ADDENDUMEnglish version of Regulations issued by
Italian Government.

- (a) it is obligatory for the visiting physicians to make a daily examination of all prostitutes living in licensed houses.
- (b) Prostitutes who are found to be affected by manifestations of the diseases mentioned in Art. 29 of the aforesaid P.U. of the Sanitary Laws, e.g. Gonorrhoea, soft ulcer, and syphilis must be removed immediately from the licensed houses and sent for treatment to a VD Clinic where in-patient treatment can be given.
- (c) Women who carry on their trade outside licensed houses must be furnished with appropriate tickets, instructing them to report every two days to the Director of the VD Clinic in accordance with Article 20 of the regulation referred to previously. If they are found to be infected with the contagious symptoms referred to in para (b) they will be instructed to attend the clinic for treatment.
- (d) Visiting physicians and directors of VD clinics will complete for every woman attending for treatment, a special form which must be sent to the Public Safety Authorities.
- (e) In suspected or doubtful cases, the above-named physicians must in addition provide treatment for the women at the appropriate treatment centres, where they will be detained for observation until the diagnosis has been confirmed.
- (f) The infected women will be discharged from the VD Clinics on the responsibility of the director only when he has demonstrated that all contagious symptoms have disappeared.
The director of the clinic will prepare a statement of clinical cure and a description of the symptoms and will note on the women's sanitary booklet the length of stay in the clinic, the results of laboratory tests, the methods of treatment employed and what further treatment is advised.
- (g) The duty of repressing clandestine prostitution is entrusted to the zeal of the Public Security Officials. Vagrant prostitutes who do not possess the proper tickets will immediately be taken to a VD clinic where they will be placed under observation, and will be detained as suspects, in conformity with the Ministerial Circular

Article 20 of the regulation referred to previously. If they are found to be infected with the contagious symptoms referred to in para (b) they will be instructed to attend the clinic for treatment.

(d) Visiting physicians and directors of VD clinics will complete for every woman attending for treatment, a special form which must be sent to the Public Safety Authorities.

(e) In suspected or doubtful cases, the above-named physicians must in addition provide treatment for the women at the appropriate treatment centres, where they will be detained for observation until the diagnosis has been confirmed.

(f) The infected women will be discharged from the VD Clinics on the responsibility of the director only when he has demonstrated that all contagious symptoms have disappeared.

The director of the clinic will prepare a statement of clinical cure and a description of the symptoms and will note on the women's sanitary booklet the length of stay in the clinic, the results of laboratory tests, the methods of treatment employed and what further treatment is advised.

(g) The duty of repressing clandestine prostitution is entrusted to the zeal of the Public Security Officials. Vagrant prostitutes who do not possess the proper tickets will immediately be taken to a VD clinic where they will be placed under observation, and will be detained as suspects, in conformity with the Ministerial Circular No 5/922/San of 27/3/44. Should they prove to be non-infective, they will be handed over to Public Safety for appropriate action.

(h) During the state of emergency and in accordance with the existing circumstances infected persons are not permitted to be treated in private, vide Art. 18 of R.D. No 346 of 25/3/23.

(1) It is obligatory for visiting physicians and directors ²⁰¹⁹ of clinics to make a microscopic examination of the vaginal secretion of every prostitute the first time she enters a house of prostitution and the first time she visits a clinic. In addition they must make serological tests if these have not been done in the first place or have not been performed over a period of three months.

(2) Syphilis without contagious symptoms, but with strong positive blood reactions (+++) must be considered infective and in consequence sent to VD clinics for treatment.

Appendix "B"

