NAPLES

Yesterday, 27th.inst., at about 1800 hours, I was proceeding with Captain Mancuso along via Constantinopoli as I had to go to the H.Q. at Cavour Barracks.

When I had reached the Military Hospital occupied by the American Forces, in that same street at No. 107a, and not being able to distinguish whether the guards at the entrance of the said Hospital were Italian or formed part of Allied Forces - I am blind in one eye and the other has poor vision - and hearing Italian spoken, I approached the guards politely, giving the military salute, and asked them whether they could tell me where the Italian Air Force H.Q. was situated and whether - as I thought - an Italian airman had entered there.

By way of reply I was struck with the fist in my left eye by an individual whom I subsequently found to be of American Nationality.

The first blow was followed by many others as four more individuals of the same nationality joined their comrade.

I was unable to oppose any resistance as I would have liked, being absolutely blinded and because of loss of blood from mouth and nose which upset my faculties.

One of our Sergeants, of whom I do not know the name, came to my assistance. Subsequently an American Military Police intervened who, instead of protecting me as might have been expected, or attempting to put an end to the blows which were raining on me from all sides, having had it explained to him that I am a

Captain Mancuso, who was some ten metres away, attempted to come to my help but when he reached me all he could do was to take me by the arm, pick up my cap and glasses and lead me elsewhere.

1. Reference your 010.5 of 20 March.

2. Control of Movement. In Italian Government Territory free movement of civilians is allowed except that Railway travel is restricted to persons having permits from the Italian Police. The Italian Government is, however, in course of issuing identification documents and all civilians will be required to produce these documents before they can move by rail or road.

3. Curfew. The original Curfew restrictions of July 25, 1943 are still in force in Italian Government Territory but they are varied by agreement between the British Authorities and the Italian Local Authorities through A.C.C.

4. Possession and use of Radio Receiving sets. A Fascist law controlling the use of private receiving sets capable of being tuned in to foreign stations still exists but since the Armistice has not been enforced by the Italian Government.

5. Arms and Ammunition. A Law of June 18, 1931 is still in force in Italian Government Territory in regard to Arms and Ammunition. The main provisions are:- 3098

(a) Sale and purchase of arms and ammunition has to be notified to the Police.

(b) Licenses from the Police are required for the carrying and possession of arms and ammunition for personal protection and sporting purposes.

6. Registration of Aliens in Italy. Registration of Aliens is being undertaken by the Displaced Persons Sub-Commission. Good progress is being made. Regional Commissioners are to be asked to send in returns of all aliens in their areas.

1. I think this is the camp that was the subject of a report forwarded by you to us under cover of your letter No. MIS 254 of the 11th March.

MATO JAKSIC, representative of the Regional National Liberation Committee of Dalmatia.
Dr. SLOVEN SMODLAKA, secretary to the Foreign Secretary of Yugoslavia.

TO : Admin. Section - For Legal Sub-Commission.

1. The attached copy of a revised draft sent forward by Region III, who proposed to issue it as a Regional Order, is forwarded.

2. I have discussed this order with Col. Young of Public Safety Sub-Commission who is in agreement with the draft but considers that it should apply to the whole of AMG territory. He also thinks provision should be made to exclude refugees who are temporarily residing in camps set up under A.C.C. control. If this is done the matter of registration of these refugees after they leave the camp can be taken up separately with the Italian Refugee Branch.

3. I am in agreement with Col. Young's suggestions. The situation appears to be the same as the recent proposed order by Region III on the subject of publications. Would you please let me have your comments on this proposed order.

SUBJECT: Hunting Parties organised by civilians in GARGONA PENINSULA.

TO : H.Q. Allied Armies in Italy.

1. The question of security in connection with hunting parties was originally raised in North Africa through parties approaching the restricted frontier zone on the Moroccan border. You will see from correspondence in the accompanying file that AFHQ consider the matter in North Africa to have civilian reperaussions and passed it to MEB. MEB have now forwarded the matter to this H.Q. since they think that the GARGONA Peninsular is also affected. This matter appears to have been drawn to their attention by H.Q. 12th Air Force (see Tab "B" in file).

2. The Public Safety Sub-Commission have been consulted on this point and it is thought that any orders regarding the proposed control of hunting parties are primarily a military concern and should be issued by your H.Q. Would you please say whether you agree with this so that I can reply to H.Q. A.C.C. letter of 26 March. May the file please be returned with your reply.

Reference A-1/1st/10/1 (Ib) dated 26 March 1944

1. I fully appreciate your concern on the problem of civilian movement having regard to the security responsibilities existing at the present time. I am entirely sympathetic with your views and assure you that this Commission will do everything possible to assist.

2. The present policy of this Commission in liberated Italy is to ensure as far as possible a full resumption of the normal economic life unrestricted by movement control orders which experience has shown cannot be satisfactorily enforced over so large an area.

3. I understand that this subject was recently discussed between your Lt.Col. Hibbon and Col. Young of this Commission, when it was agreed that the introduction of "ramp" control points throughout all areas should be limited without any re-introduction of movement control or passes would provide a satisfactory solution. Subject to your agreement I would suggest that such controls be operated by your Field Security Sections assisted by local Carabinieri. If this proposal is acceptable to you I will see that the Carabinieri Command is informed so that its officers are prepared to cooperate in these duties. Instructions have already been issued to SCAO's of Fifth and Eighth Armies asking them to afford you every possible assistance in their power.

SUBJECT: Proposed Regional Order No.33.

TO : Regional Commissioner, Region III.

1. In reply to your letter on the above-mentioned subject of 23 Mar 44, the matter has been looked over very carefully at this H.Q. and has been submitted to the Legal Adviser at Salerno for comments, which has accounted for the time taken in replying.

2. It is felt that although instructions from the Combined Chiefs of Staff recently received have indicated that a more liberal policy should be adopted in granting permits for political meetings, the order proposed by you goes rather further than was intended. The C.C.S. directive permits attendances at "meetings of Political Committees.... and such other activities of a similar nature as you may deem to be advisable". Such meetings are, however, all governed by the opening words of the directive, namely, "within your discretion".

3. The Regional Order proposed by you runs directly counter to this directive because the discretion as to the holding of the meetings is to be vested in the Questore (see Art.II, Sec. 1 and Art. III) and NOT in the Allied Military Government; the real effect of the order is to divest the Allied Military Government of discretion in the matter, nor is it any answer to this to say that a copy of the permit is to be sent to the Provincial Commissioner (Art.III, Sec. 1), for the person, under the order, to exercise the discretion is the Questore and not the Provincial Commissioner.

4. It is felt by this H.Q. that the Italians should understand that meetings are held only at the discretion of the Allied authorities, and it is therefore regretted that it is not possible to agree to the publication of this order.

To : Chief Commissioner.

After the meeting of 18th March to discuss labour and the threatened strike of electrical workers, I wrote the summary of the decisions to H.Q. A.A.I. (at Colonel Adams' suggestion), copy attached. I have received the attached answer from General Robertson.

