SUBJECT: Ambulances and Hospital Equipment.

TO : H.Q. Allied Armies in Italy.

1. Due to the lack of civil ambulances and hospital equipment, Allied Control Commission has experienced considerable difficulty in handling civilian casualties. This is true both as to war injuries and epidemic diseases and may have serious results.

2. On many occasions, the assistance of the Army has to be sought and has been freely given.

3. This is not entirely satisfactory firstly because it reduces the number of ambulances at disposal of operational troops, and secondly because the vehicles are not at the complete disposal of A.C.C. and may be removed at any moment.

4. It is requested that orders may be issued that all Italian civilian ambulances or mobile hospital equipment which may be captured shall not be removed from the district of capture and shall be handed over to A.C.C. immediately, and that a proportion of the military ambulances (German and Italian) captured during the advance be allocated for the use of this Commission.

1. Reference your 2030/3/G2 of 25.May.1944, I note with regret that the Palazzo Tyrrhenia is already earmarked for occupation by Headquarters, No.3 District.

2. Regarding the suggestions in paragraph 3(a), (b) and (c), this Commission remains strongly opposed to the vacating of any bank premises. The closing of banks would disrupt banking and financial business at a critical period and would produce undesirable political complications.

3. In the case of 3(d), the Provveditorato building is the central office of the local education system, from which all schools are handled. It is clearly undesirable to interfere with the administration of local education which is only now beginning to function.

4. From all the correspondence that has passed, it is apparent that considerable difficulties still exist in securing suitable accommodation in Naples. The following suggestions are submitted for your consideration:-

(a) If it is correct to assume that 8 Command Pay Office must be situated where it can best supply cash to the British Armed Forces, it is suggested that the Office should move direct to Rome as soon as practicable rather than to attempt to move to Naples for a short period.

(b) If it is necessary for 8 Command Pay Office to remain in close proximity to AFHQ as stated in paragraph 2 of your letter it is suggested that accommodation should be provided from the many buildings which will shortly be vacated in Naples as organisations are transferred elsewhere.

SUBJECT: Provision of Italian Officials in Forward Areas.

TO : Regional Commissioners,
Regions I, II, III, VI and VII.

1. Organisation of the forward areas is a more difficult task than the administration of an already organised back area and calls for active, forceful and efficient Italian officials capable of putting up with a certain amount of hardship.

2. Regional Commissioners may be inclined to object to the release of such individuals who are chosen to go forward on the grounds that they are indispensable and necessary to the Region concerned.

3. The release of such men to forward areas will throw more work on the remaining, probably less highly skilled, officials.

4. It must, however, be recognised that when moving forward and taking over new Provinces and cities, good men are essential.

5. Regional Commissioners should release officials asked for unless there is some special reason making it imperative that a particular official should be retained. There should not be many cases like this. Where they occur a full report should be submitted with the minimum of delay.

SUBJECT: Hospitalization of Italian Co-Belligerents.

TO [redacted]

1. Reference is made to your MS 705.1-4 of 5 May 44.

2. The Italian Ministry of War has been consulted in the matter of taking over 7607 Italian Station Hospital in PALERMO and are in favour of doing so. It is considered that where possible possible responsibility such as this should be passed to the Italian Government.

3. It is recommended that the proposals contained in para 3 of the letter from I.B.S. and 10th Port be adopted and the personnel of the hospital be released outright to the Italian Government. This is essential both from the undesirability of mixing P.W. and co-belligerents, and because of the already serious shortage of Italian Army doctors.

4. It is desired that XIV Italian Ambulances be returned for the use of the Hospital. This is considered important as none are available from the mainland, where there are not sufficient for requirements.

5. The Medical Directorate of XII Italian Corps(Sicily) are willing to take over the Hospital which will then be under command XII Italian Corps.

1. SCAO, AMF 8 Army has discovered a new problem as we advance, viz., partisans. These are divided into two parts:-

(a) Irresponsible partisans not recognised by AAI.

(b) Responsible partisans who have been encouraged and in some ways provided with arms.

