2. It is as you know a policy that ex fascists as defined by Executive Memorandum No. 67, will not continue to be employed on the ground of special knowledge or ability.

3. The responsibility for defascistization is the Italian Government and it would be most improper for us to interfere with their decisions. Action is only called for by us when they fail to remove fascists.

4. If you still consider there are grounds for reopening of the case then it could go before the Ministerial Commission when it is formed.

1. It is understood that a Policy decision has been given that a "fascist" (as defined by Inec. Memo 67) shall not continue to be employed on the ground of special knowledge or ability.
2. The responsibility for defascising is the Italian Govt's. It would create a most unfortunate position if they could say that when they defascise or prevent effective action. We have no right to interfere with their decisions except when they fail to remove fascists. The responsibility is theirs.
3. If Dr. Celentani is not within the definition PWU as the responsible 2600 might ~~investigate~~ if they think desirable ask for his case 3405 considered by the Ministerial Commission when that is formed, but even this is questioning an Italian right.

The following is a report on the progress of Defascistization in Region II as of July 15, 1944.

BARI PROVINCE

The Defascistization Committee met on 6 July, 1944 and considered three cases. No further information is available as to the date of the publication of the new Law, and until that law is published the Prefect states that the 3 cases considered were the only ones which were likely to be unaffected by the change of the law. If any other cases had been heard it is probable that they would have to be re-tried under the new law. The Prefect has made application to his Government for information, but has received no reply.

LECCE PROVINCE

The Defascistization Committee of Lecce has not had a meeting since 17 June 44, because the Prefect has received instructions from the Ministry to suspend any further action pending the promulgation of a new decree. In the meanwhile, out of the 75 names proposed for dismissal at previous meetings,

2. Folio 68 is negative answer to a previous plea.
3. In his history now given (folios 78 + 79) he admits to being a member of the Party but claims he never took any interest in politics.
4. It is said (folio 81) he is still approached by the Army (No 2 District) for technical advice & this is given as a reason for his reinstatement.

1. I support the request that the case of Dott. Ing. CELENTANI Ungaro be considered, especially in view of the suggestion that he was not an active fascist, and had in fact been accused of antifascist motives.
2. If this was the case, it is quite easily understood that he made enemies, who made it their business to denounce him; is this is the case the denouncers may easily be the fascists who should be removed.
3. A man who occupies a position such as the Chief Engineer of an undertaking like the Apulian Aqueduct, is always in a position to be denounced by subordinates in the same organisation due to professional jealousy.
4. I consider that any enquiries made as to Dr. Celentani's activities as a fascist should be made from people other than those who were employed under him, for the reason stated above in paragraph 3.
5. Dott. Ing. Celentani can be of great value to the Allies owing to the vast knowledge he has on the subject of Aqueducts, and has already given valuable assistance on the aqueduct system, to the Chief Engineer 8th Army and also to C.E. 2 District.
6. His advice is still being sought by the army though he is now out of office; he being the only person with the expert knowledge, and able to give the information required.
7. It is therefore urgently requested that he should have his case reopened, to be given an opportunity to refute the accusations made against him.

Reference my BX/1/10 dated 28 May 44, and AOC. H.Q. Letter 405/68/OA dated 17 June 44 on the subject of the removal of Dott. Ing. Pietro Celentani Ungaro, late Chief Engineer of the Apulian Aqueduct Company.

I forward herewith letter from the above on the subject of his present situation.

I can vouch for the fact that Officers of No. District and other H.Q. have approached Dr. Celentani Ungaro, since his suspension for official information in questions of the mechanical nature.

The situation, therefore, appears to be that the Army still requires and asks for his co-operation and assistance while the Italian Government suspends him from his post and he naturally feels disinclined to produce information and assistance any further.

The result is that he will now probably not produce information of which the Army apparently stands in need - an attitude for which I cannot blame him - with a consequent loss of efficiency of the War-effort.

I would therefore request that his case be re-examined with a view to a definite decision by the Italian Government on the case referred to them and to a clarification of his standing as regards employment by or work for the Allied Forces.

B A R I

2nd July 1944

My dear Colonel,

At the time of my sudden and unexpected suspension from my duties as Director and Chief Engineer of the Apulian Aqueduct, it happened that I had the pleasure of a visit from Lieut. J.L. McHarg R.E. who had been appointed Liaison Officer to the Aqueduct after the invasion of Italy by G.E. 5 Corps.

You will doubtless remember his visit to you, when he described his experiences with the Aqueduct and showed you copies of testimonials which I had received from the G.Es. Eighth Army, 5 Corps and 2 District.