I am afraid my own letter was not very tactfully worded but the reactions of the C.A.C. do not appear to be very helpful. Our representative on the Local Resources Board can, I think, iron the matter out at their next meeting on 3 April 1944. Our representative on this board is Col. W. S. Evans.

Lt. Col. Henry Parkman, Jr.
Acting Chief of Section
A.F.H.Q., M.G.S.

Dear Colonel Parkman

Your letter reporting the good news of favorable action on the promotion of American officers was very reassuring and deeply appreciated.

Since promotions have been opened, we are receiving recommendations for promotion from all Regions and Heads of Subcommissions of A.C.C. We are attempting to make our recommendations cover all deserving officers in the same grade at the same time, starting with Second Lieutenants. This seems to be fairest to all concerned and will eliminate much misunderstanding caused by the promotion of officers with less service who have done no better job than the officer temporarily passed over. We are actually checking the recommendations against the rosters to ensure that no one has been overlooked.

It is believed that it would be much more equitable to consider all recommendations as a whole rather than to consider separately the small group previously recommended by Colonel Spofford. In some cases the officers recommended by Colonel Spofford have insufficient service in grade to be favorably considered by NATOUSA, who are measuring length of service of non-combatant branches against the average length of time spent in grade by officers of the Fifth Army. In other cases, Colonel Spofford's recommendations are based on AMG service only and there are many officers who have had much longer service in grade, most of which was in other organizations. Some of these other officers have been previously recommended for promotion but were transferred to ACC/AMG prior to receiving the promotion. These officers deserve early consideration in the same category as the officers who have had longer service in AMG.

3017

We will furnish you lists of officers recommended from time to time and appreciate your interest and assistance in getting favorable consideration for them.

Sincerely,

NORMAN E. FISKE

TO : HQ, Allied Armies in Italy, G.I.B.

a. Civil telegraph services in areas where postal services are permitted.

At the moment, civil telegraph services have been authorized within the ten provinces (Bari, Brindisi, Taranto, Lecce, Potenza, Salerno, Matera, Catanzaro, Cosenza and Reggio) and within Sicily and Sardinia, and from the ten provinces to Sicily (not to Sardinia). It is now desired to extend this to include Naples City and Avellino Province, and shortly to include Benevento Town, up to the line agreed for postal services.

b. Civil telephone services.

(1) Within Provincial boundaries
(2) Inter-Provincial

At the moment, civil telephone services are permitted within urban areas only. It is considered that it might now be authorized within Provincial boundaries, and inter-Provincial in some or possibly all areas.

2. Before any action is taken, after your authorization, it will be confirmed that whatever censorship restrictions you require can be effectively applied and that there is no objection to the traffic load from the point of view of the military signals concerned.

TO: Lt. Col. Shipp.

Per your request of 27 March for comment on Administrative Instructions Nos. 18 and 19 of Region III, the following is made:

1. Admin. Instruction No. 18 has been referred to Legal Sub-Commission for suggestions and comments. It is the view of the writer that such cases should be handled by the Italian courts, as they hold primary jurisdiction, and such cases only tend to increase the work of our courts. Region III tried over 4,000 cases in February. Commenting of para. 2 of this directive, the definition of a "prostituée" is considered poorly worded and inadequate, in the writer's personal opinion.

2. Admin. Instruction No. 19 is considered sound, and meets the need of a situation, all to prevailant among Italians to evict present tenants of property in order to raise rents on prospective new tenants.

SUBJECT: Rations for Civil Police

TO : Regional Commissioner, Region III

1. The basic ration for police agencies, other than CC.RR. and Guardia di Finanza, has been reconsidered. The Executive Commissioner does not agree with the recommendation of putting the agents of PS and Metropolitani, the Municipal Guard, the Forest Guards, the Prison Guard and the Fire Brigade on the same ration scale with the CC.RR.

2. Because the situation clearly requires some readjustment, it has been suggested that these Public Safety organizations be put on the Heavy Worker Ration which consists of the following:

275 Grams of bread per man per day
30 Grams of dehydrated soup per man per day
700 Grams of Pasta per man per week

3. The Director of the Labor Subcommission has approved this solution but advises that the cost of this Heavy Worker Ration is as yet undetermined.

4. In the event that such an adjustment is made, the Heavy Worker's Ration is to be used in place of what ever ration is now being issued and not in addition to it.

SUBJECT: Railway Disaster at BALVANO.

TO : Director-General, Allied Military Railway Services.

1. With regard to the recent disaster in the tunnel at BALVANO, it has been drawn to the attention of this H.Q. by the Regional Commissioner, Region II, that there have been other incidents, some of them fatal, of the same nature over the previous few months.

2. For instance, on March 6th a train stalled in a tunnel close to the Railway Station of CAMPOMAGGIORE, Potenza Province. The train was reversed and backed from the tunnel but the firemen and engineer of the locomotive collapsed from the effect of the fumes and the fireman later died.

3. On March 7th a troop train proceeding from SALERNO to POTENZA passed through these tunnels without stopping but at a low rate of speed. Three soldiers collapsed from the effects of the gas fumes but were revived.

4. It is also reported that there have been other cases of members of train crews having died during the past few months from the effect of fumes.

5. If these reports are correct it would appear that the BALVANO disaster was not an isolated incident. No doubt this matter is being considered by you from the point of view of danger to military passengers, and it would be much appreciated if an expression of your views on the likelihood of a recurrence of such an incident might be given.

SUBJECT: Use of Explosives for Fisheries.

TO : H.Q., A.A.I.
Army Sub-Commission (Main)

1. It has been brought to the attention of this Headquarters, that both Allied and Italian military personnel in the Naples area have been using various forms of explosives off the beaches and in certain salt water fish rearing ponds, namely Lake Lentini at POZZUOLI and Lake Fusaro at BAIA, for the purpose of obtaining fish.

2. Fishing Regulation No.7 issued by AMG Provinces of Naples states "no explosives may be used for fishing or carried in any fishing craft".

3. Since, as is well known, the use of explosives has a permanent damaging effect on fishing grounds, it is requested that you issue orders to ensure that this practice will cease.

SUBJECT: Naples Marine Zoological Institute and Aquarium.

TO : Economic Section, Finance Sub-Commission.

1. On February 1st A.F.H.Q. was advised by this H.Q. that the research programme of Dr. Montalenti, Professors Ranzi and Paloski, also bibliographical work by social professors at University of Naples could not be carried on without financial assistance. Also that the Aquarium could not be made available to the general public owing to its financial situation. It was suggested that a financial grant from the Royal Society of England would be acceptable, and that this grant would be operated through the Regional Finance Officer on an approved budget.

2. This date we are advised that the Royal Society will remit up to One Thousand (£1,000) Pounds through the Bank of England and Bank of Sicily to the Director of the Aquarium. It is further stated that it is assumed the Regional Finance Officer can arrange the necessary control of the disbursements through the Bank of Sicily, Naples, to ensure conformity with the approved budget.

