Subject: Amendment III to DIL (Article 22) 159.

My dear Mr. Prime Minister:

Thank you for your letter dated 7 Sept on the subject of the amendment of Article 22 to DIL No. 159 dated 27 July.

You rightly point out that the circular letter issued by the Treasury in June has now been superseded by the decree and that therefore by law payment to all classes (including Marcia su Roma, etc.) of suspended officials should be made, pending a final decision in each case.

From this view I could not dissent in principle but in making my suggestion I was influenced by the possibility of unfavorable public reaction should your Government commence paying the classes of squadrista, etc., when no such payment has been made for 3 months.

If, my dear Prime Minister, you and your colleagues have fully considered this aspect of the case and are of opinion that there will be no such reactions or that they can be easily handled then, especially in view of the distress which may otherwise be caused, I am agreeable on the basis of Article 22 as it stands.

Will you please let me know your decision in this matter at once so that I may with the least possible delay give the appropriate instructions to my Finance Officers.

Yours very truly,

1. This is to confirm our conversation of to-day about the attached letter of 25 August 1944 Ref/421/30/CA.
2. It was suggested in our conversation that the request of the Regional Commissioner Region IV might possibly be considered by the Admin. Section. As their concern exclusively.
3. This may be the reason then that we have not had an answer from Admin. Section.
4. You suggested that we should do nothing about following up on original letter, for the time being.
5. However, to be certain that the request of the Regional Commissioner, Region IV is not forgotten I am marking our letter to Admin Section to be brought up on the 10th September.

TO : Administrative Section, A.C.C.

1. Attached is a copy of letter from Regional Commissioner Region IV dated 22 August 1944 R/2268.

2. It is not altogether clear what the Regional Commissioner is requesting. Our interpretation is that the Regional Commissioner is asking for approval of the reorganisation of the Confederation of Commercianti and for a release of the old funds to cover the expenses of such an organization.

3. May we suggest that this proposal of the Regional Commissioner's be brought to the attention of the Economic Section and that R.C. and M.G. Section be informed of the action recommended.

TO : Regional Control & Military Government Section
Headquarters, Allied Control Commission

1. It has come to the attention of this Headquarters that a decree concerning the reorganization of the Confederation of Commercianti has been submitted to ACC HQ for approval by Minister Granchi of the Ministry of Industry and Commerce. Mr. Storoni has been suggested as Liquidator.

2. Action on this suggestion is essential because at the present time the Rome Confederation of Commercianti is functioning, but funds of the old Confederation are not available to cover expenses already incurred, while at the same time a method of organization is not available to them and consequently they have no funds of their own. The problem is an increasingly serious one.

Headquarters, Allied Control Commission, APO 394

1. It is recommended that consideration be given to the extension of the decree of King's Italy in respect of increased allowances of certain persons, clergy et al. and family allowances by the amount authorized (70%) by General Order No. 5 to all provinces now under ACC control. In respect of Region V, these are Foggia, Campobasso and Chieti and the new provinces of Teramo, Pescara, Aquila, Ascoli-Piceno and Macerata.

2. Regional Headquarters has had a strong appeal from Foggia Province, which is in close touch with King's Italy territory. It appears that whatever grants are authorized should apply to ACC territory.

FROM ; AMG, FOGGIA PROVINCE.

The Official Gazette of 29 Jan 44, includes the Royal Decree No.19 which conceded an increase in the State payments to Clergy.

This HQ is being pressed for similar concession in this AMG Province. It is strongly recommended the increase be granted.

In general, may it be pointed out to ACC that any delay in extending Decrees to AMG territory involves the population of that part of Italy governed by AMG in a hardship which does not fall upon King's Italy - and thus provides local gossips with a complaint against our Government.

SALERNO 15 June 1944

SUBJECT: Modification of R.D.L. of 4/4/44 No. 111.

The laws regulating the functions of the "provincial deputation" and of the "Giunta Comunale" (art. 57 and 139 of Regulation No. 297 of the 12th February 1911 for the execution of communal and provincial laws) consent to the presence at the meetings of the substitutes composing these offices, but not to vote, however, unless the number of regular members is insufficient to render the meeting legal or unless the matters discussed concern them.

The substitutes therefore, are required to complete the number necessary to make decisions, and also take part in decisions regarding matters concerning them, but outside these cases their intervention in votes would annul the decisions.

The regulations are perfectly in keeping with the main principle of substitution, and the proposal of the Prefect and the Mayor of Naples to amend the R.D.L. of 4th April last, No. 111, conferring to the substitute members of the Provincial Deputation and of the Giunta Comunale the right to vote in every case, would obviously abolish that principle which is fundamental in Italian legislation.

1. The R.L.O., Region 1, has transmitted a letter from the Procuratore Generale at PALERMO of which a copy of the translation is enclosed.

2. This raises the question whether the particular Royal Decree should be made effective in BANTELLERIA in the same manner as this same decree has been extended to Military Government Territory on the mainland. Legally there would seem to be no reason why this should not be done in BANTELLERIA and also in LINOSA and LAMPEDUSA.

3. ^{This} ~~Message~~ brings up the larger question, which has not become necessary to consider previously because of the isolated location of these islands, namely whether the same decrees that have been or will later be extended to Military Government Territory on the mainland should be extended to these islands.

4. Your views on the specific and general question would be appreciated.

MINISTRY OF THE INTERIOR

SALERNO 27 April 1944.

File No. 2139.

To: The High Commissioner for Sicily
The High Commissioner for Sardinia
The Prefects.

SUBJECT: Administration of Comunes and Provinces.

The "Official Gazzette" No. 21 of 22 April has published R.D.L. 4 April 1944, No.111, concerning transitory regulations for the administration of Comunes and Provinces.

Because of the impossibility to proceed to administrative elections in the present state of war, the above mentioned R.D.L. charges the Prefect with the appointment of new provincial and communal bodies.

These bodies, although not elected by the people, must represent the will of the people.

Therefore, the Prefects when forming the "Municipal Boards", and the "Provincial Deputations", will not forget the political composition of the present government, and base on it the participation of representatives of the various parties in the two collegiate bodies forming the local administration. They will consequently choose a smaller or bigger number of representatives, according to the local efficiency of the different political organisations.

Article 7 of the mentioned R.D.L. prescribes that such elections must not concern whoever is at present in one of the conditions indicated in Article 1 of R.D.L., 28 Dec. 1943, No.29 B, regulating the "Defascistization" of the State administration and of Public Organizations. As already known, the list contained in such article, includes only those who, having belonged to the fascist Party, have obtained the qualification of "Squadristi", "Marsia su Roma", "sciarpa Littorio" and also some definite categories of "Gerarchi". The minor offices of the fallen Fascist Party - such as the Political Secretaries of towns with less than 50,000 inhabitants and the Chiefs of "Gruppi Rionali" etc. - are not included in such list.

Although the law has not decreed a condition of incapacity in getting public appointments for whoever has occupied the above mentioned offices, the Prefects will abstain of choosing whoever has occupied mainly political positions or has been involved in intense political activity, or whoever, even without having occupied any official position, has committed acts undermining civil liberties or is in general known by the public opinion as a profiteer.

In any case the choice must fall on elements of proved honesty so that the government of local agencies can function to the best interest of the people.

THE MINISTER.
