SUBJECT : Newspaper Authorizations.

TO : Allied Control Commission (for all AMG CAO's in
Combat Territory or forward areas not yet under
ACC administration).

The following notes are written in response to requests
for information and guidance made by various CAO's in forward
areas to this office and to FMH Combat Team Press Officers.

1. Experience shows that liberated towns and areas have
a hunger for news almost equal to that for food.

2. Moreover, experience also shows that AMG and other
Allied authorities need an immediate publicity outlet for
their proclamations, regulations and advisory instructions.
Controlled local news sheets and wall bulletins fulfill these
functions.

3. I. M. B. Combat Team operating with 5 and 6 Armies have
Press Officers who take care of these things in close coop-
eration with local AMG. But these Press Officers move forward
with the advancing operations. They may not therefore be
available when demands may be made locally for AMG permits to
publish a newspaper.

4. In such cases the following points should be noted by
AMG officials:

a) Suspend all existing papers. This is to prevent
the survival of Fascist or Fascist-inspired or politically
uncontrolled sheets.

The following notes are written in response to requests for information and guidance made by various CAO's in forward areas to this office and to PWB Combat Team Press Officers.

1. Experience shows the liberated towns and areas have a hunger for news almost equal to that for food.
2. Moreover, experience also shows that AMG and other Allied authorities need an immediate publicity outlet for their proclamations, regulations and advisory instructions. Controlled local news sheets and wall bulletins fulfill these functions.
3. P. W. B. Combat Teams operating with 5 and 8 Armies have Press Officers who take part of their things in close cooperation with local AMG. But these Press Officers move forward with the advancing operations. They may not therefore be available when demands may be made locally for AMG permits to publish a newspaper.
4. In such cases the following points should be noted by AMG officials:
 - a) Suspend all existing papers. This is to prevent the survival of fascist or fascist-inspired or politically uncontrolled sheets.
 - b) Provisionally authorize the publication of one non-party or Committee of Liberation information paper devoid of political party editorialism and comment except such as may be approved or inspired by AMG or PWB.
 - c) Do not authorize political or party papers. These will be taken care of by AMG in due course as indicated in para 6 of this note.
 - d) Allow approved papers the financial facilities--and risks--of their enterprises.
5. P.W.B. can provide a news service within the limits of whatever communications exist or may be established. Contact the local PWB Combat Team Press Officer or PWB Chief Press Officer (through HQ CCS) for details as required.

6. All papers provisionally approved by local AMG and set going will, if proven desirable, be given first consideration by the Allied Publications Board when the editors (or CAC on their behalf) make an eventual demand for APS authorization. Forms on which to make such demands can be got on application to "Executive Secretary, Allied Publications Board, c/o HQ. ACC." This procedure will ensure that such publications are safeguarded for the future and will come within the compass of APS Press Plan which takes care of eventual Party organs and in due course merges Allied Control with Italian responsibility for a Free Press.

1. Reference is your IC/1802 dated 31 July 44.
2. It is immaterial whether the physical handling of the newsprint problem in your Region is passed to Italian Authorities.
3. An officer must be designated whose responsibility it will be to ensure that distribution is carried out in accordance with licensed circulations, and that no waste is incurred, seeing that all newsprint for Sardinia has to be brought from overseas and the situation is already critical.
4. A return of stock must be made every fortnight by your HQ in order that this HQ can have an overall picture of the National Newsprint Situation.
5. In any arrangement made with the Italian authorities, provision must be made to allow A.F.B., through this HQ to call on supplies to be transferred to other publication centers, in a crisis. (Such a situation has recently occurred which has necessitated the movement of surplus stocks from one center to another in order to keep all newspapers on the streets.)
6. The Newsprint Officer will have the final decision as to how such newsprint is applied to administrative purposes.
7. The accounting provisions in 13160/Y/A of 18 July 1944 have been designed to cover the situation, either where the newsprint is placed in an FBI Warehouse or where it is sold at dockside.
8. If the latter situation is to prevail then from an accounting standpoint the Newsprint Officer would merely comply with Paras 5 and 7 of above quoted letter.