2. The policy of 8 Army is to disarm all but SCAO finds that irresponsible partisans have set up local governments of their own, exercising authority, and are unwilling to recognise AMG. Unfortunately in 8 Army an officer known as Civil Liaison Officer whose duty it is to deal with partisans is apt to support these people, a policy which conflicts with SCAO, who, in the long run, always has the sanction of refusing food.

6. The Italian Refugee Branch.

A. The Italian Refugee French (IRB), R.C. & M.G. Section, is concerned with the collection of refugees in the forward areas and their dispersal into selected rear areas. All types of persons of almost all nationalities are handled by this unit, though the majority are Italian peasants.

B. Refugee evacuation officers at AMG Fifth and Eighth Armies supervise the bringing of refugees into forward camps. The Refugee Evacuation Officer sees that they are dusted against typhus, receive medical attention, and are fed and sent to main camps. The stay in forward camps is as short as possible.

C. Main camps are established in the Naples (capacity 7000) and Foggia (capacity 2000) areas. Here refugees have a chance to rest, bathe, wash their clothing and are prepared for the journey to the dispersal areas. The main camps are controlled by HQ. IRB.

D. On arrival at the main camps, refugees are put through the following processes :

1. Baggage is disinfested.

2. Red Cross clothing is issued to those in need.

3. Refugees are dusted against typhus, inoculated against typhoid and typhus, vaccinated against smallpox and medically inspected.

4. A central registry is kept, and all refugees are registered.

5. Screening for security.

E. In both forward and main camps, the personnel employed is Italian military or Italian Red Cross, with the exception of a few Allied officers, OR's and British and American Red Cross personnel.

F. Dispersal areas are arranged between HQ. IRB and Regional Commissioners. Refugees are dispatched to these areas under arrangements made by IRB, and are billetted by Regional Commissioners through the Prefects. Upon arrival at their destination, refugees become the responsibility of the Italian Government.

G. Although the IRB has no executive powers (relative to) the care given refugees in dispersal areas, it does bring pressure to bear on local Italian administration to improve, where necessary, conditions among refugees. In performing this function, the IRB works through the Italian Minister of the Interior and the Interior Sub-Commission of Allied Control Commission.

[redacted] 1942.

10th June 1942.

Chief Commissioner.

1. Mr. Keith Murray handed me the attached memorandum and draft telegram before his departure. You may have seen the memorandum.

2. There is a lot in what Keith Murray says but I do not agree that the staff is as short as he states. Regional Commissioners are fully alive to the fact that all the Provincial Staffs and not only the agriculture and supply officers must work on the harvest and ensuing. I do not think there will be any harm in asking for the ten or more officers from the Middle East if, and only if, we can get the transport for them.

3. His proposals on organisation are attractive so long as they are run on a Regional basis. I do not like the idea of setting up any board or organisation which cuts across Regional control, and in any case, as Colonel Hutson points out, it is probably too late to set these boards up now.

PORTABLE WAREHOUSE

In installing and operating depots, AMG Fifth Army have had to meet certain exceptional conditions, such as:

(a) More or less complete destruction of existing warehouses.

(b) The necessity for spotting, putting into operation and moving at short notice food depots according to the changing operations situation.

(c) Summer weather, permitting the storage for limited periods of food supplies under light canvas protection.

(d) Materials available: poles from local ravines and salvage canvas.

The following is a description of this type of portable warehouse involved. These warehouses are arranged in rows with an entry and exit for trucks, to provide rapid and efficient operation. Each warehouse can be picked up and loaded on a 3 ton truck.

The warehouse has a square plan (8metres x 8 metres) and a pentagonal front elevation in which the sides are 3m and the centre 5m high.

The construction is as follows:

Down each side are four poles 4m long buried 1m in the ground. These are strengthened by horizontal poles at the top (height 3m) and half-way up at a height of 1½m.

The centre poles are 6m high (of which 1m is buried in the ground) and they are joined by a horizontal pole at the top (height 5m).

The centre horizontal is connected to the side horizontals by 12 poles (6equally spaced on each side) and these with the centre horizontal support the roof.