In view of what happened after the G.E. 2 District had recommended that I should remain in my position as Director and Chief Engineer of the Apulian Aqueduct, I feel that it is only right that you should know that I have since been approached by the Staff of the G.E. 2 District and by a Lieut Jeffrey on behalf of S.I.L.O. (42 Via Dante Alighieri, BARI) for technical information on aqueducts situated in Italian territory which is still in enemy hands.

While I have been only too glad to give such information as I could, I feel that it is hardly right that the Allies should approach me for such information after the Italian Government has determined that I am not fit to hold a position in which any official weight can be given to any data that I can furnish.

I therefore propose in future to refer to you first any officers who may come to me for technical information, although I wish to make it clear that I am completely at your disposal when any information is required which it may be in my power to furnish.

At the same time I feel that it should be appreciated by the Allied Control Commission that it is hardly in the interests of justice that I should, on the one hand, be deprived of my official position and then, on the other, be approached for information which, but for that position, I should be unable to give.

I shall be grateful therefore if you will present this anomalous situation to your Headquarters and entreat the Commissioner to have

3309

= 2 =

my position examine fresh.

I take this opportunity of attaching a short statement of my position.

I am,

Yours sincerely,

(Sgd) Pietro Celentani Ungaro

3299

Doct. ING. PIETRO CELENTANI

Director and Chief Engineer of the APULIAN AQUEDUCT

1. Artillery Officer in the First World War. Fought for three Years. Wounded and decorated with the Silver Medal "al valore militare" and three Crosses "al merito di guerra".
2. Joined the Aqueduct in 1923; became Acting Chief Engineer in 1926; nominated Director and Chief Engineer in 1929. Received numerous recognitions for his work for the Aqueduct and for many technical bodies. Also organized the resources of the Aqueduct to deal with war damage with excellent results.
3. He never took an interest in politics. Once, in 1922, he gave his support in a letter published in L'EPOCA in Rome to an ex-soldiers' movement to form a disciplined party of Liberal tendencies free from the excesses and violence of fascists and non-fascists alike. Entered as a member of the Fascist Party on taking up his duties on the Staff of the Aqueduct. Never showed any political activity; never made speeches; was even known as a more than moderate critic of the methods of the regime. In his official position, he took no account of the status of his employees in the Fascist Party; he was even accused - by one of those who now accuse him of the opposite - of being actuated by non-fascist motives when giving assistance to some of them.
4. In 1940 he was nominated Federal Inspector; he was the last of the Directors of Public Utilities in Bari to achieve this distinction, which had already been conferred on all the others. He did all that he could to avoid this nomination, but the President was determined upon it in the hope of stifling thereby the criticisms of lack of enthusiasm for the Party which were constantly being brought by the Federation against the Corporation.
As Inspector he was never politically active.
5. After the fall of the Fascist Party two or three of the Staff of the Aqueduct, who had joined the party before the March on Rome or at least before Celentani, were moved by personal considerations to launch a violent campaign in the Press against him which was without a basis of truth. This campaign of personal animus was extended to all possible branches of the Allied Services and of the Italian Government with the object of making him appear as an arch-fascist, and they intended to alienate the sympathies of

= 2 =

all who might desire his continuance in office in view of his attitude towards the holders of certain positions on the Staff whose conduct was not such as to enhance the reputation for service and the good name of the Aqueduct.

An indirect result of this was the virtual sabotage of the repairs of damage to the Aqueduct caused by the enemy, which the Director, with a liberal interpretation of the scope of his duties and an exposure of his person to dangers which he could honourably have avoided, put in hand and carried out in record time; so that, inter alia, he received from the Chief Engineer, Eighth Army, a letter of thanks which closed with the remark that Celentani "thus aided the War Effort".

6. This work, however, which earned from the Chief Engineer No. 2 District a categorical declaration that it was in the interests of the British Army that Celentani should remain in his post, did not prevent his suspension (through Tarchiani, the Minister of Public Works) in anticipation of his trial for defascistization; and this in spite of the fact that all the other Directors of Public Utilities, who were Federal Inspectors of greater seniority than Celentani, have been retained in their posts, as have certain employees of the Aqueduct with more pronounced fascist sympathies.
7. Celentani has been instrumental in furnishing a considerable amount of valuable information on the various aqueduct systems in enemy-occupied Italy; and even since his suspension has been approached several times for data which would otherwise have been well-nigh impossible to come by.
8. He therefore takes the liberty of soliciting the assistance of the Allied Authorities in having his case brought to justice, and solemnly affirms the truth of all the statements that have been set down above.

APO 394.

Reference your 313/69/GA of 5th May, 1944.

I forward for your information copy of report by Lt. Col. Orpwood, Provincial Commissioner, Bari on the removal of Dott. Ing. Pietro Calentani UNGARO, Chief Engineer of the Apulian Acqueduct Co.