3. Col. Neilson, Regional Finance Officer, has been contacted by telephone and he advises that when this matter was brought to his attention some time ago, he was of the impression that no funds would be available from the Royal Society and the matter was closed. He further advised he knew nothing of an approved budget, or how the same might be arrived at.

4. This matter is referred to you for appropriate action, and you are requested to advise this office of what action is taken.

2. It was there agreed that returns on petrol supply bids be rendered quarterly and not monthly.

3. Petroleum Section, Admin. Sch., A.A.I. has now represented that from further experience the only possible method of maintaining control of so vital a product is to receive as much pertinent information regarding it as frequently as can possibly be effected.

4. It has therefore been decided that returns on petrol supply bids must be rendered monthly in accordance with previous instructions.

5. It is also pointed out by Petroleum Section that there is considerable variance in figures submitted especially in the relation of lubricating oil requirements to petrol or diesel oil consumed.

The following is therefore given as a guide:

SUBJECT : Personnel - Displaced Persons Sub-Commission.

TO : A.A.I., Admin Hq.

Reference your 3010/2/A(O) dated 19 Mar 44.

1. There is no fixed Establishment for the Displaced Persons Sub-Commission. All personnel for this Sub-Commission are found from the Global W/E of the Allied Control Commission, and are allotted as required.

2. I wish to point out that there is, in Allied Control Commission, a very great shortage of Clerks. We have now 225 against a War Establishment of 498. Against this there is a surplus of General Duty personnel. The extra General Duty men are all required, as the Food, Italian Refugee and Displaced Persons Sub-Commissio, are all operative; whereas the present W/E was made up on the basis that the functions of the Allied Control Commission would be advisory and supervisory only. The situation will, it is hoped, improve as more Italian personnel become available. There are however, certain duties - e.g. Displaced Persons Sub-Commission, for which it is not desirable to employ Italian personnel only.

3. We have at present attached to the Displaced Persons Sub-Commission a number of Officers and O.Rs. on loan from the Prisoners of War Sub-Commission. M.G.S., A.F.H.Q. has asked for a list of Officers and Other Ranks whom we wish to have transferred to Allied Control Commission from the Displaced Persons Sub- Commission. For your information I attach hereto list showing :

225

List (a). Officers whom it is desired to retain and who should be posted to the Allied Control Commission. A similar list has already been sent by cable to M.G.S., A.F.H.Q.

List (b). Officers for whom there are no vacancies and whom it is not desired to retain. This list has not been sent to M.G.S., A.F.H.Q. I suggest that you have these Officers posted elsewhere.

4. I shall be glad if authority may be given for the retention of the Officers in list (a) pending a decision from A.F.H.Q. as to their disposal. They have all their own appointments in the Displaced Persons Sub-Commission organization, which has been built up with their help and they have now learned and got into their work.

Executive Commissioner.

1. Please forward to this H.Q. to reach this H.Q. as soon as possible after the dates stated below in this para. a location statement showing the location of your officers as at the 1st and 15th of each month. The information should be, if possible, in the form requested in letter No. AG1/7/2/5 of 27 Jan 44.

2. The exact form in which it is rendered will probably depend on existing security regulations in the Army concerned. It may not be possible for instance, though it would be desirable, to give the name of the formation to which an officer was attached as well as the location of that officer.

2. Consideration should be given to the establishment or increase if already in existence of check posts by the Carabinieri, or Guardia di Finanza, near points where roads and railways cross Provincial boundaries. These need only be manned for a few hours daily at irregular times.

March 3, 1944

TO: Military Government Section, AFHQ

SUBJECT: Repatriation of American Nationals in Italy.

1. With reference to the Military Government Section's communication of February 28, concerning the disposition of persons claiming American citizenship in Italy, the Department of State has not, in view of present transportation problems and other physical difficulties, evolved any general program of repatriation for American nationals in Italy.

2. If it is apparent, in certain specific cases, that continued stay in Italy will result in extreme hardship, the appropriate officers of the Department of State will be glad to consider possible repatriation. However, consideration would be made only in cases of persons who have been caught in Italy by the outbreak of war and forced to remain by circumstances beyond their control. Repatriation will not, except under most unusual conditions, be undertaken in cases of persons who were residing outside the United States for a considerable period prior to the war.

3. The above policy as outlined is an interim one and will be reconsidered when conditions are more propitious for civilian travel to the United States.

4. With reference to the specific cases which are mentioned in the Military Government Section's letter under reference, the Civil Affairs Section has fairly complete information concerning these three men from the Prisoner of War Sub-Commission's report of January 17. In this regard, it does not appear that any of these men would be eligible for repatriation under the general lines of paragraphs 1 and 2 above, particularly if they are able to obtain employment in Italy.

Concerning the citizenship of these men, it appears from the evidence given that Angelo A. PONTILLO and John Z. BE ASICH are probably entitled to consideration as American citizens if their indentity is established. As such they might apply for relief payments under the plan outlined in the enclosure to Civil Affairs memorandum to the Military

Government Section dated March 1 relating to relief payments to American nationals, provided they are totally without funds and unable to obtain gainful employment. With reference to the case of John LACKLAND, since no documentary evidence relative to his citizenship is available, this office has undertaken to communicate with his parents at the address given to obtain further information. If his claim to American citizenship by birth is substantiated, he may be registered under the Selective Service Act and be liable for induction in this theatre if otherwise eligible. Otherwise, he may either obtain employment or apply for relief as outlined above.

1. The Public Health Subcommission has requested that we extend such facilities as may be practicable to Provincial Veterinarians in connection with the vaccination of livestock which is normally accomplished during April, May and June. Provincial Veterinarians are responsible for the institution and execution of a program whereby all livestock in their provinces will be vaccinated against the most prevalent infectious diseases, with special emphasis on those transmissible to men.

2. The Subcommission suggests that Provincial Veterinarians will require some form of motor transport about two days each week during the months of April, May and June and one day each week thereafter.

Ref/125/18/CA. 23 March 1944.

SUBJECT: Powers and Rights of Allied Forces and Allied Military Government in Unoccupied Italy.

TO : See Distribution Below.

1. HQ. A.A.I. (Admin. Echelon) C.M.F. has issued an Administrative Instruction to all Military formations outlining the situation in general terms and substantially as stated in memoranda from this HQ dated 23 Jan and 31 Jan already in your possession.

2. The following extracts are quoted for your information :

(a) Although there will be officers of the Allied Control Commission in unoccupied ITALY they will be there to advise and control the Italian Government and not as governors. One of the most important functions of the Regional and Provincial Officers of the Commission will be liaison between Allied Military formations in the area and the Italian administrative officials. All but the most routine dealings between the Italian administration and the Allied Military authorities must be conducted through the Commission. When the Italian Government is directly represented on a control board or committee, the Military may, of course, deal directly with that organisation without the intervention of the Commission.

2887

(b) Requisitioning.

