SUBJECT: Transfer of Dott. Mario Sollazzo, Vice Commissario of P.S., Naples.

TO : Admin Section - War Interior Sub-Commission.

1. The Minister of Interior, in his letter 7034/333/A dated 4 April 1944, copy attached, requests the transfer of the above-named official. Regional Commissioner Region XII expresses his desire to retain Dott. Mario Sollazzo as he is a good officer.

2. If, however, it is essential that he be transferred it is very desirable owing to shortage of functionaries at the Questura, that a suitable substitute be found. Owing to the importance of the duties in the City and Province the replacement should, if possible, be a young energetic and efficient official.

3. Would you please investigate to see whether Region III wishes could be met and take up the matter with the Italian Government.

SUBJECT: Transfer of Fishermen from the Naples area to the Calabrian Coast

TO : Civil Affairs Section ACC THRU CHANNELS

1. There are a number of local fishermen, equipped with night fishing gear, who would be willing to move to the Calabrian Coast. Night fishing is prohibited in the Naples area due to the proximity to the war zone.

2. The harvesting of fish by the Lampara method (fishing with lights) would increase the production tremendously. Fish could then be brought to Naples and eventually to Rome to relieve the food shortage among the civilian population. Motor fishing craft already ply the waters from this area to the Calabrian Coast and bring tons of fish to Naples to supply Allied hospitals and the population.

3. Arrangements are being made to have at least two schooners assigned exclusively to the collection of fish in Calabria and for the collection of Tuna in Calabria and in Sicily. This Sub-Commission would like to be advised as to the procedure to follow in moving local fishermen, who want to make the change, to the Calabrian Coast.

4. On a recent survey trip the Fisheries Division of this Sub-Commission and the chief of the Fisheries Division of The Ministry of Agriculture investigated this possibility. They learned from the mayors of the fishing villages, Italian Naval authorities and others that at least 300 fishermen of this area could be adequately housed. This class of fishermen can adapt himself under almost any condition.

TO:- ALLIED CONTROL COMMISSION,

DATE:- 20th April 1944.

REF:- AFSC/S.643/HQ.

During my recent visit to Naples I stressed the importance of all equipment belonging to the Italian Air Force being retained so that it would be usefully employed in the I.A.F. operational effort. We have frequently received reports from Sicily, and to a lesser extent Sardinia, that in spite of orders issued, material is being requisitioned by the Allied Forces, and in some cases has been sold by local tender.

2. It is suggested that a great deal of time and correspondence could be saved, if an Officer of the Allied Control Commission could be appointed in each of these regions as the representative of the Air Forces Sub-Commission, and to whom the local I.A.F. Commanders could make their representations in any case of misappropriation of material which would be of use to the I.A.F. effort.

3. In my view it would not be necessary to appoint a special officer to carry out whole time duty in this matter, as he would be called upon on very rare occasions and I would suggest that the possibility should be examined of giving this duty to some Officer in addition to his present duties.

SUBJECT: Screening of Italian Officials.

TO : R.C. Region III.

1. Reference your FS/of 12 April 1944 the Guardia Forestale were excluded from mention in Executive Memorandum N° 45 because it was intended to reduce the number of Italian officials who were to be subject to screening to the absolute minimum. Provision was made however for such as the Guardia Forestale to be added to the list at the discretion of the Regional Commissioner according to his local screening resources.

2. Although it is desirable that this body, or at any rate the senior officers, should be investigated if the opportunity permits, the position which they now hold in the life of the community is comparatively small and no great harm would be done by ignoring them until the more important and significant officials have been dealt with.

3. Following the recent discussions at the Regional Commissioners' Conference it is proposed to issue a new screening directive in which the responsibility for removing undesirable officials will be that of a Provincial Committee of Italians, when the executive responsibility of the Regional Commissioner will be reduced accordingly.

3. a) The inclusion of "signed paraphrase" and also the mention of an officer's name, in the addressee position of the cable, will be discontinued.

b) The use of "PERSONAL FOR" should be cut down to the minimum and only used in the text, for personal reasons or when it is desired to bring the cable to the immediate attention of a particular officer for special reasons.

b) Application has been made to AFHQ for various branches of A.C.C. to be added to this list. When approval has been given and announced by AFHQ these short titles will be adopted and will easily indicate which branch of A.C.C. is concerned with action.

SUBJECT: Political Meetings.

TO : Headquarters,
Allied Armies in Italy.

55.