Certified copies of statements as to his ability and co-operation which tell in his favour are attached.

It is suggested that this man could be employed usefully elsewhere in a forward area a suggestion with which I fully concur.

Submitted for your information and consideration.

FASCISTS REMOVED.

(a) Det. Ins. Pietro Calentani UNGARO.

Chief Engineer of Apulian Acqueduct Company. This case was referred apparently by the Prefect's Defalcation Committee to the Government as they did not consider themselves competent. The removal has, therefore, been apparently direct from the Italian Government. No notification was received by me.

This man has worked in close touch with C.E. No. 2 District since the inception, who reports on him as follows :-

- (1) Retention not vital in present post providing his second in command takes charge.
- (2) Recommended for similar post in the same grade.
- (3) Retention in the Service desirable owing to his efficiency and co-operation ; also to his knowledge of water supply system in enemy occupied parts of Italy.

I enclose copies of recommendations from various Engineer Officers, and am informed that further information on his past services may be obtained from Brigadier P. Fitzgerald Foley, C.E. No. 3 District.

In view of the above reports and recommendations it appears that this man is efficient and very co-operative whatever his previous political views, of which nothing serious is known here.

I would, therefore, suggest that in this case Defalcation has been enforced to the detriment of Allied interests, and that the man should be re-employed preferably in the more forward areas where his very extensive knowledge of the Acqueduct System would be invaluable.

(b) Provveditore Alii Studi.

This official was removed without my reference to me, but I understand on political grounds. His successor has arrived but has not yet paid me a visit.

No further removals have been reported to me.

Dot. Ing. Pietro Calentani - Ungaro.
Reggente di Pugliese.

Having heard of the suspension of Dot. Ing. Calentani from his post as Director of the Apulian Aqueduct I wish to make the following statement on his behalf.
As Liaison Offr. to the Aqueduct from Sep. to Dec. 43, during which period all ducts of the Aqueduct were repaired, I can certainly say that the speed and efficiency of the repair was principally due to Director. At a time when S. Italy was in a state of chaos and no other service, road, rad. electricity or gas functioned, the Aqueduct effected repairs as speedily as possible and functioned normally. This brought commendation from C.E. 8/Brig., C.E. 5 Corps & C.E. 2 District.

The Director, as Reggente Nazionale Ingegneri, volunteered and furnished all available information on the Aqueduct of Rome no. 383 those on the Adriatic Coast from Trieste to Brindisi. This was done after working hours over a period of 4 weeks. Further, he offered the services of self. Engineers & specialists to repair the Aqueducts of Rome. This may be accepted.

Abelian Speduct 11 wish to make the following statement on his behalf. As Liaison Offr. to the Speduct from Sep. to Dec. 43, during which period all demolitions of the Speduct were repaired, I can certainly say that the speed and efficiency of the repair was principally due to Director. At a time when S. Italy was in a state of chaos and no other service, road, rad. electricity or gas functioned, the Speduct effected repairs as speedily as possible and functioned normally. This brought commendation from C.E. B. King, C.E. 5 Corps & C.E. 2 District.

The Director, as Reggente Nazionale Ingegneri, volunteered and furnished all available information on the Speducts of Rome and 233 those on the Adriatic Coast from Trieste to Ancona. This was done after working hours over a period of 4 weeks. Further, he offered the services of self, Engineers & specialists to repair the Speducts of Rome. This may be accepted.

All water supply demands made by the Office have been immediately satisfied to an extent that Brig. Dixon R.E., then C.E.

 Prefect of Bari that
 it is considered that it is the interests of
 the British Army that this man should

The work of repairing the principal canal of the Aqueduct and many of its branches has been carried out with the very greatest skill and speed by the Aqueduct Corporation. Considerable credit is due to the Director, Pietro Celentani-Ungaro, his engineers and the staff for the way in which they overcame all technical difficulties, damaged communications, shortage of materials and transport and in general the state of chaos reigning in S. Italy.

Finally I should say that it is in the best interests of the British Army to trust all the core and maintenance work to the Corporation since it is fully competent to carry out the work. In summary, the fact that the Aqueduct administration could function normally indicated a thoroughly efficient organisation, their engineering skill and cooperation, shown by the speed of repair does indeed merit commendation.

This is to state that Iry Celentam, in his post as Director and Chief Engineer of the Brigadier's Pictor, has served out all work required by the British Army with zeal, energy and ability. This was most marked in the early days of September and October, when his work in effecting speedy repairs to the damaged gear did not earn a special commendation from the Chief Engineer of the 5th Corps and Eighth Army.