The Allied Forces have retained the power and right to requisition private and public property and services in unoccupied ITALY - this right must be exercised sparingly and only for reasons of genuine military necessity. This right will be exercised through the Italian authorities. If, for example, a building is needed by the military it should be requisitioned through the Sindaco of the town where the building is situated, with the assistance of the Provincial Officer of the Commission. The usual formalities of requisitioning used in occupied territory should be strictly followed in unoccupied ITALY. The property of dissolved fascist societies must not be seized without giving a receipt and then only if required for reasons of military necessity.

(c) Allied Military Courts.

Military Government in Unoccupied Italy.

The usual formalities of requisitioning used in occupied territory should be strictly followed in unoccupied ITALY. The property of dissolved fascist societies must not be seized without giving a receipt and then only if required for reasons of military necessity.

(c) Allied Military Courts.

As the Proclamation of the Military Governor ceases to operate in unoccupied ITALY, all crimes will normally be tried under Italian law and in Italian courts. The Allied Forces, however, have reserved to themselves the right to hold Allied Military Courts in unoccupied ITALY for the trial of civilians who commit acts seriously hostile [illegible] to the Allied Forces and to punish them in accordance with the Italian Penal Codes.

The reservation of this right is not intended to encourage the trials of civilian offenders by Allied Courts but only to deal with the most serious offences against Allied personnel or property which cannot be properly dealt with by the Italian Courts. If such an offence has been committed the Military Authorities should give a full statement of the facts to the local representative of the Commission with the request that an Allied Military Court be convened to hear the charges. It will be the responsibility of the Commission to frame the charges and constitute the Court.

Declassified E.O. 12356 Section 3.3/NND No. 785012

Consequent on reservation of the power to try such offenders there is reserved to the Allied Forces the power to arrest persons who are believed to have committed such offences. High ranking Italian officials and officers of the Italian Armed Forces should, however, only be arrested in collaboration with the appropriate Italian official (e.g. the Prefect or the Commanding Officer of the officer concerned). In all cases of arrest the agreement of the local officer of the Allied Control Commission will be obtained beforehand, except in an emergency, when he should be informed immediately after the arrest.

(d) The right is reserved by the Commander-in-Chief to declare specific areas in unoccupied ITALY to be Military Zones. Should the situation in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ. A.A.I. giving full reasons to justify his view. It may happen that the local Italian authorities may ask for the assistance of Allied troops in quelling civil disturbances. If such request is made the local commander will point out that the quelling of civilian riots or disturbances is a matter for the Italian Administration and he will refuse such assistance unless he is of the opinion that it is necessary for the protection of Allied Military interests. Before rendering such assistance the local commander will warn the local official requesting his assistance that the territory in question will be made forthwith an Allied Military Zone. If time permits the local commander will consult the local officer of the Commission before giving assistance.

(e) Prisoners of War and Civilian Internees.

The Allied Forces may continue to hold or require the Italian Government to hold in Custody military or civil prisoners of war in unoccupied ITALY. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with Italian officials unless in any particular case it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all cases, except in emergency, the local officer of the Commission must be informed of the intention to make any such arrest, whether by the Allied or Italian authorities. If he is not in agreement the matter will be referred to higher authority. Normally such persons will be detained in 371 P.W. Camp.

(f) Process in Italian Courts.

No member of the Allied Forces may be prosecuted or sued in Italian Courts.

(g) The agreement now reached with the Italian Government makes the rights of the Allied Forces in the Provinces of Apulia identical with their rights in the areas recently transferred from Allied Military Government to Italian Government.

The instruction emphasises that except where, in emergency, immediate

(f) Process in Italian Courts.

No member of the Allied Forces may be prosecuted or sued in Italian Courts.

(g) The agreement now reached with the Italian Government makes the rights of the Allied Forces in the Provinces of Apulia identical with their rights in the areas recently transferred from Allied Military Government to Italian Government.

3. The instruction emphasises that except where, in emergency, immediate action is required by the Allied Forces for their own protection and security, all action required from the Italian Administration should invariably be taken through the medium of the Regional or Provincial Commissioner.

It is further notified that where immediate action is taken without previous reference to the Allied Control Commission for emergency reasons, the appropriate officer of the Commission will be informed as soon as possible.

4. It will thus be appreciated that HQ. A.A.I. are seeking to obtain the fullest co-operation between military commanders and the Allied Control Commission. It should be your constant endeavour to reciprocate.

3. We were asked to reply as soon as possible after consultation with Jefferson of the American Red Cross. A memorandum from Captain Peyton dated 21 st March shows that the matter was bandied about from officer to officer for 11 days before a reply was sent. Eleven days is a long time for a person denuded of clothes to wait. Can something be done in such cases to hasten replies.

Regional Commissioner, Region II

Dear Colonel McCaffrey:

Captain R. M. F. Hawkin, who is now your Provincial Commissioner at Taranto, is due to return to the U.K. In the effort to find someone to replace him I have asked the War Material Disposal Subcommission to release Lt. Col. F. H. McCleary. I do not know him personally but from inquiry here he strikes me as being the sort of man you could use on that job. I am appending a penciled memorandum of his service.

The Subcommission does not wish to release him for another two weeks. I should like, therefore, to have your views as to whether or not you wish to have him assigned to you as replacement for Captain Hawkins.

SUBJECT: Control of Movement.

TO : H.Q. Allied Armies in Italy.

1. In reply to your ACSF/1401/10/G(Ib) of 11 March 44, it is regretted that our circular letter on control of movement dated 12 March 44 and numbered 316/16/CA crossed your letter and appeared to conflict with your intentions.

2. It has always been the object of this H.Q. to render as much assistance as possible to the Army with the civil police at our disposal, but it is felt that complete restriction of movement between Provinces is not possible to enforce. Even in England, with an orderly population and efficient police force, this is not possible, and it is felt that in this country where the reverse obtains that it should not even be attempted, since the issue of orders which it is not possible to enforce will only bring authority into disrepute.

3. To this end therefore an order was issued lifting the restrictions on the movement of civilians in AMG territory south of the rear Army boundaries. It was also felt that this resumption of movement was essential in order to restore the economic life of the community, but a check has still been retained on vehicles.

4. Instructions will be issued to S.C.A.Os. 5th and 8th Armies requesting them to enforce most strictly the ten kilometer limit, and to Regional Commissioners to establish as many check posts as possible, in accordance with the requests contained in para.5 (a) and (b) of your letter. It is hoped that these steps will be considered sufficient without restoring the previous restrictions on movement, which for the reasons stated above would be against the policy of this H.Q.

EXECUTIVE MEMORANDUM)
:
NUMBER 42)

19 March 1944.

FINANCING OF OPERATIONS OR PROJECTS IN WHICH SUB-COMMISSIONS HAVE AN INTEREST

1. This memorandum will outline the procedure to be observed by all Sub-Commissions in the financing of operations or projects in which they have an interest.

2. In territory now under the control of the Italian Government (Regions I, II, VI and Salerno Province in Region III), the Finance Sub-Commission does not consider requests for funds for individual purposes. The Finance Sub-Commission exercises control over Italian Governmental expenditures through an examination of the Italian Government's consolidated budget covering all Governmental activities. Accordingly, the provision of finance for particular purposes should be discussed by the interested Sub-Commission with its opposite number in the Italian Government. When the Sub-Commission and Ministry concerned are in agreement, the Ministry will then arrange with the Minister of Finance for consideration of the item with a view to its being included in the Italian Government's consolidated budget.