The entire structure is covered with canvas.

4179

The Carinola depot where this type of warehouse is erected is open to inspection at any time.

My dear Carr,

I have received the attached letter from MMIA. Without hearing your side of the case it seems to me that Italian troops attached to Regions or even on the strength of Regions must come under the overall authority of the Italian Military Commander for purposes of general discipline. In the present case I understand that he asked you to transfer back to the Army two soldiers who failed to salute him. On the face of it the request seemed perfectly reasonable but there may be more in it than that.

Whatever the circumstances it would probably oil the wheels if you acceded to the General's request to return the two men in exchange for two others, and then let me know the circumstances.

I will, if it seems to you necessary, issue a directive on the question of Italian soldiers assigned or attached to Regions.

Yours ever,

(Signed) Maurice Lush.

1. I refer to signal no 648 of 2 June 1944 from MICA to ACC Region II and subsequent signals on the subject of harvesters for Region II.

2. The signal no 648 of 2 June was sent without any knowledge of this HQ who, at no time, had any intention of applying for an additional 10,000 harvesters. The signal can, therefore, be ignored.

3. A review of the harvesting requirements in Region II has been made and it has been decided to request you to arrange for the following transfers for MICA to be effected by MICA - the soldiers to remain on loan to Region II until 5 July :

Train No.2 of 12 June containing 12 officers and 692 ORs of 350 Infantry Regt.

Train No.4 of 15 June containing 13 officers and 778 ORs of 33 Infantry Regt.

(signal Nav 658 of 7 June refers)

4. I shall be grateful to hear that these arrangements have been made.

1. Attention is invited to the attached letter from Headquarters, A.A.I., C.M.F., 2030/35/Q2 dated 4 June 44, which you will note purports to constitute an instruction or directive to, among others, the Commanding General, Peninsular Base Section.

1. In view of the coming harvesting season consideration should be given to the possibility of the evacuation of granaries and barns that may be at present occupied by troops. In order to provide cover for the new season's crops, such granaries and barns should be cleared where possible.

2. Where pasture or ground not under cultivation is available the release of these premises should be made as soon as possible. Where alternative covered accommodation is not available, it may be necessary to move troops into camp sites. In selecting such sites the principle contained in this H.Q. letter 2030/35/Q2 dated 25 May 44 will be followed. If however the only suitable sites are at present under cultivation, moves will be phased so as to allow the crops to be cut and gathered.

TO : Chief Commissioner.

1. 2OAO AAF 5 Army Field visited ROME yesterday. He reports that the city appears to be in complete running order. One water viaduct has broken down but it seems a matter of days only for this to be repaired.

2. Public utilities and trams, etc., are running smoothly, government offices are functioning, there was food for two days and a civilian transport company is operating food from ANZIO.

3. Colonel Mayne's personal estimation is that the population has been increased by 1-200,000 above normal.

4. Colonel Mayne described the difference between the apparent normality of ROME and the devastation just outside the city as Gilbertian.

SUBJECT: Control of Civilian Movement - Entry into City of Rome and Fifth Army Area.

TO : Distribution below.

1. It is anticipated that numerous applications will be made by civilians as well as by Italian officials for permission to enter the City of Rome and Fifth Army area.

2. The granting of such permission will depend upon the military operations in progress and upon the expediency of allowing additional civilians into Rome which is already seriously overpopulated.

3. Such permission will be given subject only to the following conditions which must be strictly observed.

4. For this purpose the control of movement will operate in three phases:

Phase I in which all movement into the City of Rome as well as into the Fifth Army and Corps areas will be prohibited without the prior approval of C.G.S., HQ. A.A.I. This phase is already in operation and applies equally to Allied personnel as well as to civilians. Special instructions as to members of A.C.C. are contained in 750/2/CA of 5 June 1944.