1. The matter of labour meetings held during working hours which is the subject of your 2062/2/Q2 of 2nd April has been given careful study by my Political advisers and my Labour Sub-Commission who are in close touch with the labour organisations.

2. The paramount importance of maintaining a regular supply of Italian civilian labour is fully appreciated, and I agree that every effort should be made to prevent such meetings from being held during working hours on week days.

3. I believe, however, that better results can be obtained by appealing to the good sense of the labour organisations rather than by enacting legislation in AMG territory and advising the Italian Government to enact legislation in liberated Italy which would not only be unpopular but politically undesirable in view of the declared policy of the Allied Nations which has taken the form of instructions to us from AFHQ. Public opinion in the Allied Nations is, as we have already experienced, very susceptible to restrictions on public meetings, however reasonable they may seem locally.

4. I therefore propose directly and through the Italian Govt. to induce the Labour organisations to appreciate that public meetings during working hours jeopardise the war effort and must not be organised. In AMG territory permits will not be issued for meetings except after working hours. I believe that the Labour organisations will give their full support.

5. As regards Labour Day which is normally held on 1st May, it has been arranged with the Italian Labour Leaders that Sunday, 30th April, shall be declared Labour Day and that appropriate celebrations may be arranged by workers on that day. Essential services will, of course, be continued and details to ensure this will be discussed with the more prominent of the leaders.

3337

Declassified E.O. 12356 Section 3.3/NND No. 785017

968

6. 30th April will not be regarded as a public holiday and anyone absenting himself from work will not receive payment for that day.

7. In my opinion the probable loss of working time as a result of making 30th April Labour Day will be small in fact, and negligible compared with the psychological gain.

SUBJECT: Jewish Immigrants to Palestine.

TO : Displaced Persons Sub-Commission,
c/o HQ.N° 2 District, C.M.F.

1. I refer to FREEDOM telegrams F. 27287 of 5 April F.32675 of 15 April F. 33653 of 17 April and my telegram FATIMA 3553 of 2o. Apr.

2. Mr. Shertok of the Jewish Agency in Palestine who has come here with proper credentials from London and AFHQ, came to see me. He explained that his primary mission was to assist in the selection of Jews who should be given the 240 certificates issued by the Colonial Office for immigration into Palestine. He suggested that Euias Grunschaag should be nominated head of the Jewish communites in camps in order to make this selection. Acting upon FREEDOM telegram F.32675 I rejected this proposal and stated that I thought it preferable for him to work directly with you and make the selection himself. If Mr. Shertok should reiterate to you his suggestion about Grunschaag, you should likewise reject it. I assume that he is non persona grata with His Majesty's Government.

3. Mr. Shertok assumed that the majority of Jews would be found in Ferramonti Camp. I explained that some might be found in other camps and that you would clarify this.

4. The 60 certificates reffered to in my telegram FATIMA 3553 of 20 apr are, as you probably know, certificates issued to Jewish candidates for immigration by the Palestinian Government (or the Colonial Office) prior to our occupation and probably prior to Italy's entry into the war. I very much hope that permission will be given for these to enter Palestine and you should act on the assumption that they can, but at the same time should so arrange matters that they are retained in this country without confusion if permission cannot be granted. 3335

5. You will notice that the certificates are issued to principals but cover an undefined number of dependent of these principals, that is to say, wives, children under 18 years of age, fatherless grand-children under the same age and relatives other than the foregding (e.g. [illegible]) who are, or who will be, wholly and directly dependent

6. Mr.Shertok, having selected the principals with you, will also assist you in ecreening the dependents and determining their number. When this has been done you should wire the total number showing adults and children in sexes. Arrangements can then be made with AFHQ and Mideast for transport to Palestine.

7. Mr. Shertok will be at Ferramonti Camp during the morning of 24th April and thence proposes to go to Bari. I have already adwised you to send a seqior member of your staff to Ferramonti Camp to begin the selection with Mr. Shertock who will probably be accompanied by Capt. 8. Mr. Shertok, as we are advised in AFHQ telegram 32675, raised the question of the attachment of Jewish military officers to the Commission. I demurred at any such appointment on the Headquarters of this Commission but I promised to discuss with you the advisability of appointing a Jewish officer to your Sub-Commission. I myself in other territories have found such an appointment to be most useful, perhaps because I have been lucky in the personality of the officer appointed. In considering this proposal we must remember that your Sub-Commission is only at the beginning of its real work in dealing with displaced persons in Italy. Hitherto you have been concerned largely with immigrants into this country. In the future, when territory in the North falls into our hands, you will be faced with many thousands of persons displaced in this country and a high percentage of those persons will be Jews. I believe that a Jewish officer on your staff, under your control, would be ofgreater assistance to you than the missions of all the other nations which work with you at present. I believe, also, that any accusation of discrimination which such an appointment might raise can be met by the answer that the Jews will probably form the largest numbers of displaced persons in the future.

