussed. The unanimous feeling was that the ceiling was too low, even if the percentage ceiling of 60,000 was granted. Conditions in Provinces and Regions were generally bad and other police agencies such as the P41 have been disbanded, leaving the Carabinieri with extra work. Regions and Armies were requested to give their views to Admin. Section.

Admin. Sec.

8. Supplies and Transport.

These two questions are inextricably bound up together. The supply question is for the moment much better on the whole, partly due to the new harvest becoming available and partly to the fact that fairly large stocks have been captured. The transport situation is bad.

(a) Transport. 548 CT Coy will not be available to IMZ Fifth Army after the 23rd July. Col. Toscani will then have no transport to distribute from stockpiles forward. Food Sub-Commission lose the use on the 20th July of the CT Coy placed at their disposal, and will only get a 50% replacement of civilian vehicles. This will be reflected in slower building up of the stockpiles from Rail-head or Port.

Econ. Sec.

Economic Section have no vehicles which can be produced to remedy the situation. They asked for 2,000 vehicles.

(b) He mentioned the general policy of defascistization and stressed the importance of clearing out the leading Fascists at the earliest opportunity possible. He warned Armies and Regions against being side-tracked by the pushing forward of the smaller fry as a sacrifice.

(c) The general question of Carabinieri was discussed. The unanimous feeling was that the ceiling was too low, even if the present ceiling of 60,000 was granted. Conditions in Provinces and Regions were generally bad and other police agencies such as the PAI have been disbanded, leaving the Carabinieri with extra work. Regions and Armies were requested to give their views to Admin. Section.

Admin. Sec.

6. Supplies and Transport.

These two questions are inextricably bound up together. The supply question is for the moment much better on the whole, partly due to the new harvest becoming available and partly to the fact that fairly large stocks have been captured. The transport situation is bad.

Econ. Sec.

(a) Transport. 548 GT Coy will not be available to AMG Fifth Army after the 23rd July. Col. Toscani will then have no transport to distribute from stockpiles forward. Food Sub-Commission lose the use on the 20th July of the GT Coy placed at their disposal, and will only get a 50% replacement of civilian vehicles. This will be reflected in slower building up of the stockpiles from Rail-head or Port.

Logistic Section have no vehicles which can be produced to remedy the situation. They asked ALI for 2,000 vehicles. General Hamblen ("Q" ALI) says that AMG Fifth Army must become the responsibility of Fifth Army. Fifth Army denied this. General Hamblen has now called to SOS NATURAL. However no vehicles are in sight for Fifth Army AMG for distribution after July 23rd.

(b) FLORENCE. AMG Eighth Army have managed to build up 10 days supplies for FLORENCE and AREZZO Province in SIENA. There is also another 1,500 tons at Railhead if transport for distribution is available. The new harvest will not help since the transport problem remains the same owing to the bringing up of POL for ^gfilling instead of the flour.

(c) ANCONA. Here POL is the problem. There is not enough transport in this Province. Col. French of Region V asked whether schooners could be made available. POL is chiefly required for the collection of the harvest. No. 2 District are prepared to help over this and supply all requirements of Region V in POL if ALI approved. Col. French to take up with Col. Adams in ROME.

Econ. Sec.
Col. French

ACTION

(d) Miss. Supplies. The need for these was stressed. They were actually required at present more urgently than flour. A fair quantity had arrived at POMBINO but there was no transportation for distribution. Food Sub-Commission stated that these supplies were still all arriving at RAFLIX and had to be re-shipped or railed up to forward areas.

(e) Eighth Army Bread Prices. Lt. Col. Spencer, Supply Officer of Eighth Army, said that he had first put up this problem to Economic Section two or three months ago, and finally three weeks ago asked for an urgent decision which was promised in a few days. He still had no answer and had to use his own discretion in fixing the price of "new-grain bread".

The main point he wants to know is what is the proportion of the subsidy. Lt. Col. Spencer is willing to fix a price on his own if he gets no instructions, but it will be uncorrelated to other prices.

9. Establishment Officer.

(a) Warned Armies and Regions that they might not be filled up to Establishment until the harvest was over in Regions I, II and V. After this there would be some officers combed out and sent forward.