Phase II in which for purposes which are essential and which will assist the prosecution of the war, and for these only, permission may be given by A.M.G. Rome or Fifth Army for entry into the City of Rome or into those Provinces which are still part of Fifth Army or Corps areas. Where members of the Italian Government or essential Italian officials are concerned, or in other exceptional circumstances, application may also be made to this Headquarters. In cases of Italian Government officials applications will be made to the Secretary General's Office in accordance with the existing practices. The Secretary General will pass these applications to R.C. & M.G. Section. All other such applications for travel which satisfy the AMG/ACC Officer to whom they are presented, must be forwarded to Security Branch of the R.C. & M.G. Section where the matter will either be dealt with or referred to the AMG of destination.

The date on which Phase II will operate will be notified as soon as possible.

Phase III in which in addition to purposes authorised during Phase II, civilians will be permitted to travel for urgent business or domestic reasons. Such permission depends upon the position of the Army Control Line and will be dealt with in the same way as travel into A.M.G. Provinces is controlled at the present time. The date of Phase III will also be notified and will commence at the conclusion of Phase II.

6. This order should be read as an addendum to Control of Movement Order,

1. A copy of correspondence received from Mrs. Elvira Angelina Petroro is forwarded for information and action.

2. Since the British Consulate General has not been officially opened, there is nothing at the present that can be accomplished to effect the renewal of Mrs. Petroro's passport. Care should be taken to record the date of her original application for renewal so that in the event an official question might arise, her passport status would be protected. It is expected that the Consulate will be opened in the near future and sufficient publicity given to those who are concerned.

3. It is requested that Mrs. Petroro be informed that her question of repatriation may be taken up with the British Consulate General when it is opened. Further, that in view of the present transportation problem and other physical difficulties, it is not possible to effect immediate repatriation. She should be informed to be patient in this matter.

SUBJECT: Wine Shops, etc. - Control of.

TO : HQ AAI.

Reference your 5128/1(PS) of 23 May 44.

1. The sale of intoxicating liquor without a license is punishable under Italian Law by fine or imprisonment.

2. Licenses are issuable by the Questore, and in Military Government territory of Italy he can be instructed not to grant additional licenses. In Italian Government Territory a request to the same effect would without doubt receive favorable action.

3. Penalties for infringement of the licensing laws are not very severe, and an urgent request has been made to the Italian Government to increase them. A Decree to this effect would be enforceable only in Italian Government Territory unless extended to Military Government territory.

4. The duty of enforcing the law falls on Prefects and Questore. In occupied territory their activities can be directed, and in Italian Government territory there will probably be little difficulty in obtaining co-operation.

5. In areas in which trouble is particularly to be anticipated, it would appear to be desirable for the local AFHQ, Public Safety Officer, Questore, and Civil Police to meet to decide the plan of action which will best meet local conditions and to advise (or instruct) Italian Officials as to how they can best co-operate in reducing crimes arising through excessive drinking.

6. Licenses can be suspended or revoked by the Questore in case of disturbance or brawls, which is a valuable aid to enforcement.

7. In Military Government territory a Provincial Order would suffice to empower Questore to suspend or revoke licenses for supplying drink to:

(a) soldiers during hours prohibited by the military,
(b) persons who are already intoxicated, and
(c) houses within a stated distance of camps, etc.

Declassified E.O. 12356 Section 3.3/NND No. 785017

8. The licensing laws, while not so comprehensive as those in England and the United States, are fairly satisfactory if adequately enforced.

1. I have to refer to my letter 329/6/Cm of 28 April 1946 addressed to A.C.C. Liaison Hq. A.A.I. [redacted], regarding the possible change of location of the range.

2. You will realise the importance of harvesting every possible crop of local grown foodstuffs (thereby proportionately reducing the amount to be imported in Allied ships) cannot be over-emphasised.

3. If it is not possible to change the location may the following suggestions be implemented, if possible :

(i) The greater part of the crop of 90,000 quintals can be saved if the farmers are allowed access to the land during the morning hours from now until harvest time.

(ii) The harvest (beans and grain) is expected to commence on or about 5 June and will take one month to cut and gather off the land. Work should continue all day during this period.