9. It must also be remembered that the Jewish military units in this country have already shown the greatest concern for displaced Jews and are even now furnishing them with every kind of assistance unofficially. It would, I think, be better if this were regularised which would be more possible if you had an officer, chosen perhaps from one of these units, on your staff.

10. I should like to discuss this matter with Mr. Shertok and to let me know conclusions and recommendations. Mr. Shertok should be given every assistance, not only in the task of selecting the Jews for immigration, but in visiting the camps. You should also discuss with him the possibility of selecting a further 1000 Jews (gross) in the event of the French and American authorities being able to arrange for their journey and immigration to the United States.

SUBJECT: Civilian Prisons.

TO : V.P. Admin. Section.

1. As I promised at our meeting last week I had a long discussion with Major-General Robertson, A.A.I., on the question of Prison Accommodation. I emphasised the very pressing need for the release of Brindisi and Taranto Prisons for civilian prisoners and the desirability in future of leaving civil prisons intact.

2. The C.A.C. fully sympathised with our requirements and the necessity for preserving civilian jails from requisitioning in the future, but he felt compelled to insist on the retention of Brindisi jail as the only suitable prison for hardened military offenders. After much discussion I was bound to agree with him that in this case civilian requirements must give way to military interests and that we, and not the military authorities, must find an alternative. As in so many cases this is our function.

3. Major-General Robertson appreciated the position in Taranto and gave orders that alternative accommodation for military offenders should be found. I mentioned the possibility of filling Caltanisetta jail and so releasing space elsewhere.

4. Finally I promised that the Prison Officer of the Public Safety Sub-Commission should visit Brigadier Paton at A.A.I. and consult with him as to the short term and long term policy regarding prisons. I suggest that he should go armed with figures.

5. After confirming the above with Col. Young by telephone I sent the attached telegram to Region II.

TO : R.C's. Regions I, II, III, IV, V, VI, VII.
S.C.A.O's 5th and 8th Armies.

1. Concern has been felt at H.Q. A.A.I. regarding the lack of enforcement of the Italian system of registration for persons staying at hotels and boarding houses.

2. The Minister of the Interior has now issued a directive to Prefetti on this subject and a translation is attached hereto for your information. (a) Periodical examination of Questori records with a view to noting new arrivals in the area and checking these against suspect or "black" lists.

MINISTER OF INTERIOR
P.S. DIRECTORY

N.50134/10-4. Salerno, March 23, 1944.

SUBJECT: Provisions.

TO : All the Prefects of Salerno, Potenza, Matera, Taranto, Lecce, Brindisi, Bari, Cosenza, Catania, Reggio C., Catanzaro, Messina, Siracusa, Ragusa, Enna, Caltanisetta, Trapani, Palermo, Agrigento, Nuoro, Cagliari, Sassari. Allied Control Commission, Public Safety Sub-Com.

1. Owing to shortage of Hotel accomodations many civilians have taken upon themselves to let rooms without required police authorization, consequent to such illegal action the above fail to fulfil the prescribed regulations in connection with such activities, that is registration and notification of the persons lodged.

This failure hampers police activity in keeping track of persons dangerous to society and to public order. It is intention of this Ministry that this state of affairs cease as soon as possible.

Therefore, it is necessary that inquiries should be made in every locality in order to find out all those who give lodgings without permit, and compelled them to comply with the proper regulations, and supply themselves with the prescribed register and to notify in lawful terms the Public Safety Office the arrivals and the departure of the tenants.

In the same time, all the Hotel owners, in-keepers, owners of boarding houses, persons who let private rooms that are properly authorised, must comply strictly with the law and if they fail doing so they will be prosecuted by law, and their license revoked.

The same must be responsible of the notification sheets which must be written clearly and exactly, noting all the particulars from the identification cards of each transient.

All those who have no documents to show, must be brought to the police office or to the HQ of the proper branch of the Army, which will provide for their identification and will regulate themselves accordingly.

In regard to the above, we request you to notify through the Municipio and the CCRR that it is their interest to have their identity papers, in order to avoid consequent friction with the police.