3. In territory under Allied Military Government (Regions III, IV, V and the two Army areas) a Sub-Commission interested in a particular project involving expenditure of funds should, in conjunction with the appropriate Regional officials, consult with the Italian official or Governmental agency having jurisdiction over such work or activity in the Region. When it has been agreed that the proposed expenditure should be undertaken, it will be the responsibility of the appropriate Italian official to include such expenditure in the proper budget (State, provincial or communal). Control over the total volume of expenditure is obtained through examination of such budgets by Regional Finance Officers.

4. Nothing in this instruction shall be deemed to alter the procedure in effect in forward areas under control of AMG Fifth and Eight Armies, in those circumstances where direct AMG finance has to be provided.

1. I am directed by the Chief Commissioner to refer to your MGS 601 of 15 March 1944 and to ask that correspondence on this subject should be addressed to the Allied Control Commission at whose headquarters distribution will be affected.

2. Put briefly, the urgency of operational needs is pressing. The attitude of the ecclesiastics at a low level, i.e. Bishops, is co-operative; at a higher level, i.e. Archbishops, it is obstructive. Alternative accomodation at Molfetta is definitely available and at Benevento probably available; the prospect of successfull negotiations is nil unless further instructions to the Archbishops are sent from the Vatican. In my telegram 2130 of 15 March I have already asked you to do this.

3. Broadly speaking, the Archbishops realise that we do not intend to use force and are playing a game of bluff. The result is as you say that the seminaries are not being placed at the disposal of the medical authorities.

7.Mar.44.

Some notes on the 3 District Conference about the cleaning of towns have been sent to you under our letter 196A dated 2 Mar. I hoped that after the Conference we should have been able to send you something a bit more helpful, but the more I think of it the more it seems to be a matter of District, Area, Town Majors and units - or groups of units - forming their own committees and getting down to it with the local Italian authorities. I am very keen too that these committees should deal not only with cleaning up their towns and villages, but should also supervise all anti-malaria activities. If we have two sets of committees for these two purposes there will be over-lapping and waste of effort.

Col STOTT of 1 IRTD has made a most successful start on cleaning up his local villages and I attach some notes from him as to how he has set about it.

I am trying to find out from AMG/ACC exactly the legal action we can take against Italian civilians who fail to obey the sanitation regulations, and will let you know the answer.

As to extra pay for Italian sanitation personnel, Col CRICHTON, Director of Public Health, Region III, has undertaken to go into this. But it will take time and I am sure the immediate answer is for units to engage local labour on the authority of Area Commanders as described in para 3 of Stott's letter.

I shall put down cleaning/anti-malarial work on the agenda for the next Commanders Conference so that Area Commanders can make verbal reports as to the progress achieved, difficulties encountered and new suggestions for coping with the problem.

1. The G.O.C. is much concerned with the state of cleanliness existing in the towns and villages in the District. Almost everywhere there are dumps of refuse, decaying vegetables and filth. In a few weeks time the weather will be getting warmer and these dumps will prove a ready breeding ground for flies.

If the health of the troops is not to be impaired, it is essential that steps be taken NOW to clean up all towns and villages where troops are stationed. This can only be done by every officer and other rank doing his bit. The excuses that a unit is only in temporary occupation or that it is already too busily employed will not be accepted. Man power is much too valuable to run any risks with, an extra hour or two of overtime now may save three or more weeks in hospital later.

2. Existing arrangements.

(a) Military. Units are responsible for cleaning up their own billets and for burning or burying refuse.

(b) Civil. In towns there was in peace a system of street cleaning and garbage collecting under the Podesta. In NAPLES this system has been revived by ACC and PBS and some progress has been made, but not enough. In country towns and villages, although ACC have issued instructions, very little clearance of refuse has been done. The difficulties are:

(i) Shortage of man power
(ii) Low wages
(iii) Lack of transport to remove refuse
(iv) Uncontrolled dumping by householders

2841

3. Action to be taken on military premises.

(i) Cleanliness of billets is of course a first essential in any unit. It is not enough to have the billet itself clean, the area around it must be clean too. This area must be increased as much as possible.

(ii) Rubbish dumps are not always well sited, units must make sure they are well away from billets and that rubbish is always taken to them. Incinerators must be constructed and pits dug.

(ii) Rubbish dumps are not always well sited, units must make sure they are well away from billets and that rubbish is always taken to them. Incinerators must be constructed and pits dug.

(iii) The troops must be told of the reasons and necessity for cleaning up and keeping billeting areas clean.

(iv) The unit Anti-Malarial squad can combine this with their other duties and they can do a lot to help, but they will require considerable assistance, especially at the outset.

(v) It is permissable to engage labour and clean up areas round billets. These labourers must be properly supervised, or they may merely move the refuse out of sight.

4. Assistance to Civil Authorities.

(a) All units must be prepared to afford some assistance to the Civil Authorities. This can best be done by forming small committees to discuss the best means of help. The committee should consist of:

The Town Major or where none exists.
The senior military officer
A medical officer
Civil Affairs Officer
The Italian Mayor

(b) The loaning of transport by units for carrying refuse is obviously unpopular, but it will have to be done.

(c) Units must insist that their recommendations are carried out by the Italian authorities; only by frequent repetitions can any result be achieved. Civil penalties exist for civilians who fail to carry out instructions given by both ACC and Military authorities. Details of these will be forwarded later.

(d) The GOC on a recent visit to the IRTD CERVINARA saw an example of what can be done to clean up villages. Notes on the methods employed will be forwarded, but a personal visit to the IRTD would be of even more value.

5. Combination of Hygiene and Malaria Committees.

The work of Hygiene and Malaria Committees is so inter-related that they should be regarded as one and work as such.

6. In order to keep a check on progress it will be necessary for monthly reports to be made. These reports should contain:

(a) A survey of work carried out.
(b) Amount of transport that has been used. How difficulties in its provision have been overcome.
(c) Details of extra labour employed.
(d) Any recommendations and suggestions.

7. It is again emphasised what a potential danger to the health of the Forces exists in the present filthy conditions. Every officer and other rank must be told of this and of the necessity for helping all he can to get things better.

Colonel, IC Adm.

SUBJECT: British and American Red Cross.

TO : All Regional Commissioners & S.C.A.Os. 5 and 8 Armies.

1. For the guidance and direction of all officers of the Allied Control Commission, this directive sets forth the relationship between ACC and the American and British Red Cross Societies.

2. The assistance of the American and British Red Cross Societies is on a voluntary basis. Both groups are distributing clothing through indigenous welfare agencies, with the aid of the Italian Red Cross. The Red Cross Socieities have accepted the responsibility of supervising distribution and performing such welfare activities among the needy populace as ACC may direct. Red Cross participation is of a temporary nature, since it is desired to have local agencies ready to assume the responsibility of caring for themselves in a very short time.