Est. Br.

(b) Col. Albright suggested a Rest Home for overworked AOC officers.

10. Next Meeting.

It was agreed that subject to confirmation in a weeks time the next meeting would be held at HQ. AAI (wherever it might be) at 1100 hrs 2nd August.

Copy to Zonal Section, HQ AGC Rear
(Attn. Pool Sub-Commission)
RE ARS Region IV, Rome
RE ARS Region VII, Orvieto.
Q Rear Eighth Army.

I refer to recent discussions with your HQ on the supply of advanced areas under ARS of Eighth Army and forward some details of estimated requirements by provinces.

1. The tentative nature of these estimates is clear. No one can tell how much flour will be required until we are in full occupation. Our figures for this item have therefore been framed on the assumption that it may be necessary to import flour to ration here than the entire NON-AGRICULTURAL POPULATION (allowing for those, particularly in FLORENCE, who are wine and not wheat growers).

2. Enigma is also laid on the importance of providing "INDUSTRIAL SUPPLIES". Unless these items (particularly sugar, salt, soap and milk) and also the standard 800 grams bread ration are rapidly introduced in the forward areas, there is a danger of the city being raided that some of our recently acquired provinces were better fed by the enemy than by the Allies.

3. The following details outline the requirements of the supply situation as seen at this HQ:

(i) Our 60 t.p.d. at present bid for CIVITA CASTELLANA RAI (opening 7 Jul 44) will cover most requirements of ROME and FLORENCE, and provide a small margin for build-up or distribution further N. (e.g. PERUGIA).

(ii) AGC depot at ORVETO requires immediate 190 t.p.d. on Eighth Army account alone. Of this 100 t.p.d. should be flow, and it should continue for a minimum of ten days or longer until the ROME-ORVETO run is in full operation. This will

(Attn. Food Sub-Commission)
 DC III Region IV, Rome
 DC III Region VII, Civitot.
 9 Rear Eighth Army.

I refer to recent discussions with your HQ on the supply of advanced troops under arms of Eighth Army and forward some details of estimated requirements by provinces.

1. The tentative nature of these estimates is clear. No one can tell how much flour will be required until we are in full occupation. Our figures for this item have therefore been based on the assumption that it may be necessary to import flour to ration more than the entire NON-AGRICULTURAL POPULATION (allowing for those, particularly in FROSINONE, who are wine and not wheat growers.)

2. Espinasse is also laid on the importance of providing MISCELLANEOUS SUPPLIES. Unless these items (particularly sugar, salt, soap and milk) and also the standard 200 grams bread ration are rapidly introduced in the forward areas, there is a danger of the cry being raised that some of our recently acquired provinces were better fed by the enemy than by the Allies.

3. The following details outline the requirements of the supply situation as seen at this HQ:

(i) Our 60 t.p.d. at present bid for CIVITA CASTELLANA bid (opened 7 Jul 64) will cover recent requirements of RICE and FLOUR, and provide a small margin for build-up or distribution further N (e.g. PERUSIA).

(ii) ACC depot at GROSSETO requires immediate 150 t.p.d. on Eighth Army account alone. Of this 100 t.p.d. should be flour, and it should continue for a minimum of ten days or longer until the RICE-FLOUR run is in full operation. This will provide for the initial needs of FROSINONE, AVERSA and PACESE.

(iii) As soon as PERUSIA is open, this HQ requires 120 t.p.d. of FLOUR plus 50 t.p.d. (i.e. 210 t.p.d. in all) miscellaneous supplies delivered at PERUSIA for the provinces of PERUSIA, AREZZO and FLORENCE.

(iv) By the last week in July, food requirements for TERRACINA at the CIVITA CASTELLANA - GALLIACE GROUP of this will have fallen to 20 t.p.d. of miscellaneous supplies. FROSINONE and AVERSA should also be self-sufficient in grain (129,000 tons date), and will therefore require only 25 t.p.d. and 15 t.p.d. respectively from the new forward bases (CIVITA - ASSISI) which should by then be open.

Substantive P/A
11/17
 Group Captain,
 Officer Commanding,
 12th Eighth Army.