It is felt that even with the help of No. 2 District and P.B.S. the enforcement of para. 5 (i) of the draft memorandum will be extremely difficult in a town of the size of Naples and this Section would like more evidence that the rabies danger justifies such a drastic and nearly unenforceable order.

SUBJECT: Control of Epizootic Lymphangitis.

TO : R.C's Regions I, II, III, IV, V, VI, & VII.
S.C.A.O's 5th and 8th Armies.

1. The safeguarding of military animals against infectious Epizootic Lymphangitis depends greatly upon the proper enforcement of the existing laws relating to the control of the disease in civilian animals. The disease is common in Italy and has made it's appearance in Army animals. Army animals which are definitely diagnosed as suffering from this disease are, of necessity, destroyed.

2. The Italian Minister of the Interior has issued an instruction to all Prefetti under the jurisdiction of the Italian Government as in Appendix "A" attached.

3. The Prefetti in AMG provinces will be instructed to instigate rigid enforcement of the law pertaining to the control of Epizootic Lymphangitis as follows :

(1) All horses or mules suffering from the disease will be brought before a veterinarian immediately.

(2) The veterinarian will place the animal under quarantine and treatment until such time as the animal succumbs or is fully recovered from the disease.

(3) Under no circumstances will a diseased animal be permitted on the highways or streets.

4. Regional Commissioners will include a reference to this matter in their monthly reports.

La commissione Alleata di controllo, considerando le frequenti segnalazioni di infezione criptococcica che pervengono dagli Uffici Veterinari Provinciali, ha espresso il timore che le norme di polizia sanitaria veterinaria previste dalla nostra regolamentazione dei confronti della predetta forma morbosa non abbiano nelle attuali condizioni soddisfacente e pronta applicazione in tutti i casi.

Destano particolare preoccupazione le possibilita' della diffusione del contagio ai quadrupedi militari e concordemente viene richiesta l'adozione di provvedimenti atti ad assicurare in modo sempre piu' efficiente la profilassi dell'infezione in oggetto.

Si prega pertanto V.E. di voler assicurare, mediante un'apposita Ordinanza, la piu' rigorosa applicazione, nei confronti dell'infezione in oggetto, delle disposizioni di cui ai paragrafi 1,2,3, del Regolamento di Polizia Veterinaria 10 maggio 1914 n. 533, con speciale insistenza per quanto disposto dall'art. 7 del citato paragrafo 3. Inoltre, per quanto particolarmente riguarda l'applicazione dell'art. 62 del prefato regolamento, aderendo alle proposte restrittive formulate in proposito dalla Sezione Veterinaria della Sottocommissione per la Sanita' Publica dell'A.C.C. si prega di voler disporre nell'Ordinanza di cui sopra anche il divieto di spostamento del luogo infetto, a qualunque scopo eccettuata la macellazione, degli equini farcinosi presentanti lesioni cutanee ulcerate.

and for the notice of the Prefects of AVELLINO, BENEVENTO, CAMPOBASSO
FOGGIA, NAPLES.

Considering the frequent notices brought forward by the Provincial Veterinary Office, the Allied Control Commission has expressed the desire that the rules of the Veterinary Sanitary Police in controlling the above-mentioned contageous disease be made effective.

There is a particular possibility of a diffusion of this disease among the military horses and it is unanimously requested to provide a means to stop the spread of the mentioned infectious disease.

It is requested that your Excellency by means of an order requests that the rule in Paragraph 1, 2, 3 of the Veterinary Police, 10 May 1914 N.533 is strictly adhered to, with special insistence regarding Art. 7 in the mentioned paragraph 3. as regards particularly the application of Art. 62. In the requested order should be prohibited the displacement of the animals from the infected territory for any reason.

It will be considered good to insist on the necessity of placing each single case, under treatment, therapeutically, surgically, and medicinally.

The Provincial Veterinarian will start to inspect diligently all the places of infection and to make sure that care be taken to stop the spreading of this disease.

The Ministry will be glad to receive a copy of the dispositions, as well as an accurate report including statistical datas, on the incidence of epizootic lymphangitis in the last two years in the territory of the Province.

2. The cable mentioned in para.1 of your letter under reference was not enclosed.

3. There is no doubt that the Monuments & Fine Arts Sub-Commission should have been brought into this question before now. The matter originated on 4 November 1943 in a cable from FREEDOM to 15 Army Group, copy of which is enclosed. The information contained in this cable was passed on to 5th and 8th Armies. Subsequent cables added names of monuments to the list which were also passed on to the Armies. A copy of the first ten serials is enclosed.