It is considered that it is in the interest of the British Army that he should remain in this post.

- Dr. Ing. PIETRO CELENTANI-UNGARO. -

Particolare, lungo e paziente lavoro ha svolto per la preparazione dell'Ente ai vari compiti dipendenti dallo stato di guerra. Ciò ha portato al risultato che i numerosi danni prodotti alle opere da bombardamenti aerei e da paracadutisti sono stati riparati in tempo brevissimo, e che tutte le maggiori esigenze di consumo sono sempre state soddisfatte anche in condizioni estremamente difficili e che l'Ente infine è stato chiamato a dare il suo aiuto per la riparazione di altri acquedotti.

Tutto questo ha poi fatto sì che nei gravissimi 28 giorni contemporanei ad opere principali (tra cui 4 ponti canali) prodotti dalle truppe germaniche nell'ultima decade di settembre - mentre tutto era in collasso e disordine, e uffici si sfasciavano e i funzionari abbandonavano i loro posti, e financo i militari di guardia all'acquedotto lasciavano posti ed armi - l'Ente è rimasto in regolare funzionamento dovunque. Il servizio di pronto intervento è entrato in azione immediatamente e le riparazioni sono state iniziate appena le truppe tedesche si allontanavano anche di poco dalle opere e prima ancora che vi arrivassero forze armate e in zone tuttavia interessate da operazioni militari. Superando difficoltà che non possono essere riassunte in poche parole e pericoli gravi per le interruzioni e le mine sulle strade e nei terreni prossimi alle opere danneggiate fu ridata l'acqua alla Puglia dopo 10 giorni di lavoro continuo di notte e di giorno spesso sotto piogge intense.

Questi risultati sono stati approvati e lodati dal Comando Supremo italiano e dai Comandi Alleati i quali hanno ringraziato ed esplicitamente riconosciuto che essendo l'organizzazione dell'Ente perfettamente efficiente fosse da lasciare ad esso la cura della gestione dei servizi che riguardano notevole parte dell'Italia meridionale. I Comandi stessi hanno poi anche considerato la eventualità di utilizzare l'organizzazione dell'Ente per riparare altri acquedotti ed in particolare quelli della Capitale e sono in corso intesa al riguardo con l'ing. Mentre tutto questo avveniva, e il Direttore permaneva sui luoghi dei lavori, a Bari tre o quattro impiegati hanno ritenuto di poter profittare del momento di confusione generale per svolgere presso le Autorità locali e sulla stampa una violenta denigrazione dell'Ing. Celentani con accuse che lo riguardavano come cittadino e funzionario.

Regioni: mascherare o far rifiorire situazioni personali irregolari o cadenti; insofferenze del ritmo di lavoro richiesto dal Direttore per le gravi necessità dei servizi; impedire che, nel nuovo clima, affiorassero situazioni la cui cognizione è demandata per legge alla Commissione per gli indebiti arricchimenti.

Nominato all'Ente un Commissario Prefettizio, essendo impediti i fatti di guerra gli amministratori ordinari, questi adottò subito e senza le necessarie indagini provvedimenti relativi ad alcuni impiegati immeritevoli che annullavano provvedimenti presi dal Direttore con conseguenze sulla disciplina, e più ancora sul rendimento del servizio, che non sono sfuggiti neppure ai Comandi Alleati, sorpresi di questa strana ripercussione dell'opera della Direzione Esercizio che aveva riscosso plauso ed ammirazione all'esterno dell'Ente.

Ne è derivata una situazione di disagio che gli interessati si adoperano in vario modo a mantenere in piedi e a rendere più acuta nella speranza che agiscano contro l'Ing. Celentani provvedimenti generali - e cioè la defascistizzazione per la carica di ispettore federale - la cui applicazione dovrebbe, nelle loro intenzioni, essere favorita proprio da questo stato di cose.

Ove infatti la realtà fosse interamente conosciuta la situazione si risolverebbe automaticamente con la conseguente attribuzione di ragione o di torto, il che sanno gli interessati che conoscono di quale tessuto di menzogne sia imbastita la loro azione.

L'azione di cui sopra ha successivamente dimostrato - precisando nei dettagli - in modo inequivocabile che ad essa è associato, stesso Commissario Prefettizio all'Ente. Le prove sono mostrabili.