1. I wish to draw your attention to ACC/5086 Com. of 18 Jul 44 on the subject of the accounting for and distribution of newsprint. Finance Sub-Commission HQ/CA/13 of 18 Jul 44 also deals with the same subject and scheme.

I have no spare copies of these letters but doubtless the file copies are available at your Headquarters.

2. The scheme proposed in these papers appears to me to cut across the policy of handing over responsibility to the Italian authorities to a maximum extent as laid down by your Headquarters. This policy is of particular import to this Region in view of the reductions in staff which are taking place.

It is to be noted that under Para.6(iv) of the Commerce Sub-Commission scheme a fortnightly return is called for from this Headquarters.

Moreover, under Para.9 this Headquarters is asked to run a central store room for the issue and cutting of papers.

3. In accordance with agreed policy, this Headquarters is arranging that all supplies are bulked to the Italian authorities at ships' side for storage, warehousing, allocation and distribution. This procedure is in process of being completed in respect of all commodities except medical stores but information has just been received that medical stores are to be handled by the Italian authorities from NAPLES.

I can see no reason why newsprint should not be dealt with in the same way. If some measure of control by the A.P.B. was necessary this could doubtless be arranged with the Italian authorities.

I have discussed this matter with the local PWB/APB representative and he agrees in principle. Moreover, I understand that the general tendency is to hand the whole matter of Press publication over to the Italian authorities as early as possible which is an added reason for them controlling newsprint at the earliest possible point.

Under present procedure here, in view of the necessity for cutting of papers at times, this Headquarters sells an advance consignment to a printing firm so that the necessary cutting and distribution.

Subject: Corriere di Roma

To: Colonel A.H. Hancock, Regional Commissioner, Region I.

1. I have recently had some correspondence with the IWB on the subject of the "Corriere di Messina". The IWB suggestion was that this paper continue to be controlled, as ACC property, by Colonel Ramsey, working to the directives of the IWB.

2. I feel, and the Political Section agree, that such a state of affairs is inadmissible. It is clearly wrong for ACC to own a newspaper, and I think it is also quite wrong for the IWB to maintain a "hidden" control over a newspaper operating in territory handed over to the Italian Government. I think that you probably share this view.

3. The Acting Chief Commissioner directs that this paper and its assets be handed over to the Italian Government and treated on the same basis as other papers operating in territory handed over to that Government.

TO : R.C. Region III.

1. Reference your R/2017 of 19 May 1944, the position of the three draft Regional Orders is as follows :

(a) Alimony.

This Order is being prepared, as you know, for issue as a General Order. Since, among other things, the proposed legislation has to do with matters concerning internment, the Public Safety Sub-Commission felt obliged to consult A.A.I. before making any recommendations on the subject.

(b) Public Meetings.

This Order has been prepared and approved. It is being published as General Order No. 25 and is now in the hands of the printers.

(c) Newspapers and Publications.

Reference is made to this HQ letter 291/19/GA of 4 April 1944. The suggested Decree has been drafted and approved but is under discussion with the Italian Government. It is hoped that it will be finally approved before the next meeting of the A.P.S. on 29 May 1944.

Central APB Meeting 1.5.44

As the discussions and reasons behind APB decisions are often veiled from the Italian Government or officials, leading to misunderstandings and, on occasion, misrepresentations; and as this situation puts a smoke-screen between ourselves and the Italian Government, choking goodwill and smothering real understanding, I propose that, in order to ensure a better working machine to promote Allied war aims in Italy, the Italian Government be invited to nominate a representative to attend the Central and Local Board meetings in a consultative and advisory capacity.

With regard to the above, it might be useful to recall that Italian administrative difficulties in appointing a Prefect to sit on Local Boards (because one Prefect cannot speak for other Prefects whose jurisdiction may also be within the Local APB area) will be solved by inviting "a Government representative, thus leaving it to the Italian Government to choose their man and to give him the necessary authority for the particular job even if he is a Prefect.

Apart from solving the local problem of Prefects, the above proposal also solves the illogical position of having Italian representatives on Local Boards which are responsible to the Central Body on which they have no representation.

SUBJECT : Licensing of Publications.