4. In our letter 340/55/CA of 11 April 1944 we notified additional monuments serials 7 to 11, so there has already been some mistake made at A.F.H.Q. in the numbering of the serials.

5. It would seem that this list originating from A.F.H.Q. may want coordinating with the lists of protected monuments being prepared by the Sub-Commission, and we shall be pleased to give you any further assistance from our files if you so require. It is suggested that from now on the A.F.H.Q. list should be handled by the Sub-Commission, since some of the buildings listed are of great historical and artistic importance, as for instance, the Basilica of St. Francis at Assisi.

The Chief Legal Officer advises that the RLO of Region VI, in the course of his report for March, states it is proposed to set up in Region VI a Legal Advise Bureau for British soldiers on the island. The C.L.O. deems this undesirable and calls attention to a letter sent to Legal Officers (ACC/4005/L) dated 28 March which states no legal advice may be given by a Legal Officer, in an official capacity, to either members of the armed forces or civilians upon any private matters. This in no way restricts the right of any legally qualified officer to give such advice unofficially and in a private capacity.

SUBJECT: Yugoslav Refugees.

TO : Hq. Claims Commission, C.M.F.

1. Ref. your letter CM/41/0/61 of 27 March 1944 and further to this Hq. 115/22/CA of 5 April report has now come to hand.

2. The following is the statement regarding furniture at S. Maria di Bagni.

a) Ref. para (1) of CM/41/0/61 dated 13 March 44, it cannot definitely be stated what looting did take place bu the Town Major LECCE in his report to 71 Sub-Area states that some Alpine Troops came to Di Bagni with a lorry to take away some furniture in early January.

b)In early December, Lt. Howson who was acting for the 34 Town Major, went to Di Bagni and advised the Podesta that certain houses would be required for refugees, notices were put up that the keys were to be handed over to the Podesta. No record exists as to whether furniture etc was to be removed.

c) Approximately 29th and 30th of December, refugees began to arrive in large numbers and were billetted in Di Bagni, all this taking place entirely under 71 Sub-Area responsibility, 4 Beach Group acting as Hq for administration.

d) A great deal of furniture was collected to save destruction but no details were able to be kept owing to the completely inadequate staff at the very beginning and the unusualness of the Camps.

e) It was alo impossible in the early days to check whether civilians were collecting their own furniture or someone elses.

f) Inventories were taken between the middle of January and the 1st of February, but again no definite check was possible owing to movement of articles

3. It is considered that action to be taken falls into two distinct categories.

a) Establishment and agreement of inventories as at 1 Feb. 1944, claims relating to articles not listed in such inventories to be submitted to ACC for transmission to the Italian Government.
b) Acceptance of claims by AD Claims for any article listed in the inventories, established under (a) above such claims to be transmitted through A.C.C.

4. It is submitted that this is a compromise necessitated by the [illegible] situation which prevailed over a considerable period. If you agree the necessary steps will be taken at once to get the Italian authorities to accept the claims under 3(a) above and to establish the inventories.

1. The Director of the Sub-Commission for Displaced Persons told me this afternoon that Mr. Paddington of the British Red Cross who is in charge of the Records Bureau for Displaced Persons in this territory is anxious to record the names, addresses and details of ALL foreign nationals (other than Italians) in this territory and is asking the Displaced Persons Sub-Commission to set up the machinery in motion to obtain this information.

2. I do not know the terms of reference with which Mr. Paddington is armed but I would put to you most strongly that Mr. Paddington should not concern himself with persons other than Displaced Persons. The various nationals resident in normal circumstances in this country are not, in my opinion, subjects for the Displaced Persons Sub-Commission nor for the Record Bureau which Mr. Paddington has set up. Their interests and enquiries about them can well be looked after by the Italian Government or the Allied Military Government and will, in due course, be taken on by their Consuls when these are appointed.

3. I would like to add that from what I hear Mr. Paddington is making a wonderful job of his Record Bureau and I do not want him to take on more than he can manage nor to ask my Displaced Persons Sub-Commission to go outside their terms of reference.

ALLIED CONTROL COMMISSION

NAPLES

822

3 April 1944

I take the liberty of submitting some remarks of mine and certain information which may interest this Commission. At Reggio Calabria or rather in all the province, there has been renewed the "ammasso" of oil, to meet the request of oil, so they say, by the Allies.