Si tratta in sostanza di una piccola congiura che fa capo al Commissario, e formata dall'Ing. De Riso ^{cauffa della P.M. Cusani} che il Commissario ha portato con se come suo segretario; dall'Ing. Cusani antemarcia - ex Direttore delle Cstruzioni - che conosce come il Celentani sia perfettamente in grado di denunciare le gravissime irregolarità della gestione dei lavori da lui tenuta per centinaia di milioni e che essendo maturo per il collocamento a riposo si agita e si era agitato già prima per rimanere in servizio; dall'Ing. Orabona, fascista dal gennaio 1923 - ex gerarca e notorio sollecitatore di cariche nel P.M.F. insieme alla moglie, in casa con l'amministrazione presso il Consiglio di Stato e in debito con l'Ente di alcune decine di migliaia di Lire sottratte da un impiegato infedele in una gestione di cui l'Orabona era responsabile.

Si noti che il Prof. Tommaso Sicilliani - padre di un genero del Cusani - ^{già} ~~era~~ Ministro delle Comunicazioni - è stato delegato dal Cusani nella vertenza dello stesso con l'Ente per il collocamento a riposo.

La Commissione per la defascistizzazione della Provincia di Bari ha esaminato il Celentani per la sua qualifica di Ispettore Federale e ha accertata la nessuna attività politica svolta dallo stesso.

Avendo i Comandi militari britannici fatto presente che era nell'interesse di quelle forze armate che l'Ing. Celentani rimanesse al suo posto di Direttore e Ingegnere Capo dell'Ente per i danni gravi che potrebbero derivare ai servizi, specie nelle difficili ^{3.75} condizioni attuali, dal suo allontanamento, dopo le prove ripetute date dall'Organizzazione da lui creata e di cui egli è il migliore conoscitore e utilizzatore, la Commissione ha rimesso gli atti al Consiglio del ~~Ministero~~ ^{Ministero} dat

Si noti che il Prof. Tommaso Siciliani - padre di un genero del Cusani - ^{1°} ~~ex~~ Ministro delle Comunicazioni - è stato delegato dal Cusani nella vertenza dello stesso con l'Ente per il collocamento a riposo.

La Commissione per la defascistizzazione della Provincia di Bari ha esaminato il Celentani per la sua qualifica di Ispettore Federale e ha accertata la nessuna attività politica svolta dallo stesso.

Avendo i Comandi militari britannici fatto presente che era nell'interesse di quelle forze armate che l'Ing. 785017

re il Celentani.

In altre parole - più oneste e più chiare - il Decreto è proprio quello che ci voleva, per risolvere elegantemente un vecchio problema per epurare l'ambiente dell'Acquedotto si vorrebbe togliere dal suo un uomo onesto e capace - e diritto - defascistizzabile perchè fu nominato ispettore federale per le ragioni dette sopra e che non ha mai svolto attività politica e la cui utilità nell'interesse del paese è stata riconosciuta financo dagli stranieri - per offrire - ancora calda - la sedia a un'antemarcia che ha beneficiato e profittato di questa sua ba d'iscrizione così come ha saputo bene utilizzare il suo impiego - sa risaputa in ogni ambiente e che è dimostrata dalla sua posizione nomica che partendo dallo zero è salita in 14 anni di direzione di lavori ad una consistenza di oltre 3 milioni di lire in valori anteguerra. Questa sarebbe l'epurazione.

E intanto questi signori - con la convivenza anzi con lo esplicito intervento - in faciendo et in non faciendo - del Capo provvisorio dell'amministrazione continuano ad agitarsi in tutti i modi per imporre con schiamazzi - note alla stampa - scrivendo sui muri questo famoso caso Celentani.

E non contenti di quanto hanno fatto - sperando di dare a chi deve decidere una buona ragione per l'auspicata soluzione - cercano di creare disordini nel personale per far credere che il personale è contro il Direttore. Il personale nella sua totalità (9736) è staccato, fa sentire la sua voce di protesta ma gli interessati escogitano nuove vie col risultato di creare realmente uno stato iniziale di disservizio di cui - fra l'altro - financo gli Alleati cominciano ad accorgersi, ma che il Capo provvisorio dell'Amministrazione nonchè correggere favorisce, anzi ha fatto di tutto per determinare.

Tutto quanto sopra è provato e documentabile. E' ovvio come sia urgente provvedere da parte del Governo.

31 May 1944

Reference your BX/2/7 of 24th May 1944 to C.E. 2 District
and his reply CE/104/5 dated 26th May 1944.

1. In September 1943 I was responsible for measures taken to facilitate the rapid repair of the damage to the Apulian Aqueduct and was most struck with the energetic and efficient manner in which Signor Pietro Celentani UNGARO organised the work. I was instrumental in obtaining for him the letter of appreciation from C.E. 8th Army to which you refer.

2. At the time the Signor Celentani UNGARO offered his services to help with the rehabilitation of water supply systems in other parts of Italy, and he has in fact been consulted in connection with projects for repairs which may have to be undertaken in the future. Should the need arise I should have no hesitation in asking for him to be made available to organise such repair work.