(Attn. Food Sub-Commission)

1. Ref your ACC/72-4/200 dated 28 Jun 44.
2. The necessity for strict economy in the use of sacks is fully appreciated by this HQ.
3. As the area for which this HQ is responsible is constantly changing, it is the practice to issue supplies direct to the PCs of the areas occupied by means of transfer vouchers on which the number and size of sacks, if any, is noted.
4. Under present operational conditions, each province is administered by this HQ only for a few weeks and it is impossible to control a sack account. If this were attempted, it would mean, in practice, that empty sacks were being collected in say MILAN and handed in on account of full ones issued to GABRIASCO.
5. All DPs, CAGs, consular officials, etc, have been warned of the gravity of the sack position and every care will be taken to see that these containers are properly conserved. It is regretted, however, that, under present circumstances, this HQ cannot control the ~~immediate~~ return of sacks.
6. In the event of our entering any area in which we find sacks available and surplus to absolute local requirements, we will arrange for the acquisition of these and the immediate shipment to the nearest ACC depot.

1. Contents of the above letter have been noted and the appointment of Capt. Smith to Region III is appreciated.

2. This HQ will advise you as promptly as possible of all developments in the Tr situation in Eighth Army area. It is considered in principle, however, that it is your responsibility to work out in conjunction with AAI, the broad forward plan for the maint of AMG Eighth Army, indicating the lines, ports and rd routes on which we should count. This HQ will then work out with Q locally detailed requirements as to Rhds, tonnages and the location of depots; but as in the case of the armies, so in that of AMG, the lower formations must look to its higher counterpart to formulate and advise the overall maint plan.

ACC/TO-1/FOOD

SUBJECT: Olive Oil

TO : S.C.A.O., AND 8th Army

1. Your letter SA/107 of 10 June 1944 with attached chronology of events in connection with the shipment of olive oil to Chieti and Caspoggio has been read with interest.
2. The facts are materially agreed as in your summary; the interpretation is very much open to question. It seems that the problem of handling olive oil shipments is not fully understood by your Headquarters.
3. At the time the first quantity of olive oil was allotted to AND 8th Army, Apulia was then, in the middle of a large and difficult program of moving large quantities of olive oil to Naples which had been allotted in December and January. It took the full-time services of an officer of the Food Sub-Commission, supported by a team of Italian olive oil experts, and with the full cooperation of ACC Supply Officers in Apulia and movements in Bari, to get 2500 tons of olive oil moved between mid-January and mid-April.
4. Olive oil containers are in very short supply. When containers were sent down from Vasto 35 tons of olive oil were despatched to Chieti. Termoli could accept olive oil in bulk but tank cistern cars were not available.
5. With reference to paras 4 and 5 of your letter it is agreed that first preference was given to Naples. This was because Caspoggio and Chieti areas were then enjoying a preferential ration scale of bread and pasta considerably in excess of that authorized for Region III; vegetables were available in your area which could not be obtained in Naples, and every effort was made to supply a notable deficiency area. No doubt the "loss of prestige" due to the absence of olive oil was counterbalanced by the gain of prestige due to the higher scale of bread and pasta issues.
6. It does not seem to be understood that olive oil in Apulia has always been under the control of the Italian authorities. Negotiations have had to be conducted with them to ensure releases desired by A.P.O., and the lack of continuity in the Heads of the Italian Ministry of Agriculture has not been conducive to speedy releases of desired amounts of oil.
7. Your "chronology" seems to imply some criticism of the handling

1284

-2-

Continued:

of the despatch of the oil from Bari. It has to be emphasized most strongly that this Headquarters is perfectly satisfied with the energy and ability of the Supply Officer in that area. With the help of one 2/Lieut. and 2 2/Lieut. he has successfully handled the import of an average of over 1,000 tons a month of imported supplies, and the despatch to Campobasso and your forward areas of thousands of tons of varied commodities during the past three months.

5. Food Sub-Commission is primarily ^{a controlling} ~~an administrative~~ organization. In view of the urgent necessity for handling a chaotic olive oil situation it has assumed operational responsibilities to ensure a wider distribution of available olive oil. This distribution will always be as wide as opportunity permits.

W. H. Leary

20 Campobasso Province
RG 14 Region V

1. Attached for your information and action is a summary of correspondence on the subject of olive oil forwarded to this HQ by IG Campobasso.

