Full scale ration
do not allow all
the people of
hunger and even
though heavy stock

reports indicate that, in general, such scales have been available for years, it is not surprising that some restlessness and even under-estimation exists, especially among poor people who have not the means or influence to obtain more.

We cannot get a grant out of a pint pot. Supplies are strictly limited. The home food situation will be improved if General O'Dwyer succeeds in augmenting our inadequate transport by securing for ACC the allocation of coasters to assist in the move of local food surpluses on to Dublin to Rome.

1. In the abbreviated language of the weekly sitrep received to day from Region IV the position "Food" and "Supply" is described as "Bad". Last week the description was "causing anxiety". Furthermore it is added that "the people are generally undernourished and therefore restless".
2. Would you please say whether in your opinion these reports are justified and if so what action is being taken or is recommended to be taken in order to alleviate the situation.

SUBJECT : Food Situation Rome

TO : Lt.Col. Sharp, Economic Section.

1. Little can be added to the stock reports already forwarded to you, showing supplies received in Rome during August.
2. It may be of interest to note that nearly 40000 tons of imported foodstuffs have been received in Rome since the occupation. There is no reason why food full scale rations should be possible this month.