3. I am surprised that there can be any suggestion that this gentleman is suspect of Fascist tendencies. He seemed to me to be entirely engrossed in his job, and not in any way concerned with politics.

4. I wish strongly to endorse the recommendation of CE/104/5
2 District.

SUBJECT: Removal of Fascists.

TO : Regional Commissioners Region I - VII.

1. The official declaration made by the new Italian Government includes two clauses which deal with the removal of Fascists and Fascism. These, and the constitution of the Government, make it practically certain that more drastic measures will be taken to remove from office Italians deemed to be Fascists and to take action against others holding Fascist views.
2. The armed services will not escape this purge and we may find that many men who still remain in the services, including the Carabinieri, as well as in the Civil Administration, will be removed.
3. It is ^{the} Chief Commissioner's wish that no obstacles will be placed in the way of the new Italian Government in carrying out this policy. Although the Chief Commissioner reserves and has the right to treat any case on its merits he does not delegate that power to Regional Commissioners, and he directs there should be no local opposition on the part of Provincial Officers who should refer doubtful cases to Headquarters for discussion with the Italian Government.
4. Regional Commissioners are once again reminded that it is their duty to ensure as far as possible that suitable Italian personnel are earmarked and trained to take the place of any official whose personal background renders them liable to epuration. In the meantime Regional Commissioners will report each week on the progress of the implementation of the Government's official declaration in order that the Chief Commissioner ^{may} be kept fully in touch with the situation in the field.
5. In the case of Region III and V and other Regions in Allied Military Government territory Headquarters Allied Control Commission will direct them with regard to any case for request for removal of ~~any~~ officials which may be received from the Italian Government. Regional Commissioners will likewise report to Headquarters any requests which they may receive from the Italian authorities, unless they are in complete agreement with such suggestions.

Subject: Removal of Fascists.

To: RG, Region II, ACC.

19 May 1944

1. With reference to your AS/5/93, dated 9 May 44, the Prefecture of Lecce Province has submitted to this office a list of public officials who either held office under the Fascist regime and are still in office, or who had been connected with the Fascist Party and are presently in public office.

2. These names include 67 holding Communal offices throughout the Province, five in the Provincial Administration, 65 in various other offices, and 14 whose cases were discussed by the Italian Defascistization Commission at its sessions held 15-19 April 44.

3. The report from the Prefecture does not state what action, if any, was taken against the individuals listed, but it is presumed the cases were merely discussed and that action is pending.

4. This office has received, in addition, communications from a number of individuals from various communes throughout the Province, containing charges or statements concerning Fascists, or alleged Fascists, both in and out of office. These statements are being investigated by this office

5. In addition, this office has compiled a list of officials in 45 of the 91 Communes of Lecce Province who held office under the Fascist regime in 1939, and who are still holding public office of some kind or another. This list was compiled from the "Annuario Generale d'Italia" (Southern Italy volume) for the year 1939.

6. The Prefecture will be checked to determine whether any actual dismissals of officials who held office under the Fascist regime have been made, and your office will be promptly advised as soon as this information is received.

7. So far as this office is aware at the present writing, no persons are being especially trained for public service to take the place of personnel who are to be ousted. This point, however, also will be taken up with the Prefecture to ascertain what steps are contemplated in this respect.

During a recent visit to Region II, Major General Solodovnik asked the Regional Commissioner to provide him with statistics on defascistisation.

A very detailed report has been submitted to me by the Regional Commissioner - of which a ^{statistical} summary is attached. These figures are interesting - though not accurate enough for comparison. But the difference between action in former AMG territory and Apulia is interesting.

Per my look
Hold this report in the meantime.

HEADQUARTERS
ALLIED CONTROL COMMISSION
REGION II

169
29 April 1944

Ref: P.S. 8

Subject: Defascistisation BARI PROVINCE

To : Regional Commissioner -

In the Province of BARI by the Royal Decree of ^{December} ~~November~~ last, a committee was formed to investigate the background of certain officials alleged to be Fascist and of whom it is necessary to remove from office if certain facts could substantiated.

To date the Italian Provincial Committee for Judgement trial and disposal of Fascists have convened three meetings. The result of these meetings is summarised as follows:-

Dismissed from Service	13
Discredited	11
Probationary period granted. (During this period the probationer is required to prove Good Faith with the Present Government)	11
Documents forwarded to Supreme Commission for consideration and decision	2
Total	37 cases.

The total number of cases to be investigated of personnel nominated a qualified Fascists during the Regime is listed as 451 therefore ~~for examination~~ 425 cases still remain for examination.

The persons examined in the cases listed above were former employees of Acquedotto Pugliese and Banca di Napoli.