2. This HQ has made repeated requests to your HQ for olive oil for CHIETI and CAMPORASSO since last December. Five months have passed. Limited supplies have recently been delivered to CHIETI, but up to the end of May nothing had been delivered to CAMPORASSO.

3. CHIETI has therefore been virtually without olive oil for four months and CAMPORASSO for five. Reports are that the nearby provinces of NAPLES, BENEVENTO, etc have received their ration for ^{partial} the period, notwithstanding the fact that the oil for the latter regions had to be hauled from NAPLES.

4. It is difficult to understand why if oil could be shipped across the peninsula from APULIA TO NAPLES in quantities sufficient for the latter area, nothing could be spared for the eastern provinces whose communications with NAPLES are much easier.

5. Numerous reports have been received at this HQ of the popular discontent and loss of prestige to local Allied Military Government caused by the presence of olive oil in the surrounding areas contrasted with its complete absence in CHIETI and BENEVENTO.

6. Early in February this HQ refused permission to local representatives of the Consorzio Agrario to proceed to NAPLES to purchase oil privately at reasonable prices. This refusal was made at the verbal request of food sub-commission and to avoid jeopardizing central control over Olive Oil. In retrospect, it seems that such control has operated largely against the interest of CHIETI and BENEVENTO and in favour of the latter. Had the Consorzio Agrario been permitted to make such contacts there is at least the chance that CHIETI and CAMPORASSO would have received supplies of olive oil.

Due to the fact that the oil is not available in the area, the request is being deferred.

CA 130
1st Rear Flight: Army.

APPX "A"

SUBJECT: OF OLIVE OIL CORRESPONDENCE ETC.

27

- 7.1.44. Campobasso requests Eighth Army to secure oil from Apulia
9.2.44. Eighth Army signals agreement with Food Sub-Commission to forward 50 tons oil from Apulia to Ternoli
19.2.44. Eighth Army asks FARSO why oil not dispatched
13.3.44. Eighth Army reports shipment held up for lack of containers, and is informed by C.A.C. Ternoli that bulk shipment can be accepted.
29.3.44. Eighth Army asks by signal if oil received.
30.3.44. Campobasso informs BARI that oil most urgently needed; bulk can be accepted or containers can be relied on request.
31.5.44. Eighth Army signals BARI that non arrival of oil is causing unrest.
31.3.44. S.S.C. APULIA, BARI, signals CAMPBASSO no containers available.
2.4.44. Campobasso signals BARI that containers have been dispatched by train from Ternoli and requests their return filled urgently (copy of message to Region 5).
7.4.44. Campobasso reports to Region 5 that 50 tons of oil should be imported monthly.
7.4.44. Eighth Army signal copy of signal from FARSO to BARI ordering immediate dispatch 100 tons of oil to TERNOLI acceptable in bulk.
18.4.44. Eighth Army asks Campobasso if oil arrived.
22.4.44. Eighth Army writes that SSG advises he has ordered dispatch of oil.
25.4.44. Campobasso signals BARI asking when oil will be dispatched.
26.4.44. Eighth Army asks Campobasso how much oil received.
9.5.44. Provincial Supply Officer interviews S.S.C. APULIA and finds blocking order on oil for CAMPBASSO and CHIETI - contained in a message CR 50 of 4 May from LLOY to LRAY quoting authority Col. LONG and signed by Lt. Gen. WAGON MACFARLANE. Latter reported by signal to Region 5, Eighth Army and CAMPBASSO Province.
12.5.44. Eighth Army signals CHIETI, info CAMPBASSO, blocking order an error and A.C.C. have instructed BARI to release oil.
13.5.44. Campobasso signals BARI requesting assurance that oil will be dispatched.
23.5.44. Campobasso (unable to get BARI on phone) signals BARI "URGENT" asking if oil has been sent.
27.5.44. NO OIL. NO ADVICE OF OIL DISPATCHED.

9 010 1944

A. C. C.

...

...

...

...

1. Region V will supply sufficient supplies to sustain the 100th Airborne Division to include 30 tons per day being received at 140000 hours. This is to come from the 100th Airborne Division until about 1200 hrs. This is to come from the 100th Airborne Division until about 1200 hrs.

