Ref 775/

SUBJECT: Return of Civilians to their homes.

TO : Distribution below

1. In common with almost all other nations in Europe, the Italians desire to get back to their homes those people driven by war to other parts of the country. There may be, south of Rome, 250,000 such people. The homes of many are non-existent and these concerned cannot be returned for a long time. But many are agriculturalists. The latter should be got back to the land as early as possible. It is a matter of Allied interest to do this.

2. This problem is distinct from that of handling refugees in battle zones as a part of our military operations. The latter is dealt with by SCAG's armies and the Refugee Branch ACC, and we have an organization which deals comprehensively with this.

The return of civilians requires a considerable organization, and whilst this HQ will send assistance in many ways, the work in the main must be carried out by the Italians themselves. The head of the Italian Refugee Branch will direct this work in collaboration with the Italian Government Commissioner for Refugees.

3. In their desire to get people to their homes, an uncontrolled and unauthorized movement has been started by the Italians in several parts of Italy. Instructions have been given by the Italian Government to their prefects, and by this HQ. to Regional Commissioners, that this movement, which is causing hindrance to military interests, is premature and must for the moment cease. It is the duty of Regional Commissioners in conjunction with Italian authorities in their regions to see that these orders are obeyed and to control the people in their respective regions.

4. It has been decided by this Commission that the regularized repatriation of these people should be started as soon as possible. Plans, details of which are being studied, for the return of civilians, may be outlined as follows:

- a. Movement plan: Programme to be drawn up, showing numbers and destinations. Prior agreement of authorities in areas of des-

time. But many are agriculturalists. The latter should be got back to the land as early as possible. It is a matter of Allied interest to do this.

2. This problem is distinct from that of handling refugees in battle zones as a part of our military operations. The latter is dealt with by ECAO's Armies and the Refugee Branch AOC, and we have an organization which deals comprehensively with this.

The return of civilians requires a considerable organization, and whilst this HQ will lend assistance in many ways, the work in the main must be carried out by the Italians themselves. The head of the Italian Refugee Branch will direct this work in collaboration with the Italian Government Commissioner for Refugees.

3. In their desire to get people to their homes, an uncontrolled and unauthorized movement has been started by the Italians in several parts of Italy. Instructions have been given by the Italian Government to their prefects, and by this HQ. to Regional Commissioners, that this movement, which is causing hindrance to military interests, is premature and must for the moment cease. It is the duty of Regional Commissioners in conjunction with Italian authorities in their regions to see that these orders are obeyed and to control the people in their respective regions.

4. It has been decided by this Commission that the regularized repatriation of these people should be started as soon as possible. Plans, details of which are being studied, for the return of civilians, may be outlined as follows:

a. Movement plan: Programs to be drawn up, showing numbers and destinations. Prior agreement of authorities in areas of destination to be secured.

b. Transit Points: Five larger camps at main terminals, such as Naples, and Rome, down to feeding halts at selected places on a long journey. These must be fixed and staff (Italian) at each indicated.

c. Staff for Transit Points: The Italian Commissioner will state numbers required. He wishes to have Italian Military staff, and this is recommended. The movement will not be got under way promptly and efficiently without military discipline, at least during the initial stages.

d. Food at Transit Points: The Food Sub-Commission will be requested to issue a directive regarding this.

785017

g. Finally, programs of trains will be arranged with military and civil railway authorities.

To summarize: Firstly (a) and (b) must be completed by the staff of the Italian Government Commissioner. Meantime under (c) MIA will be requested to take up the question of Italian Military Staff with AAI (SD). Questions under (d) and (e) will be decided in principle whilst the above work is in progress.

5. Regional Commissioners should take known in their regions the fact that this work is being pushed ahead as rapidly as possible. The speed with which it can be started depends to a great extent upon reasonable discipline amongst the Italians themselves. They must be reminded that their position is not worse than that of millions of other people all over Europe whose prospects of return to their homes is remote. Unauthorized and disorderly movements which have recently taken place in certain regions, must not be repeated, and if attempted must be dealt with in the firmest manner possible.

ARTICOLO V.

Data di entrata in vigore.

Quest'ordine entrerà in vigore in ogni Provincia o parte di essa entro il territorio occupato dalla data della sua prima pubblicazione in essa.

SUBJECT: Control of Civilian Movement.

TO : Regional Commanders Regions I, II, III, V and VI.
S.C.A.O.'s Fifth and Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralize as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMC pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMC authority of the area into which they intend to travel.

(b) Territory under AMC.

In territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e. civilians in this area will be forbidden to travel from one province to another without an AMC pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to restriction as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AEF pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AEF authority of the area into which they intend to travel.

(b) Territory under AEF.

In territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e. civilians in this area will be forbidden to travel from one province to another without an AEF pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. In Allied Control Commission areas will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AEF territory into King's Italy and vice versa.

Stack Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'trap' stack posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with E.S.S. or C.I.C. units.

2031

The object of these check posts will be: (1) to turn back those seeking to cross outside the prescribed limits without a pass, (2) to take action against those who have committed serious and flagrant breaches of the regulations, (3) to question or detain for investigation persons whose conduct or "arroy" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of "arroy" check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) installing a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to have about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, District and Base Section Headquarters and NOT by AGS/ACC, both in AMI and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.S./C.I.C., S.I.M. (C.S.), C.S.R. and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian police in connection with these actions.

Summary.

(a) Army Areas and Posts.

In the case of terrain leading to some North-Territory across the "Control Line" (which follows the general line of the Rivers Piave and Volturne) or to other Italian Provinces, the existing procedure will normally be followed whereby they must first obtain (through their local AGS/ACC representatives) a pass issued by the appropriate AGS authority in the area of their destination.

(b) AGS Proceedings.

For other

any check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to even about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, District and Base Section Headquarters and NOT by AMB/LAC, both in AMB and AOC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of F.S.P./S.I.C., S.I.M. (C.S.), G.C.M. and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these actions.

Passes.

(a) Army Areas and Poggia.

In the case of persons wishing to cross North-Westwards across the "Control Lines" (which follow the general line of the rivers Biferno and Velturno) or to enter Poggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMB/AOC representative) a pass issued by the appropriate AMB authority in the area of their destination.

(b) AOC Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (i.e. from Bari to Avellino or from Poggia to Naples) a pass will be issued by the local AMB/LAC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a) above also, for urgent administrative, economic or other reasons, the procedure described in (c) would be inoperative owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of said passes to the SCAG or to the area of jurisdiction.

(d) Passes for Travel.

It is essential that the issue of passes to cross the "Control lines" or to enter Poggia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will insure that transport tickets will not be issued by the railway authorities or other travel agencies to persons within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.