ALLIED CONTROL COMMISSION

PROVINCE OF BRINDISI

Office of Provincial Police Officer,
BRINDISI
25th April 1944

SUBJECT: Defascistisation.

HQ. Region, A.C.C.
(for Regional Police Officer)

1. PROVINCIAL COMMISSION. Under the decree of December last by the Italian Govt. a commission was to be formed in each Province to deal with the question of removing ex active fascists from Provincial and Communal Administrative posts. The question of removing similar persons from State employments as distinct from Provincial and Communal posts was to be a matter for the Italian Ministry concerned. This Provincial Commission was to be made up as follows:- The Prefect.

- 2 Judges.
- 1 Representative who must be a wounded of last war.
- 1 Representative who has suffered at hands of Fascism.

In this Province existing Prefect arrived for duty here on 20th March 1944 to find that his predecessor (who is now the Prefect of Catanzaro) had done absolutely nothing to put the decree into effect. He finds that he has much labour to do in other spheres as well but is fully alive to the importance of this very necessary task. To date he has (a) got the Committee formed, (b) called for reports from CC.RR. and Questore as to the recorded and unrecorded fascist activities of persons in Provincial and Communal administration and (c) had one meeting of the Commission to go over the ground to be covered and their method of action. He does not anticipate any practical result for another month or six weeks. He wished it to be known that he must of necessity not act too hastily in this matter, firstly because he has to rely on what others tell him and secondly that he cant make a clean sweep as he is new to the Province and must know the probable successors are. It is only fair to point out that Brindisi Province never was a hotbed of Fascism and consequently perhaps not many removals will be necessary.

In this connection I think that the Prefect, who is not a career man (he is an Italian General returned from U.S. and Great Britain

In this connection I think that the Prefect, who is not a career man (he is an Italian General returned from U.S. and Great Britain where he has been a Prisoner of War for over two years) is as anxious as we are that Fascists must be eliminated, and that we can rely on him to fully co-operate. He has many difficulties in common with all Prefects in these times but seems to be a man who is out to make his presence felt here.

SUBJECT : Education - Defascistization in Region 2
TO : Regional Police Officer

Herewith, at your request, a brief account of steps taken in defascistization of Educational Personnel in Region 2 to date. This includes Region 7 (which will very shortly be taken over by Capt. Gregory as Regional Education Officer).

1. Policy

a) Attached is a directive, AMG/8607/A/Ed of 27 December 1943, from the Educational Sub-Commission, establishing dismissal-categories for all Educational personnel. This directive has been followed as closely as possible, but the following are some of the difficulties which have been encountered:

i) It was not possible to get completed and judge more than a fraction of the Schede Personali in question before the hand-over of Region 2 to A.C.C. (Feb II). Every attempt has been made to see that the same procedure is continued, but lack of authority makes this a slow and awkward process.

ii) In Apulia, which was never under AMG, Schede Personali were never used and there is no authority to introduce them now. The matter is entirely in the hands of the Italian Government, which has done almost nothing.

iii) Any number of appeals have been received. They take a stereotyped form, and are all very long. An attempt was made to obtain the assistance of Provveditori and Prefects and in some cases of specially-established Committees to judge them, but this attempt has failed completely. Some Provveditori and Prefects recommend the acceptance of almost every appeal that comes up before them. The Committees are no better. The advice of Italian officials has proved to be a hindrance instead of a help and is no longer being relied on. A certain number of appeals were accepted under AMG, but now all cases are being referred to the Educational Sub-Commission, which is applying the dismissal-categories rigorously.

b) If no appeals whatever were accepted, the percentage of dismissals would still not be over 5%. This is assuming that

3325

= 2 =

Officers of the G.I.L. and Segretario Fasci Femminili are not automatically included (I have been working on that principle). If the latter officials were all included the percentage would probably be doubled.

2. Dismissals and Suspensions

a) In no Province have dismissals been completed. The only Province which is anywhere near complete is Matera, not merely because facilities here were greater, but because Matera is much the smallest Province (500-600 teachers as against 2,000 - 3,000 elsewhere). Elsewhere temporary suspension of category-personnel have had to be made as Schede came in, leaving the final judgment for later. In one Province, Catanzaro, investigation of an unsatisfactory Provveditore took a long time: nothing could be done until he was dealt with, and Scheda-judging is therefore behindhand.

b) Dismissals of Provveditori

Three Provveditori have been dismissed: Matera, Potenza, Catanzaro.

c) Other Educational Personnel

<u>Province</u>	<u>Dismissals</u>	<u>Suspensions</u>
Matera	20	3
Potenza	17	=
Cosenza	7	94
Catanzaro	=	32
Reggio	=	106

d) The following cases have recently been discovered to fall within the categories, but it has not yet been possible to take specific action :

Potenza	3
Catanzaro	25

e) At Matera, Cosenza, Reggio, most of the Schede are now in. At Potenza and Catanzaro there are many yet to come.