4. In view of the importance and urgency of the matter I would again ask that the times for bombing practice be limited or entirely suspended for one month.

5. The officer in charge of the range has been most co-operative in giving notice of the times when the range is out of bounds, and so far crops have not been damaged by bombs. However, in view of the extreme urgency of completing the harvesting in this area I would urge that sympathetic consideration be given to suspension of bombing activities in this area for a period of one month, commencing forthwith.

The Refugees Branch were consulted but stated that they were only concerned with refugees and not with ordinary civilians and could not help. Public Health Sub-Commission stated that they could only provide medical supplies and were not in a position to supply the stores required. The Italian Army Headquarters was also contacted and while they admitted this unit should be supplied through them, they had unfortunately no stores available.

3. Attempts were made by Liaison Officer through AAI to see if they could assist but as this unit was not on the British Order of Battle it was not their responsibility. At the present moment the matter rests with the Army Sub-Commission and they will endeavor to supply something, although they stated very definitely they had no lamps or electric generator sets for distribution and did not expect to be able to get them.

4. It is regretted that assistance has not been obtained for this unit before, but we think it right to inform you of the position. The matter will continue to receive our attention.

SUBJECT: U.S. Soldier's Dependents Residing in Italy

TO : Hq., 800th Engineer Forestry Co., APO 782, U.S. Army

1. Lt. Walin's note which was left in my office on June 1st has presented rather a knotty problem. The information is now available. He asked what should be done with the family of an American soldier whose wife and three children from Yugoslavia met him here in Italy. The specific questions asked were; can the family be brought to the United States, or, what would become of the family if the soldier were ordered by the Army to leave Italy.

2. If the soldier wishes to try to send his family to the United States, he should request from the U.S. Consul General's office, Naples, Form #633, entitled "petition for Relative to Enter U.S.". It is regretted that one of these forms could not be inclosed in this letter but the Consolate does not officially open until July, therefore, all its equipment is not in hand as yet. When you get the petition form, it should be completed and send to Washington, D.C., through military channels. A Judge Advocate General officer can act for the Consul in making out the form. Furthermore, the customary fee is waved for military personnel. Please caution the enlisted man concerned to be patient in this matter.

3. Should the soldier be ordered out of Italy before the action in paragraph two could be completed, the family may reside anyplace in Italy they wish, so long as he could support them. Care should be taken to observe Italian laws, present and pending, effecting Alien Registration. If, however, the soldier has not been able to arrange an allotment for them and they should become destitute, they could be sent to the No. 1 Transit Camp for Internees and Displaced Persons near Bari. SUBJECT: U.S. Soldier's Dependents Residing in Italy

TO : Hq., 800th Engineer Forestry Co., APO 782, U.S. Army

1. Lt. Malin's note which was left in my office on June 1st has presented rather a knotty problem. The information is now available. He asked what should be done with the family of an American soldier whose wife and three children from Yugoslavia met him here in Italy. The specific questions asked were; can the family be brought to the United States, or, what would become of the family if the soldier were ordered by the Army to leave Italy.

2. If the soldier wishes to try to send his family to the United States, he should request from the U.S. Consul General's office, Naples, Form #633, entitled "petition for Relative to Enter U.S.". It is regretted that one of these forms could not be inclosed in this letter but the Consolate does not officially open until July, therefore, all its equipment is not in hand as yet. When you get the petition form, it should be completed and send to Washington, D.C., through military channels. A Judge Advocate General officer can act for the Consul in making out the form. Furthermore, the customary fee is waved for military personnel. Please caution the enlisted man concerned to be patient in this matter.

3. Should the soldier be ordered out of Italy before the action in paragraph two could be completed, the family may reside anyplace in Italy they wish, so long as he could support them. Care should be taken to observe Italian laws, present and pending, effecting Alien Registration. If, however, the soldier has not been able to arrange an allotment for them and they should become destitute, they could be sent to the No. 1 Transit Camp for Internees and Displaced Persons near Bari. If they have any liklihood of getting money so they can be independent, they might be held at this camp, or some other displaced persons camp, until the money was made available. However, if they become charity cases and the exigencies of war demand that such displaced persons be evacuated, it would be done through the Yugoslav chain of camps and they would probably finally be located in one of these camps or in the Middle East.