These supplies are needed to feed Southern MAFIA 15 tons daily and Southern MAFIA 30 tons a day.

2. Eighth Army will arrange to stockpile 300 tons of MAFIA supplies into QUARTERMASTER. This MAFIA will be placed in a platoon of 1000 G.I. Company, which will be located at MAFIA and which subsequently will go forward up the HANSON side and MAFIA side, until the MAFIA-MAFIA line falls. If the platoon runs forward Region V will assume responsibility for distribution.

3. Region V will work out forward supply when 5 Corps moves forward through MAFIA - MAFIA and MAFIA in each a way that they will take over back supplies and create large forward, so that MAFIA Army do not have more than 6-10 miles distribution L. of C. It is suggested that Region V should conduct A.M.G. 5 Corps direct in this connection.

DM.

Guy.

I wonder if you would chase up a few matters with the Industry and Commerce Sub-Commission.

1. Matches. On the 21 Apr 44 a letter ref. ACC/5160/IC promised us 6,200 boxes of matches. Later correspondence said that these would be found by Region III. As far as I am aware, nothing has yet arrived.

2. Caustic Soda and Soap. A request which I have made for caustic soda for soap factories has been turned down (ACC/5112/IC) on the grounds that the soap industry in Italy is being rationalised, and that piece-meal requisitions from Regions and Army cannot be accepted. Well, rationalisation, if it means increased production and better distribution, is a good thing; but what I want is SOAP for scabious-infested villages. If you give me caustic soda, I know that I will have that soap and in the right place. At present nobody has even promised me that I shall even obtain a bar, when or how such supply will be forthcoming from the new scheme. [I have in mind that the result of centralisation of control over olive oil led to Region III getting its share of oil, while Chieti and Campobasso went three months without a single drop, and are only now beginning to receive their allocation for last Feb.]

3. Belting. You may have seen my monthly report in which I referred to the mess up which has occurred in regard to the position of belting. What it boils down to is that the Industry & Commerce Sub-Commission are declining any executive responsibility for our supplies. If we ask for belting, they simply tell us, we are to get it and expect us to do for it. Obviously, if our demands increase we shall soon need a Purchasing Officer in Naples of our own. This aspect of the matter has been taken up on a policy level by the Group Captain (QA/68/254 dated 23 Apr. 44.) No answer has yet been received to this. Could you please look into the matter and get us a decision. My own view is that the only workable arrangement is that if we ask ACC for technical supplies, then ACC should not merely allot them to us, but also see that they come forward as quickly and efficiently as possible. [Who they

get to do it is unimportant, but ACC should see that the Army get what they need.]

Yours aye.

Duncan Spence

A.C. Region V, Camboisano.
A.C. Region IV, Impos.
C.C. A.C. 5 Corps.

1. A.C. Eight Army is responsible for the south to north programming of food and other essential supplies for the provinces under its administration. Long term plans (three months and over) derive upon the logistical staff behind.

2. To assist in this work provincial ARMs will prepare a MONTHLY APPROPRIATION of the supply situation in the area actually occupied at the date of submission. These appropriations will review the following factors:-

- (a) Existing stocks within the Province.
- (b) Supplies known to be coming forward during current month.
- (c) Consumption rates for all the commodities involved.
- (d) Storage facilities.
- (e) The maximum capacity in tonnage per day by way of the facilities available for the clearance of supplies from railhead, road head or ports.

3. From these assumptions, requirements will be assessed and requisitions submitted for supplies required during the following month. These requisitions will distinguish clearly between MAINTENANCE (i.e. supplies required for current consumption) and BUILD-UP (i.e. supplies being into reserve).

4. Standard policy in all provinces will be to build up and to maintain supplies within the province at a level equivalent to 60 days normal consumption. Supply programmes will be fixed accordingly. Where storage or transportation facilities do not permit the build-up or maintenance of supplies on this scale, attention will be drawn to the fact, and a request made to this HQ for special provision in the rearward areas.