ITALIAN VERSION OF AIRM PROS ISSUED BY
ITALIAN GOVERNMENT

- (a) E' fatto obbligo ai Medici Visitatori di procedere ad un'accurata visita giornaliera a tutte le prostitute, ospitate nelle case di meretricio autorizzate.
- (b) Le prostitute, riscontrate affette da manifestazioni contagiose delle malattie indicate nell'art. 291 del citato T.U. delle Leggi Sanitarie e cioè blenorragia, ulcera venerea, sifilide, devono essere immediatamente allontanate dal locale di meretricio ed inviate, per il ricovero, ad una casa celtica che presenti la disponibilit  della degenza.
- (c) Le donne che esercitano il meretricio fuori dei locali autorizzati dovranno essere munite di appositi tessera, in conformit  di quanto disposto dall'art. 20 del regolamento sopra ricordato e nottoscoto, regolarmente ogni due giorni, ad accurata visita di controllo da parte dei direttori dei dispensari celtici. Se esse verranno riscontrate affette da manifestazioni contagiose di cui al n  2 verranno inviate per la cura alla casa celtica.
- (d) I Medici Visitatori, Direttori dei dispensari celtici, riferiranno per ogni donna da ricoverare il foglio di ospedalizzazione che invieranno per l'adempimento all'Autorit  di P.S.
- (e) Nei casi sospetti o dubbi, i sanitari in parola provvederanno ugualmente al ricovero delle donne negli appositi istituti di cura, ove verranno trattate in osservazione fino all'accertamento della diagnosi.
- (f) Le analisi verranno disposte dalle case celtiche sotto la diretta responsabilit  dei direttori dopo che sia stata constatata la ricomparsa di ogni manifestazione contagiosa. Il direttore della casa celtica rilascer  una dichiarazione attestante l'avvenuta guarigione clinica e la scomparsa delle manifestazioni contagiose e provveder  ad annotare sul suo libretto sanitario il periodo di degenza. Gli esami di laboratorio esposti, la cura praticata e quelle da continuare e praticate.
- (g) E' affidato allo zelo degli organi della Pubblica Sicurezza il compito della repressione del meretricio clandestino. Le meretrici vaganti, non munite di tessera sanitaria saranno cattivamente inviate alla casa celtica, reparto osservazione, ove verranno trat-

di quanto disposto dall'art. 26 del regolamento sopra ricordato e sottoposte, regolarmente ogni due giorni, ad accurata visita di controllo da parte dei direttori dei dispensari celtici. Se esse verranno riscontrate affette da manifestazioni contagiose di cui al № 2 verranno inviate per la cura alla sala celtica.

(4) I Medici Visitatori, Direttori dei dispensari celtici, riceveranno per ogni donna da ricevere il foglio di spedalizzazione che invieranno per l'adempimento all'Autorità di P.S.

(5) Nei casi sospetti o dubbi, i sanitari in parola provvederanno ugualmente al ricovero delle donne negli appositi istituti di cura, ove verranno trattate in osservazione fino all'accertamento della diagnosi.

(6) Le ammalate verranno dimesse dalla sala celtica sotto la diretta responsabilità dei direttori dopo che sia stata constatata la scomparsa di ogni manifestazione contagiosa.

Il direttore della sala celtica rilascerà una dichiarazione attestante l'avvenuta guarigione clinica e la scomparsa delle manifestazioni contagiose e provvederà ad annotare nel suo libretto sanitario il periodo di degenza, gli esami di laboratorio espletati, la cura praticata e quella da continuare a praticare.

(7) E' affidato allo zelo degli organi della Pubblica Sicurezza il compito della repressione del meretricio clandestino. Le meretrici vaganti, non munite di tessera sanitaria saranno oggettivamente inviate alla sala celtica, reparto osservazione, ove verranno trattate come sospette, secondo quanto disposto dalla circolare ministeriale n. 5/322/San. del 27/3/44.

Qualora risultino sane, saranno riconsegnate alla Pubblica Sicurezza per i provvedimenti di competenza.

(8) Durante l'attuale stato di emergenza e per le contingenti necessità non dovrà consentirsi alle ammalate veneree, di provvedere direttamente alla propria cura come previsto dall'art. 16 del citato regolamento.

(9) E' fatto obbligo ai medici visitatori ed ai direttori dei dispensari di procedere all'esame microscopico del segreto vaginale di ogni prostituta all'atto della sua ammissione presso le case di meretricio o alla prima visita presso il dispensario. Essi dovranno inoltre procedere agli accertamenti sierologici, quando questi non siano stati mai praticati o risultano espositi in data anteriore ai tre mesi.

- 2 -

(1) Le luetiche, senza manifestazione contagiosa in atto, ma con
sintomi diagnostici fortemente positivi. (---) dovranno essere ritenute
come infette e pertanto inviate in sala settica per la cura.

Exec in Commissioner.

SUBJECT: - Procedure.

TO : - RC & MG Section, HQ ACC.

1. Reference your 23H/105/CA dated 24 June 1944, the officer concerned was Major John A. Lewis who is now assigned to Region VIII.

2. A copy of his comments on Colonel Zellars' letter is attached.

3. Para. 5 of Major Lewis's letter is incorrect in that, due to an oversight, copies of the statements made to AAI, though sent to the Italian Government, were not forwarded to Region II.