3. Red Cross personnel, assigned to assist ACC in the discharge of their responsibilities are not to be placed in charge of any set program. Red Cross personnel are under the direction of the Allied officers to whom they are assigned and will take orders within the framework of Red Cross policy, reporting regularly to the officer responsible for their work as to the progress or completion of the assignment.

4. One member of the Red Cross staff in each Region will be designated by the Red Cross Director as Regional Supervisor. Through him submissions of reports to Red Cross office will be made. It is understood that the contents of such reports will have been discussed with ACC officers before the Supervisor submits them to Red Cross Headquarters. The Supervisor will also have the responsibility for clearing with ACC officers the details of service in his Region. A member of the Red Cross staff attached to the Italian Refugee Branch, or to the Displaced Persons Sub-Commission, will be designated by the Red Cross Director to undertake similar duties to those of the Regional Supervisors. 2840

5. Red Cross workers will participate in the following :

(a) Joint preliminary planning, for present and future relief operations, in cooperation with ACC.

(b) Surveys of relief needs in cooperation with divisions of ACC (particularly the Sub-Commissions of Public Health and Welfare and Displaced Persons, and the Italian Refugee Branch of R.C. & M.G. Section).

(c) Assisting and advising with ACC on specialized relief projects, particularly with women and children and civilian hospital service

VISITS OF ALLIED JOINT COMMISSION PERSONNEL TO ARMY AREAS AND REGIONS.

420

Visits to Army Areas will be limited to official business and, in the case of personnel not posted/assigned or attached to AMG 5 or 8 Armies, will not be made without prior approval having been obtained from either S.C.A.C. 5 Army or S.C.A.C. 8 Army.

Personnel who have received permission to visit the Army Areas are reminded that they must go there in transport suitable for any touring that they may have to do there. S.C.A.C's 5 and 8 Armies cannot provide Jeeps for visiting officers.

Personnel visiting Regions and Provinces should wherever possible give prior notice, especially if they wish to be present at any H.Qs. for meals or to spend the night. They will always report their presence and their activities to the senior officer of any Region or Province in which they are working.

Accommodation is very limited, especially in the Army Areas, and officers must take rations and bedding with them.

SUBJECT: Enlistment into Carabinieri.

TO : Admin. Section for P.S. Sub-Commission.

1. The following letter has been received from Region VI Sardinia :

"An investigation of the position shows that in Sardinia 43 members of the Highways and Port Militia have been admitted into permanent service with the Carabinieri.

They are disposed as under :

At CAGLIARI:	1 Capitano	At OLBIA:	1 Maresciallo
	1 Maresciallo		11 Militi
	28 Militi		

The Carabinieri consulted all agree that there is considerable dissatisfaction among the regular Carabinieri because of the admission of these men. The reasons are that the Militia men are reported to be strong Fascists and cannot be trusted to do their job impartially, but show favours to their friends. It is further added that the public has no confidence in them. They wear the same uniform as the Carabinieri except the lapel insignia is worn on the lower part of the sleeve. "

2. This matter was discussed (Col. Young - Col. Shipp) and it is agreed that these 43 members of the Highways and Port Militia should not be allowed to continue to serve in the Carabinieri.

3. Will you please take the necessary action.

SUBJECT : Property of Arrested Persons.

TO : H.Q. A.A.I.

1. There have arisen a number of complaints in several regions of the Military Police, officers and enlisted men, of disposing of firearms and other property seized at the time of arrest of civilians who are charged with offences to be tried by Allied Government Courts. At the time of trial such property has often disappeared and cannot be produced at the trial of the accused. This failure to produce such evidence often prevents the Court from arriving at a proper adjudication of the case.

2. It is requested that you issue an order to the Military Police, and all other military personnel concerned, requiring all property of arrested civilians be held for disposition of the Allied Military Courts and subject to disposition in accordence with decision of these courts.

SUBJECT: Titles of officers.

TO : Regional Commissioner, Region IV.

Reference your R4/211 (G) of 27 February 1944.

1. "Operating Staff" mentioned in para 2 (b) of our 47/18/CA of 24 February 1944 refers to HQ Admin. officers, as examples given were intended to indicate.

2. Executive Memorandum No.21 of 15 February 1944 announces the titles of Heads of Special Divisions in Regional and Provincial AMG/ACC Staffs.

3. Where there is more than one officer in a Special Division of Regional or Provincial H.Q., these officers may be referred to by you as "Deputy" or "Deputy Assistant" e.g. Regional Supply Officers, Deputy Regional Supply Officers, Deputy Assistant Regional Supply Officers, according to assignment.

4. It must be understood that the application of any such title may not be considered as admitting any claim to advancement in military rank.

5. It is hoped that the foregoing clears up any doubt you may have had in this matter; a hard and fast ruling hardly appears desirable or necessary.

ROYAL SCHOOL SUPERINTENDENCY OF NAPLES.

Prot. n. 1990 Naples, 10 February 1944.

SUBJECT : Extraordinary session of examinations.

TO : Headmasters and Principals of the Royal Secondary School of Naples and Province

An extraordinary session of examinations for admission, promotion, qualification, graduation for junior schools and graduation for senior high schools, is stated herewith.

Only the candidates who are in one of the following conditions are admitted in this session:

a. soldiers who could not take examinations in any session of the two ones of 1943, because of being in military service.

b. soldiers who could take examinations, without obtaining approval, in one session only of the two of 1943, because in military service.

c. soldiers who could not terminate all the examinations after having passed some of those, because in military service.

d. civilians who returned in Italy from abroad or from overseas on a date after 15 May 1943 and who, despite their right, could not take examinations in one or in both the two sessions of 1943, because of the present events of war.

e. civilians who, despite the fact they were in national territory, could not take examinations in one or in both the two sessions, because of the afore-said reasons of war.

2800

For the candidates who took examinations in one regular session only and were plucked or sent back to the other session, the extraordinary session takes the place of the Fall session. In such case, the ones, who partook only in the first session, are admitted to pass, in the extraordinary session, both the examinations for which they were sent back to the Fall session and the examinations in which they were eventually absent with justification.

For the candidates who, having partaken in both the two sessions, could not pass, in the second session, always because of mili-

tary reasons, all examinations to which they were admitted, the examinations will be those which were not passed.

The soldiers, who, after having partaken in the first session of 1943 in the place of a second session took ex-novo examinations in the Fall session and were plucked, can partake in the extraordinary session in the place of a second session.

The candidates, who are in one of the afore-said conditions and who intend to take examinations in the extraordinary session, must forward within 29 February current, a demand in stamped paper of Lit. 6 to the Royal Institute in which they intend to pass the examinations.

A paper, which proves the reasons for which the admission is requested, must be added to the demand.

The Headmasters must communicate the list of the examinations to be passed to all who are requesting for it.

The candidates, who are regularily listed in the ordinary sessions of 1943, must not pay any fees for these examinations. Furthermore, they are not requested to forward, in addition to the demand, the other requested papers in the case of they being still handed by the Institute.