4. In any event, they must be sure to register with the Record Bureau of the Internees and Displaced Persons Subcommission of A.C.C. at Bari, where all the data on all displaced persons coming into Italy is kept and the husband would then be able to locate them. Furthermore, if the third child has not been heard of as yet, it would be well to check with this bureau who may very likely have a record of its whereabouts.

5. Should the action indicated in para. 3 above be necessary, they should be given a statement from you as Unit Commander of the soldier's organization, stating who they are and what the situation is.

2. This matter has been under very careful consideration with all the Sub-Commissions of this HQ concerned who have tried to consider, not the convenience of the population, but the practical effect of such an order.

3. The consensus of opinion is that firstly, even though the law was passed it would be impracticable to enforce it in the larger towns, and secondly, that if it was enforced it would have very little effect upon the incidence of V.D.

4. It must be remembered that in dealing with the civilian population, which has very little sense of discipline, the mere issuing of legislation is useless. It is the enforcement thereof that has to be considered.

5. In Naples there is a population of 950,000 and it may be assumed that there are over 40,000 boys and youths between the ages of 12 and 19. In order to endeavour to keep these youths off the streets the Carabinieri would have to concentrate on this one problem to the exclusion of other duties. The same principle applies elsewhere.

6. Statistics from the Naples Prohylactic Stations indicate that the maximum number of troops go to brothels during mid-afternoon and after 1700 hours there is a steady decrease.

7. It is noted that in the town of Bari such a curfew order is in existence but it would be interesting to know how far it has been enforced.

8. It is the earnest wish of this HQ to keep the incidence of V.D. down by any practical means but it is considered that the curfew for minors is not practicable and should not be enforced.

SUBJECT: Army Control Line.

TO : F.Q., A.A.I.

1. Army needs necessitated a comparatively large scale evacuation of civilians from the Northern end of Region 3 and the Southern part of Region 4. More recently, long distance refugee movement was relaxed, and short distance transfers were made in order to allow local evacuees to filter back to their own localities as the Army advanced.

2. It is now strongly urged that the Army Control Line be the Northern boundary of Region III.

3. The normal economic boundary has been the Garigliano River in that Italians North of that River have gravitated to Rome and those South of the Garigliano have centred in Naples.

4. The distance from Naples to the Garigliano is less than half the distance at the moment from the Garigliano to the combat front, a distance or buffer increasing daily.

5. The Army has evacuated considerable areas South of the Garigliano and there are now comparatively few troops.

6. Local agriculturists consist of small owners of tenants whose land is North of the Volturno but who live in towns South of the Volturno. There are hundreds of these people wishing to cross the Volturno for their harvesting. It will be almost impossible to issue passes to all these people and their dependent assistants. They will make every effort to cross the Volturno if passes are denied. The harvesting of crops and the resumption of cultivation will tend to reduce our responsibilities, lessen unemployment, and generally assist in rehabilitation and increased food production.

7. Refugees placed in Naples Province have tried to return to their homes but denial of passes at the Volturno and Calore Rivers has caused a block of several hundreds to accumulate at Caserta adding to congestion, food shortage, and destitution. A couple of hundred refugees have collected in Santa Maria Capua Vetere. Increasing numbers will, without doubt, drift back.

8. Region III H.Q. would control the movement of refugees Northwards along the Naples-Albanova-Cancello (Volturno River), thus avoiding Route 6, and along the Naples-Caserta-Triflisco (Volturno River) road for the smaller

My Dear

I enclose copy of letter from HQ A.A.I. together with copy of a letter from H.A.A.F. on the subject of Analysis of Air Attacks on Communication Targets in Italy. As you will see the action on this is considerably overdue.

From my knowledge of the "G" Force it seems this is clearly a job for them. On the other hand it is difficult to believe that General Marshall has not thought of this. I always understood that one of "G" Force's main jobs was to go for archives of various descriptions in Rome.