TO : Allied Publications Board.

1. Pursuant to our conversation of 27 April, enclosed is revised draft of suggested decree covering above subject matter.

2. The following comments are to be noted in connection with the draft submitted by you, and our draft enclosed herewith.

a. Article I has been entirely rewritten in the interests of clarity and better draftsmanship.

b. Article II has been revised with the objective of leaving no doubt that the Board shall have the sole right in its absolute discretion and without the giving of reasons to suspend and revoke authorizations.

c. Article III has been revised so as to make it clear that the representatives referred to shall be nominated by the Italian Government and shall act in a consultant and advisory capacity only. It occurred to us that it might be desirable to require that such nominations should first be approved by the Board so as to guard against improvident and unsuitable nominations and this Article has been prepared accordingly. This obviously is solely a matter of policy and is for you to decide. If this suggestion is not acceptable the matter can be remedied by the omission of the phrase "and approved by the respective Boards."

d. Articles IV and V have been slightly revised as to language in the interests of clarity but without any substantial change.

e. Article VI has been entirely rewritten with the objective of making it mandatory upon the publisher to notify the Board of any of the changes referred to therein. No such requirement was contained in your draft. Unlike your draft a change in ownership, etc. does not operate automatically to cancel the authorization. We have provided that failure to notify the Board of such change does so operate but if notice is given as required, it then becomes discretionary with the Board as to whether or not the change is of such a nature as to warrant a cancellation. Thus, the matter remains entirely within the control of the Board, but obviates

50705 BW

BU 5/4174

what might result in unnecessary work and complications if an automatic cancellation of the authorization followed from some inconsequential change.

f. Article VII of your draft is a rearrangement of Article IV of our original draft. We believe that our draft legally better accomplishes the objective thereof and we have accordingly restored the language of Article IV of our original draft.

g. Article VIII of your draft covers the subject matter of Article V of our original draft. We fail to understand what is intended by your Article VIII. Moreover, the matters covered thereby are purely administrative and can better be handled, in our opinion, along the lines of Article V of our old draft which has now been made Article VIII of our new draft.

h. Article IX of your draft has been revised to substitute the word "shall" for "will" and the word "authorization" for "license." We also omitted the phrase "as prima facie evidence of authorization to publish" since it would seem to serve no useful purpose. We have also added at the end of the Article the phrase "or otherwise reproduced" since your Article IX as drafted would appear to cover printed copies only whereas the intention is clearly to cover all other types of reproduction.

i. Article X of your draft is a revision of Article VI of our original draft. In view of the serious consequences following upon a violation of provisions of the decree as therein provided, we think it is desirable that the various types of publications referred to by specifically listed and we accordingly prefer our draft to yours. Moreover, we have concluded that it is preferable to provide for the automatic revocation of the authorization in case of violation rather than for the prohibition against future publication. Article X has been re-drafted accordingly. When and if this Article is translated into Italian, it is imperative that the phrase "Public Safety Authorities" be so translated as to specifically designate the particular authorities which you have in mind.

Ref 34-37

I have read this all carefully and I think two things need clearing up:-

A. Ref 1 (3) on 37. Do APB have to consult Lt. Gov. on a measure involving appointment of prefects. I think they should do so, from courtesy at least. We did not know about this resolution till 34 came in.

B. Same ref. PRO and Admin Sec are at variance over who initiated the request for drafting of a decree. (34 para 3 also refers)

2. There will clear the immediate question, but I think that the question of representation on APB then process etc should also be clarified to everyone's satisfaction as soon as possible.

II

1. I saw PRO and talked on telephone with Mr. Cripps.

Representation is being passed today by APB to the effect that the Italian Govt will have representative on the Central and Regional Boards but not Prefects. All are agreed that Prefects should not be the representation. PRO will forward the resolution when passed to us to pass to Admin Sec. We can then clear with Legal.

2. As requested PRO being official channel to APB, PRO under Spanish C.C. is considering this by 1/5

1. This correspondence raises issues about which I feel strongly, and I must qualify the answers by the following facts

(a) Originally I was the representative of the ACC on the APB and I was then able to follow what was happening, and contact the APB from the ACC point of view, with some degree of efficiency.