3. Apulia

a) Educational personnel come directly under the Ministry of Education, which in Apulia is the only Authority which has ever had any power of defascistization of teachers. Lists of "denunzie" have in fact been called for, but little or no action is known to have been taken as a result of their forwarding: the categories used have been those of the Badoglio Government (R.D.L. of 28 Dec 43) not of A.M.G.

4

= 3 =

b) Of the four Provveditorat, three (Bari, Brindisi, Taranto) ought to be considered seriously for dismissal.

c) It is not possible to say with any accuracy how many persons in Apulia fall into the AMG dismissal-categories, but the following is a rough estimate (low) :

Bari	150
Brindisi	45
Lecce	80
Taranto	60

4. Whatever procedure is followed in organizing dismissals, some measure of uniformity is absolutely essential. There is much unfavourable comparison, among the population, between the situation in Apulia and that elsewhere.

RCOAO; Region III
(For attention of Director of Education).

1. It is considered that Educational Officials, professors, teachers, etc. who fall into the following categories, are undesirable and ought to be dismissed, unless very strong reasons can be shown for retaining them in office.

2. a) Segretari Generali, Vice Segretari Generali, Ispettori Generali e membri del Direttorio Nazionale.
(General Secretaries, General Vice Secretaries, General Inspectors and members of the National Directorate).

b) Segretari Federali e Vice Segretari Federali.
(Federal Secretaries and Federal Vice Secretaries).

c) Membri del Direttorio Federale.
(Members of the Federal Directorate).

d) Ispettori Federali
(Federal Inspectors).

e) Segretari Politici e Vice Segretari Politici.
(Political Secretaries and Political Vice Secretaries).

f) Gli Ufficiali della Milizia Volontaria Sicurezza Nazionale Ordinaria.
(Officers of the ordinary National Safety Voluntary Militia).

g) Gli squadristi "Marcia su Roma" e "Schiappa Littorio".

h) I fascisti comunque colpevoli di attentati alla libert  individuale.

(All fascists known to have been guilty of having repressed individual liberty).

3. This conforms with the practice adopted by the Italian Government.

SUBJECT:-- Arrests at Irsina

on 22nd September 1943

TO :-- Regional Commissioner -- Region 2 --

27th April 1944

On the night of 21st and 22nd September 1943 the German Troops who were stationed at Irsina left the town owing to the advance of the Allied Forces.

During the morning of 22nd September 1943, before the occupation of the town by Allied Forces, a number of persons organised a demonstration against a few people, who it was alleged had been friendly to the German Troops during their occupation.

A crowd of about 100 people went to the house of PALOMBELLA Domenico the secretary of the Commune of Potenza and succeeded in breaking into the house and stealing property including jewellery and finally destroying by fire the remaining effects and furnishing. In the meantime PALOMBELLA endeavoured to escape the crowd by way of the roof of his house, but ABBATICOLA Raffaele, caught him, forced him from the house and he was killed in the street.

Signora PALOMBELLA, (Mosca Maria Raffaella), wife of the murdered man, PALOMBELLA Concetta, sister, and PALOMBELLA Francesco, his son were beaten with sticks and wounded by knives by the crowd.

Carabinieri endeavoured to restore order, and arrest the offenders. It is alleged that the prime organizers of the crime were ROMANIELLO Ignazio and PAVIA Giuseppe both of whom absconded and have not been arrested.

The following persons were arrested for participating in the crime.

POTENZA	Gerardo	DIOGUARDI	Oronzo
CERVELLINO	Michele	VITOLLA	Gaetano
SILVANO	Domenico	PAVIA	Giuseppe
LENTINI	Andrea	SARDONE	Vincenzo
LAMINO	Michele	ABBATECOLA	Raffaele
LAGELIOTTI	Michele	SPANO	Vito
DI LILIO	Paolo		

The above named were conveyed to the Judicial Person, MATERA, denunciations prepared, and forwarded to the Procuratore del Re MATERA, they still await trail.

RINALDI Donato was interrogated by the CC.RR. for his part in the crime but was not denounced.

RINALDI Donato was interrogated by the CC.RR. for his part in the crime but was not denounced.

The crime was committed before Allied Forces occupied the town of Irsina, and before the institution of Allied Military Jurisdiction. The case must therefore be tried as an offence against Italian Penal Code and by the Italian Courts.

The Procuratore del Re has been called upon to explain the accused. *why the trial has not yet taken place.*