5. In addition to the above requirements, provision is necessary in the forward provinces for possible future extension of commitments as a result of military operations. Policy in this respect will be laid down by this HQ, but

1. A.C. Eighth Army is responsible for the maintenance of the supply of food and other essential supplies for the provinces under its administration. Long term plans (three years and over) develop upon the Regional staff behind.

2. To assist in this work Provincial staffs will prepare a MONTHLY ASSESSMENT of the supply situation in the area actually occupied at the date of submission. These assessments will review the following factors:-

(a) Existing stocks within the province.
(b) Supplies known to be coming forward during current month.
(c) Consumption rates for all the commodities involved.
(d) Storage facilities.
(e) The existing capacity in terms of way of transport facilities available for the clearance of supplies from railroad, road head or ports.

3. From these assessments, requirements will be assessed and requirements made for supplies required during the following month. These requirements will distinguish clearly between IMMEDIATE (i.e. supplies required for current consumption) and BUILD-UP (i.e. supplies going into reserve).

4. Standard policy in all provinces will be to build up and to maintain supplies within the province at a level equivalent to 60 days normal consumption. Supply programmes will be based accordingly. Where storage or transportation facilities do not permit the build-up or maintenance of supplies on this scale, attention will be drawn to the fact, and a request made to this HQ for special provision in the relevant area.

5. In addition to the above requirements, provision is necessary in the forward provinces for possible future extension of commitments as a result of military operations. Policy in this respect will be laid down by this HQ, but all provinces should bear such requirements in mind and draw attention in these monthly reports to the likelihood of present or future availability of storage and transportation facilities suitable for the accumulation of such reserves or stockpiles.

6. Supply assessments must reach this HQ not later than 10th of the month preceding that to which they relate. Assessments will then be requested from HQ and allocated to the provinces and stockpiles concerned by 20th of the month (or sooner thereafter) in order to facilitate their incorporation in the regular tonnage programme.

7. For the purpose of uniformity, all references to rates of importation, consumption, or handling capacity should be originated in MEMO FORM FOR HQ.

8 Apr. 44.

1. Reference your ACC 40-8 POCB (Allocation No. 66) and signal 2578 of 5 Apr. 44.

2. Attached at Appendix A is Road Transportation Program for 10 - 16 Apr. 44. Food Sub-Commission is asked to ensure that Warehouse 676 is ready to load supplies as specified, starting 11 April 44. Lorries will be provided under arrangements by this HQ.

3. In order to relieve rail congestion this HQ has been lifting all northward supplies from MAFS by road. It has been found that heavy traffic and road conditions in this area result in such slow turn-round of vans that the maker of lorries at our disposal is thereby rendered quite inadequate to meet essential supply requirements.

4. Commission has therefore been obtained from Q Eighth Army at the Last Rail Tonnage Conference to bring 20 tons per day ALC Supplies into RAI VAIASO during period 17 - 25 Apr. 44. Provision details are at Appendix B.

5. Assistance of Transportation Sub-Commission is urgently requested to ensure that these supplies are railled according to schedule. Economics and Supply, Region IV (Capt. King) is requested to arrange detailed loadings and advise this HQ. As far as possible, rail cars should be despatched two at a time. It is anticipated that unless supplies can be brought forward as programmed, minimum essential supply plans for Anzio - Vonnaro - Aquila will be seriously endangered.

1. Owing to reorganization the following procedure will be observed for the entry of AMG supplies into Termoli and North thereof.
2. Allocations of supplies made by HQ ACC to AMG Eighth Army will be sub-allocated by this HQ to AMGs of provinces. Import policy will be decided by AMG Eighth Army, but within the terms of such directives as may be issued from time to time. AMGs of provinces will decide how and when they wish supplies to be called forward and will prepare their own rail programmes accordingly.
3. All bids for rail tonnage intake into Termoli and North thereof will be submitted to 9 Rear 5 Corps by SCAO Chieti Province. The dates of rail tonnage conferences are given at Appendix "A". SCAO Campobasso Province will ensure that SCAO Chieti is given 24 hours' clear notice in advance of the conference of any requirements of Campobasso Province for the period concerned. In the event of AMG Campobasso Province desiring to effect any importation through LUERDA Rbl. bids will be made to AMG Rear Eighth Army.
4. The calling forward of supplies by rail from the districts of origin will be done in the following manner:
 - (a) From Foggia Province or Bari Ports.
By direct communication between Provincial AMGs on the one hand and AMG Foggia Province or ACC Bari on the other.
 - (b) From Naples, Tos ports or other areas.