(b) It was decided to put the Political Section and the Industry Section on to the APB since when nobody knows who is representing the ACC.

(c) This is the first time I have ever heard anything about Poletti's order and I guarantee that the majority of the APB has never heard of it.

(d) If Colonel Upjohn holds informal conversations with Munro and Edmen (whom he can't spell: see 13) of PWB and then calls them the APB how can anything but confusion result?

(e) If Colonel Fiske then follows by quoting the APB (who knew nothing about it) in a letter to Region III, without consulting anyone here, does not confusion result?

(f) Clearly the initiative for general legislation as against Regional Orders came from Colonel Upjohn (see 13) I quite agree with the principle. But the APB did not come into it officially.

(g) Reference Colonel Gripp's letter of 21 April. His para. (2) is perfectly correct. It is the APB which, in accordance with their terms of reference, set up the machinery of control. They are under no obligation whatsoever to consult the Italian government on the Interior Sub-Commission. His para. (3) is faulty for the same reason, but it is also incorrect because the initiative came from the Legal Sub-Commission. About his para. (4) I can only say that Reale's protest (about which I had heard from Reale) was never sent to me, although I asked Colonel Gripp to do so, and was never been put before the APB.

About his part. (b) I knew (though no official bothered to convey the fact to me) that there existed a difficulty about prefects and I therefore put forward and got passed at the last meeting a motion to the effect that Local Boards should for the time being be purely advisory. Therefore it does not matter two hoots for the time being whether prefects come in or not. It is simply a question of having an Italian representative sooner or later and if the Local Boards go ahead, I guess the Italian Government will soon make up its mind to be represented on them. Since the Prefect is the man authorized by Italian law to authorize licenses I personally don't see who else could be on the Board.

(c) It is essential that somebody should begin to recognize that APB does NOT mean the FVB members of APB. Also that, if confusion is to be avoided, one man should represent ACC on the APB. If everyone insists on putting private fingers into the uneasy pie, nothing very happy will result.

2. The reply to Poletti is clearly that he can't publish Regional Orders on his own, because the APB controls the press. The answer to Crippa is, in my view, that his decrees should go forward but that they might be discussed, since there is a new government, between Aldisio, the Legal Sub-Commissioner and the representative (whoever he is) of the ACC on the APB.

I think that if things are to run smoothly, all matters concerning the press and the APB should be routed through one ACC member of the APB.

- 1 Your 291/25 CA of 17 Apr addressed to us for Legal Sub Commission.
- 2 The Allied Publications Board passed certain resolutions on the 14 Mar. among others, one including Prefects on certain Regional Boards. This resolution was passed without previously consulting either the Interior Sub Commission or the Italian Government.
- 3 At the same time the APB asked the Legal Sub Commission to draft a decree to implement their resolutions but did not inform the Legal Sub-Commission that there had been no agreement in principle with the Italian Government.
- 4 This Section was then asked to obtain from the Italian Government the names of the Prefects to sit on these Boards. Our letter asking for nominations was the first that the Italian Government had heard of the proposed formation of these Boards. For reasons stated in the Minister of the Interior's letter 374 of 4 Apr (some of which the Interior Sub Commission considers to be perfectly sound) the Italian Government objected to making these appointments. A copy of the Minister's letter of objection was forwarded to the APB on the 9 Apr since when no communication has been received from the APB.
- 5 Until the question of whether Prefects are or are not to be members of Regional Boards has been settled with the Italian Government, the drafting of the decree cannot proceed.

1. In reply to your letter PCH 14A of 17 April 1944. There is no objection to your corresponding direct on technical matters with Regional Commissioners.
2. I agree that it is difficult to decide in PEO matters what is technical and suggest that in case of doubt you send copies of such letters to Civil Affairs Branch.
3. It might be as well if there is any doubt over a question of despatch of material to Regions to bring up the matter at the Daily Conference whenever possible.