Can you find whether or not it is the job of "G" Force. If it isn't, of course, I will act as indicated in the A.A.I. letter.

Yours

TO : Regional Commissioner, Region VII.

1. Reference your RVII/AA/210 dated 21 May 1944.

2. Additions to the staff of the Chief Accountant during the last few days now make it possible to provide a Supply Accountant from this Headquarters and he should have reported to your Headquarters by the time this reaches you.

3. For the reasons given in my previous letter, however, I cannot appoint another officer to act as Regional Chief Accountant. As however the work involved will be very small, the officer to be assigned as Supply Accountant should also fulfil the functions of Regional Chief Accountant and should be carried on the strength of the Finance Division. This is admittedly a departure from normal procedure, but I feel that the work involved in handling both the Supply and the Financial Accounts of Region VII is well within the capabilities of one officer.

4. As already explained, the Sub-Accountants in Region VII draw their funds from AFA Bank and their accounts must therefore be incorporated with those of AFA Bank. Although AFA is not a Regional organisation but is directly dependant from Headquarters, each branch of AFA however its own accounts and your Supply Accountant in his capacity of Chief Accountant should therefore send his monthly accounts direct to AFA Bank for incorporation in their books. The Accountant has been duly instructed before reporting to you as to the exact procedure to be followed.

5. Supply Accounts should be submitted monthly direct to the Chief Accountant, HQ. A.C.C. The Accountant has also received instructions on this matter before reporting and will be further instructed by Major Hall before taking over from him.

2. The following modifications in the procedure outlined are suggested:

a. Inquiries, in duplicate, to be forwarded to Records Bureau Internees and Displaced Persons Sub-Commission who will pass on to Regions only when necessary.

b. Inquiries for Italians.
i. Those received from Italians to be passed to Italian Red Cross.

ii. Those received from Allied nationals to be passed to Records Bureau until Italian Red Cross can handle. To be reviewed in, say, 3 months.

3. This procedure would avoid duplications and centralise the inquiries in one Headquarters.

3. Civil Affairs Officers and Provincial Officers will appreciate the importance of this matter and remember the difficulties which have arisen in other Regions owing to the requisitioning of civil jails by the military authorities.

4. The interpretation of the phrase "operational necessity" is wide and there will be cases where military authorities will wish to requisition. Civil Affairs Officers should do their utmost to prevent this and if requisitioning is carried out contrary to the principles laid down above, or unreasonably, the strongest protest should be made in the name of this Commission and the matter reported at once to this Headquarters. In all cases of requisitioning of prisons, details should be sent to Headquarters.

3. Civil Affairs Officers and Provincial Officers will appreciate the importance of this matter and remember the difficulties which have arisen in other Regions owing to the requisitioning of civil jails by the military authorities.

4. The interpretation of the phrase "operational necessity" is wide and there will be cases where military authorities will wish to requisition. Civil Affairs Officers should do their utmost to prevent this and if requisitioning is carried out contrary to the principles laid down above, or unreasonably, the strongest protest should be made in the name of this Commission and the matter reported at once to this Headquarters. In all cases of requisitioning of prisons, details should be sent to Headquarters.

MEMORANDUM TO: Army Sub-Commission.

1. The following is quoted from a memorandum dated 14 May 1944 from the Regional Commissioner, Region II, to the Executive Commissioner:

"4. In the opinion of HQ. District and Sub-Area, alone of all the units in Bari, the presence of the 9th Italian Army Corps Headquarters is quite redundant. From inquiries it would seem that this unit's furnished barracks, supported by sundry flats in which their officers live, would provide full accommodation for HQ., Region II. The only possible solution at present is to make an exchange for accommodations with the 9th Italian Army Corps. This proposal is very strongly opposed by the Army Sub-Commission, A.C.C., and the Italian War Ministry.

* * * *

"5. In view of the above, I am compelled to report that I am unable to move this Headquarters to Bari at the present or in the near future, unless it can be arranged by higher authority to exchange accommodations with the 9th Italian Army Corps and some Italian personnel. ....."