SUBJECT: Rail Transport.2198
13 MAR 44

10

1. Owing to reorganization the following procedure will be observed for the entry of AGC supplies into High Tarnali and North thereof.
2. Allocations of supplies made by HQ AGC to AGC Eighth Army will be sub-allotted by this HQ to AGCs of Provinces. Import policy will be decided by AGC Eighth Army, but within the terms of such directives as may be issued from time to time, AGCs of Provinces will decide how and when they wish supplies to be called forward and will prepare their own rail programmes accordingly.
3. All bids for rail tonnage intake into Tarnali and North thereof will be submitted to Q Rear 5 Corps by SCAG Chioti Province. The dates of rail tonnage conferences are shown at Appendix "A". SCAG Campobasso Province will ensure that SCAG Chioti is given 24 hours' clear notice in advance of the conference of any requirements of Campobasso Province for the period concerned. In the event of AGC Campobasso Province desiring to effect any importation through LUGERA RAIL, bids will be made to AGC Rear Eighth Army.
4. The calling forward of supplies by rail from the districts of origin will be done in the following manner:
 - (a) From Foggia Province or Bari Ports.
By direct communication between Provincial AGCs on the one hand and AGC Foggia Province or AGC Bari on the other.
 - (b) From Naples, Toe Ports or other areas.
By request from AGC of Province to AGC Eighth Army.
5. When sending supplies forward by rail, consigning regions are requested to signal full particulars of the quantity, quality, rail car numbers and date of dispatch to AGC of the receiving Province. Receiving provinces will acknowledge arrival by signal to the consigner. These signals will NOT be repeated to this HQ unless:-
 - (a) AGC Rear Eighth Army has been involved in arranging movement of the supplies concerned,
 - or (b) The intervention of AGC Rear Eighth Army is necessary **1264** co-ordination or any other special reason.
6. Provinces will keep a daily "state" of all imports of supplies by rail or other means. At the end of each seven-day rail period a return will be made by ELS to AGC Rear Eighth Army showing the total tonnage by commodities imported into each railroad during the period concerned.

3 spare copies

(2)

This return will also show, where applicable, any exports from the Province, however made, and any imports by road or sea.

7. Invoices and waybills for supplies will be sent and returned direct between consigning and receiving areas.

8. It is emphasized that inter-regional moves by road, sea or any other railways than those mentioned in this circular will be controlled by this HQ.

9. All addressees, please acknowledge receipt.

 Major General
 M/L/2

Dear Brigadier,

Major Spencer, 8 Army Senior Supply Officer, has come to see me this morning, having been in Naples for the last few days discussing various supply questions & the coordination of supplies for the Army etc.

From what he tells me I am convinced as to the two points, particularly on the coordination side. I know how busy you are, but I would be grateful if you could spare a minute or two to have a word with him before he flies back. I don't want to go into lengthy detail here as Spencer can tell you the trouble verbally better than I can write them. There are however two main points.

1. There are at present 11 main subcommittees dealing with supply.
 - (a) For Sub. committee
 - (b) Industry & commerce
 - (c) Agriculture
 - (d) Internal communication

All these subcommittees work in their various spheres but the trouble is that we coordinate the lot in the shape of the supply officer who has to take of the Army what he thinks is necessary & is forgotten about. This information we need to be able to draw from the point of view of having

what is available other than before. I can
see the very thing except when we
continue looking for things which they
accept & we do not believe.

Perhaps as far as continuing the Subcommittee,
there is some in accord in formation in the
answer.

2. The basic ratio of 200 grams
I know I was under a misapprehension at the
meeting the other day. I thought that this was
a basic ratio which as I understood it is
an average ratio. The basic ratio has always
been 150 grams & we have followed the
Italian laws as regards supplements to various
types of work, the full scale of work, as
applied by us, has been known to 0.75.

The application of a 200 average ratio
is shown quite certainly affect us very
considerably.

I would be most grateful if you could have
a word with Spence on these points.

Yours sincerely,

Constance