The examinations will take place, from 15 March 1944, according to the orders of the Ordinance Ministeriali 15 April and 19 August 1943 and of the Circular of this office dated 5 November 1943.

The Headmasters, who receive, within the prescribed date, some demands for examinations of graduation, must communicate to the Royal School Superintendent the names of the candidates, within three days from the falling of the same date.

2799

As to the formation of the Boards of examinations (excepting those fro graduation which will be nominated by this office), and the operations of examinations, the afore-said orders are in force.

The Principals of the Institutes in which the examinations for graduation will take place, must communicate, together with the informations of the number of the candidates, a list of the regular and extraordinary professors (with the information of the year of extraordinary teaching) of the upper classes, in succession of seniority in service and classified for matters of teaching.

1. Reference your 126/Q2 of 20 Feb 44 and of 6 Mar 44, and AFHQ's AG 331.3-2 MGS-AGM of 3 Feb 44.

2. Very careful consideration has been given to this problem by representatives from this Headquarters, Peninsular Base Section, and 57 Area, as a result of which the Base Section proposes to adopt forthwith the following measures:

(a) To establish prices for luxury and souvenir goods offered for sale in Naples on the basis of prices two years ago, plus a percentage not yet finally determined which will represent the increase in prices of basic commodities during the two year period. In establishing these prices the Base Section will work in close consultation with Headquarters, Region III, and this Headquarters.

(b) To inspect the shops frequently to determine whether prices higher than the maximum established prices are being charged.

(c) To post notice "Off Limits to Military Personnel" on all shops which persist in charging more than the established prices.

3. The success or otherwise of these measures will be carefully watched with a view to their possible adoption in Rome and other large cities.

4. With regard to the establishing of Central Markets in which approved dealers would operate, and of which the patronage would be limited to personnel of the Allied Forces, it is felt that if the measures outlined in para. 2 above are vigorously handled, the problems will be largely solved. In any case the Base Section is unwilling to make further policing arrangements at the present time.

Recd 355

16 March 1944.

SUBJECT: Carabinieri for Sicily.

TO : Executive Commissioner.

Reference 3.

1. Many previous demands have been made for the use of this force of Carabinieri, but they have all been requests for loans. This is the first time that a permanent withdrawal has been envisaged, and Brig-General Hume does not recommend permanent withdrawal of 200 Carabinieri from his Rome Party for duty in Sicily.

2. Although the Germans are reported to have disbanded the Carabinieri in Rome, it is probable that many will emerge from hiding a few days after occupation, and provided that the question of uniforms for these men can be settled, it is probable that the numbers thus available as reinforcements would more than compensate for the 200 which it is proposed to withdraw now. I sympathise with General Hume's reluctance to release the men asked for, but the need in Sicily is an urgent one and it is not considered that the suggestion in the last para. of his letter to employ Italian soldiers in their place will be acceptable.

1. Reference your FS/1521 of 12 March 1944, the following is a paraphrase of message No. 62972 of 9 March from A.F.H.Q., cite FHOCT to Advance Force 133; The result of enquiries made here on receipt of your SD/252 indicates that there has been great exaggeration in the reports given to you. The facts as known here are as follows: Approximately 21 working Companies totalling about 4200 men of Slovene and Croatian origin were in Sardinia until recently. All but one of these Companies have now been sent to Corsica to work under Allied supervision. The remaining Company is being organized for work with American service groups. There are estimated to be 800 men of Slovene and Croatian origin in the other Italian Army formations in Sardinia. On information available here, no delegations from the Royal Yugoslav Government have visited the island and the Partisan delegation should be informed accordingly and told that it is not feasible to carry out their proposals for discussion with the Advisory Council and for the despatch of a mixed Commission.

2. As there is some contradiction between the above report and the interim report submitted by you it has been repeated to you in order that the final report referred to in your third paragraph may clear matters up. Please forward your report at a very early date.

(for Lt. Col. Cooper)

1. It will be recalled that at a meeting at Adv. H.Q. on about 20 Dec. 43. General Robertson ordered that the plan be proceeded with for the allocation of schooners and coasters to be loaded with food and held ready to proceed to Rome for feeding the civil population.

2. The plan was proceeded with involving 41 coasters of 2000 tons capacity and 8 coasters of 8000 tons.

3. On Feb. 10 the 8 coasters were taken away to Sicily and unloaded and put on other work.

4. This entirely upset the plan and it is submitted that a fresh plan properly co-ordinated by the Operational Forces has become urgently necessary.

I refer to your MGS - 254 dated 12th March 1944.

I have discussed the question with the local security authorities. It will be unnecessary to evacuate the static part of this camp. They do not carry on business from the camp but are permanent residents therein. Evacuation would involve the necessity of building a far larger camp elsewhere. I therefore recommend that the authorities on the spot, realising the desiderata, be allowed to arrange the camp in the best manner possible. They are trustworthy people with much experience.

The Commission would like to have your personal and independent estimate as to what you consider should be the percentage of the population in your region to which ration cards should be issued, bearing in mind the predominatly agricultural nature of the occupied portions of Italy. 1. F.S.S., C.I.C., S.I.B. and other Intelligence organisations make investigations in territory administered by the Italian Government which result in arrest and subsequent prosecution in Italian Courts.

2. Statements in such cases are given in Italian and taken down in English. Reports handed to the Italian authorities are in English.

3. The Italians have no personnel capable of translating these reports into Italian. They will be encouraged to provide translators: but this will be very difficult and it would facilitate matters, and probably produce better results in Court, if Italian version of the investigation, either original or translation, could be provided by the Intelligence organisation initiating the matter.

4. This may not always be possible but an attempt should be made to do so in the interests of justice and rapidity in dealing with the cases in Court.

In general, this co-operation has been achieved with satisfactory results, both parties being usually ready to appreciate the interests or point of view of the other.

If urgency prevents such prior consultation, the Commissioner concerned should be informed of the action taken as soon as possible thereafter.

If a case were to arise in which the security authority and the Commissioner could not agree on the proposed action, the matter should be referred, if circumstances permit, to this H.Q. and to H.Q. A.C.C. for decision.

This does NOT refer to cases where Italian civilians, other than officials, are charged with security offences.

TO : Vice President, Admin Section.

1. I enclose translation of a letter purporting to come from the Ministry of Interior and addressed to Allied Military Government, Naples and Allied Control Commission, Salerno, making various complaints and criticisms about the treatment of Italian civilian prisoners of war in Italy and especially at PADUA.

2. I should be glad if you would inform the Minister of Interior that these persons are civilian prisoners of war; that they have been made such in order to protect Allied military interests and that so long as their liberty is likely to prejudice Allied Military interests they will remain as prisoners of war.

3. I should be glad, also, if you would inform the Minister of Interior that it is not the intention of the Allied military authorities to give to the Minister of Interior a list of such persons nor to ask for his assistance in examining the reasons for making these persons prisoners of war.