4. As a result of the visit made by the Chief Medical Officer to the Italian Government, the Ministry of Interior has made arrangements by which the situation regarding the hospitalization of VD patients both at Lecce and Brindisi will be improved.

5. This decision was communicated to the Regional Commissioner, Region II under cover of ACC/3023/3/FH dated 6th July 1944.

6. It is hoped that the foregoing explanation will prove satisfactory to the Regional Commissioner, Region II.

ALLIED MILITARY GOVERNMENT
Province of Grosseto

13 July 1944

SUBJECT: - Procedure; ACC/3023/PH

TO : - Regional Commissioner, Region VIII for the
Director, Public Health Sub-Commission.

1. The Director of the Public Health Sub-Commission requested that the Chief Provincial Physician, Dr. Vezzaro, make an investigation of reports from AAI relating to corruption at the Lecce hospital.
2. The Venereal Disease Control Officer of ACC accompanied the Chief Provincial Physician after discussion with both the Chief, Public Health Branch and the Director of the Public Health Sub-Commission.
3. The Venereal Disease Control Officer visited the provincial headquarters but the office was closed and the provincial commissioner could not be found; it was a Sunday afternoon.
4. Regional Headquarters was not visited because the Chief Provincial Physician had commitments that required his presence in Salerno the following day.
5. Copies of the allegations made through AAI were provided the Regional Commissioner before the investigation by the Italian Government.
6. The undersigned does not know whether a copy of the report of the investigation was sent to the Regional Commissioner of Region II as the Venereal Disease Control Officer was assigned to Region VIII before seeing the report although the content of the report was discussed with the Chief Provincial Physician.
7. In this matter the undersigned considers that the Italian Government was making the investigation at the request of ACC and it was so conducted. The undersigned took no part in the investigation; it was done entirely by the Chief Provincial Physician with the undersigned as an observer.

SUBJECT (60)

Considering the instructions issued by higher authority:

I, JOHN W. CHAPMAN, Colonel, Acting Regional Commissioner, Region 3, by virtue of power vested in me, hereby

ORDER

Article I

Repeal of Regional Order No. 18.

Regional Order No. 18, dated 8 March 1944, (which relates to restrictions on prostitution) is hereby repealed but without prejudice to anything done thereunder.

Provided that nothing in this Order shall prejudice or affect any proceedings of whatever kind commenced before the date of this Order and all such proceedings shall continue as if this Order had not been made.

Article II.

Extent of Order and Effective Date.

This Order shall extend to the Provinces of Naples, Avellino and Benevento and shall be effective on, from and after 21 June 1944.

In virtù dei poteri conferitimi, io, JOHN W. CHAPMAN, Colonnello, Commissario Regionale Provvisorio, Regione 3:

ORDINE

Articolo I.

Revoca dell'Ordine Regionale No. 18.

L'Ordine Regionale No. 18, dell'8 Marzo 1944, (che si riferisce alla restrizione della prostituzione) è con il presente Ordine revocato, ma senza alcun pregiudizio a quanto già effettuato in osservanza al suddetto Ordine.

Premesso che nulla nel presente Ordine deve pregiudicare né influire nessuno dei procedimenti di qualsiasi natura iniziatisi prima della data del presente Ordine e tutti tali procedimenti debbono continuare come se il presente Ordine non fosse stato emesso.

Articolo II.

Estensione dell'Ordine e Data di Entrata in Vigore.

Il presente Ordine ha vigore nelle Province di Napoli, Avellino e Benevento, ed avrà effetto il, ed a partire dal 21 Giugno 1944.

1. Provincial Commissioner Lecce reports that on 11th June 1944 an inspection of the V.D. section of the Civil Hospital Lecce was carried out by the following officials.

Medico Provinciale, Lecce
Medico Provinciale, Brindisi
Direttore Generale Pubblica Sanita, Salerno
Ispettore Dermosifilitico, Salerno
A.C.C. Naples, American Medical Major.

2. No notice of the proposed visit was given to this HQ. or to the Provincial Commissioner and although the hospital V.D. specialist requested them to visit Provincial HQ. they did not do so.

3. The name of the American Major is not known.

4. It is suggested that this officer be identified and admonished and reminded that team work is an essential to the success of any enterprise.

See attached. I don't feel that we are getting any action out of this. What's the point of the American Major? he is considered very efficient. The report is OK.