Really it was not necessary to go back to "ammasso" procedure, but it would have been sufficient to ask the oil producers as to the oil quantity that they could put at the disposal of the Allies, who could have gotten it directly from the producers with their trucks, that is it would have been a sort of requisition, as done in the war of 1915-1918.

Instead, by constituting again the ammasso, of fascist nature, it has brought about the reconfirmation of the personnel, all fascist, which has already started the work, running around with motorcycles and cars, just as before, with great surprise to the people.

In fact an inspector presented himself here, at the warehouse of the Lawyer Buda, and by all means pretended to verify the quantity of existing oil; naturally he was put out; to top it all, to direct the ammasso of this Comune was assigned the political secretary of this same comune who was in charge at the time of the Allied landing in this region. This group of people, which first stayed hidden with fear, has regained courage and I believe that they are a danger also for the Allies inasmuch as while the Allied troops are advancing, behind them the enemy is reorganizing.

There has remained in charge as School Inspector of this Province a man who, so I am told, was formerly the Vice-federal of Palermo, therefore really a fascist; in fact he has reconfirmed as teacher in this comune the secretary of the town women fascist organization, which was to be expected; therefore naturally he may follow the same line with the other teachers, some of whom were formerly political secretaries in these towns.

As it can be noticed the purification process has not do ne much here and the danger is permanent.

I beg you to excuse my frankness.

Respectfully yours

P.S.
At this moment I am being informed of the institution of a tax for vine and olive cultivators; this tax is being paid for benefit of the Provincial Office of the "Enti economici of Agriculture, Olivecultura" (which is an office of fascist character and therefore the tax is paid to give salaries the fascist personnel). This Office is not needed; the proprietors are taxed on the basis of the number of trees in their farms, even if it is a few cents, with the purpose of maintaining the existence of the above offices and feed the old fascists - as the personnel of the Direction and the branches- is still the old one.

SUBJECT: Modification of Fire arms Proclamation.

TO : R.C. Region III.

Reference your letter of 26 March 1944 on above subject.

1. This matter was submitted to the C.L.O., Legal Sub-Commission. By letter dated 6 April the C.L.O. advises this matter was recently discussed at a conference attended by the C.L.O., D.C.L.O., R.L.Os, and S.L.Os. of Armies, as well as other legal officers, and that it was unanimously agreed that it would be unwise to issue the order suggested by you.

2. The C.L.O. also advises: "the offence created by Proclamation N° 2 Article I (5) is to have possession of fire arms etc..... ' except in accordance with a permit of the Allied Military Government' The desired object could, therefore, be achieved by a system of permits, and this is the course adopted in Region I, where farmers who had handed in firearms were permitted to withdraw one shotgun and to have up to 10 cartridges."

3. It is therefore considered the issue of the order requested is unnecessary, since the desired result is attainable as suggested by the C.L.O.

Dear Dr. Wald

I am sending you the draft of a memorandum which Mr. Jenkinson has prepared and which he wishes to be given wide publicity. The subject arose during a discussion on the A.C.C. modern archives and I thought Mr. Jenkinson was referring to them when he said he would let me see this draft. I do not know whether he has discussed this with you; if not I am sure that you would like to see it.

I am not qualified to express an opinion on the technical aspect of the memorandum, but it seems to me rather too elaborate to publish in the form of Army Orders, which to my mind is the best way of ensuring that the requisite publicity is obtained. I understand some instructions on these lines have already gone out from A.A.I., but Mr. Jenkinson may have raised some new points.

Declassified E.O. 12356 Section 3.3/NND No. 785017

NOTE ON ITEM 1.

1. In order to keep imports of wheat to a minimum the maximum of home-grown wheat must be "amassed".

2. To effect this the following policy has been decided upon :

(a) Establishment of Committees of farmers and citizens in each Commune and under the supervision of the Provincial Inspectors of Agriculture for the purpose of screening statistics of wheat production, retention and amassing.

(b) Announcement on May 15, 1944, of firm price for wheat delivered to amassi.

(c) Reduction of seed retention allowance to 1½ quintals per hectare.

(d) Limitation of food retention allowance to farmers and their families and full time agricultural workers.

NOTE ON ITEM 2.

1. All schooners under 300 tons are being registered.

2. Schooners can help to relieve railways.

3. All voyages will be controlled by one authority — HEDEO Schooners Sub-Committee — who will arrange for return cargoes.

4. Bidding, charter, loading.

Information on the methods for these will be given, explained and discussed.