2. In view of the greater convenience and efficiency which would result from the removal of Headquarters Region II, to Bari, and the frequently-expressed desire of the Chief Commissioner that this move take place as soon as possible, will you please comment on the above quoted material setting forth specific reasons why the proposed occupation of quarters and barracks occupied by 9th Italian Army Corps Headquarters is "very strongly opposed"?

3. It is appreciated that there may be and probably are, cogent reasons for your position, and the purpose of this memorandum is solely to obtain full information. No criticism is implied.

TO : Colonel J. T. Zellars
Regional Commissioner, Region 2.

1. In accordance with your oral request at the Regional Commissioners' meeting, I am sending to you by name copies of letters of 3 May and 17 May on the subject of use of fire-boats for transport and jettison of bombs at Bari.

2. Please note that this is strictly District 2 business and that our only interest is in making certain that the proper officers of that formation are acquainted with the circumstances.

3. When you have had an opportunity to attend to the matter I should appreciate a short report so that we may close our files.

ALFRED C. BOWMAN
Lt. Col.
Chief, Liaison Division.

SUBJECT: Red Cross Workers.

TO : Mr. W. W. Jefferson,
Director Civilian War Relief,
American Red Cross,
APO 782, US Army.

1. I have to thank you for your letter of May 29th on the subject of additional Red Cross personnel.

2. I agree with your conclusions with the exception of the number you estimate will be adequate for the Refugee Branch. I agree that we can and should use Italian Red Cross personnel, but it is necessary to mix American and British personnel with these Italians in order to make them effective.

3. I still hold that 50 is the proper number for this Branch, particularly as we can have no assurance that the Italian Red Cross personnel will be available for work in Rome and north of this city. I am prepared to reduce my request to 20 for the moment with an additional 30 if we find conditions in Rome are not satisfactory. I would prefer to ask for 50 straight away.

4. At the same time you may think that the 15 personnel earmarked for the Regions X, XI and XII can be used for temporary work with the Refugee Branch, and I would be prepared to reduce the number for Refugee Branch by 15 if you agree, thereby making the total number requested for this Branch 35.

To: Chief Commissioner/ 31 May 1944.

1. At the Regional Commissioners Meeting this morning your Regional Commissioners were unanimous in recommending that some form of inducement should be arranged in connection with the collection of the grain crop.

2. It was generally agreed that inducement should take the form of the furnishing of a coupon to every farmer who had brought in 100% of the grain for which he was liable.

3. This coupon could then be exchanged for some commodity for which there is vital need.

4. The consensus of opinion was that shoes were the most necessary article; failing shoes, fertilizers or cotton piece goods should be provided. It was agreed that a combination of all these three could be arranged if sufficient quantity of one article was not available.

5. The amount to be drawn by exchange coupon would naturally vary with the amount amassed, but it would be necessary to have present in the country exchange goods at the time of collection or very soon after, and in any case before arrangements were put in train for the olive oil collection.

6. It was strongly recommended that immediate steps should be made to arrange for the import of shoes, fertilizers or cotton piece goods, or all three, in order that this scheme could be put into operation and that the necessary administrative machinery be arranged with the Italian Government.

7. Colonel Adams who was present at the meeting promised to take the matter up at once.

SUBJECT: Pilfering.

TO : Hq. No. 3 District.

1. Reference your 163/G of 16 May 44 following my 319/30/CA of 12 May 44.

2. The Regional Commissioner of Region III has issued instructions for notices in English and Italian to be printed and posted in the vicinity of all Allied depots, including those mentioned in your communication. This notice will draw attention to penalties for stealing military property belonging to the Allied Forces.

3. A campaign will be started in the Italian press to the same end, with particular reference to the theft of food, clothing and ammunition.

4. Sindaci and other civilian officials in the vicinity of these depots are being informed that such robberies reflect upon their own ability to keep order and might render them liable to be removed from office.

5. It is hoped these measures will result in a considerable decrease in the amount of pilfering hitherto experienced.