You will remember that I promised Regional Commissioners that I would send them lists of publications licensed and under consideration by the APC. I did so as attached. I am not quite sure whether I have tripped up on procedure and whether such letters should go over your signature. I understand that "technical" matters can be sent direct to RC's, but I don't know whether this is technical or not. I know you do not want unnecessary red tape; nor do I; perhaps it would be possible to lay down some principles. I can, of course, always send copies of all letters to RC's to the CA Branch.

1. Definition of "technical" in P.R. matters may not be easy.
2. P.R. Office is not part of RC and CA section though liaison is close.
3. We should only be a "post-office" for most things.
4. Suggest agreement to procedure provided only after meeting (RC and CA Sec.) is advised of material to be sent out, before it is dispatched, whenever possible.

NUMBER

22)

1. With reference to the list of newspapers issued by the A.C.C. Publication Board on 4 March 1944, indicating those for which copies had been given to circulate or those still under consideration for circulation in liberated Italy, Sicily and Sardinia. A further list is now forwarded in respect of Salerno Province. (A copy of this list sent to Provincial Public Safety Officers of Avellino, Benevento, Salerno and Naples Province only.)
2. The Board considers that the time has now come when appropriate action, without discrimination should be taken in Naples against all unauthorized newspapers and periodicals, i.e. those not included in the list.
3. Before action is taken against unauthorized papers in Region 3, outside of Naples, please make sure that such outlying papers have not been authorized by the local Allied authorities and not yet notified to the A.P.B.
4. Although prosecutions will normally be undertaken by or thru local Questori, A.P.B. are prepared to send a representative to Court where prosecutions ensue, in order to certify that a paper has been rejected by A.P.B.
5. Questori are therefore to be suitably instructed in accordance with the terms of this directive, in order that the necessary measures to seize all unauthorized newspapers and periodicals, and institute all necessary proceedings against offenders be taken.
6. P.S.O.s are to ensure that all seizures and prosecutions under the circumstances indicated are reported to this office.

1. Reference your letter of 23 March 1944 enclosing a draft order regarding the Licensing of Publications.
 2. The draft order has been carefully considered at this H.Q. at a conference with Col. Monroe and other members of the Allied Publishing Board and as a result I am directed to inform you that this order is not approved.
 3. The Allied Publications Board do not wish this matter to be the subject of a Regional Order. They are very anxious to have an amended Italian decree which would be operative in occupied and unoccupied territory. The principals of such a decree have been discussed and the matter is being taken up with the Italian Government forthwith.

SUBJECT: Proposed Legislation Region 3.

TO : Deputy Executive Commissioner, ACC. ✓

1. Pursuant to your 26 March 44 ref/291/12/CA/ we have examined proposed Regional Order No. 34 (Region 3).

2. It is our opinion that the control of newspapers and other publications should be exercised through legislation having operation throughout occupied territory and not by way of Regional Orders. Conversations with APB support this view. This could be accomplished by the extension of existing or amended Italian decrees into occupied territory or by General Order.

3. To the end that this matter may be worked out on a basis satisfactory to APB a meeting is being arranged between the Board and the Legal Subcommittee. Meanwhile it is recommended that Regional Order 34 be not approved.

2 Apr 44

Since writing the above

I have had a conference with
Mr Edmunds & Col Monroe of APB.

They are very anxious to have an amended Italian decree which would be operative both in occupied & unoccupied territory & we have discussed the principles of such a decree & this matter is being taken up with the Italian Govt forthwith.

APB do not like proposed Region 3 Order; though it has many good features it has some objectionable ones especially bringing the question into Art 3. I again recommend that this proposed order be not approved.

Ref 7-10 and minute above. I agree that there is no objection to this order which in effect merely puts the onus for recommending publication of newspapers to A.P.B. from Prov. Commissioner to Italian officials (Quartone). It does not alter the powers of the body which wants a withhold permission, and I do not think legal S.C. need be.

If you agree I will send back to Reg. as approved.

1. Reference is made to your Memorandum AMG/227/35 issued from AMG, HQ, ACOMF and dated 27 January 1944, promulgating Administrative Memorandum No. 89, AFHQ, of 11 December 1943, on the subject of the establishment of the Allied Publications Board and the licensing of newspapers and other publications.