Declassified E.O. 12356 Section 3.3/NND No. 785017

770

NOTE ON ITEM 3.

Initial Restoration of Post Office Services.

1. Post Office services fall into three main categories:

(a) Miscellaneous services (Payment of teachers salaries, receipt of tax revenue etc.)

(b) Mails collection and delivery.

(c) Financial services (Money Orders, Savings Bank, Postal Bonds, Current banking accounts).

2. Post Offices may be opened by C/O's for miscellaneous services as soon as required and practicable.

3. The basis for the restoration of mail services is set out in Executive Memorandum No.35 now in the press.

4. Financial Services.

(a) Experience shows that there is frequently a need for such services to be in operation before civil mail services are functioning.

(b) Both the Finance and the Telecommunications and Posts Sub-Commissions are directly interested in the working of the financial services, the former in relation to expediency and financial backing, the latter for the actual operation.

(c) The number of Regional Postal Officers available in the past has not been sufficient to cope with the development of services, and the future position in this respect is not secure. As a result, the operating of financial services is necessarily, at the outset, being developed by different Finance Officers, on a Province by Province basis. Such a basis of development necessitates each officer concerned issuing 'ad hoc' instructions, and restricts effective co-ordination of policy and practice.

(d) The maintenance of these financial services depends amongst other things, upon

(i) the initial and continued availability of forms, Savings Bank books, Postal Bond sheets, etc, and

(ii) the provision - in advance of a normal mail service - of a means of communication for transmitting the cash, forms and 68
advices concerned to Post Offices and/or the public.

5. To meet/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

NOTE ON ITEM 3 (CONT'D)

5. To meet those cases in which a Postal Officer will be available to deal with the restoration of all main services, sets of schedules are now being prepared detailing, as far as possible, the procedure to be followed at each of the various stages. The schedules will incorporate the A.C.C. and/or Italian Government's instructions which have been issued to date, in respect of services operating in the Postal Officer areas. The intention is that, as these officers become responsible for an additional part or complete province, they will hand to the Post Office Provincial Director a set of the schedules, and, at the appropriate stages, instruct him to proceed with the introduction of each service on the lines laid down.

6. The following points are for the consideration of the Conference:

(a) That all Regional Commissioners and SCAO's of Army AMG accept a supply of the schedules, for the attention of the Postal or Finance Officer who will be responsible for the Post Office services.

(b) That R.C's keep the Administrative Section and Telecommunications & Posts Sub-Commission advised of developments.

(c) That, in setting up official communications for the transmission of forms (see para.4 (d) above), the eventual requirements for letter delivery services be kept in mind as far as possible, particularly in relation to Censorship and Security considerations.

NOTE ON ITEM 5.

1. Malaria control is of vital importance to the Allied Military effort.

The following points require consideration :

(a) Provincial anti-malaria Committees.
(b) Programmes of Control work.
(c) Labour available (civil and military).
(d) Transport problem.
(e) Equipment, larvacides and drugs.

NOTE ON ITEM 6.

1. Applications have been received from Italian State employees regarding promotions that would have been made had there been no interruption of the regime, promotions considered to be due, promotions for efficiency and as rewards, etc.

3167

2. Consideration is to be given to:

(a) The policy to be adopted.
(b) The rules to be followed.
(c) Procedure to be recommended.

SUBJECT: Repatriation of Dr. Massimo Adolfo Vitale

TO : Vice President, Administrative Section

1. On 1 January Marshall Badoglio wrote General MacFarlane requesting the repatriation of Dr. Massimo Adolfo Vitale. On 20 January Captain Stone, Deputy Chief Commissioner replied to General Badoglio that the letter had been forwarded to the appropriate quarter for action. Also on the 20 January Major Doe, Secretary General, wrote C.-in-C., A.F.H.Q. requesting that Dr. Massimo Adolfo Vitale be repatriated if there was no objection on the part of A.F.H.Q. However, this letter has not been answered to the knowledge of this Headquarters.

2. The subject has now been brought to the attention of this office by Regional Commissioner, Region II, who states that Dr. Vitale's son, an Italian Captain Liaison Officer with the Hq. 71 Sub. Area, is asking that the matter of his father's repatriation be followed up. The Provincial Commissioner of Brindisi speaks very highly of Captain Vitale's work and hopes we can help him and his father who is now a resident of Tangier, c/o the clinic of Prof. Beveridu. Dr. Vitale is also ex-Prefect of Derna. He retired to Tangier because of racial laws of fascist party.