4. I would ask you to add that the cases of these prisoners of war are under constant examination and that persons are released from time to time, and that the Chief Commissioner is satisfied, that the conditions under which they are living are satisfactory.

5. The tone of the letter from the Minister of Interior appears to me to be abrupt and not such as one would expect from a government of a co-belligerent.

TO : Regional Commissioner, Region I.

1. Confirming our conversation in Naples at the beginning of the month, G.C.A.C., Catania (Lt. Col. French) addressed a confidential letter to Brigadier Lush on the subject of Catania University buildings and their release for resumption of educational work.

2. An impasse seems to have been reached and Lt. Col. French feels that his efforts would be more fruitful if pressure could be brought to bear from another angle.

3. It is considered that this question can best be handled by personal representations at this stage. Will you, therefore, after consulting Lt. Col. French, see G.C.C. No. 1 District and explore the possibilities, in spite of the fact that, as reported by Lt. Col. French, a request by you to No. 1 District was only recently met by a flat refusal.

4. Would you also re-open the question of the release of the IGNATIANUM, Messina. The PENNISI College buildings at ACIREALE are understood to be part of CATANIA University and are presumably included in the main problem. If this assumption is not correct would you also deal with this.

5. It is suggested that perhaps the presence of the Director, Education Sub-Commission at any conference, might help. The necessary instructions will be given on notification of your wishes.

SUBJECT: Collection of Italian Army Personnel Escaping into Liberated Italy.

TO : Land Forces Sub-Commission.

1. Reference letter from SCAO 5th Army 107/2 of 20 February (Copy of which was forwarded to you on 25 FEB), the matter has been examined at length by the Italian Refugee Branch. It would appear that the Italian Staff is intended to handle the problem on the whole and not in the 5th Army area alone. The Refugee Branch has an Italian Military Division which should be able to deal quite effectively with the escaping Italian military personnel. Present operations are producing refugees but few escaping soldiers. Swiftly moving operations, on the other hand, may disturb civilian populations appreciably less and produce few refugees but large numbers of military.

2. There would appear to be no necessity for creating anew and separate Italian organization, but rather, that the whole matter should be the responsibility of the Refugee Branch who will deal in Italian military matters with General Biglino, the officer presently heading the Italin Military Division of that branch.

Subject : Collection of Italian Army personnel escaping into liberated Italy.

To : H.Q., A.C.C.
AG and AQ Section. (3)

2014

1. Message No. 0228 dated 9th February 44 from AFHQ to Main 5th. Army (5th Army, etc.,) states that Italian General Staff wish to set up organisation to deal with expected influx of military personnel into liberated Italy as Allied Armies advance north.

2. The proposed organisation for each army appears to parallel almost exactly the existing refugee lay-out, namely,

a. Collecting posts or agencies in forward areas.
b. Small collecting camp in approximate Corps H.Q. area.
c. Reorganisation camp in rear of Army.

and the incoming soldiers will have to be handled in identically the same way as refugees, including the same medical and security examinations.

3. If therefore these escaping Italian soldiers are NOT to be considered the responsibility of the Army, but to be regarded as refugees and therefore the responsibility of AMG while in the Army area, this Italian organisation for 5th. Army should be placed under the control of A.C.C., not 5th. Army.

If this is done, it would be desirable to control of Chief of Refugee Division of A.C.C. 5th. Army.

4. This Refugee division may function with 6 or 7 officers and lower ranks and is expected to handle a greater number of ordinary refugees than the probable number of escaping soldiers. It is therefore not understood how the staff of 50 Italian officers and 200 other ranks are to be employed, and information on this point, and particularly as regards the transport they will have at their disposal, is requested.

5. As there may be long periods when few escaping Italian soldiers arrive, but when large numbers of refugees may have to be dealt with, it is suggested that when the Italian organisation materialises the S.C.A.O. have authority to use it for the benefit of Italian civilian refugees as well.

2720

Declassified E.O. 12356 Section 3.3/NND No. 785017

6. In order to avoid waste of effort and facilities, and to avoid duplication of arrangements for screening with F.B.I. and C.I.C. and for administration generally, it is strongly recommended that this organization be placed under the S.C.A.O. and combined with the Refugee Evacuation System.

Your remarks are requested before further action is taken with H.Q. Fifth Army or MGIA.

10 March 1944.

SUBJECT: Powers of Regional Legal Officers.

TO : R.C., Region IV.

1. Reference your Ra/250.5/(B) of 25 February 1944.

2. Powers of Review. (Your paragraph 3). From the outset it was required under Proclamation No. 4, Article 7, Section 1, that all petitions of review be addressed to the Chief Civil Affairs Officer (now the Chief Commissioner). Executive Memorandum No. 18 (which implements Proclamation No. 14) not only does not provide for further centralisation but, on the contrary, tends to more decentralisation in that petitions for review under Proclamation No. 4 which were previously forwarded to Chief Legal Officer are now forwarded to the Regional Legal Officer (Proclamation No. 14, Article 1) thus enabling the Regional Legal Officer new opportunities for critically examining the work of the courts in his region.

a. It is the opinion of this Headquarters that the power of review on petition should, for the time being, be retained by the Chief Commissioner as now provided under Proclamations 4 and 14. No better means could be contrived for providing the Chief Commissioner with the information and means necessary for the adequate supervision of Allied Military Courts, for securing a uniform and effective administration of justice and an improvement in the standards, which at present are not satisfactory.

b. Experience does not support your statement that serious delay results from the procedure prescribed by the Proclamations No. 4 and 14. Except for some congestion following the disbanding of the 15th Army Group and certain delay consequent on the move to Salerno, reviews of appeals have been disposed of with reasonable speed. In the case of Vitozzi, Francesco, the trial took place in December, the appeal was forwarded on the 17th of January 1944 and sentence of ten years affirmed on the 23rd of February. It would seem, therefore, that about the same period of time elapsed between the trail and the forwarding of the appeal as was connused in the final disposition of the latter.

c. Reference your paragraph 3 b the Chief Legal Officer says "There need be no confusion such as is suggested in the disposition of review of cases in which the sentence does not exceed two years imprisonment or a fine of 50,000 lire. The simple answer is that the Regional Commissioner can in such cases postpone a review until the thirty days have elapsed within which an appeal can be filed."

3. Italian Courts and Personnel. There is as suggested, some ambiguity with regard to paragraph 4 of Executive Memorandum No. 18 and a clarification

2718

Declassified E.O. 12356 Section 3.3/NND No. 785017

of this whole matte will in due course be sent to y[illegible]

4. Italian Military Tribunals. Enclosed is a copy of 'rules for the establishment of Italian Military Tribunals' as requested by you.

5. Legal Personnel. Your interpretation as to the disposition of legal personnel within your region is correct.

6. Legal Directives and Opinions. All legal questions should be referred to HQ ACC when they involve general questions of legal policy, e.g. general questions which may effect other regions either then or some later date, legal policy with the Italian Government and so on. It is, of course, not intended that the Regional Legal Officer should be prevented from giving advise on legal questions to his Regional Commissioner.