2. I am proposing to issue a Regional Order clarifying and amending the present regulations and attach in duplicate the suggested Order for your perusal and observations please.

3. As regards newspapers and periodicals there is no change in the present system of licensing but it will be seen that with respect to other publications it is proposed to put the onus on the Italian Authorities, i.e., the Questori of Provinces, and necessary instructions for guidance will be issued to them.

4. The suggested changes and Regional Order have been discussed with Allied Publications Board and PWB and they are in agreement. //

5. I am also inclosing for your prior approval an order dealing with Public Meetings, which clarifies the procedure for the benefit of the public. Neither of these orders will, of course, be published without your approval. I would therefore appreciate your views on these orders as soon as possible.

As requested in your memorandum of 3 March 44 (File No. 14), I return herewith your file.

At the Board meeting held on 6 March, it was agreed that the publishers of IL MERIDIONE could not be granted license to publish a Salerno edition of their newspaper. Maybe you would be good enough to inform the proper authority, telling them, at the same time, that any request for newspaper will have to be made in the regular way, i.e. by filing application to publish with the Prefect. Forms, in duplicate, are attached. These should be completed and returned to the Prefect.

ITALIA NUOVA
COSENZA

PALAZZO DELL'ECONOMIA , 18 February 1944.

TO: The Allied Military Government
Cosenza

With further reference to the authorization which you have kindly granted me to print the newspaper "Italia Nuova" under the title "Il Meridione" and to carry on journalistic activities from Salerno on down, I beg to inform you that due to transport difficulties it is not possible for me to forward the paper to the Provinces of Salerno, Potenza and Matera.

To eliminate this inconvenience which deprives the people of these provinces of news of the events of the day and brings with it that not all can read the ordinances of the Allied Military Government, I ask you to kindly authorize me to open another Newspaper Office at Salerno.

The paper with the same title and with the identical political line would also be issued at Salerno. The same articles as at Cosenza would be published therein, and only local events would be changed so that at Cosenza we would print Cosenza local events and at Salerno those of Salerno and Province.

As to prior censorship of articles, these would be submitted to censorship here at Cosenza, excepting if your Command is of the opinion that all what is published in the Salerno edition should be censored at Salerno, in which case our task would be greatly eased.

Doing thus, it would be possible to forward the newspaper at this moment of transportation difficulties between Cosenza and Salerno, also to Potenza and Matera.

Repeating in part what I have stated above, it would be a question of having two editions, one at Cosenza and one at Salerno, of the same newspaper, which would have in both editions the same title, would bring the same articles, and the only difference would be in local news which are not subject to censorship.

I am sure that your Command will accept favourably my request and meanwhile, thanking you and with best regards, remain

ITALIA NUOVA
Daily - Political
COSENZA

Palazzo dell'Economia, 15/2/1944

TO: The Allied Military Command
Cosenza

As you are aware, the newspaper "Italia Nuova", of which I am Editor-in-Chief, is the only Daily of the South. In it are reported a miscellany of news on political and military events, as also the ordinances issued by the Allied Military Government.

The paper has now caught the attention and the interest of the Public due to its correctness and objectivity and above all because ~~XXXX~~ outside and above any political aspirations it aims at the reconstruction of the Country with the help of the United Nations.

And it is precisely for these two qualities, which have been appreciated by all men of good sense, that the paper is today in much demand in many Communities of the Province. However, paper reserves are not such as to permit us to increase circulation at present.

After this premise; for the purpose of meeting the numerous requests which from every side are addressed us by citizens of the Province, who want to get the news of events and want to read the ordinances of the Allied Military Government, which "L'Italia Nuova" publishes, I ask you very kindly to ^{ask} ~~meet~~ me by assigning to me or take steps to have assigned to me ^{on} Naples or Bari 50 (fifty) quintals of ~~XXXXXXXXXX~~ newsprint.

I repeat that such assignment is absolutely vital to enable the many citizens living in remote places, where often there is not even a radio, to know the events of the day through which ripens the defeat of the German Armies, the brilliant victory of the Allies, a radiant future of prosperity and peace for the peoples of the world. Trusting in benevolent acceptance of this request, I thank you very kindly and with kindest regards, remain
