10 March 1944

SUBJECT: Report for February 1944,

TO : Economic Section:

1. Supervised the repair of transmission lines - Frattamaggiore - Min-  
turno which will be used to transmit power to Rome. 2
2. Inspected transmission lines, substations and generating stations  
which have been damaged and made studies for their repair.
3. Placed orders for essential supplies required by the electric  
power system after screening. Expedited delivery where possible.
4. Studied the power supply for Rome and made plans for meeting the  
Rome power requirements. 1
5. Studied the possibility of rehabilitating the power systems of  
Italy by utilizing the equipment, material and labor available in Italy, tog-  
ether with the minimum amount of imported supplies. Studies included the  
situation as it now exists, as it is estimated to be after the further advance  
of our armies and as it is estimated to be after the termination of the war  
in this theatre. 1