SUBJECT: Communications

TO : Director, Army Sub-Commission, A.C.C.

1. It has come to the Chief Commissioner's attention that telegrams between elements of the Army Sub-Commission in which he had direct interest are not being furnished to him for his information and in consequence he has been embarrassed by taking parallel action without full knowledge of communications that have been passed.

2. It is the responsibility of an independent sub-commission to see that the Chief Commissioner is informed of communications which are received or sent by it and in which he should have immediate knowledge. The Registry at this Headquarters can not be expected to attent to this. It is, therefore, desired that you take action to see that copies are furnished to the Chief Commissioner of such incoming and outgoing communications as should come to his attention. A specific case is point out in your Fatima 2884 of 2 April and 8 Army Main SD 2835 of 3 April 1944.

POLITICAL SUMMARY NO.3.

4 March - 31 March 1944.

1. On March 4, it was locally reported that President Roosevelt had stated at a press conference in Washington that one-third of the Italian fleet which had surrendered to the United Nations would be made available to the Soviet Government. Press accounts of the President's statement were confused and gave rise to the interpretation in Liberated Italy that the United States and Great Britain intended to hand over a number of Italian vessels to the Soviets. The Badoglio Government and Italian public opinion as a whole were deeply disturbed by the implications of such a proposal and the Government threatened to resign. This political crisis was, however, averted since both the President and Mr. Churchill made further statements on the subject showing that there was no present intention to make delivery of any Italian ships but only that they or their equivalent might be utilized by the Soviets. It is generally believed that Badoglio's position was reinforced by the strong stand he had taken against a transfer.

2. As a result of the agreement with the Allied authorities cancelling the strike on March 4, the Party of Action, Socialist and Communist Parties and the Confederation of Labor held a mass meeting in Naples on March 12. The meeting took place without incident or disturbance to public order, and an estimated attendance varied between six and ten thousand, of which the Communists were the most prominent and best organized. The meeting approved a resolution to intensify Italy's war effort requiring as the essential condition therefor that the national administration be purged beginning with the supporters of the Monarchy, and that a democratic Government composed of all political parties be created. It is noteworthy that this was the first proclamation of any of the Parties condemning the Monarchy as an institution.

3. It will be recalled that the mass meeting was to be followed by the preparation of a petition to demonstrate the extent of popular support of the opposition. Immediately following the meeting there was strong support for the petition particularly from the Communist Party, and the Giunta agreed the petition might be circulated in the name of all six parties. Enthusiasm therefor has markedly waned since that time. It would appear that the Communists have now become indifferent and it seems likely that the whole plan will be dropped. The change of attitude of the Communists has no doubt been influenced by the announ

Enthusiasm therefor has markedly waned since that time. It would appear that the Communists have now become indifferent and it seems likely that the whole plan will be dropped. This change of attitude of the Communists has no doubt been influenced by the announcement that the Soviet and Italian Governments had agreed to exchange diplomatic representatives.

4. Following conversations between the Soviet representative, M. Bogomolov, and Marshal Badoglio the Italian Government issued a statement on March 14 to the effect that agreement had been reached with the Soviet Government to exchange diplomatic representatives. No prior consultation with the British and American Governments had taken place, and following Anglo-American inquiries at Moscow it appeared that the intention of the Soviet Government was not to derogate from the authority either of the Allied Control Commission or of the Advisory Council for Italy. In fact, the Soviet appointment of the diplomatic representative

carries only the rank of Counsellor or Minister and he will be under the orders of the Soviet representative on the Advisory Council for Italy. Regardless of the form that these relations may take, however, there is no doubt that the Soviet move has had a marked influence throughout liberated Italy. Various interpretations have been given to it. Some consider that it will strengthen the hand of the Badoglio Government and others believe that it will increase the influence of the Communist Party throughout Italy. There is no question that since the announcement was made the tone of the Communist press and Communist declarations has altered. Many rumours are current that this will lead to changes in the Government and possibly even in the King's position in the near future. So far, no positive steps in this direction appear to have been taken.

5. The leader of the Communist Party in Italy, Mario Togliatti, otherwise known as Ercoli, arrived in Italy on the 26th March from Moscow after eighteen years of exile. Immediately following his arrival the leaders of the Communist Party were convoked in Naples. Indications are that his leadership will be undisputed. A statement of Communist policy is expected in the first days of April.

6. Marshal Badoglio paid a short visit to Sicily at the end of the month to be present for the induction into office of Francesco Musotto the newly appointed High Commissioner for Sicily.
